A \$23,000 Robbery.

ATCHISON, Kas. June 10.—A \$23,000 robbery occurred in Kansas Citylast Sept. which has just come to light. During that month two men drove up in a buggy to the First National bank. It was about noon, and one of the men alighted and entering the place told the cashier, who was alone, that a man wanted to see him outside. While the cashier was gone the stranger went behind the counter and picked up bonds and money to the value of \$23,000. The bank kept the matter quiet with a view of recovering the securities, which, it is learned today, they did last March. The bonds were handed over in Denver by a go between. It is not known what price they paid. The cash secured by the robbers was small.

Here living cliff and cave dwellers were found in great abundance, wild as any of the Mexican tribes from Cortez' conquest. The abodes they live in are exactly similar to old, abandoned cliff dwellings of Arizona and New Mexico, about which there has been so much speculation and so much money spent in investigation. It was almost impossible to get very near them, so wild and timid were they. Upon the approach of white people they fly to their caves or cliffs by notched sticks placed against the face of the cliffs, if too steep, although they can ascend vertical stone faces it there are the slightest crevices for their fingers and

Fire at Selden.

A fire occurred at Fort Selden Friday morning. Seven mules, five horses and LARGEST one calf were burned to death. The tire occurred in the quartermaster's corral; it was first discovered at I o'clock a. m. and had spread so rapidly that only one mule, two horses and several cows could be saved by the utmost efforts of the com-manding officer and the men under his command. Lieut. Brott and several of the men came very near being burned to STOCK death in their desperate efforts to save the poor animals. Privates Waters and Harlerson, of the hospital corps, especially distinguished themselves .- Origin unknown.

UNDER IRRIGATING DITCHES.

Choice Mountain Valley and Lands near the Foot Hills

FOR SALE

For the irrigation of the prairies and valleys between Raton and Springer one hundred miles of large irrigating canals have been built, or are in course of construction, with water for 75,000 acres of land. These lands with perpetual water rights will be sold cheap and on the easy terms of ten annual payments, with 7 per cent interest.

In addition to the above there are 1,400,000 acres of land for sale, consisting mainly of agricultural lands. The climate is unsurpassed, and alfalfa, grain and fruit of all kinds

grow to perfection and in abundance. The A., T. & S. F. railroad and the D., T. & Fort Worth railroad cross

this property, and other roads will soon follow. Those wishing to view the lands can secure special rates on the railroads, and will have a rebate also on the same if they should buy 160 acres

Warranty Deeds Given.

ALBUQUERQUE, N. M., January 1, 1889.

ALBUQUERQUE, N. M., January 1, 1889.

When the Atlantic & Pa life Railroad company established its land department at Albuquerque, New Mexico, in June, 1881, but little of its road was completed and the country adjacent to its proposed line was uninhabited except by Indians, and comparatively unknown. The company was desirous of securing agricultural settlers and stock raisers along its line, and with that end in view placed a merely nominal price on its lands when sold to actual occupants. As soon as the land department was organized and established the company advertised its lands for saic, and letters were received from all parts of this country and from many of the states of Europe making inquiries as to the location, character and price of its lands. In answering these letters the low prices at which the company was willing at that time to sell its lands to actual occupants were given. Correspondence concerningits lands has been continuous and volum hous, and, when required, the prices and terms of anyment for the average classes of any

Agricultural lands along streams, where there is sufficient water supply for irrigation, will be sold at \$2.50 to \$10 per acre, owing to locality abundance of water and proximity to railroad Irrigable lands will be sold in quantities to suit purchasers.
All letters which have heretofore been written

All letters which have heretofore been written to any or all persons authorizing them to sell any of the company's lands are hereby revoked, and persons claiming to be agents for the sale of land must produce authority from the land commissioner bearing date of January 1, 1889, or subsequent, to be of any validity.

The agricultural and stock raising capacity of the lands owned by this company is only beginning to be understood. The country is developing and settlers are finding healthful and beautiful homes on the most productive soil. A few acres of irrigated land will produce more food supplies than a large farm in the castern or middle states. The climate is all that can be desired, being more gental and sumy than that of Iraly.

Easy, accommodating terms of payment will be given to purchasers when desired.

### BOLD TEXANS.

A Train of New Mexico Freight Subjected to a Malicious Demand.

Gov. Prince has received a complaint of a curious nature from the Texas-New Mexico boundary line. It is a statement under oath, made before a justice of the peace of Reaves county, Texas, and signed by J. K. Dempsey, J. H. Rodriques, Vedal Jaques, Susano Valles, and others. Their statement is to the effect that they started with a train of five wagons, belonging to Augustin Hernandez, for the purpose of transporting freight from Pecos City, Texas, to Lookout, N. M., ninety miles dis- days at Ojo Caliente. Mr. Force thinks tant. They carried 20,000 pounds of freight. While still in Texas about thirty miles distant from the New Mexico border, they were met by an armed body of ten men, who halted their train and demanded, under threats of violence, that they retrace their steps, saying that no Mexi-cans would be allowed to, freight over that road.
