## Indian Matters.

During the past week, our Indian brethren have been at their old tricks of killing and stealing. On the morning of the 14th inst. at Bib Bug, 10 miles East from Prescott, they shot and killed Robert Smith, one of the best and most industrious of our citizens.

Monday night within a mile of Prescott, they came across two cows belonging to R. Menehan, killed one and wounded the other so badly that she had to be killed, a day or two afterwards, in order to put an end to her misery and suffering. They packed off every ounce of the flesh, hide, etc., of the cow killed in the woods. These cows were brought here by Joseph Ellis, from Colorado, over four years ago, and during all that time, managed to escape capture and death by taking to their heels and running to town whenever they saw or smelt Indians, but the wily savages got them in a tight place at last.

About 4 o'clock, Thursday morning last, they stole up to the corral of T. M. Alexander, who resides on Granite Creek, about two miles below Prescott, and one mile below Fort Whipple, let down the bars and took therefrom five cows—all he possessed. The day previous, Mr. Alexander, while laboring in his field, was led to believe, from certain signs seen by him, that Indians were in the vicinity and concluded to sit up and guard his cattle and horses that night, which he did, until about 4 o'clock next morning, when, thinking all danger past, and wearied with fatigue, he retired to rest. But it seems the red devils who never sleep when there is a chance for them to steal, and who, in doubt, had watched all night for a chance, were not slow to take advantage of things, and gobble the cows. The first member of the family that got up on the morning in question, raised the cattle, when Mr. A. got up, dressed himself and looked to first and next to relate his loss and raise a party to follow the Indians. Shortly after a party of 8 Indians and some warriors took the trail of the Indians and followed it so far as the Agua Fria, when, seeing no sign of Indians or cows they gave up the chase and turned their faces homeward.

Now, we have lived through worse weeks for Indian depredations and robberies than had one last year, but when the Indians, and their mother and son, at Santa Fe, are added to the already lengthy chain of Indian crimes, cruelties and misdeeds, what shall we do? Shall we still continue to suffer on and submit to these outrages until we shall be entirely ruined and impoverished and forced to abandon this beautiful country, or shall we like injured men, who know our rights, and knowing, dare maintain them, rise in our might and, with hearts steelled for revenge, march in the Colorado river, the headquarters of the thieving, plundering wretches, and slay them like dogs? are questions for our people to decide.

Long have we borne with these savages, hoping against hope, that Government would do something but that something has not been done, and we still suffer from their attacks, still grow weary guarding our lives and what little property we have or we care for. So then, still let us in the same old tale,—"So and so has been murdered by Indians, such a man's herd has been stolen by Indians, and somebody's field, house or cabin robbed or burned by them?"

Armed with these cowardly words have no decent, plausible excuse to expiate their guilt than their Indian for the crimes they have committed. Until their devilish, murderous nature is reformed, their robbery, waylay and murder our citizens, and treated with kindness and generosity, alluding with their point-blank arrows of malice, when they come together to you covering their nakedness, and shielding them from justice and the cold of winter. But mark how the brutes have paid you back for former kindnesses. They have been tried and found wanting; they are worthless villains, cowardly snakes a curse to whites and industrious fellow citizens, and no white man, citizen or soldier, no peaceable Indian, should not saddle with the whole breed of Apaches, Wallagpas, Yampais, but Mohaves, Yumas, Chinlepuas, and all Indians of every other tribe and band in the Territory are sent to the abode of perdition.

Monsters of iniquity, false-hearted, lying scoundrels, law breakers, they poison lives for their white brother when it suits their purpose, and torture him to death when it suits another purpose. Corner them, get to the upper hand of them and they will enter into a treaty while their bullets are made up to break it the first chance they get, knowing that when again cornered our generous Government will give them another chance to "reform." But they never reform for the old Barry is indulged in them too deeply for reform.

A couple of weeks ago, we conversed with a gentleman, who had been acting as guide for Lieutenant Wells and Curtis in their recent scout towards the Colorado, and he assured us, that it was the opinion of those officers that the Indians killed by Green and Dr. Jones that killed and stole from the country between Prescott and the Colorado were River Indians, and not the "peaceable" River Indians, and that the soldiers from Prescott, and proved plainly that they had reasons for fearing them, as undoubtedly, they are the Indians who have preyed upon us.

Mr. Glenworth, a gentleman who has frequented the road between La Paro and Prescott for several years past, is of the same opinion, and has told us that armed Indians go to and loiter the Reservation whenever they please. *Arizona Miner Sept. 15.*

**MEXICAN BIRDS.**—The honey bees of West Mexico and Honduras are very different from our own. There are fourteen distinct species of them, one of which swarms a small nest or hive of course, with a waxy covering like lumps, filled with a delicious fluid generally used in medicine. An exchange exists of them.

The hives of these bees contain over 1000 insects, smaller than ours, whereas those of Europe have from 10,000 to 20,000 of such large size, but the Mexican insect, which is stingless, is mixed with very little treacle, and all the honey can be taken out when the summer without disturbing the bees, as they are widely separated from the hives, and honey sacks or bottles, which each often measures seven inches in length by five in diameter, and the active little fellows continued to their labor as if nothing had happened. The Mexican bee masters assert that their apes have a wooden frame placed over the entrance of each hive, which are renewed every few hours, to keep a look-out for the armies of black ants, their worst enemies. Several of the hives of the Angel bees were brought to San Francisco from Mexico in 1852, but we know not what was done with them, though "bee swarms" were then selling from \$100 to \$200 apiece.

JOHN T. RUSSELL, EDITOR AND PROPRIETOR.

Saturday, October 17, 1888.

FOR PRESIDENT,

HORATIO SEYMOUR, of New York.

FOR VICE PRESIDENT,

GEN'L F. P. BLAIR, of Missouri.

The Legislature.

In consequence of the number of intelligent gentlemen who have been elected to the next Legislature of the Territory it may confidently be anticipated that the labors of that body at the coming session will result in the enactment of laws useful to the country and creditable to their authors.

For several years past our legislature has been sadly neglected in consequence of the general incompetency of the members and their unfitness for the positions they held. It is true that there have always been a few good men mingled with the mass, but their number has been so limited that their influence has been ineffectual for good or evil in the actions of the body. With the change that we have mentioned, however, there will be a great and wholesome change in the mode of proceeding and the Legislature in place of being a mere political caucus governed by a few unscrupulous demagogues as has been too much the case in the past, it will become a body for the enactment of laws and not itself become a law in the influence of the unworthies who have ruled it almost to the ruin of the Territory.

A practical tax law is sorely needed. Our present financial condition is most lamentable. The result of the Territory has become so low that warrants on the Treasury have no actual market value. Not because the Territory is so greatly in debt, but because of a want of faith in the present system of levying and collecting revenues. Ten thousand dollars would more than pay the outstanding liabilities of the Territory and this, with proper management, could be liquidated and the current expenses paid, in one year, without being at all onerous to the people. But a new tax law is requisite for the accomplishment of this reform. The Treasurer should be the disbursing officer of the public funds instead of the sheriffs of the different counties. It is a well known fact that no money has been paid by the collectors into the Territorial Treasury for more than eighteen months. Hence none of the debts of the Territory have been paid during that time except such as it has pleased the sheriffs to pay, and they have so managed it as to accumulate, in the time specified, the debt which we have above alluded to. Whether they have correspondingly enriched themselves and friends we do not say, as to do so is they have, by their peculiar mode of financing been impoverishing the public treasury and ruining the credit of the Territory. And this process must naturally continue until the Legislature shall take the matter in hand and provide a remedy.

The legitimate expenses of our Territory are small. The taxes that would have to be levied to defray them would not be felt by the people if they were equitably levied. In part, partially collected and honestly disbursed, and it is to the enactment of a law of this nature that we earnestly solicit the attention of the coming Legislature. If some such measure be not adopted this winter our financial condition will go on from bad to worse until Territorial obligations will not be worth the paper upon which they are printed. We herein set forth facts and not fancies. They will be recognized by all who have paid any attention whatever to our financial condition and the Legislature will be greatly at fault if they further overlook them.

THE BRECKEN CASE.—The case of the United States vs. Wm. Brecken of which we made mention in our last issue was tried in the U. S. District Court, Albuquerque, last week. The trial was begun on Wednesday and closed about dark on Saturday evening by the jury bringing in a verdict of Guilty. Upon the rendering of the verdict the Counsel for the accused made a motion for a new trial, the hearing of which was continued until Monday by Judge Houghton before whom the case was tried. The argument of counsel on the motion for a new trial was not concluded on Monday and consequently went over until Tuesday morning. Monday night Broochius, Judge of the 2nd District, arrived in Albuquerque and, as we are informed, took his seat on the Bench with Judge Houghton, during the conclusion of the argument Judge Houghton over ruled the motion and declined to grant the new trial. Broochius, however, to the great surprise of many took the matter in his own hands, although he had heard none of the evidence and took no part in the trial of the case, and decided that the new trial should be granted, and made an order to that effect. In this condition the case stood at our latest advices from Albuquerque. Subpoenas were issued for witnesses in Santa Fe, but we have not learned whether or not they reached there in time for the trial. We have heard something of the contents of a letter received by a gentleman in this city from a lawyer in Washington City, in regard to matters pertaining to this case which show a most extraordinary condition of morals in the administration of the law in our midst, and if we can obtain the permission of the recipient of the letter to that effect, we shall publish it and expose the whole matter to the public and the government.

Col. McClure invites proposals for flour and advertising dedicated vegetables for sale. See his advertisement.

Mr. A. Gottmann of the Firm of Gottmann Friedman & Co., returned to the city on Wednesday last from Taos. He gives flattering accounts of the mining prospects in the neighborhood of Taos, and brings with him rich specimens of quartz from a lead which is being opened by the Arroyo Hondo Mining & Ditch Co. All who desire to see these specimens, from curiosity or for information, can do so by calling at their office on Main Street.

Tax Returns.—The returns received from the elections held on Tuesday indicate that Ohio and Pennsylvania have gone for the republicans and that the vote in Indiana and Nebraska is close between the two parties. At the time of this writing (Thursday) we have not data sufficient upon which to base an opinion as to what the majorities will be.

Our Colorado friends are yet in a pickle—they do not yet know to a certainty who is to be their Delegate in the next Congress of the United States. The Denver News says it is of the belief that Bradford, Radical, is elected by a majority of votes, and it went on another word on the subject until the vote shall be announced officially by the canvassers.

Army is begging to be appointed on the Indian Peace Commission. He is certainly humbug enough to constitute a portion of that humbug institution. His trip to the San Juan to settle the Utes is evidence enough of that fact.

To Hon. W. F. Craig has been awarded the contract for carrying the tri-weekly mail from Pueblo to Trinidad, Colorado. Mr. Craig will make a prompt and reliable contractor. We learn that the route over which the mail will be carried will pass by the residence of the contractor on the Huerfano it being shorter than the old route.

The stealing of two horses near Pueblo, Colorado, last week is announced, and it is supposed the thieves came towards New Mexico. Look out for them! No description of the stolen animals is given.

We have been shown one of the finest apples we have ever seen in the Territory, by Gov. Mitchell, which was grown by Mr. Jack Davis of Mesilla and forwarded by express to this city. When the culture of fruit in this Territory shall have received the attention it deserves at the hands of our people we will produce quantities and qualities that cannot be excelled in any part of the country.

We are indebted to the commissioner of Agriculture for a copy of his valuable report for September 1888, for which he will please accept our thanks.

Hon. C. P. Clever will accept our thanks for copies of reports of the Impediment Trial of the President, in three Vols., and also a copy of the Navajo Treaty.

The weather could not be more charming than it is at present. The wood market is not patronized by the good people of Santa Fe to any great extent as yet.

On Saturday last Messrs Z. Staab & Bro. received a large lot of goods from the west per train. Their customers will take notice.

Complimentary.

The Grand Jury for Taos County at the recent Term of Court held in that county in their report at the close of the Court, referred to Chief Justice Watts in the following complimentary terms. We find the report published in Tuesday's New Mexico in Spanish, and translate this portion of it for our readers.

The Grand Jury, before leaving this place, cannot do less than manifest in a public manner the pleasure they feel in seeing upon the Bench the Hon. John S. Watts, Chief Justice, since he was the first District Judge in this County. His reputation as a faithful officer is acknowledged by the people and the Grand Jury, in the same of the all the people of Taos County, extend to him a cordial reception, and hope that in the future the courts will be held at their proper terms without fail, for the promptness and energy of the Judge is well known. The Grand Jury returns his administration of Justice to be impartial, upright and able, in the right.

The following note was received in due time but was mislaid accidentally and was not published as early as it otherwise would have been.

To the Editor of the Gazette. Sir:—Will you please notice in your paper that the non-commissioned officers and men of 'F' troop, 3rd U. S. Cav., stationed at this post have sent through me \$48.70 to the Sisters of Charity in Santa Fe for the benefit of the orphans under their charge. Very Respectfully, JOS. J. ENNIS, Lieut 3rd U. S. Cav.

Is there in Denver City a company called the "Denver and Santa Fe Stage Line"? Can our Denver contemporaries solve this conundrum?—Santa Fe, Gazette.

Yes, the coaches of the Denver and Santa Fe stage line, A. Jacobs, proprietor, run between Denver and Trinidad, connecting there with the Southern overland mail line for Santa Fe.—Denver News.

We are glad to hear it. Having written them on matters of business (the nature of which it is not necessary to mention now) twice, during the last six months past, and not having had any reply we were at a loss to know whether the company was a myth or what it was.

The Semi-Weekly Review of October 9th is following.

In Taos. Since our Tuesday's issue, we note Chief Justice Watts, Colonel J. L. Collins, Marshal Pratt, U. S. District Attorney Elkins, Attorney General Ashurst, E. H. Tomkins and Samuel Ellison, Esq., Thomas Conzelle, Bernard Koch of Santa Fe; Dr. Hilgert, Lou Laves; Dr. A. F. Harst; Lintner; Colonel J. F. Chavez, Lou Jinet; and a multitude of grand and petit jurors, ligants and witnesses from all parts of the Rio Abajo.

Latest News.

The following is the latest news by our exchange: Chicago, Oct. 12.—Democrats had in numerous torch light processions here on Saturday night, the Times claims fifteen thousand torches in line and one hundred and fifty thousand people in the streets, many buildings were splendidly illuminated and the display of fireworks very brilliant.

Chester, Oct. 12.—A terrible tragedy occurred here last evening resulting in the killing of a man named Hand by another named Cheney. Hand charged Cheney with having improper intimacy with his wife and a quarrel ensued, during which Cheney says he shot Hand in self defence, killing him instantly. Cheney immediately gave himself up to the civil authorities. Both men had borne a good character, and came here from Denver last fall.

Madrid, Oct. 11.—Provisional Junta has granted foreign residents permission to build Protestant churches within the walls of the city. Rivero has been appointed mayor of Madrid; all provinces have formally recognized the authority and control of the provisional Junta.

St. Louis, Oct. 11.—Republicans had an immense display of torch lights last night. Speeches made from three stands; many private buildings illuminated. Little Rock special state that Marcus Hopper was assassinated on steamer Hesper while lying the wharf. Kukulu Khan broke up registration in several counties.

Indianapolis, Oct. 11.—Last night a procession of White Boys in Blue were fired upon from a dark alley, on their return from a democratic meeting, with a shot gun loaded with small shot five or six persons wounded, none dangerously.

New York, Oct. 11.—Madrid special dated the 10th, say Minister Hale had a cordial interview with Zerrano 16-day, and notified him of the probable recognition of the new Spanish Government by the United States after the lapse of one year.

Florence, Oct. 11.—The Italian Government has officially recognized the Joazez Government in Mexico.

Madrid, Oct. 2.—The official Gazette publishes the proclamation of the Provisional Government, promulgating the deposition of Queen Isabella, and proclaiming the sovereignty of the people, concluding with a denunciation of the Bourbons.

The leading bankers and merchants of Andalusia have offered to loan one hundred and sixty million reales to the Provisional Government.

Marquis Norvalhas died in this city this morning from his wounds.

General Colongo, while preparing to fly to France, was arrested and handed over to the revolutionary junta at Burgos. The city of Madrid is quiet. Generals Prim and Sorzano have not yet arrived.

Don Sebastian advised the Queen to inaugurate civil war, but the Basque Provinces refused to supply men or money for that purpose. The Basque Provinces have since given in their adhesion to the revolution.

SAN FRANCISCO, Oct. 3.—The steamer Great Republic for Hong Kong via Yokohama, sailed today with over a million in treasure, cargo valued at one hundred and sixty thousand dollars.

The Oregon Legislature in joint convention today, formally received Gen. Crook, commanding the Department of Columbia, who was introduced personally to each member.

A resolution censuring Senators Williams and Corbett for their acts in the United States Senate, charging them with misrepresenting the people of Oregon, and requesting their resignation, passed both houses.

The Oregon State Fair exceeds previous ones in every particular. The gross receipts were over seven thousand dollars.

Madrid, Oct. 12.—The United States is the first government to recognize the Provisional Government of Spain; the Madrid Gazette first publishes the official recognition of the new government by Mr. Hale, U. S. minister at Madrid.

The provisional Junta has declared in favor of additional reforms, among which is the abolition of the death penalty; it has also ordered return of the back Yucata in England, the payment of damages for her detention, and the imprisonment of the Spanish officials who ordered her seizure.

Pinar, Oct. 12.—The Junta in its debate says Captain General Leyenda of Cuba has given in adhesion to the new provisional government of Spain. Cuba will be permitted to choose members for the Junta.

Havana, Oct. 12.—The Captain General, today issued an eloquent proclamation to the citizens and soldiers, enjoining tranquility and order.

Advices from Mexico, state that the widow of Gen. Patino has accused Counts of the assassination of her husband. The trial of going on at Veracruz. A colonel in the imperial army has been arrested. Rich Gold mines have been discovered in Guadalupe.

ALEXANDRIA, Egypt, Oct. 9.—While the Viceroy of Egypt was visiting an illumination in a narrow street in Cairo, an attempt was made to assassinate him by dropping a steel ball, armed with sharp swords, on his head. The Viceroy escaped unharmed. Perpetrator unknown.

INDIANS ON THE YELLOWSTONE.—The Helena Herald of September 1st, has the following: Three gentlemen, W. S. Hamilton, John Faring and B. Davis, had been on the Yellowstone river prospecting, and were returning from that country to Deep Creek, from whence they went. When some twenty miles this side of the big bend in the Yellowstone they were attacked by a party of about thirty Indians, supposed by them to be Sioux, who were lying in ambush in a patch of wild rice at the head of the ravine, awaiting the approach of the whites, whom they knew must pass that way. They remained perfectly motionless until Hamilton's party were within two rods of them when they arose, yelling like demons, and commenced firing with guns and bows and arrows upon the astonished white men, who up to that moment, had not dreamed of being attacked by Indians.

At the first the two arrows took effect in Hamilton's side, inflicting very severe wounds, but not so severe as to prevent him making good use of his rifle and pistol, as the result of the fight attests. The whites each had a breach-loading rifle and a dragon pistol, which they at once brought into regulation, and the first volley of their guns made havoc with the savages. They then drew their revolvers and commenced a rapid fire, which soon compelled the savages to retreat to a little grove of wild cherry bushes at the left of the ravine, where they secreted themselves and ceased firing. The small party of whites passed on to the top of the hill and opened a few rifle shots to the clump of bushes, endeavoring to drive the Indians out and get a few shots at them, but did not succeed. Five Indians were killed and several others are supposed to have been wounded.

Important International Exchange.

The Commissioner of Agriculture has completed arrangements for exchange of cereals, rye, seeds, and medicinal and other plants, with various institutions and several governments of different sections of the globe. These arrangements include the governments of Austria, Prussia, China, Japan, Guatemala, and British Honduras; the botanical gardens of Melbourne, in Australia, and of Kew, in England; the India museum, the Cape of Good Hope Agricultural Society, and the commissioner of patents of the Argentine Republic. The hearty co-operation of scientific men representing these governments and institutions has been secured.

These arrangements will be carried out mainly through the active assistance of the following named officials: C. F. Looney, consul general of Austria, New York.

W. D. Postum, agent of the department, and S. De Champ, secretary of the Chinese commission.

S. C. Golding, secretary of Cape of Good Hope Agricultural Society, Cape Town.

Superintendent of the botanical garden, Melbourne, Australia.

Dr. Forbes Watson, secretary India Museum, London, England.

Dr. Hooker, secretary Kew gardens, London, England.

United States vice-consul at Hakodadi, Japan.

Royal minister of agriculture, Berlin, Prussia.

General Fitz-Henry Warren, Guatemala, William S. Mocking, Belize, British Honduras.

George Latimer, Saint John's, Porto Rico, West Indies.

David Maxwell, commissioner of patents, Argentine Republic, Buenos Ayres.

Dr. Joseph Cooper Reinhardt, Campina, Brazil.

People have been disposed to laugh at the Car's idea of abolishing the explosive bullets. But with all the appearance of inconsistency it may do good in the end. It may lead some of those rhyers of men to get a step farther and ask "Why use any bullet at all, explosive or non-explosive, in this business of international controversy?" If a congress were to get so far as that, there might be some hope for a world, in which the strong ones are treated to new facts and weapons, on any difference of opinions. It may, in fact, be resolved that shells also are a very savage fashion, and the huge Dalglishes not much better. All this sounds like a possibility just now, but it has the common sense of mankind on its side, and as the present state of the nations are beginning to will for something, this business of every fashion may get some heavy discouragement, shortly. Alexander's dislike of an explosive bullet in the human body is a good opinion, everything considered.—A. J. Foss.
