ALBUQUERQUE CITIZEN

"WE GET THE NEWS FIRST"

WEATHER FORECAST.
 Denver, Aug. 17.—For Albuquerque and vicinity: Local showers tonight or Wednesday.

VOLUME 24.

ALBUQUERQUE, NEW MEXICO, TUESDAY, AUGUST 17, 1909.

NUMBER 183

THE GOVERNMENT FEUD MAY BE SIDETRACKED AT DENVER

Efforts Are Being Made to Exclude Pinchot-Ballinger Row From Congress.

MANY GOVERNORS ATTEND SESSIONS

Real Work of the Convention Began This Morning But It is Expected That Politics Will Take a Back Seat.

Denver, Aug. 17.—All minor hostilities were laid aside for the time being this morning when the first real session of the Trans-Mississippi Commercial congress was called to order by Col. Ike T. Pryor, of San Antonio, chairman of the executive committee. Addresses of welcome and glowing tributes to the west were given by Governor Shafer, of Colorado, John W. Springer, of Denver, and Congressman A. W. Rucker, of Denver. Responses were made by the governors of a number of western states.

Interest in the conversation discussions was revived somewhat this morning on account of the momentary expected arrival of Gifford Pinchot, and some effort is being made to exclude the hostilities between the Pinchot and Ballinger factions from the floor of the convention.

Several delegates of an impatient temperament showed a disposition to reopen the wounds made at Spokane last week. Col. Pryor, who is a candidate for president of the congress, is receiving opposition from the southern Colorado delegates, but it is conceded that politics will remain in the background until the last of the week.

TUCUMCARI YOUTHS ORGANIZE GUARDS
 Tucumcari, N. M., Aug. 17.—The young men of Tucumcari have organized a company of National Guards as a result of an encouraging letter from Governor Curry and equipment for the company is expected soon. O. F. Edler was elected captain and Bert Littleton and Frank Donohue were chosen lieutenants. The membership has increased from 48 to 61 and this company is one of the strongest in the territory.

JAPS ARE RAPIDLY LEAVING THE COUNTRY

Figures Furnished by the Japanese Consul General at San Francisco Show Results of New Laws.

San Francisco, Aug. 17.—According to the figures furnished by Matsuo Magat, acting consul general of Japan in this city, the departure of Japanese from United States territory from January, 1908, to July, 1909, decreased the population of this country 5,008. The consul general shows by statistics that in 1908 3,826 Japanese left Japan for the United States and 5,493 left the United States for Japan. For the first six months of the present year, 311 Japanese came to this country and 1,795 left for Japan. From Hawaii, 2,544 more Japanese departed than arrived during the eighteen months.

RAID COUNTERFEIT LIQUOR IN CHICAGO

Chicago, Aug. 17.—Many Chicago saloonkeepers who have been emulating frugal housewives in seeking bargain prices now have in stock liquors which Pure Food Commissioner Jones and his corps of assistants are confiscating and destroying as rapidly as they can get around.

Max Strickler, rectifier and wholesale dealer, accused of being the ringleader in executing the deception, has been arrested on four charges of counterfeiting labels. Other suspects are sought.

A big wagonload of counterfeit liquor was hauled out of Strickler's place of business and raiders created a big lot of labels. In several instances, it is said, saloonkeepers begged permission to dispose of it over their bars. They expressed willingness to tell customers "it was not the real thing," and offered to sell at reduced prices to get some of their money back, but the authorities refused.

DURING THE RIOTS AT BARCELONA

PHOTOGRAPHS SHOW SCENES DURING THE RECENT DEADLY RIOTING AT BARCELONA. IN TOP PICTURE WOMEN ARE ATTACKING TROLLEY CAR WITH INTENTION OF BURNING IT. BELOW IS OVERTURNED, PARTLY BURNED STREET CAR.

PLAN TO UNITE BRITAIN'S ARMY

All the Units Will Receive Same Training and Be Equipped Completely.

London, Aug. 17.—One great homogeneous imperial British army, uniformly trained and equipped, is to be the outcome of imperial conferences on the naval and military defenses of the empire held at the Foreign Office the latter part of July. The plan provides that all troops of self-governing colonies shall undergo precisely the same training as the home regulars, in order to be ready to take places beside the latter whenever necessity may arise.

Military training colleges along the lines of the staff college at Camberley are to be established in the overseas dominions, and there is to be a continuous interchange of officers from all parts of the empire, so as to insure absolute uniformity of organization and training.

In a recent speech War Secretary Haldane estimated that the United Kingdom, Canada, Australia, New Zealand and South Africa could furnish a total of forty-six divisions. This is equivalent to twenty-three army corps, the strength of the German army.

COMMITTEE REPORTS ON BERESFORD CHARGES

London, Aug. 17.—The imperial defense committee, appointed to investigate the recent criticisms made by Admiral Lord Charles Beresford of the state of the navy, has issued its report. It practically exonerates the admiralty of Admiral Beresford's charges of having endangered the country by the unwise organization and distribution of the fleet, but it finds that both the admiralty and Admiral Beresford are blameworthy for the unharmonious co-operation.

LIFE BOAT SAVED CREW OF SCHOONER

One Man Was Swept Out to Sea While Trying to Carry Life Line on a Raft.

New York, Aug. 17.—An easterly gale which piled the surf high on the southern coast of Long Island, drove the schooner Arlington of Boston on shore this morning. The decks were swept by seas and the crew of eight took refuge on the bowsprit. The Long Beach life saving crew tried in vain to shoot a life line over the wreck and for five hours waited for a chance to launch a life boat.

MOORS MARCHING TO ATTACK MELILLA

Tribesmen Have Cut Wires and Plan Assault on Spain's Strongest Fort in Africa.

Madrid, Aug. 17.—Advises from Penon de la Gomera on the Moroccan coast state that the Moors have cut telegraph wires and isolated the garrison there. Bombarding at Gomera is constant with heavy casualties among the Moors. The Kybilas are mobilizing near Alhucemas, preparatory to marching on Melilla.

MEXICO STILL SHAKES.

Mexico City, Aug. 17.—A delayed dispatch from Acapulco says that three severe earthquake shocks were felt there yesterday. The ocean dropped far below its usual level. The people are still living in the open, not having dared to return to their homes since the severe shocks of a week ago.

DROWNED AT NIAGARA.

Niagara Falls, Aug. 17.—August Sporer, an 18-year-old boy, was drowned in the whirlpool rapids yesterday evening. He was swimming in the river with three companions and swam out in the middle of the stream where the strong current caught him and carried him down stream in spite of his struggle to reach the bank.

BAR BAD BODIES BUT NOT BAD SOULS

Mrs. Besant Points Out Where United States Falls Down in Excluding Immigrants.

Chicago, Aug. 17.—Mrs. Annie Besant rejoices in the fact, though the United States immigration laws bar undesirable bodies, they can't bar undesirable souls.

THE INDIAN HANGED.

London, Aug. 17.—Madariel Dhinagri, the Indian student who shot and killed Sir William Curzon-Wyllie and Dr. Lalcaea at the Imperial Institute, July 1, was hanged at Pentonville prison this morning.

Marina Wants to Retire

GEN. MARINA, COMMANDER OF SPAIN'S FIGHTING TROOPS IN MOROCCO, CONFERRING WITH NATIVE CHIEF IN CAMP UNDER FLAG OF TRUCE.

Paris, Aug. 17.—Correspondence from Melilla says that Spain has opened peace negotiations with the Moors and that General Marina, not wishing to assume the responsibility of the projected Spanish advance, has asked for his recall on the grounds of illness.

INTENSE HEAT DRIVES KANSAS CITYANS TO THE PARKS

The Hottest Day in Years Experienced by the Middle West States Today.

SEVERAL DEATHS HAVE BEEN REPORTED

Hot Wind Drives Temperature Up But Weather Bureau Reports Hot Weather Will be Ended Tonight.

Kansas City, Aug. 17.—Missouri, Kansas and Oklahoma are today suffering from the intense heat of what promises to be the hottest day in the history of those states. Men and beasts are suffering intensely and early in the day reports of prostrations began coming in.

Thousands slept outdoors in Kansas City last night. Topeka is suffering from the heat, while Norfolk, Neb., reports three deaths from heat prostrations.

At noon today at Arkansas City, Kansas, the thermometer recorded 106 in the shade, the hottest day recorded in southern Kansas in many years.

The past eight days have been the hottest period since 1901 and the heat became intense yesterday and today. Prostrations are reported from several points in the three states and a hot wind adds to the suffering.

Relief in Sight.
 Washington, Aug. 17.—A special announcement of the weather bureau states that the intense heat over the middle western states will be broken tonight by a fall in temperature, followed by showers.

PUTS UP FACTORY TO MAKE BUTTER

Standard Oil Company Denies Intention to Compete With the Cow But Is Installing Machinery.

New York, Aug. 17.—Despite its denial that it intended to enter the field of dairying, the Standard Oil company broke ground today at Bayonne, N. J., for the erection of a \$60,000 building in which, when completed, will be installed \$300,000 worth of machinery for the purpose of turning petroleum into butter.

At 26 Broadway complete ignorance of the subject was pleaded, but it is known that machinery has been stored in the works of the Tidewater Oil company at Constable Hook for some time, and it is but a question of months when the farmers will be called on to wage a fight similar to that they waged against oleomargarine.

Pessimists who learned of the new enterprise which is said to have been embarked upon were prone to believe that dairying interests will soon have to face starvation, but they forget that the cow may still be utilized for beef and possible milk and cream, for there is no intimation that the present stop of the Standard marks the exclusion of these three necessities.

TREAT ALL ALIKE

Washington, Aug. 17.—Dental is made of the French protest that the United States is discriminating against that country in enforcing the new tariff law. Treaties with other European countries state in them the time to be allowed when a new law goes into effect, but in the case of France no time was specified.

CAR COMPANY WILL RESUME TOMORROW

Two Thousand Men Will Be Put to Work, Taking Places of Strikers.

Pittsburg, Aug. 17.—At the plant of the Pressed Steel Car company today it is claimed that 2,000 men are housed in the various departments and it is probable the company will make the first real attempt to resume operations, either today or tomorrow.

Pittsburg Butterfly Lands in the Tombs

DAVID L. PERSCH.

New York, Aug. 17.—The latest Pittsburg butterfly to get his wings singed in the flame of "gay" New York is Donald L. Persch, son of Col. L. Persch, a rich financier.

Young Persch graduated from Harvard and went in for millions in Wall street, and those pretty things along the Great White Way that Wall street millions will buy.

He landed in the tombs prison, charged with grand larceny.

Persch was a note broker in the "street." He associated with some of the most polite high finance gentlemen of that ancient and dishonorable thoroughfare. He's a good looking fellow and clever, too.

The unsavory transaction which involves the young Pittsburger is said to have been one of the most daring adventures that has come to light in Wall street in some months. The trial may bring out the truth, at present clouded, and may show that Persch was used by more influential financiers to promote a scheme to break F. Augustus Heinz, copper prince.

REFORM CRIMINALS IS PRISON'S WORK

State is Guilty When It Does Not Try to Better Those Confined in Penitentiary.

Seattle, Aug. 17.—Governor Albert W. Gilchrist, of Florida, was the most notable speaker before the American Prison association this morning. He delivered an address on "Prison Reform in the South" and was followed by Warden F. O. Hollstrom, of South Dakota, who said in part:

"If a man be convicted of crime and serve a term in prison, where no steps are taken to effect his reform or cure, a greater crime is perpetrated against society than the crime of the individual. Any prison management which forgets justice and humanity cannot justify its existence."

WEATHER BUREAU ISSUES A DEFENSE

Washington, Aug. 17.—The weather bureau, smarting under attacks upon its efficiency which grew out of the failure to predict the storm which swept over Washington on Independence day, has replied to its critics with a publication of sixty-five pages containing extracts from newspapers all over the country defending the bureau.

The pamphlet is headed: "Does the Weather Bureau Make Good?" Answer by the Maritime, Agricultural and Commercial Interests of the United States, and by the American Press.

WAR ON HATPINS.
 Paris, Aug. 17.—Official war has begun against the murderous hatpins worn by women. With the advent of the big hat it has become fashionable for a woman to go about the streets with her head bristling on all sides with hatpins of many designs.

THE SAFETY OF BOSTON JEOPARDIZED BY HARD BATTLE

Invaders Successfully Attacked Defenders Shortly After Noon Today.

A WAR BALLOON MADE ITS ESCAPE

According to Umpires It Was the Only Portion of the Blue Army to Get Away Safely in the Fight Today.

Middleboro, Mass., Aug. 17.—General Tasker H. Bliss, of the "Red" army, threw his whole strength against the "Blue" army of defense shortly after noon today and a fierce engagement ensued in which the umpires decided the "Red" army had the best of the encounter and that the "Blues" were driven back.

The engagement was begun with an artillery duel, after which the Massachusetts infantry, composing the outposts of the left wing of the "Blue" army, were driven back by a cavalry column composed of New York cavalry, the Essex troop of New Jersey and part of the Tenth cavalry, regular army.

LUMBERMEN WILL AID FOREST SERVICE

Practical Manufacturers Will Assist Conservation of the Pine Supply.

Washington, Aug. 17.—The interest being taken by practical lumbermen in the conservation of the forests was illustrated at the semi-annual meeting of the Yellow Pine Manufacturers' association which was recently held in Chicago. The report of the committee on the conservation of the yellow pine forests received much attention and was adopted unanimously.

Among the chief recommendations made by the committee in its report was for the cutting by lumbermen of their timber by two operations with an interval of from fifteen to twenty years, the ripe timber being removed during the first cutting and to leave from 2,500 to 3,000 feet of standing timber on each acre. It was shown by such a method of lumbering that a decided advantage could accrue to the lumbermen through the increased growth and consequent gain in timber which would be had between the first and second cuttings.

TERRITORY WOOLS CONTINUE ACTIVE

Dealings Are Heavy in Boston Market and Prices Continue High.

Boston, Aug. 17.—The strength and activity of the local wool market, especially in territory stock, continues. Dealings are very heavy and prices firm, while the buyers are stocking up as manufactured goods are moving freely. Montana half bloods are readily at 29 and 30. The movement in Texas 12-month stock is good at 28 1/2 in the grease and 75 cleaned. Fullest lamb wool and the foreign product are sought.

AMERICANS ORGANIZE FOR OWN PROTECTION

New Orleans, Aug. 17.—The members of the American club in the City of Mexico are forming a military company which will tender its services to the Mexican government for the protection of the American residents if the necessity arises. This information is given by W. G. Perrin, who is en route east from Mexico City.

The Albuquerque Citizen

PUBLISHED DAILY AND WEEKLY.

By the Citizen Publishing Company of Albuquerque, New Mexico.

W. S. STRICKLER

"WE GET THE NEWS FIRST." STATEHOOD FOR NEW MEXICO

We favor the immediate admission of the territories of New Mexico and Arizona as separate states in the Union.—Republican National Platform.

CLIPPINGS From the Press

A LESSON IN ECONOMY.

Women who will smoke in the United States might learn a lesson in economy from their Philippine sisters. These ladies smoke cigars, not cigarettes, 16 inches long and 2 inches in circumference. When tired of puffing the cigar is extinguished and put away for another time, one cigar lasting several days. They are back and strong, too.—Durango Herald.

WHEAT THAT IS WHEAT.

Valencia county wheat took the first gold medal prize for the best wheat in the world at the Chicago exposition in 1903. It also took the first world's fair prize at the Omaha exposition and later in 1904 Valencia county wheat again took the first gold medal prize for the best wheat produced in the United States at the Charleston, S. C., exposition.—Belton Tribune.

NEW FAIR ASSOCIATION.

The Union County Fair association has been organized in Clayton with a capital stock of \$10,000. The temporary officers elected are: A. E. Will, president; Howell Ernest, secretary; Dr. J. C. Black, A. James McDonald, Carl Klund, Dr. N. E. Charlton, H. W. Isaacs and F. H. Clark, directors. They intend to purchase 35 acres of land close to town, enclose same with a high-board fence, and make a half-mile track and other necessary buildings therein.—Union County Herald.

NIGHT BLOOMING CERES.

The management of this paper has at their home two plants of the night blooming variety that are now developing six fine buds which will open in about ten days.

These buds begin to open about sundown, expand to the size of an ordinary dinner plate and close before the next morning. They are of the odoriferous kind and can be detected a long distance by anyone acquainted with the perfume.—Pecos Valley News.

KEEP FLIES AWAY.

Roach, 1 1/2 ounces; laundry soap, 2 cakes; fish oil, 1/2 pint; enough water to make three gallons. Dissolve the soap in a solution of warm water by heating, add fish oil and the rest of the water. Apply with a brush. It to be used as a spray, add 1/2 pint of kerosene. This mixture will cost from seven to eight cents per gallon, and may be used on cows and calves. One pint of this mixture is considered enough for one application for a cow. A calf, of course, would require considerably less. It will be more economical to apply this to the parts of the animal not reached by the tail. At first it will be necessary to give two or three applications per week, until the outer ends of the hair become coated with resin. After that, touch those parts where the resin is rubbed off. This formula has been used by the Kansas Agricultural college successfully and recommended to farmers.—Sterling Bulletin.

SAVED BY FALSE TEETH.

Last Thursday while John B. Wilkerson, prominent farmer living near Lake Arthur, had occasion to take a trip on horseback to the Salt Lakes, directly east of that town, as he was riding along in the heat of the day he became drowsy, and was half asleep, with his head on his breast as the horse jogged along. Suddenly a large and terrible bobcat sprang at him from the bushes at the side of the road, and was upon the horse in front of Mr. Wilkerson in less time than it takes his eye to blink. Mr. Wilkerson opened his eyes, and had he not been bald his hair would have stood on his head, and perhaps turned gray but all colors of the rainbow for the cat was not a foot from his face. The horse began to rear and plunge madly, and the cat fastened its teeth in Mr. Wilkerson's throat. He had just given up all hope of coming out of the encounter alive when the plunging of the horse loosened his false teeth, and they fell with such force on the bobcat's eyes as to totally blind him. It released its hold on Mr. Wilkerson and dropped to the ground, but, being unable to see, it was easily captured by Wilkerson, who roped it and came into town with the cat fighting and spitting at the end of the rope. With the exception of a few cuts on the neck and some scratches on the arms and shoulders Mr. Wilkerson is none the worse for his terrible experience, but hereafter he will be more careful how he sleeps—and where.—Pecos Valley News.

The Eastman Plant For Motion Pictures

From Motion Picture World.

"We are accustomed in this country to stupendous figures, and when they are applied to the output of a steel mill or the tonnage of a railroad, we think not so much of it, because the products themselves are large. But a moving picture negative is such a tiny little thing, a post card is so small, an 8 x 10 plate is so insignificant as compared with a steel rail, and a camera is so unpretentious alongside of a locomotive or an automobile, that we do not look for mechanically big things in a photographic factory. In photography we think in grains and ounces and square inches—yet so great is the consumption of the various products that to contemplate the Eastman works we must think in acres and tons. In our Kodak park plant, 23 acres of floor space is given up to the manufacture of sensitized photographic goods; the new plate building now under construction will bring this total up to more than 28 acres, while our other Rochester factory, with cooking floor space devoted exclusively to the photographic business, bring the total

up to 37 acres in Rochester alone—and there is still more under construction.

Eastman Statistics.
"There are nearly 4,000 Rochester employes, and the capacity of our boilers is over 4,700 horse-power. The refrigerating machines at Kodak park have a cooling power equal to the melting of 1,320 tons of ice daily. The works are operated by 743 motors, varying in power from 1-1/2 to 75 horse-power, and these, with 2,000 incandescent lights, are furnished current by six engine-driven electric generators, with a capacity of 1,556 kilowatts, or 4,600 horse-power. In the Kodak park grounds, consisting of 43 acres, are two and a third miles of water mains, one and a third miles of brick pavement and three-quarters of a mile of railroad trackage."

Big and Little "Dope" Barrels.

The "dope" building was the center of interest to the expert photographers. Beneath the floor were the great barrels, holding 200,000 pounds of the syrup-like mixture from which the film base is made. Technically this is known as cellulose nitrate for the ordinary film and cellulose acetate for the new non-inflammable film now used for moving pictures. In the Eastman vernacular, the film base in this semi-liquid state is called "dope." There is another interesting exhibit in this dope cellar. It is a small barrel which tells the story of the volume of the film business in 1891; it has a capacity of 500 pounds. The present barrels hold 4,000 pounds each and fifty of them are filled and reeled night and day. The managers are proud of these old-time exhibits, as they show more conclusively than any figures that could be given, the rapid growth of the volume of business of the plant.

Silver Bullion in Piles.

A couple of employes stood guard over the piles of silver bricks. The Eastman company is the largest consumer of silver bullion in the world, outside the United States mint, the consumption of pure bullion amounting to about a ton a week. The visitors looked at the stack of silver bricks and some of them touched the piles as they walked by. Each brick is worth approximately \$250.

As a sample of the thoroughness of the equipment and the care that is taken in manufacturing the film, the company, in order to obtain perfect results, uses a variety of chemicals. Nitric acid is used in conjunction with silver bullion to make silver nitrate. It makes its own sulphuric acid, from which, in combination with nitre, the nitric acid is made. This acid plant made necessary the enormous stack, 366 feet in height, the highest in America, in order to carry off the deadly poisonous gases. Nitric acid is not only used in nitrating the silver, but it is consumed in enormous quantities for cutting the raw cotton, which forms the base of transparent films.

In line with the manufacture of incidental products for use in the factory is the big department for the making of paper boxes. The box factory has a capacity of 25,000 paper boxes a day. In addition, there are made millions of envelopes for papers and millions of cartons for films. The box making, which is done mainly by girls, was one of the most interesting features of the inspection.

Camera Miracles

The camera, which glides time into thousands of a second and records the impressions of each, makes permanent pictures of events which pass too quickly for the dull human eye to recognize. It is only through the camera that the motion of the wings of flying birds and of the legs of swift running animals have been analyzed. The camera has fuzzy drivers of the swiftly speeding locomotives stand out, clear-cut and stationary, while each flying drop of rain in the driven storm is distinct and seems frozen in its place. The tarpon fisherman familiar with the first wild leap of the fringed fish as it casts hook and bait fifty feet in the air, sees first in the finished picture the outstretched gills, the convulsive opening and closing of which had escaped his eye, however closely he may have looked for it.

Often the eye of the camera will decipher documents of which the writing had been substantially obliterated by age, and I have successfully copied with the camera the utterly faded photograph of a classmate of forty years previous and thereby been enabled to present to a grizzled veteran a likeness of his curly-haired youth. Changes in the pigment of the skin, undetectable by the eye, appear with distinctness on the sensitive plate, and it is said that ample warning of the approaching disease has been thereby given.

By means of the invisible rays lying beyond the violet of the spectrum, objects may be photographed in the darkness, and, with the aid of the so-called X-ray, through substances otherwise opaque. When from the darkness of night and storm the forked lightning flashes, the camera makes a vivid and permanent picture of each fiery trail. Creatures that travel by night can be "caught" in the brief blaze of a magnesium-charged pistol, the flash of which is of too short duration for the creature to move, or the dull human eye to recognize the subject.—A. W. Dismock, in Van Norden.

Hair Dresser and Chiropodist.
Mrs. Bambini, at her parlors opposite the Alvarado and next door to Sturges' cafe, is prepared to give thorough scalp treatment, do hair dressing, treat corns, bunions and ingrown nails. She gives massage treatment and manicuring. Mrs. Bambini's own preparation of complexion cream builds up the skin and improves the complexion, and is guaranteed not to be injurious. She also prepares hair tonic and cures and prevents dandruff and hair falling out, restores life to dead hair, removes moles, warts and superfluous hair. For any blemish of the face call and consult Mrs. Bambini.

Happy But Not Together

Charles Frohman looked worried as he sat in his stateroom on the Lusitania, that recently brought him back to America. Mr. Frohman had been told that he would have to leave his stateroom before the boat docked, present himself before the Customs officers, and swear to the authenticity of his signature. The idea was a new and a troublesome one to the manager, always careful to avoid crowds or in any way publicly acknowledge his identity. Every moment brought the dreaded hour nearer. Mr. Frohman puffed hard at a long cigar, but an official rap at the stateroom door put it beyond hope that the dread taking of a public oath could disappear in the smoke that filled the cabin.

Enter a long, lean, hungry-looking official.

"Is this Mr. Frohman?"

"Yes," said the manager. "Won't you sit down; here, try one of my cigars."

"You're just back from London?"

"The fact is, I am a reporter on the New York Daily Screech, Mr. Frohman, and I want to know what you can tell me about Mr. and Mrs. Blank's domestic affairs. I understand they are both members of your London company."

"They are members of one of my London companies," said Mr. Frohman, "but I am sure I don't know a thing about their domestic affairs; and anyhow, you wouldn't have me signal my return to America by talking London gossip, would you?"

"Oh, no," said the reporter of the Daily Screech, reassuringly, "but can you give me anything for copy? Will you, at any rate, tell me whether Mr. and Mrs. Blank are living happily together?"

"Now as man to man, which would you rather do—have another cigar or oblige me to give some sort of an answer?" asked Mr. Frohman, playfully.

"I think I would rather have some kind of an answer," answered the reporter, hope ever rising eternal in the reportorial breast.

"Well, then, you can say for me," answered the manager, "that so far as Mr. Frohman knows, Mr. and Mrs. Blank are living happily, but not together."

LUCK IN THE HORSESHOE.

Of all the emblems for good fortune the horseshoe stands among the first. Everybody knows it is unlucky to pass a horseshoe on the road without picking it up. It is a luck emblem of the greatest power. Again we are indebted for this statement to old tales, centuries in age, that have descended from father to son, from mother to daughter, through the years.

The old myths repay research. The luck of the horseshoe has a most respectable beginning. It is traced to the religion of the old Greeks and their sea god Poseidon, who was identical with the Roman sea god Neptune.

To Poseidon horses were sacred and to him they were sacrificed. Poseidon was believed to have created the first horse when he struck the ground with his trident and a horse sprang from the hole, which afterwards became a spring. To him all springs were ascribed. In the shape of a horse he sometimes wandered by the shores of his ocean domain, and where he struck his hoofs deeply there the waters gushed out and permanent springs were found.

This is the reason why horseshoes are reckoned lucky. Going to the root of the matter one sees a nature myth as all rain comes and to the sea all springs owe primal origin, and to the rain and the fresh waters, sea derived, we owe all fertility on earth.

The old Greeks therefore worshipped Poseidon as the fortune giver through his springs. They gave him horses, his precious beasts, and they adored the footprints of horses when they found them, for they might be the very foot prints of the god himself.

When horses came to be shed the transition of the luck emblem from the footprint itself to the shoe marks practically the same thing—was easy.

Pegasus, the winged horse, from whose hoofs the water springs gushed copiously when he came to earth, has been credited with the origin of the horseshoe luck.

The horseshoe was a specific against

earthquakes. It would keep a house safe from harm by earth shaking. Again one perceives the sea myth—Poseidon was the shaker of the earth.—Team Owners' Gazette.

To Enjoy

the full confidence of the Well-Informed of the World and the Commendation of the most eminent physicians it was essential that the component parts of Syrup of Figs and Elixir of Senna should be known to and approved by them; therefore, the California Fig Syrup Co. publishes a full statement with every package. The perfect purity and uniformity of product, which they demand in a laxative remedy of an ethical character, are assured by the Company's original method of manufacture known to the Company only.

The Figs of California are used in the production of Syrup of Figs and Elixir of Senna to promote the pleasant taste, but the medicinal principles are obtained from plants known to act most beneficially.

To get its beneficial effects always buy the genuine—manufactured by the California Fig Syrup Co. only, and for sale by all leading druggists.

L. B. PUTNEY

THE WHOLESALE GROCER

FLOUR, GRAIN AND PROVISIONS

Carries the Largest and Most Exclusive Stock of Staple Groceries in the Southwest.

FARM AND FREIGHT WAGONS

CENTRAL AVENUE ALBUQUERQUE, N. M.

FATHER IS BLAMED FOR APPENDICITIS

His Lack of Care in Carving Meat Given as Cause by English Doctor.

London, Aug. 17.—In accounting for the enormous increase of appendicitis during the last few generations, Sir William Bull, the noted English scientist, puts the bulk of the blame on father's clumsy surgery of the family roast.

Bull asserts the head of the household always stands over a roast or poultry, and, taking the carving knife and steel in hand, studiously sharpens the blade over the meat, showering it with minute particles of steel. Then he goes after the roast joints and fibers as if he were chopping wood. He slashes into the bone and then rasps his knife along the bone's hard surface, grinding off thousands of small flakes of steel.

These, scattered throughout the meat, are served to the family and eaten, and in time they find their way to the vermiform appendix and there

cause the most dangerous seizures of appendicitis.

"Under the microscope," Dr. Bull asserts, "the average family roast, after it has been abused by the head of the house, shows heavily salted with sharp little slivers of steel."

Whether appendicitis existed but was unknown to our forefathers, or our sires used dull carving knives or demolished the roasts in some fashion society has lost, are matters upon which Dr. Bull will voice no opinion.

HOW'S THIS.

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY & CO., Toledo, Ohio.

We the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions, and financially able to carry out any obligations made by his firm. Walding, Kinnam & Marvin.

Wholesale Druggists, Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price, 75c per bottle. Sold by all druggists. Take Hall's Family Pills for constipation.

Very low price on garden hose to close out stock. Come in before we are sold out. I. H. Cox, 706 W. Central.

The Pinchot Affair

During his administration there was more or less criticism of President Roosevelt's occasionally arbitrary policies in meeting emergencies, especially in relation to the natural resources lying within the public domain. He could not finally maintain the large withdrawals of coal lands to keep them from falling into the hands of monopoly-seeking railroads, but pending the decision in that case he procured such regulations as to accomplish the same end in another way. It is possible that there is no definite law for the withdrawal of a half a million acres of public lands for the purpose of protecting water power sites against the rapidly forming power trust, but President Roosevelt gave the trust its biggest obstruction by taking that action.

Secretary Ballinger, a lawyer and a technical executive, is in favor of restoring this land to general appropriation because it is not strictly classed as irrigable land. He says this is the law. But if it is unconditionally restored, its water power sites will be appropriated by private interests, whereas they should be preserved in some way for the general good. And right here is where Mr. Gifford Pinchot, chief forester, and an enthusiastic supporter of the Roosevelt policies, has been brought into an almost violent conflict with the secretary of the interior.

President Taft will have a delicate task to reconcile these two officials. It would be extremely regrettable if the result should be the resignation or the removal of Mr. Pinchot, who has been one of the most faithful, disinterested, progressive and effective officials in the national service, or of Mr. Ballinger, who appears to be a competent official and honest in his views.

But the main question is, of course, of vastly more importance than any personal considerations involved. The people approved absolutely the policies of President Roosevelt, as a temporary means of checking graft, monopoly and extortion. Whatever course President Taft may take, it must answer this purpose, and it doubtless will, for Mr. Taft has declared that he means to protect the people against these private designs.

Time to Rejoice

Golden will be the harvests of 1909. This is a free translation of the statistics which were issued by the federal department of agriculture the other day on the conditions of the crops of the land on August 1. These figures showed them to be better on the average than were the enormous crops of last year and also better than has been the average for the crops during the past ten years. More than this could not be asked for or expected by any one under existing circumstances, even if there is a crying need for the raising of more crops in this country.

But the harvests of this year will make for prosperous conditions throughout the nation, the like of which have not often been enjoyed by any people. The crop yields in other climates are not nearly large enough to provide the wants of their populations. This means advantageous markets for the surplus of the United States crops. It means, also, that the prices which the farmers will secure will be generally better than they have been of late. And unusual prosperity for the farmer means the same sort of prosperity for almost the whole people of the country.

The railroad will reap the first benefits. Their capacities will be taxed to the utmost to haul these crops from the acres where they grow to the places where they are needed. Retailers, wholesalers, manufacturers and their employees, the country over, will get their benefits, too, in a variety of ways. The American farmer of today is not a hoarder of gold. He puts his money into new farm buildings, new and modern houses, new machinery, including the luxurious automobiles. He and his family wear the best of clothes and have the best of everything. This means trade and business in all of its fields of endeavor. Some optimists go so far as to state that the prosperity at hand will prove to be the greatest that has ever been experienced by the people of this or any other land. Whether that be true or not it is certain that the approaching prosperity will be adequately sufficient in every respect. Therefore, the time is ripe for a general rejoicing.

The Enormous Graft

Startling figures are given by former Commissioner Bingham, of New York city, in estimating the graft which he declares he could easily have secured had he so inclined, while holding political office in the greatest city of the country. Mr. Bingham is quoted in a New York dispatch, as saying that he could have easily amassed a million dollars, had he accepted the money offered him. The interview is certainly interesting, as showing the under side of life in the gay metropolis of America.

General Theodore A. Bingham declares that in the first year that he was police commissioner of New York City he could have easily made \$100,000 in bribe money, and that a million dollars would not be an excessive figure for him to have realized had he been seeking bribes.

"One day shortly after my arrival at police headquarters, an acquaintance dropped into my office," writes General Bingham in Hampton's Magazine.

"Commissioner," he said, "there is a house at No. — West Thirty-third street run very quietly. It will be worth \$10,000 a month to you—"

"A few months later I was offered \$5,000 in cash and \$500 a month merely to be seen shaking hands with the proprietor of an Upper Broadway cafe."

General Bingham estimates the money value of graft and blackmail of all kinds in New York each year to be not less than 100 million dollars. He declares that between 1,500 and 2,000 members of the police force are "unscrupulous grafters whose hands are always out for easy money."

The ex-commissioner blames the personnel of the courts for much of New York's unrighteousness.

Announcement comes from Washington to the effect that a new \$20 bill is to be designed that it will stand out from a pile of \$1 or \$5 bills with a prominence that will permit of no mistake in its handling. This may be of interest to bank clerks but that's about all. Most people in the land never get a chance to make a mistake in the handling of a \$20 bill.

President Taft is a "land lubber" unless he is on the deck of a big ocean steamship. This shows his fine prudence. A dinky little sailboat is no fit place for a 200-pounder.

A New Jersey man is reported to have found a mushroom which weighs 42 pounds. This is one of those things which is not exceedingly important if it is true.

The Van Sant elected commander of the Grand Army was not "Doc" Van Sant of Pennsylvania. "Doc" states that he was not a candidate.

LEGAL NOTICE.

NOTICE OF FORECLOSURE SALE.

Public notice is hereby given that whereas in the District Court of the Third Judicial District of the Territory of New Mexico, within and for the County of Grant, in an action the pending in said court wherein Savanna Copper Company, a corporation, and Walter A. Barrows, Jr., were plaintiffs, and The Comanche Mining and Smelting Company, a corporation, was defendant, for the foreclosure of a mortgage deed of trust dated October 17, 1908, executed by said defendant and conveyed to said plaintiff Walter A. Barrows, Jr., as trustee, the property hereinafter described and all of the proceeds of the same, to secure the payment of certain promissory notes of the defendant, which deed of trust is recorded in the office of the Probate Clerk and ex-officio Recorder of said County of Grant in book 43 of Trust Deeds, beginning at page 136, the said court did on the 11th day of May, 1909, render its judgment, order and decree, which was thereafter duly filed and entered of record in said court that there was then due and owing from the defendant to the plaintiff principal and interest of \$403,361.69, and \$12,109.99 as attorney's fees; and that the plaintiff Savanna Copper Company have and recover from the defendant the said sum of \$403,361.69 with interest at six per cent per annum from the date of said judgment and the sum of \$12,109.99 as attorney's fees, and awarding to the plaintiff Barrows, Jr., \$5,000.00 for his attorney's fees and \$5,000.00 as compensation for his own services as trustee; and that the plaintiffs recover from the defendant their costs in said action; that all of the mortgaged property in said decree and hereinafter described, and all of the property of defendant in said County of Grant be sold by the undersigned, who was in and by said decree appointed Special Master to direct and conduct said sale, at public auction and in one parcel and as an entirety; provided that said property should not be sold until ninety days after the date of said decree, within which time the defendant, or any one for it, might pay off the decree and discharge the mortgage, and avoid the sale; and that in default of such payment within said period of ninety days the defendant, and under it, subsequent to the execution of said mortgage deed of trust should be barred and foreclosed of all rights, claim or equity of redemption in said premises and property and every part thereof, and that the sale of said property should proceed; the proceeds of said sale to be applied to the payment of the various amounts adjudged and awarded to the plaintiffs and to the costs of the suit and of the sale, as particularly provided in said decree; and Whereas, neither the defendant nor any one for it has paid off the decree nor any part thereof, and the said ninety days since the date of the decree have elapsed, and the defendant has defaulted in making such payment; now, therefore.

west quarter of the northwest quarter of said Section eleven, and the northwest quarter of the southwest quarter of said Section eleven, five hundred forty-six and seventy-six hundredths (546 76/100) feet; thence in a direction north 22 deg. 29 min. west fourteen hundred twenty-nine and seventy-five hundredths (1429 75/100) feet, more or less, to the northwest corner of said southwest quarter of the northwest quarter of said Section eleven, to the point of beginning, subject, however, as to both the above described parcels of land to the easement of right of way through, over and across the same of the Atchison, Topeka and Santa Fe Railway Company, according to the line of the railroad of said Company as the same now exists. And, also, the Dewey mining claim in said Pinos Altos mining district, of which the location notice is recorded in said probate clerk and ex-officio recorder's office in Book 25 of Mining Locations at pages 208 and 209; and the Cove mining claim, situated in said Chloride Flat mining district, of which the location notice is recorded in said probate clerk and ex-officio recorder's office in Book 25 of Mining Locations at pages 15 and 16. Together with all and singular the lodes and veins within the lines of said claims (and not excepted on the Official plat), and the dips, spurs and angles, mines, mining right, minerals, metals, ores, gold, silver, copper, lead, zinc, iron, molybdenum, tungsten, and earth therein. Together with all rights, privileges and franchises incident, appurtenant and appurtenant or therewith usually had and enjoyed. Together with all the easements, mining fixtures, improvements and all rights of flowage and other water rights now belonging to the said defendant, whether appurtenant to the land conveyed by said deed of trust or not. Together with all and singular the tenements, hereditaments and appurtenances to said real estate belonging or in anywise appertaining, and all the rents, issues and profits thereof, and all the estate, right, title, interest, claim or demand whatsoever of the defendant either in law or equity, either in possession or expectancy of, in and to the above described real estate and its hereditaments and appurtenances. And, together with any and all other real estate of the defendant not herein specifically mentioned or described which is situate in the said county of Grant. And, also, the personal property described in the following schedule of personal property of defendant The Comanche Mining and Smelting Company, all situated in the county of Grant, Territory of New Mexico, to-wit: 1. In the barn of defendant on or near the smelter site heretofore described: 2 sorrel horses, 2 sets double harness, 1 double seat carriage, 1 buggy, 2 wagons, 1 blanket, 1 curry comb, 1 brush and 2 horse collars. 2. In the power house of defendant on said smelter site, a lot of tools, materials and supplies, to-wit: 1 boiler's blast lamp, 1 tinners' gasometer, 1 pair black and grips, 1 volt ammeter, 1 6" gong bell, 22 enclosed fuses, 1 4' step ladder, 1 tin oil tank, 1 oil filter, 4 monkey wrenches, 50 ft. 1" rubber hose, 16 feet 3" leather belt, 4 sockets, 1 brace, 4 oil cans, 8 lbs. ring packing, 1 gate valve, 2 telephone transmitters, 7 lamp guards, 3 telephone receivers, 9 lbs. flake graphite, 2 tubular lamps, 156 lbs. Iola cement, 3 cables, 4 wires, 2 gals. cylinder oil, 30 cored carbons. 3. In the machine shop of defendant on said smelter site, a lot of tools, materials and supplies, to-wit: 1 pipe vise, 1 wiring machine, 1 emery wheel stand, 1 mine cage, 20 ft. chains, 2 sprocket wheels, 4 Duplex chain blocks, 2 bench vices, 8 track jacks, 4 ratchet jacks, 5 screw sockets, 1 Jennie track jack, 16 1/2 lbs. Burden bolts, 3 pair hard oil, 3 pipe tongs, 2 stillson wrenches, 16 shovels, 1 hammer, 13 pipe dies, 29 twist drills, 50 taps, 16 Little Giant dies, 2 boiler taps, 1 compass, 4 bolt taps, 2 boiler taps, 1 check valve, 2 New Boyer long stroke hammers, 2 oil cups, 1 grease cup, 1 emery wheel dresser, 1 soldering iron, 1 track chisel, 1 lantern, 1 socket wrench, 1 Hue-expander, 2 calipers, 1 water tank. 4. In and about the blast furnace building on said smelter site: 1 hood and stack with take-down pipe, 1 Fairbanks suspension scale, 8 door coatings for calciner, 2 ore buckets, 20 slag pots, 20 copper moulds, 20 slag pot bowls, 19 iron tray wheel barrows, 2 Duplex chain blocks, 19 tubular lanterns, 2 headlights, 1 warehouse truck, 119 ft. rubber hose, 5 coils of wire, 18 shovels, 2 hammers, 12 picks, 2 coke forks, 6 coke wheel barrows, 8750 red brick, 3150 fire brick, 3 small iron tray wheel barrows, 10 large iron tray wheel barrows, 2 coke tray wheel barrows, 50 ft. cotton hose, 21 railroad ties, 1 globe valve, 3 Tuxey caps, 2 oil cans, 15 tons tamping clay, 125 ft. flange-j pipe, 1 steel plate. 5. In the concentrator on said smelter site: centrifugal pumps, 250 feet rubber belting, 1 windlass, 1 sheave wheel, 9 toggle plates for crusher, 10 crusher dies, 4 plates 1 1/2" 26", 6 crusher check plates, 1 1/2" grating, 2 shaft hangers, 8 jig gates, 15 iron washers, 2 pick eyes, 1 pinch bar, 135 lbs. nails, 23 pieces white pine, 14 lbs. oakum, 50 sq. ft. roofing paper, 13 lag screws, 8 lbs. belt lacing, 150 elevator bolts, 3 round bolts, 40 lbs. track spikes, 18 molasses gates, 115 lbs. galvanized iron wire, 1 globe valve, 2 elbows, 12 carbon brushes, 225 sq. ft. wire screen, 21 stud bolts, 45 machine bolts, 3 iron wheel barrows, 2 copper rollers, 1 oil can, 2 gal. engine oil, 1 Duplex chain block, 1 grindstone, 2 hammers, 1 8-wrench, 3 jack screws, 1 iron vise, 4 hack saw blades, 2 monkey wrenches, 1 machinists hammer, 1 octagon bar, 2 axe, 1 water tank. 6. In the foundry building on said smelter site: 1 brass furnace, 1 set moulders' tools, 50 flasks, 4 ladles, 25 ft. rubber hose, 140 ft. wire. 7. In the sampler building on said smelter site: 80 sampling pans, 1 sample grinder, 1 platform scale, 1 horse whim, 3 cois and bedding, 9 wheel barrows, 2 hand brushes, 1 ore

LEGAL NOTICE.

sampler, 8 driers, 50 ft. hose, 1 chair, 4 long handled brushes. 8. In the carpenter shop on said smelter site: 2 18' ladders, 1 cross cut saw, 1 double clamp, 1 carpenter's clamp, 4 cabinet maker's clamps, 2 half round planes, 76 pieces lumber, 2 sash, 6 window frames, 1 wooden frame, 85 lbs. wire nails, 1 double jack handle, 4 mine car wheels, 6 gross wood screws, 1 file, 1 ore car body, 2 round wood tanks, 1 square tank, 6 carbon brushes. 9. In the blacksmith shop on said smelter site: 1 blacksmith vise, 1 screw clamp, 1 bolt header, 2 swage blocks, 1 anvil, 1 pipe wiper, 1 bottom swages, 21 top swages, 20 bottom fullers, 8 top fullers, 11 ball planes, 12 punches, 3 chisels, 3 flat pen hammers, 2 blacksmith sledges, 3 striking hammers, 46 tongs, 15 tons blacksmith coal. 10. In the office building on said smelter site: 1 work bench, 1 hood 2' 3/4", 3 funnel stands, 1 revolving burette stand, 3 stool top desks, 1 typewriter desk, 1 standing desk, 2 office tables, 1 Globe filing cabinet, 3 units, 1 Remington typewriter, 1 Oliver typewriter, 1 Burroughs adding machine, 1 calculating machine, 11 chairs, 1 iron safe, 2 small stands, 2 stools, 1 letter press, 1 wringer, 1 check punch, 2 stoves, 3 card cases, 8 filing cases, 6 waste paper baskets, 1 rotary neostyle and case, 2 numbering machines, 1 leather mail bag, 1 seal, 2 lamps, 1 pair letter scales, 12 Shannon invoice files, 1 Babcock fire extinguisher, 3 sets of blackboard erasable Arithmatics, 2 button balances, 1 analytical balance, 1 pulp balance, 1 specific gravity balance, 1 scoop scale, 1 set platinum weights, 2 sets gram weights, 3 assay tons weights, 12 riders, 4 weights, 1 mortar and pestle, 2 bucking boards, 1 miller, 1 slag anvil, 4 crucible moulds, 2 scorifier moulds, 1 cupel tray, 4 cupel machines, 1 coal shovel, 1 ash rake, 1 poker, 1 adz, 1 pair 8" screw drivers, 1 set of 14 galvanized steel, 1 magnet, 1 laboratory blast lamp, 8 platinum cones, 8 spirals, 3 crucibles, 2 platinum cones, 13 nickel crucibles, 1 cane bottom chair, 2 gasoline stoves, 12 battery jars, 2 coppers, 27 zincs, 4 spatulas, 1 wooden mallet, 1 test lead measure, 1 1/2 doz. evaporating dishes, 1 cork borer, 1 cork borer sharpener, 1 doz. annealing cups, 1 copper anvil, 1 1/2 doz. pinch coxks, 2 camel hair brushes, 3 camel hair pencils, 1 pr. button pliers, 9 pr. button forceps, 1 pr. iron tipped forceps, 6 doz. rubber corkers, 1 test tube rack, 17 pipe stem triangles, 16 blast lamp bulbs, 1 pr. asbestos mittens, 2 yds. rubber sheeting, 1 axe, 2 water buckets, 7 drip pans, 1 1/2 doz. sample pans, 2 ruffias, 1 hammer, 1 Carey burner, 3 pr. tongs, 1 diamond mortar, 1 button brush, 1 gold pen, 6 rowing dishes, 49 doz. beakers, 17 electrolytic beakers, 19 wash bottles, 5 flasks, 3 aspirators, 13 tincture bottles, 1 Regent bottle, 4 solution bottles, 47 parting flasks, 2 glass retorts, 4 pipettes, 3 napha hydrameters, 3 cylinders, 6 nessler tubes, 25 test tubes, 2 graduated, 108 watch glasses, 1 alcohol lamp, 1 chemical thermometer, 2 color plates, 9 burets, 30 1/2 glass cells, 4 drawing tables, 24 casseroles, 1 filter pump, 1 Curley transit complete, 2 Queon transits complete, 1 engineer's protractor, 1 draftsman's protractor, 1 set engineer's scales, 1 T-squares, 1 triangular scale, 1 pr. scissors, 1 office chair, 1 roll top desk, 4 celluloid triangles, 3 iron range poles, 1 Curley level complete, 1 Queen level complete, 1 set railway curves, 2 irregular curves, 2 cabinets, 2 drawing tables, 2 rowing boards, 2 Philadelphia leveling rods, 1 roll Duplex drawing paper, 6 yards Anvil mounted drawing paper, 1 roll vellum tracing cloth, 1 doz. cakes water colors, 1 doz. sable brushes. 11. In the warehouse on said smelter site: 1 pr. counter scales, 1 pr. store room trucks, 1 roll top desk, 1 high desk, 1 catalog rack, 1 table, 2 chairs, 1 desk stool, 1 waste basket, 1 broom, 1 stove, 1 coal scuttle, 1 lamp, 1 galv. sprinkler, 1 water cooler, 6 magnet switches, 102 fuses for electrical apparatus, 45 ft. flexible conduit, 5 attachment plugs, 17 calling rosesets, 8 shade holders, 7 wall sockets, 9 switches, 328 lbs. ins. copper cable, 4 telephone mouth pieces, 6 Rex wood bolts, 32 carbon brushes, 27 W. P. sockets, 8 cutouts, 1 lb. German silver resistance wire, 20 3/4 lbs. annunciator wire, 10 Edison key sockets, 4 large fuses, 5 knife switches, 14 porcelain attachment boxes, 115 carbon brushes, 2 pr. wire splicing clamps, 1 pr. wire stretchers, 311 wood cross arm pins, 525 glass insulators, 1981 porcelain knobs, 278 incandescent lamps, 93 Thomas rosesets, 38 porcelain tubes, 315 lbs. soda, 27 battery zincs, 15 iron pole steps, 5 eye terminals, 12 1/2 lbs. insulated copper wire, 24 Gem wire holders, 4 Sampson carbons, 6 pr. Condu. priams, 3 iron pins, 2 iron brackets, 2 porcelain shades, 17 screw pins, 37 lbs. insulated cable, 137 lbs. insulated copper cable, 30 insulated pins, 44 glass insulators, 40 telephone cross arms, 114 lbs. bare copper wire, 87 porcelain cleats, 1 field telephone, 4 telephone receivers, 2 cable insulators, 4 stocks gate's Compound, 1 Perkins switch, 1 lb. fuse wire, 4 transmitters, 200 leather heads, 1 3-inch iron ball, 2 Edison keyless sockets, 12 wood bell cord adjusters, 24 fuses, 6 gas burners, 859 paper sacks, 8600 filter papers, 82 lbs. rubber tubing, 2 lbs. corks, 22 lbs. sealing wax, 8 lbs. absorbent cotton, 1437 sampling envelopes, 279 28-gram crucibles, 27 lbs. glass tubing, 1700 scorifiers, 68 glass beakers, 36 glass funnels, 55 porcelain casseroles, 193 glass flasks, 4 gasometer tubes, 193 annealing cups, 1600 copper lines, 34 test tubes, 1 test tube brush, 39 rubber corks, 224 lbs. nitric acid, 204 lbs. hydrochloric acid, 342 lbs. sulphuric

PIONEER BAKERY, 207 South First Street.

MAY GET MOTOR CAR ON RIO GRANDE LINE

Santa Fe Is Said to Be Considering Daylight Service From Albuquerque to El Paso.

It is reported upon good authority that it is up to Jerry Black, passenger traffic manager for the Santa Fe, whether or not El Paso and Albuquerque, will get the long promised day passenger train and when it will be put on. Mr. Black, it is reported, is now considering whether the train will pay, and what kind of a train will most likely pay.

Three different kinds of trains are under consideration. A locomotive with baggage and mail car, a motor car, such as is now being used between Emporia and Topeka, and a motor car with a trailer.

There is a large amount of passenger business between the two points in which traveling men with much baggage figure prominently. It is feared that there will be so much of this business that a motor car cannot handle it, and the question of whether a motor car will haul a trailer to be used as a baggage and mail car. This experiment will be tried between Emporia and Kansas City, and if it proves successful, it is more than likely that the Rio Grande division will be given a motor car.

A point strongly urging a daylight train out of El Paso toward Elephant Butte dam is the threat of private parties to build an electric line to Las Cruces and possibly as far as the dam, a distance of about sixty miles. That part of the valley is settling up thick with small farmers, who will demand and support a daylight train. A motor car will satisfy this demand to a large extent and probably make it impossible for an electric line to pay.

If a train is started out of El Paso, it will come all the way through the valley. The Santa Fe appreciates that there would be much more traffic between the small towns in the valley if the train schedule was rearranged.

There is little doubt about a motor car paying, but the question of baggage is a difficult one to solve. The Santa Fe officials appreciate that a larger number of traveling men would make the outlying towns if they could make them in the day time. Under the present conditions none of the traveling salesman representing big houses visits the small towns. The country merchant has to go to the larger cities to buy or do business by mail.

The experiment being made between Emporia and Topeka is to continue for thirty days. If it proves a success the service will be continued. Then an experiment will doubtless be made on the Rio Grande division.

The car being used on the Emporia-Topeka run is one of the new McKee gasolinetor cars. This car is 10 feet long and weighs 60,000 pounds. The car is 200 horse power. The interior of the car is 28 feet long. The car is constructed entirely of steel and is totally fireproof. The front end of the car is pointed in order to lessen the opposition of the wind. The rear end is rounded.

The car is divided into three compartments. In the front end is the room for the motoneer. The second compartment, which is used as a smoking room, will seat 20 men, and the rear compartment will seat 50. The entrance to the car is through a side door, which leads into both the smoking and first-class compartments. The car is entirely dust-proof, being

entirely of steel. The windows are oval shaped and open like the portholes on a steamship. The windows open on the inside and lift up on hinges, the fastening being at the top. The train crew consists of three men, a motorman, a conductor and a brakeman. The duty of the last named trainman is to assist the motorman and the conductor and help passengers on and off the car.

The Santa Fe has two other similar cars in service and more are being built. A motor car is running between Los Angeles and San Pedro, Calif., on a paying basis, and another is making a success between Chanute and Pittsburg, Kan.

RAILROAD HELPS TO FIGHT FIRES

Kansas City Southern Will Aid Forest Service in Preventing Destruction of Timber.

Washington, Aug. 17.—For the purpose of reducing the number of fires along the right of way in the Arkansas national forest, the forest service has recently entered into a co-operative agreement with the Kansas City Southern railroad.

It is a well known fact that coal burning locomotives are a prolific source of forest fires, particularly on heavy grades where a dozen or more fires may be started within a distance of a mile. Many of the most destructive fires have been caused in this manner and incalculable damage done.

The agreement between the forest service and the Kansas City Southern R. R. provides that the railroad shall clear its right of way of all inflammable material for a distance of fifty feet on each side of the track and burn over an additional 100 feet wherever necessary. A provision is made for the use of efficient spark arresters, and that fires shall be reported to the nearest station agent, who will notify forest officers and section crews. The maintenance of a forest service telephone line along the right of way will also be allowed.

On its side, the forest service will patrol and supervise the clearing of the right of way, supply tools, and maintain and operate sufficient telephones as well as grant the railroad the timber free of charge, where it is necessary to clear the right of way.

This agreement is for a period of ten years and has already been put into effect. Six telephones have been established along the line and excellent results are being obtained. Inasmuch as a great majority of the fires on the Arkansas national forest can be traced to a great reduction in the area of burned over land will be made during the coming season.

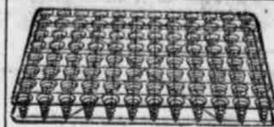

The forest service will be glad to have similar co-operation with other railroads traversing national forests.

INDIAN BOY MAY HAVE ABDUCTED HER

Mother Asks Police to Find Her Missing Daughter, Who May Have Run Away.

The police were called upon this morning to look for Margaretta Chavez, the 13-year-old daughter of Mr. and Mrs. Felix Chavez, of 308 North Fifth street, who is believed by the mother to have been abducted by Charles Balcomb, a half-breed Indian,

Beds, Springs, Bedding

We have the exclusive agency for the celebrated Leggett & Platt Steel Spring, which has no equal for comfort strength and durability. We do not hesitate to absolutely guarantee our No. 1 for fifteen years against sagging or any imperfections in material or construction. It will outlast a dozen cheap springs. Price \$5

RANGES

OUR BERNALILLO RANGE is manufactured expressly for us, and is a high class range which combines beauty with durability, and has all the good qualities which unite to make a first class high grade range at a low price. It has the warming closet, pouch feed, duplex grate for wood or coal, nicely nickled and is a very handsome as well as a durable range. We have them with 15 or 18 inch oven, with or without reservoir or waterfront. We guarantee them against any defect in material or construction. We guarantee them to do as good work as any other high class range. We guarantee them to do the same work with less fuel than any other range. Price \$31.50 up.

On Invisible Keys Blind Girl Writes for Those Who See

MISS GRACE KEATOR AT HER TYPEWRITER.

New York, Aug. 17.—Scores of blind girls in New York are learning to be stenographers.

Miracles in this line are being accomplished by the New York Association for the Blind.

Miss Grace E. Keator, president of the Blind Girls' club of New York, is an accomplished stenographer, and can write as rapidly as an ordinary typist.

"We have a machine for taking shorthand notes," says Miss Keator. "It has six keys. These keys punctuate combinations of dots that take the place of shorthand notes. These dots appear on a narrow paper tape.

"A blind stenographer" says this

tape across her lap, as she sits at an ordinary typewriter machine. With her fingers she feels out her shorthand notes. Then she writes by the touch system on her typewriter.

"I cannot tell you how strange and wonderful it seems to us to be able to write so that others may see and read our work. It is all the more wonderful to a blind person who has never even seen a printed letter.

"It is work alone that can make the blind happy. And I believe that stenography is particularly adapted as work for the blind. I am told that an error rarely appears in one of the letters written by the girls in our stenography school for the blind, in New York."

GASOLINE CAUSE OF SMALL BLAZE

Fire, which for a short time threatened to destroy the frame buildings occupied by the McCall Real Estate company and adjoining millinery store, started in the cleaning shop of the New Mexico Cleaning company, 319 West Gold, shortly after four o'clock this afternoon. The fire is supposed to have started from friction, Miss Aurelia Chavez, who is employed in that establishment, was in the act of cleaning a garment when the explosion took place, enveloping her in flames and igniting a large tub of gasoline which stood close by. But for the presence of mind of Albert Martin, one of the proprietors of the place, Miss Chavez would have in all probability received fatal burns. Mr. Martin extinguished the flames on the girl's clothing and carried her screaming from the building. In doing so Mr. Martin received painful but not serious burns about the hands and arms. The flames were soon extinguished by the fire department.

TRAINS STILL LATE.

Train No. 2, due here this morning, was this afternoon reported to arrive at 2:55 tomorrow morning, Nov. 4 and 8 of this evening will arrive early tomorrow morning. Washouts between Chanute and Winston is said to be causing the delay.

Citizen want ads bring results.

ARCHULETA HELD TO GRAND JURY

Slayer of Carmody at Magdalena Placed Under \$5,000 Bond to Appear Later.

Socorro, N. M., Aug. 17.—Daniel Archuleta, deputy sheriff who killed Y. S. Carmody, a saloon keeper at Magdalena, was given a preliminary hearing before Judge Green yesterday and today and the court announced this afternoon that he would hold him to the grand jury under \$5,000 bond. Bail was furnished by friends at Magdalena and Archuleta was released. He was defended by Attorney Felipe Baca.

You can generally tell what a woman's complexion is by what it seems to be.

Washington's Plague Spots.

lie in the low, marshy bottoms of the Potomac, the breeding ground of malarial germs. These germs cause chills, fever and ague, biliousness, jaundice, lassitude, weakness and general debility and bring suffering or death to thousands yearly. But Electric Bitters never fail to destroy them and cure malaria troubles. "They are the best all-round tonic and cure for malaria I ever used," writes R. M. James, of Louellen, S. C. "They cure stomach, liver, kidney and blood troubles and will prevent typhoid. Try them, 50c. Guaranteed by all druggists.

The dry wave is said to have cost the country over \$7,000,000 in tax due income.

KILL THE COUGH AND CURE THE LUNGS WITH Dr. King's New Discovery FOR COUGHS AND ALL THROAT AND LUNG TROUBLES. GUARANTEED SATISFACTORY OR MONEY REFUNDED.

SOME NEW ORDINANCES ORDERED PREPARED BY THE COUNCIL

Conditions Are to Be Changed Somewhat According to the Plans of Aldermen.

The city council last night took several steps toward bettering civic conditions in Albuquerque.

City Attorney Collins was instructed to bring in an ordinance providing for the appointment of an officer to read the water, gas and electric light meters monthly and make frequent tests to ascertain the correctness of the machines.

This action of the council was taken as a result of a number of complaints coming from water users. City Attorney Collins, as a matter of fact, had been harassed since the first of August by people complaining that they had been compelled to pay higher water rates for the month of July than previous to that time, though they had been unable to get water from their hydrants many days during the month.

Mayor Lester's comment on the situation was that he believed the people were being asked to pay for the hot air that had been shot through the water mains during the month of July. A motion ordering the city attorney to bring in an ordinance providing for a meter reader received a unanimous vote.

The second important step the council took toward civic improvement was the passage of a motion giving the city attorney authority to take steps to abate the acquia which runs through the southern part of the city, crossing several streets and blocking one alley, and waters several small lots of ground in Bareales.

The third was an order for the drawing up of a meat inspection ordinance. The report that a carcass of spoiled meat had been sold in the city recently was the cause of this action.

The city attorney had been instructed to get information on the matter at a previous meeting, but on investigation reported that although it was almost certain bad meat had been sold, it would be difficult to get the persons who took part in the transaction to testify in the matter. The city attorney said the alleged bad meat had come in a car of lard and cottolene. There were a number of carcasses in the car when it was loaded, but all but one had been removed at Trinidad and Las Vegas and other points north. Albuquerque got the last one. It was sold at a reduced price.

The ordinance provides for a city inspector of meat, and the council will request the government to send an inspector here. Alderman Augé said that much tubercular meat was

killed in New Mexico and sold in Albuquerque.

Experts Want Money. Among a number of bills introduced by the clerk were two by A. D. Johnson and J. H. Drury for \$100 each for fees for services rendered during the recent drought. Both were members of the commission which endeavored to ascertain why the Water supply company could not furnish the city with an adequate supply of water. The bills were referred to the water committee.

A bill of \$77 for plastering the quarters of the police in the new Korber building was referred.

A petition of A. Borders for a permit to build a warehouse in the rear of the Commercial club building was referred to the building, light and fuel committee.

A petition of residents of North High street, requesting that North High street be placed in a passable condition, was referred to the street committee. The petitioners stated that they had built sidewalks and set out trees and done other things to improve their street, complying with all orders of the city council, and that they now believed the council should do its part in fixing the street.

War on Worms. At the request of Alderman Beaven the council authorized the street committee to employ two men for two weeks to burn the worms that infest the cottonwood trees, ready to drop on unsuspecting passersby. The campaign of extermination will commence at once.

Those Water Mains. Alderman Conroy, chairman of the water committee, reported that he had seen Mr. Gillenwater, manager for the water company, and had been told that pipe for the several extensions in the lowlands were being laid and that pipe for South Walter street had been ordered. Alderman Beaven said he wanted to know if the mains were not going to be laid as they had been ordered. Alderman Wroth said he understood the water company had decided to lay an eight-inch pipe on High street according to the original plan of the council, instead of a smaller pipe on Walter street, and that the people of Walter street would have to wait awhile for their water. The water committee was instructed to investigate and ascertain what the water company proposed to do and keep the council advised in the matter.

The clerk was ordered to advertise for bids for janitor service night and day at the city building and the feeding of the city prisoners.

The matter of street paving was discussed and the city attorney was instructed to ascertain what authority the city had to order paving.

The city attorney and the street committee were ordered to meet with cement contractors and contract for the building of cement walks ordered by the city. The cost will be assessed against the abutting property.

Seared With a Hot Iron. or scalded by overturned kettle—cut with a knife—bruised by slammed door—injured by gun or in any other way—the thing needed at once is Bucklen's Arnica Salve to subdue inflammation and kill the pain. It's earth's supreme healer, infallible for boils, ulcers, fever sores, eczema and poils. 25c at all druggists.

FINE RACE PROGRAM DURING THE FAIR

Prizes Offered Insure Attendance of the Best Horses in the Country.

One of the best racing meets ever held in the southwest is scheduled for the Twenty-ninth Annual New Mexico Fair and Resources Exposition which will be held in this city for five days beginning October 11. A total of \$6,500 in cash prizes has been offered, insuring the finest thoroughbreds being entered. Horses are expected from various points in California and Colorado, but the greater portion will arrive from Texas.

The feature day on the race program will be Friday, October 15, which has been designated as "Bull Durham Day." The event will be a 2:12 pace for a \$1,000 cash stake which is offered by the Blackwell Durham Tobacco company. In addition to the harness races, a pleasing running race program has been arranged and some of the best runners in the country are expected to be entered before the entry list closes. The program for the five days' racing is as follows:

Table with columns for Day, Race Name, and Prize Amount. Includes Tuesday, Oct. 12 (No. 1-2:19 pace, \$500), Wednesday, Oct. 13 (No. 3-Free for all pace, \$500), Thursday, Oct. 14 (No. 5-2:25 pace, \$500), Friday, Oct. 15 (No. 7-2:12 pace, Bull Durham stake, \$1,000), Saturday, Oct. 16 (No. 8-Free for all trot, \$500).

Table with columns for Race Name and Prize Amount. Includes 3/4 mile dash (\$100), 1/2 mile dash (\$100), 4 1/2 furlongs (\$100), 5 1/2 furlongs (\$100), Relay race—5 miles (\$150), Derby—1 1/4 miles (\$250), 4 1/2 furlongs (\$100), Relay race—5 miles (\$150), 3/4 mile dash (\$100), 6 1/2 furlongs (\$125), Mile handicap (\$150), Half mile dash (\$100), 3/4 mile dash (\$125).

TEMPTATION SALE THE BIGGEST EVER

Golden Rule Company Is Offering Countless Bargains to the Shoppers of Albuquerque.

When the large doors of the Golden Rule Dry Goods store were thrown open this morning, it was to admit one of the largest crowds ever in attendance at any previous sale given by that up-to-date establishment. Realizing that but few more days remain before the "Temptation Sale" recently inaugurated by the firm, will be a thing of the past, hundreds of eager buyers thronged the aisles of the large store all day taking advantage of the countless bargains. Today's bargains in both ladies and gentlemen's wearing apparel are among the best offered since the commencement of the sale and judging from the large crowds of buyers, the population of Albuquerque is not slow in the realization of this fact.

"The sale is the largest and most successful in the history of our store," said Manager J. W. Prestell this afternoon. "We thought that the employees of the local forest service offices, was the scene of a delightfully informal dance last evening. The three large rooms on the first floor of the house were cleared of furniture, rugs and other impediments to dancing, and the floors especially oiled for the occasion. Music was furnished by Miss Blondin at the piano.

The home was tastefully decorated with various sorts of foliage and flowers, while college pennants and delightful cozy corners lent a home-like appearance to the quarters. Punch and assorted cakes were served the guests during the evening. Those in attendance were the following: Mr. and Mrs. T. S. Woolsey, Misses Ellen McMillen, Rebecca Pearce, Katherine Strickler, Mary Sims, Mary Miller, by Bacon, New Orleans, Florence Picard, Savannah; Messrs. F. Mullen, R. F. Feagans, A. C. Ringland, A. B. Recknagel, Stanton Gould Smith, A. O. Waha, Roy Stamm, Dr. E. J. Alger, Samuel Pickard and Harold Burton Jameson.

To prosper in the laundry business you must do the best possible work in all lines of laundering. We have no specialties EVERY ARTICLE entrusted to us is handled RIGHT by high class help in every department. Imperial Laundry Co., back of post-office. Phone 148. Red Wagons. We sew on buttons. Hubbs Laundry Company.

INFORMAL DANCE AT "ADOBE HALL"

Guests Were Entertained Last Night by Forest Service Officials.

"Adobe Hall," at 623 West Copper avenue, the home of a number of the employees of the local forest service offices, was the scene of a delightfully informal dance last evening. The three large rooms on the first floor of the house were cleared of furniture, rugs and other impediments to dancing, and the floors especially oiled for the occasion. Music was furnished by Miss Blondin at the piano.

The home was tastefully decorated with various sorts of foliage and flowers, while college pennants and delightful cozy corners lent a home-like appearance to the quarters. Punch and assorted cakes were served the guests during the evening. Those in attendance were the following: Mr. and Mrs. T. S. Woolsey, Misses Ellen McMillen, Rebecca Pearce, Katherine Strickler, Mary Sims, Mary Miller, by Bacon, New Orleans, Florence Picard, Savannah; Messrs. F. Mullen, R. F. Feagans, A. C. Ringland, A. B. Recknagel, Stanton Gould Smith, A. O. Waha, Roy Stamm, Dr. E. J. Alger, Samuel Pickard and Harold Burton Jameson.

SOME CHEAP FRUIT DUE HERE TOMORROW

Carload of Mixed Fruit, Containing Quantity of Peaches, Will Be Sold at Low Prices.

The thrifty house wife will immediately place her order with her local dealer for a supply of peaches for canning purposes. A car of mixed fruit is scheduled to arrive tomorrow morning, among which will be a liberal percentage of peaches to be placed on the market for distribution at from \$1.25 to \$1.50 per box. This is the cheapest that peaches have been sold this year and according to local commission men, the price will not go any lower this season. Up to the present time the same quality of fruit has been bringing \$1.75 per box and as tomorrow's consignment will be limited, anyone desiring a quantity will do well to place an order early.

NEW LINCOLN PENNY CAUGHT A BARTENDER

A night bartender in a Central avenue resort, who is used to looking at money by gas light, has one of the new, much sought after Lincoln pennies. It cost him \$4.95 and a glass of beer, and he is wondering yet at the nerve of the man who handed it to him.

The only satisfaction he gets out of the coin is that they are scarce. The new pennies have the head of Lincoln on them and are strikingly pretty, as compared to the Indian head of the old ones. It was this shining beauty that made it look like \$5 to the unfortunate mixologist.

'Twas a Glorious Victory.

There's rejoicing in Federal, Tenn. A man's life has been saved, and now Dr. King's New Discovery is the talk of the town for curing C. V. Pepper of deadly lung hemorrhages. "I could not work nor get about," he writes, "and the doctors did me no good, but, after using Dr. King's New Discovery three weeks, I feel like a new man and can do good work again." For weak, sore or diseased lungs, coughs and colds, hemorrhages, hay fever, grippe, asthma or any bronchial affection it stands unrivaled. Price 50c and \$1.00. Trial bottle free. Sold and guaranteed by all druggists.

TO RENT—By day or hour, Maxwell touring car. Phone, office 1030; residence, 62.

Report of the Condition of THE BANK OF COMMERCE OF ALBUQUERQUE, NEW MEXICO

at the close of business July 3, 1909 (Monday, July 5, 1909 being a holiday.)

Table with columns for RESOURCES and LIABILITIES. RESOURCES includes Loans and Discounts (\$1,033,238.58), Bonds and Other Securities (10,000.00), Real Estate (12,000.00), Furniture and Fixtures (5,550.00), Cash and Due from other banks (567,172.98). LIABILITIES includes Capital Paid Up (\$150,000.00), Surplus and Profits (42,128.14), Deposits Subject to Check (967,123.00), Time Certificates of Deposit (478,710.42).

Territory of New Mexico, County of Bernalillo ss.

I, W. S. Strickler, vice president and cashier of the above named bank, do solemnly swear that the above statement is true to the best of my knowledge and belief.

Three Billion Bushels of Corn This Year

CUTTING CORN IN DAVID RANKIN'S 6000-ACRE FIELD.

Scotland combined, an expanse large enough to allow a double-track railway from earth to Mars!

Greatest of all cereal crops, corn comes last in the category of harvests. The billion two hundred millions of dollars that the farmers will get for their corn this year, in one form or another, shows the remarkable power of the farmer in economy. When he raises wheat he raises it entirely to sell. But when the farmer harvests corn his methods immediately become those of the business man. He will market only 29.3 per cent this year in cereal form.

The other 70.7 percent he manufactures into beef and pork. On the marvelous yield depends the huge traffic of the packing houses and the solution of the world's food problem.

After a fortnight spent in the "corn country" there is every reason to believe that the farmers will not be disappointed in their hopes for corn. In Texas and Oklahoma the bumper crop was in 1907, with a combined acreage of 14,762,500 larger than last year's. Despite a long drought, yet unbroken, in these states, the farmers are optimistic. Oklahoma is a cotton-corn state, with a value of not less than \$50,000,000 in Kansas and Nebraska, large

Omaha, Neb., Aug. 11.—The corn crop of the United States this year will be the largest ever harvested. It covers an area of 110,000,000 acres, and the yield will be 3,000,000,000 bushels. France means little when considered in the light of this 1909 corn crop. The priceless gift of the Indians, as Secretary Wilson calls corn, is waving its tassels over the largest part of the middle west—an area that would make a belt of general states seven miles wide around the equator; a territory three-quarters as large as France or Germany, and 50 per cent greater than England, Ireland and

corn states, previous estimates have seemed too high. Acreage was considered as of March 1 by estimators, who failed to notice big losses by floods later in the corn season. Despite these conditions, the yield for Kansas and this state will be about 594,000,000 bushels, with acreages of 7,810,000 and 7,926,000 in Kansas and Nebraska respectively. These figures on yield are based on high averages in these states for ten years past, as the condition of the crop is above normal. These averages of yield per acre for ten years have been 29.9 bushels for Kansas and 31.1 for this state.

No more enthusiastic battle against weather was made this year than by the corn farmers in Iowa. Corn is the mainstay of that state, which hopes to take the lead this year over Illinois in the matter of acreage. One-fourth of the crop will be unsatisfactory, but the balance is in AI condition. Although the crop is now two weeks behind, due to replanting during floods, the weather is looked to by farmers to keep the corn yield up. Without further rain in Iowa, Illinois and northern Missouri, the crop can be "made." But any additional August rains will help it greatly, because the plant is not deeply rooted.

Manila rope, 397 lbs. colored waste, 1 set castors, 2 wood levels, 4 augers, 1 auger bit, 3 stove dampers, 1 saw blade, 1 pr. saw handles, 2 prs. brackets, 23 hand planes, 4 wrenches, 1 bench clamp, 3 turn wrenches, 35 lbs. roofing, 8 lbs. borax, 2 1/2 gross chalk, 100 lbs. crayon, 4 brooms, 7 tin oil cans, 19 sets pipe fitting dies, 77 turnbuckles, 34 wire rope sockets, 19 wire rope thimbles, 20 wire rope clips, 3 pipe dies, 105 oligates, 1 locomotive head light, 1 glass for headlight, 151 pieces tin, 1899 lbs. galvanized iron wire, 1 steel block for wire pipe, 9 wood blocks, 9 iron blocks, 1 cross cut saw, 2 steel squares, 1 draw knife, 890 sacks, 1 anvil, 1 wood chisel, 1 trimo wrenches, 11 jacks, 7 jack screws, 3 steel blocks, 47 smaller brooms, 91 drifting picks, 3 ft. railing, 546 shovels, 3 wall brush-wax, 84 lbs. charcoal, 200 ft. wire strand, 1 warehouse truck, 15 wheel barrows, 2207 lbs. coil chain, 3 chain blocks, 41 sq. ft. sheet-brass, 10 oil tanks, 10 oil pumps, 1 hook and chain, 1 chain tong, 2 twine holders, 1 hand saw, 1 pr. pricers, 1 pr. floor papers, 1 shoeing hammer, 1 Stillson pipe wrench, 1 vise, 1 trimo pipe wrench, 7 stay rollers, 1 iron clamp, 1 copying bath, 2 track levels, 1 auger bit, 43 ore sacks, 475 tons coke, 1 set steel figures, 18 lbs. galvanized staples, 745 lag screws, 440 patch bolts, 27 lbs. wire brads, 6 lbs. tinners rivets, 25 1/2 lbs. copper rivets and burns, 2 lbs. copper tacks, 1424 brass machine screws, 2 lbs. corrugated nails, 555 lbs. washers, 207 U-bolts, 15 packages tacks, 81 lock nut washers, 2611 cotter pins, 38 iron pins, 20 hanger bolts, 1125 cap screws, 509 elevator bolts, 1162 set screws, 5844 machine bolts, 1814 carriage bolts, 5367 lbs. track bolts, 795 lbs. fish plates, 11475 lbs. angle bars, 2632 lbs. track spikes, 15423 lbs. mine rails, 4090 lbs. 40-lb. rails, 12208 lbs. wire nails, 24 lbs. cut nails, 276 lbs. boat spikes, 12 lbs. casing nails, 44 lbs. roofing nails, 25 1/2 lbs. iron rivets, 48 lbs. steel rivets, 530 lbs. tapped nuts, 348 lbs. blank nuts, 19213 lbs. round iron, 12953 lb. square iron, 3818 lbs. octagon drill steel, 329 lbs. angle iron, 17644 lbs. band iron, 659 lbs. tool steel, 1402 lb. angle iron, 89 lbs. octagon drill steel, 76 lb. grooved steel, 9463 lbs. channel iron, 714 lbs. T-iron, 4845 lbs. I-beams, 2000 lbs. pig iron, 19 lbs. No. 1 Smooth-on Compound, 1 box candles, 79 gals. signal oil, 100 lbs. car grease, 20 lbs. cup grease, 25 gals. black oil, 15 gals. kerosene, 5 gals. cylinder oil, 40 gals. Atlantic red oil, 126 standard unions, 276 lb. iron tees, 33 floor railing flanges, 222 bushing, 48 reducers, 15 reducing tees, 131 return bends, 29 crosses, 68 flange unions, 51 pipe caps, 349 standard screwed ends, 57 stop cocks, 1 globe valve, 3 pop valves, 192 pipe plugs, 310 pipe nipples, 1 grease cup, 1 glass oil cup, 4 1/2 lbs. hydraulic packing, 2 extra heavy cells, 1 standard cross, 3 cells, 10 screwed cells, 265 pipe couplings, 5 extra heavy flanged tees, 4 extra heavy flanges, 18 standard flanges, 1 lb. standard oil, 1 blind flange, 28 brass screwed oil, 14 brass tees, 16 brass elbows, 60 check valves, 23 gate

LEGAL NOTICE.

valves, 48 globe valves, 893 union gaskets, 129 gal. square hydraulic packing, 23 lbs. tubular gaskets, 8 lbs. oil packing, 54 1/2 lbs. flax packing, 6 lbs. piston packing, 15 1/2 lbs. magnet tubular gaskets, 74 lbs. sheet rubber packing, 28 lbs. boiler sheet packing, 32 lbs. sheet asbestos, 7 lbs. asbestos wicking, 11 lbs. Tauril packing, 41 lbs. spiral packing, 4 1/2 lbs. Pullon packing, 4 lbs. asbestos, 183 lbs. ring packing, 18 lbs. spiral packing, 4 1/2 lbs. metallic packing, 22 man-hole gaskets, 69 circular C. I. gaskets, 34 1/2 lbs. round asbestos, 30 pieces asbestos gaskets, 41 rubber valves, 32 grease cups, 1 throttle valve, 1 Cleveland lubricator, 88 copper ferrules, 1 Ashcroft steam gauge, 24 lock nuts, 22 brass screwed unions, 6 brass screwed couplings, 1 brass screwed elbow, 9 brass hose couplings, 9 hose clamps, 13 brass hose reducers, 2 hose nozzles, 1 steam gauge, 1 valve float, 990 lbs. boiler compound, 200 lbs. water purifying compound, 1200 Crown fire brick, 1079 taper fire brick, 50 fire brick splits, 1780 fire brick soaps, 520 magnesite brick, 2300 lbs. fire clay, 12 boiler flues, 5528 ft. black pipe, 62 ft. extra heavy pipe, 483 1/2 ft. brass pipe, 1109 ft. rubber tubing, 156 ft. leather belting, 50 sheave wheels, 4640 lbs. asbestos cement, 400 cement, 14 lbs. granular cement, 116 glass gaskets, 135 water gauge glasses, 28 copper gaskets, 1 covering tee, 17 blast gates, 6 sewer couplings, 4 guage cocks, 4 lbs. sole leather, 266 cork washers, 34 grease cups, 95 oil cup glasses, 2 rod cups, 1 pop valve, 15 air cocks, 4 cylinder cocks, 84 shaft collars, 5 fine scrapers, 7 steel springs, 1 steam fire cleaner, 128 valve compressor discs, 1 fine brush, 34 brass valve discs, 2 air cocks, 31 lb. copper armored hoses, 122 lbs. round asbestos packing, 100 ft. rubber hose, 41 horn brasses, 10 lubricator brasses, 11 piston rings, 12 traction boards, 70 car journals brasses, 114 steel car springs, 1 derailing frog, 48 cast car wheels, 3 locomotive tires, 530 ft. link chain, 2 elevator takeups, 1 friction clutch, 76 conveyor pulleys, 4 gear rims, 2 cones and rings for sample grinder, 6 cross-head brasses, 1 horn shaft, 1 main shaft for locomotive, 1 Reliance wheel column, 1 centrifugal pump, 6 crank shaft brasses, 2 1/2 pr. main shaft brasses, 8 journal brasses, 1 piston rod stuffing box, 1 crosshead and pin, 3 crosshead pin brasses, 3 rubber buffers, 2 felt polishers, 3 brass discs, 6 steel keys, 6 cams, 4 sets solid liners, runners and followers, 18 roll shells, 10 steel-matte pans, 2 furnace spouts, 1 cylinder side tap, jacket, 2 brake wheels, 10 copper moulds, 2 sheets, 10 lbs. rolls sheet brass for Huntington mill, 8 rings and dies for Huntington mill, 4 spur gears, 1 bevel gear, 5 slotted iron brackets, 1 split pulley, 9 flange clutch couplings, 2 friction clutches, 17 cast iron pulleys, 6 friction clutch pulleys, 3 bevel gears, 6 spur gears, 3 adjustable drop hangers, 4 floor stands, 2 shaft journals, 2 sliding journal boxes, 27 rigid journal boxes, 12 ball and socket journal boxes, 1 R. D. bearings, 3 1/2 lbs. solder joints, 2 Yale night latches, 8 pr. corrugated strap hinges, 2 pr. steel butts, 3 gals. brown paint, 8 gals. gray paint, 1 1/2 gals. varnish, 5 lbs. oakum, 1 square asbestos roofing, 1/2 square roofing paper, 56 window lights, 214 lbs. cement, 20 sheets corrugated iron, 50 gals. roofing paint, 6 1/2 gals. linseed oil, 270 lbs. red mineral paint, 5,000 adobes, 23-635 ft. oil lumber, 3,470 ft. new lumber, 5,676 ft. rough oak lumber, 225 lbs. powder, 100 caps, 135 pieces mine timber, containing 10,402 ft., 273 pieces new mine timber containing 22,517 ft., 450 tons mine run coal, 23 lbs. horseshoe nails, 1 neckyoke.

LEGAL NOTICE.

12-In the barn of defendant on the Oquawka and Mexican mining claims in the Burro Mountain mining district: 1 road wagon, 1 buggy, 1 set double harness, 2 sets single harness. 13-On the Montana mining claim, survey No. 711, in the Pinos Altos mining district, the defendant's blacksmith shop, office building, railroad tool house, 2 wooden water tanks, 1 ore bin, 190 ft. trestle, 14,825 ft. lumber, 10,000 ft. top timber. 14-On the Asiatic mining claim in the Pinos Altos mining district: the defendant's blacksmith shop, 2 mine cars, 2,000 wedges, 100 top poles, 2,396 ft. lumber. 15-On the Dewey mining claim of the defendant, in said Pinos Altos mining district: the defendant's engine house, timber framing shed, 1 ore bin, 1 sheave wheel, 1 water skip, 100 ft. 4-in. pipe, 1 7/8 H. P. tubular boiler, 1 Duplex steam pump, 1 Duplex friction hoist, 1,000 ft. steel siding cable, 100 ft. pipe. 16-On or near the said smelter site: the defendant's barn 42 ft. by 16 ft. with corrugated iron roof and sides, 15 tons scrap iron. 17-In the defendant's boiler house on said smelter site: 1 old boiler and engine, 3 scoop shovels, 1 mason's level, 1 square point shovel. 18-In the town of Pinos Altos: the defendant's bay pony named "Bud." 19-On the Copper Gulch patented mine in the Burro Mountain mining district: the defendant's frame building 16x72 ft. with corrugated iron roof. 20-In and about the mine of the defendant known as the "Hearst" mine, including said Montana Pacific, Pacific Fraction, Globe Democrat and Mogul mining claims in the Pinos Altos mining district: 17,000 ft. pipe laid underground, 27,544 lbs. rail laid underground, 14 mine cars, 1 timber car, 132 mine skips, 5 sheave stands, with sheaves, 1 Duplex chain block, 2 ore buckets, 800 tons ore. 21-In the defendant's blacksmith shop on said Montana claim: 4 S. J. handles, 46 D. J. handles, 81 pick handles, 86 drift picks, 4 shovels, 8 axes, 64 hammers, 457 ft. pipe, 5 hand saws, 380 lbs. nails, 17 elbows, 5 tees, 12 nipples, 4 unions, 5 couplings, 4 valves, 2 reducers, 2 bushings, 1 gate valve, 100 lbs. track spikes, 1706 lbs. octagon steel, 1 pipe stock, 1 set pipe dies, 1 portable forge, 1 bellows, 2 bench vices, 3,750 lbs. blacksmith coal, 250 lbs. fire clay, 1 windlass, 1 tool box, 1 stove, 2 chairs, 1 broom, 1 Stillson wrench, 1 grindstone, 1 wheel barrow, 1 jack

LEGAL NOTICE.

screw, 3 tubular lanterns, 5 gal. engine oil, 5 gal. cylinder oil, 1 qt. Detroit lubricator, 2 electric gongs, 2 crosscut saws, 1 screw plate, 2 squares, 10 lbs. cut washers, 6 mill files, 1 pipe cutter, 1 check valve, 1 saw set, 1 saw handle, 1 spirit level, 1 Barrett Jack, 1 three-way valve, 1 chain tong, 7 pr. blacksmith tongs, 6 flatbar, 6 hammers, 2 cold chisels, 3 ground augers, 24 scraping spoons, 50 lbs. chain, 16 fish plates, 1 brace, 8 top swages, 10 lbs. white lead, 80 lbs. cement packing, 600 lbs. asbestos sheet, 2 pipe vices, 1 battery, 1 windlass bucket, 1 monkey wrench, 4 rubber pump valves, 1 1/2 tons slacked lime, 520 lbs. round iron, 329 lbs. square iron, 450 lbs. Hercules powder, 1,600 lbs. saw powder, 100 triple caps, 1,800 wedges, 27 boxes candles, 5700 ft. fuse, 2 cant hooks, 1 jack screw. 22-In the defendant's engine house on said Pacific No. 2 claim: 1 Duplex chain block. 23-On said Pacific No. 2 claim: 1 R. R. push car. 24-In the defendant's blacksmith shop on said South Extension Pacific claim in the Pinos Altos mining district: 1 Duplex chain block, 1 pipe vice, 1 mine bucket, 1 water skip. 25-In the defendant's storeroom on said South Extension Pacific claim: 274 ft. pipe, 4 elbows, 8 tees, 9 couplings, 31 flanges, 2 reducers, 19 hammers, 3 axes, 7 saws, 6 scraping spoons, 19 picks, 7 ladders, 7 wheel barrows, 3 lanterns, 3 lantern globes, 1 chain tong, 2 Stillson wrenches, 1 monkey wrench, 1 set oilers, 1 ship auger, 421 lbs. octagon steel, 1 blacksmith flatter, 10 glass telephone insulators, 1 box candles, 1 pipe cutter, 1 hack saw, 50 lbs. axle grease, 6 hinges, 6 lbs. cast washers, 1 extra heavy tee, 1 grindstone, 1 forge, 2 scoop shovels, 2 tamping shovels, 2 pr. tongs, 900 fire brick, 20 tons mine run coal, 150 second grade fire brick, 1 No. 4 mesh, 564 ft. air pipe, 105 lbs. nails, 14 shovels, 10 lbs. track spikes, 1 switch frog, 198 ft. rails. 26-On said South Extension Pacific claim: 2,283 ft. lumber, 2,506 top poles. 27-In the defendant's blacksmith shop on the Kept Woman mining claim in said Pinos Altos mining district: 1 avil, 1 pr. tongs. 28-Near the shaft on said Kept Woman mining claim: 3 mine cars, 2,100 wedges, 140 ft. top poles, 3 pieces lumber, 2,150 ft. cull lumber, 1,000 tons ore. 29-Near the shaft on the Atlantic No. 1 mining claim in said Pinos Altos mining district: 3,885 ft. lumber, 400 fire brick, 3 gals. cylinder oil, 1 ladle. 30-In the defendant's blacksmith shop on said Graystone claim: 7 duck tents, 3 pieces lumber, 1 R. R. telephone, 5 iron cots, 2 wooden cots, 4 iron beds, 11 quilts, 2 cotton blankets, 1 stove, 8 galvanized buckets, 5 tin stoves, 2 tables, 10 springs, 7 mattresses, 1 cook stove. 31-In the defendant's pumping station on the Harshaw mining claim in said Pinos Altos mining district: 400 fire brick, 3 gal. cylinder oil, 1 ladle. 32-Connecting defendant's said pumping station with the "Gillette" mine of the defendant: 5,000 ft. 4-in. pipe. 33-In the defendant's office building at Pinos Altos: 1 roll top desk, 1 counter and rail, 2 tables, 1 desk for stationary, 2 stoves, 1 lamp, 3 mine telephone boxes, 2 chairs, 2 fire extinguishers, office books and catalogs. 34-In the defendant's engine house on the Ireton mining claim in the Burro Mountain mining district: 290 ft. steel cable, 4 windlasses, 550 ft. air pipe, 11 elbows, 1504 lbs. rail, 44 shovels, 48 hammers, 64 drift picks, 33 pick handles, 2 S. J. handles, 5 axes, 4 hand saws, 20 scraping spoons, 1 single wood block, 7 lanterns, 6 lantern globes, 1 crosscut saw, 2 chain hammers, 1 pr. pricers, 1 wood chisel, 1 spirit level, 1 hand axe, 3 steel squares, 1 brace, 1 set auger bits, 1 chisel, 2 planes, 2 Trimo wrenches, 1 adze, 1 screw jack, 2 gongs, 2 alligator wrenches, 1 pr. pliers, 2 monkey wrenches, 3 machine wrenches, 1 S-wrench, 1 screw driver, 1 machinist's hammer, 1 oiler, 2 5-gal. oil cans, 3 plumb bobs, 2 draw knives, 2 pipe stocks, 2 pipe cutters, 1 blacksmith's crowbar, 16 S. hooks, 8 cold cutters, five pair blacksmith tongs, three drift hammers, two blacksmith hammers, 50 ft. rope, 16 water gauge glasses, 14 4-ply belting, 195 lbs. barbed wire, 120 ft. black pipe, 15 ft. galv. pipe, 97 1/2 lbs. round iron, 65 machine bolts, 22 fish plates, 1287 lbs. drill steel, 4 cold chisels, 29 lbs. washers, 1 broom, 20 lbs. white waste, 22 lbs. gaskets, 4 lbs. ring packing, 5 gal. engine oil, 5 gal. cylinder oil, 3 gal. kerosene, 1 gal. lard oil, 4 lbs. graphite, 1 pr. strap hinges, 52 shaft hangers, 1 rabbit ladle, 5 globe valves, 1 check valve, 1 elbow, 989 lbs. blacksmith coal. 35-In the defendant's blacksmith shop on said Ireton claim: 12 ft. pipe, 1 hand bellows, 3 wheel barrows, 3 bucket trucks, 2 track frogs, 2 anvils, 1 bench vise, 1 hand boiler, 1 grindstone, 500 ft. black pipe. 36-Near the shaft on said Oquawka mining claim in the Burro Mountain mining district: 8 ore buckets, 1 timber car, 13 set timbers, 9 ladders, 50 wedges, 1099 ft. top timbers, 582 pieces lagging, 156 cords wood, 1579 ft. lumber. 37-In the tunnel on said Ireton claim: 14 boxes giant powder, 3 1/2 boxes candles, 6700 ft. fuse, 1100 caps. 38-In the defendant's engine house on the San Salvador mining claim in the Burro Mountain mining district: 1 station lamp, 3 tees, 1 oiler, 28 ft. rail, 1 wheelbarrow, 2 wrenches, 2 hammers, 1 wood pulley, 4 lbs. packing, 1 gal kerosene, 35 lbs. nails. 39-At or near the Boone shaft of defendant on said San Salvador and San Salvador No. 4 claims: 2 ore buckets, 2 mine cars, 4 bucket trucks, 850 pieces lagging, 4385 ft. top timbers, 157 cords wood, 848 ft. lumber, 380 tons ore. 40-In the defendant's blacksmith shop on said San Salvador claim: 1 anvil, 1 hand bellows. 41-On the Mexican mining claim in said Burro Mountain mining district: 648 ft. top timber. 42-In the defendant's warehouse

SANTA FE TESTS NEW SAFETY APPLIANCE

Road Is Experimenting In Colorado With New Brake Said to Be Superior.

Washington, Aug. 17.—The Interstate Commerce commission, through what is known as the block signal and train control board, is supervising a test being made on the Santa Fe road, in Colorado, of the St. Clair brake, the patent of A. A. St. Clair, for many years a conductor on the Burlington road. It has long been the hope of the commission and the expectation of railroad men, that there will some time be invented a brake system superior to the one now in use. The present brake system has been built up by degrees for years. It is a system of expediency and is getting more complete each year. Its dangers are well known to railroad men: 1. Failure of the air pump to work. 2. Loss of braking power through the train line itself. Officials of the commission here have no idea what will develop from the experiments that are to be made. The claims of the new patent is that if the air pump fails the braking will automatically take place, thus preventing all danger. Reports received from Colorado assert that there has been some tampering with the new patent and that somebody has tried to put it out of business. Watchmen have been employed to keep the machinery in order for the tests, which are being witnessed by W. P. Borland, the secretary of the board. Tests of Block Signals. It is stated here that during the next six months the board will witness a number of tests and make reports upon them. This board is operating under the act of June 20, 1906, which directed the commission to investigate and report upon the block signal systems and appliances for the automatic control of railway trains in the United States. There has been much investigation and a number of tests. All tests of patents are made at the expense of the inventors or owners. So far little has been discovered that would recommend itself. Out of all patents for safety appliances 95 per cent. proved to be without any merit and a goodly percentage of the remainder is doubtful. When the owner of the patent submits his appliance to the board a preliminary test is made and if it is considered worthy of further experiment an official test is ordered. Mr. St. Clair has formed a company, with offices in Indianapolis, to meet the expenses of a thorough test and the claims made for the patent are very extensive. RIGHTS OF CHILDHOOD. If it be said that anti-child labor legislation savors of paternalism, let it be said that the state ought to show a paternal "concern for the safety and defense of the industrial workers." Socrates said: "Our country is to be loved more and better by far than father or mother." If we are to love the state as a mother, then should the state dare to mother its wronged children tollers. "Every

man possesses the right to legislate for himself" is dinned into our ears. Does every woman possess the power to legislate for herself? Does every child possess the power to legislate for itself? Surely a democracy owes a special duty to its disenfranchised children and its disenfranchised women. The state ought to paternalize; at present it stop-paternalizes. The hand that wrecks the cradle wrecks the world. What of a nation that suffers both to be wrecked—the cradled child and the mother hand? The state has not hesitated to protect infant industries, and rather big and lusty infants they are, according to the recent admission of one of the chief beneficiaries. That was the wrong kind of paternalism. Now let us have the right kind of paternalism, which shall not protect infant industries, but shall protect infants from industry.—Stephen S. Wise, Ph. D., in Pacific Monthly.

Never can tell when you'll mash a finger or suffer cut, bruise, burn or scald. Be prepared. Dr. Thomas' Electric Oil instantly relieves the pain—quickly cures the wound.

GOOD DEMAND FOR TERRITORY WOOLS

All the Western Product Is Selling Well and Consumers Pay Prices Asked.

Territory wools were the center of trading in the Boston wool market during the week just ended, and the New Mexico product, which is making a betwe showing as to its quality this season, came in for its share. In discussing the market, the Boston Commercial Bulletin says: The large wool houses that have stocks of territory wool on hand are doing a continued active business this week, and according to some of the to-day sales of the week are the largest of the season. Some dealers claim that fully 15,000,000 pounds of wool of all kinds would cover the activity, while others, more conservative, believe that 10,000,000 or 11,000,000 pounds would be nearer the mark. Despite the variance of opinion as to the amount selling there is without question an excellent business passing in those houses having suitable supplies to offer. One of the leading dealers in the trade says that he is enjoying more business than during any previous week of the season, and that he has turned down innumerable bids on account of a slight difference between bids and asking prices. In other words, manufacturers are finding that there is not any real spot in the market and that if they want raw material they must pay full asking prices. In the majority of instances this week manufacturers are apparently conversant with the dealers' ideas of values and they are accordingly paying asking rates without quibbling.

All Consumers Active. Consumers of all kinds are around the market taking on supplies with considerable freedom. The greatest business is of course being done by the worsted mills, but the carded woolen mills are buying quite satisfactorily, considering the comparative lack of popularity that their goods are experiencing. From the short clothing wools grown in California to those of long staples raised in Montana, consumers are calling for California stock from all sections of the state, both 8 and 12 months' Texas, Montana, Idaho, Wyoming, New Mexican, and in fact anything in the line of territory wool are selling steadily. One house is credited with total sales of approximately 4,000,000 pounds.

Wools are arriving freely from New Mexico, although but little of the new clip has been sold to date. These wools are well grown and strong, with a lighter shrinkage from those of last year. The situation in territory wools is distinctly strong and decidedly in seller's favor. Manufacturers are paying full asking prices with less hesitation than they have shown at any time since the new clip began to come on the market, apparently realizing that the wools cannot be bought except at holders' prices.

SHERIFF'S SALE.

By virtue of an execution issued out of the District Court of Bernalillo County, Territory of New Mexico, on the eighth day of April, A. D. 1909, in the suit of Marcus Kelly against Mrs. H. M. Bennett, otherwise known as Laura B. Bennett, case No. 7718, I have levied on the following goods and chattels, to-wit: One piano and piano chair and twenty-one music rolls; one dining room sideboard; one dining room buffet; three sectional book cases; one lamp; one lamp shade; one veneered writing table; one oak writing desk and one oak dining room table. The said suit aforesaid being for damages for breach of contract of employment judgment was rendered against the defendant, Mrs. H. M. Bennett, etc., on the sixth day of April, A. D. 1909, for the amount of \$275.00, with costs and legal interest from said date, the amount of judgment with interest to date of sale being \$386.25. Notice is hereby given that on Tuesday, the twelfth day of October, A. D. 1909, at ten o'clock in the forenoon, at the warehouse of the Security Warehouse & Improvement Company, at No. 414-416 West Marquette avenue, Albuquerque, N. M., the undersigned, Sheriff of Bernalillo County, Territory of New Mexico, will sell at public auction to the highest bidder for cash the above described personal property and chattels or so much thereof as may be necessary to satisfy the said plaintiff's judgment aforesaid, with costs of suit, etc., expenses of sale and storage, etc. JESUS ROMERO, Sheriff of Bernalillo County, New Mexico. August 10th, 1909.

Port Winkate, N. M., July 22, 1909. Sealed proposals in triplicate, will be received until 11 a. m. Aug. 18, 1909, and then opened for electric wiring Post Exchange and Gymnasium here. Information furnished on application. Right reserved to reject any or all bids. Envelopes containing proposals must be endorsed "Proposals for electric wiring Post Exchange and Gymnasium," and addressed Constructing Quartermaster. We DARN your socks. HUBBS LAUNDRY COMPANY.

Eat What You Want And let Kodol digest it.

There can then be no fermentation, no pain, no distress—no indigestion.

Eat a sufficient amount of good, wholesome food every day. Eat what the appetite calls for, because that is what the health and strength of the body require.

Then don't worry about indigestion or dyspepsia; but take Kodol occasionally—at the times when you need it, and your food will be digested completely; but don't diet and don't deny yourself the food you like, for dieting is unnecessary; it is wrong to be hungry.

Food is fuel for the body. It furnishes blood, bone, health and strength; but it must be digested first, and you are not going to be healthy or strong as long as your stomach fails to do its work.

Don't fear to eat the food you like for as you know the body requires a variety of it and that which you don't eat may be the very thing you need to supply the necessary strength for your body.

We say eat what you want and let Kodol digest it. No food is what you take Kodol all the time; you wouldn't want to have to take it all the time. Take it just when you need it, and in that way allow it to help the stomach to get strong and well.

But when you do eat what you want and what you like best, be sure that all the food is digested; you must be sure that the stomach is able to digest it.

Else that portion of the food, which remains in the stomach undigested, irritates the stomach lining, and that is what causes pain. Then again undigested food ferments in the stomach and that is what causes sour risings, gas and bloating.

These are the things you have to get rid of but you can't do it by starving yourself. Weakening the body is not strengthening the stomach. Yet you do weaken the body when you deny yourself some article of food you find does not agree with you.

And here is where Kodol is so effective. It digests what you eat and does it completely. It enables you to eat just what you like and just what your appetite demands.

Kodol doesn't simply digest certain kinds of food—it digests every kind of food. It acts as Nature acts and it assists Nature in assimilating the food—it helps Nature get out of the food what there is in it—strength, blood, bone, muscle and life.

Kodol is for you. Kodol is for anyone and everyone who needs it, and we want you to try it now and be convinced that you can eat just what you like if you will only let Kodol digest for a time that which you do eat.

Our Guarantee

Go to your druggist today and get a dollar bottle, and if after using the entire bottle you can honestly say you have received no benefits from it, return the bottle to the druggist and he will refund your money to you without question or delay, and we will pay the druggist the price of the bottle purchased by you.

This offer applies to the large bottle only and to one in a family. The dollar bottle contains 2 1/2 times as much as the fifty cent bottle.

Kodol is prepared at the laboratories of E. G. DeWitt & Co., Chicago.

Extra Hands at Threshing Time

There is no place to which idle men turn so rapidly as to the want ad page of the daily paper.

When you need men in a few weeks now to help in the harvesting, remember that.

Of course you can depend on hiring men from your neighbors, or you can count on men coming along by chance, but if you want to be certain of hiring men, depend on a want ad every time.

You have too much at stake this fall to neglect an opportunity to secure men in this way. And you won't have to put it off until you come to town either. Just telephone your ad right in, and call around and pay the bill when you come to the city.

The cost of an ad is mighty small compared to the value of the grain you may lose if not harvested in time.

Better paste this suggestion up near the telephone

NOTICE OF FORECLOSURE SALE.

District Court of Roosevelt County, Territory of New Mexico. Effie M. Wilson, plaintiff vs. H. A. Shannon and A. W. Shannon Defendants.

Whereas, on the 10th day of May, 1909, Effie Wilson, the plaintiff in the above entitled and numbered cause, obtained a judgment against the Defendants, H. A. Shannon and A. W. Shannon, for the sum of \$400.00, and 74-100 dollars interest, and costs of suit, and also a foreclosure of a mortgage and an order of sale against said defendants upon and against the following described property, to wit: Lot numbered nine (9) in block numbered seventeen (17) in the town of Eldora, New Mexico, according to the plat of said town on file in the recorder's office of Roosevelt county, said territory, said order of sale directing that all right, interest, and equity of redemption of the said defendants, in and to the said property, and the improvements and appurtenances thereto belonging be sold, and that the proceeds arising from said sale be applied to the payment of said judgment, interest, costs of suit, attorney's fees, and accruing costs, and, Whereas, on the 3rd day of August, 1909, an execution was issued out of the District Court of said County of Roosevelt, in said cause, commanding that the sheriff of Roosevelt County, New Mexico, sell said property as directed in said order of sale;

Therefore, by virtue of said order of sale, execution and the authority vested in me as sheriff of said county, and territory, I will, on the 16th day of October, 1909, at the hour of 4 o'clock, P. M. of said day, at the front door of the court house, in the town of Portales, New Mexico, sell at public vendue, to the highest and best bidder for cash, all right, title, and equity of redemption of the said defendants in and to said property.

R. A. BAIN, Sheriff. Deputy.

J. F. Mullen, of this city, registered at the Palace hotel in Santa Fe yesterday.

C. V. Safford, traveling auditor, was here yesterday and returned to Santa Fe last night.

W. E. Martin, president of the Socorro County Fair association, is in Santa Fe on business.

Mrs. C. S. White and little daughter returned today from a visit of several weeks in California.

F. Butler, the cement contractor, returned to the city last night from a business trip to Colorado.

Mrs. M. C. Ortiz, accompanied by her parents, left today for Peralta to visit relatives and friends.

Mrs. B. D. Sampson, of 611 North Twelfth street, has returned from a visit of several weeks in the east.

J. E. McMahon, trainmaster at Las Vegas, spent yesterday in the city on business connected with his position.

W. P. Garside, traveling freight and passenger agent, returned to El Paso last night after spending the day here.

Paul Downing, of Valley Mills, Texas, is visiting his sister, Mrs. T. E. Clements, of 605 South Fourth street.

Sheriff and Mrs. T. P. Tallie, of Gallup, returned to their home last night after a visit of several days here.

The Royal Neighbors of America will meet Wednesday evening at 8 o'clock in I. O. O. F. hall.—Jessie Clifford, recorder.

T. S. Woolsey, Jr., of the district forestry office here, has returned from a trip of several weeks to forests in Arizona.

Marvin Jones, of Kansas City, spent yesterday in the city with Attorney Elsworth Ingalls, and left last night for the Pacific coast.

Marshall Harry Cooper leaves for the Jemez Hot Springs tomorrow morning, where he will go for the benefit of his health.

Capt. Clement of the Salvation Army has moved his headquarters from the corner of Fourth and Tijeras to 307 S. Broadway.

G. H. Van Stone, of the Hughes Mercantile company at Estancia, left last night for Santa Fe after a business trip of several days to this city.

Mrs. Arthur V. Skinner and children, of 299 South Broadway, returned to the city last night after a visit to friends and relatives in Colorado.

Eagles, attention! There will be a regular meeting of Albuquerque Aeris No. 165, F. O. E., tonight. Lunch will be served and a good attendance is desired.

Charles H. Hagen and Miss Evelyn G. Smith were married last night at the Smith home, 319 East Tijeras. They left last night for a trip to California.

Miss Grace Willard has returned to her home at Giddings, Texas, after spending a few weeks with her sister, Mrs. C. D. Miller, 519 North Second street.

The Highland fire department extinguished a blaze in a pile of rubbish in the rear of the home of A. J. Selber, 608 South Edith street, shortly after 19 o'clock last night.

Celes Martinez has returned to the city from Abo canyon, where he was employed by C. H. Sharp, the railroad contractor, who built the Santa Fe cut-off.

Herman Tunick, the pianist, leaves for Silver City this evening, where he has accepted a position as musician for the moving picture show which is now exhibiting in the Elks' theater in that city.

J. H. Vaughan, of Las Vegas, formerly teacher of English and history in the Normal university, passed through Albuquerque last night on his way to the Agricultural college at Mesilla Park. He will teach history at the college this year.

W. D. Newcomb, who was recently appointed clerk of the district court at Socorro, arrived from the Gem City this morning to meet Mrs. Newcomb, who is expected to arrive here this evening from California. Mrs. Newcomb is accompanied by Mrs. George Cook, of Socorro.

Miss Eileen McMillen will be the guest of honor at an informal dance which will be tendered her this evening at the Woman's Club building by a few of her Albuquerque friends. The dance is being given as a farewell party to McMillen, who leaves tomorrow night for Northampton, Mass., where she goes to attend Smith college. Excellent music has been procured for this evening and refreshments will be served.

Miss Wilma Morris, aged 9 years, daughter of Mr. and Mrs. J. M. Morris, corner of Third and Atlantic avenues, died at the home of her parents, Aug. 14. The funeral will be held from the home tomorrow at 10 o'clock. Interment will be made in Fairview cemetery.

Owen S. Parrish, of Springer, N. M., has received an appointment as cadet from Colfax county to the military institute at Roswell, from C. J. Roberts, representative from Colfax county, and will visit a few days with his uncle, H. P. Owen, in Albuquerque, before going to the institute.

William McGugin, state organizer for the Order of Owls, returned to the city last evening after a three country in the interests of the lodge. Mr. McGugin will remain in the city for about a week and then leave for Arizona, where he will continue his work installing nests.

Miss Eileen McMillen, a former student of the University of New Mexico in this city, and well known among the smart set of this city, leaves for Northampton, Mass., tomorrow evening, where she will attend Smith college. Miss McMillen has been the guest of honor at several pleasant social functions in the past week.

Owing to the many inquiries being received by members of the entertainment committee of the Elks' lodge who have the Mexican ball in charge tomorrow evening as to whether costumes will be required to be worn by those attending, the committee wishes to announce that whitemen will wear costumes it will not be required.

Four members of the Alamosa baseball team spent yesterday in Albuquerque and left last night for Socorro, where they have been hired to wear Gem City suits. The games at Santa Fe between Alamosa and Santa Fe resulted in even honors. Alamosa took the Saturday game, 2 to 1, and the Ancients took Sunday's game, 4 to 2. The Alamosa team disbanded in Santa Fe.

It is the universal opinion of all those who heard the concert given at Robinson park last night by Cook's band that the organization is the best band Albuquerque has ever had. Much of the music last night was a repetition of the concert Sunday afternoon on Central avenue, but it was heard at the park to better advantage. The band is now composed of twenty-five band men, every one a musician.

It is not too late to invest in a pair of summer shoes. There are still several months of hot weather ahead of us and you will get more than your money's worth in comfort and satisfaction, especially when you can buy them at the cut prices we are offering them for. C. May's Shoe Store, 314 West Central avenue.

FOR SALE, BIG BARGAIN. Fine business, small capital required. See SCOTT KNIGHT.

BOY CHARGED WITH ARSON AND THEFT

Warrant Sworn Out This Morning Against Youngster Who Fired a Barn.

A warrant charging arson and theft was issued this morning against Gus Weidman, 13 years old, who confessed that he robbed the Hertzog store and set fire to a barn leased by Graham Bailey.

Weidman's father offered to pay Bailey \$20—within two months—in settlement of the loss, but Bailey would not accept it. His loss was over \$50, but he agreed not to make a complaint if half of that amount was paid. Weidman said that he did not have the money and would not give a note. He did not seem to be very fond of the boy. He said that the boy would not mind mother-him nor his mother. A week ago yesterday he sent the boy on an errand and the next time he saw him was yesterday in jail. He had been away from home for a week.

Since his arrest yesterday, young Weidman has confessed the part he took in the robbery of the Hertzog store and the burning of the barn at 429 North Second street. He told Chief of Police McMillin this morning that he would show him where the 999 packages of gum he stole from the Hertzog store were hidden, but after a fine drive over the northern part of the city, he was unable to find the place. The police, however, believe that finally he will tell where the gum is.

Weidman made a clean confession of the fire at 429 North Second street. He said that he went into the barn to smoke and threw a cigar stub into the hay. When it began to smoke he left, closing the door behind him. This smoking of cigars was one of the things that led to the suspicion that Weidman knew something about the robbery of the Hertzog store. Another thing was the selling of a sack to the Crystal Ice company, which was stolen from the barn where the fire occurred. The boy emptied a lot of oats out on the floor of the barn so that he could carry the sack away.

The Weidmans live on North Eighth street, near where a vacant house burned some weeks ago, and suspicion points strongly toward young Weidman.

When District Attorney Klock heard of the boy and his many deeds he took the trouble to call at the police station and make out the warrant for his arrest.

Weidman was to have been taken before Judge Craig at 4 o'clock this afternoon to answer to the complaint charging him with arson.
