FIRST TEST RUN MADE BY SILVER MILL IN SIERRA

(Special Correspondence to The Journal.) Las Cruces, N. M., March 1.—Mountain Metal company's silver mill near Sierra, in Sierra county, New Mexico, northwest of Las Cruces, made its first test run with fifty tons of ore February 24. J. H. McCutcheon, general manager, reports that the trial resulted in a high-grade concentrate. The ore run through the mill is a sulfide, rich in silver, chalcocite and bornite. The mill will run steadily.

The process is a water concentration and flotation, the first of its kind in the Black Range mountains. The ore is first broken in a crusher and then passes through a ball grinder of a special design and the next into a Dorr classifier which delivers the slimes to the flotation machine and the sands to a Wilfley table.

The capacity of the mill is fifty tons a day. Steam power is used to drive the machinery, which has two 40-horse power boilers. There are 2,000 tons of ore broken and on the dump ready to be milled. Mr. McCutcheon reports he has bought 2,000 cords of wood from the forest reserves forests. Woodcutters are now making camps in the woods.

A force of miners was put at work in the mine recently. They are breaking ore and storing it in the working ready to be sent to the mill as needed. It is reported there is fully 250,000 tons of ore, worth \$20 a ton, in sight in the mine, besides the high grade ore ready to be milled. The mine is reported to have produced several hundred thousand dollars in former years, and is still in its infancy. The resumption of operations is the beginning of activity throughout that rich district.

The Midnight and Tidal Wave Mining company is erecting a 50-ton mill on its properties about one mile from the Silver Mountain Metals mill, which will also use the concentration and flotation process. This property is under the management of M. Helpling. The rock containing float is similar to the one in the Silver Metals mill, is being installed.

It is estimated that in the Black Range mining district there are approximately \$100,000,000 worth of ore that can be profitably treated if the present concentration and flotation process proves a success. In the Black Range district are hundreds of old dumps of ore in as many old workings, too low grade to bear the long wagon haul, freight and smelting charges in the crude state, which can be handled profitably by treatment on the grounds.

PETITION FOR WRIT OF MANDAMUS DENIED IN CARDONER CASE
(Special Correspondence to The Journal.) Santa Fe, March 1.—Petition for a writ of mandamus has been denied by the supreme court in the case of the state ex rel E. de P. Bujac, relative, versus the district court of the second judicial district, et al., respondent. The matter involved in this proceeding grew out of the case of Bujac against Joseph R. Wilson, of Albuquerque, who was appointed guardian of the estate of Madame Cardoner, who died in Albuquerque in the fall of 1918.

SUBJECT OF TAXING MINES IS DISCUSSED
(Special Correspondence to The Journal.) Santa Fe, March 1.—Representatives of the mining companies and the state tax commission to discuss the subject of mine taxation. Following this conference, the state tax commission will make its decision as to whether to tax the mines on the output plan, or to adopt the Finley report and make the assessment on the ad valorem basis.

'VARSITY GIRLS' TO MEET VEGAS IN BASKETBALL

Co-ed basketball players of the state university will try their skill with an out-of-town team for the first time in several years when they meet the girls' team of the Las Vegas Normal school here tomorrow night.

The Normal university team is considered one of the fastest girls' teams in the state, but they will be opposed to an unknown quantity in their game with the local team.

The state university girls have been practicing steadily for several months past and have played many practice games in the interclass tournament. Miss Katherine McCormick has been coaching the team and the girls are supposed to have developed a very scientific style of game. The Las Vegas team will have the local team slightly outpointed in regard to height.

The line-up will be as follows: New Mexico — Emma Gerhardt and Clarissa Parsons, forwards; Dorothy Stevenson, jumping center; Helen Nelson, running center; Fredah Mitchell and Leona Sherwood, guards.

The Normal university line-up will be as follows: Helen Ellis and Joy Currier, forwards; Orla Herings, jump center; Charlotte O'Malley, running center; Violet Ford and Mozelle Borders, guards.

GREAT BUSINESS FOR 1921 REPORTED BY NEW YORK LIFE INS. CO.
The Life Insurance companies are not complaining of hard times, although the lopes are heavy and many policy-holders are borrowing money on their policies. New business shows a falling off from the record figures of 1920, but is still the largest in its history with the exception of that year. So the New York life announces in its seventy-seventh annual report published in another column. Its new insurance was five hundred and eighty-six million dollars, income was over two hundred millions, and payments to policy-holders over one hundred and twenty-four millions. A lower death rate, a higher interest rate, larger sums paid in dividends, endorsements for surrendered policies are the outstanding features of the report.

The company goes back to normalcy in the valuation of its securities. In the early years of the insurance and until war times the companies listed their bonds at market values. But the war brought high interest rates and first class bonds showed a heavy decline in price. The law allows such bonds to be listed at their cost with the proper charges for amortization. The New York Life in stating its surplus now advances to normally and lists over six hundred million dollars at their market values, under the rules approved by the convention of insurance commissioners. This method reduces the New York Life's admitted assets and surplus over fifty million dollars. But all liabilities are provided for and a comfortable surplus shown. Over one hundred million dollars are set aside for dividends, over forty-two millions of which will be paid during 1922.

This great life insurance company is represented in New Mexico by E. D. Sisk, of this city, who is the agency director for the company in this state. Mr. Sisk says: "In New Mexico, as well as throughout the country, the company shows remarkable gain, with \$2,929,600 of new paid business for 1921, and a total of almost eleven millions of insurance in force within this state."

BUTTERMILK, STEW, MAKE IRISH FIGHT, DR. EDWARDS SAYS
Boston, Mass., March 1.—Too much buttermilk and Irish stew, a preponderance of vegetables over meat is responsible for the fighting Irish nature, according to Dr. Martin Edwards, who spoke before the Boston university school of biology today on "Diets."

Dr. Edwards said that for many years the peasants of Ireland had lived largely on vegetables, potatoes and buttermilk, while most of the meat and eggs produced were sent to England. He declared that the British diet, heavy with proteins, was responsible for the English characteristics.

SHE ALSO HOPED TO AID GARLAND MAINTAIN "IDEALS"

Miss Doris Benson.

Miss Doris Benson, Massachusetts agricultural college co-ed, says that she, too, is ready to help Charles Garland, millionaire "idealist," live according to his theories on his farm at North Carver, Mass. Garland's "soul twin," Lillian Conrad, deserted him about the time he announced, emphatically, that they would "live their lives" as they believed, regardless of man-made laws and the fact that Garland has a wife and baby. Miss Benson and Miss Conrad are friends, also.

URGE ENACTMENT OF ANTI-LYNCHING BILL

(By The Associated Press.) New York, March 1.—A memorial, signed by governors of ten states and by scores of prominent mayors, clergymen, lawyers, college presidents and other prominent persons, urging the United States to pass the Dyer anti-lynching bill, was adopted tonight at a mass meeting in town hall called by the National Association for the Advancement of Colored People.

"The killing and burning alive of human beings by mobs in the United States is a reproach upon our country throughout the civilized world and threatens organized government in the nation," the memorial said.

"Since 1882, there have been 2,442 mob murders, sixty-four of the victims being women. In only a few instances has prosecution of the lynchers been even attempted. American mobs murdered sixty-four persons in 1921, of whom four were publicly burned at the stake."

BASEBALL MERGER TO BE PROPOSED SUNDAY
(By The Associated Press.) Joplin, Mo., March 1.—A proposal, it became known tonight, will be submitted at a meeting of the Western Association in Oklahoma City next Sunday to effect a consolidation of the Western Association and Southwestern league.

An executive committee of the Jasper county park association, which will have a lease on the local baseball park, will attend the meeting and submit the plan. P. E. Belden, a member of the committee said tonight.

"Ensign" Barbour, president of the Southwestern league, said before his departure from Joplin he favored the consolidation."

The local committee, according to Belden, will submit the plan to the Western association.

C. OF C. BUDGET IS APPROVED BY THE DIRECTORS

For Advertising Albuquerque \$16,500 Is Appropriated; Program Most Ambitious Ever Planned.

A budget of \$16,500 for advertising Albuquerque was approved at a meeting of the directors of the Chamber of Commerce last night. The most ambitious program being undertaken for the city has been undertaken for boosting the climate and other attractions of the city.

The program includes advertisements in newspapers and magazines of the east, north and south; the circularizing of 20,000 physicians and the circularizing of about the same number of preachers, priests and rabbis.

Dr. H. H. Briggs and H. B. Hammond of the forest service appeared before the board from the Rotary club and asked that the board pass a resolution asking the federal government to construct part of a road in what is now known as the Ellis loop. The resolution was passed and the president of the board appointed Sidney Weil and Col. D. D. E. to select the route to aid in having the chance made.

The manager of the Chamber of Commerce, Sidney Weil, Colonel E. Bruce and Colonel Sellers are named as the advertising committee. The budget of the board and the funds required for overhead was estimated at \$27,000, leaving about \$10,000 after all dues for membership are paid.

The spirit of the board was that Albuquerque should hit the ball from now on, as hard and as fast as possible.

COMMITTS SUICIDE IN FIT OF DESPONDENCY

(Special Correspondence to The Journal.) Silver City, N. M., March 1.—In a fit of despondency, due, it is believed, to ill health, Mrs. Rita Vega, aged 25 years, a Hurley woman, committed suicide by shooting herself just below the heart with a 30-30 caliber rifle.

The woman's husband, with another man, arrived at the Vega home shortly after 6 o'clock. They were looking for the woman and found the body lying on the floor. A physician was called, but death had ensued probably two hours before, being practically instantaneous.

Officers at Hurley made a thorough investigation of all the circumstances surrounding the tragedy and a coroner inquest was held. The verdict being that the woman had taken her own life. She left a note, in which she said she was tired of life and that when it was read she would be dead.

COST OF LIVING HAS SLUMPED IN CHICAGO

(By The Associated Press.) Chicago, March 1.—The cost of living has gone 25 to 40 per cent below the post war peak in Chicago, it was testified today before the Illinois Commerce commission on the plea for lowering street car fares.

A large firm of retail shoe dealers testified that they paid an average of \$2.85 for shoes in the spring of 1917, an average of \$6.19 in 1920 and an average of \$3.78 in 1922.

A large manufacturer of clothing gave the average of all suits manufactured by them 1921 at \$43.88, while the average sale price had dropped to \$30.77 in 1922.

Similar figures were submitted for groceries, paving materials, cement and food products.

DUTCH MANTELL IS VICTOR OVER FARLEY

(By The Associated Press.) El Paso, Tex., March 1.—Dutch Mantell, of El Dorado, Kans., defeated Cal Farley, inter-allied middleweight wrestling champion, two falls out of three in a finish match here tonight at catch weights. The men are of the welterweight class. Farley took the first fall with a bridge toe hold in twenty-eight minutes. Mantell secured the second fall in twenty-two seconds with a body and crotch hold. Mantell raised Farley clear of the mat and beat him into unconsciousness by crashing him to the floor five times before Farley was pinned.

PASS CITY SCHOOLS CLOSED BY ILLNESS

(By The Associated Press.) El Paso, Tex., March 1.—El Paso City schools were closed today on the balance of the week. Illness of a large number of teachers and pupils, most of them victims of the flu in a mild form was assigned as the cause of the suspension of school work.

CANAL PROJECT IS SUBJECT OF A JOINT DEBATE

Gov. Miller of New York Opposes Great Lakes-St. Lawrence Proposal; Kansas Governor Favors It.

(By The Associated Press.) Washington, March 1.—The battle for and against the Great Lakes-St. Lawrence ship canal project today in a debate before the national rivers and harbor congress between Governor of two states—Henry J. Allen, of Kansas and Nathan L. Miller, of New York.

Governor Allen, of H. H. Merriell, of Chicago, former president of the Mississippi Valley association, championed the project, while Governor Miller took the negative side.

The cry of "sectionalism" early was brought into the joint debate of the governors, who were brought together for nearly three hours today in a debate before the national rivers and harbor congress between Governor of two states—Henry J. Allen, of Kansas and Nathan L. Miller, of New York.

Governor Allen stressed the "tragedy of transportation" from which, he declared, the middle-west had suffered. The proposed canal, he said, would bring ocean-going vessels to the lake ports, aiding the transportation shortage of eighteen middle western states.

Miller emphasized the cost of the project and branded the international commission's favorable report as "superficial" and one of utter worthlessness. The cost, he added, would greatly exceed the estimate of \$250,000,000, and he declared that the project ought not to proceed without a further extensive investigation.

GIRLS! LEMONS WHITEN ROUGH CHAPPED HANDS

Squeeze the juice of two lemons into a bottle containing three ounces of Grahall White, which any drug store will supply for a few cents, shake well, and you have a quarter-pint of harmless and delightful lemon-bleach lotion to soften and whiten red, rough or chapped hands. This home-made lemon lotion is far superior to glycerin and rose water to smooth the skin. Famous stage beauties use it to bleach and bring that soft, clear, rosy-white complexion, because it doesn't irritate.

She could eat anything —without indigestion or sleeplessness

For a time she had been troubled with gas after her evening meal. Her appetite was poor, and she was unable to eat potatoes or other starchy foods, of which she was very fond.

Then she started taking two cakes of Fleischmann's Yeast every night between her evening meal and bedtime. She poured about a half cup of boiling hot water over the yeast cakes, stirred them thoroughly, added a little cold water and drank.

She found she could eat anything and sleep splendidly afterward. Thousands of men and women are finding that Fleischmann's Yeast corrects stomach and intestinal troubles. It promotes the flow of bile and pancreatic juice. Appetite is always kept normal and you are protected against indigestion.

Add 2 to 3 cakes of Fleischmann's Yeast to your daily diet. You will find that your whole digestive system is greatly benefited. Be sure it's Fleischmann's Yeast—the familiar tin-foil package with the yellow label. Place a standing order with your grocer for Fleischmann's Yeast.

IMPERIALISM IS SUBJECT OF FRANCE'S PROGRAM, SAYS

(By The Associated Press.) Paris, March 1 (By the Associated Press.)—Premier Poincaré, speaking at a luncheon given by the Anglo-American Press association today, said that "French imperialism is the old scarecrow which long ago was laid to rest outside the tombs of Napoleon in the Invalides."

"He declared there was not a single Frenchman who had a thought, either for the present, for tomorrow or for a later period of any warlike enterprise of annexations."

"We have no other thought than to guarantee peace," continued the premier. "I am not a pacifist. I am not guaranteed against those who might trouble it. Unlike England, with her sea belt, and unlike the United States, by the absence of any dangerous neighbor, we are obliged to adopt some precautions against renewed attacks and invasions. It is not with a light heart that we still impose upon ourselves sacrifices in order to remain in a state of defense."

"We cannot, however, remake history or revise the geography of the world. We would prefer to enjoy security from all exterior peril, but we are obliged to take account of realities while having no greater desire than to develop peacefully at home our scientific, industrial and social progress and maintain courteous relations with all the peoples of the world."

Theaters Today "B" Theater—Betty Compton is still at the "B" theater as the leading star in "The Law and the Woman," also repeating the "Pope Benedict XV" pictures, taken during the life of the late Pope, and repeating the "Burton Holmes Travelogue" pictures. Lyric Theater—That all-star cast picture, "All for a Woman," is being repeated today. It is a wonderful picture and should be seen today. The management is also repeating the picture, "Great Umbrella Mystery," as Goldwyn-Bray comedy. Pastime Theater—Mrs. Mix, as the leading star in "Sky High," thrilled large crowds at each show yesterday afternoon and night; in connection with this great picture, the management is showing a Sunshine comedy, "The Slide Show." Oysters are gathered by dredges.

The insolent alarm clock that went off at the wrong time For a little while it gave the call at 7 a.m., and was useful. When it began calling at midnight and 2 o'clock in the morning, it became a nuisance. When tea or coffee stimulates the nerves at mealtime it seems pleasant, but when it gives the wake-up call at midnight and leaves nerves hungering for sleep at mid-afternoon, the pleasure is gone and serious harm is on the way. This often happens. Postum is delicious and satisfying, and it contains no element that can harm nerves or digestion. Postum is a safe and delightful drink for every member of the family, at any meal. Your grocer has both forms of Postum Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes. person of "Young" Chavez in tonight's opening. Padgett-Burns. Sailor Danny Burns has already met the wild cowboy from Dores and lost a 10 round bout to him. Although the sailor doesn't question but that he lost the fight, he claims that if it had gone 15 rounds the result would have been different and since the bout has been put on a lot of wises to meet the cowboy again. Both lads are rugged and heavy hitters, Padgett probably having the edge on Burns insofar as heavy hitting is concerned. Burns having a bit the best of the matter in his ability to take punishment and to slug.

BIG LEAGUE MOGULS W. G. Richardson of Washington.

It's a far cry from the grain business to the ivory business. But William G. Richardson made the jump over night and is making a go of the ivory business—meaning baseball. Richardson is the life-long friend of Clark Griffith, who joined the "Old Fox" in purchasing on an equal basis the controlling interest in the Washington American league club a couple of years ago. Richardson had been known as an ardent fan for years and had had hopes of breaking into the game as at least a part owner for about the same number of years. His chance came with Griffith, when Benjamin L. Minor, then president of the club, and his associates decided to sell. Antagonism of the fans toward the Minor regime caused the sale. Richardson is the silent member of the pair that bought all but a few shares of the stock. Griffith is president and general manager, votes the stock and controls the club's policy. Richardson, because of his confidence in Griffith is willing to let the wise old head handle the reins.

William B. Richardson.

SECTION TEAMS BEING CHOSEN FOR TOURNAMENT

Two Basketball Teams to Represent Each Section of State in N. M. Championship Meet.

Of the eight teams which will battle for the high school grade basketball championship of New Mexico at the armory on March 10 and 11, Las Vegas High school and Las Vegas Normal school will represent the northern section of the state and the Albuquerque High school and Harwood will represent the central section. Tournaments are now being held in the Pecos river section and the southern section to decide which teams will have the honor of making a stand for title honors for 1922.

Las Vegas High and Normal went right to contend in the eight-team tournament and the southern section schedule played through the year with teams from that section. These include the teams at Raton, Springer, Dawson, Wagon Mound and Clayton. Las Vegas High defeated every team in the section twice except the Normal and Springer, only one game being scheduled with the latter. The High school lost but one sectional game and that was to the Normal.

Results in the northern section were: Raton High took two games from Dawson and one from Springer and dropped two each to the Normal and Las Vegas High. Dawson lost two games to each team in the section except Springer with which team it had no scheduled game. Springer High dropped two games to the Normal, one to Las Vegas High and one to Raton. Clayton is figured on a par with Springer having played extra periods in both games with that team and having defeated Dawson.

The Albuquerque High and Harwood easily take first and second place in the central section. The High school won every game in the tournament against Mesquite, the Indian school and Harwood and Harwood took every game except those against the High school. Other central section dope shows that Santa Fe dropped two games to Albuquerque High and one to Mesquite. The local High defeated Gallup two games and both the High and Harwood beat Elean two games while Elean took the measure of Socorro and Mountainair.

The two teams to represent the Pecos section are now being chosen in an elimination tournament being held at the Roswell Military school at which the following teams are competing: Roswell, Clovis, Fort Sumner, Artesia, Dexter, Huguenot and Carrizozo. In the south section a tournament is being held at the state college at Las Cruces in which the following teams are competing: Las Cruces, Tularosa, Alamogordo, State College High, Santa Rita, Deming and Silver City. Both tournaments will conclude this week.

Joplin, Mo., March 1.—Having dropped out of the Western league by virtue of selling its franchise to the league owner, Joplin this afternoon virtually became a member of the Western association. A provisional lease was given Ray Winder, owner of a franchise in the Western association, local and the season at Chickasha on the local baseball park. The lease will become effective as soon as the territory is released by the Western league.

BASKETBALL SQUADS TO FIGHT FOR HONORS IN SOUTHERN ZONE

(Special Cor. to the Journal.) Las Cruces, N. M., March 1.—Eight basketball teams, representing Alamogordo, Tularosa, Deming, Silver City, Las Cruces, Santa Rita, Columbus and State College prep, will battle for the southern championship in the high school tournament at the state college gymnasium, March 3 and 4. Fourteen games are to be played, as follows:

Las Vegas High and Normal went right to contend in the eight-team tournament and the southern section schedule played through the year with teams from that section. HUNTING FILMS TO BE SHOWN AT G. P. A. BANQUET

Annual Rabbit Dinner of Local Game Protective Association Will Be Held at "Y" on March 7. The series of hunting and fishing pictures made by Field and Stream will be one of the features of the Albuquerque G. P. A. annual rabbit supper at the Y. M. C. A. gymnasium on the evening of March 7. The pictures are considered the most remarkable ever taken of wild game life and have aroused the interest and enthusiasm of sportsmen throughout the country where they have been shown. The film is divided into five parts. Deceiving Canadian geese in the first film. The film shows the hunting geese from pits in a corn field over five feet with hundreds, possibly thousands of geese in the camera range, some of them being within 10 feet of the camera. Swardfishing at Catalina shows the complete story of the killing of a Martin swordfish. This release is a spectacular picture of the strike, the fight and the killing of a 240 pound swordfish. Turkey hunting in Maryland is the third part of the film. The scenes were caught with a "sawtooth" gun in the camera. Black bass fishing on the Potomac is the fourth part of the film and shows hunting in New Brunswick and Virginia, compose the last part of the picture. The film is a non-commercial one, having been prepared by Field and Stream for such entertainment as the local game dinner. Reservations can now be made at the sporting goods stores.

(Special Correspondence to the Journal.) Roswell, N. M., March 1.—A. M. Rogers of Lincoln is in jail here charged with having in his possession a still. The arrest was made by Carl Gordon, chief of police, and Carroll Holland, deputy sheriff of the county. The officers followed Rogers from Roswell. At his home near Lincoln they found what they charge is a still with a complete equipment. They assert that just previous to their arrival Rogers had broken a bottle of whiskey.

RIPPLING RHYMES

By WALT MASON.

GREATNESS.
Our Leading Citizen is dead, the greatest man in Punkville town; no more we mark his stately front, no more we shrivel at his frown. He used to think—and so did we—that when he died all things would stop; oh, where would poor old Punkville be, without the anchor and its prop? And now he's resting in the shade, he's done with every mortal game; and Punkville reaches out for trade, and things go on about the same. The cars are scotching everywhere, at filling joints the gas is sold; men sit around the village square, and chew and argue as of old. The young folk breathe the same old tale of love and sunny days to come, and Abner Jinks has gone to jail, accused of peddling stone-throwing. The former scours his rusty plow, the woods are full of candidates, the Blue Front state announces now a special sale of sleds and skates. A fire alarm still draws the throng, as down a scrap between two dogs, the solar system lumps along, though it hadn't slipped some cogs. Our Leading Citizen is dead, the pride and bulwark of our town, and 'tis his calmly sleeping head we rear a shaft to hold him down. Oh, what an empty dream is pride, and what a hollow thing is fame! Our great man paid him down and the young folk breathe the same old tale of love and sunny days to come.

THE NEW GENERATION

By JANE PHELPS

MARGARET CONFIDES IN CRAIG ONCE MORE.
CHAPTER 105.
In spite of the casual ending of their talk Margaret could not help worrying about this new idea of Joan's. Suppose she were in earnest and should fly off to the ends of the earth some day on her chase for the pot of gold at the foot of the rainbow? As usual she spoke of her fears to Craig Forrester, ending rather dolefully:
"There's no use your waiting any longer for me, Craig. Find some nice girl or woman, and make a home for yourself and her. It isn't fair to keep you dangling along in this way. I am sure I never shall be able to marry you."
"Oh, yes, you will!"
"Where do you suppose Joan got that idea of all this crazy traveling? Out of books, I suppose," she answered her own question.
"Oh, I don't know. I'm not so sure. Did she ever talk that way before that young Frost came here?"
"Not to me. I never heard her run on so. She was as excited as if she were really going."
"I'll bet a nickel, and won't lose it either, that he's at the bottom of this new idea. That girl will be the death of you yet, Margaret, and how you do love her—I do too, if I were honest about it."
"Of course you do! No one could help loving Joan if they knew her. She was a dear, wasn't she? She was so inherently honest, such a capable young thing, and so sure of herself. Think how she has earned all she has had for months. She will scarcely let me do a thing for her. Just as sure as I take her something nice, she makes me stay and eat it up. I never saw such a spirit nor such application. I'm afraid all this time she will make herself sick."
"She won't! She's just a healthy young girl!"
"But to get back to what we were talking of, Craig. There's absolutely no sense in your waiting for me," tears glistened in Margaret's eyes. "You know I care for you, so don't talk of that. But I simply cannot, I will not make Joan unhappy. And if I should marry you you would be unhappy also because of her demands on me—unless she ran away as she has threatened, and then she should be unhappy. Don't you see it is impossible?"
"No, I don't!"
"But you must! It may be years before Joan marries, or makes up her mind to let me, and I'll be old and wrinkled then and you won't want me, and will blame me for spoiling your life."
"Forrester wiped away her tears then drew Margaret into his arms.
"How many times have I told you," he asked, "that I am willing to wait 70 times seven years for you, dear?"
"We'd both be dead before you

got through waiting," she said between a sob and a laugh. "Help me, Craig! Don't talk such nonsense."
"Premise me, Margaret, that the day Joan marries you'll marry me."
"I promise! We will have a double wedding. But she won't marry."
"I shall be my one aim in life to see that young person change her name. I shall think of nothing else—not even of you—until I have found her a husband. If necessary, I'll wait it square to some nice fellow that he is ruining her lives by not marrying her. No decent man would want that on his conscience. Are you going to New Haven when Ted is graduated?" Craig questioned.
"Janet asked us, but Joan declares she can't afford it."
Craig Forrester remained in a brown study for a while. Then: "Perhaps it is just as well, it will pique Ted, and make him all the more anxious to win her. That boy is head over heels in love with Joan and would marry her in a minute if she would have him. Invoke the help of the gods, Margaret."
"Do you know, Craig, we are getting almost as foolish as if we were Joan's age."
"Good thing! We've got to keep young, you know. Wasn't that what you came to New York for? To keep young and have a good time? You've done the first all right."
"And you have made me have a better time than I ever dreamed any woman could have." Margaret returned softly.

MAJOR MORGAN TO SPEAK AT THE WOMAN'S CLUB

Public Is Invited to Hear Speech on American Problems at Club on Friday Afternoon.

A lecture on "American Problems," to which the general public, both men and women, is invited, will be given on Friday afternoon at the Woman's club by Major William T. Morgan, a noted lecturer. The Woman's club arranged to present the lecture at the suggestion of other civic clubs of the city.
Major Morgan is the manager of a lecture bureau of the International Correspondence School of Scranton, Pa. During the past year he has delivered more than 400 addresses before civic organizations and industrial plants and other institutions where his message could bring inspiration and practical help.
His lecture program is intended to be a real service to the American people. His peculiar task is to arouse, encourage and inspire men and women to their consciousness of their need of an educational and industrial training, and to call attention to America's need for loyal citizenship and respect for the law by all classes.
Major Morgan served in the Spanish-American war and afterward in the army of occupation. He enlisted as a private in the 8th Maine Infantry in a few months because of his knowledge of educational work he was retained for two years after the armistice in the educational section of the general staff.

CAST OF THE KIWANIS EXTRAVAGANZA MADE UP OF LOCAL TALENT

Mrs. George Edwards, the professional director, who has been secured by the Kiwanis club to direct the musical review and cabaret show at the high school auditorium on Monday and Tuesday nights, next is extremely pleased with the available musical comedy talent.
She has decided to do her best to make real "high-steppers" of such material as Louis Hesselstein, Dr. H. M. Hovens and other well-known business men.
Tomorrow's paper will contain the announcements of the cast. The Bo-Peep Beauty chorals will excel anything of the kind ever before attempted in Albuquerque. The gorgeously costumed boys and girls will certainly make a most dazzling number.
Several years ago, the larger theaters all over the country were showing Bob Fikens, the boy with the educated feet, well—this same Bob will appear in the "Passing Show of 1932." Mrs. Edwards as a dancing teacher is proving a wonder and a snappy mustang. Ted is the premise of the Kiwanis.

MEXICAN REBEL CHIEF TAKEN INTO CUSTODY

(By The Associated Press.)
El Paso, Tex., March 1.—Nicolas Rodriguez, Mexican rebel leader, who February 8 crossed the border near here at the head of an armed band, was taken into custody in El Paso today by department of justice agents.
Rodriguez was found in a house in the Mexican quarter suffering from two bullet wounds, neither of them serious. He was arraigned before the United States commissioner and pleaded guilty to the charge of setting on foot a military expedition against a friendly country. Bond was fixed at \$10,000, which was not furnished.

Careless Shampooing Spoils the Hair

Soap should be used very carefully, if you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and ruins it.
The best thing for steady use is Mulsified coconut oil shampoo (which is pure and greaseless), and is better than anything else you can use.
Two or three teaspoonfuls of Mulsified in a cup or glass with a little warm water is sufficient to cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excess oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.
You can get Mulsified coconut oil shampoo at any pharmacy, it's very cheap, and a few ounces will supply every member of the family for months. Be sure your druggist gives you Mulsified.

MRS. ELVA CALKINS.

"I have gained thirty pounds since taking Tanlac and never felt better in my life than I do now. Mother says she hasn't seen me looking so well since I was a girl," said Mrs. Elva Calkins, 209 Blandine St., Utica, N. Y.
"For eighteen long years I suffered from stomach trouble and sluggish liver, and during all that time I hardly knew what a well day was. As I almost starved myself trying to avoid indigestion, I fell off until I was hardly more than a shadow, and was so weak I was barely able to drag myself around the house. As a result of my long suffering I became almost a nervous wreck.
"This was the condition I was in when I started taking Tanlac, but today I am strong and well, feeling and looking like a different person from what I did a short time ago. It is no wonder to me that so many people praise Tanlac to the skies.
Tanlac is sold by the Alvarado Pharmacy and all other leading druggists everywhere.—Adv.

SEMI-FORMAL SUIT OF COBWEB GRAY

By ELOISE.

Gray is always in demand by some few women every spring. It furnishes the light color wanted for spring wear and yet it may be dark enough to be practical and it lends itself nicely to colored trimming and hats of any shade. The woman who wants to blossom forth in the spring with brilliant blouses and kid hats may do so with good taste if her suit, the foundation of her outfit, is of the neutral gray shade.
Pictured here is a lovely semi-formal suit for the grown woman. It is made with the long coat of slenderizing lines and a plain skirt. The side panels are embroidered in blue reversing the usual combination. The single button closing at the front of the coat is carried out consistently on the sleeve. The odd rounded pocket slit follows the line of the embroidery.

HORSE A WINDSUCKER AND CRIBBER, CHARGE

(By The Associated Press.)
New York, March 1.—One witness testified today that he had seen the race horse Playfellow, brother of Man O'War, cribbing at his stall before he was sold by James S. Sinclair for \$100,000 to Harry F. Sinclair, and others admitted having seen a cribbing bit in the animal's mouth. Their testimony was in the second suit brought by Sinclair to recover the purchase money on the ground that the horse was a windsucker and cribber at the time he bought it on the assurance that the animal was sound.
Dr. C. H. Cranford, veterinarian, testified that he saw the horse show signs of distress when he ran four days after the sale.
"Suppose some one gave him an extra pill of water before the race, wouldn't that affect him?" Supreme Court Justice Crosby inquired.
"But no one would give it to him," said the witness.
Daniel T. Winslow, stable man for Johnson, testified he had once seen Playfellow crib but that he never did it after a board in his stall upon which he cribbed, had been removed.

INCH OF SNOW FALLS IN VEGAS VICINITY

(Special Correspondence to The Journal.)
Las Vegas, N. M., March 1.—A two-day snow ceased falling Tuesday morning. It was the first appreciable precipitation since August 15, when a torrential rain washed away bridges and did great damage to the roads. The snowfall was about one foot, with a water equivalent of about one inch. A drop in temperature to near zero followed, but it is believed the snow and cold will quickly disappear, so that no damage will be done to livestock. Cattle are in better shape than they have been at this season for many years. As soon as the snow has gone, farmers will begin plowing for spring planting. The winter wheat planted last fall is in bad shape, but a few days will determine what it will do with moisture. Some of last year's best winter wheat was not planted until early March, and it may be that considerable will go in this month.

TEXAS CATTLEMEN TO ATTEND CONVENTION AT EAST LAS VEGAS

(Special Correspondence to The Journal.)
Las Vegas, N. M., March 1.—A large number of Texas cattlemen are coming to Las Vegas to attend the annual convention of the New Mexico Cattle and Horse Growers' association, March 20 and 21. T. T. Galleher, general freight and passenger agent for the Santa Fe railway, with headquarters in Amarillo, has written W. T. Taylor, secretary of the chamber of commerce, that most of the Texans will make the trip overland "so that they may investigate New Mexico range conditions." About twenty-five requests for rooms have been received from people of the Amarillo district.
Vincent K. Jones, president of the chamber of commerce, has been invited by the arrangements committee of the association to give the address of welcome. Rev. Dr. H. R. Mills, pastor of the First Methodist church, will give the invocation. The chamber of commerce will hold a mass meeting for its members on Thursday, March 9, at the Duncan opera house.

MARCH "WILL GO OUT LIKE A LAMB," SAYS

Chicago, March 1.—Spreading a white blanket of snow over Indiana, Iowa and Missouri, March roared into Chicago today burdened with snow and cold.
Fear of further flood damage in parts of Illinois and Wisconsin was lessened by the sudden cold which blocked many streams with ice jams.
According to the weather man, there will be constantly rising temperatures until, in accordance with the proverb, March "will go out like a lamb."

GOOD SOAP FOR LESS THAN TWO CENTS A POUND

Make it At Home By This Easy Process—Takes Less Than 30 Minutes.
Nowadays, more and more women are doing as their mothers did and are making their own soap. If you have never tried it, you will be surprised to see how easy it is to make good soap. Soft soap, hard soap or floating soap, just by using kitchen scraps and waste grease together with a can of Merry War Lye, the soft, and sure soapmaker.
In the old days when soap was made by the boiling process it took nearly all day to make a kettle of soap. Now it is hardly any longer at all—requires no boiling—takes less than 30 minutes. Saves you money and gives you all the pure, clean soap you need for kitchen, laundry and all household purposes.
You will find simple directions for soapmaking on the label of every can of Merry War Lye—also many other recipes such as how to make ice cream, how to soften water, how to make clothes washing easy, how to brighten cooking utensils, etc.
Merry War Powdered Lye is also a wonderful cleanser and purifier for use about the home, barn, chicken house and out-houses. Comes in a convenient can with revolving sifting top that cannot come off, cannot get lost, recloses tightly and preserves contents. It is economical to buy and easy to use.
Ask your dealer for Merry War Lye—the sure you get Merry War—the lye that has made good for 23 years.

WHERE DANGER LIES. Danger to America lies within, not without. As long as the heart is not honey-combed with the fatty degeneration of ease and selfishness and vice...

My apprehend," said Daniel Webster, "no danger to our country from a foreign foe. . . . our destruction should it come at all, will be from another quarter."

Those who read these lines are the real rulers of America within the contemplation of those who founded America. In practice, we are all too prone to neglect almost wholly our duties as such rulers...

All of this might well be said as an argument for a keener interest in our public school system. Upon such an interest depends the America of tomorrow.

Enough intelligence, loyalty and unselfishness exists today to solve reasonably the problems of today if the interest of the average citizen can be sufficiently aroused to grapple seriously with them.

Only a few of the men whom New Mexico has honored in the past dozen years, have been worthy of the confidence reposed in them. The people wished for equality of opportunity, a fair distribution of the burdens of government...

Are we without spirit that we will permit our rights and liberties to be taken from us thus? Are we without hope that the evils of the past may be corrected and so have accepted the conditions as inevitable and have ceased any effectual protest?

A LONG STEP FORWARD. The difference between the record of the League of Nations to date and that of the Washington conference on the limitation of armament is the difference between vague theory and practical action.

interference with their power." This treaty absolutely ends the race in competition in naval armaments. And yet as Mr. Hughes points out, it leaves unimpaired the relative security of the great naval powers.

Is not this an achievement ushering in a new epoch in world affairs. To whom does the credit belong? All the nations concerned are to be congratulated on the spirit they have shown, on their eagerness to co-operate in the plan for the world's peace, and the gratifying result was due to the initiative of the head of our government, President Harding.

A RECORD OF PUNCTUALITY. The American Steel and Wire Company has pensioned its oldest employe, oldest not in years but in service. Edward Quilty has completed 55 years of work. His span of service covers the development of the steel industry in America.

Mr. E. T. Chase has left Albuquerque. Business reasons led to his decision. The Journal regrets the loss of Mr. Chase. In very many respects we disagree with him on public questions. None the less, his is a dominant, forceful and effective personality.

Mr. Chase has done much to promote the interests of this city. He will be missed when real men are needed for a public task. The Journal wishes Mr. Chase and his interesting family health, happiness and prosperity in their new home.

CRAWFORD RETAINS LEAD IN THE "Y" ATHLETIC TOURNEY

Although five men were out of the "Y" athletic championship meet last night due to sickness, the regular schedule was run and official records taken. The other men will be allowed to do the events later in order that their scores may not be spoiled.

The five best records made in the 100 yard race were: Holcomb, 27 seconds; Crawford, 28 1/2 seconds; Christensen, 28 3/5 seconds; Davidson, 29 2/5 seconds and Harrington, 29 3/5 seconds.

Crawford led the list in the 16-foot rope climb, making 4 2/5 seconds. The four next ranking in the event were Davidson, Hernandez, Holcomb and Christensen.

The five highest ranking contestants in the championship are Crawford, 315 points; Holcomb, 277; Hernandez, 272; Kiddoo, 263, and Harrington, 265.

The events for next Wednesday night will be the springboard high jump and the running broad jump.

UNIVERSITY HEIGHTS DOINGS

Mrs. Baker and family, recently of Newark, N. J., on Monday purchased through D. T. Kingsbury the property known as the Duerer home on Harvard avenue, which was recently purchased by Mr. Charles G. Zapf. However, the demand for that style of house was so keen that Mr. Kingsbury resold the same for Mr. Zapf before he had time to move into it.

The snowstorm Monday was of great assistance on the Heights in keeping back the early spring bulbs which threatened to come out.

The Mountain States Telephone company extended their line through the new restricted district last week, which will give the residents of that district full telephone service.

COMMISSIONERS ISSUE ELECTION PROCLAMATION

Designate Places of Registration for Election April 4; City to Remain Neutral on Tramway Rates.

Proclamations for the election on April 4 of three city commissioners for a term of four years each, to take the place of Commissioners Walter M. Connell, J. M. Reynolds and J. T. McLaughlin, were adopted by the city commissioners at their meeting last night. The following places were named as the registration places: Alvarado pharmacy, Second ward; Butts' pharmacy, First ward; Briggs' pharmacy, Third ward; Rippe's pharmacy, Fourth ward.

Persons wishing to file a statement of their candidacy to fill one of the vacancies will be privileged to do so on Saturday, March 4, and the closing date for the filing of the candidacies will be March 29. At the meeting last night a letter from the state corporation commission was read asking for a statement of the attitude of the commission with regard to the proposed raise in street car rates from six to seven cents.

Requests from several taxpayers for paying on North Fifth street were read, and it was decided to instruct the individuals to attempt to secure signers to a petition for the paving, which would be handled in the same way as other petitions. Petitioners for a street lamp at the corner of East Silver avenue and Locust street were informed that there had been no new lighting installed for more than two years owing to the lack of funds, but that when funds became available the petition would receive consideration.

CONTINENTAL TO BUILD CENTRAL AVENUE STATION

A \$10,000 gasoline filling station is to be erected at once by the Continental Oil company at the southwest corner of Central avenue and Seventh street. Permission to store the gasoline was asked by representatives of the company last night at the meeting of the city commission, but it was discovered that the city ordinance covered the question thoroughly and the only change which will be necessary in the company plans is that instead of a 1,000 tank, they will have two smaller tanks, the ordinance providing that not more than 250 gallons of gas can be stored underground in one tank. The building will be situated back from the corner in order to provide a wide driveway for automobiles. Construction work will start as soon as the plans are approved by the city engineer.

NAMES OF SEVERAL CITIZENS SUGGESTED TO SUCCEED STRONG

(Special Correspondence to The Journal) Santa Fe, March 1.—Names of several citizens have been recommended to Governor M. C. Mechem for appointment to succeed Charles U. Strong, of Mora resigned. The accounts of the treasurer's office are now being audited by the traveling auditors staff. Strong's resignation will become effective when this audit is completed.

The citizens recommended to Governor Mechem are O. A. M. Santa Fe, Albuquerque; Cleofes Romero, Las Vegas; Captain T. J. Molinar, Portales; Melicio Apodaca, Socorro; Alvan Alberta, Socorro; A. C. Kelmah, Artesia; Robert N. Miller, Hagerman.

It is believed that Governor Mechem will make the appointment upon the condition that the new treasurer is to devote his time to the office, remaining on duty in the office during office hours. This has not been the custom practiced by territorial and state treasurers for a number of years.
