PLEASANT JOURNEY

McKinley Receiving Ovations in the South.

Quarantine against the City of Mexico.

Restraining Order Regarding Railroad Consolidation Modified.

BIG STRIKE IN SPAIN.

New Orleans, La., May 2.—President McKinley, accompanied by Governor Heard and Mayor Capdeville, escorted by a mounted detachment of police and a Louisiana cavalry troop, left the St. Charles hotel after breakfasting in his apartments with Mrs. McKinley, and proceeded to the southern university, a colored institution, where he was enthusiastically received by the faculty and students. The weather is clear and warm.

At the president entered the grounds of the university he was welcomed with "Hail to the Chief," sung by a chorus of 1,000 school children and accompanied by the students' orchestra. Welcoming addresses were made by George Alexis and Ernestine M. Theophile, pupils, and the president made a felicitous response, in which he said, addressing the negro children: "I am glad to know that all over the south, where most of you dwell, the states have provided institutions of learning where every boy and every girl can prepare themselves for usefulness and honor under the government in which they live. The thing today is to be practical. What you want is to get an education and with it you want good character, and with these you want unflinching industry, and if you have these three things you will have success anywhere and everywhere. God bless you."

Five thousand negroes attended the reception. From the southern university the president was driven to the historic Cabildo, where a multitude had gathered. The president was received by Governor Heard, state officials and members of the supreme court promptly at noon and was escorted to a seat on the right of Chief Justice Nichols. President Alcega Fortier, of the Louisiana Historical association, delivered an address on the historical associations of the Cabildo. The president made a brief reply. Afterward the president spoke briefly from the balcony to an immense assemblage in the streets.

FEVER INFECTED.

Quarantine Against the City of Mexico Established.

New York, May 2.—A dispatch to the Herald from the City of Mexico, says: The Mexican International railway agent at Eagle Pass wires that the United States health officer at Eagle Pass says a United States quarantine against the City of Mexico is in effect on account of typhoid fever.

The Mexican central agent at El Paso says that Dr. Alexander, United States health officer there, is allowing passengers from that city to pass if they present sworn certificates that they have been exposed to no contagious disease for ten days before their arrival in El Paso. These certificates must be signed by proper authorities in this city.

The Mexican national agent at Laredo reports that the United States health officer there says that a quarantine against the City of Mexico has been established by the state of Texas. There is no epidemic of typhoid fever here, although the death rate has been about one hundred a day in April and there were about fifty deaths a day from typhoid fever, which was confined to the lower class.

ORDER MODIFIED.

Roads May Consolidate Under Certain Restrictions, Says Judge Brown.

New York, May 2.—Judge Allison Brown of the United States circuit court issued an order today in the matter of the restraining order granted by him in the action brought by Nathaniel M. Raphael, of New Jersey, against Spencer, Trask & Co., to restrain the consolidation scheme of the Rio Grande road in Colorado. The order handed down today vacates the temporary restraining order as to the sale of stocks growing out of the con-

solidation, but directs that defendants shall set aside, and are enjoined from paying out or parting with any moneys for indemnity to themselves or a special trust which may arise in their hands.

Mr. Raphael owns second mortgage bonds to the amount of \$1,500,000 of the Washatch & Jordan Valley Railway company of Utah, a branch of the Rio Grande & Western. The latter road has been operating this branch at an alleged annual profit of \$60,000, having secured control through foreclosure of the first mortgage bonds held by it. The complainant contends that there is a surplus of \$600,000 which should be applied to the retirement of his second mortgage bonds. The defendants are ordered by the court to set aside any surplus for the protection of the second mortgage bond holders.

Strike in Spain.

Murcia, Spain, May 2.—A thousand men are out on a strike at the Aguilas mines. Some of the miners fired on the police guarding the property. The gendarmes are charged with killing one man and wounding several.

BIG FIGHT FOR CONTROL.

Syndicates Trying to Gain Control of Transcontinental Roads.

New York, May 2.—The Commercial Traveler says Friends of E. H. Harriman assert with much confidence today that the syndicate of which he is the head has not lost control of the Union Pacific railroad.

The Mail and Express has the following: From current tremendous market movements in Union Pacific and other roads, a rise of 12 points over last night. There was no account for the rise, but buyers of the stock professed to believe that the road was to be included in the transcontinental project to offset the Burlington deal.

British Loan.

London, May 2.—In the house of commons today the chancellor of the exchequer, Sir Michael Hicks-Beach, replying to Mr. Channing Gilbert, said that \$9,000,000 pounds of the new loan had been allotted as follows: Rothschilds, 11,000,000 pounds; J. S. Morgan, 10,000,000 pounds; Bank of England, 9,000,000 pounds.

Arraigned for Murder.

New York, May 2.—Albert T. Patrick, David L. Short and Morris Meyers, indicted on short counts for the murder of the late millionaire, Wm. M. Rice, were arraigned before Recorder Goff, of the court of general sessions, today. Patrick was also arraigned on the charge of murder in the first degree for causing the death of Rice. Counsel of defendants desired time to prepare a demurrer to the indictment for murder. Recorder Goff adjourned proceedings until tomorrow. No plea was entered.

GERMAN PARLIAMENT.

On Account of Opposition Canal Bill Withdrawn by the Government.

Berlin, May 2.—Hanselmann, Count von Buelow reported personally to Emperor William yesterday and complained of intentional delaying of the canal bill by the majority in the diet. The government thereupon gave up further negotiations. The resignation of Dr. Von Miquel, finance minister, is now considered likely to be presented immediately. The diet will close before Whit Sunday, but will not be dissolved, nor will there be an appeal on the subject to the emperor by means of a new election. Official publications regarding the above are expected tonight. Emperor William and the Prussian cabinet adhere to their intention to build the canal.

Runaway Boys.

Francis Kleinwort, son of Emil Kleinwort, and Albert Clancy, nephew of Hon. F. W. Clancy, left their homes last night without permission, and up to the hour of going to press this afternoon have not been found. It is understood that the boys have been building a boat for a jaunt down the Rio Grande, and that they, having it ready, launched it without any special ceremony and are now on their way to the Indian village of Ileta. Another report is to the effect that the boys, finding that the boat was not up to the required speed, abandoned it in some weeds near the outskirts of Baretas, and are footing it to the Indian village. In any event, it is thought the boys will be found late this afternoon, and returned to the city. Both gentlemen are now searching the territory south of the city for the young runaways.

DISTRICT COURT.

Claude Doane Given the Limit for Cattle Stealing.

Late yesterday afternoon when the trial of Martinez was in progress, the defendant, seeing that a volume of evidence was being piled up rapidly against him, decided to withdraw his former plea of not guilty, and in its place entered a plea of guilty. Judge Crumpacker then sentenced the young man to a term of two years in the penitentiary.

The next case called to trial was that of the territory vs. Claude Doane, for the larceny of a horse from William Farr more than a year ago. The defendant, who was shot in the leg by a posse of deputy sheriffs and Special Officer Ben Williams a couple of months ago, bobbed into court on crutches and heard the testimony of the prosecuting witnesses. After the evidence was all in the jurors soon filed into court and handed the judge their verdict. It read: "We the jury find the defendant guilty as charged in the indictment." Whereupon a sentence of five years in the penitentiary and a fine of \$500 was imposed. Two more charges, that of larceny of horses and for stealing cattle, Doane entered pleas of guilty, and the sentence as passed by the court was five years and \$500 fine in each case, to run concurrently with the sentence in the cause that tried where the defendant was found guilty.

Joseph Sterling, who was on trial several days ago on an indictment for larceny in a shop, was sentenced yes-

PATRICK ARRAIGNED FOR MURDER.

Secretary Fiescher, of the Retail Merchants' association of this city, is receiving communications daily from all the merchants of the various towns and cities of the territory in which they seek information regarding the success of the organization. In some of the replies the question has been greatly accentuated and it is very probable similar organizations will be formed in the near future, after which it is not at all unlikely that efforts to form a territorial association will be made. During the brief existence of the local Retail Merchants' association, the members are unanimous in declaring it a wonderful success.

MARKET QUOTATIONS.

Market quotations and review furnished by W. F. Logan, 1212 Broadway, received over the private wire of F. J. Logan:

New York, May 2.—Stocks—The market was irregular, but decidedly choppy and erratic. Atchison common was a feature, advancing nearly ten points, being evidently cornered. Atchison rose to 12 1/2 and closed at 12 3/4. The syndicate seems only to accumulate the stock on the reactions. The deal in it is not over.

Chicago, May 2.—Wheat—Liverpool unchanged. The local market has been stronger on continued dry weather throughout the west, temperatures are also abnormally high. This increases the apprehension regarding damage by insects. There is very little talk so far for cash demand. Estimated cash, 55c; May wheat closed at 73 1/2; July, 72 1/2.

Bank of Germany, capital 28,560,000

FUNDS OF THE MUTUAL LIFE, OVER \$328,000,000. The company has in fifty-eight years successfully handled \$800,000,000 of trust bonds. When, therefore, such an institution issues its bonds, they must be conceded to rank in safety with the highest grade of municipal bonds, and even with those of the government.

What is the fair market value of a Five Per Cent, Twenty Year Gold Bond of indubitable security? Where, indeed, in these days of refunding and low interest rates, can such a bond be had at any price?

Such are the bonds now offered by THE MUTUAL LIFE. They differ from other insurance contracts in this only, that whenever death occurs the beneficiary receives bonds instead of cash. Each bond is for \$1,000, and attached to it are forty coupons of \$25.00, payable to the bearer on the first of January and July of each year for twenty years; and then the principal is paid.

The tenth annual ball of the Young Men's Social club was held at their hall on Gold avenue last night and was largely attended. M. H. and Thomas Donahoe, who were down in the Dattl mountains looking up a high ranch location, returned to the city last night, and they report the country through which they traveled a very dry, grass and water being scarce conditions. P. A. Leonard, editor and manager of the Ores and Metals, a monthly journal published at Denver and devoted to the mining industry of the territory, came in from a business trip down through Mexico, and while waiting for the arrival of the delayed No. 2 passenger train he called on The Citizen and on J. F. Luby. From the latter he secured some valuable information regarding the oil lands near Gallup, which he will embody in an article on the subject for next issue of his journal.

H. B. Borden, connected with the Alvarado Oil company, came in from Gallup last night, and reports to The Citizen that the prospects for a "gusher" being struck by the Marlow company were never brighter.
