APPOINTED U. S. JUDGE IN DISTRICT OF PORTO RICO.

CONSIDERING RATE BILL

President Roosevelt Approves Free Trade as it Applies to the Purchase of Supplies for Construction of the Panama Canal.

Washington, D. C., May 15.—The President today sent the nomination to the senate of Bernard S. Rodey of New Mexico, to be U. S. Judge of the district of Porto Rico.

Washington, D. C., May 15.—The senate began its consideration of the railroad rate bill today by taking up Lodge's amendment providing for an increase of the Interstate Commerce Commission to nine members and requiring that one of them be appointed from each of the Judicial Circuits of the country. Mr. Hopkins opposed the amendment on the ground that it would deprive the commission of its national character.

President Endorses Free Trade. Washington, May 15.—The President today transmitted to congress a letter from Secretary Taft accompanied by numerous appendices in which the Secretary has the full approval of the President. He lays down the principle that supplies for the Panama Canal should be bought in the cheapest market, all things considered, whether American or foreign. When this policy was inaugurated by Secretary Taft over a year ago he sent a letter asking congress if this impartial buying in the best market should continue, and in the letter sent to congress today, Secretary Taft reminds the President that congress has returned no answer to his former questions.

OIL INDUSTRY NOT INJURED.

In One Well the Flow Has Greatly Increased Since Earthquake.

San Francisco, Cal., May 15.—Reports have been received here to the effect that a careful examination of all the oil fields of the state led to the discovery that the oil industry has escaped injury from the earthquake of April 18, so far as production is concerned. Not one well has been obstructed, and in one instance the flow has greatly increased since the earthquake. Leading oil men declare this immunity of the oil industry one of the greatest elements for future prosperity that could be hoped for.

Orchard For Sale.

The finest 9-year-old apple orchard in the Pecos Valley, 16 2/3 acres, one and a half miles northeast of the court house at Roswell.

This orchard is heavily loaded with fruit at this time, and will pay the owner about \$1,000 income this year after paying all expenses.

The location is choice for residences, and if subdivided into acre tracts, should sell for \$1,000 per lot, and the purchaser can nearly double his money in twelve months time.

This property will sell for \$10,000 in less than two years, but being a non-resident, I will take \$7,500. Terms half cash, balance to suit.

RUSSIAN DEMANDS

ADDRESS TO THRONE IN REPLY TO THE EMPEROR.

TEN SPECIFIC ITEMS

Ask for General Amnesty, Abolition of Death Penalty, Full Civil Liberty, Restoration of Lands and Other Guaranties.

St. Petersburg, May 15.—The draft of the address to the throne in reply to the Emperor's speech at the opening of parliament was submitted to the lower house of parliament today by the commission. It consisted of practically the following ten demands:

General amnesty. Abolition of the death penalty. Suspension of martial law and all exceptional laws. Full civil liberty.

Abolition of the Council of Empire. Revision of the fundamental law. Establishment of a responsible ministry.

Right of intercession. Forced expropriation of land. Guarantees of the rights of trades unions.

The May Day strike has ended. The workmen of St. Petersburg and generally throughout the country resumed work today. The men of the new admiralty works, where Vice Admiral Kuzmich was assassinated yesterday, were kept at the works until far into the night in order to enable the police to continue their search for the assassin, but no positive clue has been obtained.

VERDICT IN HERESY TRIAL.

Dr. Crapsey is Given an Opportunity to Square Himself.

Rochester, N. Y., May 15.—The verdict in the heresy trial of Rev. Dr. Algernon S. Crapsey today was delivered to the accused minister. Four of the jurors state that in their opinion, sentence should be passed as follows: That the respondent should be suspended from exercising the functions of the church until such time as he shall satisfy the ecclesiastical authorities of the diocese that his belief and teaching conform to the doctrines of the Apostles' Creed and the Nicene Creed as this church hath received the same. However, we express the earnest hope and desire that the respondent may see his way clearly during the thirty days which, under the canons of the church, must intervene before sentence can be pronounced to the full satisfaction of the ecclesiastical authorities of such conformity on his part.

GAPON WAS MURDERED.

The Priest's Lawyer Positively Identifies the Body.

St. Petersburg, May 15.—At the inquest on the body of Father Gapon, which was found May 13 in an upper chamber of a lonely villa in a summer suburb of Ozerki, Finland, M. Margolin, formerly the Priest's lawyer, positively identified the body. The autopsy showed that he had received a blow on the head, and the theory is that the revolutionists were listening in an adjoining room and heard Father Gapon betray his connection with the government, and that Putenberg, the terrorist leader who is said to have lured Father Gapon to his death, rushed in, felled him to the floor and afterwards hanged him.

Gayle-Clark. Richard F. Gayle, of Roswell, was married Wednesday at Amarillo, Texas, to Miss Lucy Clark, of Smith-

ersville, Illinois. Mr. Gayle returned here Friday with his bride, and they are stopping for the present at the home of the groom's father, F. P. ("Neighbor") Gayle, on South Main street. Mr. Gayle has recently purchased the old Perry place on Kentucky avenue, and is having the property improved preparatory to going to housekeeping. The bride formerly lived in Roswell, and during her residence here endeared herself to a large circle of friends by her sweet disposition. She is a young lady of most charming personality. The groom has lived in Roswell since 1882 and is a member of the Old Settlers' Association. The many friends of the bride and groom here will join in extending the young couple congratulations and in wishing them many years of wedded happiness.

The Quick or the Dead.

From Philadelphia Bulletin. Two congressmen were talking about the late Jerry Simpson.

"He was a level-headed man," said the first. "He was a foe to fads. He had a shrewd humor."

"He and I and a clergyman one day lunched together. The clergyman was a faddist of a marked type. He carried a pocket microscope, wore health underwear, and so on and so forth."

"This clergyman wouldn't drink any water with his lunch."

"I wouldn't dare to do so," he said solemnly. "It is so full, you know, of animalcules. I never drink water unless it has been boiled."

"Congressman Simpson emptied his glass and looked at the clergyman with a quizzical smile."

"I drink my water raw," he said. "I'd rather be an aquarium than a graveyard."

BASE BALL GAME

THE SERIES BEGINS WEDNESDAY INSTEAD OF THURSDAY.

HENRIETTA VS. N. M. I.

Hester, Who Distinguished Himself in the Recent Contest With Amarillo, Will Be in the Pitcher's Box.—Business Houses Will Close.

The ball games with Henrietta, Texas, which have been arranged for this week, will be played Wednesday, Thursday and Friday, instead of on Thursday, Friday and Saturday. Hester will be in the box for the Institute Wednesday, which means an interesting game. Roswell merchants should close their stores for at least one of these evenings, if not two, and a good crowd greet the Institute boys and help them win this series. This week's series and next week's games, will be the last Roswell folks will have the fun of seeing this season.

EXPLOSION OF GAS.

Black Damp Follows and Prevents Rescue of Imprisoned Miners.

Shenandoah, Pa., May 15.—An explosion of gas occurred at the Shenandoah collieries of the Philadelphia and Reading Coal and Iron Company today. Between thirty and forty men were in the mine at the time, and it is feared that many of them were killed. Black damp followed the explosion and prevents prompt rescue. Two men are dead at the bottom of the shafts and one probably fatally burned has been taken out.

LATER:—It was several hours before the last miner was brought to the surface. Five were dead and 12 badly injured. The explosion was caused by a miner dropping a box of dynamite, which exploded and ignited the gas.

MEETING OF SCHOOL BOARD.

All Members Present.—Committees Appointed.—Protest Tabled.

There was a meeting of the Board of Education last night at the City Clerk's office. All members were present with Dr. W. T. Joyner presiding. The following committees were appointed:

Teachers.—Hill, Cottingham and Ray.

Building and Grounds.—Skipwith, Haynes and Paylor.

Finance.—McGaffey, Gatewood and Divers.

The date set for selection of the teachers was May 28th. This conclusion was reached after a vote of six to four.

Judge W. W. Gatewood filed a protest against the formal organization of the Board at the last meeting. This protest was tabled.

Hideous Murder.

Denver, Colo., May 15.—A fourteen year old girl known as the wife of George Contesti, alias Walsh, was found dead in a novel today. She had been beaten to death with a hatchet and her head nearly severed. The child was Salvatore Sarico before her marriage to Contesti which took place at San Francisco six months ago. The couple fled from San Francisco after the earthquake. Contesti had another wife alive when he married the girl. The police are searching for Contesti, who has disappeared.

The Revival Meetings.

The meeting conducted last evening at the M. E. church for children was one of the most successful of the series of revival meetings being conducted by Evangelist Armstrong.

About thirty-five little children were in attendance. All the children in response to invitation went forward and knelt at the altar for prayer. The meeting last night was well attended, and much good was accomplished. The song service and preaching tonight will not begin until 8 o'clock. A cordial invitation is extended to all, and it is especially desired that the unconverted should come and hear the Word.

SAN FRANCISCO PLANS.

Building Committee of the Council Recommends Ordinances. San Francisco, Cal., May 15.—At a meeting of the joint council on building laws with various sub-committees it was definitely decided to recommend the following ordinances: For streets 100 feet wide or over, the height of buildings facing thereon shall be unlimited. On streets 80 feet wide or over, the height of buildings shall be limited to 200 feet. On streets less than 80 feet wide, the buildings shall not exceed in height one and one-half times the width of the street.

WOOL MODERATELY ACTIVE.

Buyers Giving the Situation More Attention.

Boston, Mass., May 15.—The wool market has reached a stage of moderate activity. Buyers are giving the situation more attention, and some sales are being made, though transactions are small by necessity, owing to material.

MANCHURIAN DIFFICULTIES.

Deadlock Between Military and Civil Authorities May Be Solved.

Tokio, May 15.—Premier Marquis Saionji returned here today from his tour of inspection in Manchuria. It is expected that his report will suggest a solution of the deadlock between the military and civil authorities over the best means of settling Manchurian difficulties. The Japanese and Russians in Manchuria are closely watching each other's movements. The Japanese apparently will not evacuate that territory before they are assured that the Russians will get out in accordance with the stipulations of the Portsmouth treaty.

lynchers Discouraged.

Crawford, Neb., May 15.—Four are now dead as a result of riots between the white and negro soldiers from Fort Robinson. Wm. Murphy (white) was killed at midnight by a squad of soldiers who were guarding the jail. Murphy, with others, tried to form a lynching party to gain possession of a negro who killed Arthur Moss the night watchman.

Dowie Denies Insolvency.

Chicago, May 15.—Attorneys for John Alexander Dowie today filed an answer in the Federal Court in the receivership proceedings brought against Dowie some time ago. In his answer Dowie denied that he was insolvent if all his property was restored to him. An extended legal argument followed the filing of the answer.

MEMBER ASSOCIATED PRESS.

THE RECORD IS THE OFFICIAL PAPER OF THE COUNTY OF CHAVES AND THE CITY OF ROSWELL.

All advertisements to insure insertion in the same day's issue of The Record should be in the printers' hands before eleven o'clock in the morning. Orders for taking out any standing ad. should also be in the office by eleven o'clock to prevent its being run that day.

The new \$25,000 Y. M. C. A. building at Las Vegas will be opened about the middle of June.

The New Mexican will at least admit that the Record gives due credit for all it clips from that paper.

Prince Max of Saxony has taken to preaching. His first sermon was three hours long, and as the doors were locked the entire congregation remained until the benediction.

The Record makes no apology for publishing the statement of the Tallmadge brothers. They feel that they have not received a square deal, and the public owes them a fair hearing.

Having lost the city printing contract at Santa Fe, the New Mexican now feels free to make things warm for the administration. The Eagle, a new Democratic paper, got the contract.

Congress has broken the record on the number of bills passed this session to date—but so far the few important laws in which the general public is really interested have not passed.

In Stanberry, Mo., W. C. Long, editor of the Owl, and E. W. McHenry, editor of the Searchlight, are candidates for nomination to the legislature on the Democratic side. Each prints flattering notices of the other, and personally the men are warm friends.

A Las Vegas Optic special from Washington says that Former Delegate B. S. Rodey, of New Mexico, has been tendered the position of justice of the supreme court of Porto Rico. Mr. Rodey being interviewed by the Journal at Albuquerque, does not deny the report.

The gang politicians intended to refuse Governor Hagerman an endorsement in the next Territorial convention, but they are not making the expected headway in getting pledges. They expected Hagerman to make a few very bad political mistakes, but he fooled them.—Albuquerque Advertiser.

The time to lay the foundations for a beautiful and clean city is while the town is new. If the matter is postponed the mossbacks will one day be in control and then all hope is gone. Listen to the sad wall of such old towns as Santa Fe which were not started right in the beginning.

Ex-Governor R. L. Taylor, of Tennessee, defeated Senator Carmack on Saturday in the Tennessee primaries for the Democratic nomination for United States senator. Carmack was elected to his present term in the senate by the legislature, and probably would have been re-elected by the old method. Tennessee and Arkansas are taking the lead in a most important reform, the election of United States senators by vote of the people.

"May a barbarian think better thoughts than one of finer culture?"—Las Vegas Optic.
Perhaps not better than the thoughts of the man of "finer culture" thinks that he thinks—but many men of reputed culture do not think at all in their own language and their own right. They have been trained to do too many things just the way somebody else does them, and their thoughts are but feeble imitations of the real thing.

The Advertiser has no objection to the Federal government paying legislators ten dollars a day, or even more, but it does object to the expenditure of the Territorial money for unnecessary employees and the many grafts of the New Mexico Republican organization. There is no getting away from the fact that the last legislature was organized for boodle, and that it was a success from that standpoint, but New Mexico may reform and elect better men if the pay is increased.—Albuquerque Advertiser.

THE SCAVENGER QUESTION.

City Councilman Wiseley is working on a proposition to make the position of city scavenger a salaried office, the scavenger to act also as collector and turn over all fees to the city. This money would go into a fund from which the scavenger's salary would be paid, and the surplus could be used for other purposes. The scavenger would be placed under bond for the proper performance of his duties. As it is now, according to Mr. Wiseley's views, we have only a licensed scavenger, who is not responsible to people individually nor to the municipality. He can leave the work undone should he see fit, and there is no law to compel the proper and regular cleaning that is necessary as a sanitary measure.

Mr. Wiseley is opposed, however, to the old plan of giving the official scavenger all the fees collected. There are over six hundred houses in Roswell where the services of the scavenger are necessary, and at 50 cents each per month it is easy to see that about \$300 per month is collected. It is stated that two men working nine nights per month can do the work—and the result was a profit of over \$200 a month to the scavenger, who hired all the work done. It might even be possible under Mr. Wiseley's plan to reduce the fees one-half and still have a surplus to turn into the city treasury.

Fine Place for Sale.

On account of the death of Dr. A. B. Waskom, and to close up the estate, his late home on East Second street, four miles from Roswell, is offered at a very low price and on easy terms for quick sale. This place contains 202½ acres, all under irrigation and in cultivation, with good permanent water rights, and also artesian well. Six acres in bearing orchard, sixty acres young orchard; balance in alfalfa and farm. Nice new eight room residence, modern in every respect; with all necessary outbuildings, barn, lots, etc.

If you are interested and want to investigate the above proposition, for particulars call on or address,

In considering the millions of assets accumulated and held by life insurance companies to enable them to fulfill in the future all their outstanding contracts, promising payments of vast amounts after stated periods, or at the death of persons insured the fact should not be overlooked that in the past these companies have already paid their policy holders immense sums in death and endowment claims, dividends, etc. That the sums so paid are a large proportion of the total premiums paid by policy holders may be seen from the following table, compiled from the official records of the New York Insurance Department.

Few people know, and yet it is a fact that American made sewing machines, typewriters, agricultural machinery and innumerable other articles can be bought for practically half price in Europe. The reason why the American people can be held up and robbed is because the manufacturers are "protected" by the tariff.—El Paso News.

RAISING BOYS.

(By "Parson" Puckett.)

It is a falling of the "Parson" to think of something ridiculous just when his mind should be overwhelmed with solemn and dignified reverence. He recently heard a minister state in a public address that he had a son twenty-two years old who had never "talked back" to him. The Parson at once lost interest in that young man, and thought of a boy only five years old who would start a revolution in that preacher's family within fifteen minutes.

Of conformity this boy knows little, and his reply to the injunction "Don't" is ever ready, "Why?" We sometimes rather sharply say, "Because papa doesn't want you to." Then those big brown eyes look at us with an expression of injured innocence—and too often the boy is right. We have been irritable, and owe him an apology, but for the present there is nothing to do but divert his mind—and when he shyly comes up to the chair to inquire further, the paper drops, the boy is on his papa's knee, and we talk about something else. He is a little afraid of "daddy" at times, but he knows how mamma smooths down his bristles, and the contest between man and boy is nearly always a compromise, and just as often surrender on one side as the other. Why shouldn't it be? However, it is more often mamma than magnanimity that acts as peacemaker. Mamma represents love—even loves him when he is bad, and sometimes has to wipe tears from her own eyes as well as his before kneeling at the bedside to hear his "Now I Lay Me Down to Sleep." What if he does pray more to his mother than to God? Her prayer carries it up, and God has commissioned her to answer the child's petition by placing his soul in her care for the present. Love is enough now, and as love is the very essence of the true woman's being, it would be profaning heaven itself for the man to intrude or question the justice of a mother's forgiveness or the depth of a child's repentance. But the boy has an inquiring, growing mind, and some day he is going to ask questions which mamma will refer to his father.

Then is when we are going to forget all the advice we ever heard or read and begin to learn as much from the boy as he learns from us.

The possibilities of this boy's development we know not. He may live to teach other men better methods of training children than we have ever known. Yea, all the history of the human race is embodied in the impulses of the child. There is something of the mother in him that the father never will understand, and from remote ancestors in him revives traits and tendencies dormant in the parents. We can restrain him to some extent and teach what little we know, but most of the problems of life he must solve for himself—and this he has a right to do. We can direct him to some extent, and in school he will be taught things which everybody else knows, and the contests with other children will teach him to hoe his own row—but we do not want to mould him into a wax-model, a parrot nor a machine. He will absorb from the soil and the atmosphere, the sunshine and the rain of life the elements of growth. The most that we can do is to protect him for awhile from known bad influences and let him grow. We cannot, and should not if we could, rob him of freedom of thought. He has a right to ask questions, and when we no longer can answer them, let us hope he will be prepared to answer some of his own questions and that he may become a better authority than his parents.

The "Parson" has also an older boy, who is able to read, and who is even bold enough to question any inconsistency there may be between his father's preaching and practice. He has already propounded questions too knotty for us, and on the other hand has told us with a great deal of enthusiasm about things we used to know nearly as well as he does. His ideas on raising boys do not always agree with ours—especially when it seems necessary occasionally to raise him with a hame-strap. He sometimes "talks back," and we must admit that he often gets the best of the argument. The cigarette question has already been settled, but it was not settled by arbitration, and we had to double the dose because he denied it. The Parson has not much use for a boy that will not fight for his own rights, but of course there are limits.

This boy has read much of the Bible, and here comes another of the Parson's pet hobbies. He believes a child really more competent to interpret the Book than the most learned Doctor of Divinity, whose imagination has dried up and whose mind has become clogged with loose ends

from splitting theological hairs. The Bible was written in the childhood of the world by men who were children in their simplicity of expression; and all the difficulties of doctrinal dispute have been added by people who are not satisfied with the perfection of simple truth plainly told—but we may discuss this at some other time, in connection with our firm conviction that the early lessons learned in the Sunday school will be of more value to the boy throughout life than all the sermons he may ever hear from the pulpit.

POLITICAL SITUATION GROWING INTERESTING

Oteroiters Losing all Over the Territory Now. People Repudiate Them. Albuquerque Advertiser.

Time is rapidly developing the truth as to the fearful corruption of the Otero administration, and each day brings to the people some new evidence of cussedness upon the part of some member of the old political gang. The latest is the sensational disclosures in connection with the School of Mines at Socorro.

It has been known for many years that the Otero machine demanded of all territorial educational institutions and everything else in sight, campaign contributions, but it has been very hard to get anyone to tell about it, as it was to lose your job if you tell.

The system was to levy so much against the institution selected for the robbery, and that amount was divided up between the employes of the institution, according to the importance of the position held, and the amount of salary drawn. It is alleged that in some cases the salaries were increased so as to cover the campaign contributions expected, but in all cases a man holding a position had to "make good" or he would be let out under some pretext.

Of course, the Oteroiters will loudly deny all such charges, and shout liar at everyone concerned, but the fact remains that they got the money, and that at least two men, prominent educators, have lost their positions because they failed to come to the front with the contributions demanded of them.

It is now believed that Hon. L. Bradford Prince, of Santa Fe, was thrown out of the college at Las Cruces because he was not a contributor to the Otero campaign funds.

At least he was removed, and the administration was afraid to allow him to go into court to determine the rights of the victim in the case.

There is much speculation as to the sudden change of position upon the part of the attorney general of the territory as to the Hubbell cases. It will be remembered that he once gave his consent to the bringing of an action for the trial of the title of the office of collector of Bernalillo county, but after hearing from Otero, who was then governor of the territory, he changed his mind and withdrew his permission. The other day he surprised the territory by again giving his consent to the action, and the attorneys for Frank Hubbell lost no time in getting into court. They have had some experience, and were afraid of another change of mind.

What caused the attorney general to reverse himself? If you know, tell us. Some believe it is a bid from the Oteroiters for the good will of the Hubbells, but it is not likely to work. Those believing the Oteroiters are at the bottom of the move support their theory with the allegation that Otero has been discarded, and that under Bursum it will be an easy matter to bring about a reconciliation. The next few weeks may develop more of this.

Bernalillo county conditions are not just what the Hubbells would like to have them just now, although to hear them tell it, they are satisfied. But they are in trouble, and they know it. The Roosevelt League, organized some weeks ago, by the anti-Hubbellites of the county, is entirely too active for the peace of mind of the Hubbells. The organization made at the first meeting represented some of the best and strongest men in the county, many of them former Hubbell leaders, and they are hard at work, and getting results, too. The latest from the movement shows a wonderful growth in all the precincts of the county, and if the movement keeps growing at the same time for a few weeks longer, the league will have a majority of the voters in the county outside of the city of Albuquerque.

Don Francisco has been presented with another bunch of trouble by the filing of another little law suit. This time it is for the modest sum of \$7,271.02. The suit is also directed against his bondsmen, and is for the recovery of that amount, alleged to have been illegally paid out of the school funds of the county on warrants drawn by the immortal Eslavio, and it is not alleged that any of the above mentioned sum was used in the burial services of one Christopher Colombo, either.

It appears to have been a habit of the school superintendent to draw warrants for almost any old thing always being very liberal in making the amounts of the items, and the same warrants were as good as gold when presented to a friendly treasurer. A gentleman interested in the schools is now figuring out the possibilities, after the recovery of the money. According to his figures, it is one dollar and twelve and one-half cents for every child in the county, and means a little more than three thousand seven hundred dollars to the schools of the city. With that sum the city schools could pay at least ten more teachers, and have that much better schools, or extend the present term by at least six weeks.

If the schools recover all the money it is alleged that Enslavio and Francisco illegally expended during their terms of office, we can build school houses all over the city, employ teachers by the troop, furnish free books and free meals to the pupils, and pay off the national debt with some of the surplus.
