RODEY'S CHRISTMAS GREETINGS

He Wants Every Person, Municipality, Board and Association in the Territory to Send a Telegram to Senator Quay.

Special to the New Mexican. Washington, Dec. 24.—Kindly state to the good people of New Mexico that I want every person, municipality, board and association in the territory, that will be kind enough to do so, to send a telegram to Senator Quay between now and January 5, favoring the passage of the omnibus statehood bill, and scoring the subcommittee for its libel on the good people of the territory of New Mexico, or at least delaying what it says. Would that the statehood bill had been passed as a Christmas gift to our people. Compliments of the season to all our people.

CHANCES ARE BRIGHT. Washington, Dec. 24.—Chances for statehood are brightening and Senator Fairbanks has come out squarely and says he will support the bill and stand by the party platform. Senator Forsaker is managing the statehood fight in the senate in the absence of Senator Quay. He does not believe it will be necessary to send more delegations here, but all personal pressure possible should be brought to bear.

A NEW DEPARTMENT.

Practically Certain the House Will Pass the Commerce and Industry Bill.

Washington, Dec. 24.—It is now practically certain that there will be created at this session of congress a new government department of commerce and industry, with an additional member of the president's cabinet.

The house committee on interstate commerce authorized a favorable report on what is known as the Nelson bill, authorizing the creation of the new department. Quite a number of amendments are made to the original bill, but they are all along conservative lines.

The Nelson bill passed the senate at the last session, and with the favorable report just made by the house committee it is reasonably certain that the new department of commerce will be authorized by law before congress adjourns.

PONEY EXPRESS RIDER.

George W. Thatcher was a Utah Pioneer and Prominent in Church Circles. Salt Lake, Utah, Dec. 24.—George W. Thatcher, a Utah pioneer, and for years prominent in political and church circles, is dead at his home in Logan, Utah, after a long illness, aged 63 years.

Corona, Mich., Dec. 24.—Fire, which broke out early today, has destroyed the First National Bank building and several other blocks and is still burning. The loss will be heavy.

DEADLOCK IN COLORADO

Republicans Have Majority of Three in the House of Representatives. THE SENATE IS DEMOCRATIC

If Fifteen Members of the House are Unseated on the Grounds of Fraud, No Senator Will be Elected.

Denver, Colo., Dec. 24.—Attorney General Post voted today with Auditor Crocker and Secretary of State Mills and the state canvassing board awarded the certificate of election as representative in the disputed San Juan district, to C. A. Cooper, Republican. The house will now contain 34 Republicans and 31 Democrats, and the senate 11 Republicans and 24 Democrats. The Republican leaders are planning to unseat 15 Democratic members-elect of the house on the ground of fraud and thus secure a majority on the joint ballot. This step, if taken, will probably result in a deadlock between the two houses which may prevent the election of a United States senator.

POPE IS WELL.

He Proposes to Celebrate a Christmas Eve Mass at Midnight Tonight. Rome, Dec. 24.—There is no foundation for the report that the pope is ill. The pontiff is in good health and excellent spirits. He did not retire until 10 o'clock last night, rose at 7 this morning, celebrated mass in his private chapel and proposes to celebrate a Christmas eve mass at midnight.

FULL TERM OF SCHOOL.

Expected the Full Amount of Judgment and Costs Will Be Raised at Farmington. The sum of \$135 has been raised at Farmington to pay the judgment of \$91 and costs secured against the school district by C. I. Wilson. This judgment, together with the costs of the suit brought against J. M. Palmer for poll tax, bring the total indebtedness to \$161. It is expected the full amount will be raised and that if that is done it will be possible to keep the schools open for a full term.

TESTING WATER PROSPECTS.

Eight Men Took Up Land and Pooled Their Interests at Riverside. J. M. Pullman, Frederick Stevens and six other persons are sinking a well at Riverside to test artesian well prospects. The eight persons interested took up two sections of land and the well is being put down on the claim of Mr. Stevens. If they strike water, he will pay all expenses, but if they do not, the expense will be shared between all. The well is now down 500 feet, and the water stands within 15 feet of the top, but is not of good quality.

HOG FEEDING EXPERIMENT.

The last few cars of Kafir corn and Milo maize have been received by Clifton Chislow of Carlsbad. He contracted for 900 tons at \$10 a ton to feed to hogs. The first shipment of hogs from his feeding pens, 312 head, sold for a gross price equivalent to the outlay for feed up to that time. About 1,000 head were put in the pens to start with so it now looks as if the experiment would be a financial success.

OPPOSED TO DIVORCE.

King George Will Probably Object if as He Entertains Stringent Religious Scruples. Berlin, Dec. 24.—The Lokal Anzeiger today prints a dispatch from Dresden saying that King George of Saxony sent several of the highest police officials to Geneva to observe and report on the actions of the fugitive Crown Princess Louise. One official returned yesterday by way of Vienna. The others will remain at Geneva. A divorce of the crown prince and the crown princess is regarded as impossible during the lifetime of King George, who entertains stringent religious scruples against divorce. The Protestant clergy, however, hope that Berlin will bring pressure to bear for a divorce.

BLINDED BY THE SNOW

Engineer Could Not See the Lights On the Train Ahead. PERE-MARQUETTE WRECK

Platforms Were Smashed and Five People Were Injured But No One Was Killed. Grand Rapids, Mich., Dec. 24.—During a heavy snow storm at 7:30 this morning, Detroit train No. 2, on the Pere Marquette railroad, crashed into the rear end of Saginaw train No. 32 at McCords, a flag station 11 miles east of here. Train No. 32 left Grand Rapids at 7 o'clock, ten minutes ahead of No. 2. It was flagged at McCords and was just starting out again when No. 2 came along. The engineer of No. 2 did not see the rear lights of the Saginaw train until too late to stop the train. No cars were telescoped, although the force of the collision smashed the platforms and threw the passengers and train crew about seriously. Five were badly injured.

Considering the prominence of the couple, the wedding was decidedly quiet in its character. There were no decorations in the parlor where the ceremony was performed and they were unattended. Following the wedding, dinner was served in the dining room where there were no decorations. Mr. Stratton gave his business as a banker at Colorado Springs. The couple left at 1 o'clock over the Northwestern for the west.

WEDNESDAY, DECEMBER 24.

New Mexico Demands Statehood of the 57th Congress.

Of Right and in Justice New Mexico Should Be a State.

Extract from the Congressional Record of June 25th, 1902, page 7,812.

President pro tem, of senate:
 The chair has been requested to restate the proposition, and will do so.

The senator from Indiana, the chairman of the committee on territories, has stated in open senate today, that the committee will report on the territorial bill, so-called, on the third day of the next session of congress. Thereupon the senator from Pennsylvania asks unanimous consent, that on the tenth day if the senate is in session and on the first day thereafter it may be in session if not on the tenth, the bill shall be made the unfinished business. Is there objection? The chair hears none, and the order is made.

The world progresses. There is more peace on earth and good will towards men at this time than there have ever been in the history of the human race.

Those well disposed persons, who expect to see many political rows in the 57th legislative assembly, will in all likelihood be sadly disappointed. So much for so much.

One of the serious propositions before the country is the need of empty freight cars. The railroads cannot supply enough of these useful vehicles to supply the demand.

It is not believed that the cash register department of the lobby will cut any figure in the 57th legislative assembly. There are too many good and strong men among the members.

The New Mexican wishes the people of the territory of New Mexico a very merry Christmas and hopes to be able to extend congratulations and best wishes for the same auspicious day in 1903 to the people of the state of New Mexico.

Admiral Dewey says that the American fleet now assembled in West Indian waters under his command, is the finest and best equipped of any on this globe. He is an excellent judge and the people are not disposed to differ with him.

The federal and territorial officials as well as the county officials elected in this territory, can well afford to make merry tomorrow. Their dinner pails will be full for the coming two years and they can enjoy the good things provided for them. Let them do so while they can.

The holders of the funded indebtedness of Santa Fe county are not disposed at present to consider the offer of a compromise recently made them by the board of county commissioners. They may know their own business best, but to people acquainted with the financial condition of Santa Fe county, it looks very much as if they were making a decided and grievous mistake in their course.

There is evidently money in the cutting of timber and manufacturing of lumber in New Mexico. This paper is reliably informed that within the past four years, H. S. Buckman, a sawmill owner, cut 25,000,000 feet of merchantable lumber from a tract of 5,000 acres on the Ramon Vigil land grant about 25 miles west of this city. There is evidently money in New Mexico lumber.

Despite the predictions of the yellow sheets in New Mexico, the New Mexican believes that the season of the 57th legislative assembly, will be clean and productive of much good legislation for the people of New Mexico. There will be no corrupt bills passed and the members of the assembly will make a good record. Here is a merry Christmas to them. The better their doings in the coming assembly, the merrier and happier will they be on Christmas, 1903, Providence sparing them.

Members of the United States senate are being furnished with anonymous circulars containing alleged reasons why New Mexico should be given statehood, but in reality attacking Governor Otero and the territorial administration. That sort of business cannot and will not do the statehood cause any harm. Quite the reverse. It can only do harm and on that account it is to be regretted. Anonymous printed circulars are not good weapons with which to fight for statehood for New Mexico.

NEW STATES AND THEORIES.
 The Washington Post comes to the rescue of New Mexico and upholds the good name and reputation of its citizens in the following very timely, correct and based on facts editorial. Says the Post:

The majority report of the senate committee on territories upon the house omnibus bill for the statehood of Oklahoma, New Mexico, and Arizona, is an interesting document, with internal evidences of zeal in its preparation and phrasing. It finds New Mexico disqualified for statehood, notwithstanding its large population, because that population mostly speaks Spanish and discloses 29 per cent of illiteracy. It does not worry the committee that the constitution of the United States does not put the Spanish language among the disqualifications for statehood, nor the English language among the qualifications. The constitution does not even say that any percentage of illiteracy shall bar a people from self-government. Therefore, as far as the fundamental law is concerned it is silent on the two points upon which the adverse report depends. New Mexico was expecting statehood 52 years ago. Two score and twelve years have gone by, and the committee reports that any one to carry on the affairs of every day life in that territory must understand Spanish, for the inhabitants have successfully resisted the change to English, and have held to their original tongue in the face of all efforts to eradicate it. There is a university, and schools are general, but these appear to find their greatest usefulness in teaching the American population to speak Spanish in order that they may communicate with the great majority of the people.

If New Mexico is not fitted for self-government after a novitiate of 52 years, and if Americans who go there have to learn Spanish in order to ask for a tortilla or frioles, how much longer will it take that territory to give the grand halling sign and the English password at the door of the union? As passed in New Mexico and all the southwest, the slow accretions of the American element are due to the denial of self-government. Held in territorial bondage, enterprise is repressed, progress is blocked, and all of that ferment and flash of business life which attract the American spirit is lacking, and instead of a new immigration that will lighten what it finds, and so dominate as to compel the native to learn English in order to ask for his corn cake and beans, the accretion will continue so slight that instead of assimilating the Spanish population, it will continue to be assimilated by it. Therefore the committee complains that a situation is evil, which its policy proposes to perpetuate. A true philosophy and patriotism demand that New Mexico be enfranchised with self-government. If it be true, as the committee intimates, that the people are not Americans, make them so by bestowal of the American birthright of self-government. Then every highway and trail will be pressed by the feet of the immigrants, who will enter the new state and leave its life with their quality, and compel its stubborn speech to yield, instead of yielding to it.

"When the committee reaches Arizona, it is compelled to abandon its insistence that Spanish is a bar to self-government, and bases its objection to admission upon the present prosperity of mining towns, which may lapse if the ledges pinch out. But mining is only one of many industries in Arizona. Its economic use of its food and ordinary waters, that territory is advancing in intensive agriculture and horticulture. In Arizona the most excellent of all the dates is produced, and ripens its fruit as luxuriously as that of Arabia or the oasis of the Sahara. In Salt River Valley the semi-tropical productions flourish, and there is great prospect of a new source of supply, which interests the eastern consumer."

"Along the Gila and Colorado are plain evidences that the country once rivalled the Valley of the Nile in the abundance of its production and the density of its population. The irrigation works of an ancient people, with all the skill of engineering in their construction, may be traced over hundreds of square miles of land which water will again make as fruitful as the gardens of the Hesperides. That ancient race either perished through destruction of its irrigation works by some savage enemy, or went away into captivity. Mining is by no means the sum of Arizona's resources. It has a greater variety of capacities than any of the New England states."

"The Republican platform promised statehood for these territories. President Roosevelt rose to the calm height of statesmanship when he said after the elections last month: 'The people have merely trusted the Republican party to make good.' Why not begin by 'making good' the platform promises made to the territories."

Major General A. R. Chaffee is to be lieutenant general of the army before the year 1903 closes. Lieutenant General Miles will be retired in the summer of the coming year and will be succeeded by General Young, who will hold the position but a few weeks, then General Chaffee is to be appointed. The latter is well and favorably known throughout New Mexico and Arizona, where he served in many Indian campaigns and also as Inspector general. He is a good friend of the arid southwest and will prove himself so upon his appointment. A better or more deserving officer could not be named for the position.

KEEP YOUR BLOOD CLEAN

The Central and South American republics do not like the treatment of Venezuela by the allied powers. There is no doubt about that: the thing strikes too close to home.

If New Mexico would obtain a part of the appropriation made by the new irrigation law, it must have some reliable data on the flow of its rivers and streams and on reservoir sites to present to the interior department. This cannot be done without the services of a competent and experienced irrigation engineer to prepare the data named. The 35th legislative assembly should look into this matter as it is of the gravest importance to the people. The more water for irrigation, the more land under cultivation, the larger the population and the greater the taxable valuation.

WHAT'S IN A NAME?
Everything is in the name when it comes to WITCH HAZEL SALVE. E. C. DeWitt & Co. of Chicago, discover, some years ago, how to make a salve from Witch Hazel that is a specific for piles. Ask for DeWitt's—the genuine.

COUGHING SPELL CAUSED DEATH
"Harry Duckwell, aged 25 years, choked to death early yesterday morning at his home, in the presence of his wife and child. He contracted a slight cold a few days ago and paid but little attention to it. Yesterday morning he was seized with a fit of coughing which continued for some time. His wife sent for a physician but before he could arrive, another coughing spell came on and Duckwell died from suffocation." St. Louis Globe-Democrat, Dec. 1, 1901. ONE MINUTE COUGH CURE cuts the phlegm, draws out the inflammation, heals and soothes the mucous membranes and strengthens the lungs.

SAVED AT GRAVE'S BRINK
"I know I would long ago have been in my grave," writes Mrs. S. H. Newsum, of Decatur, Ala., "if it had not been for ELECTRIC BITTERS. For three years I suffered untold agony from the worst forms of indigestion, waterbrash, stomach and bowel dyspepsia. But this excellent medicine did me a world of good. Since using it I can eat heartily and have gained 35 pounds." For indigestion, loss of appetite, stomach, liver and kidney troubles Electric Bitters are a positive cure. Only 50c at Fischer Drug Co.

A MILLION VOICES
Could hardly express the thanks of Homer Hall, of West Point, Ia. Listen why: A severe cold had settled on his lungs, causing a most obstinate cough. Several physicians said he had consumption, but could not help him. When all thought he was doomed he began to use DR. KING'S NEW DISCOVERY FOR CONSUMPTION and writes: "It completely cured me and saved my life. I now weigh 227 lbs." It's positively guaranteed for coughs, colds and lung troubles. Price 50c and \$1. Va., says: "I have used a number of bottles of Kodol and have found it to be a very effective and, indeed, a powerful remedy for stomach ailments. I recommend it to my friends."

I recommend it to all my friends, who are afflicted that way and it is curing them, too. 50c at Fischer Drug Co."

If you feel ill and need a pill Why not purchase the best? DeWitt's Early Risers Are little surprises, Take one—they do the rest. W. H. Howell, Houston, Texas, writes: "I have used LITTLE EARLY RISER PILLS in my family for constipation, sick headache, etc. To their use I am indebted for the health of my family."

Stearns, druggist, Shullsburg, Wisconsin, writes May 20, 1901: "I have been selling Ballard's Horehound Syrup for two years, and have never had a preparation that has given better satisfaction. A LONG-HELD WANT.

It is Supplied at Last in Santa Fe. Good natured people are often irritable. If you knew the reason, you would not be surprised. Ever have itching piles? Not sick enough to go to bed; not well enough to be content. The constant itching sensation spoils your temper and nearly drives you crazy. Hard to bear, harder to get relief. Isn't relief and cure a long felt want? You can have relief and cure if you will follow the advice of a local citizen. C. M. Conklin, ex-city clerk, of San Francisco st., says: "There came to my notice some time ago a case of hemorrhoids, commonly called piles. They were of the bleeding, protruding variety and itched intensely. Doan's Ointment came to the knowledge of the party afflicted and was procured at Ireland's Pharmacy and a course of the treatment given. The first application soothed and a continuation of its use for some time longer radically disposed of that far too prevalent plague."

For sale by all dealers. Price 50c. Foster Millburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name, Doan's, and take no substitute.

Gold in the Black Hills.

The Burlington Route has recently issued a 48 page booklet bearing the title "Mines and Mining in the Black Hills." The book is one which should be read by every mining man in Colorado. It gives more information about the mines of the Black Hills than has ever before been placed between two covers. A copy will be mailed free on application to the undersigned. The Black Hills need Colorado men and money. Several of the shrewdest men in this state have already invested heavily in the Hills. The results so far have been more than satisfactory. The completion of the Burlington's new line to the Northwest brings the Black Hills within a night's ride of Denver. You can leave Denver tonight and be in Deadwood or Lead City tomorrow afternoon. One of the greatest conveniences in office work is the loose leaf ledger, which is on sale at this office. It prevents the accumulation of dead pages in the books so that all pages are of live accounts only. There is no necessity of burdening a book with dead pages when the loose leaf ledger will be found so much more convenient and save so much time.

A dispatch from Kennedy says that Henry Bergmann and wife met with what might have been a serious accident while returning from Lamy last night. One of the horses shied at an object beside the road and the buggy was overturned. Mr. and Mrs. Bergmann were thrown in a snow bank and Mrs. Bergmann was not injured. In his struggle to control the frightened horses, Bergmann was kicked on the knee and in the side, but finally quieted the horses and reached Kennedy all right. Although a little lame and sore, he is attending to business today as usual.

A dance will be given tomorrow night in the Army hall for the benefit of the First Cavalry band. The proceeds will be devoted exclusively to the fund for the purchase of new music and for paying the expenses of the band. None of it will be divided among the members. The money subscribed for the band is not sufficient to pay all expenses, such as rent, fire, repairing broken instruments and other incidental expenses. The only way the band can maintain itself is by the giving of dances and raising money by entertainments. A hearty response is asked from those who enjoy the Plaza concerts.

Tomorrow afternoon at 3 o'clock will be played the game of football between the teams from the Government Indian school at Albuquerque and from the school in this city. The game will be for the championship of New Mexico, and will be a closely contested one. The Albuquerque team is expected to arrive this evening. While a quasi quarantine has been maintained at the Indian school here, it has not been on account of any sickness in the institution, but as a precaution on account of scarlet fever and diphtheria which were in the city. There is no danger from any trouble on that score and the quarantine will be raised tomorrow so that all may attend the game. The wagons from the institution will be run between the Plaza and the grounds and holders of tickets to the game will be entitled to ride free. Two trips will be made by the wagons and they will leave the Plaza on the first trip about 2 o'clock. On the second trip they will leave about 2:30. The game will undoubtedly be one of the best that has been seen in New Mexico and a large crowd of "rooters" is expected from Albuquerque. There will be a large crowd present from this city. Seventy-five tickets were sold at St. Michael's college today.

WILLIE HAGIDORN, come home, your father is very sick—Mother.

THE HORSE IS DEAD.

Stoops Claims it Fell in a Ditch but Others Say Colic Was the Cause.

M. J. Stoops, a fruit grower of Espanola, met with an experience in Santa Fe last evening that he does not care to have repeated. Yesterday morning he hitched a pair of valuable horses to a double seated wagon and, with his family started for Cerrillos to spend Christmas. They arrived here about 7 o'clock last evening and after leaving his family at the home of John C. Sears, he started for Closson's stable. In driving up Water street, one of the horses fell into the ditch that is being dug for the sewer pipe. Mr. Stoops was thrown out and severely shaken up. The horse managed to get out of the ditch, but died about half an hour later at Closson's stable. It was said to be injured internally. Mr. Stoops says no lantern was anywhere along the ditch or street to warn travelers of the danger. He recently refused \$250 for the mare which he prized highly. He procured a mate to his horse and left this morning with his family for Cerrillos.

The foregoing is Stoops' version of the affair, but Mayor Sparks stated to a New Mexican representative this morning that Aldermen Sena and Fischer and Mr. Whitlock, who have charge of the sewer construction, had examined the ground where the accident is alleged to have occurred. They found the wheels of Stoops' wagon did not approach the ditch closer than 18 inches; that the ditch at this place is but 2-1/2 feet deep; that a lantern was burning within 50 feet of the spot; and that an electric light was burning at each end of the square. They also examined the dead horse and found no evidence of external injury and are of the opinion that it died from colic as a result of over driving.

The Christmas tree exercises at the Mission School will be held this evening at 7 o'clock.

In accordance with the custom he has followed for the past fifteen years, Col. George W. Knaebel today presented the force at the postoffice with enough cigars and chewing tobacco to last for twelve months.
