The New Mexican is the oldest newstaper in New Mesico. It is sent to every postoffice in the territory, and has a large and growing circulation among the intelligent and progressive people of he southwest.

MONDAY, JUNE 10.

For Governor of New Mexico from June 7, 1901, to June 7, 1905, or until statchood is attained, Miguel A. Otero.

New Mexico Demands Statebood of the 57th Congress.

Of Right and in Justice New Mexico Should Be a State.

When it comes to claiming things the anti-Otero affidavit makers are on top.

New Mexico is constantly on the increase in population and in wealth. The 57th congress should give us statehood.

The administration does not propos to have any string to the adoption of the Platt amendment by the Cuban constitutional convention.

Bishop Potter of New York, wants the newspapers to condense; and now what's the matter with the condensation of the bishop's sermons?

The bonded debt of this county should be refunded and scaled down on a fair basis to all concerned. The channel. bondholders will do but harm in being

too harsh.

Among the charges made against Governor Otero are several affidavits purporting to be made by men whose names are unknown in the territory That is a trick that certainly will not

win: Mr. Bryan disapproves the action of the supreme court in the insular cases, but as the people approve the same there really need not be much attention

paid to Mr. Bryan's opinion in the matter.

There are 79,999,999 people in this country, exclusive of Mr. Bryan, who will do their best to get along although a controversy exists between Mr. Bryan and the United States supreme court.

The census gives New Mexico a few hundred less than 195,000 in population in this respect, with only one person to every ten square miles, but it is truly June 1, 1909. Of this number, 194,000 are in favor of the reappointment of Gov- surprising to learn that in Nevada ernor Otero, but the few hundred who there are only four persons to every are opposed to him are making quite a ten square miles, and yet Nevada is a state. Wyoming has not quite one pernoise.

ivered an eloquent oration on that ocon to the square mile, and is a state asion, says:

Missouri Code Pleading

By Mr. Everett W. Pattison, Author of Pattison's Complete Digest.) Nearly 600 Pages. Price, \$6. Delivered. This Book is a Very Important One for all Lawyers.

It sets forth, as succinctly as is consistent with clearness, the present con-dition of the law governing pleading as interpreted by the courts of last resort in Missouri. The decisions are mostly those of the Missouri courts; though in some instances. Illustrations have some instances illustrations have been irawn from the decisions of other cod

states. The Author Thoroughly Belleves in the Advantages of the Code System of Pleading.

He further believes that precision and xactness are even of more importance n code pleading than in pleading at com-non law. For, while it is true that the common law requires the utmost strict ness in adherence to forms, yet, if its forms are followed, the practitioner need have little fear of attack upon his plead ing, even though that plending should totally fail to inform his opponent as to the real points in issue. On the other hand, the very object of the Code is to

ompel parties to make clear the grounds pon which their right to recover, or heir defense, is based. The lawyer whe well grounded in the rules of pleading vill surely have the advantage will surely have the advantage in litiga-tion. The constant study of this valuable vening a work, familiarity with the rules set forth in it, and with the decisions enforcing and interpreting those rules, cannot fai o make one a good pleader. SPECIAL OFFER—To those who bu

two works, giving all there is to be said about Pleading in Missouri.

on, Detroit, Mich., July 8 to 12.

Christian Endeavor, Cincinnati, O., Jumade a close study and specialty of the treatment of Catarrh, has at last per-fected a treatment which when faith-fully used, not only relieves at once, but permanently cures catarrh, by re-moving the cause, stopping the dis-charges, and curing all inflammation. It is the only remedy known to science that actually reaches the afflicted parts. This wonderful remedy is nown construction of the treatment which when faith-fully 6 to 10.—For this meeting the Santa fe Route will place on sale tickets to Cincinnati and return at a rate of \$47.10 with dates of sale, July 4, 5, and 6. Fin-al return limit, August 31. Annual meeting, National Educational Association, Detroit, Mich., July 8 to 12.

upon that issue. What the gallant colonel does not know about what will sons to the square mile. happen in 1904 would fill a very large book.

Naturally, the Boers are anxious for arbitration at this stage of the hopeless conflict which they are waging against Great Britain, but the time for arbitration passed over a year ago and Oom Paul Kruger and his former subjects must submit to the inevitable which may be bitter to their pride but in the end will be beneficial to them and their children.

The New Mexican is in receipt of many letters from prominent citizens commending it for its gallant fight for statehood for New Mexico. The indications all point that an enabling act will be passed by the 57th congress. The same will be ratified and a state constitution will be adopted by the people of New Mexico by an overwhelm ing mapority.

The effort of Denver authorities to celebrate a powderless, crackerless Fourth of July is doomed to dismal failure. What would be a Fourth of July without accidents to life and limb, without fires caused by fireworks and without a roar and din that drives nervous men and women frantic? Other ways of showing patriotism are effeminate and too sensible to be considered by Young America.

Were New Mexico a state, the governorship question would have been settled at the time of the general election and would have been settled right There would in that case, be no occasion for the disgraceful fight being made at present by a few malcontents against Governor Otero and no uncertainty and suspense with its unfavorable influence upon the political and business situation such as is distracting New Mexico every few years when the question is up for the appointment of a governor of the territory.

The commission of irrigation of th territory at its organization on Friday last did remarkably well in electing Hon, G. A. Richardson of Roswell, president, and Colonel George W Knaebel of Santa Fe, secretary. Mr Richardson has been closely identified with irrigation interests since he came to New Mexico, and Colonel Knaebel is well known as one of the hardest working, most conscientious and best men for the work of secretary of such commission. It looks as if the commission, as now constituted, will do good work for the people of the territory The other three members are Hor Frank Springer of Las Vegas, W. A. Hawkins, Esq., of Alamogordo, and

Hon. E. A. Miera of Cuba. These three gentlemen will also be found efficient and hard working members of the

A new play has been christened "Th Plumber." but it will be presented at the usual prices of admission.

Mr. James Brown of Putsmouth, Vt.,

So each evening while Martha slept When Farmer Never-mind-it found The winter had fuifilied its span, He hustled out, and hurried round. And hired his neighbor's extra man; And through the spring till almost May He frittered half his time away. Pierre worked. He arose stealthily like a robber to write without arousing suspicion. He felt that it was his last chance to write something worth while. Several days later Pierre and his

He let his broken fences lie Just where the winds had thrown then wife went back to the city. He was last; As for the weeds, he wondered why They got ahead of him so fast; Eut, when a weed began to show, loath to leave, but Martha was happy in anticipation of new triumphs. Her devoted count had promised to open new, and yet more fashionble, He let it go, and let it grow.

NEIGHBORS.

When Farmer Perseverance sowed His valley-gardens, rich and wide, He mended fences, weeded, hoed. With all a sturdy toiler's pride; And, all the growing season through, He said he found enough to do. And when upon his well-kept farm

A blight would satisfy its greed, He made amends for every harm, And kept ahead of every weed; And, if the weather fouled or cleared, He persevered, and persevered. -Frank Walcott Hutt, in Farm Journal.
