NATIONAL CAPITAL BUDGET

Senate Concurrent Cuban Resolutions Adopted in the House To-day by Large Majority.

NOTE ON THE RESOLUTIONS IN DETAIL

Pacific Railroad Refunding Bill Agreed Upon by Sub-committees of Senate and House—River and Harbor Bill Passed by House.

Washington, April 6.—The house adopted the senate concurrent Cuban resolutions by a vote of 244 to 27. The announcement was received with tumultuous cheers. The vote was taken on a motion to adopt the conference report, showing that the house conferees agreed to the senate resolutions.

The resolutions being concurrent, do not need the approval of the president, but of course will be sent to him through the usual channels, so he will receive official notification of the opinion of congress on the Cuban question.

SESSION OF THE HOUSE TO-DAY. There was a large attendance in the galleries of the house to-day to witness final action on the Cuban resolutions and in anticipation of an exciting contest over the attempt to pass the river and harbor bill under suspension of the rules.

Under an agreement made on Saturday a vote on the adoption of the report of the conferees on the Cuban resolutions was the first thing in order.

Before Chairman Hitt demanded the regular order, Mr. Wadsworth, chairman of the committee on agriculture, presented a letter from the secretary of agriculture notifying him that in deference to what seemed the unanimous desire of the house he had telegraphed accepting the proposition to put seeds, to be distributed by congressmen, into packages of five instead of fifteen packets, making 2,005,000 packages instead of 675,800.

The members expressed gratification by applauding. Mr. Hitt then demanded the regular order.

The speaker put the question on the adoption of the conference report. A great swelling chorus of ayes was followed by a feeble scattered negative vote.

The speaker was about to declare the motion carried when Mr. Hitt asked for the yeas and nays.

Yielding to appeals made by members he withdrew the request.

Mr. Boutelle, Republican, of Maine, who made himself conspicuous by his opposition to the report, made no efforts to secure the yeas and nays.

NOTE IN DETAIL ON CUBAN RESOLUTIONS. But Mr. Tucker, Democrat, of Virginia, member of the house foreign affairs committee, who was opposed to the Cuban resolutions, at this juncture demanded a record making vote and the roll was called. The report was then adopted by a vote of 244 to 27.

Those who voted in the negative were: Republicans—Messrs. Arnold, of Rhode Island; Atwood and Black, of New York; Boutelle, Daniels, Draper, Gillette, of New York; Gillette, of Massachusetts; Grout, Lefevre, McCall, of Massachusetts; Moody, Poole, Simpkins, Wadsworth, Walker, of Massachusetts; Walker, of Virginia; Wright—18; Democrats—Messrs. Berry, Black, of Virginia; Culberson, Elliott, Ellett, Lockhart, Tucker, Turner, of Georgia; Taylor, of Texas—9.

The announcement was greeted with a loud demonstration on the floor which was taken up by the galleries.

As soon as the tumult subsided, Mr. Hooker, Republican, of New York, chairman of the river and harbor committee, moved to suspend the rules and pass the river and harbor bill. He asked that the reading of the bill be dispensed with.

Mr. Richardson, Democrat, of Tennessee, objected.

RIVER AND HARBOR BILL. The river and harbor appropriation bill passed under the suspension of the rules by a rising vote of 215 to 40, the opposition not being strong enough to secure a yeas and nays vote.

SENATE AT WORK TO-DAY. Many senators, absent late in their states, were back in the senate to-day, including Messrs. Chandler, of New Hampshire; Harris, of Tennessee; Lind say, of Kentucky; Palmer, of Illinois, and Thurston, of Nebraska.

Among the bills favorably reported was one to prevent wholesale divorcees in the territories by requiring one year's residence before application for divorce.

Mr. Call, Democrat, of Florida, made an effort to take up the Cuban resolutions offered by him some days ago, proposing the immediate use of the United States navy to protect American citizens in Cuba and to prevent barbarities.

Mr. Allison insisted that the appropriation bills should be kept to the front.

Mr. Call gave notice that he would move to take up the Cuban resolutions to-morrow.

Inquiries by Mr. Hale, of Maine, as to the parliamentary status of the resolutions indicated that Mr. Call would meet with opposition.

The postoffice appropriation bill was taken up, the pending question being that of consolidating country and suburban postoffices as adjuncts to city or metropolitan districts.

MINISTER TERRELL IN WASHINGTON. Alexander W. Terrell, minister at Constantinople, arrived in Washington last night. To-day he had a long interview with Assistant Secretary Adee. He saw Secretary Olney a short time to pay his respects. When asked how long he would be in the United States Mr. Terrell replied vaguely to the department regulations permitting a leave of absence of sixty days from his post and declined to say whether he intended to return to Turkey or when.

REFUNDING BILL AGREED TO. The sub-committees of the two houses, considering the Pacific railroad refunding bill, have practically reached an agreement. The bill they will report to the full committee is in all essential particulars the one outlined in the Associated Press dispatches last week. The only material change is in the annual payment on principal, which is to be increased for the first ten years so as to make the amount \$1,000,000 a year, instead of \$800,000 as first provided for. The secured interest is to be funded and counted as principal and the entire debt is to be carried at 2 per cent interest per year.

The annual payment during the second ten years is to be \$600,000 and after that \$700,000 until the entire debt shall have been discharged. This arrangement applies to both the Union Pacific and the Central Pacific, and the Southern Pacific is to stand good for the Central Pacific debt. It is calculated that under this arrangement it will require about fifty years to the Central Pacific to wipe out its government debt and a somewhat longer time for the Union Pacific to do so.

NATIONAL POLITICS. BOIES FOR PRESIDENT. Washington.—Information has been received here that Gov. Boies, of Missouri, and his free silver associates have persuaded ex-Gov. Boies, of Iowa, to allow his name to be presented to the Chicago convention as the candidate of the 19 to 1 supporters. Gov. Boies at first declined, but since then such representations have been made to him as have induced him to reconsider his declination.

He has been promised by Stone and Jones the solid Missouri delegation, and has been urged to put his friends in Iowa to work in order to insure a 16 to 1 delegation from that state.

Charles H. Jones, who is an admirer of Boies, and who wanted to see Boies nominated at Chicago, four years ago, but was tied by the unit instructions of the Missouri delegation, is credited with having had much to do with Boies' reconsideration.

At the Hamilton county, Idaho, Democratic convention, a couple of days ago, Boies was named for the presidential nomination. It is said here that the action was taken with his consent.

The resolutions proclaimed him to be "the great commoner, Gladstone of America."

EASTER SUNDAY SCORES. Fire Caused a Panic in a Chicago Baptist Church Yesterday Morning—Church Floor Gave Way in Omaha.

Chicago, April 6.—Eighteen hundred people were in the Second Baptist church last night, and Rev. Dr. Wm. Lawrence, pastor, was in the midst of an eloquent sermon, when it was noticed that the ceiling was on fire.

Before a word could be said a blazing brand fell among the flowers which surrounded the pulpit. Instantly there was a rush for the door. In the panic several persons were injured.

The pastor remained at his pulpit and did all that was possible to restrain the panic. Sexton Allison was badly burned in his efforts to extinguish the flames. No great damage was done by fire.

WORSHIPERS FRIGHTENED. Omaha.—At the South Tenth street Methodist Episcopal church last evening the services had scarcely begun when a portion of the auditorium floor sank from two to four feet, jostling the worshippers and frightening women. Everybody, however, was able to get out without injury.

HARRISON-DIMMICK. The Gay and Giddy Ex-President Will Lead Mrs. Dimmick to the Altar Late This Afternoon.

New York, April 6.—Gen. Harrison, whose marriage to Mrs. Dimmick will occur this afternoon at St. Thomas church, remained all the forenoon in the Fifth Avenue hotel.

Among the callers were ex-Secretary of State John W. Foster, U. S. Senator Elliker, ex-Attorney General W. H. H. Miller.

Private Secretary Tibbets said that Gen. Harrison would remain at the hotel until immediately before the ceremony.

There has been no official announcement of the time of the ceremony. The indications are that Mrs. Dimmick will become Mrs. Harrison some time between 5:30 and 6 o'clock this afternoon.

Mrs. Dimmick has received many valuable presents. The principal gift from Gen. Harrison is a necklace made of setony pearls. It is fifty-five inches long and has diamond clasps.

A GEORGIA TRAGEDY. A Young Girl Shot in a Parlor by a Dentist Because She Declined to Marry Him.

Atlanta, Ga., April 6.—A special to the Journal from Tifton, Ga., says: Miss Sallie Emma Owen was shot and instantly killed last night in the parlor of J. H. McCoy's residence by Dr. W. L. Ryder, a dentist.

A. Persons, candidate for congress, was standing beside Miss Owen. He was also shot at, but received only a flesh wound. Dr. Ryder was a lover of Miss Owen. It is presumed that she refused to marry him.

Miss Owen was a graduate of Wesleyan female college and belonged to one of the wealthiest and most aristocratic families in Georgia.

Ryder was captured a few miles from town. He made an unsuccessful attempt at suicide by cutting his throat.

CUBANS WIN A BIG BATTLE

Maceo and Garcia Met the Spaniards in Pinar del Rio and Whipped Them.

THE SPANISH TROOPS LOST HEAVILY

Victory Rendered Specially Important by Fact That it Will Deprive Spanish Troops of Shelter During the Rainy Season.

New York, April 6.—The World this morning says that a long cipher dispatch from Carlos Garcia, son of Gen. Calixto Garcia, leader of the Bermuda expedition to Cuba, has been received by M. Stern.

The dispatch says that the Bermuda's supply of arms and ammunition was safely landed in Cuba. Then Maceo and Garcia, with 9,000 men, swept down on the Pinar del Rio early on March 23.

The message says: "The Spanish troops were thrown into wild disorder. We captured two pieces of heavy artillery, 1,700 Mauser rifles, 1,300,000 cartridges, 2,800 swords and many stores. We burned 600 houses, sparing those of 850 killed and 200 wounded. The Cuban loss was 180 killed and wounded."

"After this victory, which is one of the most important the Cubans have won, inasmuch as it will be almost impossible for the Spaniards to find shelter for their troops in the interior during the rainy season. Gen. Garcia took 500 men and started eastward."

HOLMES CONFESSES ALL. The Arch-Criminal Preparing the Story of Twenty Murders Committed by Him.

Philadelphia, April 6.—H. H. Holmes, the convicted murderer, has made a confession in which he tells how and why he put to death no less than twenty men, women and children. He writes as calmly and remorselessly as he might expect, neglecting no detail. He even gives an account of six murders which he planned but was prevented from carrying out.

It was well known that Holmes put eleven names out of the world. So when his confession is printed there will be accounts of the violent deaths of nine people whose absence from their homes and their friends has hitherto been unexplained.

Holmes describes in detail the murder of the Williams sisters, of Quinlan, the janitor of the castle who "knew too much," of Benjamin Piztel, the murderer for which he is to be hanged, and of the Piztel children.

Anxiety in Cairo. Cairo, April 6.—Considerable anxiety is felt here in unofficial circles concerning the fate of the advance guard of the Egyptian troops operating against the dervishes. The telegraph line between Koroak and Minat Walls has again been cut by the dervishes, a strong force of whom is also reported near Assuan. It is thought that the dervishes will attack the Egyptian entrenched positions.

ALLEGED CONSPIRACY. A Southern Pacific Detective Professor to Have Discovered a Plot to Kidnap Cornelius Vanderbilt.

San Francisco, April 6.—George E. Card, late chief of the Southern Pacific company's detective service, has given publicity to a conspiracy to hold up the Vanderbilt special train and abduct Cornelius Vanderbilt. The officials of the Southern Pacific company, who were informed through Card before the Vanderbilt party reached El Paso, have been taking all possible precautions to prevent the carrying out of the plot.

FIGHTING FOR SILVER. American Bimetallic League Organizing in the East—Silver Presidential Candidates.

New York, April 6.—George F. Keeney, general organizer of the American Bimetallic league, says: "Since I left California I have covered all the manufacturing points on the Atlantic. Within a month representative merchants and manufacturers of Philadelphia, Boston, Washington and New York will meet in this city and take steps to negotiate for the reorganization of the national financial policy."

Speakers will be sent all over the east to educate the voters, while the west and southwest will take care of themselves. We will give the old parties the greatest contest they ever had. Our presidential candidate will be either Don M. Cameron, of Pennsylvania, Judge Caldwell, of Missouri, or Senator Tillman, of South Carolina.

TO-DAY'S CONDENSATIONS. It is understood that treasury gold will not be distributed by to-morrow's shipment.

The New York Methodists approve of the action of the house in refusing appropriations for sectarian schools.

McGorriston, one of the happiest and most enthusiastic men in Albuquerque. The ore is lead carbonate, and Mr. Pilkey states that the workmen have struck a five-foot vein. Assayer Stevens is at work this afternoon assaying the samples, and the returns show good paying mineral.—Albuquerque Citizen.

The dead body, recently found near the Chivray ranch on the Mimbres, is supposed to be the remains of a man named Swallow, who suddenly and mysteriously disappeared while peddling books in that vicinity, along about the year 1888. The books which he sold were of the better and more expensive class of literature and such would not likely find their way into the possession of the poorer class of natives. Several years since H. H. Whitehill, called the attention of the editor of this paper to the fact that the man had mysteriously disappeared and that his books were to be found in suspicious places.—Silver City Enterprise.

THE WINNING TICKET NAMED

Detailed Account of the Enthusiastic Democratic City Convention on Saturday Night.

PEDRO DELGADO SELECTED FOR MAYOR

Andrews and Jones Renominated for Clerk and Treasurer—Pointed Resolutions Adopted—Ward Nominations Ratified.

The Democratic city convention met in the court house at 7:30 o'clock on Saturday, and was called to order by Chairman Cunningham, of the city committee, with Mr. A. P. Hill officiating as interpreter.

Besides a full attendance of delegates, probably 200 spectators were present. Prof. Perez' excellent brass band furnished fine music at intervals during the progress of the meeting.

Meliton Castillo was chosen temporary chairman by acclamation and escorted to the platform by a committee consisting of J. H. Sutherland, H. L. Ortiz and W. S. Hemmingsway. Upon being introduced the convention Mr. Castillo briefly yet with much feeling thanked the delegates for the honor conferred upon him.

Arthur Seligman was thereupon chosen temporary secretary and Jose Ortiz vice temporary secretary.

On motion of Juan D. Castillo, the following delegates were appointed by the chair as members of the committee on credentials: Francisco Delgado, Manuel B. Apudaca, Ned Gold, Antonio Borrego and Juan D. Castillo.

After a recess of ten minutes the committee reported the following delegates entitled to seats in the convention: Ward No. 1.—Francisco Delgado, Francisco Sandoval y Lopez, Eugenio Sena, Candelario Martinez, Luis Lujan, Joaquin Martinez, Pedro Delgado, proxy Manuel Lobato, Melquiades Lopez, Placido Padilla, J. H. Sutherland.

Ward No. 2.—Marcelino Garcia, H. S. Lutz, Jose Ortiz y Baca, Manuel B. Apudaca, Tibarico Montoya, Jno. C. Sears, Francisco Ortiz y Rodriguez, Pedro Quintana, Andres Romero, Chas. F. Esley, proxy Manuel P. Martinez.

Ward No. 3.—Juan Shoemaker, Jose Amado Martinez, Thomas H. Tucker, A. B. Renahan, J. S. Candelario, Hilario Sandoval, Pedro Sandoval, Hilario L. Ortiz, Ned Gold, Jose Amado Gutierrez, proxy Genovevo Sandoval.

Ward No. 4.—Antonio Borrego, Meliton Castillo, Abe Spiegelberg, proxy Accencion Rael, Arthur Seligman, J. W. Thompson, Frank Andrews, W. S. Hemmingsway, Damian Lucero, Juan D. Castillo, Juan Suenos.

The report was adopted and the committee discharged.

On motion of Mr. Garcia the following committee on permanent organization was appointed: Candelario Martinez, Marcelino Garcia, J. W. Thompson, Pedro Quintana, H. L. Ortiz, Jose Amado Martinez and Eugenio Sena.

On motion of Mr. Sutherland the following delegates were appointed as a committee on resolutions: J. H. Sutherland, A. B. Renahan, H. L. Ortiz, John C. Sears, H. S. Lutz, Francisco Delgado and J. S. Candelario.

In response to loud calls, pending the report of the committee on permanent organization, Messrs. George W. Knobel, W. S. Hemmingsway, C. M. Creamer, W. H. Pope and A. P. Hill briefly and fittingly addressed the convention on the issues of the day, all predicting Democratic success in the city on Tuesday.

The committee on permanent organization subsequently reported the following permanent officers: Chairman, E. B. Renahan; vice presidents, Melquiades Lopez and Dr. Enos Andrews; secretaries, H. S. Lutz and Benigno Muoz; interpreters, Donaciano Vigil and Jose Ortiz y Baca.

The report was adopted and the permanent officers were escorted to their places on the platform.

In assuming the duties of the chair Mr. Renahan made a felicitous speech expressive of his gratitude for the high honor conferred upon him and of his confidence that victory was assured to the Democracy this spring.

At this juncture, Mr. Sutherland, from the committee on resolutions, submitted the appended report:

He it resolved by the Democratic party of the city of Santa Fe in annual convention assembled:

That the Democratic party is now, as it always has been, the party of the masses as against the classes, and now announces its time-honored policy of opposing the encroachments of corporations upon the rights of the generality of the people;

It denounces the neglect manifested by Thomas B. Catron, esq., New Mexico's delegate in congress, in respect to questions of moment to our citizens, while devoting his industry solely to a furtherance of private ends at the sacrifice of public concern and welfare;

It especially denounces his outspoken and unblushing justification of that iniquitous issue of bonds, called railroad aid bonds, which create a burden upon the county of Santa Fe, of which the city of Santa Fe is a large part, which tends to sap its vitality and make useless its business and industrial energies;

It commends the Democratic administration of municipal affairs and its continued success in maintaining peace since the transfer of the control of the city of Santa Fe from the hands of Republican representatives, under whose former regime our streets were the haunts of thugs and criminals generally, a change for which the entire community owes gratitude, and congratulates the outgoing administration for the ability which it has displayed in bettering the condition of our city in all respects, and especially in its success in reducing an unreasonably indebtedness left to it by Republican predecessors, and upon the near approach of the restoration of its financial affairs to a cash basis;

It commends and congratulates the Democratic board of education of this city, for and upon its wise and economic administration of the city schools during the past scholastic year, notwithstanding the depletion of the school treasury by a Republican official, unassisted by Republican politicians high in place and in search for further elevation, and who stand before the face of the people responsible for the lack of school moneys for the proper carrying on of the city schools. The efforts of these politicians in attempting to escape or to ignore the demand of the people for the funds unjustly, immorally and unconscionably withheld from the school treasury, we vehemently deplore and condemn; and the success of said board of education in reducing an unreasonably indebtedness left to it by its Republican predecessors,

Highest of all in Leavening Power.—Latest U. S. Gov't Report

Royal Baking Powder ABSOLUTELY PURE

is deserving of the warmest commendation of the people in view of the fact that the restoration of the financial affairs of the schools to a cash basis is near at hand.

The resolutions were adopted amid general applause.

Then, in an eloquent speech, in the course of which the Republican candidate for mayor was pointedly arraigned as one of the non-paying Mondragon bondsmen and as the attorney and direct representative of corporations that were practicing extortions on the people, Mr. Sutherland placed Pedro Delgado in nomination for mayor. His merited tribute to Mr. Delgado's worth as a man, experienced capacity in public affairs, familiarity with the needs and resources of the city and close sympathy with the people was greeted with enthusiastic cheers.

Mr. Delgado was thereupon nominated for mayor by acclamation and was escorted to the platform by Messrs. Marcelino Garcia and N. L. King. His appearance was the signal for another burst of applause that amounted to an ovation. He spoke most earnestly and effectively in Spanish for twenty minutes touching city affairs.

Mr. Ortiz then nominated Frank Andrews for re-election as city clerk in a Spanish speech, which was well interpreted by Charles Broussier.

Mr. Andrews was re-nominated for city clerk by acclamation.

To-morrow is election day in Santa Fe. Law and order must be strictly observed.

The Democrats are pretty certain of carrying at least three out of the four city wards to-morrow. The character of the nominees fully justifies this prediction.

CONGRESSMAN TAFT, of Ohio, is a bigoted Republican, a bigoted high protectionist, a bigoted goldite and a bigoted A. P. A. man. It is needless to add that he is unalterably opposed to the Arizona and New Mexico statehood bills.

We have frequently heard ladies declare that they never read anything in the home paper except the loaded local items, but nevertheless we have no notion of indulging in the hair-raising experiment of hinting that one of the dear creatures is squint-eyed and past 40 in the littlest letters in the obscurest corner of the New Mexican.

THE NOMINEE FOR MAYOR.

In the person of Pedro Delgado the Democrats have a candidate for mayor who needs no introduction to the people of Santa Fe. He is a native of the historic capital; his personal and public record is an open book in the hands of the people; his loyalty to the interests of the people, devotion to the weal of Santa Fe and fine ability as an administrative officer has been thoroughly tested and approved. During the past two years he has faithfully served as a member of the city council and in that capacity has acquired a familiarity with the resources and needs of the city that especially well qualifies him for the position of mayor. He is a zealous Democrat, a friend of the people and will prove a progressive, popular and efficient mayor. We say will, advisedly, for we regard the election of Pedro Delgado as already assured.

THE DEMOCRATIC TICKET.

The city ticket which the Democrats of Santa Fe nominated on Saturday night is, in the main, a very good ticket. Indeed, with one or two exceptions, it is such a ticket as may be well looked to with confidence that the material interests of this community will continue to be looked after in the future on those lines of strict economy so essential to the state of things now existing and for which past Republican administrations stand responsible.

The New Mexican on Saturday presented some very gratifying figures as to the economic management of municipal affairs under Mayor Esley's administration, and we have no doubt but that this excellent showing will be given full weight with those citizens who go to the polls to-morrow determined to vote for what they may consider to be for the welfare of the city during the coming year.

STRENGTHENING CATRON.

The approaching year promises to prove a vital period in the history of Santa Fe. Owing to the state of finances in which both the city and county have become involved, largely through the cunning manipulation of a class of men calling

themselves "prominent Republican taxpayers"—and the records show that many of them are tax dodgers of the most brazen stamp—the coming twelve months are likely to be fraught with public duties that will require the highest order of intelligence to deal with them, for there will be funding schemes and bond issues galore discussed and acted upon, and therefore men only who are free from all entangling alliances, corporate and otherwise; men who have in no wise been mixed up in the recent shameful attempt of the Catron crowd to saddle the Brice-Cole bond steal on this community, should to-morrow be elected to public office in this city. Outside of the big Republican chief himself no man has been closer identified with the crafty manipulation of this bond deal than has E. L. Bartlett, the Republican candidate for mayor. He it was who, at Catron's bidding, the other day, was so busy in strengthening Catron's hands in his efforts to work this scheme through congress, and should he be elected mayor it is but reasonable to conclude that his best energies will continue to be exercised toward sustaining Catron and his crowd in any effort calculated to rebound to their individual benefit politically and otherwise.

PRESS COMMENT.

Doesn't Want Statehood.

Hon. T. B. Catron will get statehood. Do not make any mistake about that—Soerorro Chieflain. Yes, Catron will get statehood through, in your mind. Catron does not want statehood, but there is not much doubt but that we will yet have statehood, that is, provided our Iowa friend—the man who introduced the bill—can possibly get it through. But Catron, Elkins and Reed would rather see New Mexico sink into perdition than see her become a state. Two silver senators will go from this territory if she should become a state, that is why the combine do not want to see her as such. Selah.—Springer Stockman.

Arizona's New Executive.

The appointment of Col. B. J. Franklin to the position of governor of Arizona is a worthy tribute to an able, honest man, a man who will perform his duty to the public without fear or favor, and always be loyal to the Democracy of the territory. Temporary promotion too often enlarges the head of the recipient of public favors. Men forget their friends and the party to whom they owe their elevation; but the Gazette has a strong faith in the integrity and sterling good sense of Col. Franklin, and we, in common with the Democratic party of the territory feel that, under his guidance, the old party will march to an easy victory this coming fall. The past is gone, let it repose in peace, but let us strive on in harmony to achieve Democratic success. —Phoenix Gazette.

A Humane Work.

In the Associated Press reports from Washington for Monday's senate doings, we find the following: In presenting petitions from Edward Everett Hale, Julia Ward Howe, the faculties of Yale, of Williams college, and many distinguished public men and scientists of note, Mr. Gallinger spoke in advocacy of the philanthropic plan of removing consumptives to the Rocky mountain regions and granting his abandoned Fort Stanton reservation of New Mexico for the use of the project. We sincerely hope, on the grounds of humanity, that congress will make disposition of Fort Stanton as prayed for in these petitions. This fort is the ideal sanitarium for consumptives. The buildings are substantial, the water is splendid, and the climate can't be surpassed anywhere on the globe. If sold, the buildings would be worthless, from the fact that they are made of stone and adobe, but standing as they are they are first-class houses. If we wanted to be selfish, we would advocate the purchase of the fort by Lincoln county and the establishment of the county seat thereat. —Roswell Record.

NEW MEXICAN PRINTING COMPANY.

The PECOS VALLEY of . . . NEW MEXICO

OFFERS unequalled advantages to the farmer, fruit grower, live stock raiser, dairyman, bee-keeper, and to the home-seeker generally.

The soil of the Pecos Valley is of high average fertility, and under irrigation produces bountiful crops of most of the grasses, grains, vegetables, berries and fruits of the temperate and some of those of the semi-tropical zone. In such fruit as the peach, pear, plum, grape, prune, apricot, nectarine, cherry, quince, etc., the Valley will dispute for the pre-eminence with California; while competent authority pronounces its upper portions in particular the finest apple country in the world.

Enormous yields of such forage crops as alfalfa, sorghum and Egyptian corn make the feeding of cattle and sheep and the raising and fattening of hogs a very profitable occupation.

The cultivation of canebrake—a tanning material of great value—is becoming an important industry in the Pecos Valley, a home market having been afforded for all that can be raised, at a price yielding a handsome profit.

The climate of the Pecos Valley has no superior in the United States, being pre-eminently healthful and health restoring.

Land with perpetual water-rights are for sale at low prices and on easy terms. The water supply of the Pecos Valley has no equal in all the arid region for constancy and reliability; and this with the superb climate, productive soil and the facilities afforded by the railway which extends through the Valley's entire length, will cause these lands to enjoy a constant, and at times rapid, increase in value.

The recent completion of the Pecos Valley Railway to Roswell will cause the more rapid settlement and development of the upper portions of the Valley, including the rich Felix section. The company has recently purchased many of the older improved farms about Roswell, and has now for sale lands to meet the wants of all—raw lands, partially improved lands, as well as farms with houses, orchards and fields of alfalfa and other crops. In the vicinity of Roswell several pieces of land have been divided into five and ten acre tracts, suitable for orchards and truck farms in connection with suburban homes. Certain of these tracts are being planted to orchards, and will be cultivated and cared for by the company for three years at the end of which period they will be handed over to the purchasers. Write for pamphlet fully describing the terms and conditions on which these several classes of tracts are sold.

SUNBEAMS.

I fear my wife does not love me, said the young man moodily. Last week, when I had such a cold, she didn't offer to do a thing for me. Young man, said the elderly one with the camphoraceous flannel around his neck, you don't appreciate what a treasure you have won.

A Constant Visitor.
Pain is a constant visitor of persons troubled with chronic rheumatism. This unwelcome guest will, however, take its departure, and not renew his visits if a writ of ejection is served upon it through the agency of Hostetter's Stomach Bitters, the most efficient blood depurative and anodyne to rheumatic twinges known to medical science. Noteworthy in its behalf is more positive and conclusive than that which proves its efficacy in rheumatic complaints. It is also conspicuously efficacious for neuralgia, erythema, biliousness, dyspepsia and kidney disorders. It promotes appetite and sleep, and is particularly useful to invalids recovering from exhausting maladies. Persons past the prime of life, and thus suffering from a lack of vital stamina, and it highly beneficial. Give it a persistent trial. No medicine used spasmodically, and at irregular times, can be expected to achieve lasting results.

What can it be that has come between Dawson and his wife? They used to be so happy together. Mrs. Dawson got the chaffing-dish habit. Oh, too bad. Poor Dawson!

During the winter of 1893, F. M. Martin, of Long Beach, W. Va., contracted a severe cold which left him with a cough. In speaking of how he cured it he says: "I used several kinds of cough syrup but found no relief until I bought a bottle of Chamberlain's Cough Remedy, which relieved me almost instantly, and in a short time brought about a complete cure." When troubled with a cough or cold use this remedy and you will not find it necessary to try several kinds before you get relief. It has been in the market for over twenty years and constantly grown in favor and popularity. For sale at 25 and 50 cents per bottle at Ireland's Pharmacy.

A HOUSE TO LET.

It was advertised in the papers after this fashion: "A bijou residence, suitable for small family. Charming situation on one of the loveliest reaches of the Thames. A house of unique design and exceptional sanitary arrangements. Sloping garden to river, boat, boat-house, stabling, fruit garden," etc.

Yet despite the alluring character of this announcement, the bijou residence went through two seasons unlet, its notice boards leaning lower and lower as the seasons went on over the stone boxed fringed garden walls with pathetic irresponsibility.

At length, simultaneously one morning in late July, two people caught the glow of that announcement from opposite corners of England—the one a man, the other a woman—and they bent their faces in its direction.

A geographical—as well as a railway time book—dispensation decreed also that those two people should make their debut simultaneously at the little wayside station, situated some mile and a half from the bijou residence in question. After that, how much fate or destiny had to do with it, how much man, how much woman, remains problematical. I defy two people of the opposite sexes to walk for a mile and a half along a boxed in country lane and not be oppressively conscious of each other.

I defy a man possessed of the slightest moiety of taste not to pick out the various beauties of that woman if she have them and briefly tabulate them on the retina of his appreciation as he walks. I defy her, if she have a grain of that coquetry which is said to be innate in woman, not to display those beauties to the best advantage for his especial delectation.

And what woman ever walks along a country road rich in wild flowers without stopping every five minutes to pick samples of them?

Finally, the two drew up at the garden gate, if not simultaneously almost so, the man pushing the gate wide for her and waiting, and they arrived face to face under the trellised porch.

The woman had put a bunch of scarlet rowan berries in her hat, a corresponding bunch in her waistband. She held sufficient wild grasses and flora in her arms to decorate a font at a harvest festival. Her dark gypsy face had caught a glow from these berries; her dark eyes shone; she was not young, the man thought, but extremely attractive.

The sound of advancing footsteps—footsteps presumably of the caretaker—roused him from his temporary aberration. It occurred to him that speech was the only thing possible to save the situation. He raised his hat, displaying a grizzled but patrician head, and smiled.

"Is the house let then?" he asked. The woman showed a gleam of teeth under the rich undulating curve of her red lips.

"That was just the question I was going to put to you," she answered. "No," he said. "I have merely come from Dorchester to look at it."

the rear looking idly ahead of him across the reach. He had seen in a flash through the staircase window the rowan berries going up stairs. He caught in a flash now the rowan berries coming down.

"Will she go straight out by the hall door," he asked himself, "or come into the garden?"

A rustle of the silk skirts coming down the path toward him, a glimpse of a comely figure silhouetted momentarily against the pendent ivy, was the agreeable answer to this query.

"As we have both come very long distances and indisputably upon the same quest," she began, "it is but fair, indeed the right and civil thing to do, I think, to ask you if you have come to any decision about the house? I believe—here her eyebrows went up, and she showed a gleam of teeth—"in all business matters man takes precedence."

"But, in matters of sentiment," he interrupted her, "woman."

"Sentiment?" she said. "Do you think, then, that even in her business transactions a woman is necessarily sentimental?"

"I certainly do," he answered. She moved on down nearer the flagged edge of the reach and stood looking away across it to the green meadows opposite, each detail of her charming person duplicated in the water with distracting accuracy.

"Ah, if you knew me better," she said, "you would find that I am a most prosaic creature. I threw aside sentiment ten years ago, when I threw aside my youth. My head at this moment, if you could only see the workings of it, is full of the prosiest speculations as to the drainage of the soil on which it stands, for I have a strong suspicion it is built upon clay. I am propounding, too, whether I like the kitchen range. The scullery strikes me as having been thought of afterward, and about the bathroom fittings I am just wondering. It seems to me they are inadequate, compared with the flowery suggestion of sanitary perfection conveyed in the Daily Telegraph; and, well, the drawing and dining rooms are certainly rather circumscribed, aren't they?"

"Yes, at the same time, you are agreeably pleased on the whole?" he suggested.

"On the principle that nothing, even in six roomed cottages on the banks of the Thames, can entirely reach the fullness of our expectations—yes."

He smiled and spread his hands. "In that respect the best of us are but as little children ever searching after what is absolutely impossible in this world—perfection," he answered.

"Yes, why is it? We should not like it if we could get it either. Yet we search, search, search, and waste our whole lives."

She turned her arch glance toward him and waited.

"It is our disease. Perhaps it is put there purposely that we should not grow too fond of living. Besides—and here comes the irony of it—if everything were perfection we shouldn't know it."

"No, we should want counteracting foils, like milestones, to show us it is perfection." Her eyes traveled up the green slope toward the house, and she added, reverting to it: "But you, you also, like this by no means faultless bijou residence. Yes, I can see by your face. Your face assures me that you have seen something today that pleases you."

He dropped his hazel eyes upon her and leaned on his cane.

Consumption kills more people than rifle balls. It is more deadly than any of the much-dreaded epidemics. Fully one-third of all the deaths in America are caused by consumption. It is a stealthy, gradual, slow disease. It penetrates the whole body. It is in every drop of blood. It seems to work only at the lungs, but the terrible drain and waste go on all over the body. The only way to get rid of consumption is to work on the blood, make it pure, rich and wholesome, build up the wasting tissues, put the body into condition for a fight with the dread disease. The cure of consumption is a fight—a fight between sound tissues and the encroaching germs of disease.

Dr. Pierce's Golden Medical Discovery fights on the right side. It drives the germs back, forces them out of the body. It will cure 95 per cent. of all cases of consumption if it is taken during the early stages of the disease. Its first action is to put the stomach, bowels, liver and kidneys into good working order. That makes digestion good and assimilation quick and thorough. It makes sound healthy flesh. That is half the battle.

When Dr. Pierce of Buffalo, N. Y., published the first edition of his work, The People's Common Sense Medical Adviser, he announced that over 600,000 copies had been sold at the regular price. He would distribute the next half million free. As this number of copies has already been sold, he is now distributing, *absolutely free*, 500,000 copies of this great work, but twenty-one cents in one-cent stamps to pay for postage and printing only being required. It is a veritable mecca library, complete in one volume. It contains over 1000 pages and more than 300 illustrations. The *Free Edition* is precisely same as those sold at 25¢ except only that the books are bound in strong paper covers instead of cloth. Send stamps now before all are given away. They are going off rapidly.

EASTER DAY IN SANTA FE.

The Joyous Feast of All Christendom Celebrated with Unusual Splendor in All the Churches.

A perfect day with all the joyous accessories of the occasion characterized the celebration of Easter in Santa Fe yesterday. Never in history has there been such a display of flowers at all the churches. Special musical programs had been doly provided and the sermons were selected with regard to the beautiful subject the day is designed to commemorate. At the Episcopal church Rev. Hale Townsend was greeted by a large congregation. The Knights Templar attended in a body. The choir music was fine, and the floral decorations were superb, an ample supply of home grown flowers being supplemented by a rare lot of lilies, ferns, etc., sent from California by Mr. L. A. Hughes and Mrs. Duncan.

The sermon, the first Mr. Townsend has preached since his illness, was from Heb. 7:16, "The Power of an Endless Life." The offerings amounted to \$24, of which \$24 will be added to the fund for the beautiful church to be erected to arrive soon. The Sunday school Lenten offerings for missions reached \$32. At the cathedral there was a crush of people. The sermons by Archbishop Chapelle and Rev. Henry Pougnet were eloquent and timely. The choir was under the direction of Dr. Crosson, and among the singers were Miss Morrison, Miss Senn, Mr. Tipton, Mr. Hinojos, Mr. L. G. Reed and others and selections from Leonard's and Farmer's masses were beautifully rendered.

The Easter services at the Presbyterian church yesterday were unusually beautiful and impressive. The church was crowded with worshippers. The fragrance and beauty of a profusion of flowers and fine Easter music added special charms to the services. Rev. Robert M. Craig, the popular and talented pastor, preached a most persuasive and powerful sermon on "Peter's Way of Ascending Christ's Resurrection." It was a good place to be. At the M. E. church the day was observed by the holding of a joint sunrise prayer meeting by the Epworth League and Christian Endeavor societies, and at 10 o'clock Pastor Madden preached of "Easter Joy." The music and flowers were also a feature at this church.

Yesterday afternoon the services in the chapel of the St. Vincent institutions were most impressive. All the guests of the sanitarium were present. The Sisters and orphans supplied the music, and the beautiful altar radiating with floral offerings, some of the choicest collections of Easter lilies having been sent from Los Angeles by Mrs. Margaret J. Church. At the church of Our Lady of Guadalupe, at the historic chapel of St. Michael, the Loretto and the St. Katherine school chapel services appropriate to the observance of this "queen of feasts" were also held.

First Ward Nominees.

The Democrats of the first ward have just cause to be proud of their local ticket. Nicenor Bacon, as a member of the city council, and Camilo Padilla, as a member of the board of education, will not disappoint the expectations of the large majority who can be depended upon to see that their election is as sure as their calling.

Victims of Consumption.

Charles F. Harbaugh, of Tiffin, Ohio, arrived in Santa Fe from Salda, Colo., at 10:30 yesterday morning and registered at the Exchange hotel. He was evidently in the last stages of consumption and Dr. Slocum was summoned to his relief. The doctor could give the sufferer no encouragement. The man retired to his room about 9 o'clock last night and was found there dead about 6 o'clock this morning. He had not undressed and was on the side of the bed. The doctor said he died of heart failure probably an hour before he was found. He was gentlemanly in appearance, well dressed and had a fine gold watch and \$50 or \$60 in money. Telegrams have been sent to Ohio asking what disposition shall be made of the body.

Frank Welche, son of John Welche, of Kansas City, came here for his health last September, died yesterday of consumption. Undertaker Gable has embalmed the body and will ship it to Kansas City to-night.

Don't fail going to Mrs. Otto Johnson for your dressmaking this spring. She is working at reduced prices. Thomas cottage, opposite Federal building.

Deserved Re-Nominations.

In re-nominating Frank Andrews for city clerk and William L. Jones for city treasurer the Democratic city convention manifested both political and business wisdom. No city in New Mexico ever had more capable and honest executive officers than these two gentlemen have proved during the terms they have served the people in the offices for which they are again candidates. It will be found when the ballots are counted to-morrow evening that the people have retained the services of Messrs. Andrews and Jones for another year by handsome majorities.

Worthy Nominations.

The names of Adolph F. Hill, for member of the city council, and Jose Segura, for member of the board of education, shine upon the excellent Democratic ticket in the 2nd ward. These gentlemen are peculiarly well fitted for the positions for which they are named, the former having served a term as city clerk, and the latter having long conducted a Spanish newspaper in the city and now being territorial librarian. Both will be elected.

ROUND ABOUT TOWN.

Picnic parties are numerous these days. Up to date the Santa Fe orchardists are in high glee over the outlook for a big crop.

This evening at 8 o'clock there will be an Easter service in the German Lutheran church.

The first of the weather and crop bulletins for the season will be issued from Director Hersey's office to-morrow.

Once more the New Mexico correspondents for metropolitan newspapers are being deluged with telegraphic inquiries regarding Schlatter's movements.

U. S. weather bureau forecast for New Mexico: Fair weather to-night and Tuesday; stationary temperature; light to fresh southerly winds.

Mayor Easley received an alarming telegram this morning notifying him of the serious illness of his wife at Fremont, Neb., and calling for his presence there at once. He will leave for Nebraska to-night.

Santa Fe has had five mayors as follows: William T. Thornton, Manuel Valdez, Ralph E. Twitchell, John R. Sloan and Charles F. Easley. And Pedro Delgado will be the sixth. Mark the prediction.

A good many citizens are asking for information respecting the record of J. D. Sena, the Republican nominee for clerk of the city. It appears that his official acts while deputy territorial auditor were not entirely above suspicion. The Taos county assessor might throw some light on this subject.

The New Mexican believes in a short campaign, but public policy suggests that two days time are not sufficient to allow voters to look fully into the records of the candidates. In city campaigns at least a week should be provided for this purpose. This may not be politics but it is business.

Dr. Harroun's 5-year-old orchard, just west of the city, gives promise of a bountiful yield of fruit this season. There are 2,000 trees of the choicest variety in this orchard, and in four years from planting the pear trees yielded over 1,000 pounds of fruit. In another two years the doctor will reap a small fortune each year as a result of his horticultural investments.

Will arrive to-morrow morning, dressed poultry. A 1 batter, fresh eggs, pure country lard, etc., at The Model.

Double Wedding at Ogden.

Miss Margaret Day was married to Mr. A. D. F. Reynolds and Miss Fannie Day was married to Mr. John T. Hurst, at the residence of the bride's mother, Mrs. S. M. Day, in Ogden, Utah, on Thursday evening, April 2. The two brides mentioned are sisters of the wife of Major M. A. Bredeen and are pleasantly remembered by many people in Santa Fe.

ELECTION TO-MORROW.

List of Officers to be Filled By the People—Polls Open at 9 in the Morning—Polling Places—Judges and Clerks.

The annual municipal election will take place in the city of Santa Fe to-morrow, beginning at 9 o'clock in the morning and the polls closing at 6 o'clock in the evening.

The officers to be elected at such election are as follows: One mayor to serve for the term of one year; one treasurer to serve for the term of one year; also four aldermen to serve for the term of two years each as follows: One alderman in ward No. 1; one alderman in ward No. 2; one alderman in ward No. 3; one alderman in ward No. 4; also four members of the board of education of the city of Santa Fe, each to serve for the term of two years as follows, to wit: One member of the board of education in ward No. 1; one member of the board of education in ward No. 2; one member of the board of education in ward No. 3; one member of the board of education in ward No. 4; each of which shall be elected by a plurality of the votes of the qualified electors of each of the four wards of said city respectively.

Appended is a list of the polling places and the judges and clerks designated to conduct said election:

In ward No. 1 at the house of Vicente Alarid, with Luis Conatante, Luis Lujan and Sixto Garcia, judges; Patricio Sandoval and George A. Johnson, clerks.
 In ward No. 2 at the house of Flavio Silva, with Lucian Bacon, Matias Dominguez and Gerardo Alarid, judges; Candido Ortiz and Seferino Bacon, clerks.
 In ward No. 3 at Fireman's hall, with Gavino Ortiz N. L. King and Aniceto Abeyta, judges; James C. Coukin and Jose Cienfuegos, clerks.

Just received at Fischer's, a full line of Palmer's fine toilet soaps and perfumes.

The Next Mayor.

Mr. Pedro Delgado, the Democratic nominee for mayor, has stood by the best interests of this community all his life, even when to do so was to defy the mandates of a corrupt and partisan judiciary. As county clerk and as the faithful alderman from the 1st ward he has had opportunities to familiarize himself with the true condition of things both in the city and county. He is a large taxpayer and by nature he is of an independent turn which makes him subject to no man's dictation wherever the good of the public is concerned.

FLED FROM HOME.

Mrs. Frank Conklin Disappeared During Saturday Night with Her Two Children—Presumably Gone to Topeka.

Mrs. Frank Conklin and her two little girls, one 5 and the other 3 years old, who have been living at the home of Mr. and Mrs. Charles M. Conklin during the past five months, disappeared during Saturday night and it is presumed have gone to Topeka, Kas., where a sister of Mrs. Conklin lives.

Six or seven months ago Charles M. Conklin, father of Frank Conklin, went to Topeka, where he found the latter's wife and two children in destitute circumstances. Mrs. Conklin was sick in a hospital, and Mr. Conklin, her father-in-law, says that he paid out about \$200 for the care of her and his grand-children and as soon as possible brought them to Santa Fe, where they have since lived with him.

He says that his daughter-in-law manifested no signs of discontent and that her departure without warning caused him and his wife much surprise and grief. She escaped through her bedroom window and closed the blinds after her. She had not to exceed \$25.

Frank Conklin has been working at Taos for several weeks and knows nothing about the occurrence above related.

Make it a point to see that your blood is purified, enriched and vitalized at this season with Hood's Sarsaparilla.

A Business Man.

Charles Wagner, whom the Democrats of the 3d ward have placed in nomination for city councilman, ranks high as an energetic, successful and honorable business man. The practical experience, sound judgment and golden common sense of such men as Charles Wagner are needed in the city council, and the people of the 3d ward will see that he is elected.

The Peralta Grant Case.

U. S. Attorney Reynolds and Special Agent L. A. Hughes returned yesterday from California. An order of the district court was issued, after an exhaustive showing, for the transfer of the six witnesses in the Peralta grant case to Santa Fe, to be tried for conspiring with Peralta-Reavis to defraud the government, but the witnesses are making a hard fight against their transfer. They are now testing their claims under the habeas corpus act.

The Santa Fe Victorious.

One of the most exciting games of base ball ever witnessed in Santa Fe took place on the college grounds on Saturday between the government Indian school and the Santa Fe teams. Although Pardee, the Santa Fe pitcher, was sick when he entered the box, he pitched a masterly game and succeeded in defeating the Indian boys by a score of 6 to 4. Brilliant plays were numerous on both sides, but the catch of long fly in the ninth inning by Aronoff truly the feature of the game. The Santa Fe team have selected Mr. Ed. Downey as manager and every effort will be made to give base ball enthusiasts of this city some rare sport in that line this coming season.

A Fourth Ward Nominee.

Pablo Martinez, who has faithfully and acceptably served as a member of the board of education during the past two years, has wisely been re-nominated by the Democrats of the 4th ward for that position. He is a worthy member of one of the most respected and influential families in the city, and of course will be re-elected.

Salvation Army Troubles.

New York, April 5.—Barrington Booth and his sister, Mrs. Booth-Tucker, had a quarrel which lasted from 10 o'clock last night until 4:40 this morning in Barrington Booth's residence at Mont Clair, N. J. There was no lack of cordiality, but it is understood that the entreaties of Mrs. Booth-Tucker addressed to Barrington Booth to return to the Salvation Army were without effect.
