GENERAL VILLAS CRUSHINGLY DEFEATED IN SECOND BATTLE AT CELAYA

MORE DETAILS BY COMMANDER OF THE BRITISH ARMY IN FRANCE

Field Marshal Sir John French Continues Report of Operations Against German Invaders in Western Zone. FIERCE ATTACK TO AID RUSSIAN CAMPAIGN Also Necessary to Give English Forces Something to Do, After Long Wait in the Trenches, for Moral Effect.

London, April 15.—Field Marshal Sir John French, in continuing his report on operations of the British expeditionary force, writes: "During the month of February, I arranged with General Foch to render the Ninth French corps, holding the trenches to my left, some much needed rest, sending the three divisions of the British cavalry corps—a portion of the French trenches—each division for a period of ten days alternately.

"It was very gratifying to me to note once again in this campaign the eager readiness which the cavalry displayed to undertake any work which does not properly belong to them, in order to support and assist their French comrades."

Referring to Neuve Chapelle and the considerations leading up to this, the field marshal writes: "About the end of February many vital considerations induced me to believe that a vigorous offensive movement should be planned and carried out at the earliest possible moment. Among the most important reasons which convinced me of this necessity were: The general aspect of the allied situation throughout Europe and particularly the marked success of the Russian army in repelling the violent onslaughts of Marshal von Hindenburg; the apparent weakening of the enemy on my front, and the necessity for assisting our Russian allies to the utmost by sending as many troops as possible in the western theater; the efforts to this end which were being made by the French forces at Arras and in Champagne, and—perhaps the most weighty consideration of all, the need of giving the offensive spirit in the troops under my command after the trying and possible enervating experiences which they had gone through in a severe winter in the trenches.

Weather Imposed Drawback. "As a former dispatch I commented upon the drawbacks which the winter weather in this climate imposes upon a vigorous offensive. Early in March these difficulties became greatly lessened by the drying up of the country and by spells of brighter weather.

"I do not propose in this dispatch to enter at length into the considerations which actuated me in deciding upon the plan, time and place of my attack. As mentioned above, the main attack was carried out by units of the first army, supported by troops of the second army and the general reserve. The object of the main attack was to be the capture of the village of Neuve Chapelle, and the enemy's position at that point, and the establishment of our line as far forward as possible to the east of that place.

The object, nature and scope of the attack and the instructions for the conduct of the operations were communicated by me to Sir Douglas Haig in a secret memorandum dated February 19.

Opening of Battle. General French after describing the main topographical features, and showing how the Germans had established a strong post with numerous machine guns among the big orchards, behind walls and in the orchards which flanked the approaches to the village proceeds: "The battle opened at 7:30 o'clock by a powerful bombardment of the enemy's position in Neuve Chapelle. The artillery bombardment had been well prepared and was most effective, except on the extreme northern portion of the front of attack.

the village. The 23rd brigade was still held up in front of the enemy's wire entanglements and could not progress. Heavy losses were suffered, especially in the Middlesex regiment and the Scottish rifles.

The progress, however, of the 25th brigade into Neuve Chapelle immediately to the south of the 23rd brigade, the effect of turning the southern flank of the enemy's defenses in front of the 23rd brigade.

This fact, combined with powerful artillery support, enabled the 23rd brigade to get forward between 10 and 11 a. m., and by 11 o'clock the whole village of Neuve Chapelle and the roads leading northward and southward from the eastern end of that village were in our hands.

"During this time our artillery completely cut off the village and surrounding country from any German reinforcements which could be thrown into the fight to restore the situation by means of a certain abruped fire. Prisoners subsequently reported that all attempts at reinforcing the front were checked. Steps were at once taken to consolidate the positions won.

"Considerable delay occurred after the capture of the Neuve Chapelle position. The infantry was greatly disorganized by the violent nature of the attack and its passage through the enemy's trenches and the buildings of the village. It was necessary to get the units to some extent together before pushing on. The telephone communication being cut by the enemy's fire rendered communication very difficult. All this was most difficult. The fact of the left of the Twenty-third brigade having been held up had kept back the Eighth division and had involved a portion of the Twenty-fifth brigade in fighting to the north out of its proper position to advance. All this required adjustment. An orchard held by the enemy north of Neuve Chapelle also threatened the flank of an advance toward the Aubers bridge.

Resistance Paralyzed. "I am of the opinion that this delay would not have occurred, had the clearly expressed order of the general commanding the first army been carefully observed.

"The difficulties above enumerated might have been overcome earlier in the day if the general officer commanding the fourth corps had been able to bring his reserve brigades more speedily into action. As it was, a further advance did not commence until before 3:30 p. m. The Twenty-first brigade was able to form in the open on the left without a shot being fired at it, thus showing that at the time, the enemy's resistance had been paralyzed.

"The brigade pushed forward in the direction of Moulin-Du-Pierre. At first it made good progress, but was subsequently held up by machine gun fire from houses and from a defended trench. The Twenty-fifth brigade, entrenched opposite the height of the Twenty-second brigade.

"Further to the south the Twenty-fourth brigade, which had been directed on Pierre, was similarly held up by machine gun fire from houses and trenches. The Twenty-fifth brigade, on the right of the Twenty-fourth, was also held up by machine guns, from a bridge held by the Germans over the Bois-Lux-Laves, to the northwest of Bois-Du-Biez.

(By Morning Journal Special Leased Wire.) VERA CRUZ, April 15.—"Five thousand of the enemy dead were counted during the movement northward from Celaya. Six thousand prisoners and forty field pieces were captured."

This is General Obregon's summary of the result of the fighting about Celaya, where he is reported today to have gained a decisive victory over the forces of General Villa. The ringing of church bells and the parading of soldiers and citizens conveyed the news of the reported Carranza victory to the public.

TOLL OF EIGHT LIVES IS TAKEN WHEN RESERVOIR DAM GIVES WAY Floods Sweep Town of St. Johns, Ariz., and Hundreds of Families Are Placed in Imminent Danger.

NO WARNING IS GIVEN OF WATER'S APPROACH Many Are Missing and Death List May Be Greatly Increased When Final Returns of Disaster Are in.

(SPECIAL DISPATCH TO MORNING JOURNAL) St. Johns, Ariz., April 15.—Shortly before midnight last night the Lyman reservoir dam, located fifteen miles above this place, gave way and the waters flooded the intervening country, sweeping away everything that lay in the path of the water, causing damage estimated at \$400,000. Because of a defect in the telephone system the people of St. Johns knew nothing of the break until the flood was upon them, and the homes of three hundred people, for the most part Spanish-American, were quickly submerged, many of the occupants escaping in their night clothes.

At El Tule, a small settlement right under the dam, eight lives were lost. Only one body has been recovered and several others are missing but are believed to have been saved. The dead are: GERALD LOUISE and ROSS PALMER, infant children of Mr. and Mrs. Ellis Palmer. MRS. JOSEF SAVEDRA, JR., and infant child. MRS. VIOLET RAY, son and daughter. The last three mentioned had recently come here from Montezuma, Colo. The Palmer children were grandchildren of W. H. Berry and Representative Michael Berry.

People Flee to Hills. The water is due to reach Woodruff and Holbrook tonight, and is sure to do great damage when it does. The hills around St. Johns are in anticipation of the approach of the flood. The dam was the joint property of the people of St. Johns and a party of Denver capitalists headed by John S. Chick. The flood also broke fine Ullah and Mesquite dams to the west of the dam in Holbrook. The direct property loss in Apache county will approximate \$200,000, while there is a property investment of half a million dollars in and about St. Johns that will be made worthless unless the line of the German entrenchment is held.

The American population of St. Johns is composed largely of Mormon farmers. The dam was of dirt and rock and contained no cement core. It was considered entirely safe until about ten days ago, but was attended by no loss of life. The reservoir will undoubtedly be rebuilt, but with a cement wall inside.

BURROWING GOPHERS ARE CAUSE OF BREAK Holbrook, Ariz., April 15.—Torrents from the melting snows of the White mountains overhanging the reservoir at the point of the Lyman reservoir near St. Johns, last night and today, drowned eight persons, damaged property to the extent of about \$400,000 and left more than 30,000 acres of an irrigation project in the eastern part of the county without water.

Obregon Claims Complete Victory Over Villa Army (BY MORNING JOURNAL SPECIAL LEASED WIRE) Washington, April 15.—Advices to the Carranza agency late tonight from Vera Cruz said General Obregon had reported complete victory over the Villa forces in the battle near Celaya, which began the day before yesterday and ended at 2 p. m. today. Obregon claimed to have taken 2,500 prisoners and fourteen cannons. He gave no details, but said he was pursuing the enemy.

VILLA ARTILLERY IN HANDS OF OBREGON Brownsville, Tex., April 15.—The Carranza consulate here tonight gave out a telegram dated Vera Cruz claiming that General Villa was defeated today north of Celaya. The message said all Villa artillery north of Celaya was captured.

swirling currents at threatened points. The snowfall in the White mountains recently has been the heaviest known in years and the owners of the dam, Denver capitalists, had been endeavoring to secure the pressure of the expected flood. The torrents that tumbled down the mountains were too much for the sixty-foot earthen dyke, and it gave way practically without warning, according to reports received from St. Johns.

The flood is greater than that of 1905, which swept away the predecessor of the Lyman dam. The dam which went out there today was built two years ago and many believe that its collapse under the weight of water was due to the fact that it had not had time to set properly. Mr. and Mrs. Palmer, parents of the children drowned, were at a dance in St. Johns when the dam broke. They had left the children in charge of a Mexican woman who was drowned with them.

Prisoners Would Pray for Victory. Rome, April 15. (12:40 p. m.) Via Paris 2-23 (7, 8).—A number of French bishops and priests came to Rome today to consult with the Holy See concerning the prayers for peace written by Pope Benedict for use in Roman Catholic churches the world over next month. These clergy members said that the Roman Catholics of France, including the clergy, while subscribing to the pope's wishes, decided to embody in the prayers a petition for the victory of their country in the war. It is stated that the clergy in other countries also have decided to do this.

Summary of War News of Yesterday Again the allies have assumed the offensive on the western line of battle and, according to Paris, have made gains in terrain, capturing officers and men and guns and repulsed German counter-attacks. There has been trench fighting, battles at the point of the bayonet, artillery engagements and what is termed a successful raid over the German military buildings at Ostend by sixteen aircraft. One aeroplane also is said to have dropped five bombs on the headquarters of the German army at the point of Metz and Charleville in reprisal for the alleged throwing of bombs by a German aviator at a hospital at Mourmelon.

While there has been somewhat of a let-up in the viciousness of the Russian attempt to gain their armies through the Carpathians and out on the plains of Hungary, hard fighting continues in some sections. Both Petrograd and Vienna assert that all attacks against their respective forces were repulsed. They scarcely admit that they are in progress in Poland is indicated by the fact that in none of the late official reports is mention made of activity in this region.

It was on the spur to the south of Notre Dame de Bretonne, on the western bank of the Marne, that the Dutch start at Metz and Charleville in reprisal for the alleged throwing of bombs by a German aviator at a hospital at Mourmelon. The French troops now are in possession of all the southeastern slopes as far as Ablain-St. Nazaire. In the Argonne, still according to Paris, the main trenches of the Germans were demolished by the artillery fire of the French, while fierce German counter-attacks were repulsed in the region of Albert, at La Neuville, Montmarais, Le Prieux, near Le Epargne, and the Germans are said to have lost heavily. In the naval warfare two steamers have been added to a long list of those which have gone to the bottom as a result of torpedoes or mines—two of them being the German cruiser Dresden and the Netherlands government and the British steamer Pitmarian. Four Dutch trawlers also were said to have been seized by the Germans and taken into Cuxhaven. They were reported to have been released later.

HUERTA'S STRONG STATEMENT TO AMERICAN PRESS IN OWN DEFENSE Former Dictator Denies Having Any Hand in Assassination of President Francisco Madero.

DEPLORES CONDITION OF MEXICAN ANARCHY Country Sure to Be Saved by Its Own People; Says Washington Does Not Understand Conditions.

(BY MORNING JOURNAL SPECIAL LEASED WIRE) New York, April 15.—Vehemently asserting that he had nothing to do with the death of Francisco Madero, General Huerta, former provisional president of Mexico, issued a long statement tonight setting forth what he termed his side of the Mexican question. General Huerta declared that he knew who was responsible for Madero's death, but that he was keeping it as a "professional secret."

General Huerta's statement reviewed the history of the Madero revolution, his own accession to the provisional presidency and concluded with the assertion that "no country cannot be controlled" sixteen million people, women and children would have to be killed before Mexico could submit to an invader, he asserted.

Washington Was Unfair to Mexico. "The heads of the Washington administration, he declared, had not been fair to Mexico, had been misled by false statements, and if they had been in Mexico for thirty days, "they would have changed their theoretical, erroneous ideas." Had it not been for the embargo on the exportation of arms from this country, General Huerta declared, that his army would have prevailed over those opposed to it.

The former provisional president reiterated the assertion which he made when he left Mexico last year, that he had resigned from his post only because he hoped to bring peace to his country. Anarchy Too Soft a Word. He pointed out that in the eight months elapsed since that date the situation in Mexico had become "too sad for me to analyze deeply."

"Anarchy is too soft a word to call it," he said. Mexico would eventually be saved, but by a Mexican. Who that would be he did not know. General Huerta declined in response to questions to give any inkling as to his future movements. He denied the report that he would go to San Antonio, Texas, or any other point near the Mexican border. Discussing the death of Madero he said: "That is a professional secret. Lawyers have secrets, doctors have secrets—I am a soldier—why should not a soldier have secrets? It is not through friendship for any one that I am withholding the information. It is a professional secret. The time will soon come when my name will be vindicated and, as General Lee said of General Jackson, the world will say of me that I stood like a stone."

Not Responsible for Murder. General Huerta straightened up, his eyes flashed, and bringing his clenched fists against his breast he replied: "No! I swear it. I was in no way responsible for his death. He was shot by one of the big torturers of my life. I am sorry I have kept the secret. Although I am of a different race than you, gentlemen, I am a man." General Huerta's signed statement was in part as follows: "After fifteen months of Madero's ill administration of public affairs, a portion of the patriotic Mexican army, who were humiliated and maltreated by Mr. Madero, rebelled and took possession of the government's capital. For ten days the streets of the City of Mexico ran with blood. The situation became intolerable. "The foreign diplomatic representatives asked Mr. Madero to resign. He did not want to accede to their wishes. Then some heads of the army, incited by our senators, to put an end to that anguished situation, placed Mr. Madero under arrest. "Our congress and our senate and our supreme court of justice, coming in with all the regulars of the constitution of our country, named me as the constitutional president of the United States of Mexico, considering me as the man for the job. "Mr. Madero, while being conducted

to the penitentiary, died an unnatural death. In the opinion of some of the public in this country, an blamed as having taken a part in executing him. I never have tried to shift any responsibilities, and anything I ever did was done openly. I am a man enough to stand by what I do. I know I am not to blame for the death of Mr. Madero. Time and history will do me justice.

Protected Life and Property. "Far be it from my mind to make a eulogy of my own administration. But I must say that during my administration all the invading citizens of my republic, as well as all the foreigners resident there until the very last moment of my command, received guarantees and their homes, their lives and their properties were fully protected. "I appeal to the testimony of the Spanish, German, French and English colonies, and particularly to the important American colony in Mexico. They will do me justice."

Horrible Crimes Perpetrated. "Unfortunately for our shame, numerous crimes have been committed against foreigners on Mexico soil during the last four years and a half. Englishmen were cowardly assassinated, more than 300 Chinamen were brutally slaughtered in Torreon; German women were brutally violated in Ciudad Juarez; Spaniards were butchered in Atencingo and other places; foreign and native ministers of the church were shamelessly mistreated, but the crimes were committed before my time and by rebels in rebellion. I did not control. These are the results of the anarchical propensities of Madero and his followers.

Public Opinion Misguided. "I have always had and have proved my admiration and respect for the American people. I must say, however, that public opinion in the United States were for the last few years diverted from the right path on the Mexican question. I have always tried to be fair in my judgment. "The heads of your administration were not fair to Mexico, but I believe they were misled by false statements. "Besides, there is a difference between theory and facts. If your administrators had only been in Mexico for thirty days they would have changed their theoretical, erroneous ideas on this subject too deeply. It is a discourtesy, you know, for a foreigner to criticize heads of a nation whose hospitality he enjoys.

American Press Misinformed. "My friends, honest bold men when I think of the unfortunate conditions existing in my poor country, and when I think that a good, clean press like the American is led by false and artificial tricks to defend a cause which is nothing more than one of vandalism and anarchy. "But, never mind, I have hopes. (Continued on Page Five.)

THREE CARDINALS IN CELEBRATION AT UNIVERSITY Pope Benedict Sends Letter to Church Prelates on the Twenty-fifth Anniversary of Educational Institution.

(BY MORNING JOURNAL SPECIAL LEASED WIRE) Washington, April 15.—Three American cardinals and the largest attendance of the Catholic hierarchy ever gathered in this country received today the first letter of Pope Benedict XV to the United States of the celebration of the 25th anniversary of the Catholic university of America. Catholic educational institutions throughout the country were represented.

The heads of the Catholic church in America, Cardinals Gibbons, of Baltimore; Farley of New York and O'Connell of Boston, were the guests of honor through the day's ceremonies. Honorary degrees were conferred upon the following: Doctor of Laws—Nicholas Charles Burke and Charles Joseph Bonaparte, Baltimore; Lawrence Francis Flick, Walter George Smith and Ernest L. Place, Philadelphia; Garrett William McInery, San Francisco; Thomas Maurice Mulry and John Maurice Mulry, New York; Hannis Taylor, Washington, D. C. Doctors of Letters—Charles George Herbermann, Fred Courtland Penfield and James Joseph Walsh, New York. The anniversary celebration was concluded at a dinner of the Catholic university annual tonight.

VESSEL CONSIGNED TO NETHERLANDS GOVERNMENT IS SENT TO BOTTOM Desperate Fighting in Carpathian Passes, With Conflicting Reports of Results, Features News From East.

FRENCH OFFENSIVE IS ENERGETICALLY PRESSED Diplomatic Rumors Involving Italy and Great Britain's Apology to Chile Hold Interest of London.

(BY MORNING JOURNAL SPECIAL LEASED WIRE) London, April 15. (10:30 p. m.)—Although it is not yet certain that a German submarine boat was responsible for the sinking of the Dutch steamer Katwyk, off the North Hinder lightship, last night, the sinking of the vessel has aroused the indignation of the Dutch people, as evidenced by editorials of newspapers in Holland.

The Katwyk, which was loaded with grain from Baltimore consigned to the Dutch government, is reported to have been lying at anchor at the time of the explosion, and to have been flying the Dutch flag. The Dutch newspapers insist, therefore, that no mistake could have been made, and that if a German submarine actually torpedoed the steamer, "we must expect that the German government will, without loss of time, be made responsible for this severe violation of the rights of neutral powers."

Hollanders Become Enraged. "The fact that the Dutch government was directly involved in the Katwyk's cargo, and that the news of the sinking of the steamer came immediately on top of the announcement that four Dutch trawlers had been seized by the Germans and taken to Zebruggen, apparently heightened the feelings of the Hollanders.

The Katwyk incident and many rumors of diplomatic movements in Italy and the near east seemingly had made the people of England almost forget last night's Zeppelin raid over Northumberland county and the fighting on the western passes they are bending their energies on an attempt to capture the Usok pass and the height to the northeast of that break in the mountains.

Conflicting Reports. "Petrol and other supplies the Russians are making steady progress despite the efforts of the Austro-Germans to outflank them; but the Austrians insist that the recent fighting has been in their favor and that they have captured another important height northwest of Usok pass. In the Woever, the French apparently have revived their offensive and at several points claim to have added materially to the ground previously gained which would bring them a step nearer their main objective—the removal of the German wedge which binds their line back toward St. Mihiel.

In the Argonne, in Alsace and in the region of the Somme, the French declare they also have made some progress, but this is in direct contradiction of the Berlin official report, which says that all the French attacks were repulsed.

HOLLAND STEAMER SUNK BY SUBMARINE London, April 15. (6:44 p. m.)—The Netherlands steamer Katwyk, from Baltimore to Rotterdam, was torpedoed yesterday evening while anchored seven miles to the west of North Hinder lightship in the North sea. The crew of twenty-three men was saved and taken aboard the lightship. A dispatch to Reuters from Flushing reports the arrival there of the crew of the Katwyk. The men say that while the night watch was being changed a severe shock was felt and the ship began to take in water. As the steamer was sinking the crew took to the boats and while rowing away saw the periscope of a submarine which quickly disappeared. The Katwyk sank 15 minutes after the explosion. Reuters's Amsterdam correspondent says the Katwyk had been lying at anchor for 15 minutes when she was torpedoed on the port side. The correspondent says a message received from the Hook of Holland declares that all the ship's lights were burning at the time of the attack. After the torpedo struck, the Katwyk caught fire and only the ship's papers could be saved. The Amsterdam Telegram, commenting on the occurrence, says: "We must expect that the German

WAGES REDUCED IN HOT MILLS OF THE STEEL TRUST

Action Follows Cuts by Competitors, Says Announcement Posted in Plants of Subsidiary Companies.

(BY MORNING JOURNAL SPECIAL LEASED WIRE) Pittsburgh, Pa., April 15.—Reduction in wages in the hot mill departments of all the works of the American Sheet and Tin-plate company, an important subsidiary of the United States Steel corporation, was announced today when notices were posted in the company's plants and the following statement given out at the general offices in this city: "A reduction in scales affecting employees in the hot mill departments of the American Sheet and Tin-plate company becomes effective on April 16. The changes were necessary by reason of reductions having been made since the first of the present year in hot mill scales in competitive plants in western Pennsylvania, Ohio and West Virginia and comes close on the heels of a similar reduction accepted by Iron, Amalgamated Association, the membership had defeated the proposition twice. Members of the Amalgamated association have had no union lodges in the American Sheet and Tin-plate company's plants since 1909, their scale being signed by independent companies only.

Weather Forecast. Washington, April 15.—New Mexico: Local showers Friday and probably Saturday.

Porch Curtains

Porch curtains in either plain or striped awning drape. Especially adapted for sleeping porches.

government will, without loss of time, be made responsible for this severe violation of the rights of neutral powers. The talk of there being prizes among the crews of grain or that the ship was about to be chartered by the British government cannot now be discussed. The plain fact is that a Dutch ship, chartered by the Dutch government, has been torpedoed off the Dutch coast by a state pretender to maintain friendly relations with the Netherlands. How many similar proofs of friendship must we receive before we declare we prefer open enmity?

PETROGRAD REPORTS RUSSIAN PROGRESS

Petrograd, April 15 (via London, April 16, 2:35 a. m.)—The official communication issued by the war office tonight says:

"At Omsk, Wednesday, the enemy ineffectually attempted to advance on the Russian position.

"In the direction of Mlawa, we were successful in outpost fighting.

"On the left bank of the Bura, Russian outposts occupied Koudintz, in the Sackara region.

"In the Carpathians, the Russians advanced slightly in the region north of Zsakov pass, where 200 prisoners were taken. The enemy's attacks on the heights of Bernath and Voloske, near Yamosow and to the south of Kostoukwa, were successfully repulsed.

NINE FUNERALS TO BE MERGED INTO ONE

Detroit, April 15.—Nine funerals will be merged into one next Monday to take care of nine of the fifteen victims of last night's accident when a crowded street car was run down by a Detroit, Toledo and Ironport freight train on a railroad crossing in the western part of the city. All of the nine were parishioners of St. John's Cantius Roman Catholic church, where the funeral will be held.

The state railroad commissioner, prosecuting attorney, coroner and police officials were busy all day investigating the collision preliminary to bringing charges against those responsible for the accident. The coroner's inquest will be held on Monday morning, and in the meantime J. Westover, the student motorman on the wrecked car and Richard Valade, the regular motorman who was instructing Westover, are held at police headquarters. Westover was operating the car when the collision occurred.

A revised list of the victims given out tonight gives twelve women and three men as the number killed. Two of the dead are still unidentified.

For extra good cooking always use Cottoleone

For biscuits, pie-crust, cakes and doughnuts, and for frying, Cottoleone is supreme, because it is the purest cooking fat and possesses important food values.

Cottoleone

It is an exact combination of specially refined cottonseed oil, of a grade so high it is not heated in the market, with pure beef-stearine from selected leaf beef suet. It is this precise combination which gives Cottoleone its unexcelled cooking qualities. There are imitations, but there is no substitute for Cottoleone.

For economy, as well as for good cooking, use Cottoleone. You will require a third less of it than of any other shortening or cooking fat. Any one who can cook or bake at all can cook and bake better with Cottoleone. Arrange with your grocer for a regular supply.

FRENCH FORCES AGAIN ATTACK TEUTON ARMIES IN WEST ZONE

Whole Spur North of Notre Dame de Loretti Is Carried at Point of Bayonet, Says Press Report.

COUNTER-ASSAULTS BY GERMANS REPULSED

Aviators Active on Both Sides With Effective Work Claimed for Those of Joffre's Command.

Paris, April 15 (via London, midnight).—The following official statement was issued by the war office tonight:

"To the north of Arras we have gained a brilliant success, which completes that of last month. The whole spur southeast of Notre Dame de Loretti was carried by the bayonet by our troops, who now hold all the southeastern slopes as far as the outer woodland and fringe of Allain-St. Nazaire.

"We took 160 prisoners, who included several officers and three trench mortars and two machine guns.

"At Thierval and La Boisselle, in the region of Albert, the enemy attempted two attacks which were immediately checked.

"In the Argonne, at Bagatelle, our artillery demolished one of the principal German trenches.

"Further to the east at La Neuville, we repulsed an attack.

"At Les Eparges the enemy delivered three counter-attacks during the night of April 14-15, with the object of retaking the eastern salient. He was repulsed and suffered heavy losses. At noon he violently bombarded the position but did not attack.

"At Montmarais we repulsed a counter-attack and on the ground taken on the 13th we continued the inventory of our booty which included two quick-firers, two trench mortars, a machine gun, several hundred rifles and thousands of cartridges and grenades.

"In the forest of Le Pestre we repulsed an attack and took some prisoners.

"A German aviator dropped bombs on the hospital at Nourmelon. By way of reprisal for the bombardment of Nancy by a Zeppelin one of our aeroplanes dropped five bombs on the German headquarters. All the projectiles fell on the buildings in which the imperial staff were installed at Merderes and Charleville. We also bombarded the station of Freiburg in Breisgau.

"Finally a flying squadron of fifteen machines dropped bombs with complete success on the German military buildings at Orleneu. Our aeroplanes were violently cannonaded but all returned unscathed."

GRAVEST OFFENSE YET COMMITTED BY GERMANY

The Hague, April 15 (via London, 10:20 p. m.)—The sinking of the Dutch steamer Katwyk is considered here the gravest incident of the submarine warfare, as it directly affects the Dutch government, to which the cargo of grain on board the steamer was consigned.

While awaiting further details of the torpedoing of the Katwyk the ministerial departments concerned discussed the matter today but declined to make a statement.

AUSTRIANS CLAIM TO BE DEFEATING RUSSIANS

Vienna, April 15 (via London, 5:10 p. m.)—The following official communication was issued today:

"In west Galicia near Cienkowiec on the Blina, a Russian attack, made early on the morning of the 14th, failed.

"On the heights on both sides of Wplocko, on the Stry, strong Russian forces attacked our position but were repulsed after severe fighting. In a counter-attack we captured an important height taking three officers and 600 men prisoners.

"In the remainder of the Carpathians, except in some sectors, there were only artillery engagements.

"In southeast Galicia and Bukovina no serious are reported."

SCULPTOR GAVE LIFE FOR THAT OF HIS WIFE

New York, April 15.—Edgard K. James, whose automobile caused the death of Karl T. E. Bitter, the sculptor, and seriously injured his wife by running into them on Broadway last Friday night, was absolved from blame today by a coroner's jury. The jury found that the accident was unavoidable.

The witnesses who testified agreed that the sculptor sacrificed his life to save that of his wife.

RICH CUBAN BELIEVED TO BE MENTALLY UNSOUND

Nogales, Ariz., April 15.—Jose Becerra, "sea king" of the west coast of Mexico, and said to be a member of a rich Cuban family, was committed to the county jail here today on an insanity charge. He was alleged to have told a jury clerk in a drug store that he would kill her.

Becerra is reported to have resided for a time in Mexico City, going there from Seattle, Wash., where the syndicate he directed had its headquarters.

Gallagher Bill Is Killed. Columbus, Ohio, April 15.—The Ohio house of representatives this afternoon killed the Gallagher bill, which would have virtually nullified the Green anti-screen law passed by the last legislature. Fifteen thousand coal miners in eastern Ohio have been on strike for more than a year as a result of the failure of the miners and operators to come to terms under the Green law. Labor bodies strongly opposed the proposed measure.

BREWED VS. DISTILLED LIQUOR WILL BE ISSUE AFTER THE WAR

A GERMAN TRENCH SUPPER.

A BIT OF CHEER IN THE TRENCHES.

The presentation by a German brewer of 3,000 bottles of beer to the wounded in the Austro-Hungarian hospital at Sarajevo, has reopened the discussion of the effects of alcoholic beverages on the fighting man. The German government forwarded the consignment duty free.

In the rush following the outbreak of hostilities, Russia attempted to solve the question by abolishing the manufacture of vodka; France refused to do so; Germany closed railway bars, and Kitchener announced that Tommy Atkins would not be permitted to indulge in liquor.

But upon deliberation by German physicians and scientists, the ban against beer has been lifted. The German diet adopted a resolution relieving from taxes articles intended for troops or the Red Cross societies, and arrangements were made to refund to brewers the tax paid by them on beer donated to the soldiers. The Bavarian government

announced that it would refund to brewers taxes paid on malt used in the production of beer donated to the armies. The general staff of the First Bavarian Army Corps is operating three breweries, the roster of employes, from brew-master down, being recruited from the ranks.

Prince von Hatzfeldt Trachenberg, counselor of the German embassy in Washington, in commenting on the exemption from malt and beer taxes clause, says: "Why charge the brewer this tax, when no taxes are collected on anything else sent to the soldiers? Red Cross and hospital supplies are duty free. Why not beer? Beer is not used by the German soldier as an intoxicant."

In France, proprietors of cafes who agree not to sell spirituous liquors have been exempted from license dues, but beer and wine are classed as hygienic drinks and come under the exempted clause. The minister of

war, as compensation for the destruction of the absinthe traffic, issued orders for the increasing of the daily wine ration of the soldiers from one-third to one-half of a liter.

In the House of Commons, the under secretary of state was bombarded with questions concerning the alleged shipment of rum to the English troops in France. He replied that considerable rum had been sent to the troops, but that the men could take it or leave it as they wished. The army physician considered it necessary that soldiers exposed to the cold in the trenches should have some stimulant available.

Since Germany and England have not embraced total abstinence and the troops of neither nation have shown any noticeable decline in military efficiency, the liquor question will emerge from the war not in the form of total abstinence versus free indulgence, but as a question of brewed versus distilled liquors.

TWO ZEPPELINS RAID BRITISH EAST COAST TOWNS

One Woman Injured and Considerable Damage Is Done to Property by Fires Resulting From Bombs.

London, April 16 (3:10 a. m.)—Two Zeppelin airships visited the east coast of England shortly after midnight, dropping bombs on several towns, doing considerable damage to property. As far as has been ascertained only one person, a woman, was injured. It is said she was only slightly hurt.

The airships dropped four bombs on Malden in Essex county, 20 miles northeast of London, but no damage resulted. Bombs also were dropped in the Haywards basin, five miles across the river. These set fire to some buildings. The airships came up the Blackwater river and over the marshes and crested.

At Lowestoft, in the North sea in Suffolk county, three bombs were dropped, causing considerable damage to public property in the center of the town. A lumber yard also was set on fire. The window panes in many houses were shattered. Three horses belonging to the railway company were killed.

Previously the air craft had visited Southwold, twelve miles south of Lowestoft, and having missed striking that town with its missiles, went on to Haverthorpe, eight miles inland. It then returned again to Southwold and dropped six bombs.

According to the latest accounts, anti-aircraft guns were directed there by the direction of the coast and south coast towns of possible aerial visitors. These notices enabled the usual precautions to forestall air attacks to be taken in towns and villages.

Sues to Recover Jewels. Denver, April 15.—A position in intervention was filed in the district court today in the case of a suit, H. V. Johnson, an executor of the estate of Mrs. J. F. Bird is attempting to compel the International Trust company in turn over certain jewels valued at \$25,000. The petition claims that Mrs. Bird decedent the persons to receive these gems before her death in November, when she was preparing for an operation. It is said she deposited the jewels with the International Trust company for distribution. The petition contains the

LATEST MURDER MYSTERY GROWS MORE TANGLED

Victim of Foul Play Identified by Police as Woman Who Afterward Is Found to Be Alive.

New York, April 15.—New York's latest murder mystery assumed an angle today after the police had established to their apparent satisfaction the identity of the victim as Miss Claudia Mansbury, of Lansingburg, N. Y., and arrested Raffaele Vitello, a well-to-do contractor, and charged him with homicide. The new element was the discovery in Troy, N. Y., of Mrs. William H. Hurk, who formerly was Miss Claudia Mansbury, and who apparently had been reported missing.

The spot where the slain girl's body was found, in a vacant lot of the Astor estate in the Bronx, was her trying place, according to John F. McKenna, watchman on the estate. McKenna told detectives that he had seen a girl and a man near the house on several occasions. The girl he identified as the one whose body lies in the morgue, the man as Vitello.

Vitello, whose fountain pen, the police assert, was found near the body, stoutly denied a number of hours of cross-examination, the accusation that he had caused the girl's death. She looked like a girl he knew not long ago as "Claudia," he said, though he could not be sure it was she. He owned a girl and a man near the house he knew as Claudia, he said, and he had not seen her for five months.

Two sisters who told the woman's coat which looked like the one found over her body, were taken to headquarters and failed to identify Vitello as one of the two men who had been with her when she made the purchase.

SECOND AND THIRD WIVES GET ESTATE

New Orleans, April 15.—Two estates of Walter M. Parker, who died in Texas in 1908, were divided between his second and third wives and their heirs today upon a decision of the United States court of appeals here.

The second wife gets half of Parker's holdings near Los Angeles, and her heirs the balance. She and her heirs also get one-fourth of his Texas estate, estimated at \$400,000. Mrs. Mattie Parker, his third wife, and her heirs get the balance of the Texas estate.

COAL FREIGHT RATES HIGHER THAN NECESSARY

Missouri and Mississippi River Cities Voice Protest Against Advance in Cost of Fuel Shipments.

Chicago, April 15.—Representatives of shippers and manufacturers from Missouri and Mississippi river points today voiced their objections to the increase of coal freight rates asked by the western railroads at the hearing before W. M. Daniels, interstate commerce commissioner. It was claimed the present coal rates from mines to consumers are sufficiently high and that to increase freight rates would be unfair.

The specific contention that present coal rates from Illinois coal mines to Sioux City, Iowa, now yield a higher revenue per car than do other commodities was advanced by C. E. Child, commissioner of the traffic bureau of the Sioux City Commercial club.

Mr. Child reviewed statistics presented by a railroad witness on the average load of principal commodities handled in Sioux City territory and said:

"The average car mile revenue on the commodities named by the witness for the railroads was less than 14 cents. Sioux City now pays 15.8 cents per car mile on its lump coal and over 16 cents on its steam coal."

Continuing his analysis of the railroad exhibit, he declared:

"One means which the railroads used in their endeavor to justify the proposed advance was a comparison of the level of the first class rates in eastern territory with first class rates in western territory as against the relationship between coal rates east and west of that stream. The coal rates west of the river are the same or lower than the charges east, while the class rates are double. If it were true that the relationship as against the relationship between coal rates east and west of that stream, the coal rates east of the river would be 50 per cent too high."

Less Than Carload Rates. Cross-examined by counsel for the railroads, Mr. Child declared that coal earns more per cent than other commodities.

"Would you think that the rates on these other commodities, livestock and packing house products, are too low and that they should be advanced?" asked A. P. Humburg, attorney for the Illinois Central railroad.

"Well, I would say that the carriers have much more reason to advance them than the coal rates," replied the witness.

"I think the biggest mistake the carriers have made," continued Mr. Child, "is in not advancing less the carload rates, instead of increasing the rates on low priced carload commodities."

More Morgan Treasures Sold. New York, April 15.—The J. P. Morgan collection of French eighteenth century furniture has been bought, it was announced today by Duveen brothers. Although the purchase price was not stated, it is estimated that the amount was not far from \$3,000,000.

Chicago Judge Says Most Legislators Are Uneducated Because Education Requires Hard Work.

Chicago, April 15.—The average criminal is far from being the mental defective pictured by the present day psychopathic criminologist, Marcus Cavanaugh, judge of the superior court, asserted today in a speech in which he criticized self-appointed experts and the modern theory of curing criminals by kindness.

"We are being taught that crimes are the result of mental defects and that consequently God alone is to blame and the theory of punishment is wrong," he said. "The effect of this theory is to destroy the sense of personal responsibility."

"It would be difficult to find a body of men and women possessed of minds more active and intelligent than those found in the county jail. The fact is these persons are lazy and selfish but not defective mentally."

"It is true the criminal is uneducated, because education requires work, and hard work. The most convincing evidence of good character is the uneducated man. The police need not watch the man or woman who works."

"Too much sympathy has been wasted on the woman of the streets. She is not mentally defective. She does not want sympathy but wants to be left alone. She knows perfectly that she could go into numerous kitchens and be certain of clean food and a place to live and good wages, that she does not want to work."

"It is high time to stop coddling criminals. Stern and inflexible handling is the way to stop the pernicious activities of the young criminals."

Women Everywhere

Praise Lydia E. Pinkham's Vegetable Compound

Women from the Atlantic to the Pacific, from all sections of this great country, no city so large, no village so small but that some woman has written words of thanks for health restored by Lydia E. Pinkham's Vegetable Compound. No woman who is suffering from the ills peculiar to her sex should rest until she has given this famous remedy a trial. It is not reasonable to believe that what it did for these women it will do for any sick woman?

Wonderful Case of Mrs. Crusen, of Bushnell, Ill.

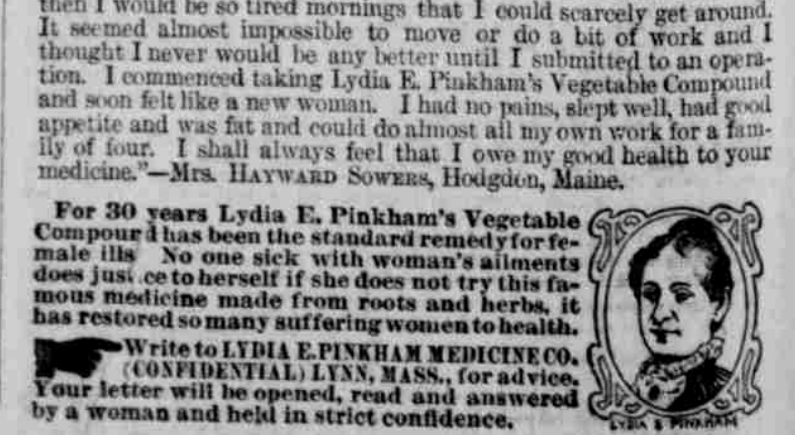

BETHWELL, ILL.—"I think all the trouble I have had since my marriage was caused by exposure when a young girl. My work has been housework of all kinds, and I have done milking in the cold and snow when I was too young to realize that it would hurt me. I have suffered very much with bearing down pains in my back and such miserable pains across me, and was very nervous and generally run down in health, but since I have taken Lydia E. Pinkham's Vegetable Compound my back never hurts me, my nerves are stronger, and I am gaining in health every day. I thank you for the great help I have received from your medicine, and if my letter will benefit suffering women I will be glad for you to print it."—Mrs. JAMES CRUSEN, Bushnell, Illinois.

A Grateful Atlantic Coast Woman.

HOPKINS, ME.—"I feel it a duty I owe to all suffering women to tell you Lydia E. Pinkham's Vegetable Compound did for me. One year ago I found myself a terrible sufferer. I had pains in both sides and such a soreness I could scarcely straighten up at times. My back ached, I had no appetite and was so nervous I could not sleep, then I would be so tired mornings that I could scarcely get around. It seemed almost impossible to move or do a bit of work and I thought I never would be any better until I submitted to an operation. I commenced taking Lydia E. Pinkham's Vegetable Compound and soon felt like a new woman. I had no pains, slept well, had good appetite and was fat and could do almost all my own work for a family of four. I shall always feel that I owe my good health to your medicine."—Mrs. HAYWARD SOWERS, Hodgdon, Maine.

For 30 Years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills.

No one sick with woman's ailments does just so herself if she does not try this famous medicine made from roots and herbs. It has restored so many suffering women to health. Write to LYDIA E. PINKHAM MEDICINE CO. (CONFIDENTIAL) LYNN, MASS., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.

What's New in New Mexico

STATE COLLEGE TO BE VISITED BY Y. M. C. A. MAN

Secretary Heinzman to Hold Series of Meetings for Students; Newsy Notes From Agricultural Institution.

SPECIAL DISPATCH TO MORNING JOURNAL.
State College, N. M., April 15.—The Young Men's Christian association of the college is preparing for a visit from Secretary H. L. Heinzman, of the Rocky Mountain states, on April 25-26. Secretary Heinzman will conduct a series of meetings for the young men of the college at the association building on the above dates. Those who remember his former visits are eagerly awaiting his arrival this month, as his services to the local association are invaluable.

C. C. Evans, father of Cowden Evans, a member of the preparatory department of the college, is visiting his family at the college. He is here from Arizona for a few days.

The Agricultural club will edit the Round-up, the college weekly, on April 20. All the staff has been appointed, and the material for this issue is being compiled. The club is now preparing the material for this issue. The work will be eight pages. The work is in the hands of Dr. E. P. Hamber, recently elected dean of agriculture, and Richard Bivens, chairman of the student committee.

P. R. Barber, agricultural agent for Dona Ana county, and Assistant Professor J. R. Meeks, of the animal husbandry department, attended the regular meeting of the Southern New Mexico Farmers' association, held in Anthony, N. M., last Saturday. They reported that a large number of lower Mesilla valley farmers were present. The subject for discussion was feeding farm animals. Special emphasis was laid upon care in feeding hogs.

Distributing Chili Peppers.
The horticultural department is sending out to one hundred horticulturists and other interested parties such a number of new varieties of chili peppers. These are promising new strains. They not only possess good qualities of smoothness, size of pod and fleshiness, but also show indications of resistance to the chili blight. This experiment has been started as a new experiment with regard to finding out to what extent self-fertility of the chili is a permanent feature.

Director Garcia states that so far there are better prospects for a heavy fruit crop than for many years. The fruit from frost almost over and under frost does occur, even the Alberta peaches will need heavy thinning.

The president of the student body has called for bids on the business management of the Round-up for the academic year 1915-16. All proposals shall be in by Wednesday, April 25.

The student commission will nominate candidates for the editorship of the Round-up in a meeting on Thursday morning.

BEAUTIFUL SUBURBAN ADDITION TO SANTA FE PROGRESSING RAPIDLY

SPECIAL DISPATCH TO MORNING JOURNAL.
Santa Fe, April 15.—Work was begun today in laying out a tract of land on Route Vista Heights upon which a number of modern bungalows are to be built this summer. The land belongs to David L. Miller and has been used as an orchard nursery. Some distance west of this tract, Nathan Salmon is laying out a tract for a bungalow court while on the brow of the hill, a third tract is to be laid out for residences.

Among those who have already situated their intention of building in this part of town are Federal Judge William H. Pope, Mrs. Brookings and a number of other well-known people. Several houses are planned for East Palace avenue and at least one modern office building is to go up, provided the "Cathedral of the Desert" is erected.

FABULOUS GOLD STRIKE IS MADE AT CACTUS FLAT

Rush of Treasure Seekers Takes Place on Receipt of News of Rich Find in Southwestern New Mexico.

SPECIAL DISPATCH TO MORNING JOURNAL.
Silver City, N. M., April 15.—Additional reports reaching here today from Cactus Flat, 55 miles north of Silver City, confirm the news of a recent fabulous gold strike by prospectors, and it is estimated that 500 treasure seekers have flocked to that scene in every conceivable sort of conveyance. The country is reported to be staked with claims for a radius of 10 miles from the place where the strike was made.

Assays show values in gold as high as \$3,000 a ton. The gold is found in a few millling quartz. Experienced mining men predict the establishment of a camp rivaling that of Mogollon.

TWO MEN HAVE NARROW ESCAPE FROM DROWNING IN WATERS OF JEMEZ

SPECIAL DISPATCH TO MORNING JOURNAL.
Jemez Springs, N. M., April 15.—The Jemez river is a rampage. For about a week the water has risen a little higher each night and last night was very high. At the Jemez Indian pueblo, the river has spread out into the fields.

Henry and George Elnke narrowly escaped a serious accident here yesterday afternoon. When fording the river near the soda dam with four mules and a loaded wagon, a wheel broke and Harry was thrown into the icy water. He was carried about fifty yards down stream in the raging torrent, but finally managed to swim to ashore. They succeeded in saving everything.

This afternoon a more serious accident occurred at a ranch near from the Cueva, starting home from here with four horses and a load of supplies, but three of the horses by drowning. The young man is prostrated tonight at a nearby house. The horses were pets and he was unable to do anything but sit in the wagon in the middle of the stream and see them die.

Fortunately, Harry Elnke came along and soon got Mexicans and Indians to rescue the young man from his perilous position and to help him to save the car and later the wagon. There has long been a cry for need for a bridge at this point.

William H. Van Cott and Miss Magdalena Montoya were married here by the justice of the peace Friday night. Mr. Van Cott is to have charge of the Otero bath house this summer, and will live in the cottage adjoining. Jose Romaldo Casados, son of Blas Casados, mull contractor, and Miss Anita Martinez were married in the Catholic church here on Monday, the 12th. They will reside here, as Mr. Casados drives the mail stage on this end of the line.

E. A. Hall and wife have arrived at the Sulphur, ready for the usual influx of summer travelers.

WRECK TIES UP TRAFFIC ON LINE TO SILVER CITY

Spreading Rails Cause Engine to Leave Track; Engineer and Fireman Have Narrow Escape From Death.

SPECIAL DISPATCH TO MORNING JOURNAL.
Silver City, N. M., April 15.—A wreck which in all probability will tie up traffic on the Deming-Silver City branch for 24 hours or more, took place ten miles south of here at 11:45 o'clock this morning when spreading rails caused the engine to jump the track, dragging the mail and express car with it.

The engine went over a steep embankment and turned completely over, Engineer F. N. Heath and Fireman E. C. Elliott having a narrow escape from death. When they felt the engine leave the rails they stuck to their posts in order to save the passengers, and this fact probably averted a disastrous wreck with serious loss of life.

Automobiles were sent from here to bring in the passengers and mail.

MAY PUT PROPERTY OF INDIANS ON TAX ROLLS

SPECIAL DISPATCH TO MORNING JOURNAL.
Santa Fe, April 15.—Much interest is manifested here in a new policy of the Indian commissioners toward the Indians which may result in adding considerable to the tax rolls of the state. The commissioners have found that the most perplexing problem for the future in connection with the Indian relates to the handling of his property. This problem grows as the removal of restrictions is constantly urged by the more capable and efficient Indians, at the same time it is persistently agitated by interested white men. Especially is this true where, by reason of large areas of unworked Indian lands, the white land owner is compelled to bear a double burden of taxation to support schools, build roads, and make other public improvements.

To equalize this unfair burden of taxation the board of Indian commissioners believes that Indian land, which has heretofore been free of taxation, should now contribute its share to the support of these functions. Indian owners themselves derive some benefit, wherever this may be done without violating treaty obligations, and wherever treaty agreements provide that the land shall be free from not an expense to the government, but a proportionate share of such taxes. In regard to the whole broad question of government administration of the Indian's property the board believes that the cost of such administration should not be an expense to the government, and recommends a system of law and administration which will make Indian property, by means of taxation and otherwise, automatically self-supporting.

This recommendation is urged, not primarily to relieve the government of a large portion of expense which it now incurs in the administration of Indian property, but rather as the only real means of educating the Indian to take his place in the world of production.

AT ONCE! STOPS STOMACH MISERY AND INDIGESTION

"Pape's Diapepsin" makes sick, sour gassy Stomachs feel fine.

FRANK P. WALSH LISTENS TO TALE OF SOCIALIST OF CHICAGO J.

Professor Kennedy Asserts Low Wages Are Cause of All Troubles Among Workmen at Packing Plant.

MADE INVESTIGATION; CONCLUSIONS DENIED
Expected That J. Ogden Armour Will Testify Before Industrial Relations Commission.

(BY MORNING JOURNAL SPECIAL LEADER WIRE.)
Chicago, April 15.—The majority of teachers of sociology in schools and colleges are unfit, for the reason that their knowledge comes through books rather than practical experience, according to testimony given before the United States commission on industrial relations today by Prof. J. C. Kennedy, teacher of economics at the University of Chicago and last week elected alderman from the Twenty-seventh ward on the socialist ticket.

Before coming to Chicago the witness was published in pamphlet form by the Industrial Relations Commission, and he made a social survey of the packing industry in 1910-11 for the University of Chicago settlement.

His report of facts of the investigation was published in pamphlet form by the Industrial Relations Commission, and he made a social survey of the packing industry in 1910-11 for the University of Chicago settlement.

He said that the investigation was not a scientific one, but a practical one, and that he had made a social survey of the packing industry in 1910-11 for the University of Chicago settlement.

GREAT BRITAIN OFFERS APOLOGY TO LITTLE CHILE

Disavows Act of Squadron Commander When German Cruiser Dresden Was Destroyed in Neutral Harbor.

(BY MORNING JOURNAL SPECIAL LEADER WIRE.)
London, April 15.—The British government has offered an apology to the Chilean government for the sinking, on March 14, in Chilean territorial waters, of the German cruiser Dresden, the internment of which had already been ordered by the maritime government of Chile, and which the British squadron attacked and sank her.

This fact was made public tonight in a "white paper" giving the text of the Chilean note protesting against the sinking of the Dresden, and the British government's reply.

Chilean Minister Protests.
The note delivered by the Chilean minister to Great Britain says that the Dresden anchored in Cumberland bay (Juan Fernandez Island), March 9, and asked permission to remain eight days for the purpose of repairing her engines, which were said to be out of order. The governor refused the request as he considered it unfounded, and ordered the captain to leave the bay within 24 hours. As the order was not complied with in the time specified, the captain of the Dresden was informed that his ship was interned. When the British squadron appeared, on March 14, the governor was proceeding to inform the Chilean officers of the steps he had taken, but he had to turn back as the British ship opened fire on the Dresden, on which a flag of truce already had been hoisted, and called on her captain to surrender.

The captain then gave the order to blow up the magazine of the Dresden. "This act of hostility committed in Chilean territorial waters by a British naval squadron," says the Chilean minister, "has painfully surprised my government."

Continuing, the minister says that had the officer in command of the British squadron received the governor's order and been informed that the Dresden was interned, he was convinced, "the British commander would not have opened fire on her and brought about a situation which constrains the Chilean government, in defense of its sovereign rights, to formulate a most energetic protest."

Contentment Shown by Act.
After referring to the hospitality shown British ships in Chilean waters and to the long friendship between the two peoples, the minister says: "Nothing could be a more painful surprise to us than to see our ex-tremely cordial and friendly relations, which bears, unfortunately, all the evidences of contempt for our sovereign rights, although it is probable that nothing was further from the minds of those by whom it was unthinkingly committed."

Great Britain Apologizes.
The British government, in its reply, expresses regret that a misunderstanding arose, and adds: "On the facts as stated in the communication of the Chilean minister, the British government is prepared to offer a full and ample apology to the Chilean government."

It is, however, pointed out that according to the British information the Dresden "had not accepted internment and still had her colors flying and her guns trained."

The British reply continues: "If this is so, and if there were no means available for enforcing the decision of the Chilean authorities to intern the Dresden she might offend, by her action, against the British action, attempted again to attack British commerce."

Try "GETS-IT," It's Magic for Corns!

New, Simple, Common-Sense Way. You will never know how really easy it is to get rid of a corn, until you have tried "GETS-IT." Nothing like it has ever been produced. It takes less time to apply it than it takes to read this. It will dumfound you, especially if you have tried everything else for corns. Two drops applied in a few seconds—that's all. The corn shrivels, then comes right off, painlessly. We don't burn or freeze. If you have ever made a fat bubble out of your toe with bandages; used thick, corn-pressing cotton-ribs; corn-pulling knives; corn-teasing pliers—well, you'll appreciate the difference when you use "GETS-IT." Your corn agony will vanish. Cutting and gouging with knives, razors, files and scissors, and the danger of blood-poison are done away with. Try "GETS-IT" tonight for any corn, callus, wart or bunion. Never fails.

"GETS-IT" is sold by druggists everywhere. 25c a bottle, or sent direct by E. Lawrence & Co., Chicago.

EARLY MORNING BLAZE DESTROYS DAIRY PROPERTY

Las Vegas See Brilliant Illumination of Skies When Barn South of City Is Consumed by Flames.

SPECIAL DISPATCH TO MORNING JOURNAL. East Las Vegas, N. M., April 15.—Drove Las Vegas saw early this morning hearing the siren fire alarm and glancing skyward beheld one of the most luminous scenes ever witnessed before in this city.

The fire started from an unknown origin and completely destroyed the barn, the property of the Corbett dairy. Two silos in the immediate vicinity of the flames remained undamaged.

16,000 CARPENTERS ON STRIKE IN CHICAGO. CHICAGO, April 15.—Sixteen thousand union carpenters anticipated a lockout which would become effective tomorrow and went on strike at the close of work today.

LEHIGH ROAD TO SPEND A MILLION IN IMPROVEMENT

Head of Company Writes Letter to President Wilson Commending Policy of Administration Generally.

WASHINGTON, April 15.—Announcement that the Lehigh railway will soon award contracts involving an expenditure of almost \$1,000,000 as a result of "improved business conditions at this time" was made in a letter to President Wilson from E. H. Thomas, president of the road...

Since it appears, however, that a wholly erroneous interpretation is being placed on that portion of my statement which has been made the subject of editorial comment, I now feel it may duty to call the matter to your attention.

It seems to me a careful reading of the entire statement cannot leave an impression of criticism of your administration, I said among other things that business should face the future with confidence...

TAFT TALKS ECONOMY TO PENNSYLVANIANS. PHILADELPHIA, April 15.—Former President Taft today addressed the members of the Pennsylvania legislature by invitation. He told the members of the senate and house to conserve the people's money and not to spend it before they know how much the state has to spend.

DARKEN GRAY HAIR. LOOK YOUNG

Apply Q-Ban—Not a Dye. Harmless—Changes Gray Hair to a Beautiful Dark Shade.

Don't look old—look young—so if your hair is wispy, thin, falling, gray, streaked with gray, faded, dry, brittle, naturally gray, simply shampoo hair and scalp a few times with Q-Ban Hair Color Restorer. Your gray hair will be beautifully darkened, lustrous, soft, fresh, wavy, with that dark lustrous gloss which makes the hair so fascinating and attractive.

SALTS FINE FOR AGING KIDNEYS

We eat too much meat which clogs Kidneys, then the Back hurts.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days, and your kidneys will then act fine.

Jad Salts is harmless, inexpensive, makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

Ally Sloper Winner of Grand National Steeplechase in England

First photographs of the running of the Grand National Steeplechase in England have been received here. Ally Sloper was winner and the picture above shows the animal. The photograph also shows the field well bunched at the water jump, with Ally Sloper in the air.

CORRECT POSITIONS for SOCIAL DANCERS

by ANNA PAVLOWA

Mlle Pavlowa and her partner M. Ivan Clustine, showing how to prepare for the "closed position"

Mlle Pavlowa and her partner M. Ivan Clustine in the "closed position"

Mlle Pavlowa and her partner M. Ivan Clustine, showing the "walk-around"

Mlle Pavlowa and her partner M. Ivan Clustine, showing the "walk-around"

To select the correct from the incorrect is the distinguishing sign of the good social dancer. It may be done instinctively, or through the exercise of care. But however it is accomplished, those who look on never fail to comment favorably.

The social dancer who executes steps and figures with ease, with grace and without exaggerations is the one who appears to best advantage to others; who shows respectful consideration for his partner and who deserves the utmost satisfaction from his own efforts. This is true, also, of the lady, who should at all hazards preserve her feminine dignity and attractiveness.

Is there anything more to be admired than a couple on a dancing

floor that moves rhythmically with the pulsations of the music, without needless effort? I have seen such dancing, where each partner maintained an erect attitude wherever possible, and where the shoulders and arms were held quietly as they should be. I have likewise observed such a couple going through evolution after evolution with bodily ease and grace, never descending to the practices of the poor dancer by so much as the fraction of an inch.

Before starting for America this Fall I posed before the photograph camera with my partner, M. Ivan Clustine, for several positions, the correctness of which is important to dancers. Three of these positions are "open" and two are "closed." I selected them because each one is frequently used in several of the dances now in vogue.

I want, first of all, to call attention

to the pictures that are numbered one and two. They show the dancers preparing to come into a closed position and the actual accomplishment of that position. Dancers should remember that right preparation is the greatest help to later accomplishment, and this surely is so in this instance.

each dancer should approach the other with deliberation and erect body and in strict time to the music. As the partners draw nearer and touch hands they will be enabled to assume such an attitude as is shown in photograph number one.

The second photograph presents the dancers in the closed position, and its careful scrutiny discloses some important details that are of value to good dancing. One is that the cavalier does not hold his lady too close either for appearances sake or dancing ease. In the attitude assumed by myself and my partner we are sufficiently free, in every physical way, to dance with the utmost ease and grace.

It is not always easy to assume the half-open position, as seen in photograph number three, because there

are many things to be done with precise correctness. The torso must be inclined slightly yet be comparatively erect; the elevated arm, for graceful effectiveness, cannot be extended too high, nor should the feet be noticeably far apart.

Nicety of balance and bearing in other often-used open positions may be seen in the photographs numbered four and five, the former showing the beginning of the "walk-around," which is used in one of the new social dances I have originated, and the latter the start of the "circular turn," performed alone by the lady with the assistance of her escort.

Social dancers who observe these details shown in the five photographs may always be sure of two things—that they will appear to advantage and that their movements may be made according to artistic principles.

CHINA RESISTS DEMANDS MADE BY JAP MINISTER

Group of American Missionaries and Business Men Try to Interest Washington for Oriental Republic.

(BY MORNING JOURNAL SPECIAL LEADER WIRE) Peking, April 16 (1:15 p. m.)—No specific progress was recorded at the conference yesterday between the Chinese foreign minister, Lu Cheng-Hsiang, and the Japanese minister, Kih Hioh, over the Japanese demands. The conference lasted the usual four hours and questions concerning eastern or inner Mongolia were discussed.

Eastern Mongolia was originally grouped with south Manchuria, and the Japanese demands with reference to those two territories are virtually the same, relating to right of residence by the Japanese and ownership of land, mining concessions, obligation on the part of China to obtain Japan's consent to the granting of railway concessions to any third power or to the raising of a loan from any power for railway constructions.

China Strongly Objects.

Owing to Chinese insistence, eastern Mongolia and south Manchuria were not discussed together yesterday. The Japanese minister contended that these two should be discussed on the same basis, but Lu Cheng-Hsiang argued that Japan has not such claims in eastern Mongolia as in south Manchuria. He said, however, that China was willing to open treaty ports and otherwise place all foreign nations on a favorable position relative to trading.

Lu Cheng-Hsiang asked that Japan withdraw group five, which contains some of the most important demands made by Japan, including the employment of Japanese financial and military advisers and Japanese police; Japanese supervision over the manufacture or purchase of China's war munitions and railway and mining

MISSIONARIES TAKE PART

It is understood China will communicate with the powers if Japan insists on retaining group five. The Tien Tsin-Peking branch of the American business men of those two cities recently called the attention of Secretary of State Bryan through the American minister, Paul S. Reineck, to what was termed "the serious nature of the Japanese demands," and asking the American government to take measures to protect American interests.

The appeal recently cabled direct to President Wilson was signed by seven prominent American missionaries. The whole missionary body numbers several hundred, but the great majority of them have not seen the document. Some of those who were requested to sign it refused.

Y. M. C. A. Keeps Out of It.

The "American board" sent a circular to their missionaries instructing them to refrain from making any public announcement on political affairs. The Young Men's Christian association refused to join the petition. American missionaries generally favor the position taken by China, but few indulge in publicity or political activities, in the belief that the questions which have arisen between China and Japan can be better left to the lection and the state department.

PRESS CHAPS ARE SORE AT TREATMENT RECEIVED

(Associated Press Correspondence.) London, March 29.—Some of the London papers are complaining because newspaper men are accomplishing things the British representatives of the profession have been unable to do and are blaming English statesmen in consequence. Two of the instances most frequently cited are Sir Edward Grey's reply to the Associated Press interview with von Bethmann-Hollweg, the German chancellor, and Frederick Palmer's interview with General Sir John French.

The American newspaper men in London have been so constantly thwarted by censorship that they are not inclined to regard their work with any special pride, but the respective methods of the American and British journalists may be inferred by the observations of a London editor who said when expressing disappointment because his paper did not carry the interview with King Albert of Belgium that an Associated Press reporter obtained last December, "it never occurred to me that a king would see a reporter."

SHIPS TORPEDOED TO SAVE THEM FROM ENEMY

(Associated Press Correspondence.) London, March 30.—Private advices have been received here from the Dardanelles to the effect that the British battleships Oceanic and Irresistible, sunk during the bombardment of the Turkish fortifications on March 18, were torpedoed by British warships after they had been badly damaged by the fire of the Turkish forts.

It is said that this action was taken to prevent the helpless battleships from drifting ashore, where they might have fallen into the hands of the Turks.

The statement of the British admiral said that the Irresistible sank, having probably struck a mine, and that the Oceanic "also having struck a mine," sank.

PRISONERS ENCOURAGED TO WRITE TO RELATIVES

(Associated Press Correspondence.) Berlin, March 29.—One of the puzzling problems with which the German authorities in charge of prisoners of war have had to deal is the failure of many of these prisoners to notify their relatives of their whereabouts. As a consequence it is being discovered constantly that men, particularly Englishmen, who are prisoners of war or are in hospitals, have long been given up as dead.

To minimize the difficulty the Doberitz authorities have printed quantities of post cards which bear in big black type the words: "My address is Gefangenenerlager Doberitz Deutschland (prison camp, Doberitz, Germany). Every prisoner is encouraged to write home so that his people may know his whereabouts.

GERMANY TO REBUILD DEVASTATED EAST PRUSSIA

(Associated Press Correspondence.) Berlin, March 28.—A new scheme is announced for the rebuilding of devastated districts of East Prussia. Each of the larger municipalities in the interior of Germany will become "god-fathers" to one of the towns or villages which have suffered from invasion.

This Charlottenburg has undertaken to raise the necessary assistance from Saldan, Magdeburg for Johannesburg, and so on. The parent towns are expected to deal with the general or temporary relief of distress, but rather with rebuilding and town-planning.

HUERTA'S STATEMENT TO AMERICAN PRESS IN HIS OWN DEFENSE

(Continued From Page One.) My Mexico is young. My Mexico has plenty of life in it. My country cannot be conquered. We have sixteen millions of men, women and children, and it would need sixteen millions of invaders, one invader for each man, for each woman, for each child, and when my sixteen million brothers and sisters are killed off, then a devastated country would be the prize of the conqueror, to the shame of civilization and to the shame of the conqueror.

Mexico Will Be Saved.

"Never mind; Mexico will be saved by a Mexican—by a strong Mexican; not by a bandit; not by men that kill for the sake of money or of dastardly passion, but by a Mexican who will act as a surgeon who will cure the sores, who will amputate the dead parts of the national body. And then Mexico in a short time will revive and will be the paradise on earth it deserves to be.

"Where is the man? Who is the man? When will the man appear? I do not know."

ANARCHY EXISTS IN MEXICO REPUBLIC

Washington, April 15.—All the embassies and legations in Washington, representing countries which have considerable interests in Mexico, have received from the international committee of Mexico City, it was learned today, affidavits testifying to the existence of conditions of anarchy in Mexico and reciting specific cases of abuse of foreign residents.

Most of the affidavits are directed to the British, French and Spanish embassies. Examination at some of the embassies has disclosed the fact that in many cases the allegations have been confirmed by advices already received from Mexico City, and consequently the diplomats have deemed

James Madison—"Father of the Constitution"

THE FOURTH PRESIDENT of the United States considered it a greater honor to be declared the Father of the Constitution than to have been elected twice to the highest office in the gift of his countrymen. No more ardent, intelligent, far-sighted and constant student of governmental problems ever lived than Madison. They were his life-long passion. He it was who labored with all his gigantic ability and indomitable will to have deeply imbedded in our National Law those vital principles which forever guarantee to all Americans Religious, Commercial and Personal Liberty. In private life he was genial and social—yet temperate. Many a foaming glass of good barley-malt beer he drank with his bosom friend Thomas Jefferson—"Father of the Declaration of Independence." Madison died at 85 and Jefferson at 83; both were unalterably opposed to tyrannous Prohibition Laws, and advocated legislation which encouraged the brewing industry. Upon the tenets of the Constitution of the U.S.A. (to which Madison devoted the best of his genius) Anheuser-Busch 58 years ago founded their great institution. To-day 7500 people are daily required to produce and market their honest brews. Their chief brand Budweiser is sold throughout the civilized world—the drink of your forefathers—the drink of the noblest men who ever lived—the drink of the great triumphant nations. Budweiser sales exceed any other beer by millions of bottles.

ACID STOMACHS ARE DANGEROUS

Common Sense Advice by a Distinguished Specialist.

"Acid" stomachs are dangerous because acid irritates and inflames the delicate lining of the stomach, thus hindering and preventing the proper action of the stomach, and leading to probably nine-tenths of the cases of stomach trouble from which people suffer. Ordinary medicines and medicinal treatments are useless in such cases, for they leave the source of the trouble, the acid in the stomach, as dangerous as ever. The acid must be neutralized, and its formation prevented, and the best thing for this purpose is a teaspoonful of bisulphated magnesia, a simple antacid, taken in a little warm or cold water after eating, which not only neutralizes the acid, but also prevents the fermentation from which acidity is developed. Foods which ordinarily cause distress may be eaten with impunity if the meal is followed with a little bisulphated magnesia, which can be obtained from any druggist, and should always be kept handy.

BRAHM'S QUARTET IS NEXT ENTERTAINMENT BY THE READING ROOM

Brahm's quartet, of Chicago, is announced as the next entertainment to be given by the Santa Fe reading room. This quartet will give a concert in the Presbyterian church Saturday evening. The house will be open to the employees and their families at 7:45 and to the general public at 8:15.

Following is the announcement of the entertainment by Superintendent Buser: "I have a letter from one of the big managers of the country, saying that he is surprised that Brahm's quartet would take the Santa Fe trip for only expenses; that they are one of the best paid concert companies on the line, and are always in great demand. I take this to be a splendid compliment; but it also indicates that the great singers and popular concert companies are delighted to entertain Santa Fe employees, and I have found the reason to be that our employees appreciate high grade talent, and their applause is an act of nature, honest and genuine, because they know a good production when they hear it."

"I am trying to get our people to realize every day that they are being provided with the best talent in the land. The Santa Fe is certainly enriching the lives of their employees with the best music, literature, art and science."

Dr. Frederick Stock, conductor of the Thomas orchestra, says: "This quartet has attained a very high degree of perfection, and in fact, a more evenly balanced ensemble could hardly be imagined."

"Similar sentiments come to me from Prof. Leopold Kramer, concertmaster of the Chicago Grand Opera company. Every one of them is an artist, chosen in their work because they have all made good. Don't miss the Brahm's."

WOODMEN CIRCLE WILL HOLD NEXT MEETING IN ROSWELL IN 1917

The Woodmen Circle yesterday voted to hold the next state meeting at Roswell in April, 1917, closing the convention, which has been in session here for three days. The following officers were elected:

Supreme delegate—Mrs. Julia A. Sharp. Grand guardian—Caroline Merrifield, Hope. Grand adviser—Sarah Westerland, Albuquerque.

Grand clerk—Lily Ellis, Clovis. Grand banker—Nora Leck, Carlsbad. Grand chaplain—Ethel McDaniel, Roswell.

Grand attendant—Nettie Vest, Carlsbad. Grand assistant attendant—Gertrude DeW. Portales. Grand managers—Elizabeth Shelton, Hope; E. C. Tafaya, Santa Fe; Emma Walling, Albuquerque.

Grand inner sentinel—Rosa Pullen, Clovis. Grand outer sentinel—Eliza Rankin, Elida. Alternate to supreme delegate—Bertha Thornhill, East Las Vegas.

LIBEL SUIT AGAINST EL DEFENSOR IS BEGUN IN DISTRICT COURT

The case of Joe Mahboub, South First street merchant, against the Maryland Casualty company came to an abrupt and yesterday when Judge Reynolds of the district court directed the jury to return a verdict for the defendant company. Mahboub had a policy in the company insuring him against burglary and brought suit on this because his store was entered by burglars more than two years ago. Some goods and jewelry were taken.

The trial of the case of Moses Savendra against the Torres brothers, owners of Defensor del Pueblo de Socorro, was begun. Savendra asks \$1,000 damages for alleged libel. The jury was empaneled but the taking of evidence had not begun when court adjourned until this morning.

Everyone is cordially invited to the tea to be given by the Young Ladies' Society of the Immaculate Conception church, Saturday, April 17, from 3 until 6, at the Wallace Hoeselien home, 1211 West Roma avenue.

GOES TO RIVER TO GATHER WOOD; FINDS DEAD BABY

Coroner's Jury Decides Child Was Born Alive and Thrown Into Stream; In Water Several Days.

When a man named Alderete went to a slough of the Rio Grande near the old schoolhouse of Rancho de Atrisco yesterday morning to gather driftwood for fuel he found the body of a baby floating in the water close to the bank.

Alderete sent word of the gruesome find to Under Sheriff Dick Lewis at Old Albuquerque and he sent Deputy Sheriff Anastacio Padilla to investigate. The small body was taken from the water at the direction of Padilla. It was a boy apparently born a short time before death. The skull seemed to have been fractured. There were no clothes on it.

The body was brought to Fred Crollot's undertaking rooms in this city, where a coroner's jury viewed it. Dr. W. W. Spargo, county physician, examined the body and reported to the jury. The jury decided that the child had been born alive and thrown into the river by persons unknown. The doctor could not determine positively how the head had been injured. He said the child had been in the water probably several days.

The coroner's jury was made up of Ambrosio Armijo, Nestor Sanchez, Leandro Barcia, Filadelfo Lujan, Jose D. Uliarrri and G. W. Fisher. Justice Armijo of Atrisco president.

CRYSTAL PATRONS TO SEE GREATEST SWIMMER TODAY AND TOMORROW

The production which broke every record on Broadway this year in the motion picture category, "Neptune's Daughter," Miss Annette Kellerman as star, will be seen in its entirety at the Crystal today and tomorrow.

Miss Kellerman is the world's greatest woman swimmer, diver and naturalist expert. Besides being credited with possessing the most truly classical figure known to the modern world—a figure even surpassing the lovely lines of the ancient Greek goddesses. In "Neptune's Daughter" Miss Kellerman is enabled to exhibit to the greatest possible advantage her beautiful figure and to display his athletic abilities hitherto unsuspected, as this production is by no means a series of mere water stunts, but a coherent, well connected mythological narrative.

SCHOOL CHILDREN TO GIVE ENTERTAINMENT IN SPANISH SATURDAY

What promises to be one of the most interesting entertainments ever given by school children in Albuquerque will take place at the high school auditorium Saturday evening when a program to be entirely in Spanish will be rendered. A Spanish play, on which the children have been drilling for some time past, will be the principal feature and speeches will be delivered and songs sung in the Spanish language.

No admission will be charged to the entertainment and Superintendent Mabe stated yesterday that he was especially desirous of a large attendance of the parents and families of all the school children.

DOMESTIC SCIENCE AT WOMAN'S CLUB TODAY

This is domestic science day at the Woman's club. Mrs. Ives will act as leader and the following program will be rendered:

"Scientific Management in the Home," Mrs. Gleason. "Food soils," Mrs. McGriff. "The Financial Problem of the Housewife," Mrs. C. May. "Plano solo," Mrs. George Everett. Refreshments served by Mrs. Schack and her assistants.

DEATHS AND FUNERALS

Jose Andres Gurule, 52 years old, died at 2 o'clock yesterday afternoon at a local hospital. The body will be shipped today by Fred Crollot, undertaker, to Placitas. It will lie in state from 2 to 4 o'clock this afternoon at Fred Crollot's chapel.

CRYSTAL PATRONS TO SEE GREATEST SWIMMER TODAY AND TOMORROW

Great Crowd Follows Body to Its Last Resting Place in Fairview; Wealth of Flowers Covers Casket.

Group Representing Slogan, "Heart of Well Country," to Be Shown at American Medical Association Meeting.

Albuquerque climate is to be extensively advertised at San Francisco and Seattle this summer at the national meeting of the American Medical Association and of anti-tuberculosis workers. The advertising will have for its object the calling of the attention of the medical fraternity to the fact that the climate of Albuquerque is efficacious in the cure of tuberculosis and to the accommodations offered to healthseekers in this city.

R. W. Wiley of the publicity department of the Commercial club has secured space in the auditorium at San Francisco where the national meeting of the American Medical Association is to be held in June, lasting one week. A booth ten feet square has been reserved for Albuquerque publicity purposes. This will be attractively decorated, the main idea of the decorative scheme being a group of athletic figures supporting an immense heart, the entire group representing the idea of the Albuquerque slogan, "The Heart of the Well Country."

The booth will be displayed framed photographs of Albuquerque and the surrounding country, the scenic attractions of the state and paintings of the various health institutions and resorts. Albuquerque literature will be distributed to all interested persons and booklets descriptive of the sanatoria.

Expect 5,000 Physicians. The American Medical association expects that 5,000 physicians from every part of the country will be in attendance at the national meeting, and the publicity department of the club believes that this is one of the great opportunities of exploiting the New Mexico climate, as a considerable percentage of all persons who come to New Mexico for their health do so on the recommendation of a physician. A considerable number of the inquiries answered by the club come from doctors who are desirous of learning more regarding Albuquerque, the climate and the accommodations for healthseekers. The San Francisco display will reach a great number who are but slightly familiar with such facts.

Before the national meeting a full page display advertisement will appear in the journal of the American Medical Association, to be paid for by the private tuberculosis institutions of the city. The advertisement will invite all physicians traveling to the coast to attend the meeting to stop over in Albuquerque for at least a few hours. The special trains carrying the physicians will remain in this city some time, and the Commercial club will attempt to secure sufficient automobiles to conduct the doctors about the city and give them a sight of the sanatoria here.

Exhibit to Seattle. The Albuquerque display will be moved from San Francisco at the close of the meeting there and shipped to Seattle to be shown to the national meeting of anti-tuberculosis workers, among which there will be hundreds of physicians specializing in tuberculosis.

Mining Company Selects Officers. Santa Fe, April 15.—Traffic Manager Black of the A. T. & S. F., today advised the state corporation commission that the summer tariff rates from Missouri river points to New Mexico points are in the hands of the printers and are on the same basis as last year. The Texas rates are reduced to the same basis as the Colorado rates.

Boys Come Near Starvation. Santa Fe, April 15.—Four boys, Felipe Herrera, Labrador Vega, Ramon Vega and Angel Caballero were locked in a Southern Pacific box car at Lordsburg a few days ago and had a narrow escape from starving to death. When they were released, on the Texas-New Mexico border after four days, they had almost perished from thirst and hunger.

NATIONAL PRESIDENT OF B'NAI B'RITH TO BE HERE THURSDAY

A special train carrying a section of the national convention at San Francisco will arrive here next Thursday. Adolph Krauss, of Chicago, president, will be on the train. Arrangements are being made by the local society, of which Dr. Joseph Pipes is president, to entertain the members who they are here. The train will arrive at 12:15 p. m. and remain until 7 o'clock. There will be about 150 in the party.

A special carrying the Knights of the Macabees of the World will be here May 11, arriving at 12:15 o'clock and remaining an hour.

GOVERNOR FIELDER IS PLEASD WITH PLANS OF COMMERCIAL CLUB

Secretary Thomas Egan of the Commercial club yesterday received a letter from Gov. James Fielder of New Jersey saying he would be glad to take advantage of the courtesy of the club when he arrives here May 12, en route to California. There will be extra men in the party. They will arrive here at 9:45 a. m. and stay until 4 p. m.

For dependable work and prompt service, call Thomas, secretary of "Painters' Union," Phone 652.

DIXIE JUBILEE SINGERS WILL APPEAR TONIGHT

The Dixie Jubilee Singers will appear at the high school auditorium this evening at 8:15 o'clock and the ladies who were put in charge of the entertainment have the assurance that the singers will be greeted by a large audience. They are considered the very best singers of their class today on the American stage, and will come to our city with the highest recommendations. If you want to enjoy a real, genuine musical and vocal treat, get your tickets today at Matson's store and attend the entertainment at the auditorium this evening.

A. L. Conrad, manager of the Seenic theater, Tall, Calif., in writing about the Dixie Jubilee Singers, has this to say: "The patrons of the Seenic theater were given the finest musical program on February 5th that it has been their pleasure to enjoy for some time. The occasion was the appearance of the Buckner's Dixie Jubilee Concert company. I am pleased to recommend this company as being the best all-around company ever appearing in Tall."
