NINE KILLED IN EXPLOSION OF POWDER

BODIES OF VICTIMS BLOWN TO FRAGMENTS

Magazine Blows up While Workmen are Unloading Car of Deadly Contents; Cause May Never Be Known.

[By Morning Journal Special Lensed Wire.] Tacoma, Wash., July 16.—A special to the Ledger from Coelam, Wash., says:

An explosion in the powder magazine of the Northwestern Improvement company, near here, at 5 o'clock this afternoon, killed at least nine persons and seriously injured a number of others.

The Killed. GEORGE MEAD, manager Northwestern Improvement company store. GILFORD McDONNELLS, clerk in store.

ANDY GRILL, clerk in store. MRS. PETER MOFATT, wife of brickmaker.

INFANT CHILD OF MRS. MOFATT.

JOE ROSSI, miner.

JOE POGGIAPPI, miner.

TWO MINERS, names unknown.

Shortly after 5 o'clock Mead and the clerks from the store went to the powder house to assist in unloading a carload of powder. How the accident happened is not known.

The magazine is three-quarters of a mile from the center of the town, and the explosion shook the town like an earthquake. Windows for a mile around were shattered and rocks and brick from the powder house were thrown hundreds of feet.

Mrs. Peter Mofatt, wife of a brickmaker, was living in a tent near the magazine with her two children. The tent was blown to pieces and Mrs. Mofatt's body has not been found.

Muffled cries were heard soon after the explosion, but they have died down.

Fragments of bodies were scattered for half a mile from the magazine.

MEXICANS REMANDED TO JAIL IN EL PASO

El Paso, Texas, July 16.—United States Commissioner Oliver this afternoon at the close of the preliminary hearing of four alleged Mexican revolutionists, bound them over to the federal grand jury.

Bonds were fixed as follows: Preciliano Silva and Jose Ramirez, \$1,000 each; Benja Silva and Leonardo Trevino, \$250 each. The four men were remanded to jail under failure to furnish required bond.

ALLA OVERLOOKED LAST CHANCE FOR LIFE

Governor Would Have Probed Story of Alleged Wrongs Had Italian Spoken in Time.

[By Morning Journal Special Lensed Wire.] Denver, July 16.—Giuseppe Alla might have been living still had he made known to Acting Governor Harper his claims that Father Leo Heinrichs, for whose murder Alla was hanged at Canon City last night, was the man who ruined his home and caused him, as he claimed, to become a wanderer. Governor Harper said today that he would have reviewed Alla until investigation through the Italian government could have been made as to the truth of Alla's charges. If found to be true, Governor Harper said he would not have allowed the death sentence against Alla to be carried out. The Alla statement was not made until last night, too late to reach the ears of Act. Governor Harper.

ANOTHER SOLDIER IS MURDERED BY MOROS

Washington, D. C., July 16.—Another murder has been reported to the war department from the Philippines. General Weston in a cablegram reports that Albert L. Bureleigh, Company C, Eighteenth infantry, was murdered on June 30 by Moros. General Weston reports that Almer S. Hurley, Company D, Fourteenth infantry, died on July 3 of acute dysentery, and Freela H. Hoff, Company D, Twenty-ninth infantry, died on July 7 of a tumor.

Kern Notification Next Month

Indianapolis, July 16.—It was announced here this afternoon that the Kern notification meeting will be held early in September, and will be attended by Mr. Bryan, who will on that occasion make the only speech he will make in this state during the campaign.

BRYAN BRANDS BLACK BISHOP AS FALSIFIER

DENIES INTERVIEW ON BROWNSVILLE IMBROGLIO

Commoner Decides to Confine Himself to Issues Contained in Platform and Leave Negro Question Alone.

[By Morning Journal Special Lensed Wire.] Fairview, Lincoln, Neb., July 16.—William J. Bryan does not intend to be drawn into the Brownsville case if he can help it. In all his conversations with visiting delegations and others he has carefully refrained from talking on that subject and today he put the brand of untruthfulness upon an alleged statement by Bishop Walters of the Afro-Methodist Episcopal church, to the effect that he had assured a negro delegation that he regarded President Roosevelt's action in that matter as unjust. At the same time he also denied another alleged interview of the bishop that he had discussed the appointment of negroes to office. These declarations were called forth by a telegram from the Baltimore Sun inquiring as to the truth of the statements, said to have emanated from Bishop Walters. To the newspaper men at Fairview Mr. Bryan said that he had not and would not take up any issue not contained in the platform.

Mr. Bryan spent a fairly busy day today. Delegates returning from the Denver convention again made pilgrimages to Fairview, where they conferred with Mr. Bryan after the coming campaign. Mr. Bryan impressed them all with the necessity of organizing political clubs and exerting every effort to poll the full democratic vote in November. He believes that clubs of that character will contribute very largely to democratic success. The visitors all left with pledges of hearty support and promises to get the democratic vote to the polls. They came from Illinois, Alabama, Nevada and Texas.

A telegram from W. H. Dunphy, of Walla Walla, Wash., conveying the information that Eugene Tausick, democrat, had triumphed by a good majority over W. P. McKean, president of the local Taft club in the majority contest in that city was about the most pleasing news of the day to Mr. Bryan, who regarded it as an augury of what will happen all over the country.

The visit of Representative Ollie James, of Kentucky, and John E. Lamb, of Indiana, late in the afternoon gave rise to further gossip regarding the chairmanship of the national committee. Nothing was given out bearing on the business which brought them here, but it is known that Mr. James came at the special invitation of Mr. Bryan and that the question of the national chairmanship was discussed. A prominent western democrat who accompanied Mr. James from Denver to Lincoln is authority for the statement that Mr. Bryan strongly favors Mr. James for national chairman. He added that the appointment had in fact, been tendered to Mr. James, who, in all probability will accept, although he prefers to take the stump in Mr. Bryan's behalf.

Among the other callers were Herman Schultes, of Washington, D. C., a labor leader; J. T. Callahan, of Holyoke, Mass., who was chairman of the committee of credentials of the convention, and George R. Steindorff, of Davenport, Ia., but formerly of Omaha, who conducted Mr. Bryan's campaign for a seat in congress.

UNIQUE COSTUMES IN ELKS PARADE

Best People March in Gorgeous Procession as Wind-up of Grand Lodge Festivities at Dallas.

[By Morning Journal Special Lensed Wire.] Dallas, Texas, July 16.—Garbed in costumes both unique and typical of the different sections of the country, they represented the various delegations attending the annual reunion of the Elks marched in review today before a throng of cheering onlookers.

New York Lodge No. 1, the pioneer lodge of the organization, marched behind a blood red banner, and Los Angeles, which city was chosen as the next place of meeting, in spotless white, followed, and in turn the various other delegations, each with some original feature, and the bands, some forty in number.

Behind a banner borne by two burros, W. A. Ritz, of Walla Walla, Wash., marched with a hat more than a yard wide, and in height of proportion.

Glidden Tourists Reach Albany. Albany, N. Y., July 16.—Starting this morning at Milford, Pa., fifty-two contesting cars in the Glidden contest finished today's journey at Albany, a run of 152 1-2 miles.

BATTLE FLEET ANCHORS AT HONOLULU

FIRST LEG OF LONG VOYAGE UNEVENTFUL

Hawaiians Suspend Business to Devote Entire Time to the Entertainment of Uncle Sam's Sea Fighters.

[By Morning Journal Special Lensed Wire.] Honolulu, July 16.—The Atlantic battleship fleet arrived here at noon today, completing another long leg in its world cruise.

Magnificent beyond anything ever seen in these waters was the arrival as one powerful vessel after another arose out of the eastern horizon and came in the range of vision of the thousands of spectators from the whole Hawaiian group of islands who thronged Diamond Head and adjoining heights that stretch beyond Waikiki eastward, from Honolulu to the extremity of the island of Oahu. The day opened cloudy and threatening rain but by 9:29 o'clock when the lookout on Diamond Head through his telescope first descried the smoke of the Connecticut the southern half of the sky was clear and only floating clouds obscured the northern half. Early the city was astir and the pilgrimage to Diamond Head and other points of vantage began with street cars jammed, automobiles and gaily decked carriages crowded with eager people.

Many rode on horseback, while others hastened on board excursion craft in the bay.

Upon the first notification of the sighting of the fleet the excursion steamers hurried out of the harbor and as the fleet rounded Diamond Head and came into view of the city their approach was heralded from roofs and tall buildings by a cosmopolitan crowd, men, women and children of all the races and nations that go to make up Honolulu's population, Japanese, Chinese, Koreans, Hindus, Portuguese, Hawaiians, Spaniards, Porto Ricans, Filipinos and people from every European country and every state in the union.

Nearly all carried an American flag and from the house tops of the city floated besides the stars and stripes, flags of almost every nation, Chinese and Japanese predominating.

The formation of the fleet began to be distinguished when it was about fifteen miles distant and as it ploughed its course along the southern coast of the island it furnished a magnificent spectacle, the vessels moving slowly in perfect column.

A wind fresh from the northeast blew the smoke of the ships off the port bow.

Just at noon the Connecticut hove to at the outer entrance of the channel and the other vessels took position.

The Illinois, Kearsarge and Kentucky anchored westward of the channel entrance, the Georgia, Nebraska, New Jersey and Rhode Island to the eastward. At 12:30 the Connecticut slowly entered the channel surrounded by a Japanese fishing fleet firing daylight fireworks of many and curious designs.

When the Connecticut was about to enter the harbor she was greeted by a salute from the naval station.

The Wisconsin, Minnesota and Vermont followed after the Connecticut. Immense crowds covered the wharves and the most interest and patriotism was displayed during the procession in cheers and the discharging of daylight fireworks.

As soon as the Connecticut had come to anchor she was boarded by the reception committee, who formally notified Rear Admiral Sperry and his officers and men to partake of Hawaiian hospitality.

Later in the afternoon Admiral Sperry made an official visit to Governor Frear, who returned the visit. During the entire run to Honolulu the fleet experienced pleasant weather and smooth seas.

For two hours or more daily except on Sunday the fleet had tactical evolutions, and at the same time routine drills were carried on. No noteworthy incidents occurred on the entire voyage, and as a matter of fact this, the first leg of a long cruise, was rather more uneventful than usual.

The fleet never had to slow down, nor did many of the ships have to fall out of formation through accidents to machinery or steering gear.

The health of the crew has been very good and there have been no deaths or serious accidents since leaving San Francisco. The Nebraska, which was left behind when the fleet sailed from the Golden Gate owing to scuttler fever cases among her crew, overtook the fleet at 6:30 a. m. yesterday.

The third division which went to Lahaina for coal, will come to Honolulu July 19 and rejoin the other members of the fleet. Rear Admiral Sperry is in excellent health.

Tonight the city, dressed in bunting, is illuminated with thousands of electric lights, and the streets are filled with a holiday making crowd. Out in the harbor the men of war are outlined in incandescent bulbs, their masts, huge electric crosses against an equatorial sky.

Bernalillo County Tax Rate Takes Another Drop of More Than Five Mills

CHAFFIN HEADS HEARST IN OPEN COUNTY COMMISSIONERS SHOW THE GOOD RESULTS OF BUSINESS ADMINISTRATION

FINANCES SHOW WHAT MAY BE DONE WITH DECENT GOVERNMENT

Decrease for the Year in County Purposes Alone is 2.15 Mills Over 1907; Decrease of 1907 Over 1906 for the General County Purposes Was 3.6 Mills, a Total of 5.75 Mill for County Purposes for the Two Years.

[By Morning Journal Special Lensed Wire.] New York, July 16.—A cablegram has been received from William Randolph Hearst in reply to a message transmitted to Mr. Hearst from Samuel Gompers, stating that in view of the democrats' stand for labor, it would be "an act of greatest patriotism for the independence party to endorse the democratic platform" and urging him not to run a third ticket as it would elect Mr. Taft. Mr. Hearst's cablegram follows:

"Paris, July 13. "Tell Mr. Gompers that I am not authorized to speak for the membership of the independence league, but according to my personal standards, a purer patriotism consists in laboring to establish a new party which will be consistently devoted to the interest of the citizenship and particularly to the advantage and advancement of the producing classes. I do not think the path of patriotism lies in supporting a discredited and drowsed old party which has neither conscientious conviction nor honest intentions, or in endorsing chameleon candidates who change the color of their political opinion with every varying hue of opportunism. I do not think the best benefit of laboring men lies in supporting that old party because of a promise of false promise when the performance of that party while in power did more to injure labor than all the injunctions ever issued before or since. I have lost faith in the empty professions of an unregenerate democracy. I have lost confidence in the ability, in the sincerity and even in the integrity of its leaders. I do not consider it patriotism to pretend to support that which, as a citizen I distrust and detest, and I earnestly hope the independence party give me an opportunity to vote for candidates that are both able and honest and for a declaration of principles that is both sound and sincere.

(Signed) "WILLIAM RANDOLPH HEARST."

MEANS TROUBLE FOR EMPLOYERS OF NON UNION MEN

Reciprocal Boycott Arrangement Between Western Federation of Miners and United Mine Workers.

[By Morning Journal Special Lensed Wire.] Denver, July 16.—Reports of officers were made to the convention of the Western Federation of Miners today, as well as a report from the executive committee. All were referred to committees. The executive committee, in its report, commended the officers of the federation "for their efficient work."

A resolution was adopted thanking organized labor for aid given the federation in defending certain of its members who were on trial at Boise, Idaho, charged with complicity in the murder of former Governor Steuneger.

The working agreement which effort is being made to have the Western Federation of Miners and the United Mine Workers of America enter into, in substance is as follows: United Mine Workers will refuse to mine coal to be used in metalliferous mines and smelters where non-union men are employed.

Federation members will not work in mines or smelters using coal mined by non-union coal miners.

HONG KONG GOVERNOR ANXIOUS FOR COLONY

Believes British Residents Should Be Prepared to Fight in Event of Uprising.

Hong Kong, July 17.—Governor Tugard has issued a circular to the mercantile firms of Hong Kong to set an example to England and the colonies by starting a scheme, that a condition of the engagement of British employees shall be that they join the volunteers. Sir Henry Berkeley, attorney for the colony of Hong Kong, states that there is a growing feeling that the empire must awake to realize the risk of disaster.

MARTIAL LAW IN PORTS OF CENTRAL AMERICA

San Francisco, Cal., July 16.—The officers of the steamer City of Para which has arrived from Central American ports, say that great excitement prevails in all the coast towns visited. Merchant vessels are intercepted by gunboats which allow them to proceed after finding that no arms are being carried. While in port the officers and passengers are kept under close surveillance. It is reported that several secret assassinations have taken place.

Want Volunteer Speakers. Birmingham, Ala., July 16.—John W. Tomlinson, Alabama, a member of the national democratic committee, announces that volunteers to assist in the campaign throughout the United States would be accepted and asks all speakers to advise him immediately as to states and time desired by the orators. Said he:

"Each speaker will be a volunteer fighter devoting his own time and money to the cause."

Special wild animal bounty..... 1.	Special wild animal bounty..... 1.
Total..... 38.5	Total..... 39.5
Increase of 1 mill.	

SUMMARY—ALL PURPOSES.		
1907.	1908.	Decrease
Territorial purposes..... 14.	Territorial purposes..... 13.	1.
General county purposes..... 24.	General county purposes..... 21.85	2.15
City general purposes..... 15.	City general purposes..... 14.	1.
City board of education..... 13.	City board of education..... 13.	
Flood..... 2.	Flood..... 1.	1.
Total..... 68.	Total..... 62.85	5.15
A total decrease of 5.15 mills.		

The above statement then, shows that there has been made during the past year a decrease of 1 mill in the levy for territorial purposes.

A decrease of two and fifteenth-hundredths mills for general county purposes.

A decrease of 1 mill for general city purposes.

A decrease of 1 mill in the flood fund; a total decrease of 5.15 mills in the total tax rate.

In the special levies shown in the table above is an increase of 1 mill in the tax levy for the sheep sanitary board. This, it should be understood, is not a general tax, but a tax on sheep alone. The increase in the wild animal bounty tax levy is also a special tax and has no general application. The decrease made is therefore a net decrease.

It should be kept in mind, also, in comparing these tables that the county commission has been able to make this decrease in spite of the adding of several levies for general county purposes which were not made in 1907. Chief among these is the fund for boarding of prisoners.

It is interesting also to compare the statements for county purposes, which show where reductions have been made. The general school tax, fixed by law, remains the same. The general county fund remains the same. The court fund has been reduced 5 mills. The court house and jail fund drops from 5 to .25 although extensive improvements have been made to both court house and jail. The judgment fund disappears in the 1908 statement and the interest fund drops from 8 in 1907 to 5.5 in 1908. In a word, this statement shows that Bernalillo county is getting on a sound financial basis; that with a few more years of decent, honest management, this county will be able to use the money collected from taxation for good purposes instead of paying bad debts and that the time is coming, if decent government continues, when our tax rate will be such that we can show it to a stranger or an investor without having to apologize for it.

And while the tax rate decreases the county is paying its current expenses and its just debts, dollar for dollar, on the first day of every quarter, and at the same time actual improvements are being made in county buildings, county offices, and on county roads.

For the first time in more than ten years the people of Bernalillo county can see their way to an economical, effective county government. It has taken time to get results. When the change came in this county conditions were such that it was difficult to see any way to an adjustment of the tangled county finances. The present county commission simply tackled the job with the courage of despair. They have stuck to it faithfully and well and they have obtained results. It has been a long up-hill pull, but the time has now come when a continuation of decent government means the speedy placing of the county on a sound and permanently established financial basis.

WRETCHED LONDON WEATHER MARS OLYMPIC GAMES

AMERICANS TAKE SHOT AND DISCUS TROPHIES

Complaint Regarding Proposed British System of Scoring Likely to Lead to Unpleasant Controversy.

(By Morning Journal Special Leased Wire.) London, July 16.—This was America's day in the Olympic sports at the Stadium, both big events which reached the finals, throwing the discus, free style, and putting the shot, being carried off by Martin J. Sheridan, of the Irish-American Athletic club, and Ralph Rose, of the Olympic club, San Francisco, respectively. The United Kingdom captured the third final, the 400 meters swimming event in which H. Taylor added to the score of his country by beating Beaurepaire, the Australian crack, and Scheff, of Austria.

The final also was reached in the 1,000 meters cycle race, but this proved such a fiasco through the attempts of four of the participants, Schilles, of France, and Jones, Kingsbury and Johnson of England, to force each other to take the pace that the judges declared the event off, it not being finished within the time limit.

Italy got her first gold medal today in the team gymnastic competition, receiving the greatest number of points against a great array of competitors.

No official announcement is obtainable as to how the British Olympic association is going to decide the Olympic championship, but the system adopted by the London sporting papers is arriving at the respective positions of the various contests has been generally accepted.

This system awards one point for each win, ignoring seconds and thirds and includes all sports carried out under the auspices of the association whether within the Stadium or outside of it. Following this method of counting points, the countries could be placed in this order: United Kingdom, 20; United States, 8; Sweden, 2; Norway, 2 and Canada, France, Belgium and Italy one each. The United Kingdom's 20 points, according to this computation is made as follows:

Men's doubles and singles and ladies' singles in both the lawn tennis and covered court tennis competitions, polo competition, singles and doubles with racquets, individual rifle competition, individual miniature rifle competition, target team competition, rifle team competition at clay birds and the following wins in the Stadium:

300 meter walk, 20 kilometer cycle race, three mile team race, 650 yards cycle race, and 400 meter swim.

The United States score is made up of these wins:

Rifle team competition, revolver team competition, individual double shot at running deer, J. Gould's victory in court tennis competition, throwing the hammer, 1500 meter flat race, throwing the discus and putting the weight.

The Swedish points were scored by wins in the team and individual competitions of running deer and throwing the javelin; Norway the team and individual rifle shooting at 300 meters; Canada the individual competition at clay birds; France the 2,000 kilometer tandem cycle race; Belgium the individual revolver competition, and Italy team gymnastic competition.

As the summer section of the games will continue until October 19, and will include yachting, the Olympic regatta and figure skating, and as there will be a winter section to include Rugby and association football, lacrosse and boxing, it will be the end of the year before the trophy for the championship in all sports can be awarded. If this method of counting points is admitted by the British Olympic association, England will win the trophy, for there are few countries taking part in these sports outside the Stadium. The American athletic team which is devoting its attention to the events within the Stadium,

however, is not accepting this interpretation. James E. Sullivan, president of the Amateur Athletic union, and United States commissioner to the Olympic games, said to the Associated Press tonight:

"We came here as we went to Paris and Athens, with a field team, and are making a fight in the field events, caring nothing for the other sports. We asked that the championship trophy be put up for the field sports separately but this request was not agreed to. So we will simply take the score in the field events, counting first five points; second three points and third one point and figure out the American score on this basis."

Under the American system, the score as it stands tonight is as follows:

American throwing the hammer 8, team race, 2; discus, 9; putting the shot 6; 1,500 meter race, 5; total 31; United Kingdom—Team race, 5; putting the shot, 2; 1,500 meter race, 4; meter walk, 3; total, 29; Sweden, 5; Greece, 2; Canada, 1; Australia, 1; Norway, 1.

Commissioner Sullivan has received a reply to the letter which he sent to Lord Desborough, chairman of the British Olympic association, protesting against center rules governing the contests and referring to other matters in connection with the games. In his reply, Lord Desborough opens with an apology to the Americans for the failure to use a single American flag in the decoration of the Stadium on the opening day. The omission to do so, he says, has since been remedied. He then takes up the complaint of the Americans regarding the conduct of the sports. The question of the pole vault was referred to the Amateur Athletic association, which decided not to allow the Americans to dig a hole for the pole, but acceded to the request to have pits filled with sand for landing on.

With regard to the question of heat drawings, Lord Desborough pointed out in his letter that the drawing had already been made in the various heats and could not be altered, although this had not been asked for. The athletic association, he said, had invited the American committee to have a man in the arena during the progress of the events in which America was interested and Mr. Halpin, America's manager, had been appointed to this position.

After reading Lord Desborough's letter, Commissioner Sullivan replied that if the drawings were already made the Americans would like to see them before the day on which the events were to be contested, a favor which had not been accorded them.

In addition to the weight putting, the 400 meter swim and the 1,000 meter cycle race and discus throw, a number of preliminaries in other events were held today. These included the second heat of the 100 kilometer cycle race, two heats of the ten mile walk, two heats in the second round of the two meters breast stroke, the fifth heat of the fancy driving, in which H. C. Grote of the Missouri Athletic club got second, and seven heats of the 100 meter back stroke swimming in which A. M. Goessling, of the Missouri Athletic club, the only American entered, was beaten in the sixth heat.

It was cold all day, the rain falling heavily from early morning until after the last event had been decided. The competitors and officials who had to be in the field were dripping with water all day long and the whole scene was at all as cheerless as could be imagined. The stands and course were deserted and later in the afternoon the running track resembled a canal. All the 25 masts displays which were the features of the previous days had to be cut off and even the band did not make its appearance to dispel the gloom.

HAD A MANAGEMENT HELD RESPONSIBLE FOR FAILURE
London, July 17.—The unfortunate circumstances which have made this year's Olympic games a failure, so far as the general public is concerned, is openly stigmatized by the newspapers as bad management and lack of proper organization.

The newspapers team with suggestions for attracting the public, but as the management is divided between the directors of the Franco-British exhibition and the Olympic council, there is little chance of any effective remedy being adopted before it is too late to save the situation.

It was rumored last night that Tom Longhat, the Canadian Indian runner, had met with an accident while training, which would prevent him from competing in the Marathon race which is to be run on July 24.

It is a revelation to people, the severe cases of lung trouble that have been cured by Foley's Honey and Tar. It not only stops the cough but heals and strengthens the lungs. L. M. Ruggles, Reasnor, Iowa, writes: "The doctors said I had consumption, and I got no better until I took Foley's Honey and Tar. It stopped the hemorrhages and pain in my lungs and they are now as sound as a bullet." J. H. O'Reilly and Co.

VICTIM OF OIL FIRE SUCCEUMBS TO BURNS

Santa Barbara, Cal., July 16.—The fire which has been raging in the Santa Barbara oil fields since Tuesday was finally controlled today. The large pumping plant of the Union Oil company which it was believed last night would be saved, was destroyed today. Many tanks exploded and thousands of barrels of oil fed the flames.

The fire cost two lives and a monetary loss estimated at \$150,000. L. L. Stevens, who was burned by blasting oil, died today as a result of his injuries. Portions of the skeleton of Frank Curtis, who fell into one of the burning tanks yesterday and was incinerated was found today.

MADAME DEAN'S FRENCH FEMALE PILLS.
A Pure, Certain Remedy for Dyspepsia, Constipation, BILIOUSNESS, HEADACHE, Dizziness, Indigestion, Nervousness, etc. Sold in all drug stores.

Sold in Albuquerque by J. H. O'Reilly.

TEAL POND MYSTERY STILL UNSOLVED

Police Now Inclined to Theory That Dead Girl May Have Been Killed by Reckless Chauffeur.

(By Morning Journal Special Leased Wire.) Troy, N. Y., July 16.—That Hazel Drew came to her death as a result of an accident instead of being a victim of a foul and deliberate murder is one of the theories put forth tonight as a possible solution of the Teal pond mystery. After five days of careful investigation in the many theories which have been advanced a motive for the murder is lacking. Nothing has been learned that would warrant the authorities in making an arrest in connection with the crime. This being the case the accident theory is advanced. The macadam road between Troy and Avonhill park is popular with automobilists. A reckless chauffeur speeding along at night may have struck the girl with his car, causing her death. Rather than face the consequences and knowing the country well, it would have been a comparatively easy matter to have taken the girl in the car up the lonely road toward Taborton and to have thrown her body into the mill pond. To give color to a suicide theory, the hat and gloves were left on the bank. Through a postal card received at the Drew home from New Carlisle, Ohio, on the day of Hazel's funeral, addressed to the dead girl and signed Carrie Weaver, it was learned today that Hazel and Carrie were good friends, and that they went to New York together to spend memorial day. Miss Weaver is employed in the household of a Mr. Green, a professor in the Rensselaer Polytechnic institute.

ANDREWS PATCHES BUSTED FENCE

Feared Repairs Will Not Stand the Strain However; Water Question Again Before People of Taos Valley.

(Special Correspondence Morning Journal.) Taos, N. M., July 14.—Delegated to Congress W. H. Andrews arrived in Taos this evening to make a few repairs in some of his broken-down political fences in this county. The repairs, however, it is said, have not been executed in the most workmanlike manner and may not stand the strain that is expected to be placed on them this campaign. Mr. Andrews was met at the station at Servilleta, on the Denver & Rio Grande road, by Dum's livery team which conveyed the delegate to the bridge over the Rio Grande where he was met by Territorial Senator M. Martinez, Drs. T. B. Hart and I. N. Woodman. After a lunch the party drove on to Taos, where many people had gathered to do honor to the delegate. The small boys were particularly in evidence with a few fireworks they had saved over from the safe and safe-fourth. In the evening a reception was held in the court house. Mr. Andrews will spend Wednesday in Taos to watch and see that none of the rails are pulled off the fence.

The water question has again come before the people of the valley in which Taos is situated. The rules governing the use of water for irrigation are far from perfect and some new comers have found it difficult to obtain water. It is alleged, unless certain quiet formalities are gone through with the water boss, in fact some have not had any water for their crops. One of the three water commissioners, who, it is said, did not go through the proper preliminaries, cut the ditch Monday and used some of the water. The mayordomo had him arrested and fined the latter. The other commissioners have demanded the resignation of the boss, which he has refused to come through with.

RAILROAD MAGNATES IN RATE CONFERENCE

New York, July 16.—The presidents of eastern trunk lines met today to discuss the question whether there shall be an increase in freight rates. It is understood that the conference discussed raising freight rates 10 per cent, or the alternative of reducing wages 10 per cent.

It was reported that E. H. Harriman was opposed to a cut in wages, while the representatives of several other lines favored that course rather than an increase in rates.

DIARRHOEA

There is no need of anyone suffering long with this disease, for to effect a quick cure it is only necessary to take a few doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy.

In fact, in most cases one dose is sufficient. It never fails and can be relied upon in the most severe and dangerous cases. It is equally valuable for children and is the means of saving the lives of many children each year. In the world's history no medicine has ever met with greater success.

FREIGHT RATES MAY REMAIN UNCHANGED

MAGNATES DIVIDED ON PROPOSED INCREASE

Conference in New York Holds All Day Discussion on Subject Without Tangible Result; Shippers Hostile.

(By Morning Journal Special Leased Wire.) New York, July 16.—A conference of railroad presidents extended through long morning and afternoon sessions today at the offices of the Frunk Line association here, on the subject of the proposed raising of freight rates. Considerable divergence of opinion appeared in the discussion as to the policy of raising the scheduled rates at the present time, owing to the dullness of trade and the opposition that has been already displayed on the part of the shippers to the proposed increase. On the one hand, it was argued, the necessities of the railroads were urgent, and while strict economies are being practiced in working expenses, reduction of wages on a large scale has not been resorted to. On the other hand, the effect of raising the rates before any marked improvement in general freight traffic has set in may be to retard the flow of rising business that is expected with the fall. This consideration appeals more strongly to the eastern lines than to the western, which can rely on the usual shipment of fruit and grain. It was reported that officers of the Pennsylvania company, who had hitherto advocated an early raising of the scheduled rates, have now changed their opinion in the matter, and together with the Lackawanna, Reading and Lehigh valley are opposed to an immediate advance, and in this attitude were decidedly at variance with the policy advocated by Mr. Harriman and the lines allied with him.

The discussion brought out very clearly the fact that a great difference of opinion exists among the railway authorities themselves on the question whether rates shall be increased or not. The matter of reduction of wages was not discussed. At the close of the conference a statement was given out by Mr. McKain, the secretary of the association, as follows:

"The question of an advance in freight rates was discussed at length, and reports from the committee having in charge the checking of rates were considered, but it was found that this work had not progressed to such a point as to make definite action practicable at this time."

Asked whether this indicated a decision not to raise rates, Mr. McKain was noncommittal, nor would he confirm or deny the report of any controversy in the conference over the proposed increase. No date was set for another meeting.

President Delano, of the Wabash tonight confirmed Mr. McKain's statement that no definite action was taken at the meeting. The principal obstacles that stand in the way of a general and horizontal increase, he said, are state laws and local conditions.

Asked if there was any possibility of the trunk lines abandoning their intention of making radical increases, Mr. Delano replied:

"No; increases will be made on many classes and commodities, and that before very long."

BONI SEEKS RETURN OF CHILDREN

Count Claims His Successor is Unfit Person to Have Charge of Castellane Offspring.

(By Morning Journal Special Leased Wire.) Paris, July 16.—Count Boni de Castellane today formally filed suit for revision of the decree of divorce granted against him by his wife, who was Miss Anna Gould, of New York, as will give him custody of his three children. The hearing has been set for July 27.

The principal ground set forth by Count Boni is that the past record of Prince de Sagan marks him as unworthy to be in close relationship to the children. The conduct of the princess in traveling with the prince prior to the marriage of the pair also is invoked. If allowed to remain with the Sigans, the summons declares, the children will be brought up to dislike their father. As a corollary, the count asks the court to order the mother of the children to contribute \$20,000 annually toward the maintenance of each child.

M. Cachard, attorney for the Princess de Sagan, had this comment to make, "Count Boni's modest request for \$20,000 a year is a sufficient commentary upon this suit."

M. Cachard anticipates a long legal fight, but he is convinced that the princess will win. As much time will be required to prepare the case, it probably will not be argued before the fall term of the court.

DRAG GAINS DOUBTFUL SUPPORT

ANTI-IMPERIALISTS DECLARE AGAINST TAFT

Boston Organization Working for Independence of Filipinos Decides to Push Candidacy of Commoner.

[By Morning Journal Special Leased Wire.] Boston, July 16.—The executive committee of the anti-imperialist league issued a statement today recommending that friends of the league withhold their votes from William H. Taft for president and support W. J. Bryan. The statement says:

"We believe in the declaration of independence. Its truths are not less evident today than when first announced by our fathers, are of universal application and can not be abandoned while government by the people endures.

"We believe in the constitution of the United States. It gives the president and congress certain limited powers and secures to every man within the jurisdiction of our government certain essential rights. We deny that either the president or congress can govern any person anywhere outside the constitution.

"Because we thus believe we recommend our friends and fellow citizens to withhold their votes from W. H. Taft, who stands upon the republican platform which denies independence to the Philippine Islands and looks to local home rule as the only goal to be attained.

"So long as these islands are held in possession in defiance of the principles of the declaration of independence and without constitutional authority, the United States is pledged to the tremendous task of fortifying them and their defense in time of war while they remain a continuous menace to American labor and American industry.

"Though other ways of opposing the attitude of Mr. Taft may be welcomed it is obvious that direct support of Mr. Bryan is an effective means of bucking imperialism, because of his sincerity and his earnest purpose to secure to the Filipinos their independence and because he stands upon a platform which meets upon this vital issue our unqualified approval.

"We recommend to our members and to the members of allied leagues and to our friends generally that they, preserving the independence of the movement, take the most active part in the pending political campaign and in particular in their respective districts vote and work for the candidates for congress who will oppose the policy of imperialism.

(Signed) "ANTI-IMPERIALIST LEAGUE. Per. Executive Committee, Irving Winslow, Secretary.

PLAN FOR MILLION DOLLAR COPPER COMPANY

Comanche Company to Be Taken From Receiver's Hands and Consolidated With Copper Gulf; Capital \$1,500,000

[Special Dispatch to the Morning Journal.] Boston, Mass., July 16.—The final details for one of the biggest mining deals ever negotiated in the southwest have been perfected here, by which there is effected a consolidation of the Comanche Mining and Smelting company and the Copper Gulf Mining company, both owning and operating large and valuable mineral properties near Silver City, N. M. For some time past the Comanche company has been in the hands of a receiver, its stock being quoted at from three to five cents. The new concern to be known as the Maquon Copper company, is to be organized with a capitalization of two million dollars in ten dollar shares. Of these the present stockholders in the Comanche company will have the right to take one share for each 100 now owned, upon payment of ten cents per share of their present holding. The Comanche company being deeply in debt.

DRASTIC STEPS TO PREVENT BETTING

RACE TRACK PATRONS SEIZED BY SCORES

Victims of Police Activity in New York Searched in Public and Taken Handcuffed Through Crowded Stands.

[By Morning Journal Special Leased Wire.] New York, July 16.—There were exciting scenes at the Brighton Beach race track today, resulting from the tactics of the police in their determination to run down and round up the track gamblers. Arrests were made right and left by plain clothes detectives detailed to the track in place of the uniformed squad that has been on duty there. The crowd of five thousand in the field and in the stands was wrought up to a high pitch of excitement when detectives not only took a score or more of suspects into custody, but proceeded to search some of them in full view of the spectators. There were no demonstrations against the officers, and their work was accompanied by nothing more serious than outspoken remarks of disapproval at the treatment accorded the prisoners, some of whom were brought handcuffed from the field through the grand stand. It had been hinted before the afternoon's racing began that extreme measures would be taken, even to the extent of closing the track, if the anti-betting law was flagrantly violated, or if there were any riotous demonstrations. The behavior of the crowd in general was excellent, however, and no radical action was deemed necessary.

Some of the men arrested on the track were released after being escorted out of the grounds. Eight men, however, were taken to Brooklyn police headquarters, and afterward released on bail for a hearing tomorrow morning.

Grand jury investigation of conditions at the track is proceeding, and District Attorney Elder, of Kings county, said today that within twenty-four hours he expected indictments of important persons in connection with the alleged violations of the anti-betting law.

LULL FOLLOWS WAR IN PERSIA

Commander of Royal Forces Grants Truce While Rebels Sue for Amnesty From Shah.

[By Morning Journal Special Leased Wire.] London, July 16.—A special dispatch from Tabriz to the Times says that there was a lull in hostilities in that city on Thursday, owing to the earnest endeavors of the city elders to obtain amnesty from the shah. Raahin Khan, the commander of the troops, acquiesced in these negotiations, but the reactionary leaders control the telegraphic lines to the shah and are seeking to wreck the negotiations.

The Times correspondent described the situation in detail. After a visit to Sata Khan, the leader of the constitutionalists, who holds two of the twelve quarters of the town, he says that the tactical advantages are with Sata Khan so long as food and ammunition hold out. The latter, who is a keen, resolute and highly strong man, with much personal magnetism, declared that the quarrel of the constitutionalists is not with the shah, but with the local ecclesiastics who have counseled the shah to reinstitute despotic government.

BLACKLIST AND BOYCOTT TWIN DANGERS TO NATION

Justice Brewer Declares Both Practices Equally Obnoxious.

Milwaukee, Wis., July 16.—That the blacklist and boycott are alike and equally damnable was the sentiment expressed by Justice David J. Brewer of the United States supreme court in an address before a large number of agents of the Northwestern Mutual Life Insurance company in this city this morning.

The foundation upon which all government, of and by and for the people must rest, is our declaration of independence. He believed this government will only surely endure as we hold fast to these principles as laid down in this wonderful document. But, he said, when any body of men say "you must join this organization or you can not be permitted to work anywhere," that organization is an enemy to personal liberty, and such conduct is disgraceful. The truth is that the blacklist and boycott, the use of which prevents men from getting employment, he said, are alike and equally damnable, and when practiced endanger the future and glory of the republic.

USE ALLEN'S FOOT-EASE.

A powder to be shaken into the shoes. Your feet feel swollen, nervous and damp, and get tired easily. If you have aching feet, try Allen's Foot-Ease. It rests the feet and makes new or tight shoes easy. Cures itching, swollen, sweating feet, blisters and callous spots. Relieves Catarrhs, corns and bunions of all kinds and gives rest and comfort. Try it to-day. Sold by all Druggists and Shoe Stores, etc. Don't accept any substitute. Trial package FREE. Address: Allen & Olmsted, Le Roy, N. Y.

DECLARES ESTATE WAS IMPROPERLY ADMINISTERED

Sensational Suit in the District Court Brought Against Wealthy Sheep Man and Land Owner.

Jacob Morris Barth and Julia Barth McMahon, children of Morris Barth, deceased, yesterday afternoon filed a suit against their uncle, Nathan Barth, a wealthy sheep and land owner of Arizona, who makes his residence in this city. The suit was filed by Ferguson and Cross of this city, who are acting as counsel for Walker and Fitzgerald, a law firm of Grand Rapids, Mich., who are attorneys for the plaintiffs. The complaint is a lengthy document and contains a number of sensational allegations. The complaint states that the plaintiffs are the children of Morris Barth and Perfecta Barth, both of whom are now deceased; that the said Morris Barth was duly appointed administrator and executor of the estate of his brother, and delivered his bond as such administrator to the court in the sum of \$50,000, agreeing to faithfully execute and perform the duties of his said trust as administrator of the said estate.

It is further alleged that upon the execution and delivery of the said bond, the defendant took possession and control of all the personal property of the estate of Morris Barth, and that during the time he acted as said administrator he collected large sums of money belonging to the deceased, amounting to more than fifty thousand dollars, and also took possession of large amounts of personal property, valued at \$10,000 or more, and that he also collected a life insurance policy of \$10,000 upon the life of Morris Barth, deceased. Some of the allegations of the complaint are: That the defendant was later discharged as administrator. The complaint goes on to state at much length that the plaintiffs at the time their father died, were minors of tender years, and that the defendant took advantage of this fact, and has at no time given them any financial aid, which should have been given out of the estate. It is also charged that all of the money and property belonging to the estate which came into Nathan Barth's hands as administrator of the estate was unlawfully and feloniously converted to his own use. The complaint also alleges that although according to the law of Arizona, governing such cases, the defendant was required to file with the probate court a report of his duties as administrator of the estate, he failed to make any such report or acknowledgment of the estate; that the complainants have been unable to find any such report on file in the office of the probate court in Apache county. The complaint alleges that the plaintiffs were not aware of the fact that their father or left an estate, which was theirs on account of being his heirs, until August, 1907, having received no notice from the defendant that he was the controller of the said estate. In view of these allegations, the plaintiffs ask that the court issue an order against the defendant, restraining him from selling, conveying, deeding or transferring in any way, any of his real or personal property, subject to execution until the determination of the case in court, or until the further order of the court.

It is further asked that the defendant be required to render a full, true and perfect account of the estate in question, its goods, chattels, money and effects of every name and nature whatsoever during all the time he was administrator of the estate, together with the life insurance of said deceased, in order that the rights and interests of the complainants be determined. A decree of the court is also asked, after the accounting of the estate has been made, requiring the defendant to pay the plaintiffs, what, if anything, may be due them, from the estate.

WAR AGAINST CONSUMPTION

All nations are endeavoring to check the ravages of consumption, the "white plague" that claims so many victims each year. Foley's Honey and Tar cures coughs and colds perfectly and you are in no danger of consumption. Do not risk your health by taking some unknown preparation when Foley's Honey and Tar is safe and certain in results. J. H. O'Reilly & Co.

GUNBOATS ORDERED TO HAYTI AND HONDURAS

Washington, July 16.—In view of the unsettled condition at Porto Cortez, Honduras, and the revolutionary movement there, the navy department has ordered the gunboat Marietta, now at Port Antonio, Jamaica, to proceed there without delay. Captain Maxwell is under instructions to investigate and report on the situation. After a conference between Acting Secretary Newberry, of the navy, and Acting Secretary State Bacon, today, it was announced the gunboat Paducah would be ordered immediately from Guantanamo to Port Au Prince, Hayti, to remain there a short time.

DELICIOUS COFFEE AND TEA

You can't possibly make good coffee from an inferior brand. Crystal coffee, at 30 cents per pound, we confidently believe, is the best brand ever sold in Albuquerque.

BEAUTIFUL COVER FOR CONGRESS SOUVENIR

SPLENDID BOOK TO COST \$15,000 WHEN COMPLETED

Will Contain 250 Pages of Matter Relative to Irrigation and Development of Great Southwest.

Francisco Vasquez de Coronado, Hernando Alvarado, the Fray Marquis de Nica and a sinewy, bronze-hued Indian, gazing out through an old mission arch at the modern Albuquerque, surrounded by prosperous irrigated farms, is the scene depicted on the cover of the official souvenir of the Sixteenth National Irrigation congress now being compiled by Col. R. E. Twitchell, secretary of the board of control of the irrigation congress and exposition. The completed cover design was received yesterday by Colonel Twitchell from the Denver engraving house which is now working on the plates for the cover.

The design is a most beautiful and artistic production in four or five colors and has been viewed with the greatest admiration by those who have seen it. In large lettering at the top are the words, "Sixteenth National Irrigation Congress." Directly below are two shields, the one showing a miniature view of the cactus-grown desert, the other showing an irrigated field. Beneath the design are the words, "1542—The Vision—1908."

A decorated Indian olla adds the finishing touch to the group under the mission arch. The Spanish costumes being executed with great fidelity and the coloring of the whole showing the touch of a master hand. At the bottom of the cover are the words, "Official Southwestern Souvenir, Albuquerque, New Mexico, U. S. A." The design is the more appropriate from the fact that Coronado himself spent Easter day in the year 1542 in the city of Albuquerque, and looked undoubtedly on the very spot where now rise the walls of the convention hall in which the sessions of the great congress will be held.

Through the mission arches, drawn with accurate detail, one glimpses a view of Central avenue of today, with prosperous, fertile, irrigated meadows in the distance and the whole with a background of mountains. The cover alone will make this souvenir well worth having.

The nature of the book has been touched upon previously. It will contain 150 pages, the matter mainly dealing with the progress of irrigation and the development of the resources of the great southwest. Some of the most distinguished men in the nation are contributors. It will be splendidly illustrated and the cost of the whole is \$15,000, secured entirely by Colonel Twitchell by subscription from all localities in the territory and southwest, with advertisements secured from the railroads, great industrial corporations and other concerns.

HELP FOR THOSE WHO HAVE STOMACH TROUBLE

After doctoring for about twelve years for a bad stomach trouble, and spending nearly five hundred dollars for medicine and doctor's fees, I purchased Foley's Stomach and Liver Tablets, which did her so much good that she continued to use them and they have done her more good than all of the medicine I bought before.—SAMUEL ROYER, Folsom, Iowa. This medicine is for sale by all druggists. Samples free.

FINANCE AND COMMERCE

Wall Street.

New York, July 16.—The movement to take profits in stocks which developed yesterday was extended for a time in today's stock market. This process of digestion of profits caused an irregular price movement and unsettled the tone to a degree. The industrial stocks and specialties, some of them of a lower grade, received the greatest share of the day's new buying orders while issues which have figured hitherto in the strength of the market were subjected to profit taking. No strictly new factors were introduced into the situation. It became manifest early after the financial storm of last October that the resulting shrinkage in the export trade was being outstripped by the curtailments of imports, so that the excess value of exports from month to month was greater than in the corresponding period of the year before. For the completed year the trade balance in our favor has reached \$666,457,103, which is \$229,927,450 greater than in the preceding year and establishes a record for that time. The shrinkage in the twelve months of \$240,629,431 in imports points clearly to the prime cause of this showing and throws light on the comparative moderation of the reflux of gold in the movement which has followed the \$100,000,000 import of that metal last fall. Less than half of that amount has been reshipped. The June figures show with equal clearness that a shift has occurred in these tendencies. The large decrease in value of imports compared with last year is exceeded by \$22,344,000 decrease in exports. Not since October of 1907, has the falling off in exports exceeded that in imports. The loss in export value during the month is traceable to manufacturer, the decrease in agricultural products having been less than \$3,000,000 for the month. The month's exports were in fact the smallest since September 1907, before the financial panic started the rush of our commodities to foreign markets, while the value of imports is the largest for any month of the present calendar year. It may be accepted that these later changes indicate a readjustment to serve normal conditions in the international trade such as has been going on in the domestic trade situation. Additional testimony to this readjustment is received daily in the financial district, that the form of published interviews from prominent capitalists and expressed in general terms receiving the amount of attention. That for today coming from the executive head of the Amalgamated Copper company, implied a rather striking exception in the case of that metal from the cheerful views he expressed of conditions elsewhere. The fact was seen in the early reactionary tone in the copper group. Government disbursement have so far offset the withdrawal of government deposits from the bank that the net absorption by the treasury thus far this week amounts to only \$1,295,000. The call money market was unaffected by the payment today of 25 per cent of the subscriptions to the Union Pacific bonds, calling for some \$24,000,000. The timor market, however, was strong in tone. The day's changes were small for the most part with gains and losses mixed. Closing stocks:

The Metals.

New York, July 16.—Copper was 1 1/2 and lower in London, closing at 157, 12s. 6d for spot and 158, 6s. 3d for futures. No change occurred locally, lake closing at \$12.75@13.75; electrolytic at \$12.50@12.75 and cast at \$12.37 1/2@12.50. Lead declined 2c, 6d in London to 112, 17s. 6d and remained unchanged in New York at \$4.40@4.45. Spelter was unchanged in both markets, closing at 119 in London and at \$4.45@4.50 locally. Mexican dollars 45c.

New Orleans Cotton.

New Orleans, La., July 16.—Cotton—Spots were quiet 1-1-16 down on all grades; middling 10 1/2c.

St. Louis Wool.

St. Louis, July 16.—Wool—Firm; medium grades, combing and clothing 16@20; light fine 16@18 1/2; heavy fine 11@12; tub washed 20@27.

New York Cotton.

New York, July 16.—Cotton—Futures opened barely steady at a decline of 18 points and closed steady at a net loss of 8@11 points.

Chicago Board of Trade.

Chicago, July 16.—Improved demand for cash wheat by millers and exporters caused a two cent advance in wheat on the local exchange today. At the close the September delivery showed a net gain of 11-8. Corn was up 1/4. Oats were 1/4@3/8 higher and provisions 12 1/2@30 cents higher.

The close on wheat was strong with prices almost at the highest point of the day. September opened 1/4@1/2 lower to 1/4 higher and sold to 91 1/2. The close was at 91 1/2.

The corn market was rather weak early in the day. The market closed strong at nearly the top price. September opened 1/4@1/2 higher at 74 1/2 to 74 1/2, sold off to 74 and then advanced to 75 1/2. The close was at 75 1/2.

Oats were weak at the outset because of rain and colder weather in

the northwest but became firm toward the end of the session. September opened 1/4 to 1/2 lower at 42 1/2 and closed at 42 1/2.

Provisions were strong on buying by local packers. At the close September pork was up 30 cents at \$14.20; lard was up 12 1/2 cents at \$9.12 1/2. Ribs were up 12 1/2 cents at \$9.00.

THE NAVAJO INDIANS NEVER MORE PEACEABLE

AGENT AT FORT DEFIANCE DENIES WARPATH RUMORS

Redskins Attending Quietly to Their Flocks Like Gentlemen and No Uneasiness Exists.

That the mobilization of a large body of cavalry and infantry with a galling gun platoon on the Navajo reservation is merely in the nature of a practice campaign and that there is no danger whatever of an uprising among the Indians is indicated by the following communication received by the Morning Journal from the superintendent at the Fort Defiance agency on the reservation:

Department of the Interior, United States Indian Service, Navajo Indian Agency.

Fort Defiance, Ariz., July 14, 1908. Albuquerque, Morning Journal, Albuquerque, N. M.

Sirs: In your paper on the 11th instant I saw a dispatch from Bisbee, Ariz., stating that there was considerable trouble among the Navajo Indians on their reservation.

I wish to state that in my opinion the Navajo Indians never were more peaceable nor attending more strictly to their flocks and fields than at the present time, and so far as I know there is no uneasiness or unrest among any of them. I shall thank you to give these statements or sentiments the same publicity that was given to the dispatch announcing the uprising among the Navajos.

Very respectfully,
W. H. HARRISON,
Superintendent.

SIX COMPANIES LEAVE GALLUP FOR RESERVATION

An arrival in this city from Gallup yesterday reported that six companies of regulars had arrived there with eighteen loads of provisions, and left yesterday for the Navajo reservation. These are understood to be the soldiers from Fort Huachuca, Ariz., who are to form part of the body moving through the reservation.

FATHER ANSELM WEBER DENIES ALARMIST FAKES

"I have seen the statements in the newspapers of an uprising in the Navajo reservation," said Rev. Father Anselm Weber, of St. Michaels, Ariz., last night. Father Weber was here for a short time on his way to Cincinnati and other eastern points. He is stationed very near Fort Defiance, and is thoroughly familiar with conditions on every part of the Navajo reservation.

"There has been no uprising on the reservation," said Father Weber. "There is not going to be any uprising and the statements thus far published are simply the imaginations of unreliable or misinformed correspondents. I have seen or heard nothing of any trouble with the Indians. The march of the detachment of regular troops is simply a field drill, and for the purpose of making records of the topography of the country. The Navajos are as quiet and peaceful as they have ever been."

MESA AND TEMPE TO HAVE DISPLAYS

Salt River Valley Towns in Arizona Taking Steps Toward Exhibits at National Irrigation Congress.

The indications are that the Salt River valley of Arizona will carry off some of the blue ribbons at the coming irrigation congress and exposition here. The Phoenix Republican says: Dr. A. J. Chandler, president of the Mesa chamber of commerce, has appointed a committee of three to act in conjunction with similar committees from the Phoenix board of trade and the Tempe board of trade, in the collection and preparation of a fine representative exhibit of the agricultural products of Maricopa county, which will be placed in the Arizona section at the National Irrigation congress, to assemble in Albuquerque, N. M., this fall.

Aside from this work, which has been assigned to the committee, a special exhibit, characteristic of Mesa and vicinity, will be gotten together for display at the board of trade rooms in Phoenix, where a section will be reserved for the Mesa products. While Secretary Cowgill was in Mesa last week, he stated to the members of the chamber of commerce that he would give his personal attention to the labeling and preservation of such samples and exhibits as may be sent to the Phoenix board from here.

The members of the committee appointed by the president of the chamber of commerce, to act in the capacity of collecting and taking charge of the exhibits for the National Irrigation congress are: J. W. Hagerlund, Dr. R. F. Palmer and Charles F. Jones.

PETITIONERS ASK FOR EXTENSION OF SEWER

Board of County Commissioners Promises Residents of Old Albuquerque Improvements in Drainage System.

At a meeting of the board of county commissioners on Thursday, Nestor Montoya, a resident of Old Town, appeared before the board and presented a petition signed by citizens of the same asking that the sewer pipe being laid by the county on Trimble avenue, running from West Central be extended from the intended point of outlet on the open ditch running to the river, which had been fixed at 300 feet from Central, further south, consistent with proper sanitary safeguards in that vicinity. The commissioners present, Mr. Manuel R. Springer, acting chairman, and Mr. Policarpo Armiijo, Mr. Grunfeld being in New York, after obtaining necessary information from County Surveyor Pitt Ross sustained the petition inasmuch as present means at hand would allow, ordering the sewage pipe extended three hundred feet more to an outlet in a straight ditch, with proper fall, which is being built by the county under the supervision of County Engineer Ross to the river. This will be kept clean and free from obstructions so that the sewage will be carried freely. At the same time, at the outlet, the board ordered that disinfectants be used at proper intervals so as to keep the whole clean and in a sanitary condition. Furthermore, the board assured the petitioners, through Mr. Montoya, that, as means would allow, a further extension of the sewage pipe would be made until carried a sufficient distance toward the river.

The petition follows:

Albuquerque, N. M., July 14, 1908. To the Honorable Board of County Commissioners of Bernalillo County.

Sirs: The undersigned residents of Old Albuquerque on extreme West Central avenue, near the court house, and jail, petition your body that in the proposed rearrangement of the sewer system for the court house and jail which will be carried into effect soon, as we understand, the sewers be extended from their present outlet on the Trimble pasture ditch which is in close proximity to a great number of residences in the old town, in the section of the same above mentioned, to a safe point, on the same ditch, but further south, to be determined by the board, in conjunction with the county health officer or county physician, to safeguard the health and sanitary conditions of the residents there and their families. We appeal to the board, to the city and county sanitary officers and to the press to point out this evil and avoid thereby sickness and contagion in time by extending the sewer piping, if possible, to the river, but if not, at least to a safe distance to be determined as above pointed out. The work has not been done yet and there is time to modify it in accordance with our humane and just petition.

MILWAUKEE MEN IN NEW CONCERN

Secret Conference of Promoters of New Mexico Copper Properties Held in the Wisconsin City.

Valuable copper properties in the Burro mountains of this territory are to be developed by a strong northern company, according to the following, which appeared recently in a Milwaukee newspaper:

The formation of one of the largest copper mining propositions yet organized in Wisconsin, is at present under way in Milwaukee, as the result of a conference, which has been in session here secretly for several days, between large holders of the once famous Comanche Mining company and of the Copper Gulf Mining company, whose properties are located in the Burro mountains of New Mexico.

The plan is to form a big copper mining corporation with a paid up capital stock of \$2,000,000, the holdings in which will be largely in the hands of the stockholders of the two companies mentioned. The work of organization is in the hands of Messrs. Hoagland and Patridge, of Duluth, Minn.; Attorney Haskell, of Arizona, who represents the Calumet and Arizona company, and Trustee Wayne, of the Copper Gulf company.

Holders of Comanche who present their stock, with 10 cents a share, will receive stock in the new corporation to the aggregate of 50,000 shares; holders of the Copper Gulf will receive a like number of shares by surrender of their present stock. This will leave 50,000 shares in the treasury for future disposition. No

The Albuquerque Morning Journal

Published by the Journal Publishing Co.

D. A. MACPHERSON, President; W. H. BURKE, Editor; H. B. HENNING, City Editor; D. S. BOUCHER, Business Manager.

Entered as second class matter at the postoffice at Albuquerque, N. M., under no. 107, on August 1, 1893.

The Morning Journal is the leading Republican paper of New Mexico, supporting the principles of the Republican Party all the time, and the methods of the Republican Party when they are right.

Larger circulation than any other paper in New Mexico. An average of 4,461 copies issued every day in the year.

The Morning Journal has a higher circulation record than is recorded by any other paper in Albuquerque or any other daily in New Mexico.

SWORN CIRCULATION. Territory of New Mexico, County of Bernalillo—D. S. Boucher, appearing before me, declares and says that he is business manager of the Journal Publishing Company of Albuquerque, New Mexico, and that during the month of April, 1908, an average of 4,461 copies of the Albuquerque Morning Journal were printed and circulated each day.

Notary Public. H. N. PACKERT.

TERMS OF SUBSCRIPTION. Daily, by carrier, one month, \$1.00; by mail, one month, \$0.75.

ALBUQUERQUE - NEW MEXICO

THE EVIDENCE OF IT.

It is not necessary to go out of the city of Albuquerque and the county of Bernalillo to find ample evidence of the extreme weakness of W. H. Andrews as a candidate for congress; evidence that should convince every thoughtful republican in New Mexico of the utter folly of nominating him.

Much has been said and is being said by supporters of Andrews of the work he did in securing an appropriation of \$30,000 for the use of the sixteenth National Irrigation congress and the effort has been to create the impression outside of Albuquerque that because of this appropriation Bernalillo county would immediately fall into an enthusiastic line-up for Andrews. There is no disposition to question the very excellent work Andrews did in securing the appropriation for the congress; although the claim that he did it alone and unaided is a little silly in view of the presence in Washington during the more serious stages of the effort of the governor of New Mexico, who, while he claims no credit, did his full share of the work, as did the chairman and secretary of the congress committee and other New Mexico business men who were called on to aid in the effort. And while there is no disposition, as has been said, to take away from Mr. Andrews any of the credit due him for what he did in this connection, and while he actually has been given full credit for the work, it is needless for republicans to blind themselves to actual conditions, and it is useless for the Andrews supporters to seek to blind the people to the condition as it exists here. This newspaper was as grateful to Mr. Andrews for what he did in connection with the irrigation congress appropriation as was any citizen. Yet what happened upon the delegate's return here, after the clamor about the need for showing our gratitude to him, had been worked up to its highest pitch by a faithful and industrious press? He was given a reception in the Commercial club. It was a quiet gathering of a few business men and a few citizens from country districts. It was in no sense an outpouring of the people; it was as cold and unympathetic a reception as was ever tendered a public man here. The plain, cold fact is that Andrews can not arouse enthusiasm anywhere about anything. If he were to bring a million dollars here and scatter it loose in the streets it is doubtful if the people could be induced to shout. This is unfortunate, but true. Mr. Andrews has received a quiet, unenthusiastic gratitude for getting the appropriation for the irrigation congress. It has aroused no enthusiasm for him. It has not served to change the sentiment of the voters for him. And here is the evidence of this: Andrews' supporters and campaign workers are today industriously circulating petitions endorsing the delegate, among the people of Albuquerque and in the county.

If Andrews is strong here—if he has gained the undying gratitude of the people—if everybody is for him, why is it necessary to circulate a petition pledging him support?

This petition and the need for it is the very strongest evidence of the weakness of the man in this town and in this county.

These conditions are unpleasant, but they are true and the republicans of New Mexico, particularly those men who are charged with party leadership, have no right to blind themselves to conditions as they exist.

The Morning Journal has sought earnestly for some evidence of Andrews' enthusiasm here. There is none here. It simply does not exist. The quiet, gentlemanly gratitude referred to above, is to be found; but of enthusiasm and the kind of loyal backing that makes votes, there is none. It simply does not exist. Mr. Andrews may carry Bernalillo county as he did two years ago, by a nominal majority. He got that nominal majority by the fact that nominal parties in the county their ranking for him and

supporting him. His chances for carrying the county this year are decidedly less.

But what is needed from Bernalillo county this year is not a majority of forty-five, or two hundred. The party in New Mexico needs the full republican majority of this republican county.

If the party expects to have success it has to have that full majority. W. H. Andrews can not get it. His closest friends and supporters in this county know he can not get it. The men who are party leaders throughout New Mexico know he can not get it. The machine and the men who in view of these known conditions, will force the nomination of Andrews on the party will be assuming a very serious responsibility.

MUSIC AT THE CONGRESS.

The chairman of the committee on music for the irrigation congress has submitted his estimates of cost for the various musical features to the board of control. The total is a rather large amount; but properly expended, as it becomes apparent it will be, the amount is none too large and its expenditure will not only add materially to the general success of the congress, but it will, if wisely managed, bring in an actual revenue to the congress treasury which will more than balance the expense.

The bringing of the Mexican military band here is a distinct achievement and that organization alone will be worth much to the entertainment program.

The feature of especial interest which the committee proposes to add is a series of oratorio presentations, with well known soloists from Chicago and New York, who will sing with the congress chorus, now well organized and thoroughly drilled. To bring noted soloists here will cost money, and it is money well spent, and there is little reason to doubt that presenting oratorio for five or six nights in convention hall, with a nominal admission charge, would not only provide a feature of the very greatest interest, but would bring in a revenue more than sufficient to cover the expense.

The program of the music committee should be carried out to its last detail.

NEW MEXICO SUMMER RESORTS.

With each passing summer season comes a vast increase in the popularity of New Mexico's summer resorts; a vast increase in the number of people who no longer find it necessary to take long, hot trips through uninteresting lands to reach the seashore and the lakes.

The present season sees more New Mexicans enjoying themselves at New Mexico resorts than ever before. The woods are full of pleasure seekers, campers, kodakers, hunters, fishermen and horse-back parties. Here and there a hotel especially built for summer people, is springing up. Those with established reputation and patronage are filled to overflowing.

There is a reason for this. New Mexico presents every possibility of the mountain resort to be found in the world. The scenery is magnificent beyond compare. The pines are as majestic and their odor as invigorating as any to be found in the Maine woods. The summer climate is as nearly ideal, in these mountain regions as the heart of man can desire. There is no mountain scenery more attractive than that in the region of Cloudcroft, in the south of the upper Pecos river in the north; there are no mineral springs offering greater possibilities of development than those in the Jemez mountains. New Mexico has the making of almost every type of summer resort, save of course for the sea. It has in addition the vast advantage of a considerable range of altitudes, and in them all a summer temperature never exhaustingly hot by day nor dangerously damp and cold by night. It seems an entirely safe prophecy that within ten years more people will be coming to New Mexico summer resorts from the sea coast states east and west, than go to the sea shores from New Mexico.

THE USEFUL CARTOON.

Smarting under what he believes to have been coarse personal abuse because he was vigorously cartooned by a Philadelphia newspaper, Mayor John E. Reyburn, of that city, has brought an action against the editor and six members of the staff. Stating his reason for this course, Mayor Reyburn says: "I am not making an attack upon the freedom of the press, nor upon the press generally, but simply am trying to assuage the abuses of the privileges of public criticism which have been unfairly made."

Mayor Reyburn is no pioneer in this sort of reprisal upon the press, and there is a mass of court decisions to indicate that he will not be any more successful than his predecessors. Of course, the complainant may have unusual and distinctive cause for feeling hurt by cartoon treatment, but the chances are that he is merely thin-skinned and supersensitive. The game of politics can not be played by the man who is unwilling to take hard knocks. In the rough and tumble scramble for office with which we are only too familiar in this country, the candidate or office holder who wince and complains is in an unfortunate position.

That the cartoon has, at times, been used as a vicious weapon and has caused harm, can not be denied. Mr. Hearst has never outlined the charge that it was a cartoon in one of his newspapers that inspired the maniacal frenzy in the mind of the assassin of the lamented McKinley. In many newspapers the pens of the artists have striven to incite class hatred by outlining editorial representations of outcast labor, and often they have

shown lack of judgment or conscience in cartooning public men and events. Especially are those cartoons that systematically hound an individual by exaggeration of his faults to be condemned.

Be it said to the credit of the American newspapers, however, that the cartoon generally is a mild and good natured form of ridicule at which the victims rarely take offense. Mr. Bryan has been cartooned as much, probably, as any other living American, but he has taken it all with smiling complaisance. Indeed, Mr. Bryan realizes that cartoons, even if grotesque and unfair, are powerful factors in keeping one's personality before the people, and that is the main thing after all. The late Mark Hanna was terribly cartooned, but he always laughed at the caricatures—even the famous "dollar mark" representations. President Roosevelt and his "big stick" have been pictured so frequently that they have a place of affection in the eyes of thousands of the American people.

A man named Anderson was seriously stabbed in the back recently at the McCauley ranch near Tyrone, Grant county, with a pocket knife in the hands of Fred McCauley. The wound is serious. McCauley claims the act was in self defense. The quarrel arose over a herd of goats.

"Buffalo" Jones, superintendent of the Grand Canyon game preserve, recently shipped from Denver seven full blooded buffaloes, twenty-five "cutthroats" mixed breed, and five mountain lions in cages, snarling like demons. The remarkable shipment was consigned to Kansas City, Mo.

It is axiomatic among newspaper men that a truly big man is affable and simple and easy to approach. Your whimsical and supersensitive man is generally small and intolerant. It is said of Mr. McKinley that in his campaign for the presidency the first time, an unusually brusque cartoon, drawn by Homer Davenport, was shown him which represented him as a four-footed animal wearing a collar and chain attached to Mr. Hanna. The future president, instead of being resentful, sent for the artist and after a dinner together they became fast friends, although Mr. Davenport continued his lampooning, but without personal animosity.

Mayor Reyburn should emulate the example of these distinguished men and "grin and bear it." By commanding the respect of his tormentors he is sure some day to reap a reward. And the chances are that if he will examine his record closely he will find that he is not altogether blameless, and that a good many people of Philadelphia see him through the cartoonist's eyes.

The Santa Fe New Mexican has begun to talk vigorously about the platform to be adopted by the republican convention in Santa Fe on August 18. The convention may adopt platforms until it is blue in the face; but if it fails to nominate a man in whom the people have confidence and for whom the people can be induced to vote, platforms will be of mighty little use.

In the territorial situation there is at least this cause for satisfaction; it seems unlikely that there will be any basis for charges of election frauds in Colfax county after the election. Colfax county's recent experience and its present post of honor in the Larrazo campaign book seem to have satisfied quite a number of politicians that the time has come to reform.

Indications point to the fact that the rainy season has begun in Arizona. Several good rains have been reported during the past week in various sections of the territory. If there is a good fall of rain it will prove a blessing to both the cattle and agricultural industries of the territory. In the Gila and Salt River valleys there has been a shortage of water for irrigating growing crops while the cattle ranges have been in bad condition for sixty days.—Tucson Star.

The report last week that the indictments returned last year at Santa Fe, N. M., against a number of persons connected with various industries in New Mexico and Arizona controlled by Philip Dodge & Co., of New York, were dismissed, creates no surprise. From the beginning of this prosecution no one who was acquainted with the facts believed that there was anything more than a desire of political demagogues, who were using government agents, to attract attention to themselves and to pose as being engaged in an effort to curb corruption greed; these political hypocrites in New Mexico are of the same class as those in Arizona who put in much of their time in howling about the intention of the corporations to ruin the country.—Bisbee Review.

The Cloven Hoof-print of the Hand of May.

A nasty and unclean fight is being made by the Las Vegas Optic and a Raton paper on Delegate W. H. Andrews which is absolutely undeserving and if it is brought about by the agency of a candidate in that section for the same office, it must reach his boomers and will only hurt him. There is no good reason whatever why any paper that calls itself republican should assault the record of Delegate Andrews, whose record for the past three years is that of the republican party of the territory. It is especially unclean for any assaulter to attempt to show that the record of the delegate's record and achievements is on the party which sooner or later must reach and hurt.—Clovis News.

Their Own Funeral.

Bryan has for his running-mate John W. Kern, of Indiana. It is to be presumed that the democrats know their own business and choose the man for vice president whom they most desired to have fill that position.

But from the standpoint of a man up a tree it would appear that a good political bet was overlooked when both men on the ticket were selected from the middle west.

Of course it was true that no prominent eastern man could be found who would have stood on the Bryan platform, but it would appear that even a man of doubtful prominence from an eastern state would have drawn better than to centralize the candidates in the way in which the democrats have done.

However, everyone is agreed that it is the democrats' own funeral and they may pick and choose as they please.—Las Vegas Optic.

New Amateur Bicycle Record.

Salt Lake City, Utah, July 15.—Parley Giles, racing on the Saucer track at Saltair tonight established a new world's record for amateurs when he finished the two mile open lap event in 2:34.15. The best time recorded heretofore was 2:56.15. In the three mile race, Giles, who had been considered strong for Mr. Larrazo, in addition to this Mr. Giles will poll every vote Mr. Andrews ever received in any portion of the territory.

G. C. Coker, of Williams, died a few days ago as a result of a fractured skull and internal injuries received while riding a pitching horse. The horse fell and rolled on its rider.

Dubois Nombres Chacon was shot and killed last week at La Union, Dona Ana county, by Francisco Enriquez, a saloon keeper at that place. The murderer came to Las Cruces and surrendered.

Mrs. Henry Ritter sustained a badly bruised hip and a broken collar bone at Williams some days ago by being thrown from a horse which tripped over a large dog when going at a fast clip. The horse broke his neck and died instantly.

The Elida Cement company, Elida, N. M., has installed a machine for making fiber of the common blue grass so much disliked by the farmers. The fiber is used for mixing with cement and plaster and its manufacture bids fair to develop into an important industry.

A man named Anderson was seriously stabbed in the back recently at the McCauley ranch near Tyrone, Grant county, with a pocket knife in the hands of Fred McCauley. The wound is serious. McCauley claims the act was in self defense. The quarrel arose over a herd of goats.

"Buffalo" Jones, superintendent of the Grand Canyon game preserve, recently shipped from Denver seven full blooded buffaloes, twenty-five "cutthroats" mixed breed, and five mountain lions in cages, snarling like demons. The remarkable shipment was consigned to Kansas City, Mo.

Solos By the Second Fiddle

THE GUM SHOE has sprung a leak.

"THE PEOPLE want Andrews," says the Evening Citizen. Don't loath. This is a serious matter.

WILLIAM JENNINGS Bryan has published his "Conception of the Presidency." This is a case where distance lends enchantment to the view.

AS FAR as can be learned, Fairbanks did not introduce Kern to that Indiana meeting as "my successor."

THE INTRODUCTION of political banking into New Mexico would not make a bit with the rank and file.

PAINT MEMORIES from that dear Pennsylvania have a habit of recurring to the mind of the New Mexico voter.

THE NEW YORK World has an editorial on "Reorganizing the Belt Line." This probably means that Taft is dieting again.

JOHN L. SULLIVAN is suing for divorce. Is John trying to break into the limelight again after all these years?

THERE DOES not appear to be perfect unanimity among the veterans that the Bovine Angel has superseded Uncle Sam as a pension furnisher.

THAT THE Prohibits are making a big hole in the booze business is evident from the fact that the gin syndicate is at last taking the matter seriously.

PEARY'S announcement that after finding the north pole he will seek the south pole is much like Mr. Bryan's declaration that he will not accept a second term.

HAVING BEEN involved in a violent impact with a 200-pound preacher, the Andrews pension steam roller is in the back shop for a general overhaul.

DR. MILLS, of Chicago, calls Roosevelt "our greatest preacher." Is it possible that in his zeal for the numerical increase of the race T. R. has donned the cloth?

A GEORGIA state legislator, who is assuredly no gentleman, has introduced a bill which seriously menaces these ingenious aids to self sanctification dear to the feminine heart. The Chicago Record-Herald thus tells of it:

His bill, if passed, will prevent the disillusionment so common after marriage when the husband discovers that half of his wife's hair is a rat, her form made lovelier by the deft use of pads and her complexion enriched by the use of paint and powder.

So long as a woman chooses to remain single she will, under the Glenn bill, have a right to use all the aids of beauty she desires and to exert her handiwork upon the more susceptible sex at will.

If she wants to get married, however, she must appear as she really is. For the measure provides that should a woman entrap a man into marriage through the use of paints, powder, cosmetics, artificial teeth, peddled, drop-stitched shoes, high-heeled shoes, corsets, V-cut waists, lingerie of peck-a-boo waists the marriage will be declared null and void.

THE BOGUS POLITICAL THUNDER

(Las Vegas Optic)

The attempt of the New Mexican to make Andrews capital of certain resolutions passed by the George K. Warren post No. 5, G. A. R. is so obviously a warping of the spirit and intent of those resolutions that it is hardly worthy of comment. But in simple justice to the members of George K. Warren post and in recognition of the sound and excellent principles of the Grand Army of the Republic we wish to call attention to the statement which the New Mexican overlooked, and in overlooking, misrepresented, "that anything bearing the stamp of politics or religion can not be discussed in the Grand Army of the Republic."

In attempting therefore to manufacture political thunder by the long-winded and light-minded comment in the first column of Monday's paper the New Mexican—to quote from the resolution itself—"simply misconstrued the purpose of the resolution."

The G. A. R. resolution recognizes the work which Mr. Andrews has done in securing pensions, and in so doing it merely embodies facts with which everyone is acquainted.

Those Generous Democrats

(The Cimarron News and Press)

We believe that the democratic editors of New Mexico are the most gentlemanly and the most unselfish lot of men we have ever read of. Almost to a man they are espousing the cause of Delegate W. H. Andrews and urging his nomination at the coming republican convention.

We believe these gentlemen are sincere and that they are urging the preference of Mr. Andrews merely in an effort to show their good will toward him. As a matter of fact, however, we fail to read even between the lines these democratic eulogies of the man who does things that any of them will in the least manner support the republican nominee after the convention. For this reason the republican party of the territory will probably nominate a man who can have the unanimous support of every republican in the territory and who can get votes enough in every portion of the territory to defeat Mr. Larrazo.

Friends of Honorable Charles A. Spiess in San Miguel county are confident that their candidate can carry that important county by a majority of twelve to fifteen hundred votes over Mr. Larrazo. Colfax county will give Mr. Spiess fifteen hundred majority over his opponent and in fact he will get a big vote in every one of the northern counties which have been considered strong for Mr. Larrazo. In addition to this Mr. Spiess will poll every vote Mr. Andrews ever received in any portion of the territory.

HEARST CLAIMING MANY CONVERTS

Independence League Said to Be Getting in Some Smooth Work in Arizona.

To believe their own tale of it, the emissaries of William Albro-randolph Hearst are making many converts to the Independence League in Arizona. The Phoenix Gazette says:

The Independence League of William Randolph Hearst is working smoothly and quietly throughout the territory, making converts rapidly, according to its leaders, and preparing to make a heavy campaign in every county for the election of an Independence League candidate for delegate to congress, and for the election of men to fill all county offices. Maricopa county and particularly Phoenix is rather behind the Independence League procession, because the leaders or agents of the party are lying low and waiting until their national campaign in Chicago, Phoenix, campaigning this county very hard.

In the southern part of the territory, however, and in Prescott, a petition signed by recent converts of the party is being prepared to be sent to the secretary of the territory. This move is necessary to put the new party on a sound political basis, and entitle it to the use of the ballot.

Local Independence League organizers say there are between five and six thousand signers of the petition already, and that all these signers can be relied upon to vote with the party. By the time the convention comes off, they confidently expect to have enough converts to make the contingent that elected Mark Smith the last two times look small, or at least sink into comparative insignificance.

After the convention the local agents say they will circulate the petition in Phoenix. They are smoothing the way now, and state that they will have no difficulty whatever in getting a large number of signers here. The reason for holding off so long is, they say, that there is no particular cause for rushing matters in Phoenix. With only eleven days in which to conduct a campaign in California, the party polled 52,000 votes for governor, and they think that is going some. The same petition which are being circulated in Arizona are also going the rounds in all the states except California, New York, and Massachusetts, in which states campaigns have been waged before, and the political status of the party established. Within four years they hope to be in shape to do business on the same scale as the republicans and democrats.

In the national convention, they declare, La Follette will be nominated as a candidate for president and a once-defeated candidate for governor on the Independence League ticket of Massachusetts will be run for the vice presidency.

TO ENJOY BENEFITS OF SUMMER SCHOOL

The Socorro Chieftain says: Through the efforts of County Superintendent D. A. Ortega, the Socorro County Teachers' association is now enjoying the benefits of a summer school of two weeks immediately preceding the institute and examination. The school is under the direction of Superintendent W. D. Sterling, of the Albuquerque schools, a gentleman of recognized experience in his line of work. The enrollment this week has been as follows: P. A. Marcellino, Cirilo Jofola, Gregorio Garcia, Florencio Giron, Solomon Chavez, Alejandro M. Sanchez, Amador Aboya, J. J. Zimmerman, Miguel A. Vigil, Alejo Alderete, Barbara Chavez, Romaldita Chavez, and Emma Winkler.

NEW LUMBER YARD.

We wish to thank the public for the patronage extended to us, and desire to state that we have opened up a new lumber yard in connection with our mill business, where we will carry a full line of all kinds of lumber, including Texas flooring, finish lumber, lath and shingles, and everything to be found in a well equipped yard, and would ask you to give us a chance to figure with you, and we are sure we can save you money. Superior Lumber and Mill Co., 501-521 South First Street.

Hot Weather Comforts

LIQUOR MEN HARD HIT BY ANTI BOOZE WAVE

HUGE FALLING OFF IN WHOLESALE BUSINESS

Being Nominated on Friday Will Prove No Hoodoo to Bryan According to History; Baseball for Charity.

[Special Correspondence Morning Journal.] Chicago, July 16.—With the democratic and republican conventions now a part of history and interest centered on the prohibition convention at Columbus, the big liquor interests, whose headquarters are in this city, are beginning to feel in earnest the effects of the "prohibition wave" which swept the country this spring. Following the convention of the United States Brewers' association in Milwaukee at which it was declared that a campaign would be waged against disreputable saloons, figures have been compiled showing the extent of the inroads made upon the liquor traffic. Carloads of fixtures and furnishings from saloons in now dry territory are being received by concerns in this city every week. It is stated that Milwaukee brewers have had to recall over 200 carloads of such fixtures and the figures for Chicago do not fall far behind this total. The most significant sign, however, is the immense falling off in the expenditure by breweries and distilleries for new buildings, machinery, improvements and repairs. The expenditure in this way last year was close to \$29,000,000, but judging from the first six months liquor men estimate that it will be barely \$500,000 this year—a falling off of 97 1/2 per cent. Many skilled workmen have been thrown out of employment as a result of this reduction in the business. On the other hand the economic advantages of the readjustment undoubtedly compensate for this. Figures have just been compiled by the anti-liquor interests here claiming a probable increase in factory wages resulting from prohibition of \$286,152,958. Meanwhile both sides are preparing the fall campaign, which, it is predicted, will be more bitterly contested than any conflict hitherto.

Friday, the day on which Bryan's nomination was completed by the Denver convention, despite the stopped clock, may be unlucky for those who are condemned to hang, but opinion seems divided as to its being a "hoodoo day" and a search of history reveals many Fridays as days of triumph. The Pilgrims landed safely on Plymouth Rock on a Friday—December 20, 1820, which was lucky for their descendants; the British surrendered at Yorktown on a Friday, October 19, 1781, which was unlucky for the British. Columbus set out in the Pinta, the Nina and Santa Maria on his voyage on a memorable Friday, August 1, 1492, and it was on a Friday also that he got his first glimpse of land, October 12, 1492, an event which was more fortunate for us than for him, it proved. Columbus also landed on his second voyage on a Friday, November 22, 1493, and on Friday, January 3, 1494, he discovered the coast of North America. George Washington was born on a Friday, a fact to which Bryan and Kern, nominated on that day, will be able to "point with pride." None of them could have helped it. "Friday is the luckiest day in the week," declared an astrologer who explained his theory by saying "the day is ruled by Venus." Many others, who were superstitious, shook their heads.

Baseball for charity, netting thousands of dollars—as 48,000 tickets were sold—drew an enormous crowd last Saturday in this city and will draw another crowd in Minneapolis next Saturday. These games, between brokers of the Chicago board of trade and the Minneapolis chamber of commerce, will not only make many poor

children happy but give an opportunity for the baseball-mad rooters of the two exchanges to do their glad and noble stunts to their utmost satisfaction. Both things are noteworthy; last year \$4,200 was cleared by the baseball committee and turned over to sixteen charities and enough money was made besides to build a cottage in the country for sixty children; also some new records were made in the baseball enthusiasm of the most enthusiastic fans boasted by this city, where men, women and children are Cub or Sox rooters. At every big game the board of trade contingent in the grandstand is conspicuous by the joyful sounds it makes and the "fans" perched elsewhere in the grounds behold its members' antics, feel their hearts warm to them and then try not to be outclassed in baseball enthusiasm. The board of trade charity games, at which all is profit and there are no expenses, have become annual events of importance at which the mayor tosses the first ball and starts things going with eclat. On those occasions the business of the grain pits is put aside, the problems of world's demand and supply which fix prices in the continual warfare of "buys" and "bears" are forgotten in the absorbing passion for the national game of the diamond.

Ireland's cause, now gaining in England, will receive a new impulse in the United States as a result of a meeting held here this week by the Irish societies, with membership in every state of the union, to do honor to the memory of John P. Finerty. In his youth the late president of the United Irish League of America was driven out of Ireland and his zeal in the Irish nationalist cause was unceasing through his eventful life. The invitation to send representatives to the memorial meetings met with a response from the Irish Fellowship club, Irish Nationalists, Gaelic society, Gaelic League, Ancient Order of Hibernians, Ladies' Auxiliary of the A. O. H., Knights of Equity, Irish Choral society, Gaelic Athletic association, South Chicago Irish Historical society, Old Guard of the Fenian Brotherhood and various posts of the G. A. R.—for Colonel Finerty fought well in the Civil war. During his lifetime Colonel Finerty held more posts of honor in connection with the movement for Irish liberty than any other man in America. Glowing tributes were paid to his efforts and the prediction was made that within five years the fight for political freedom would be ended and Ireland would be enjoying home rule. In support of this, attention was called to recent statements by the Honorable Timothy Harrington, member of parliament from Dublin, and others to the effect that the present lord lieutenant, the Earl of Aberdeen, favored the movement and that King Edward himself was at heart a home ruler and would welcome the change. James Bryce, now British ambassador to this country, was outspoken in his sympathy at various times during his political career and it is expected that the liberal party, now in power, will be forced shortly to fulfill its pledges and give Ireland the rights she has demanded for so many years.

A new show place on Chicago's Lake Shore drive, a \$500,000 residence, is under construction by R. T. Crane, Jr.—a mansion to rival the Potter Palmer "castle" and Victor F. Lawson's new half million dollar "home." Time was when the visitor, on sightseeing bent, was taken about the city, the water works and tower were the showiest things on the north side, and the Palmer home, with battlemented tower was next. Later the Masonic Temple eclipsed the city hall and the art institute was built on the lake front. Now the ardent voice of guides on the "seeing Chicago" auto, shout often in announcing the names of owners of the pretentious places on the boulevards—those of John G. Shedd, Mike McDonald, Chauncey Blair, Edson Keith, P. D. Armour and others. But the new Crane residence in respect to size and cost will in comparison have most of these places dwarfed to claimshacks. It is to be 60 by 104 feet, three stories, of Bedford sandstone and it and the conservatory will cost more than \$300,000 regardless of the land, which is worth there about \$1,000 a foot. R. T. Crane, Jr., who is now abroad, is second vice president of the Crane company, and a graduate of Yale. Like his father he has been largely

interested in philanthropic work and is president of the Iroquois Memorial association, the organization commemorating the Iroquois theater fire in 1903, in which 556 persons lost their lives.

ROUGH DRAFT OF TAFT SPEECH COMPLETED

Candidate Declines to Give Out Intimation of Its Contents.

Hot Springs, Va., July 16.—Judge William H. Taft is feeling very comfortable tonight over the fact that the first draft of his speech of acceptance of the nomination for the presidency by the republican party has been finished. But the paper is far from being completed. The dictation yesterday and today amounted to ten thousand words, that will be reduced to as near three thousand five hundred as possible. Mr. Taft completed his task this afternoon, and then went out to play golf with George Ingalls. Mr. Taft declared that he could not undertake to give any intimation of what his speech in its present form contained, because great changes may be made in the paper before it goes to the printer.

MARINES ORDERED TO HONOURAS

Situation in Central America Grows More Complicated Daily; Government Resolved to Protect American Interests

[By Morning Journal Special Leased Wire.] Panama, July 15.—Lieutenant Colonel Cole, commander of the American marines now here, today received orders from Washington to have 160 marines ready for immediate field service. It is believed that they will be dispatched to Honduras on the United States cruiser Des Moines, which is expected to arrive at Colon at any moment. The cruiser Albany, which left on Sunday, carried one hundred marines destined for Amalapa. From advice received here it would seem that the situation in Central America is becoming more complicated every day. These advices tend to confirm the reports that the movement in Honduras is aimed against President Zelaya, of Nicaragua, who is considered by his neighbors as a promoter of revolutions. There is great rivalry, too, between President Zelaya and President Cabrera, of Guatemala, both having an ardent ambition to assume the leadership in Central America. It is believed here that President Cabrera and President Figueroa, of Salvador, are desirous of having an allied government in Honduras. If they can secure this, it is thought that Costa Rica will be compelled to join in the crusade against Zelaya, who would find it a difficult task to resist the combined attacks of Honduras, Guatemala, Costa Rica, Salvador and the enemies in his own country. In the meantime President Zelaya has presented a complaint to the Central American court of justice, that Guatemala and Salvador had given assistance to the Honduran revolutionists and the Nicaraguan refugees who are allied with them.

SALVADOREAN SIDE OF REVOLUTIONARY OUTBREAK

San Salvador, July 16.—An official statement which has been issued regarding the revolution in Honduras sets forth that on June 10 the Salvadoran government informed President Davilla, of Honduras, that preparations were being made for an invasion of that republic in Salvador in favor of ex-President Bonilla. The president of Salvador advised that the frontier be guarded closely. On June 22 General Carcamo was worsted while proceeding to the frontier. A proclamation was issued by himself as leader of the revolutionary forces and urging the people to rise was found in his possession. General Carcamo was imprisoned and is still being held here. Salvador then issued orders to all military governors to imprison all Hondurans found proceeding in the direction of the frontier. A few days later details were furnished to Honduras regarding the reported probable accession of government supporters and of officials at various points in Honduras, as well as information of the plan of attack, which was to take place on July 5. Honduras soon after this reported that the frontier town of Gracias had been captured by the insurgents under Daniel Lopez, and afterward the town of Choluteca. Lopez proclaimed that he had the support of Salvador, but President Davilla has been assured from here that this is false.

Delay in commencing treatment for a slight irregularity that could have been cured quickly by Foley's Kidney Remedy may result in a serious kidney disease. Foley's Kidney Remedy builds up the worn out tissues and strengthens these organs. Commence taking it today. J. H. O'Reilly and Co.

SPECIAL EMBASSY TO CONVEY CHINA'S THANKS

Empire Deeply Grateful for Uncle Sam's Leniency in Matter of Boxer Indemnity.

Peking, July 16.—In reply to formal notification that the United States proposed to remit a portion of what is known as the "boxer" indemnity, China has sent her thanks to the American government and at the same time she conveys a statement of her intention to send each year a considerable number of students for education in America until the entire sum of \$15,270,185 as against a demand will send a high commissioner, a princely commissioner to Washington to convey the special thanks of the government for this friendly act. The bulk of the indemnity returned to China will be devoted to the education of Chinese students in America.

Earthquake in Chile. Tacna, Chile, July 16.—A terrific earthquake occurred today in the province of Tacna and Arica in Chile, the southern part of Peru and Bolivia. Considerable destruction of property but no loss of life is reported. The cable between Arica and Lima has been broken and the telegraph lines to Bolivia damaged.

BITTER ORDEAL FOR KAISER'S FAVORITE

ZU EULENBERG BROUGHT TO COURT ON STRETCHER

Judge Decides to Permit One Newspaper Representative to Take Censored Account of German Palace Scandal.

[By Morning Journal Special Leased Wire.] Berlin, July 16.—Prince Philip Zu Eulenbergs condition is such that the court which is trying him was obliged to adjourn today after a brief session. The prince was brought into court on a stretcher, his every appearance indicating suffering. Beginning with today, the presiding judge allowed one newspaper reporter to be present at the trial to supply such accounts of the testimony as are not inconsistent with the public morality. The prince, in a weak and shaky voice, replied to various questions put to him by the court. "How do you explain Ernst's testimony concerning your conduct with him?" inquired the judge. "Ernst is for me a psychological puzzle," answered the prince. "I know there are bad men," commented the judge, "but in this case you would have to appear that you are an angel and Ernst a devil." "I certainly am no angel," replied Zu Eulenberg, "and I have many weaknesses. My best qualities have been expressed, I think, by enthusiastic friendships and generous acts, but unfortunately even these qualifications are twisted by the world into meanness and filth. The advice of the day is to be egotistic to the very bones."

In reply to another question, the prince said: "I can only suppose that Ernst testified as he did against me as a result of mental torture, threats of the penitentiary and the consequent helplessness of his wife and children."

Pressed for an explanation of his meaning in the letter he had written to Ernst, the prince exclaimed: "My God, my God; I was more ill then than I am today."

When asked to explain the rapid promotion of Herr Kistler, a court controller, with whom the prince was unusually friendly, the prince related at length Kistler's services as his private secretary, his gift for letter writing and his ability in indexing documents, etc. Continuing the prince explained the letter he wrote to the emperor in 1888 in the interest of Kistler as an expression of his wish to see Kistler taken care of in case of his (the prince's) death. Kistler's future lay near to him, he said, and as the prince felt his relations to the emperor might be regarded as justifying this letter, he had written it and given it to Kistler to be used in the event of his death. This letter was produced in court, having been seized in Kistler's house by the police when they searched the premises. It was ornamented with five seals and endorsed, "My last request." The letter is addressed to his majesty, the German emperor, and in exaggerated language the writer commended Kistler to the imperial favor. In conclusion the prince said: "My last breath is a greeting to your majesty."

After the prince's explanation of the Kistler letter his breath became short and quick and he grew so weak that the doctors recommended an adjournment. This was taken and the proceedings of the day were over.

Rev. I. W. Williams Testifies

Rev. I. W. Williams, Huntington, W. Va., testifies as follows: "This is to certify that I used Foley's Kidney Remedy for nervous exhaustion and kidney trouble, which am free to say that Foley's Kidney Remedy will do all that you claim for it." J. H. O'Reilly and Co.

Case Tests Powers of FILIPINO JUDICIARY

Manila, July 17.—It has been determined to carry the case of Mike Beacham, who murdered a cavalryman last January, to the United States supreme court, as it is believed the case better covers the issues involved than others of similar character. A test will be made of the entire Filipino judiciary system. The defense pleads that Beacham is an American citizen involuntarily in the Philippines; that he has never been indicted and has been denied a jury trial. It is further claimed that the trial judge was not a citizen and had not been appointed by the president and confirmed by the senate.

Dr. Pierce's Pleasant Pills are the original "Little Liver Pills" first put up by Dr. Pierce over forty years ago, much imitated but never equaled. Little sugar-coated granules—easy to take as mints.

PECOS FOREST RESERVE MAY BE EXTENDED

GOVERNMENT AGENT TO CONSULT GOV. CURRY

Effect of Sheep Grazing in the National Forests to Be Tested by Bureau Officials; Stockmen Invited.

[By Morning Journal Special Leased Wire.] Washington, D. C., July 16.—An agreement has been made between the secretary of the interior and the secretary of agriculture for an investigation of the effects of grazing of sheep and goats upon the watersheds within national forests which are important to irrigation. A. E. Parter, chief of the grazing branch of the forest bureau, and D. D. Bronson, of that bureau, will co-operate in these investigations with officials of the reclamation service.

The Water Users' association and the presidents of both the Cattle Growers and Sheep Growers' associations in Arizona and New Mexico have been invited to arrange to have representatives of their several interests accompany the investigators of the relation of stock grazing to water supply on other national forests will be carried out jointly by the reclamation service and the forest service.

Mr. Parter left Washington for Santa Fe, N. M., to confer with Governor Curry next Wednesday regarding the proposed additions to the Pecos national forest.

IF YOU ARE IN NEED OF ANYTHING Dainty in the Grocery Line You can Always Find it at F. G. Pratt & Co., 214 South Second.

HITCHCOCK STARTS FOR WEST

National Chairman Coming to Preside Over Conference of Western Republican Leaders at Colorado Springs.

[By Morning Journal Special Leased Wire.] Washington, D. C., July 16.—Chairman Frank H. Hitchcock of the republican national committee, accompanied by James T. Williams, Jr., one of the staff of republican headquarters, left today for Chicago en route to Colorado Springs to attend the conference of western republican leaders there next Monday and Tuesday. Before leaving today (Thursday) Hitchcock talked with Francis Curtis, who is to have charge of the editorial department of the literary bureau of the national committee. Arrangements were made for Mr. Curtis to begin his work immediately, organizing his staff in preparation for the active work of the campaign. Mr. Hitchcock will stop in Chicago tomorrow long enough to complete arrangements for national headquarters in that city. He will then proceed to Colorado Springs.

Mr. Curtis stated that the winner of the \$150 prize contest for the best essay on "why the republican party should be successful next November" will be made known about August 15 from New York. Several thousand manuscripts have already been submitted and as many more are expected.

A Woman's Back

Has many aches and pains caused by weakness and falling, or other displacement of the pelvic organs. Other symptoms of female weakness are frequent headache, dizziness, imaginary specks or dark spots floating before the eyes, gnawing sensation in stomach, dragging or bearing down in lower abdominal or pelvic region, disagreeable drains from pelvic organs, faint spells with general weakness. If any considerable number of the above symptoms are present there is no remedy that will give quicker relief or a more permanent cure than Dr. Pierce's Favorite Remedy. It has a record of over forty years of cures. It is the most potent invigorating tonic and strengthening medicine known to medical science. It is made of the glyceric extracts of native medicinal roots found in our forests and contains not a drop of alcohol or harmful or habit-forming drugs. Its ingredients are all printed on the bottle wrapper and attested under oath as correct. Every ingredient entering into "Favorite Prescription" has the written endorsement of the most eminent medical writers of all the several schools of practice—more valuable than any amount of non-professional testimonials—though the latter are not lacking, having been contributed voluntarily by grateful patients in numbers to exceed the endorsements given to any other medicine extant for the cure of women's ills. You cannot afford to accept any substitute of unknown composition as a substitute for this well proven remedy or know your interest in regaining health is paramount to any selfish interest of his and it is an insult to your intelligence for him to try to palm off upon you a substitute. You know what you want and it is his business to supply the article called for.

Dr. Pierce's Pleasant Pills are the original "Little Liver Pills" first put up by Dr. Pierce over forty years ago, much imitated but never equaled. Little sugar-coated granules—easy to take as mints.

Gossip from Berlin

By Walter J. Dunkirk. Berlin, July 4.—The old city of Jerusalem is to be honored with a visit by the Kaiser and Empress and although it will be nearly two years before the start will be made the Kaiser has already begun to plan the details. The ruler of the German empire will not go to Palestine as a humble pilgrim as did many of his forefathers, he will be driven by no holy prayer in the church of the Holy Sepulchre, but will go as a mighty monarch who wants to lend glory to the solemn opening of the home for pilgrims founded by the Empress and bearing his name. This opening is to take place some time during the spring of 1910. When the cornerstone of the building was laid on March 31 last year the Imperial couple were represented by the court chaplain, Dr. Dryander, and Baron von Mirbach who was the personal representative of the Kaiser. The ceremony took place in the presence of the governor of Jerusalem and a representative of the Sultan of Turkey of whose empire the province of Palestine is a part. It was quite impressive, but far from enough so to satisfy the Kaiser and he therefore wants to throw splendor upon the dedication of the Home by his personal presence and will endeavor to induce the Sultan to come too, though it is more than doubtful if he will succeed in this. For Abdul Hamid dreads to leave Yildiz Kiosk and fears for his life as soon as he is outside the palace walls.

The Kaiser on the other side has too often proved a friend in need to the ruler of the faithful and his wish cannot easily be slighted. Qui vivra, verita!

Gossip From Paris

By Henri Dubois. Paris, July 4.—That Frenchmen are no less chivalrous today than they were in the times when knights were bold, has just been proved by M. Breltmyer, the famous swordsman and fencing artist, who having recently been presented to Queen Amalie of Portugal, by birth a princess of Orleans, found it his duty to bare his sword in defense of her honor. In the "Action" there has recently appeared a serial story which, under the gules of fiction dealing with Portuguese life, made scurrilous attacks against the queen of that country, who is greatly beloved in France because of her heroism. (She has saved several persons from drowning at the risk of her own life.) The author was a certain Portuguese writer, Senor Albaynergue, who had been expelled from his native country because of his anarchistic tendencies.

M. Breltmyer wrote to the author, calling him a disgraceful coward for his attack upon a woman, and the letter was published in the Paris papers. The writer, who had always been regarded as a man who did not know fear, replied that he would challenge M. Breltmyer, and if the latter should refuse he would horsewhip him in the street and shoot him down like a dog.

The challenge never came, however, and when M. Breltmyer, sword in hand, tried to find the Portuguese at his apartments, he had disappeared, and the rest of the serial will never appear.

M. Marcel Deprez, member of the Institute de France, has invented an aluminum bird which rises against the wind and stays in the air without being sustained by any mechanical device. M. Deprez explains that his experiment was entirely based upon his observation of an eagle rising against the wind and soaring aloft without any motion of its wings. The solution, he adds, is very simple.

The aluminum bird consists of two planes, one large and almost horizontal, and another smaller and almost vertical, resembling in shape a visiting card, with one end bent slightly against the horizon, a current of air somewhat ascending in direction is brought to bear against it, and the metal bird rises and remains suspended in the air.

As soon as it can be practically applied M. Deprez thinks this invention will greatly simplify aeronauts and will moreover mean a simplification of construction and a great economy in the force necessary to propel airships and a considerable increase of their staying powers.

A curious sort of vanity was described at the meeting of the French Academy of Medicine on Thursday, when Professor Dieulafoy detailed the case of a man who for over two years had been afflicted with ulcerous sores, which broke out on both arms. The patient consulted over a dozen physicians and tried many varieties of treatment without relief.

Finally he submitted to the amputation of his left arm above the elbow. Some improvement followed, but later the sores made their appearance with greater frequency than ever. He was then admitted to the Hotel Dieu and placed under Professor Dieulafoy's care. After keeping the patient under close observation for some time the professor declared the patient to be a simulant. The man admitted that he had been in the habit of producing sores with caustic potash and had kept up the fraud for two years and a half. Professor Dieulafoy explains the case as one of morbid mentality in which the victim is irresistibly impelled to defile himself in order that he may become interesting and an object of pity.

Miss Platt was joined here by Miss Hazel Rogers, daughter of Mr. and Mrs. W. E. Rogers, of North Arno street, who will spend some time visiting in San Marcial and El Paso.

Mrs. Mary Duncan, of Socorro, grand matron of the O. E. S., will pay Adh chapter an official visit tonight at 8 o'clock in Masonic temple. Initiation and refreshments. All members of the order are expected to be present, to assist in entertaining. By order of Worthy Matron Laura Fluke, Temperance Whitcomb, secretary pro tem.

The Bank of Commerce, through its attorney, E. W. Dobson, yesterday filed a suit in the district court asking judgment against J. Cordeman on account of a promissory note for seventy-five dollars, given to the plaintiff by the defendant on July 1, 1902. Interest on the note and attorneys' fees are also asked in addition to the principal of the note.

The Colombo theater will have an entire change of program tonight, moving pictures, illustrated songs and all. Some very good films will be shown, and Miss Calvin will sing some pretty new illustrated songs. Among the new films will be "A Russian Drama," "The Haunted Portrait," and "Robbing a Money Lender." "A Russian Drama" will be the feature film and is very interesting.

27 BRICK BLOCKS UNDER WAY AT CLOVIS

All Trains Stop for Meals at Cut Off Town Which is Destined to Be Big City of the Line.

Twenty-seven brick business blocks are at the present time in process of construction at Clovis, N. M., according to T. D. Chapman, a well known attorney of that place, who is visiting his sister, Mrs. O. A. Arpin, in this city.

"The amount of building that is going on is wonderful," said Mr. Chapman last night. "Clovis is enjoying the greatest prosperity and most rapid growth in the town's history. All trains on the Santa Fe now stop for meals at Clovis, en route to Amarillo, to Roswell and Roswell to Albuquerque and vice versa, and this helps greatly to make things look busy. Everything is ready now for the resumption of work on the partially completed Harvey eating house and hotel, and the railroad shops and roundhouse will, it is expected, be in full operation in a few days with the installation of regular freight service, the crews for this purpose having been already called for.

"There have been copious rains around Clovis and crops are doing splendidly. The recent decision of the land office that settlers having filed on the lands heretofore claimed by the railroad could take up their holdings, has meant much for Clovis, and from all appearances the town is to be the metropolis of that part of New Mexico with a wealthy agricultural community around it."

The function of the kidneys is to strain out the impurities of the blood which is constantly passing through them. Foley's Kidney Remedy makes the kidneys healthy. They will strain out all waste matter from the blood. Take Foley's Kidney Remedy and it will make you well. J. H. O'Rielly and Co.

BIG CROWD ENJOYS PROGRAM AT RINK

More than a hundred skaters were on the floor at the rink last night, and a large number of spectators were also present to watch the skaters and to enjoy the excellent moving picture and illustrated song program which was given at the conclusion of the skating session. The moving picture program was exceptionally good. "The Prophets of Thebes," the feature film, was well worth seeing. The picture portrays a mythical goddess of ancient Egypt making a forecast of the future events of the world. "Peggy's Portrait," a comical film, is extraordinarily funny. John Brown is the principal actor in the film. John wears a friend's overcoat home. In the inside pocket of the coat is a picture of "Peggy." Mrs. Brown goes through her husband's coat, finds the picture and accuses him of faithlessness. Explanations on Mr. Brown's part are useless and a scene follows. Finally the matter is explained satisfactorily and then there is another scene in which Mrs. Brown apologizes and promises never to act hastily again. "A Useful Present for a Child," also a comical picture, was shown with good effect. Mr. Shelley sang two beautiful songs in a pleasing manner, "Virginia Dear," and "Sticky." The entire program will be repeated at tonight's performance.

EVERY ONE IS TALKING ABOUT OUR FLAT WORK. IF YOU HAVE NOT GIVEN US YOURS, DO SO NOW. IMPERIAL LAUNDRY, BACK OF POSTOFFICE.

TREASURY FLOODED CLOUDBURST IN WITH CASH BEAR CANYON

Nearly Twenty-four Millions Received in Response to Call on National Banks; Disbursements Still Exceed Receipts.

(By Morning Journal Special Licensed Wire.)

Washington, July 16.—The funds received so far at the treasury from national depository banks under the secretary's call of July 20 amount of \$23,709,421 and no doubt is expected that the full amount called will be received within two or three days. It was at first estimated that the amount of this call would approximate \$45,000,000 but a close calculation reduces this sum to \$23,279,270. The difference is accounted for by the fact that a number of the larger depository banks had anticipated the secretary's call by two or three days and had sent in more than \$2,500,000 for which they received credit when the call was issued. It also appeared that a considerable number of new depositories having active accounts subject to disbursing officers checks had only the minimum amounts allowed by law and therefore their balances were not subject to the call.

Deluge Reported to Have Poured Down Mountain Defile Yesterday; Bad Wash-out on Santa Fe Branch.

A cloudburst was reported to have occurred in Bear canyon in the Sandia mountains yesterday afternoon by persons coming in from the mountains. It is said a deluge of water poured down the arroyo doing considerable damage along the route and that a large volume of water came down over the mesa.

Wednesday night there was a terrific precipitation in the vicinity of Santa Fe, sending a big flood down an arroyo and taking out a bridge and a thousand feet of track on the Lamy-Santa Fe branch of the Santa Fe, about ten miles from the Ancient City. It is thought it will take several days to repair the break and meanwhile the Santa Fe is sending passengers in to and out of Santa Fe over the Santa Fe Central via Kennedy, north of Cerillos.

Heavy rains are reported from the west and north in this territory, doing considerable damage in some sections. What is needed, however, is a steady general rain which will soak into the ground and do no damage while proving of incalculable benefit to the farm and range.

WHEN HER BACK ACHES. A Woman Finds All Her Energy and Ambition Slipping Away.

Albuquerque women know how the aches and pains that come when the kidneys fail make life a burden. Back-ache, hip pains, headaches, dizzy spells, distressing urinary troubles, all tell of sick kidneys and warn you of the stealthy approach of diabetes, dropsy and Bright's disease. Doan's Kidney Pills permanently cure all these disorders. Here's proof of it in an Albuquerque woman's words: "Mrs. L. J. Curd, living at 410 South Third street, Albuquerque, N. M., says: 'I suffered more or less from pains in my back for a long time, and when I would overexert myself or take cold, I suffered severely. That this trouble was due to kidney disease I had no doubt; in fact, I believe it was hereditary in my case, as my father died with Bright's disease. About a year ago Doan's Kidney Pills were brought to my attention, and taking them for a short time I was absolutely relieved of the pain in my back and felt better in every way. The merits of Doan's Kidney Pills were so plainly demonstrated to me that I can with pleasure and confidence recommend them to others.'"

For sale by all dealers. Price 50 cents. Foster-McBarn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.
