ONE OF SADDEST WRECKS IN THE WEST

Twenty-Three Dead. Eight
Terribly Injured and More
Than Fifty Hurt.

CAUSE OF WRECK HAS NOT YET BEEN LEARNED

Partial List of Dead and Injured
as Gathered to
Date.

Colton, California, March 29.—As a result of the disastrous wreck of the westbound Southern Pacific Sunset Express in the east Colton yards late yesterday, twenty-three dead bodies lie today in the local undertaking establishment, while eight terribly injured are in the hospital and more than fifty others, whose injuries are less serious, have been taken to Los Angeles. Among the dead are: ALBERT W. SHIE, mail clerk; GEORGE L. SHARPE, Munice, Indiana.

B. I. WALTERS, Sacramento, Cal. TWENTY ITALIANS.
Of the injured one is sure to die and several may not survive. The exact cause of the wreck has not yet been ascertained. The train was running at the speed of forty miles an hour at the time it struck the open switch. Ten of the fourteen coaches were derailed and three of them were smashed completely. Passengers on the Pullmans escaped injury.

List of Unfortunates
A. R. Withers, of Sacramento, Cal., cannot live; his arm is torn off and one eye destroyed.
Thomas Davis, Tucson, Ariz., leg crushed.

Julius Krotch, Coropolis, Pa.; limbs cut; badly bruised.
Cora Starkley, Bowie, Texas; foot broken, bruised.

J. H. Falconer, Roseville, Cal.; leg broken.
Two children of Falconer, aged four and nine years; cut and bruised.

Rest of relatives in Falconer party of eight uninjured.
Members of Florence Roberts' theatrical company uninjured, excepting Joe DeFore and Gregory Rogers.

Fred Ackerman, Ulica, N. Y.
Patrick Griffin, Lynn, Mass.
H. F. Walter, Mattoon, Ill.
Robert Wells, Cananea, Mexico.
Ida Schuman, Galloway, Neb.; limb cut, ear mangled.

Max F. Glenn, Los Angeles; head broken.
G. C. Rogers, Amador City; head cut.

Oscar Nelson, Los Angeles.
T. J. Denniston.
Seth Grand.

Twelve Italians, on way to San Francisco, injured.
A. R. Walters, Rocklin, Cal., arm torn from socket.

S. G. Jones, Los Angeles, wrist sprained.
Mr. and Mrs. I. D. Schuman, Callaway, Neb.; cut and bruised.

Miss Nellie Schuman; cut and bruised.
Mrs. Alice Schuman; ear nearly torn off, scalp wounds.

Mr. and Mrs. Wheeler, El Paso, Texas; cut and bruised; Mrs. Wheeler's wrist sprained.
Mr. and Mrs. Frank Toombs, residence not given, cut and bruised.

Mr. and Mrs. Peter Jensen, Galveston, Texas; cut and bruised.
Miss Elizabeth Roche, Phoenix, Ariz., cut and bruised.

Miss Minda McIntyre, Phoenix, Ariz., cut and bruised.
John Brower, Los Angeles; cut and bruised.

Stephen Woods, Richmond, Cal.; two arteries cut in arm.

BABY UNHARMED BY FALL FROM FLYING TRAIN

Found Safe and Sound in a
Patch of Weeds When
Father Rescues Him.

Topeka, Kan., March 29.—Tommy, the 3-year-old son of Mr. and Mrs. Ralph J. Webster of Cheyenne, Wyo., fell out of a car window of Union Pacific passenger train No. 2, which was running forty-five miles an hour, just before the train reached Lawrence Wednesday, and the boy escaped without a broken bone and only a few scratches and bruises on his face and arms.

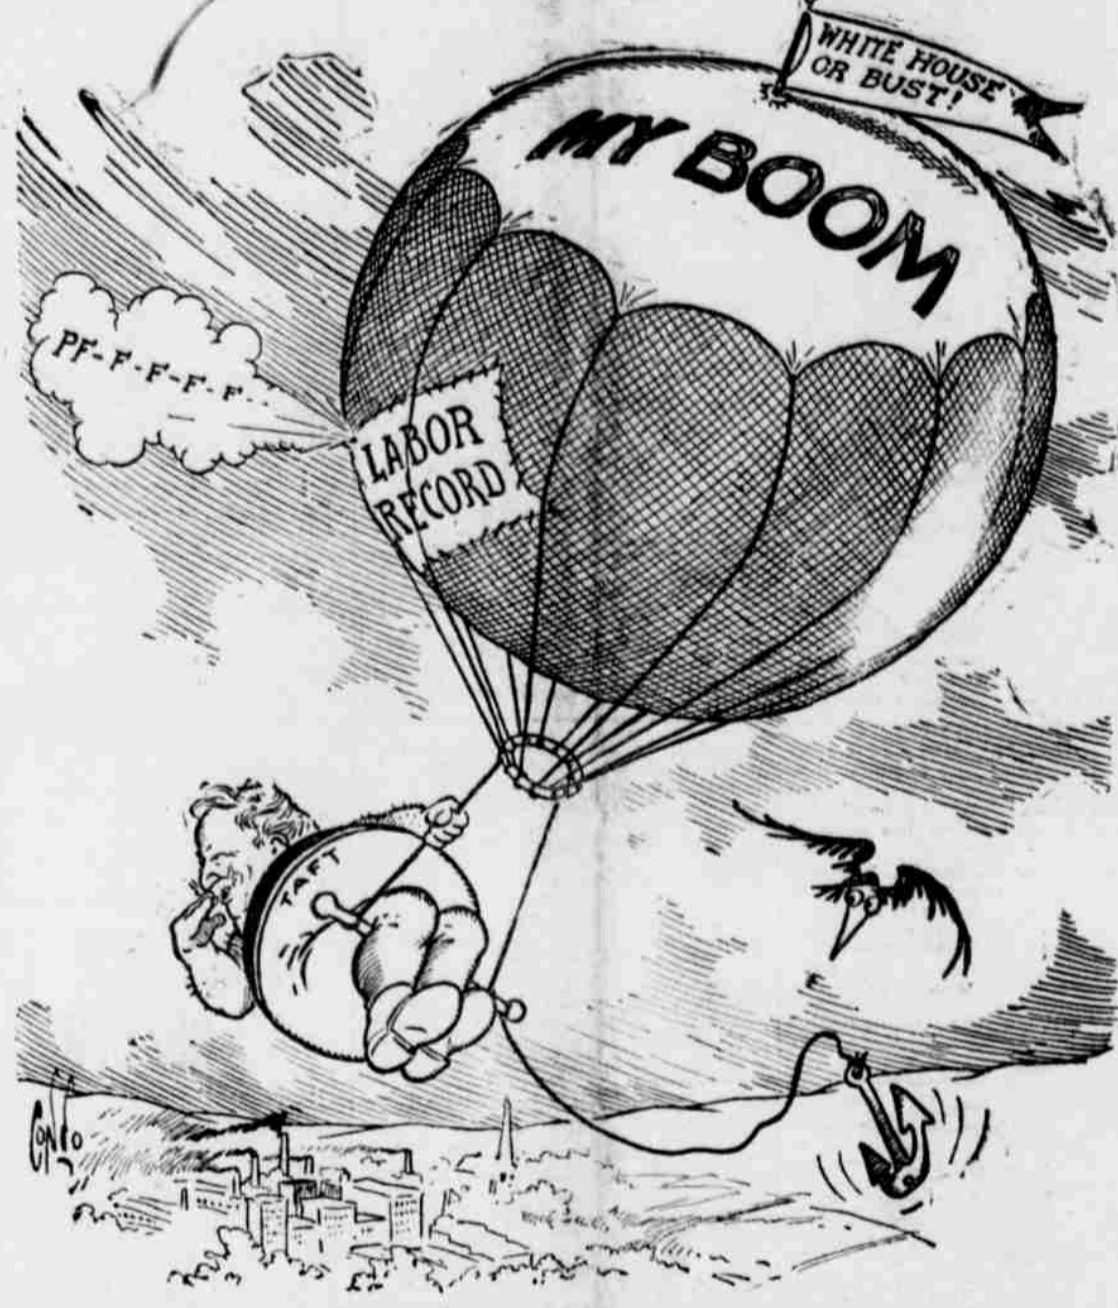

Mr. and Mrs. Webster and son were on a tourist sleeper and the little boy was playing in his father's lap. The boy was watching things out of the car window. Leaning out too far, he tumbled out.

The father and mother and passengers did not know how to stop the train and it had gone two miles before a trainman was found to bring it to a halt. Several passengers, including Webster, were injured. Harris went back to where the child had fallen. They found him sitting in a patch of weeds twentyfeet from the track.

FA-PRECHER IS HUNG
FOR DASTARDLY MURDER.
Spartanburg, S. C., March 29.—Thomas Harris, a young white man, formerly a Baptist preacher, was hanged in the jail yard at Gaffney, S. C., today, for the murder of Mrs. Hortense Morgan, an aged white woman, last November. Before the black cap was adjusted Harris preached his own funeral sermon. He killed the woman by cutting her throat, after which he took \$500 from her.

THE LABOR RECORD OF JUDGE TAFT MAY POSSIBLY WRECK WHITE HOUSE BOOM

Will That Leak Dent the Boom?

IS NOT POPULAR IN WORKING CLASSES

Call Him "Injunction Taft."
Because of Decision in
the Phelan Case.

MOST SWEEPING IN THE HISTORY OF UNITED LABOR

Did Much to Break Strike Against
Pullman Company and Con-
tinue Power of Octopus.

Cincinnati, March 29.—When all other obstacles have been removed there will remain Taft's labor record as the rock upon which his boom may split.
His record is contained in the celebrated Phelan case and the decision rendered, one of the most sweeping and important in the history of trade unionism, won for him the title of "Injunction Taft." It is still to be heard in references to him by labor men.

The Phelan case was the outgrowth of the American Railway union strike, which originated in Chicago. In 1894, Taft presided in the United States circuit court here and had the United States Marshal, Samuel M. Felton, receiver for the Cincinnati Southern railroad.

The A. R. U. had admitted to its ranks employees of the Pullman shops who were trying to force the restoration of a cut in their wages. Their grievance was taken up by the thousands of railroad men in the A. R. U. who demanded that the roads should cancel their contracts with the Pullman company. The roads refused and the men, with Eugene V. Debs as their leader, declared a strike that covered the country from the Alleghenies to the Pacific.

The A. R. U. had admitted to its ranks employees of the Pullman shops who were trying to force the restoration of a cut in their wages. Their grievance was taken up by the thousands of railroad men in the A. R. U. who demanded that the roads should cancel their contracts with the Pullman company. The roads refused and the men, with Eugene V. Debs as their leader, declared a strike that covered the country from the Alleghenies to the Pacific.

Receiver Felton went into Judge Taft's court, July 2, 1894, with an intervening petition for an injunction against Phelan and the strikers. He claimed that the strike and the use of force to enforce it interfered with his operation of the road under the United States court's order. Judge Taft issued an injunction against Phelan from "either as an individual, or in combination with others, inciting, encouraging, ordering or in any other way preventing the operation of the road."

Strike injunctions were comparatively new in those days and union men, roused to white heat over the decision, denounced the judge as "Injunction Taft" and "Phelan's friend."

The injunction had been in force only two days when Phelan was arraigned before Judge Taft on the charge of violating the order. He denied that he had come to Cincinnati for the purpose of inciting a strike and claimed his only object was to explain the Chicago situation.

Judge Taft held that violence was not necessary to constitute contempt of court, as interference by instigation and maintenance of the boycott were sufficient to bring the railroad into contempt. He sentenced Phelan to six months in the Warren county jail.

In his decision Taft clearly set forth his views on the legal status of trades unionism. The railroad employees had a right to organize a labor union, he said, which should take action as to the terms of their employment. Such action by workmen was beneficial to themselves and to the public. If Phelan had come to the city when the receiver reduced wages 10 per cent and had urged and maintained a peaceable strike he would not have been in contempt of court even if the strike had impeded the operation of the road. But his coming had nothing to do with their service or pay, the men being satisfied.

Every act of the strike, Judge Taft held, was unlawful because the purpose of the conspiracy was unlawful. It was to enforce a boycott which the Pullman company, to compel the railroads to withdraw from a mutual-profitable relation with a third person for the purpose of injuring the third person. "The purpose was to starve the railroads and the public into compelling Pullman to do something which they had no lawful right to compel him to do."

Cincinnati labor circles regarded this decision as a stinging blow against their interests and they have considered Taft as an enemy ever since.

BREWERY WORKERS IN
ST. LOUIS ON STRIKE
St. Louis, March 29.—Brewery workers to the number of 2,500, said to involve workers from every brewery in St. Louis, went on a strike this afternoon for an increase in wages, ranging from 5 to 50 per cent.

THREE MEN SHOT BY TEXAS DES- PERADOES

Wounds One Fatally. Disables
Another. Wings Two
Bystanders.

Fort Worth, Texas, March 29.—Constable John W. Wales shot through the neck and wrist and will die; John Adams, city marshal, shot above the left eye and ear; two bystanders with flesh wounds; Robert Hargrove, a well known character of Fort Worth, in flight across the country, barricaded in his house, surrounded by an armed mob of 500 people, went on gunning and the result of a pitched battle fought in the heart of the town of Bowie, Texas, 56 miles north of here, Wednesday afternoon.

The promise that the Santa Barbara Tie and Pole company would be organized and the guarantee of the men composing the company to furnish the railway company with sufficient ties and timber in conjunction with the immense quantities of ties that are furnished by the Horabin-McGaffey company, operating on the American Lumber company's holdings, and those from the Gross Kelly company, at Las Vegas, was one of the main reasons which induced the railroad company to locate its plant in Albuquerque.

It has bought, leased and secured options upon large tracts of timber lands suitable for its purposes and will conduct a general tie and pole business on a large scale.

The officers of this company are: William F. Johnson, president of the American Lumber company; president; A. B. McGaffey, vice president and general manager; W. S. Strickler, vice president; Ralph Johnson, superintendent. Among the other strong business men interested in the new company is Col. W. S. Hopewell, who also will take an active part in the management of the company's affairs.

The company will be one of the largest and strongest of its kind in the southwest. Its headquarters will be in this city.

The whole matter of the location of the tie treating plant in Albuquerque, which has been so industriously urged by the Commercial club and business men, now hinges upon the success of the committee of business men appointed by the club to secure the funds necessary to purchase the land required for the plant. The club has an option upon a tract of land between Albuquerque and the stock yards which is just what is needed by the railway company.

When the Commercial club, its officers and the business men of this city to ascertain if there were any in this city who had entered the United States unlawfully. He found only eighteen Chinamen in the city, Inspector Green also looked into the status of the Japanese residents with the result that two were placed under arrest and will be taken to El Paso by the inspector for trial. One escaped when deputies tried to arrest him, proving himself the best runner in the crowd. The inspector will probably leave tonight for El Paso with his prisoners.

FOUND BUT EIGHTEEN CHINAMEN IN CITY

Inspector Green Put in Hard Day—
Arrested Two Japanese Who En-
tered Country Unlawfully—One
Escaped.

W. B. Green, Chinese inspector, or for the district composed of New Mexico and Texas, whose headquarters are in El Paso, spent today in Santa Fe rounding up the Chinese residents of this city to ascertain if there were any in this city who had entered the United States unlawfully. He found only eighteen Chinamen in the city, Inspector Green also looked into the status of the Japanese residents with the result that two were placed under arrest and will be taken to El Paso by the inspector for trial. One escaped when deputies tried to arrest him, proving himself the best runner in the crowd. The inspector will probably leave tonight for El Paso with his prisoners.

SANTA FE LOCATES ITS BIG TIE PLANT HERE

Hard Work of Commercial Club and Business Men Wins
Merited Result—Corporation Organized to Supply Material
For Treatment—Will be of Inestimable Benefit—To Handle
6,000,000 Ties Annually—Citizens Must Furnish Site.

As the result of the decision on the part of the Santa Fe to locate in this city its enormous tie treating plant, which will be one of the largest in the world and which will cost a quarter of a million dollars and employ several hundred men, the Santa Barbara Tie and Pole company was organized last evening. It is composed of Albuquerque business men and will furnish the greater part of the ties to be treated by the new plant for a great many years to come. This company, which is capitalized at half a million dollars, will also give employment to a big force of men in many sections of New Mexico.

The promise that the Santa Barbara Tie and Pole company would be organized and the guarantee of the men composing the company to furnish the railway company with sufficient ties and timber in conjunction with the immense quantities of ties that are furnished by the Horabin-McGaffey company, operating on the American Lumber company's holdings, and those from the Gross Kelly company, at Las Vegas, was one of the main reasons which induced the railroad company to locate its plant in Albuquerque.

It has bought, leased and secured options upon large tracts of timber lands suitable for its purposes and will conduct a general tie and pole business on a large scale.

GOVERNMENT TO TRY WORK OF MEDIATION

Knapp and Neil Leave for Chi-
cago to Try and Medi-
ate Trouble.

TRAIN MEN SAY THEY HAVE MADE UP MIND

Little Hope of Preventing Strike
Unless Managers Shall Offer
Concessions.

Chicago, March 29.—The attitude of the members of the Order of Railroad Conductors and the Brotherhood of Railway Trainmen today was more favorable towards possible arbitration. It is reported today that Chairman Knapp of the latter, Knapp and Neil, of the United States Labor commission, would leave Washington for Chicago sometime during the day, and the labor leaders declared they are willing to await their arrival before taking action.

At the same time Grand Master Morrissey of the Trainmen and President Garretson of the Conductors, declared that the attitude of the men has not changed and is not likely to change.

It is possible that another meeting between the representatives of the men and the general managers will be held after Messrs. Knapp and Neil have arrived. Morrissey said today that such a meeting would be held, provided there was anything new to discuss, but that the men had reached a final stage so far as the last proposals of the railroads were concerned. These have been finally rejected by the men, he said, and they will not again be considered unless new proposals go with them.

WASHINGTON MEN HAVE
STARTED FOR CHICAGO
Washington, March 29.—Chairman Knapp of the Interstate Commerce Commission and Charles P. Neil, commissioner of labor, left here today for Chicago to endeavor to settle the dispute between the managers of the western railroads and the trainmen. They expect to arrive in Chicago about 9 o'clock tomorrow and arrangements have been made for an early conference with the trainmen.

AGREEMENT LOOKS TO
FEDERATION OF LABOR
Buffalo, March 29.—The secret conference between the Brotherhood of Railway Conductors, which has been in progress here for two days, closed today after the ratification of the agreement formulated at Indianapolis recently to federate on all matters in dispute with the railroad companies.

ROCK ISLAND SUFFERERS
FATAL WRECK IN OKLAHOMA
Oklahoma City, March 29.—The Rock Island passenger train No. 1, drawn by two engines, ran into an open switch at Council, eight miles west of this city at 5 o'clock this morning, wrecking both engines and the mail and baggage cars, and killing one engineer, a unknown negro, and fatally injuring one fireman and seriously injuring a porter. The passengers were severely shaken up and seven of them are suffering from severe bruises.

MIDDIES PRACTICED
HARD FENCING BOOTS.
Annapolis, Md., March 29.—The Middles fencing team has been practicing the Cornell and the Philadelphia styles of fencing in the city today's tournament, intercollegiate, in New York. The Middies have increased their efficiency greatly, and it is expected that they will give a good account of themselves.

NO THAW BUSINESS WAS
HEARD TODAY AS IT
IS GOOD FRIDAY

He Conducted Himself Before
Commission to Satisfac-
tion of Counsel.

ONLY FOUR EXCHANGES IN
WORLD DID BUSINESS TODAY

This being Good Friday, there is a full in the Thaw case. His examination by the commission in Lunacy today will be resumed tomorrow morning. The proceedings will be private, as were those of yesterday.

It was learned last night that when the commission asked Thaw to take the witness chair yesterday he made a short statement, the purport of which was that he was entirely willing to be interrogated, but he wished the questions to be plain so he could understand them. It is said that Thaw was nervous at first, but soon became cool and his self-possession lasted throughout the whole two hours he was in the witness chair.

The questions asked were all aimed at finding out how well equipped he was mentally to consult with his attorneys. His answers were sane and coherent in manner, he did not support himself as a sane man could.

ALL BUT FOUR OF THE
EXCHANGES CLOSED TODAY.
New York, March 29.—The stock exchange and the consolidated exchange, which have decided to remain open on Good Friday but close tomorrow, are the only exchanges in the world except the metal exchange and the maritime exchange which will do business today.

SOLEMN DAY OF
GOOD FRIDAY OBSERVED
In Churches of Albuquerque—Most
Sacred Day in Calendar of Year—
Followed by Easter Rejoicings.

Today the churches of Albuquerque were keeping sacred the memory of the death of the Saviour in the observance of Good Friday. This is the most solemn day in the year among Christians and is observed particularly by Catholics and Episcopalians most rigidly. It is followed by the day of resurrection when the churches will be gaily decorated and the choirs will sing hymns of praise and rejoicing.

Washington, March 29.—The president last night signed an executive order requiring the Philippine commission to issue the call required by law for the general election of delegates to the first Philippine assembly.

IMPORTANT CHANGE IN
GENERAL POSTAL MAGNATE.
Washington, March 29.—Former Representative James T. McCallister of Minnesota, today was sworn in as second assistant postmaster general, in succession to Wm. S. Shallenberger.

RELIEVED TO MAKE HIS
REPORT ON THE ORIENT.
Washington, March 29.—Lieutenant General MacArthur was today relieved from command of the Pacific division and ordered to Milwaukee. The action was taken at the request of MacArthur, who found it impossible while discharging the duties of commander in chief of so important a military division to carry out his scheme of completing the elaborate report he was charged to make by the war department upon the result of his long trip of inspection in the Orient. The probable completion of this task will consume the remainder of the year of MacArthur's active service.

STORM IN SOUTH DOES DAMAGE FEW DEATHS

Extended Through Indian Ter-
ritory and Down to
Texas.

WENT OVER INTO THE BORDERS OF OKLAHOMA

Later Advices Show Damage Not
so Great as at First Was
Reported.

Oklahoma City, March 29.—A strong wind storm, assuming almost the proportions of a tornado, swept over the western part of the Indian Territory to the Texas line last night, doing some damage to small buildings at Joff and Marietta. So far as known no lives were lost.

NEWS REPORTED FROM
FORT WORTH, TEXAS.
Fort Worth, March 29.—Reports of a severe tornado at Marietta, I. T., reached here last night, but on details as to the number of killed, as the wires are down and the confirmation can be had. The tornado also visited Roff, I. T.

ONLY WIRES WERE DOWN
IN OKLAHOMA, SAY REPORTS.
Oklahoma City, March 29.—No damage was done at Roff by the tornado last night, although for a time a fierce wind blew which at 3 o'clock this morning wires were down between here and Ardmore and Marietta.

MAIQUETTA DENIES ANY
SERIOUS STORM THERE.
Chicago, March 29.—The Santa Fe railroad officials received the following from Purcell, O. P.: "Wires are o. k. to Marietta. No advices of any serious storm there."

IMPORTANT SUIT BROUGHT
IN RAILROAD CIRCLES
Chicago, March 29.—Attorney Henry Crawford of this city announced today that a bill of equity in behalf of the Crocker estate company of San Francisco, and Thomas S. Hubbard of New York, has been filed in the circuit court at Austin, Texas, asking that the Southern Pacific be restrained from paying dividends on common stock amounting to \$4,000,000. This suit is based on the claim that the Union Pacific controls and operates a system of railroads which is in constant and natural competition with the Southern Pacific between San Francisco and New Orleans. Contrary to public policy and in violation of laws of the United States and Texas.

The bill asks that the Union Pacific be enjoined from voting the stock of the Southern Pacific or exercising control over the Southern Pacific or its finances.

The complaints say they hold \$2,000,000 second mortgage bonds of the Galveston, Harrisburg & San Antonio company, which is controlled by the Southern Pacific and that interest on their bonds has not been paid.

IMPORTANT NEW MEXICO
LAND SUIT AT WASHINGTON
Special to The Evening Citizen.
Washington, March 29.—Harris-
lett and another, clerk at the
Clayton, N. M., land office have
resigned owing to the unprece-
dented number of entries. They
probably can make more money
out of that in the office.
An important case from El
Paso, that of the Brice company,
for a mineral entry against John
Adler, homestead, Las Cruces,
land office, will have a hearing
before the secretary on appeal
April 11. About a dozen promi-
nent cases are on the calendar.

Washington, March 29.—The president last night signed an executive order requiring the Philippine commission to issue the call required by law for the general election of delegates to the first Philippine assembly.

IMPORTANT CHANGE IN
GENERAL POSTAL MAGNATE.
Washington, March 29.—Former Representative James T. McCallister of Minnesota, today was sworn in as second assistant postmaster general, in succession to Wm. S. Shallenberger.

REPORT ON THE ORIENT.
Washington, March 29.—Lieutenant General MacArthur was today relieved from command of the Pacific division and ordered to Milwaukee. The action was taken at the request of MacArthur, who found it impossible while discharging the duties of commander in chief of so important a military division to carry out his scheme of completing the elaborate report he was charged to make by the war department upon the result of his long trip of inspection in the Orient. The probable completion of this task will consume the remainder of the year of MacArthur's active service.

REPORT ON THE ORIENT.
Washington, March 29.—Lieutenant General MacArthur was today relieved from command of the Pacific division and ordered to Milwaukee. The action was taken at the request of MacArthur, who found it impossible while discharging the duties of commander in chief of so important a military division to carry out his scheme of completing the elaborate report he was charged to make by the war department upon the result of his long trip of inspection in the

OFFICIAL PAPER FOR CITY OF ALBUQUERQUE

LEGAL VIEW OF UNIONS AND LAW

Remarkable Article by Judge Alton Parker in Cyclopaedia of Law.

HOW TRADES UNIONS HAVE CEASED TO BE CRIMINAL

Two Hundred Years of Unceasing Conflict Have Been Required to Secure Labor Rights.

The growth of organized labor in England and America and the transition of trade unions from outlawed criminal conspiracies to powerful organizations...

For much valuable information in this connection, we are indebted to Judge Alton Parker's article on "Labor Unions," published in the Cyclopaedia of Law and Procedure (C.Y.C.), which not only traces the legal history of organized labor from its inception...

It appears that the prosecution of united laborers dates back to 1721 (24 C.Y.C. 817), when the "Journey-men of Amberg" were found guilty of conspiracy among themselves to raise their wages...

The old English rule was followed in the United States during the early part of the nineteenth century, and the combination of workmen to raise their wages and prevent the employment of non-union men was held in several cases to constitute a criminal conspiracy...

While the rule is uniform that wage-earners have the right to organize for the purpose of promoting their welfare, elevating their standard of life, advancing and maintaining the rates of wages...

As a consequence, strikes, boycotts, picketing and other means of moderate intimidation were commended as legitimate means of enforcing the demands of organized labor...

As a consequence, strikes, boycotts, picketing and other means of moderate intimidation were commended as legitimate means of enforcing the demands of organized labor...

WHICH?--\$100,000,000 FOR THE WORDS OR FOR THE PEOPLE--CHICAGO ISSUE

ELECTION APRIL 2 TO DECIDE MOST EXTRAORDINARY TRACTION QUESTION EVER HELD--MUNICIPAL OWNERSHIP OR FRANCHISES FOR MORGAN, ET AL.

Special Correspondence. Chicago, March 29.--Chicago is on the verge of the most extraordinary referendum election ever held in the country...

What they now want the voters to give them is a blanket fifty-year franchise...

In return they promise to give 55 per cent of the net receipts and "better service."

The "municipal ownership" desire to have the city acquire the traction system, and operate it as a public utility...

The voters have three times expressed themselves in favor of trying the experiment...

demands of organized labor, and employers of non-union workmen were left to shift for themselves. In extending the rights of wage-earners a corresponding check was placed upon the employers themselves...

Combinations of capital for its better protection against the powerful organization of workmen were declared illegal by the courts...

It is now well settled in this country and England that a person has the right to work for and with whom he pleases...

While the rule is uniform that wage-earners have the right to organize for the purpose of promoting their welfare, elevating their standard of life, advancing and maintaining the rates of wages...

We established a standard of PURITY and QUALITY and MEDICINAL STRENGTH, that has been maintained for all these years...

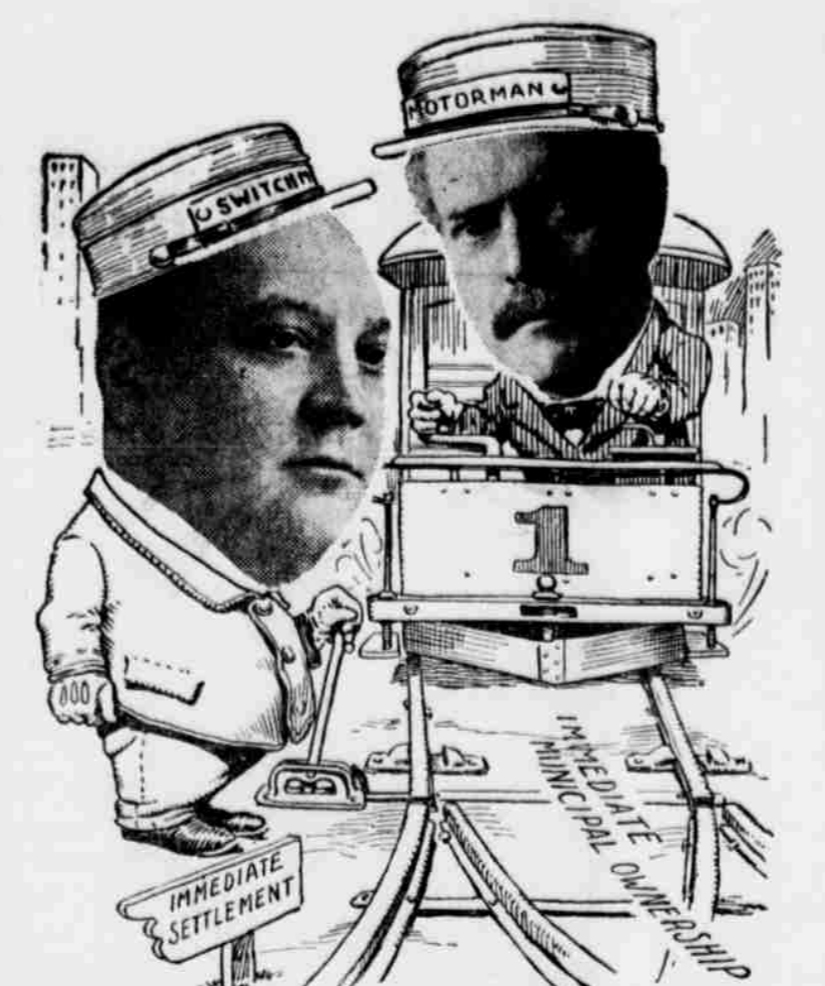

The substances that enter into a medicinal formula, to produce the desired effect, to be SAFE and ever TRUSTWORTHY, MUST be clean, fresh, carefully selected and compounded with painstaking supervision.

The eternal vigilance necessary to secure the ingredients of Cascarets in the most PERFECT CONDITION, so as to get the best effect without any danger from intruding substances, has never been relaxed.

What is the result? There has never been a disappointment, never a complaint. The people of America are today buying ONE MILLION BOXES a month of Cascarets Candy Cathartic...

We attribute Cascarets' great success to PURITY, QUALITY and MEDICINAL EFFICIENCY, backed by Truth and Honesty in our dealings.

The Congress of the United States, on June 30, 1906, passed a PURE FOOD AND DRUGS ACT to protect the health of the people against adulteration, misstatement and careless processes...

FRED BUSSE, Republican Candidate for Mayor--Stands for Settlement at Once.

MAYOR E. F. DUNNE, Democrat Candidate for Mayor--Stands for Municipal Ownership.

from being granted, although a majority of 5 to 1 favored the purchase of the lines. This plan has been defeated repeatedly by a council that has opposed the will of the electorate...

Mayor Edward F. Dunne, formerly a judge and the present mayor, is a candidate on the ownership ticket. Fred Busse, millionaire coal dealer and postmaster, is the anti-ownership champion and advocate of the franchise...

peaceful means. They may refuse to work for any particular employer whose terms are not satisfactory to those actions with respect to apprentices or the employment of non-union labor are objectionable...

To what extent labor organizations may proceed in the protection of their members by preventing others from entering the employment of their abandoned employers also varies in the different states...

When Cascarets Candy Cathartic were invented in 1896, and the formula was perfected after much experimental labor by highly scientific chemists, it was our aim not only to produce a perfect combination of EFFECTIVE CONSTITUENTS, but to have every ingredient the very best in point of PURITY and QUALITY...

Saved Her Son's Life. The happiest mother in the little town of Ava, Mo., is Mrs. S. Rappaport. She writes: "One year ago my son was down with such serious lung trouble that my physician was unable to help him, when, by our doctor's advice I began giving him Dr. King's New Discovery, and I soon noticed improvement. I kept this treatment up for a few weeks when he was perfectly well. He has worked steadily since at carpenter work. Dr. King's New Discovery saved his life." Guaranteed best cough and cold cure by all dealers. 50c and \$1.00. Trial bottle free.

When You Need DRUGS

Don't always think how cheap you can get them. Think instead, where you can get the freshest, the purest and strongest and come where you can always get them. We have only one quality the BEST ALWAYS. And our prices are always the lowest, quality considered.

EL PASO PRESSMAN FALLS HEIR TO \$62,000

El Paso, March 29.--Henry Aguirre, an employee of the Herald, has fallen heir to a big sum of money through the death of his father in Mexico. The uncle left \$62,000 in Mexican money to young Aguirre and as soon as the estate can be settled under the Mexican laws, he will get his dowry, when he means to take a college course in some American university and then settle down to business.

CONDUCTORS AND TRAIN-MEN MEET IN BUFFALO. Buffalo, March 29.--Delegates from east and west, representing the organizations of the Order of Railway Conductors and the Brotherhood of Railway Trainmen have met here and have a large attendance. They are expected to ratify the action taken at the union meeting of the same date, March 3rd, when the grand chiefs of the orders were empowered to summon a meeting of their general chairmen of the different systems.

SHORT TALKS BY L. T. COOPER.

CONSTIPATION. I can tell a person who is constipated on sight. Their complexion is pasty and yellow. Their eyes are dull and they look and feel sleepy. Nowonder they do. The bowels are a sewer.

There is no better rule for good health than that the bowels should move every day at the same hour if possible. Regularity can be acquired by making a habit of this. Foolish people neglect this and when chronic constipation effects them they take pills every few days to force the bowels to perform their natural function.

My customers who have used them say the Cooper medicines do the work. We sell them.

WESTERN LINES REFUSE AID FOR COMMERCIAL BODIES. At a conference held here railway executive officials of Chicago practically decided not to contribute \$100,000 a year to the maintenance of the Chicago Commercial association. In the general discussion regarding the matter it was stated that if the railroads should contribute to the maintenance of associations it would be impossible to refuse contributions to all associations along other lines. Nearly every large city in the country now has a commercial association, and boosters' club, which are regarded by every one, the railroads included, as a nuisance. The railroad officials, however, declare that they could not contribute thousands of dollars everywhere to the support of these organizations, and can not discriminate in favor of Chicago.

A False Friend. It may pretend, We kindly friend, To be your friend, But 'tis just its tortoise. To wreak a grudge, An' make us say: "Good mawin', Judge."

WORKS WONDERS. A Wonderful Compound--Cures Piles, Eczema, Skin Itching, Skin Eruptions, Cuts and Bruises. Doan's Ointment is the best skin treatment, and the cheapest, because so little is required to cure it. It cures piles after years of torture. It cures obstinate cases of eczema. It cures all skin itching. It cures skin eruptions. It heals cuts, bruises, scratches and abrasions without leaving a scar. It cures permanently. Albuquerque testimony proves it.

Notice is hereby given that Vicente Herrera, of Chilli, N. M., has filed notice of his intention to make final five-year proof in support of his claim. viz: Homestead Entry No. 6-759, made December 31, 1901, for the lands in Sections 14 and 15, Sec. 6, and NE 1/4 NW 1/4, and lots 1 and 2, Sec. 7, Township 8 N., Range 7 E. and that said proof will be made before H. W. S. Otero, U. S. Court Commissioner, at Albuquerque, N. M., on April 6, 1907.

Notice is hereby given that the following witnesses to prove his continuous residence upon, and cultivation of the land, viz: Francisco Garcia, Luis Martin, Aurelio Rol and Ignacio Herrera, all of Chilli, N. M.

There will be a regular meeting of the District of Columbia Pile Ointment will cure Blind, Itching and Itching Piles. It also cures all other ailments of the rectum. It is the only medicine that cures the itching at once. It is the only medicine that cures the itching at once. It is the only medicine that cures the itching at once.

ALLEGED MURDERER WRITES LETTER TO NEWSPAPER

Louis Eytinge Says That He Did Not Kill John Leicht--Gambling Houses His Undoing.

PHOENIX, Ariz., March 29.—At an early hour Wednesday morning there was received in this city, by the Phoenix Republican, a letter from Louis Eytinge, the suspected murderer of John Leicht, dated March 24, and mailed from Los Angeles.

The letter Eytinge denies having murdered Leicht, and says in part:

"In the beginning, let me say that I came to Phoenix with entirely honest opinions and intentions, but through gambling at the pavilion attached to your Lake park, lost the major portion. Following close upon this came the withdrawal of the employment offers upon the discovery that I was a 'lunger'—a poor, pally devil doomed to your climate or death. When my money ran too low I determined to fall back upon my old method of obtaining a livelihood—forging and swindling—a simple expedient of living by my wits.

I started my plans, and my slight drafts through the Arizona laundry and personal checks through James were but a means of establishing a credit upon which to work. The loss of my bill book hastened my operations before my plans had been fully matured. As it was, I passed some few 'papers' with but small results. When Leicht and I drove out on Sunday morning we went north to the Arizona canal (then dry), hitched and walked some distance into the desert. Here we began to match pennies, then quarters, until my continued success had emptied his pocket-book of all the currency he had, some \$10. He then bet his draft for \$25 against a similar amount, and I won in three tosses. He grew desperate, matching his watch, his gold band ring and his diamond ring, only to lose. I offered him some few bills of a total of about \$15—these he took. Then I told him my story of what I had been—convict, forger, swindler, confidence man—and how I had duped the Phoenix people, his friends, etc., and how I intended to leave town that evening. He became enraged, threw the money I had given him at me, and cursing me, demanded that I leave him, drive him back to town and make a get-away.

This I did, but not wishing to tell the real situation to those who asked (for obvious reasons I could not tell the truth), put up various lies.

"I know—from my intimate relations with him—that he was quite despondent, and I noticed on packing my grip that a bottle of chloral hydrate solution, which he had prepared the night before, for insomnia, was not on the dresser. If this bottle is produced that will do away with the theory of murder, which I advance for your consideration. The loss of the money may have affected him, as also may have the shame and humiliation which would occur as the result of my operations. If his body be found, I demand and insist not only on a rigorous search of his person and neighborhood for this bottle, but also upon chemical analysis of his organs, to see if he may have committed suicide by this means. I demand this not only for my sake, but to save an expensive trial when I shall return to Phoenix.

"I do not claim to be more than I am—a swindler and forger—but as I was already doomed to die from tuberculosis, as it is likely that I would hasten my end by the hangman's.

"Again, is it likely that I, with a university education, and an extraordinary degree of mentality and intelligence, would stoop to murder when it is so easy to swindle?

"Had I been guilty, would I have dared to flaunt myself about the streets, hotels and offices of Los Angeles, as I did last week? Guess again.

"I am now on my way to Mexico, via Cananea, and in the hills there I propose to remain until I recover my health. If Maricopa county officials will guarantee immunity on the charges of forgery, false pretenses or swindling, I will return to clear myself of the graver affair. If so, publish in Cananea, Mexico, papers.

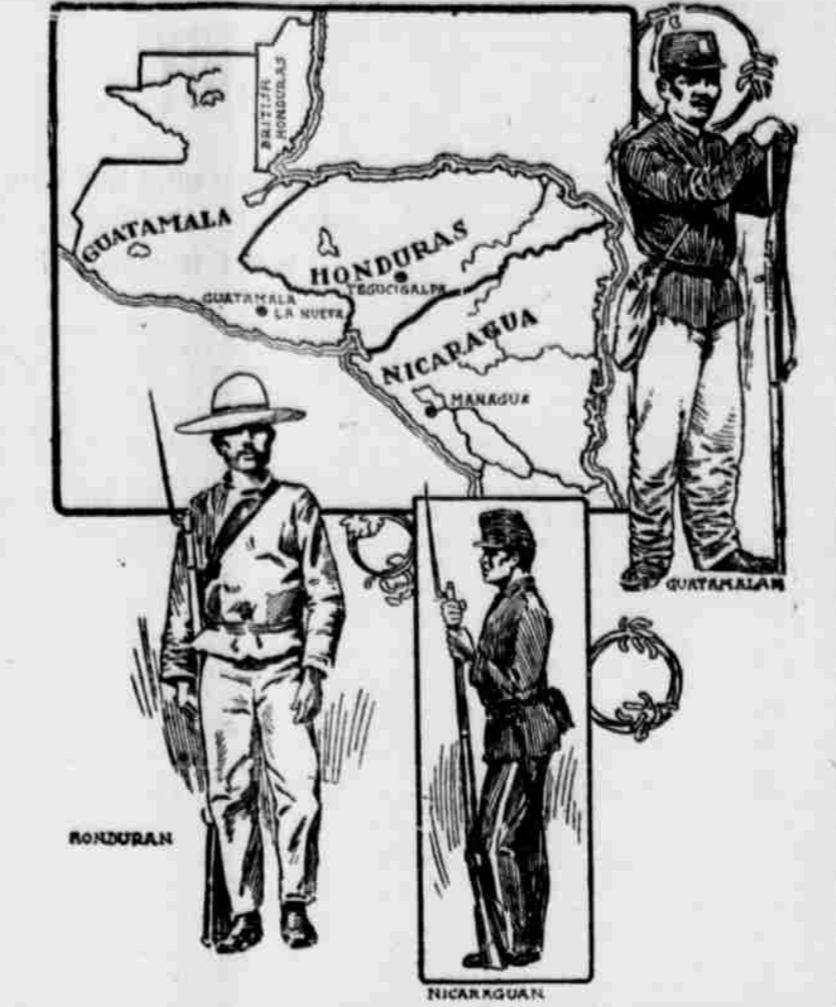

"Sincerely,
"LOUIS V. EYTINGE."

Every effort is being made to trace Eytinge and run him to earth, but so far, beyond the letter, the local police have been unable to obtain a single clue that might lead to his present hiding place.

WHY CENTRAL AMERICA IS SCENE OF BLOODY TRI-REPUBLIC STRIFE

HALF-BREED SOLDIERS ARE NATURALLY ADAPTED TO FEROCITY AND BLOODSHED.

Special Correspondence.
New Orleans, March 29.—Real war is on at last in Central America. The comic opera variety of warfare has been relegated to the past. As practice makes perfect, the playing of the war game has made the half-breed armies of the little Latin republics competent to deal out real carnage. They have always had the will, but now they find they have the ability. Better organized, better armed and better trained than ever, poorly as that is, the forces of Nicaragua on one

MANUEL BONILLA, President of Honduras.

WAR ARENA IN CENTRAL AMERICA AND TYPES OF COMBATANTS. CONFLICT IS NOW RAGING ON NORTH COAST OF HONDURAS WHICH HAS BEEN INVADIED BY ARMY OF NICARAGUA.

CENTRAL AMERICAN BRAND OF VALOR.
Central American, poverty-stricken, small of stature, barely clothed, swarthy, hybrid, indolent in agricultural and industrial pursuits, is yet a prodigy of martial enterprise when brought into battle, unwillingly though it be. Once set to fighting, he charges, shoots, cuts and stabs until the tropical field of battle is covered with dead. Patriotism as he sees it is allegiance to the general with the most gold lace and the longest purse. Through the frequency recurring revolutions, youth of 16 are often veterans of numerous battles. The greatest victories mean only a few months of resultant peace.

are all armed. The arms consist of Springfield rifles, old Mausers, muskets and all kinds of junk shop shooting irons. The secondary weapon consists of the every trusty machete. Large bodies of the troops are armed only with these long, heavy knives, coming right out of the banana plantations to the standard, ready armed as far as this weapon is concerned. The deadly machete is responsible for most of the carnage. Even when provided with guns the Central Americans are notoriously bad shots. It is the hand-to-hand conflict with machetes that rolls up the list of dead and wounded. The bare-foot, ragged soldiers stand foot to foot and hack each other down unmercifully.

The present war in Central America was precipitated by a very trifling incident. A Nicaraguan agitator, who had fled into Honduras was followed by a detachment of Nicaraguan soldiers who failed to capture him but went away with his mule. After a few hasty diplomatic notes had been exchanged over the invasion, war was declared and the scrap was on. It was only last winter that the United States by friendly intervention patched up a truce between the Central Americans when a general war threatened to follow a revolution in Guatemala.

SANTOS J. ZELAYA, President of Nicaragua.

GOVERNOR HAGERMAN PARDONS TWO MURDERERS

McDonald Gets Off With Five Years, and Freeman, With One.

Santa Fe, March 29.—E. E. Freeman, convicted of murder in the second degree less than a year ago in the district court in session at Deming, Luna county, and was sentenced to three years in the penitentiary, has been pardoned by Governor Hagerman, the pardon being unconditional. Freeman will go to Victoria, British Columbia.

J. E. McDonald, convicted of killing William Turk in Eddy county, five years ago, has been pardoned by Governor Hagerman, after having served five years of a fifteen-year sentence which had been reduced to seven years by Gov. Otero. McDonald learned the brick-making trade at the penitentiary and will put up brick kilns at Carlsbad.

Rheumatic Pains Relieved.
Chamberlain's Pain Balm relieves rheumatic pains and makes sleep and rest possible, which is alone worth many times its cost. B. E. Crocker, Esq., now 84 years of age, and for twenty years justice of the peace at Martinsburg, Iowa, says: "I am terribly afflicted with sciatic rheumatism in my left arm and right hip. I have used three bottles of Chamberlain's Pain Balm and it did me lots of good." For sale by all druggists.

PILES CURED IN 6 TO 14 DAYS.
PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days or money refunded. 60c.

ELK'S MARCHING CLUBS PREPARING FOR CONVENTION

Best Talent of the Continent Will be in Attendance.

Philadelphia, Pa., March 29.—Three of the best drilled marching clubs in the country will be in attendance at the Elk's convention which is to be held in this city during the week beginning July 15th next, to compete for the prizes that are to be offered to the lodges participating in the big parade.

These clubs are part of the Toledo, Detroit and Pittsburgh lodges and their fame and reputation for military excellence have been established throughout the world of Elkdom. The Toledo aggregation, popularly known as "The Cherry Pickers," carried off the first prize in Buffalo in 1905, and have numerous other victories to their credit. They are conceded to be among the best drilled men ever seen in public parade. Their uniform is distinctive and attractive and as the average weight of "The Cherry Pickers" is about 175 pounds, it can readily be seen what an attractive appearance they are bound to make while on parade.

The Detroit Elks surprised the visitors in Denver last July by their magnificent display of marching abilities. Throughout the entire procession they won merited applause and when the first prize was awarded to them the decision proved a popular one. The Michiganders promise to repeat the trick in Philadelphia and they say they will give the Toledo boys a hard tussle for the honors.

Pittsburg also carried off a valuable prize in Denver and encouraged by this victory the Smoky City Elks

side and Honduras and Salvador on the other, have clashed with fearful execution.

The recent battle of Portillos de Namasique saw 1,000 killed on the side of Honduras and Salvador alone. This is three times as many as the American fatalities in battle in the war between Spain and the United States. There were 5,000 Salvadoreans and Guatemaltecos in the fight, so the loss was 20 per cent.

Zelaya's Fierce Dash.
Personally leading his armies, which have invaded Honduran soil and captured town after town, is President Santos J. Zelaya, of Nicaragua, the most ambitious and able of the band of dictators who rule the Central American republics. War found him doubly ready for the conflict. His campaign has been a quick, sharp and dashing one, and invariably crowned with success.

When it is realized that the conflict has been in progress less than a month, the fact that he has practically the whole Caribbean coast of Honduras under his control speaks well for his prowess.

His successes on the coast have been followed up by the United States navy which has landed small forces of marines at La Ceiba and Trujillo, towns captured by Nicaragua and at Puerto Cortez, the largest seaport, threatened by Zelaya, to protect neutral property. The Nicaraguan army in the field consists of 20,000. The forces of Honduras and Guatemala equal this. Guatemala has been in the fight only a short time. Costa Rica may also become involved, and old feud against Nicaragua making it potentially an ally of Salvador and Guatemala.

Work of Deadly Machete.
The armies of Central America are all made up of Indian stock mixed with Spanish blood hot tempered and implacable. They go bare foot and

are now striving for more laurels. They also have a well drilled marching organization and with a natty uniform expect to make more than the average good showing in the Quaker City.

It is also intimated that several other lodges will compete for the marching club prizes, among them Denver, whose escort team during the last convention proved to be one of the big features of the week.

Cause of Stomach Trouble.
When a man has trouble with his stomach you may know that he is eating more than he should or of some article of food or drink not suited to his age or occupation, or that his bowels are habitually constipated. Take Chamberlain's Stomach and Liver Tablets to regulate the bowels and improve the digestion and see if the trouble does not disappear. Ask for a free sample. Sold by all druggists.

STRIKE for Futrelle's for bargains in furniture, stoves, carpets, linoleum and window shades. Corner Coal and Second.

OFFICE CHIEF QUARTERMASTER
Denver, Colorado, March 1, 1907.
Sealed proposals in triplicate will be received here and at office of the Quartermaster at each post below named, until 11 a. m., April 1, 1907, for furnishing wood, fuel coal, blacksmith's coal, charcoal and Mineral Oil required during the fiscal year ending June 30, 1908, at Fort Apache, Fort Huachuca and Whipple Barrack, Ariz.; Fort Logan and Denver, Colo.; Fort Bayard and Fort Wingate, New Mexico; and Fort Duchesne, Utah. Information furnished on application here or at offices of respective post quartermasters. Envelopes to be marked, "Proposals for Fuel and Oil at _____," C. A. H. McCauley, Chief Q. M.

Chamberlain's Colic, Cholera and Diarrhoea Remedy.
This remedy has been in use for over thirty years and has proved itself to be the most successful remedy yet discovered for bowel complaints. It never fails. Sold by all druggists.

NOTICE FOR PUBLICATION.
Department of the Interior, Land Office at Santa Fe, N. M., March 26, 1907.
Notice is hereby given that Antonio Pallo, of Laguna, N. M., has filed notice of his intention to make final five-year proof in support of his claim, viz.: Homestead entry No. 6842, made February 12, 1902, for the 3 1/2 NW 1/4 section 28, township 4 N., range 5 W., and that said proof will be made before Silvestre Mirabel, U. S. Court Commissioner, at San Rafael, N. M., on May 4, 1907.
He names the following witnesses to prove his continuous residence upon, and cultivation of, the land, viz.: Charles Carr, Lorenzo Romero, Juan Pallo, Jose M. Caco, all of Laguna, N. M.
MANUEL R. OTERO, Register.

THE DODGER OF TAXES

The tax-dodger, like the knocker and the poor, we have always with us. There is quite a number of this class in New Mexico, and some that could be named right here in Albuquerque, but Texas seems to take the lead of us even in this particular. The San Antonio Express recently said:

"From the exhibit made by Charles E. Anderson, compiled from the assessment rolls in the state comptroller's office for the information of the legislature, it appears that the art of tax-dodging has been practiced to such an extent in Texas as to deprive the state of a great deal of the revenue from taxation to which it is justly entitled.

"After carefully going over the rolls Mr. Anderson says he failed to find as much as a dollar in cash assessed against any of the heads of the state departments. Yet the general impression has been that at least some of these dignitaries usually carry a comfortable balance in bank.

"Of the state senators, only three are found to have had any money subject to tax in 1906, and these had in the aggregate only \$770, while among the members of the house of representatives there were thirteen who were assessed for the aggregate sum of \$3,055. This is not so bad for the legislators, most of whom are men of limited means who are not supposed to carry very heavy bank balances, as compared with the sum total of bank deposits and assessments.

"It appears from the records of the comptroller of currency at Washington that on December 31, 1906, the individual deposits alone in national banks in Texas aggregated \$97,374,807.12, exclusive of the deposits in state banks and trust companies and in private banks, yet the tax rolls for that year show only \$9,118,337 on hand January 1, 1906. Evidently somebody forgot to include his cash on hand in the rendition of his tax obligations to the assessor.

"Galveston has been reputed to be with one exception the wealthiest city per capita in the United States, yet the total amount of money rendered by individual taxpayers was less than \$100,000. The city of Houston has boasted a great deal of her enormous bank clearances and the plethora of billions carried in her banks, yet the tax assessor found in the whole county of which Houston is the capital but \$16,250. Dallas, the metropolis of north Texas, and the other towns of the county of that name, showed up \$298,705, which is more than half as much as was rendered by Collin county, with no banking center, and not quite two-thirds less than Grayson county. Montague county, with no city of consequence within its borders, returned \$287,583, while Travis, in which is located the capital of the state, showed up \$102,851.

"The land assessments afford an interesting study as well. In the black land sections, where lands sell at \$75 to \$100 an acre, the average assessed valuation is from \$10 to \$14 an acre. In some other counties the average rendition is less than \$1 an acre, where the price asked ranges anywhere from \$5 to \$40 an acre."

CAPITAL'S BAD ARGUMENT

The Wall street summary says that "the proceedings against the railroads have been conducted in such a manner as to convey the impression that only very rich men, multi-millionaires, were the owners of corporate securities. As a matter of fact, the small holders of corporate securities hold in the aggregate many thousands of times the amount held by the capitalists who are identified with the conduct of various corporate affairs."

It also thinks the foregoing view to be that which J. P. Morgan presented to the president. If the statement of the summary be correct, as no doubt it is, that fact furnishes an additional argument for government supervision of railroad companies. In Harriman's juggling with the stock of the Chicago & Alton, he and his three associates made many millions without expending a cent, but by simply watering the stock, which water they afterward unloaded upon another railroad to their own personal and additional profit.

In this transaction, what did the small holders—with their aggregate of many thousands of times the holdings of the four multi-millionaires—what did they have to do with the transactions? Where were they consulted? Where did their profits come in? What was the result upon their holdings other than the depreciation of their property? The value of their stock was diminished by the amount of increased debt saddled upon the real property, while the public at large must be charged sufficient tariff upon transportation that dividends may be paid upon the enormous quantity of water added.

Thus the rights and interests of the public and of the small holders of railroad securities alike demand railway supervision, that the few capitalists may no longer rob the multitude of small stockholders, while at the same time oppressing the general public.

Every now and then it is well for a community to remember that it is not the only pebble on the beach. Albuquerque has secured some notoriety in the last few months for its great reform movement in politics, and there are some who think this city possesses the only and original Danny of all the west. But there are others, as the following from the Colorado Springs Telegraph clearly demonstrates: "The whole sum and substance of the morning paper's devotion to the republican party is simply a desire to flitch the city treasury under the guise of republicanism. It is 'republican' for cash only in this campaign. All the talk of being still republican does not pass muster. It may be still republican, but it is very still. In fact, it is giving all the aid and comfort possible to the party's enemies. The morning Mugwump cannot make any person of common sense believe that it is republican when the only manifestation of it is found in abuse of the republican party, its administration and its nominees."

The New Mexican thinks that the present year is going to see much railroad building in New Mexico. The Rocky Mountain, St. Louis & Pacific will be extended into the Taos valley, with the probability amounting to almost a certainty of speedy extension west or south. The El Paso & Southwestern will be extended from Corona by the way of Las Vegas to the Dawson coal fields. The Colorado & Arizona will be built from Durango to the Gila mining camps in Arizona, passing on its way through San Juan and McKinley counties. All these roads will develop the sections through which they will pass, and thus contribute largely to the upbuilding of the territory as a whole. But the road which Albuquerque most needs and must have is the Albuquerque Eastern. Can any reader of the signs of the times arise to tell us when it will be built?

Danny the would-be Bernalillo county boss, has seen a great light. In fact, the light was so strong that it made him fling a back somersault and then a hand-spring. He has ceased his attacks on the bureau of insurrection. He no longer demands its abolition. He is as silent as death about its being a "machine of graft." And why? Because he wants to be president of the bureau and have his Youngman Henning to be its secretary. If he can get the two positions as reward for all the dirty work he and Henning have done against the republican party in the territory, why, then of course, the greater the graft the greater the reward.

There are in this country, according to the Wall Street Summary, more than 7,000,000 telephones, or one to every ten of the population, and this number does not include the output of the numerous independent concerns.

DEMOCRATIC PLATFORM AS LAID DOWN BY N. Y. WORLD

Would the Albany Argus agree to frame a democratic platform which would combine all their political principles, beliefs and practices? If it did, the platform would probably read somewhat like this:

"We the delegates of the democratic party in convention assembled, pledge ourselves anew to the constitutional doctrine of state rights. We denounce all encroachments by the federal authority upon the several states, and we unqualifiedly demand such extensions of the federal power as will enable the national government to regulate the business of all corporations engaged in interstate commerce.

"We denounce centralization, and demand a strong central government to protect the people from the neglect and folly of recreant states.

"We believe in the gold standard, and at the proper time we shall again urge the free and unlimited coinage of silver at the historic ratio of sixteen to one.

"We are opposed to all socialistic encroachments upon republican institutions, holding that that people is governed best which is least governed. We believe that the only true function of government is the exercise of the police power to protect life and property. To that end we favor municipal ownership of all public utilities wholly within the limits of every city, state ownership of every state, and national ownership of railroads, telegraphs and all the facilities of interstate commerce.

"We denounce political corruption in every form, and insist that no candidate should be allowed to spend more than \$250,000 to buy office, exclusive of expenses incurred in obtaining a nomination.

"We oppose all corporation interference in political affairs, except such as may occasionally be necessary to protect vested interests and safeguard the rights of the widows and orphans who are stockholders in companies liable to attack.

"We demand the utmost freedom of trade between the United States and other nations. But recognizing this as a counsel of perfection, we favor the immediate revision of those schedules which protect industries that habitually support the republican ticket.

"We denounce Theodore Roosevelt as a usurper of power who tramples the constitution of the United States under foot, and we point with pride to the record of the democratic senators and representatives in congress who by their votes have steadfastly upheld the hands of President Roosevelt in his great struggle for the maintenance of popular rights."

It is by no means certain that even these broad and catholic articles of faith are sufficiently inclusive to let all the different kinds of democrats under the tent. But if the Argus thinks it can do better it has our permission to paint the lily. We merely renew our expression of curiosity as to what constitutes a democrat.—New York World.

HOW THE TRAIN DOES NOT EVEN HESITATE AT RAHWAY

"Mr. Stevens," said Mr. Shonts in his testimony before the house appropriations committee concerning the Panama canal, "estimates that by April he will be able to take out a million cubic yards during that month; so that you see from those quantities that the actual work of excavation at Culebra is going steadily forward month by month."

"And has not been interrupted in any way," Mr. Brownlow, of Tennessee, interrupted, "by this effort to let the canal work by contract?"

"There has been no hesitation at all," replied Mr. Shonts quickly. "I would like to tell a story here which need not be taken down, but which I think will illustrate the situation."

"The other night a man rushed into the Jersey City station of the Pennsylvania railroad just as a train was about to pull out, and, running up to a very large and portly darkey who stood beside it all dressed up in elaborate livery covered with silk braid, said to him, all puffing and out of breath, 'Does this train stop at Rahway?'

"The lordly porter looked at him a moment in astonishment, and then in a very decisive, pompous, and imperious way answered, 'No, sir; this train do not stop at Rahway.' This heath train do not even hesitate at Rahway."

"The work on the canal," Mr. Shonts continued, amid considerable laughter, "does not even hesitate on account of the discussion of the contract system."

RAILWAY MAGNATES HAD BEST CALL OFF THEIR DOGS OF WAR

In his latest interview, of the 15th inst., E. H. Harriman makes a significant statement.

He says the railroad managers have made a mistake in not taking the public into their confidence, but have left to lawyers the task of dealing with public sentiment.

Exactly.

At the feet of these railroad politicians may be laid much of the blame for the savage attitude of the public toward the railroads.

The hired attorneys of the companies have gone into politics for the express purpose of controlling legislation and the courts.

In every state paid counsel has built up a political machine, operated by the railroads and for the railroads.

The railroad politicians have cared nothing for the welfare of the political parties upon which they have fastened themselves like the Old Man of the Sea on the shoulders of Sinbad.

In republican states the machine is republican. In democratic states democratic. And when it is impossible to control the majority party of a state these political janitors have joined with the minority.

Money, the free pass, political appointments and elections—these have been the means by which the railroad attorneys have accompanied their ends.

But in many states the power of these legal partisans has been broken.

In Wisconsin, in Iowa, in Minnesota, and elsewhere, the people have swept the railroad attorneys out of the state house as trash goes before a broom.

Every where the people are saying to the railroad magnates, Call off your dogs!

The magnates have heard the warning. They have seen a great light. The dogs are to be called off—let us hope.

HOW MUCH IT COSTS THE PEOPLE TO LIVE IN CITIES

It costs New Yorkers \$31 a head to be governed. In Philadelphia and in Chicago it costs only \$12 a head and citizens are provided with police, fire, sanitary and other protections common to large cities.

In Buffalo, according to Broadway, the figure is \$12. Washington, Bridgeport, Schenectady and cities of that sort, \$11 per capita pays the tax. In Houston, Tex., the charge is under \$10; in lively Los Angeles, \$7.50. Scranton and Seattle each collect \$6.50, and Nashville, Tenn., is at the bottom of the list of progressive cities with a taxation of about \$6 per capita, less than one-fifth of New York's rate.

DEATH RESULTS FROM OVER JOY

John Brislin Could Not Withstand Reconciliation With Carnegie.

Pittsburg, Pa., March 29.—John Brislin, 72 years old, inventor of the modern rolling mill machinery that made possible the great Carnegie fortune, died Wednesday evening at his home from an attack of heart disease, brought on, it is said, by a letter received from Andrew Carnegie, bearing the news that the old man was about to receive his long delayed reward for his inventions.

Brislin was a boyhood chum of Carnegie and while employed in the Homestead mills met Anton Vinnac, a Frenchman. Together they patented the modern roll tables by which large beams can be rolled into shape automatically. They charged the Carnegie Steel company with stealing their patents, and in 1897 a decision sustaining their contention was handed down by Judge Buffington in the United States district court.

The steel company offered to settle for \$100,000 but the inventors refused, claiming that their patents were worth \$40,000,000. The steel company carried the case to the federal court of appeals and Judge Buffington was reversed on a technicality.

Brislin and Vinnac were without funds to fight the case further and Vinnac died of grief. Brislin lost his eyesight and became morose. He always maintained that if he could see Carnegie personally and recall their boyhood friendship, the ironmaster would grant him justice.

Members of Brislin's family believe that he had a letter written to Carnegie several days ago, Saturday afternoon was received and the old man was overjoyed, saying:

"Carnegie knows all about it now and everything will be all right."

Since that time he has been very happy, but collapsed Tuesday night.

A physician said that his weakened system could not withstand the excitement and a short time later the old man died.

Summary of Conditions.

New York, March 29.—Confusing advices about strike situation. Good results expected from federal agencies which have been set in motion. The president's veto for arbitration has been conveyed to both sides.

Andrew Carnegie says he despises Wall Street gamblers.

J. Hill says the Great Northern will be disposed in matter of this first payment to accommodate itself to wishes of stockholders.

Union Pacific investments since June 29th last in securities of other companies show shrinkage in market values of nearly \$25,000,000.

Missouri Pacific, Wabash, Rock Island, Erie, Chicago, Burlington and other roads combine to fight two cent rate legislation in Missouri and Arkansas.

Good demand for stocks in the loan crowd.

Kansas City Livestock.

Kansas City, March 29.—Cattle receipts 2,000, including 500 southern. Market strong. Southern steers \$3.75 @ \$6.25; southern cows \$2.00 @ \$2.75; stockers and feeders \$2.25 @ \$2.90; bulls \$2.00 @ \$4.25; calves \$3.75 @ \$7.00; western fed steers \$4.00 @ \$6.75; western fed cows \$3.00 @ \$4.50.

Sheep receipts 2,000, market steady. Muttons \$5.25 @ \$6.00; lambs \$7.35 @ \$7.50; range wethers \$5.50 @ \$6.80; fed ewes \$5.00 @ \$5.75.

Omaha Livestock.

Omaha, March 29.—Cattle receipts 1,400. Market active to steady. Western steers \$3.25 @ \$5.25; Texas steers \$3.00 @ \$4.30; cows and heifers \$2.25 @ \$4.25; canners \$2.00 @ \$3.00; stockers and feeders \$3.00 @ \$5.00; calves \$2.00 @ \$4.00; bulls \$2.75 @ \$4.25.

Sheep receipts 6,000, market steady. Yearlings \$6.00 @ \$6.65; wethers \$5.30 @ \$6.25; ewes \$5.00 @ \$5.75; lambs \$7.00 @ \$7.90.

Chicago Livestock.

Chicago, March 29.—Cattle receipts 1,800. Market strong to shade high. Bulls \$4.20 @ \$6.75; steers \$4.00 @ \$6.50; heifers \$1.75 @ \$5.55; calves \$5.50 @ \$7.65.

Sheep receipts 4,000, market steady. Sheep \$4.25 @ \$6.50; lambs \$6.25 @ \$7.25.

Money Market.

New York, March 29.—Money on call steady 2 1/2 @ 3 1/2 per cent; prime mercantile paper 6 @ 6 1/2 per cent; silver 98 1/2.

WIFE STABBED OFFICERS HUNT HUSBAND

Los Duranes Scene of Probably Fatal Affray--Cause Not Known.

Up to 3 o'clock this afternoon nothing had been heard from Canuto Vicente, the man who disappeared from his home in Los Duranes last night, and whose wife was found in a serious condition with a knife wound in her side, a few hours later. That Vicente is the one who injured the woman the officers have little doubt, though just what could have prompted the deed is a mystery to them. The woman was stabbed in the left side and the point of the blade penetrated to within a most dangerous distance of the heart. She is still alive this afternoon, though her life hangs in the balance. Three deputies are searching for Vicente, but as he had such a start of the men it will be a hard chase for them, and one in which but little hope of success is placed. It was stated last night that word of the affray reached the city a little after midnight, but Under Sheriff Heyn this morning said his office has not notified of the case until after 9 o'clock today.

ALBUQUERQUE COMPANY BUYS GOLD CUR- IOSITY SHOP

Goods Will Be Brought to This City For Sale.

By a sale which was consummated in Santa Fe yesterday, the Benham Indian Trading company of this city becomes the possessor of the treasured contents of the Old Gold Curiosity Shop of the Ancient City. The terms of the sale have not been made public.

The property consists of the choicest curios of the Indians of the southwest and antiquities of the town of Santa Fe, which were gathered together only after many years searching by Abe Gold, from whom the shop secured its name. Mr. Gold died a few years ago and the property passed into the hands of executors of his estate, and it was from these executors that the Benham Trading company made the purchase. Mr. Howard Clarke, of the company, spent some time in Santa Fe recently and together with T. S. Doser, its eminent authority of curios, inventor of the goods.

The choicest of the curios have been shipped to the city by express and Mr. Doser has been employed to pack the remainder, to be shipped by freight. The most valuable of the collection will be held by the Benham Trading company as curios only, while the more ordinary pieces of the collection will be offered for sale.

THE HANS HANSON COMPANY DISBANDS

The Hans Hanson company, which appeared at the Elks' opera house on Monday and Tuesday evenings of this week, was obliged to wind up its affairs yesterday morning at the Claire house in Santa Fe. The main cause of the company's discontinuance was the sudden illness of Mrs. James T. McAlpin, who was the principal member of the cast and played the soprano part of Chick under the stage name of Dorothy Foster. Mrs. McAlpin was taken just before the performance on Wednesday evening with a fainting spell, due to an attack of pleurisy. Drs. Diaz and Sloan, who were called upon pronounced the case a serious one and advised a prolonged rest for the patient. It was also understood that the company has been playing to such small houses during the past few weeks as to render its discontinuance advisable, purely on business grounds.

CHARLES NEUSTADT NOT DEAD

Two days ago The Citizen in a special from Washington announced the appointment of Simon Bibo as postmaster at Grant. Vice Charles Neustadt, deceased, Mr. Neustadt, on the contrary, an active corpse and is still officiating as manager of the Bibo Mercantile company. He resigned as postmaster because his business affairs made it necessary, and not because of an untimely end. His many friends in New Mexico who have been mourning his demise will feel greatly relieved to hear that it was all a mistake on the part of The Citizen's Washington correspondent.

BERNALILLO COUNTY DISTRICT COURT

JULIES OBSERVE GOOD FRIDAY—GOLDSCHMIDT BROS. VS. BACHCHI & GIOMI CASE SET FOR TOMORROW.

Today was a very quiet one at the county court house. Nothing was done after the arraignment of the defendants in criminal cases, which was completed early in the morning. All of the juries were dismissed for the day and the district court room presented a lonesome appearance after the usual rush of business of the past two weeks.

When court reconvenes tomorrow morning the Goldschmidt Bros. vs. Bachchi & Giomi case will be taken up and concluded. It was hoped to finish this case on Thursday, but such could not be done, and now, because this case is set for tomorrow, the case of John Vandina, the Indian charged with assault with intent to kill will not be heard until Monday.

HAY—BLUE STEM, FROM WAGON MOUND, THE BEST IN CITY. AT J. F. PALMER'S.

INDIANS FORM BLANKET TRUST AGAINST TRADERS

Members of Tribe Violating Rules of Trust Are Ostracised.

Profiting by what the white man has taught him, the Navajo Indians have formed a trust on the Navajo Blanket business, and it is only the shrewdest of the Indian traders who will be able to survive their methods of trade in the business unless the Indians should weaken or change their tactics.

The methods adopted by the Indians to combat the traders are these. The Indian with a blanket to sell takes it to the trader. If the blanket is of native wool, the trader by not having furnished the material will have no claim to it whatever, which would be the case if it were of Germantown yarn. He is independent to sell it wherever or to whoever he may choose, so the trader is at his mercy instead of him being at the mercy of the trader.

"ELKS' TOOTH" MADE BIG HIT AT DOUGLAS

"The Elk's Tooth" was produced at the Orpheum last evening under the auspices of Douglas Lodge No. 95, B. P. O. Elks, and the large house which greeted the musical comedy was unanimous in its verdict that it was the best of the season, and despite the fact that only home talent participated. The play itself is by far the best musical comedy which has been produced in the city, and Douglas possesses musical and theatrical talent of no mean proportions was fully demonstrated to the enthusiastic audience.

MORTUARY

Juan Garcia, aged 65 years, and one of the oldest men living in the Rio Grande valley, died yesterday afternoon at his ranch ten miles south of this city. The cause of death is given as general debility brought on by old age. The deceased was the father of E. G. and J. A. Garcia, the well known wool merchants. The funeral will take place this afternoon from the family residence.

ALBUQUERQUE HAS EXCLUSIVE AUTO HOUSE

The Albuquerque Automobile company is the name of a company which will open for business at 408 West Copper avenue April 1, for the purpose of handling automobiles exclusively. Those composing the company are Herbert Brooks, Harry Benjamin, Jake Meyers and C. Loveland. The first three are all Albuquerque young men and Mr. Loveland is an auto expert, who comes from Chicago. The new company has already purchased new machines, which are now on the way from the factories.

MORTUARY

Juan Garcia, died at his home, about ten miles from town, yesterday afternoon, and the funeral was held at 2 o'clock this afternoon. The deceased was about 65 years old and was a wealthy resident of that vicinity. He was the father of E. G. Garcia, of the Garcia & Co. firm on West Railroad avenue.

THREE ARE KILLED WHILE STEALING RIDE ON CAR

Somerville, Mass., March 29.—Three men, two dead, one unconscious, were found on the top of a freight car at Somerville station today. Apparently while riding on the car the men struck an over head bridge. Each had his pockets filled with cigars and tobacco. The unconscious man revived sufficiently to say he and the others had robbed a tobacco store at Leominster, and then he relapsed into unconsciousness. A runaway on Railroad avenue, in old town, this morning, caused a little excitement and resulted in a demolished buggy. The horse became frightened while tied and broke away and ran into a telephone pole. No one was hurt.

MANDOLIN CLUB DRAWS LARGE AUDIENCE

Its First Concert Was Given Last Night in Congregational Church.

The Albuquerque Mandolin and Guitar club, under the direction of Charles Arthur Wright, gave its first regular concert last night in the auditorium of the Congregational church. The proceeds of the entertainment were for the benefit of the Ladies Aid society of the church, and it is probable that a most sum was realized therefrom, as the affair was well attended. The elaborate program which had been prepared and which was printed in full in last evening's Citizen, was carried out with the exception of part 6, the vocal duet which was to have been rendered by Mrs. Silberragle and Mr. Reynolds. Outside of the work of the club itself the numbers which met with the most enthusiastic reception were the vocal solo, entitled, "O, Lovely Night," rendered by Mrs. Evelyn Metcalf Silberragle; the piano solo, "Romance," by Miss Rose Abrams, and the vocal duet, "Trust Him Not," by Mrs. E. L. Washburn and Mrs. E. M. Silberragle. Mrs. Elsie DeWoolf's harp solo also was greeted with applause.

CONGREGATIONAL INSTITUTE FOR BOYS AND GIRLS

To Be Built Adjacent to Albuquerque—Site Has Been Purchased.

As the result of a sale negotiated by the Porterfield company and completed yesterday, the Congregational Educational association becomes the owner of some 360 acres of land just south of the Santa Fe stock yards and covering tracts on both sides of the railroad. The seller was N. R. Swan and the association taking title is an organization having in charge the educational interests of the church whose name it bears. The object of the purchase is to construct within the next few months a co-educational industrial school for the purpose of educating in the useful arts children who do not possess the means of gaining knowledge in any other way. The large acreage is acquired in order that the institution may be made to a certain extent self-sustaining. It is understood that the consideration was in the neighborhood of \$5,000. When completed the institution will accommodate a large number of students and will require a considerable force in the way of instructors.

FORMER MAYOR OF NEW MEXICAN CITY BURIED

C. E. MYERS WAS WELL KNOWN ST. LOUISAN BEFORE GOING TO ALBUQUERQUE.

The following notice of the funeral ceremonies in connection with the burial of Chas. F. Myers, late citizen of Albuquerque, is taken from the Globe-Democrat of March 27: "The funeral of Charles F. Myers was held Monday afternoon at 2 o'clock from the home of his brother, R. H. Myers of 3711 North Broadway. Mr. Myers had been a prominent citizen of Albuquerque, N. M., having served as mayor and two years as president of the Territorial Fair association. He was born in St. Louis in the year 1858, was at one time a member of the hardware firm of Wagner & Myers of Kingston, N. M., and died in St. Louis at a hospital on Thursday last. He was a member of the Eagles, Masons, Elks, Woodmen and Knights of the Maccabees. Rev. Wm. M. Jones of the Hyde Park Congregational church officiated at the funeral, which was conducted by the Keystone lodge, No. 243, A. F. and A. M., of which the deceased was a member. He was survived by a widow and four children—Charles F. Myers, Elsie, George and Anna of Albuquerque.

THE INGENUITY IN BUSINESS OF YANKEE

American Business Man Most Progressive in the World --Not Tied by Custom.

THREE THOUSAND ACRES PLANTED ALL IN PEAS

Many Other Matters Most Readable Showing Business Vim and Enterprise.

(By Frederic J. Haskin.)
The American business man is never bound by precedent, and to this feature of his methods the United States largely owes its present position as the greatest business nation of the world. The progress of science is no more rapid than the Yankee application of its discoveries to business. Our people not only manifest extraordinary ingenuity in solving commercial problems, but they do things on a scale the magnitude of which is astounding to the more conservative nations of the Old World.

A short time ago a consignment of street cars was made in East St. Louis for use in Los Angeles, Cal. The usual custom is to load new rolling stock of this kind on flat cars for shipment. "Why not run them out to Los Angeles on their own wheels?" suggested the venturesome spirit of ingenuity. "Such a thing has never been done," replied cautious precedent. "That's no reason why it can't be done," replied ingenuity, and the cars were made ready. They were fitted with a temporary equipment of couplers and air brakes, and a train of twenty-two cars and a caboose was started. Oilers rode in the caboose to watch for hot boxes, and the scheduled speed of fifteen miles an hour was maintained. This was the first instance where street cars have been run on a railroad track.

Makers of American agricultural implements have been more aggressive than almost any other class of Americans in pushing their wares into foreign markets. One Illinois concern sent a man to Asia Minor with instructions to stay there until he opened the market. Catalogues, samples, much talk—nothing could overcome the precedent of two or three thousand years of plowing with bullocks and a crooked stick. After three years of failure, the Illinois man got it into his head that these Asiatics were closely related to the inhabitants of his neighboring state of Missouri, and would have to be indoctrinated.

He showed them. He rented a piece of ground and divided it in half. One side he plowed with an Illinois plow, harrowed it with an Illinois harrow, and sowed it with an Illinois wheat-drill. The other half was plowed with native bullocks and a crooked stick, wasn't harrowed at all, and was sowed with a native sower of wheat sowed broadcast. Everybody waited for the harvest. The Illinois half produced a ten per cent greater yield, and the Asiatics were reminded that less than one-third as much seed had been sowed on it. After that, Asia Minor became a good market for Illinois agricultural machinery.

Boston threatens to break loose from the grip of the ice trust. The owner of a soda fountain in the Hub is now serving a little science with every drink bought in his place, in a way that is as matter-of-fact as operators and frankfurters are provided in other drink establishments of cities less erudite. When a customer orders a lemon phosphate or some other soft drink, the soda-jerk pours a few drops of liquid air in the glass, and the beverage becomes as cool as the north pole.

Americans like to buy East Indian rugs, but the native designs have not proved particularly pleasing to Yankee tastes. Therefore a company of American carpet-makers went to India, bought ten large factories, employing 15,000 workmen, and began the business of making Indian rugs with American designs. The material used, the dyes, and the methods of weaving are all Indian. Last year \$100,000 worth of rugs were made in these American factories in India, and sent to the home market in this country.

One day last summer two business friends were chatting at a club in a manufacturing town in the middle-west. One of these men was a manufacturer of furniture, and the other was a buyer for a chain of 10-cent stores located in prosperous towns in the Mississippi valley. The furniture manufacturer was lamenting the fact that the dull season was upon him, that many of his expert workmen whom he would have to lay off and drift away, where he could not locate them when the rush came on a few months later. The buyer scented a business opportunity, and asked the other if he would be willing to turn out stuff at cost in order to keep his organization intact. The manufacturer said he would, and they figured all over the back of the bill of fare. "See-

ing! An order for several train loads of little stand tables, which were sold at 10 cents apiece in the various stores of the buyer's combination.

A land company in Michigan had an elephant on its hands in the form of 2,000 acres of thickly studded with pine tree stumps that no implement would attract a purchaser to buy and clear it for farming purposes. So the company built a distillery in the middle of the tract, dug up the stumps and roots and made turpentine. The venture proved so profitable that the stumps brought in more money than the trees. They are being cut and sold for lumber some years before. Pine-syrup land is no longer a drug on the market, for after the stumps are cut, made into turpentine, the rich, cleared farming land remains as additional profit.

The craze for using cigar bands to ornament glass ash receivers, and like utensils, created such a demand that some shrewd fellow began to manufacture them. Soon there were half a dozen concerns turning out thousands of bands that were entirely innocent of any association with cigars or tobacco in any form. The manufacturers printed attractive advertisements offering to sell cigar bands with the portraits of all the presidents and a picture of the capitol at Washington for the centennial, and other similar schemes which would lead interest to the decorations. The fad still prevails, and almost as many cigar bands are made to go around cigars.

The people of the United States use 25,000,000 bottles each year for beer, ale, mineral waters, and soft drinks. The cry for a non-refillable bottle has gone out to the inventors from every brewery and bottling works in the country for years. It has seemed almost an impossibility, notwithstanding the fact that hundreds of models in the patent office. Now comes a concern which is making wood-fiber, bottles, maceated and molded into shape. They are filled from the bottom, which is then pressed on to form a part of the whole. The only way to empty the bottle is to cut off the top, and that ruins it. Capital has enough faith in the scheme to erect a large factory near Niagara Falls, and thousands of these wooden bottles will soon be on the market.

An agricultural novelty, which shows the magnitude of American operations, is a big pea garden at Longmont, Colo. At this place there are 3,000 acres of peas. Just peas! Think of it! An army of workers is required to cultivate them, and another army to harvest them. In this vast garden the peas are not only cultivated and gathered, but canned for the market as well. At a central point a large cannery, and from this plant it is four miles to the farthest points of the garden. The capacity of this cannery is 16,000 cans per hour. Peas may be growing on the vines in the middle of a 400-acre division, and thirty minutes later be undergoing the first processes of being made edible. It is not unusual for 200 wagonloads to be brought to the scales in a day. As high as two carloads an hour are fed into the thrashers. From the thrashers they are thrown into a big vat of running water, where the good peas sink to the bottom and the broken ones rise to the surface, making it easy to skim them off. This vast pea bed is watered by irrigation ditches.

The southwest threatens to have a boom from an unexpected cause. The enactment of the denatured-alcohol bill, which permits the sale of grain alcohol for use in the manufacture of alcohol to drink, has given a value to thousands of acres of the hitherto worthless cactus. This unattractive desert growth is now being made into alcohol to compete with kerosene and gasoline as an illuminant and power producer.

The tremendous growth of the automobile industry has given car-generators some unpleasant hours. The publisher of a leading carriage paper does not intend to stay awake nights. The automobile people have advertised more, and now have a greater trade publication. A deep thumb index is cut through the carriage trade and get his share of the motor. He has to turn a page, or exert himself in any way to get right at the latest news about his hobby.

With the multiplication of inventors and inventions came an increase in the problem of how to manufacture small articles without the forced expense of erecting a factory especially for the purpose. Some factories took in "jobs," but this method often proved unsatisfactory to an inventor, who wished his model to have more attention than that generally paid to a side-line. So necessity has again borne a child. A specialty factory in Rhode Island has an enormous plant equipped with all kinds of machinery. The concern makes nothing for itself, but merely sits by and waits for customers. It will undertake on a moment's notice the manufacture of anything, from a patent campaign button to a model for an airship.

How to Remain Young.
To continue young in health and strength, do as Mrs. N. F. Bowan, McDonough, Ga., did. She says: "Three bottles of Electric Bitters cured me of chronic liver and stomach trouble complicated with such an unhealthy condition of the blood that my skin turned red as fire. I am now practically 29 years younger than before I took Electric Bitters. I can now do all my work with ease and assist in my husband's store." Guaranteed at all dealers. Price 50c.

We do it right, ROUGH DRY. Imperial Laundry Co.

GOVERNMENT TO SELL SEIZED ARTICLES

Biggest Sale of the Kind in Many Years and Expected to Last a Long Time.

New York, March 28.—The United States appraisers' department is making ready for one of the biggest sales ever held in this country. The sale will begin on the 2nd of April, and is expected to take a long time, as there are many things in separate packages to dispose of. A novelty of the sale will be that there will be seats for women. They have been cordially invited, and the government officials will make it pleasant for them in every way, so that a large number of buyers will be attracted, it is expected. One of the most curious offerings is "Consoil," Hostock's trained chimpanzee, which in life contributed to the safety of royalty on the other side of the Atlantic. Prior to his death three years ago, "Consoil" was much in demand at social affairs where his elegance of manners, coupled with correct dress for all occasions, won him entrance into the most exclusive circles. At the zenith of his popularity the animal carried a life insurance policy of \$20,000. His value at date of examination is stated at \$10. This variety of the articles is truly bewildering and embraces everything from ladies' wearing apparel to cement.

TO AMEND NEW YORK RACING RULES FOR YACHTING.

New York, March 28.—Today the New York Yacht club will meet and take up the amendments to the racing rules suggested last fall to obviate ambiguity in the present uniform code now in operation among the clubs in the Atlantic coast conference. It will also hear the report of the committee appointed to consider the question of adopting sailing restrictions. There will be no change in sailing restrictions this year, though the work will doubtless be undertaken in the spring and completed before the end of summer. It can be announced that the differences that arose over the racing rules have been adjusted satisfactorily both among the sound clubs and in the New York Yacht club, the latter changing the date for its annual regatta, fixed for June 27th originally. The races will be held on June 20th, which will conflict neither with the Yale-Harvard boat race nor the cruising race from Greenwich to New London projected by the Indian Harbor Yacht club. Tomorrow the Yacht Racing association of Long Island Sound will elect its officers for the year, and fix its schedule of racing features and direct the changes in the racing code. The same men are engaged in the association as in the New York Yacht club, and the racing code, so uniformly will be maintained.

NEW HAVEN RAILROAD WANTS SUBWAY CONTRACT.

New York, March 28.—Mayor McClellan and his colleagues are rapidly transit commission and the board of estimate and apportionment to let the contracts for the Lexington avenue and the Eighth and Ninth avenues and the Bridge loop subways before the law is changed giving power over to the public utility commission, as proposed in the Page-Merrill bill. At a special meeting tonight the board will receive the form of contract. On April 4th it is expected that the contract form will be finally approved by the transit commission, and advertising will be begun on April 5th. It is announced that the New York & New Haven railway company has agreed to secure the Lexington avenue contract.

TEXAS BAPTIST ASSOCIATION HELDS MEETING.

Orange, Tex., March 28.—The fifth annual meeting of the Southeast Texas Baptist association has convened here at the Greene avenue Baptist church. It will continue in session until Sunday night. John McE will preach the sermon on the opening night. Over a large number of divines from all parts of the association's territory will participate in the exercises, and on Saturday, as many more different ones will carry out the extensive and attractive program of that day. On Sunday the Sunday schools will receive special attention. All subjects are open for general discussion. This privilege will be greatly used and enjoyed, as many of the finest speakers, and it has a large number of them, delight in the general discussion.

Worked Like a Charm.
Mr. D. N. Walker, editor of that spicy journal, the Enterprise, Louisiana, says: "I ran a nail in my foot last week and at once applied Buckle's Arnica Salve. To inflammation followed; the salve simply healed the wound." Heals every sore, burn and skin disease. Guaranteed at all dealers. 25c.

That Ought to Hold Him.
"Is the grass beginning to get green on the prairie?"
"Some."
"How much?"
"About as green as the question you asked."

EUROPE'S MOST FAMOUS BEAUTY PUTS BAN ON PHYSICAL CULTURE

"FINEST" FORMED WOMAN IN THE WORLD ADVOCATES COLD BATHS, LONG WALKS AND ROPE SKIPPING FOR CHARM DEVELOPMENT—SAYS SEVERE TRAINING RUINS GRACE.

(La Milo, most famous beauty in Europe, poses on music hall stages of England, reproducing well known statues. Artists declare she could have served as a model for the statue of Venus de Milo.)

(By La Milo.)
I believe walking is the finest exercise for everybody, and girls in particular. I don't recommend physical culture with dumbbells or other im-

LA MILO, Europe's most famous beauty, whom artists say could have served as a model for the Venus de Milo.

cast in a different mold and to preserve those graceful curves which are recognized as the standard of female beauty all manner of severe or persistent exercise, such as a gymnasium curriculum provides, should not be attempted.

That is my advice to girls who wish to be healthy, who desire to possess a natural grace, and who believe in being womanly women.

There is nothing finer than a cold bath. I daresay some girls are not strong enough to stand the shock of a cold bath at first, but they might gradually work from tepid to cold water.

After my bath and a light breakfast I go for a long walk, always four or five miles, at a brisk rate, and then use the skipping rope for an hour.

There are diseases for which Chamberlain's Salve is especially valuable. It quickly allays the itching and smarting and soon effects a cure. Price, 25 cents. For sale by all druggists.

THE VENUS DE MILO. This statue, in the Louvre, in Paris, is recognized as the greatest statue of woman's form in the world.

lements, which develop muscle and make one part of the body abnormal at the expense of the other. Severe training of that description may produce beneficial results for a time, but unless it is preserved with the muscles soon become relaxed.

A woman does not want to have great muscular limbs. She ought to go to the famous statues and study them. The poetic ideal of the sculptor represents the highest form of feminine beauty, and all a girl should desire in the matter of physical loveliness is to reach, as far as possible, the exquisite proportions of the graven gems which are sheltered in our sculptured galleries.

Physical culture is against all canons of true art for women. It was never intended that a woman should emulate a man, whose glory lies in his strength. Her lines are

IMPROVEMENTS FOR SAN BERNARDINO

J. J. Custers and J. C. Hicks to Get New Office Building.

The officials of the Santa Fe system have determined to concentrate the head office for the handling of the bonus work on the coast lines in San Bernardino, which means that a considerable force of clerks will be maintained here to handle the records for all the shops on the coast lines, which covers everything from Albuquerque to San Diego, and north to San Francisco, says the San Bernardino Sun.

Following up this decision it has been ordered that the quarters for the general office building, which is to be erected here in connection with the new storehouse, shall be revised so as to provide adequate quarters for the bonus department, which will have an office force of several men.

The headquarters for the bonus work have, to a certain extent, been located in San Bernardino for several months, though the lack of office room here has prevented the desired expansion of the office force, so that much of the work has been kept at other points until the offices could be provided here.

This means a very material enlargement of the office portion of the building to be erected here, and some delay until the new plans can be prepared and approved. The contract for the building under the old plans is understood to have been let to Contractor Fellows, of Topeka, but that contract will be held up until the revised plans are ready.

When the new building is complete it will be the largest storehouse on the coast lines. It will have ample quarters for the general storekeeper, J. J. Custers, of the coast lines, whose office force in the year to come will be doubled; the office force of Division Storekeeper O. P. Sloan; the office force of Manager Bernard J. C. Hicks; and the office force of the coast lines. Altogether it must provide office room for fully 100 clerks. Besides the office room proper, there will be fireproof vaults of ample proportions for records, and other conveniences, such as private offices for the several heads of the departments, etc.

Since the bonus work has been organized here, the office force has been compelled to occupy quarters in a couple of box cars, which have been stowed up as comfortably as possible.

This decision of the officials shows again the growing importance of San Bernardino as a central point on the coast lines, and the benefit it means to the city is considerable in the concentration of the official departments of the system here.

SEVERAL OFFICIAL CHANGES ON THE FRISCO SYSTEM

Effective April 1, Mr. J. H. Young, at present general manager of the Colorado and Southern railroad at Denver, will be promoted to general superintendent of the first district of the Frisco system, with headquarters at Springfield, vice Mr. A. O'Hara, who returns to the eastern division at his own request. Mr. O'Hara has been acting general superintendent for the past nine months, and his services have been appreciated in every respect. He will now have charge of his former division, with headquarters at Springfield.

Mr. H. H. Bruns will be transferred to superintendent of the Ozark division, with headquarters at Memphis, Tenn. vice Mr. A. D. Lightner, promoted to general superintendent of the Birmingham and Birmingham Belt, with headquarters at Birmingham, Ala.

Mr. A. J. Sims has been appointed superintendent of the western division with headquarters at Enid, Okla., and T. B. Coppage takes Mr. Sims' place as superintendent at Birmingham. Mr. Coppage is now superintendent of the Gulf, Colorado and Santa Fe at Temple, Texas.

The appointment of Mr. J. W. Walton, superintendent of the Red River division, with headquarters at Francis, has already been announced.

NEBRASKA WINS SIX-YEAR FIGHT AGAINST RAILROADS

The passage of the Nebraska legislature of the bill for the taxation of railroad property in cities and villages for local purposes on the same basis on which other property is taxed marks the end of a fight that began in the legislature of 1901 and has been waged, with bitter spirit, in every succeeding session. It was inaugurated by the late Edward Rosewater.

THE BUREAU OF CORPORATIONS IS BUSY

Oil, Tobacco, Lumber, Agricultural Implements Being Investigated.

Washington, March 29.—Investigations are the order of the day in the administration of the Bureau of Corporations. The retirement of former Commissioner Garfield, from that bureau has caused no change in its policy, nor will there be any break in the continuity of its work under Herbert Knox Smith, the new commissioner.

The bureau has under way an inquiry into the oil industry of the country, although the question of rebates which involve the violations of the Interstate Commerce Law have been turned over to the department of justice. Another inquiry that is being prosecuted with vigor is that pertaining to the tobacco trust and the allegations with regard to the manner in which it crushes competition have been subjected to the most searching inquiry. Other cases in which business methods are subject to severe criticism in the administration of which the public, it is called, has been compelled to pay dearly, are the iron and steel industry, and the coastwise steamship and cable industry.

The results obtained in the course of these investigations are laid before the president from time to time. It is expected they will supply a general knowledge that will enable Mr. Roosevelt to make such recommendations as he may deem suited to bring about legislation correcting conditions that have grown up with modern business methods.

S.S.S. PURIFIES THE BLOOD

As every part of the body is dependent on the blood for nourishment and strength, it is necessary that this vital fluid be kept free from germs, impurities and poisons. As long as it remains uncontaminated we are fortified against disease and health is assured; but any humor or impurity acts injuriously on the system and affects the general health, or culminates in some special blood disease. Pustular eruptions, pimples, rashes and different skin affections show that the blood is in a feverish and diseased condition as a result of too much acid, or the presence of some irritating humor. Sores and Ulcers are the result of morbid, unhealthy matter in the blood, and Rheumatism, Catarrh, Scrofula, Contagious Blood Poison, etc., are all deep-seated blood diseases that continue to grow worse as long as the impurity or poison remains in the circulation. Some persons are born with an hereditary taint in the blood and we see the effect manifested in various ways. The skin has a pallid, waxey appearance, the eyes are weak, glands in the neck often enlarged and usually the body is not fully developed or strong, because it has always been fed on weak, impure blood. In all blood troubles S. S. S. has proved itself a perfect remedy. It goes down into the circulation and removes all poisons, humors, waste or foreign matter, and makes this stream of life pure and health-sustaining. Nothing reaches inherited blood troubles like S. S. S.; it removes every particle of taint, purifies and strengthens the weak, deteriorated blood, supplies it with the helpful properties it needs and establishes the foundation for good health. Rheumatism, Catarrh, Scrofula, Sores and Ulcers, Skin Diseases, Contagious Blood Poison and all blood diseases and disorders are cured permanently by S. S. S. It is made entirely of roots, herbs and barks, and is the King of all blood purifiers. Book or medicine and any medical advice desired sent free.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

that include the lumber industry, with its innumerable ramifications, the International Harvester Company, the cotton exchange of New York and New Orleans, and the ownership by government officials of patents on articles used by the government. These investigations, necessarily, are still in the preparatory stage but will be prosecuted with as much promptness as the magnitude of the various subjects will permit.

The government's methods in investigating trusts has caused surprise among captains of industry, who have learned how the greater part of the information is secured. In the first place the government's agents go about their inquiry with a frankness and directness that is amazing to the officers of these trusts.

These very officers are the first appealed to for information. The frankness of some of these trust officials in giving the information sought has sometimes filled the representatives of the bureau, in turn, with amazement, and this is not always the policy of the trusts, especially those that have so long and so flagrantly violated the law. In such cases efforts are made to mislead the investigators by submitting only partial information and making a pretext of complying with every request in full. Such subtleties always come to the attention of the bureau then has recourse to other avenues, and the results these agents achieved have filled even the men who have investigated with respect, if not wholesome fear and dread. There is always some way to get at the secrets of these breakers of law under the guise of "business agreements" and the secret information in the files of the Bureau of Corporations, upon which the Department of Justice has built up its prosecutions, in the courts has dumfounded trust officials when the cases have been brought to trial.

What the secret service is to the treasury, and inspectors are to the post office department, the agents of the Bureau of Corporations are to the Department of Commerce and Labor, which slowly, but surely, is crushing competition by its combinations that are originating in the face of laws enacted to relieve the people from untoward business oppressions.

Found at Last. J. A. Harmon, of Limestone, West Va., says: "At last I have found the perfect pill that never disappoints me; and for the treatment of chronic constipation, will say: take Dr. King's New Life Pills." Guaranteed satisfactory. 25c at all dealers.

ANDREW CARNEGIE HONORED GUEST AT DINNER

New York, March 29.—Andrew Carnegie was one of the guests at the reunion and dinner at the Manhattan hotel of the United States military telegraph corps. It was at Carnegie's suggestion that, at the outbreak of the civil war, four operators were sent from the Pennsylvania lines to Washington, and the corps, from this small beginning, was enlarged to about twelve hundred men. David H. Bates, one of the original four, suggested this special reunion and dinner. He and Albert Chandler and Charles Tinker were either operators in the war department, and none, it is said, were closer than they in confidential relations to President Lincoln. They were known as the "Sacred Three." The corps now numbers less than two hundred, about sixty of whom promised to be present at the dinner last night.

Members also promised to attend. The other guests were the commanders of the corps, General Thomas Eckert, Colonel C. Clowry, and William B. Plum, historian of the corps, and like Mr. Carnegie, an honorary member.

Former Senator Burton has decided to establish a newspaper. Back to the jail with him.

"KID" MOHLER WILL CAPTAIN THE "SEALS"

St. Joseph, Mo., Boy Gets Baseball Plumb at Seattle.

The "Seals" are captained by "Kid" Mohler, the dashing little second baseman. Although being far in number of years from what his nickname implies, Mohler guards the keystone sack with the agility and alertness of a young busher still in his teens. The "Kid" was born in Onida, Ill., 35 years ago and took to base ball as soon as he was old enough to hold a ball. His first Christmas present was a little rubber ball with which he made the household ornaments decrease in number.

After rising from high school through semi-professional ball, young Mohler began his professional career

"KID" MOHLER PULLING DOWN A HIGH ONE.

in 1894 with the St. Joseph Mo., team in the Western association. Des Moines then secured his services and he was with that club for the following three seasons. It was here that Mohler learned base ball, the Des Moines team being under the wing of that venerable master, Pete Lohman. Mohler was a member of Lohman's famous team which broke the world's record in 1896 by winning 25 consecutive games. 1898 he went to Quincy, Ill., and in 1899 and 1900 was with London, Ontario, in the International league, playing on a championship team each season.

In 1901 the now famous infelder came west to join the Denver team, of which he was placed in charge during the latter part of an unsuccessful season. The following year his old chief, Pete Lohman, who was placed in charge of the pennant winning Oakland team, persuaded Mohler to come to the coast, and he has been here ever since. The 1902-04 seasons were spent on the Seattle team, and he is now beginning his third year with the "Seals."

Mohler has all the qualities for a successful captain, and from the impression he is making during the training season in Bakerfield, Danny Long had a happy thought when he determined upon the "Kid" to handle the reins.

Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, it swells and shuts itself off, and unless the inflammation can be taken out of this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Props. Toledo, Ohio. Sold by all Druggists 75c. Take Hall's Family Pills for constipation.

expert repairman, formerly of the STROBER FACTORY, Chicago, Ill.

Tuning and Reminishing a specialty.

The insurance field in this city. The firm name will be Prewitt & Prewitt. Mr. Prewitt arrived here recently from Denver. His addition to the business circles of Albuquerque will be welcome by all who know him now and who will make his acquaintance.

Word reached the city of the death of the little baby of Mr. and Mrs. James Graham McNary, which occurred at El Paso Wednesday. The bereaved parents have a large number of friends in this city who sympathize with them in their sorrow.

Mr. and Mrs. A. C. Bradley did not leave last evening for Lawrence, Kan., as expected. They were unable to secure desirable accommodations on the Chicago limited, and postponed leaving until tonight or until such accommodations are to be had.

R. E. Heller, the Cabazon merchant, has returned from St. Louis, where he was the guest of a brother for several weeks. He is going east six weeks ago. Mr. Heller took with him 3,000 head of yearling lambs, which he sold on the Kansas City market.

The Santa Fe restaurant, on South First street, in the Savoy hotel building, is one of the neatest looking cafes in the city. Mr. Sontag, the proprietor, has recently made a number of improvements that are worthy of the highest commendation. Mr. Sontag will put on special service for Easter dinner.

A. B. Bennett, who succeeded Max B. Pritch as general manager for the Southwestern Lead & Coal company, was an Albuquerque visitor last night, while en route from Santa Fe to his headquarters at Engle. The Southwestern Lead & Coal company has filed its incorporation papers with the territorial secretary.

Frank Williams, of Belen, was picked up by the police last night on a charge of drunkenness, and this morning was fined \$25 in the police court. Having no money, he was returned to the city jail to lay out his fine. Kirk Mitchell, in jail for a similar charge, was discharged this morning.

Edward Ray has returned from Chicago, after an absence from the city of several months. Mr. Ray was a bachelor when he left Albuquerque and now he is a married man and has a family. Ray accompanied him on his return to the city. They are stopping with Mr. Ray's uncle and aunt, Mr. and Mrs. H. B. Ray.

Miss Lou Hughes has returned from Santa Fe where she held the position of stenographer in the council during the meeting of that body. Miss Hughes was appointed private secretary to R. P. Everts, the newly appointed commissioner of public lands, and she will move with her mother, Mrs. Thomas Hughes, to the capital to live.

W. H. Hahn, of the Cerrillos coal yards, returned yesterday from a business visit to Silver City. Mr. Hahn is interested in the Crescent Lumber company of Silver City and says that he is highly pleased with the business that company is doing. Silver City is a very busy place. The mines in the vicinity of that city are being worked with all the men that can be got into them, and business generally is flourishing as a result.

Just received a big assortment of women's white and gray canvas oxfords, with leather or covered heels, light, flexible soles, plain toes, large eyelets, ribbon ties. They make dainty shoes to wear with your new hats. Prices range from \$1.50 to \$2.00. C. May's shoe store, 314 West Railroad avenue.

Home Insurance the Best

WE CANNOT refrain from again saying something about Home Insurance. Every time that the proposition presents itself of the tremendous amount of money that is being sent out of New Mexico and Arizona for life insurance to eastern cities, the conviction comes home with increased force that a home company ought to be patronized and the money remain in the West.

The revelations of the past year of the way the enormous surplus of the big Eastern companies has been handled and speculated with ought to emphasize the fact that the people of the West should stop pouring their money into Eastern channels when it can be placed in home insurance, and every dollar of it kept and invested at home.

It is gratifying to note that home insurance is year by year receiving more and more its just deserts. Statistics show that during the past year home companies far exceeded foreign companies in the amount of business written. Why cannot this same record be made here? It can if every individual who takes out a policy the coming year will carefully weigh the proposition of the value it is to keep his insurance at home before he puts his name to the application of any insurance company.

The Occidental Life Insurance Company of New Mexico and Arizona is owned and controlled by the leading business men of the two territories, and offers exceptional opportunities to ambitious and capable men and women to sell its policies.

Address Home Office,

Occidental Life Insurance Company
ALBUQUERQUE, N. M.
