STEAMER WRECKED.

Terrible Scenes Attending the Loss of Over 300 Lives.

Cartagena, Spain, Aug. 6.-Reports continue to arrive of the terrible scenes attending the wreck on Saturday evening off Hormigas Island of the Italian steamer Sirio from Genoa, bound via. Barcelona and other ports for Buenos Ayres, resulting in the loss of over 300 lives. Among those drowned was the bishop of San Pedro, Brazil. His drowning is attributed to the action of an Argentine passenger who forcibly took from him the life belt with which he had provided himself. One Italian woman kept her three children affoat on a plank until they all were picked up. A bridegroom who was on his honeymoon lost his wife and sister.

Captain Guiseppe Paradi, commander of the steamer, in order to shorten his course proposed to pass close as to the dangerous rocky ledge surrounding Hormigas island While running at full speed, without warning, the Sirio crashed upon the rocks. The vessel settled rapidly and a terrible panic ensued among the 772 persons on board of whom 645 were passengers. The fishermen along the shore put out boats and rescued many. Most of the officers and crew 34t4. saved themselves in the ship's boats. Captain Paradi, after doing what he could for the passengers, committed suicide. It is reported that he said the wreck was caused by his imprudence. He was 72 years old, and had had 45 years experience in navigation. The steamer was owned by the Navigazione Italiana, of Genoa.

Captain Paradi is said to have for merly commanded the Perseus, which sank off Catagena, Many of the pas of the Sirio were on deck as the steamer disappeared. The boats were so overcrowded that a number of them immediately capsized.

Intense Excitement at Genoa.

Genoa, Italy, Aug. 6.-The loss of the steamer Sirio caused intense excitement among relatives and friends of the Italian passengers and crew, most of whom lived in this vicinity. The crowd assumed a threatening spirit against the officers of the Italian Navigation Co. to which the steam er belonged, declaring that the facts were being withheld. The Sirio had seen 23 years' service, but was considered in seaworthy condition,

Rome, Aug. 6.-The Italian General Navigation Co., owners of the wrecked steamer Sirio, received a despatch last night purporting to come from the captain of the Sirio, reserving his report of the details of the wreck, but saying the members of the crew were safe. This raises the possibility that the captain ultimately was rescued.

A Dangerous Experience.

Mrs. Geo. A. Puckett, wife of the Record editor, had a narrow escape from being burned alive this morning by a gasoline stove. The stove did not exactly explode, but in some way the whole atmosphere of the room seemed to take fire from gas that had evaporated either from the tank or through some leak. She was not pouring gasoline nor were any of the burners open when the match was applied and the flame leaned to the ceiling. Mrs. Puckett closed one door of the kitchen and grabbed a large piece of rag carpet which she threw over the stove, but still the fire ran up to the tank. Then she picked up the stove and carried it outside where she fell exhausted. She did not even scream, so intent was she upon saving the house from burning, but her neighbors Mrs. Gilmore and Mrs. Martin had seen the fiame through a window and reached her just as she fell with the stove and doubtless saved her life, though her

clothing had not yet caught fire. Very little damage was done to the wall and floor inside. There was perhaps not more than a quart of gasoline in the tank of the stove, and that burned out without an explosion.

The trouble is attributed to the attempt to use engine gasoline for fuel. There was no gasoline obtaina ble Saturday at the stores, and some engine gasoline was taken home from the Record office for use until the right kind of gasoline could be obtained. Engine gasoline is not in tended for stoves or for illuminating nurnoses, and we are now convinced that the printed warning on the big naptha tanks means something.

BIG BANK FAILURE.

Whereabouts of Chief Officials are Unknown.

Chicago, Aug. 6 .- The Milwaukee Avenue State Bank, one of the largest banks in the downtown district, and having deposits over three million dollars, today closed its doors, following a run. The first intimation of trouble was the appearance at the bank of twenty policemen who had been despatched to prevent anticipat ed disorders, the police department having been notified officially that one of the officers of the bank had absconded. The suspicions of the depositors were aroused by the sight of policemen stationed in Nont of the bank and in a short time a large number of them demanded their mon ey. The turbulence of the crowd was finally quelled by the policemen.

The bank was organized in 1890 by Paulo Stensland, who is president. The capital stock is \$250,000 with a cate. surplus of \$250,000. Of the three million dollars deposits a large part, it is said, consists of the savings of workingmen. President Stensland is now in Minnesota on a vacation. Hen ry W. Herring, the cashier is missing, and a warrant charging him with embezzlement has been sworn out.

State Bank Examiner C. C. Jones has issued a statement that the whereabouts of the officers of the bank are unknown to him, and the bank is without an official head. The odore Stensland has been in charge of the bank during the absence of his he discovered that the bank was in serious condition and notified Cashinvestigation this morning. The bank is now in the hands of the auditor

The patrons of the bank are most ly Polish working people. The stateities at \$4,467,474, of which \$3,115,-195 were savings deposits and \$869. The music was up to the usual high 891 deposits subject to check. Loans standard. and discounts, all said to be good, amount to \$3,223,172.

OFFICIALS HAS BEEN GAMBLING ON HORSE RACES. Theodore Stensland, son of the president, said his father would return tomorrow.

LATER:- This afternoon Theodore Stensland said he did not believe that Cashier Herring's accounts were wrong or that Herring had absconded. The cashier, he said, was accustomed to be absent two or three days at a time, and probably had gone now for a short vacation. The bank has over a million dollars cash Brand Shoes at the House of Peeler

The Daily News this afternoon says: "It develops that the Milwaukee Avenue Bank has been looted to the extent of \$700,000. This amount of hogus notes is stated to have been found by members of the clearing house committee.

IOWA DEMOCRATS.

On Hand for the State Convention

Waterloo, Ia., Aug. 66.-Delegates to the Democratic state convention were on hand today in larger num- 5 bers than usual a day in advance of the convention, as nearly all the veteran workers of the party are here and a conference will be neld to agree upon a tentative program as to the ticket. The leading candidates for governor are George W. Ball, of Iowa City, Claude Porter, of Centerville, and John D. Denison of Dubuque. All the delegates who have arrived are agreed for a strong endorsement of Bryan for President. Among the most conspicuous in this movement are those who in the past have opposed Bryan. It is expected

that the platform will demand an immediate revision of the tariff and placing some articles on the free list.

M. WRIGHT. Official in Charge. REVOLUTIONISTS CONFUSED.

Police Arresting Leaders of All the Labor Organizations.

St. Petersburg, Aug. 6.-Late this afternoon it was evident that the government has practically succeeded in crushing the organization of London England, with headquarters strike leaders here. The central committee of the Social Democrats was captured and placed in prison early this morning, and the greatest confusion prevails in revolutionary camps. The hope of the revolutionists is now centered at Moscow. The St. Petersburg railroad committee has decided to await the result of the strike at Moscow before attempting to order out the men. Wednesday is now the day on which they say the railroad several street railroad lines who struck Saturday have resumed work.

Unless dispatches from the interwithin a few hours entirely change the situation, the general strike promises to prove a complete failure. Although the liberals are strongly opposed to the course of the government, they shrink from precipitating a revolution and the horrors of war. Not only is the sympathy of the public lacking, but in St. Petersburg the leaders of the various labor organizations find many of their followers lukewarm, and even in open rebellion against the strike orders.

service is not brought to a standstill the collapse of the strike is inevitable.

Moscow, Aug. 6 .- All the railroad stations this morning were occupied by troops and heavy reinforcements were sent to the industrial sections. The police are arresting members of unions. No trains left Moscow this morning over the Kazan railroad.

PULAJANES ATTACK TOWN.

Burn Municipal Buildings and Kill Policemen and Others.

Manila, P. I., Aug. 66 .- One hundred and fifty Pulajanes pierced the military cordon, burned the municipal buildings, killed the ex-president of the town, two members of the constabulary and three policemen at Abuyon island of Levte A hundred soldiers and constabulary are now in pursuit of the raiders.

Major Crawford and Captain Knauber with a lieutenant and eight constabulary men were ambushed by Igorrotes while shooting the rapids of Abulung river, Luzon on a raft. Crawford, Knauber and five men were wounded with arrows.

The position of the stand-pat Republicans illustrates the old story of the three men who met to start a new church, with but two planks in its platform-"First, The meek shall inherit the earth; 2nd, We are the meek."

A Boston paper which supported McKinley for the presidency in 1896, says that Roosevelt's most prominent characteristics are-"brag, bluster, conceit, lawlessness, egotism, deceitfulness, impudence, treachery, and heartlessness." Verily the Republican papers do love an honest man whether he be in their own party or in some other party.

THE CURE FOR SOCIALISM. From Tom Watson's Magazine.

Socialism is a doctrine born of the intense longing of philanthropists to liberate the people from intolerable conditions in the cities.

The doctrine has no considerable foothold anywhere outside of the cities. Its arguments are based upon city conditions. In our rural communities it makes no headway, simply because conditions which encourage it in the cities do not exist in the

If the overcrowding in the cities could be counteracted, if the surplus population could be induced to scatter out and go to work, building up the waste places in rural communities, responding to the earnest demand for laborers in the less populous portions of the Union, creating homes and farms upon the millions of square miles of unappropriated or easily accessible land which impatiently awaits the beneficent touch of human industry-Socialism would at once cease to be a factor in poli-

PUBLICAN MACHINE.

THE CORRUPT RE-

Former Republican Congressman Foss has declared war on Senator Lodge and his "corrupt" machine in

Massachusetts, which he declares should be annihilated. He says in a letter to Channing Smith of the Republican state committee: "The machine has made up the slate for all offices for twelve years in advance As you have said publicly, no man has any chance of political preferment in Massachusetts who will not wear the collar of the political boss THE RECORD IS AN EXPONENT of the state. Now, I am in for break ing up this sort of thing."

New Mexico, but the old rotten Republican machine at least has the present governor against its methods of corruption.

A GREAT OPPORTUNITY. From El Paso News.

When President Roosevelt on Oc tober 4th addresses his fellow citizens at Harrisburg, upon the dedica tion of the "bronze doors" of the new capital of Pennsylvania, he will have a great opportunity to advance the cause of good government. The time will be just about month before the people of Pennsylvania and the Lincoln Reformers. The "bronze doors" will record for ages the most corrupt and degraded government that a free people ever submitted to, for the ringleader is embossed there- a week or more. on in enduring bronze.

President Roosevelt can hardly endorse Quay, or his audacious and unscrupulous methods, but will he have the courage to denounce Penrose and successor of Quay and endorsed the cause of the people, who through the reform organization known as the Lincoln Republicans, are trying to wipe out stain and corruption of political bossism?

It will be a crucial test of how much the real reform spirit animates Mr Roosevelt and how greatly his mind is bent on vivifying reform efforts in

The issue is plain. On the one side is the old Quay gang, now headed by Penrose, and still backed by the corcupt trusts and corporations that have so long dominated the old commonwealth. On the other hand are the plain people-the Reformers and the Democrats, striving to overthrow corruption and grafting and laying aside political partisanship to attain that much desired end.

It is a great opportunity for Pres

Says It Wasn't the Oldest Tree.

C. D. Bonney comes forward and declares that the Record was misinformed as to the oldest tree in Roswell being cut down last week. The Record stated Saturday, upon the information of Karl Snyder, that the tree at the rear of Dr. C. M. Yater's office, which had been cut was the oldest in town. Mr. Snyder made the statement upon the memory of a conversation with the late Captain Frank Lea, quoting the founder of the town as his source of information. Now Mr. Bonney says that the big trees on North Main, in front of the Lea lots, are the oldest; that they were planted in 1875 by Aaron Wilburn, and that the tree mentioned as having been felled was planted by Rufe Donahue in 1883 or 1884, and that he (Bonney) was here at the time of the planting, and knows what he is talking about.

Enlarging His Business.

E. T. Amonette, the leading local manufacturer and dealer in saddles and harness, has about completed the repairs and enlargement of his building, and is in better shape to accommodate the trade than ever before.

He has added to his business the manufacture of fine boots and shoes, and will also employ a man to make repairs. Boots and shoes made to order, of course, cost a little more than day morning from Waco, Texas, ready-made goods-but they are guaranteed to fit, and everybody knows they are durable.
