## DISTRICT COURT NOTES.

**Manuel D. and Fidel Gonzales Admitted to Bail—Suits Filed—Tucker Hearing.**  
In the District court for Santa Fe county a suit entitled Miguel Chavez vs. Magdalena L. de Ortiz et al., foreclosure. The suit is brought to foreclose a mortgage of \$4,000 on the property occupied by H. B. Cartwright & Bro.

Judge McFie is in Las Vegas today hearing a case in chambers in which the A., T. & S. F. railway protests against the collection of certain taxes levied on its property in San Miguel county.

The hearing on the motion to be admitted to bail in the case of Manuel D. Gonzales and Fidel Gonzales, charged with the unlawful killing of Frank E. Gutierrez, brought to this county on a change of venue from Bernalillo county, was finished Saturday evening about 5 o'clock before Judge McFie and the defendants were admitted to bail, Manuel D. Gonzales in the amount of \$5,000 and Fidel Gonzales in the amount of \$2,500. Bail bonds were immediately furnished for the amounts stated, signed by Messrs. Pedro Perea, Jacobo Perea and Pedro C. de Bernalillo, approved by the judge, and defendants were released from the custody of Sheriff Hubbell and will appear at the next term of court in this county for trial.

Chief Justice Mills is expected to arrive from Las Vegas this evening to preside at the preliminary examination of Thos. S. Tucker, charged with the unlawful killing of Hipolito Vigil in this county, which hearing it is expected will commence tomorrow, Tuesday.

## Funeral of Mrs. Marsh.

The funeral of Mrs. M. A. Marsh occurred from the Marsh residence on Manhattan street at 2 o'clock p. m. yesterday. The body was interred in Fairview cemetery beside the remains of her husband, Jerome L. Marsh, and daughter, Laura Marsh. Final services at the grave were conducted by Father Gay. The three children of the deceased, Geo. Marsh, Mrs. Geo. T. Sumner and Mrs. Elmer A. Wilson, of Denver, were present at the service. A large concourse of friends attended, and the Fifteen club, of which Mrs. Marsh was a member, observed the obsequies in a body. The floral offerings were varied and profuse. A most magnificent maltese cross was presented by the members of the Fifteen club, and Mrs. C. M. Williams, of Colorado Springs, sent a sheaf of wheat with a mass of violets. Children placed 300 violets on the coffin.

## Died at Mora.

Mrs. Barbara Gallegos de Ribera died at Mora, Friday, April 23 at 4 p. m., and was buried at that place yesterday. She was an aunt to Mrs. F. A. Manzanera, of Las Vegas, and grandmother of Mrs. B. M. Rogas, of this city.

## WAR DECLARATION

**President's Message to Congress Advising That War Be Formally Declared—Reasons Given.**

## ACT PASSED BY BOTH HOUSES

**Amendment Recognizing Belligerent Rights Defeated in Senate—Army Reorganization Bill—Secretary Sherman Has Resigned.**

Washington, April 25.—The president has signed the declaration of war passed by congress today.

Washington, April 25.—The president has sent to congress the following message:

I herewith transmit to congress for consideration and appropriate action, copies of the correspondence recently had with the representatives of Spain in the United States, with the United States minister at Madrid, and through a letter, with the government of Spain, showing the action taken under a joint resolution approved April 20, 1898, "for the recognition of the independence of the people of Cuba, demanding that the government of Spain relinquish its authority and government in the island of Cuba and withdraw its land and naval forces from Cuba and Cuban waters, and directing the president of the United States to use the land and naval forces of the United States to carry these resolutions into effect."

Upon communicating to the Spanish minister in Washington the demand which it became the duty of the executive to address to the government of Spain in obedience to the said resolution, the said minister asked for his passports and withdrew. The United States minister in Madrid was in turn notified by the Spanish minister of his action, whereby the withdrawal of the Spanish representatives from the United States terminated all diplomatic relations between the two countries and all official communications between their respective representatives ceased therewith.

I recommend your especial attention a note directed to the United States minister at Madrid by the Spanish minister of foreign affairs, on the 21st inst., whereby the foregoing notification was conveyed. It will be perceived that the Spanish government, having cognizance of the joint resolution passed by the congress of the United States, and in view of the things which the president is thereby required and authorized to do, responds by treating the representative demands of this government as measures of hostility, following with that, the instant and complete severance of all relations by its action, whereby the usage of nations accompanies an existent state of war between the severing powers.

The position of Spain being thus known, and the demands of the United States being defied with a complete rupture in intercourse with special attention being constrained in exercise of the power and authority conferred upon me by the joint resolution, to proclaim, under date of April 23, 1898, a blockade of certain ports on the north coast of Cuba lying between Cardenas and Bahia Honda, and the port of Cienfuegos on the south coast of the island, and in the exercise of my constitutional powers, and in using the authority conferred upon me by the act of congress, approved April 23, 1898, to issue my proclamation dated April 23, 1898, calling for volunteers in order to carry into effect the said resolution of April 20, 1898.

Copies of these resolutions are hereto appended. In view of the measures so taken, and with the view to the adoption of such other measures as may be necessary to enable me to carry out the provisions of the act of congress in the United States in the premises, I now recommend to your honorable body the adoption of a joint resolution declaring that a state of war exists between the United States in America and the Kingdom of Spain, and I urge speedy action thereon to the end that a declaration of the international status of the United States as a belligerent power, may be made known and to assert in all its rights and the maintenance of all its duties in the conduct of a public war may be assured. (Signed) WILLIAM MCKINLEY.

Message Referred to Committees. In the house the message was referred to the foreign affairs committee; in the senate to the committee on foreign relations.

**House Proceedings.** At 1:30 this afternoon Acting Chairman Adams called up for consideration of the house to consider the war bill. It took the house 1 minute and 41 seconds to pass a declaration of war.

**War Declaration.** The following is the bill passed by the house:

A bill declaring that war exists between the United States of America and the Kingdom of Spain.

Be it enacted, etc., First, That war be and the same is hereby declared to exist, and that war has existed since April 21, A. D. 1898, including the said day, between the United States of America and the Kingdom of Spain.

Second, That the president of the United States be and he is hereby directed and empowered to use the entire land and naval forces of the United States and to call into actual service the United States militia of the several states to such an extent as may be necessary to carry this act into effect.

**Recognition of Belligerent Rights Wanted.** Senators Morgan and Turpie agreed to report the house war declaration to the foreign relations committee, but reserved the right to amend it in the senate. They want recognition of belligerent rights of the Cubans.

**Declaration of War Passed by Senate.** The senate committee on foreign relations agreed to report the war bill as passed by the house. At 2:50 p. m., the house bill declaring war was delivered to the senate. Mr. Davis moved to close the doors. Agreed to.

In the executive session Mr. Turpie made a speech in favor of the recognition of belligerency. Mr. Morgan made a speech charging congress for not sooner taking action on a declaration of war.

The senate agreed to the house war bill without amendment. In the secret session the Cuban belligerency amendment to the declaration of war was lost by a vote of 24 to 38.

## Naval Appropriation Bill.

An amendment was adopted to the naval bill, appropriating \$8,330,000 to enable the secretary of the navy to enlist men for the navy during the existing war, and the appropriation bill passed the senate.

Senator Hawley then called up the army reorganization bill, which was passed.

**Army Reorganization Bill.** The senate committee on military affairs met today to consider the army reorganization bill and to decide whether the volunteer army bill requires to be amended. After some debate the committee decided on a favorable report, within a few moments; that there were no defects in the bill requiring extension amendment.

**Secretary Sherman Has Resigned.** The cabinet held a special meeting to consider the message recommending a declaration of war. Secretary Sherman carried his resignation to the meeting. It takes effect at the close of today's business hours.

## WHEAT OUT OF SIGHT.

May Delivery Forced Up to \$1.20 Per Bushel by Efforts of Shorts to Over Advance Sales.

Chicago, April 25.—Panic stricken bears on change today bid the price of May wheat up to \$1.20, per bushel, an advance 6 cents from the closing price of Saturday. July and deferred deliveries, now the mediums of speculation, gained 2 cents each.

**Judge Day Will Accept.** Canton, O., April 25.—Judge Day will accept the position of secretary of state if he is nominated by the president and confirmed by the senate.

## WILL SUPPORT A REPUBLIC.

Twenty Thousand Spanish Republicans Addressed Senator Castellar. Madrid, April 25.—About 20,000 republicans have signed an address to Senator Castellar under the pretext of congratulating him upon his recovery from illness, but in reality offering him support if he proclaims a republic.

**Inheritance Tax Law Sustained.** Washington, April 25.—A decision was rendered by the United States supreme court today in the Illinois inheritance tax case, sustaining the law.

## THEODORE ROOSEVELT RESIGNED.

Assistant Secretary of Navy Will Be Appointed Lieutenant Colonel—Governors of States Notified of Quota of Troops. Washington, April 25.—Theodore Roosevelt has resigned as assistant secretary of the navy, to take effect at the president's convenience after the commencement of military operations. Secretary Roosevelt will be appointed lieutenant colonel of a regiment of cowboys he will raise.

State Governors Will Be Notified. The war department this afternoon will notify the state governors of the quota of troops they are expected to furnish and the points of assemblage.

## SUMMER RESORT DESTROYED.

Lake Laura, Wis., Burned and Four Persons Consumed. Eagle River, Wis., April 25.—Lake Laura, a summer resort owned by Peter Stein, on Lake Laura, burned last night with all the adjacent cottages. Mrs. Stein and three children were burned to death.

## CUBAN CABLE CUT

**Captain General Blanco Deprived of Telegraphic Communication with Madrid.**

## YALE AND HARVARD READY

**Nine Prizes Captured by United States Navy Up to Date—American Rifles, Artillery and Ammunition for the Cuban Army.**

Washington, April 25.—The quota of troops called for from New Mexico is four troops of cavalry.

Tampa, Fla., April 25.—The United States has cut the Havana cable, ten miles out from Havana. The southern end of the cable is now on the steamer Mangrove, recently converted into an auxiliary cruiser. This gives the government the exclusive use of the cable and entirely cuts Captain General Blanco off from all communication with Spain, as the insurgents are between him and the other cableports. It is the intention, so soon as a blockade at Cienfuegos is established, to cut the cable to Jamaica, thus entirely severing telegraphic communication between Cuba and the outside world, except such matter as is sent through the United States censorship. Orders have been issued by the navy department to prevent newspaper boats following the fleet, thus doubling the difficulty of obtaining accurate information, as well as greatly delaying it.

## American Flag Fired Upon.

Key West, April 25.—The first Spanish shots fired at the American flag were directed against the torpedo boat Foote on Saturday evening, while she was taking soundings in the Mantanzas harbor.

**Good Work by Uncle Sam so Far.** New York, April 25.—Since the war with Spain began, the United States naval forces have established a strict blockade over Cuban ports and captured nine ships belonging to Spain. Prizes are the steamers Buena Ventura, Pedro, Miguel Jover, Catalina, Saturnina, and schooners Mathilde, Candilla, Antonio. Spain has made no seizures of American vessels as known so far.

The flying squadron still remains in Hampton roads, except the Minnesota and the Columbia, which have gone to sea on a mission known only to the naval authorities.

**Cubans to Be Armed With Uncle Sam's Rifles.** Washington, April 25.—The government is preparing to land in Cuba 25,000 to 30,000 stands of improved Springfield rifles, artillery batteries, rapid firing Maxim guns and an abundance of ammunition. When the time arrives for 35,000 armed Cubans to co-operate with the American forces, they will be thoroughly armed and equipped.

**The Columbia at Newport.** Newport, R. I., April 25.—The United States ship, Columbia, passed Fort Adams at 11 a. m. bound in.

**The Harvard and Yale Ready for Business.** New York, April 25.—The American line steamers St. Louis and New York, now United States ships Harvard and Yale, are being coaled today, every inch of space usually used for receipt of freight being filled. They are under sold orders and nothing definite can be learned as to their destination.

**Drowned in the Rio Grande.** Special to the New Mexican. Thornton, April 25.—Francisco Silva was drowned in the Rio Grande at Pena Blanca, six miles below this place yesterday. Silva asked the ferryman the cost of transportation and when informed that it was 25 cents, decided to save the money and swim the river. When in eight feet of water the swift current drew the horse and the animal and rider were drowned. The young man had \$85 on his person.

**Strictly First Class.** Housekeepers and restaurant managers can save money by purchasing meats, fish and oysters from Bischoff & Muller. Only strictly first-class meats sold.

## STILL HOPES FOR INTERVENTION.

**Queen Regent Hopeful of Aid from European Powers—British Ports to Be Neutral.** Paris, April 25.—It is announced that the queen regent of Spain still hopes for a peaceful foreign intervention.

**Spain's Declaration on Privateering.** London, April 25.—With reference to Spain's declaration on the subject of privateering, issued from Madrid yesterday to the British officials, the joint resolutions announced by the United States on the subject were taken without reference to any policy Spain might adopt. Therefore, it is not expected that Spain's intention will effect the decision promulgated by the United States.

**Believed Spanish Fleet Has Sailed.** A special from Cape Verde Islands received in this city says that it is believed the Spanish fleet sailed today.

**British Ports to Be Neutral.** London, April 25.—The British admiral, commanding at Queenstown ordered the Spanish torpedo boat Audace to quit the port before 6 o'clock this morning. She still lacks considerable quantities of war equipments. The foreign office expects to publish tomorrow evening a formal notice that all warships of belligerents must leave British ports within 24 hours.

**SINGULAR STATEMENT.** From Mrs. Rank to Mrs. Pinkham.

The following letter to Mrs. Pinkham from Mrs. M. RANK, No. 2,354 East Southwestern Ave., Philadelphia, Pa., is a remarkable statement of relief from utter discouragement. She says:

"I never can find words with which to thank you for what Lydia E. Pinkham's Vegetable Compound has done for me.

"Some years ago I had womb trouble and doctored for a long time, not seeing any improvement. At times I would feel well enough, and other times was miserable. So it went on until last October, I felt something terrible creeping over me, I knew not what, but kept getting worse. I can hardly explain my feelings at that time. I was so depressed in spirits that I did not wish to live, although I had everything to live for. Had hysteria, was very nervous; could not sleep and was not safe to be left alone.

"Indeed, I thought I would lose my mind. No one knows what I endured. I continued this way until the last of February, when I saw in a paper a testimonial of a lady whose case was similar to mine, and who had been cured by Lydia E. Pinkham's Vegetable Compound. I determined to try it, and felt better after the first dose. I continued taking it, and to-day am a well woman, and can say from my heart, 'Thank God for such a medicine.'"

Mrs. Pinkham invites all suffering women to write to her at Lynn, Mass., for advice. All such letters are seen and answered by women only.

**Brewery Entirely Destroyed.** This morning at 5:20 the people of the city were aroused by an alarm of fire, and many turned out to assist in putting it out. It proved to be a blaze in the saw dust in the partially destroyed ice house at the old brewery and was soon extinguished, as every one thought.

At 9:30, smoke was again seen issuing from the building and another alarm given, but in spite of the efforts of the fire department, which soon had water playing on the flames, the entire structure was burned to the ground.

It is thought that the fire this morning resulted from the one which occurred a week ago Saturday. Smoldering embers remained in the saw dust and when the surface had been reached the air soon fanned them into flames. As the property is owned by the N. O. Nelson Manufacturing company of St. Louis, and the insurance is carried there, a statement of the loss and the amount of insurance cannot be gotten at this time. Hon. C. A. Spies, agent for the Nelson company, is of the opinion that the fire was incendiary in its origin.

MONDAY, APRIL 25.

Go to Cuba, young man, get a war record and grow up with the country. It will help you in after life.

The people of Spain are still in the self congratulatory mood. Within a few weeks they will be in a fearful mood.

Under the call for 125,000 men, this territory will furnish 350 men. Small number to be sure, but we will do the best we can.

Even the yellow journals and the most carping enemies of the administration must admit, that in the present emergency the latter is a yard wide and all wool.

There will be poetic justice in a colored regiment of United States troops landing first on Cuban soil. Spain was the last of the European nations to abolish slavery.

The Postal Telegraph & Cable company is stringing the fourth wire on its poles throughout the territory. Advancement is the order of the day in New Mexico.

The Spanish minister to this country, Senor Polo y Barnabe, has safely reached Toronto in the Dominion of Canada. For aught any one in this country cared he might have remained here with perfect safety.

Captain General Blanco is great at issuing proclamations these blockade days in Havana. But proclamations break no blockades and win no naval battles when the United States navy is about.

On Saturday last, Governor Hastings, of Pennsylvania, reported the National Guard of that state, 9,000 men strong, ready for active service, to the War department at Washington. Pennsylvania is all right, in peace or war.

General Weyler says, one Spaniard is equal to ten Cubans and ten Cubans are equal to 100 Americans. Still Weyler's history as commander of the Spanish forces in Cuba does not bear out this assertion, as with 200,000 Spanish troops he was unable to subdue 35,000 Cuban rebels.

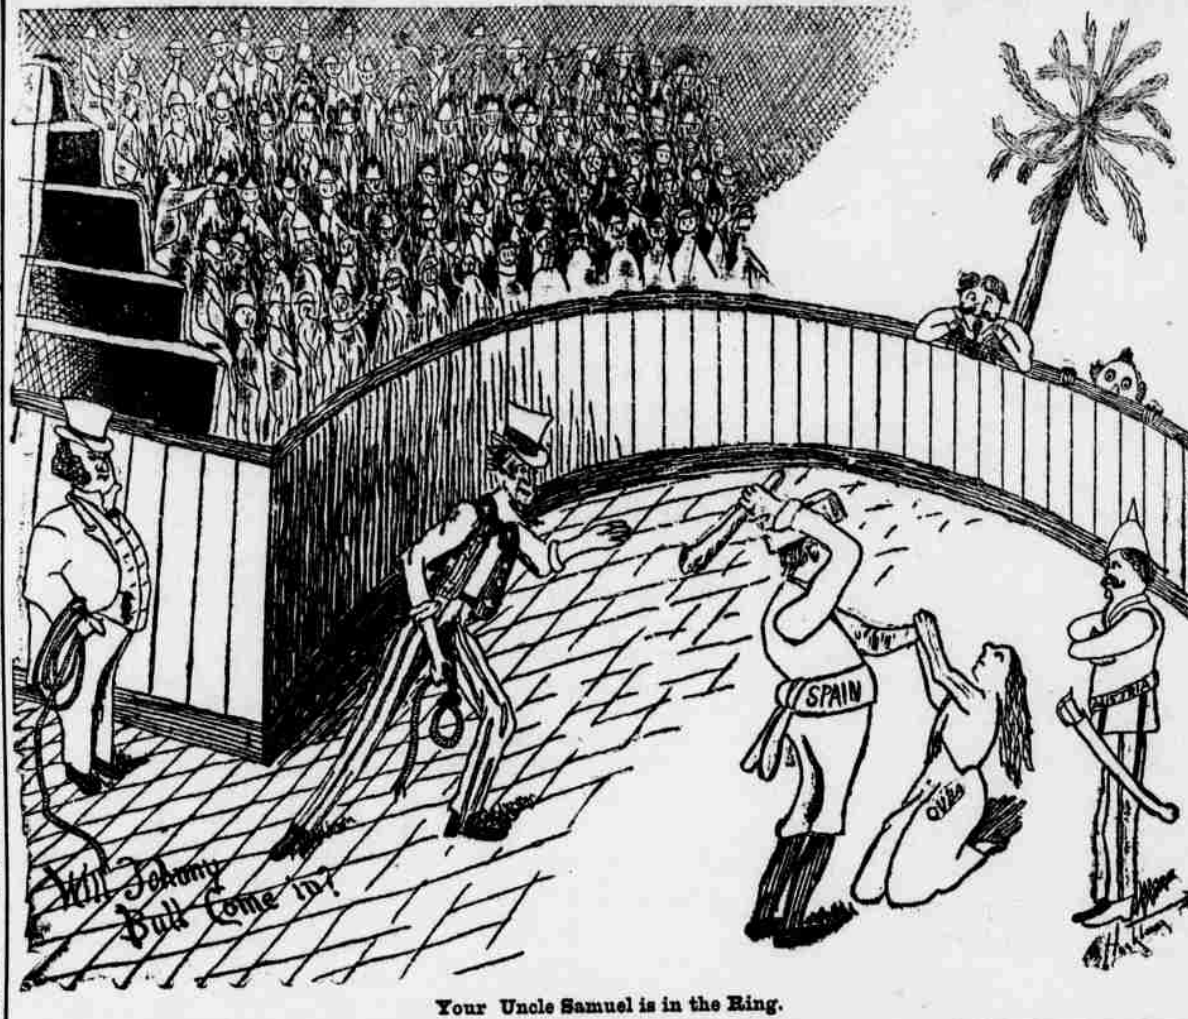

Bunting and flags were displayed in every important town in New Mexico when the news that Havana harbor was blockaded, flashed over the wires. In some localities the excitement was intense. The people of New Mexico are loyal and public spirited.

A cable to the Herald from Key West, Fla., says: Patrick Mullin fired the first shot in the war between Spain and the United States, and the big Spanish freight steamer Buena Ventura is the first prize of this country.

Judge Morrison is very proud of the above. He says whenever America is in trouble the Pats and Mikes will always be at the front.

The New Mexican is in a position to state, that while the name of Mr. Veeclao Jaramillo is being mentioned for the re-election to the house or to be a member of the senate of the coming legislature, the gentleman has stated that he is not a candidate for re-election and will accept no nomination whatever.

There seems to be a disposition among some newspapers, especially some of the New York yellow journals and their imitators, aiders and abettors in the west, to magnify the Spanish navy and talk grandly and eloquently about the Spanish torpedo boat flotilla, the powerful Spanish ironclads and the like.

Your Uncle Samuel is in the Ring.

In until 4:30. This places all territorial newspapers north of Albuquerque at a disadvantage and gives the Chicago newspapers an opportunity to overtake them during the several hours time lost while the trains stop over at Albuquerque. The territorial newspapers would welcome a change in the schedule.

Let New Mexico Speak Out.

After exhausting every honorable effort in the interest of peace between Spain and the United States, this country has at last been driven to submit the contention to the "bloody arbitrament of the sword." With patience and forbearance, which command the admiration of every good citizen, President McKinley has withstood the noisy clamor of the malcontents, whose only mission in life is carping and pessimistic fault finding. They condemned the president because he wisely refrained from war until we were ready, and now they condemn him because we are ready. Happily such persons count for nothing when the great voice of the people is heard. America stands in a grander position than any nation ever occupied in human history. Thirty-three years ago, the country was just emerging from the bloodiest and most destructive internecine struggle of modern times. Foreign nations (judging from their own unhappy experience) predicted that the happy hegemony by that war would never be extinguished, and that in our next foreign war, the southern states would make common cause with the enemy and thus revenge themselves on their northern brethren. Indeed one of the rain bows that Spain has been chasing was an expected rebellion in her favor by the southern people. "The wish as usual was father to the thought." Now behold the superb spectacle which we present to the world. Neither in the revolutionary war, the war of 1812, nor the Mexican war, were our people so splendidly unanimous as they are today. The animosities of the civil war are destroyed in the fervid fires of patriotism which burn in every American heart. Thanks be to the God of our fathers we have lived to see the day when there are neither southerners nor northerners, but all are Americans. Splendid old Tennessee is wild with joy, because the cruiser, called after her beautiful City of Nashville, has fired the first shot, and made the first capture of the war. All the cities of the republic are ablaze with enthusiasm. A few days ago the streets of Denver were lined with 100,000 people to bid a hearty God speed to the gallant Seventh infantry as it marched to the front to maintain the honor of old glory, and to avenge the deaths of the heroic sailors of the Maine. Let New Mexico show that she is behind none of her sister commonwealths in devotion to the flag of the free, and let Santa Fe lead the way in showing in the most emphatic manner that her people are resolved to stand by the president and congress in every exigency to the end. This should be done by assembling in the public halls of the several cities of the territory and speaking out in such terms as will show the authorities and the whole country, that New Mexico can be relied on to her last man and last dollar.

Unpleasant Possibilities.

At the beginning of the war between the United States and Spain the people of this country will do well to give up the theory that the conflict will be of short duration. If the trouble could be confined to the two countries now engaged in hostilities the fighting would soon be ended, but there are several very ominous possibilities which enter into the question that are not pleasant to contemplate.

Germany, to judge from the utterances of the press of that country, is not in love with the idea of seeing the possessions of a kingdom, in the new world, become a republic through the assistance of another republic; France, by reason of religious and financial interests, is only awaiting a favorable opportunity to take a hand in the fight, and a pretext for that opportunity will not be difficult to discover; Austria, the home of the queen regent and doubly interested in the future of Spain by reason that the little king is of Austrian descent, is watching events with a jealous eye, and the moment it is evident that Spanish arms are becoming worsted

in the struggle, will attempt to find some excuse before the other nations to lend a helping hand. The diplomats of the three countries that may possibly become involved in the war, are not lacking in shrewdness, and sufficient insults to their respective flags can be trumped up with remarkable ease at the proper moment. Another thing which may well cause uneasiness over the matter, is the haste with which Spain virtually declared war before the ultimatum of this government could be officially delivered to the Madrid government. Assurances of assistance from some of the great powers must have been conveyed to the queen to bring about such precipitate action.

These things may seem impossible to the majority of the Americans, but every circumstance surrounding the haste in which war was entered into, gives them credence, and unless the friendliness of Great Britain and Japan for this country acts as a safeguard, they may become stern realities before three months pass. And the reasons for the attitude of Germany, France and Austria are not deeply covered up. Germany and Austria cherish a strong hatred for any form of government which does not recognize the divine rights of kings, and the three are consumed with jealousy of the rising power of the United States as a commercial nation, which threatens to overwhelm their markets for native and manufactured products. The most terrible war in the history of the world have been those that have resulted from religious or commercial causes, and the present war is regarded by the greater part of Europe as a commercial struggle.

SUMMARY OF SUNDAY NEWS

NO SPANIARDS IN SIGHT. Southampton, April 24.—The British steamer Mexican, which sailed from Cape Town on April 6 for this port, via the island of Madeira, arrived here at noon. The commander reports that he did not sight a single Spanish war vessel during the voyage.

THE HELENA'S \$400,000 PRIZE.

Key West, Fla., April 24.—The gunboat Helena has captured the Spanish steamer Miguel Jover. The Helena remained here until yesterday, when she steamed out to sea. She was cruising about 150 miles in a southeasterly course when the Spaniard hoisted her flag early this morning. The Helena fired a blank shot at the Spaniard, who instantly hoisted the torpedos. She fired a prize crew on board. She is loaded with cotton and staves, not cotton and grain as previously telegraphed. She has a crew of 52 men. Prize is estimated at \$400,000 in value.

THE SITUATION BEFORE HAVANA.

Key West, Fla., April 24.—The torpedo boat Ericsson, left the fleet at 10 o'clock this morning and reached here at 4 o'clock this afternoon. Havana had not been bombarded up to the time the Ericsson left. The squadron lay spread out in line about eight miles long, maintaining the blockade. According to the proclamation, the ships of neutral powers are allowed to pass in and out. The Ericsson caught a little Spanish two-masted fishing schooner carrying a crew of five men. The torpedo boat had no prize crew to put aboard of her, so it chased her to the fleet and tied her up along side of the Cincinnati.

THE UNITED STATES CATCHES IT.

London, April 24.—With one important exception, there is general continental condemnation for the United States today. The exception is the St. Petersburg. The Russian. Other continental newspapers continue their bitter hostility and the London Sunday papers contain many indications of unfriendliness.

ONLY SEVEN COWARDS.

New York, April 24.—Out of 420 officers and men comprising the crew of the American liner St. Louis, which arrived here last night, only seven refused to sign articles when requested to do so after they were paid off.

SPAIN'S BOMBASTIC INTENTIONS.

Madrid, April 24.—1 p. m.—The royal decree issued today says that Spain maintains the right to have recourse to privateering and announces that for the present only auxiliary cruisers will be fitted out. All treaties with the United States are annulled; and 30 days are given the United States ships to leave Spanish ports. The rules that Spain will observe during the war are outlined in five clauses, covering neutral flags and goods contraband of war. What will be considered a blockade, right of search and what constitutes contrabands of war, ending with saying that foreign privateers will be regarded as pirates.

GREENS VOLUNTEERING FOR UNCLE SAM.

Athens, April 24.—Many Greeks are presenting themselves to the United States consulate here seeking enlistment for the war with Spain.

SPAIN'S BOW WOP.

Madrid, April 24.—Following is the decree gazetted today: "Diplomatic relations are broken off between Spain and the United States and a state of war is being begun between the two countries. Numerous questions of international law arise which must be precisely defined, chiefly because the injustice and provocation come from our adversaries and it is they, who by their detestable conduct caused this grave conflict."

IN FRONT OF HAVANA.

On board the flagship New York, off Havana, April 24.—The Spaniards had evidently seen the lights of the New York while the latter was signalling to the squadron. Moro castle commenced firing. This was reported by the officer of the deck, Ensign J. R. Edie, to Captain Chadwick, and who asked the captain whether the New York had not better discontinue signalling. "No," muttered Captain Chadwick, with the utmost coolness, "there is no necessity for stopping the signals, go ahead."

A little later Captain Chadwick was on the bridge, whence he watched tongues of flame shoot out from Moro castle. He glanced in the direction of the Spanish fortifications a few seconds then turned his back on them and went back to bed, perfectly certain that the Spaniards could do no damage at five miles, the approximate distance of the flagship from Moro castle.

Another officer said: "The Spaniards probably became nervous and decided that they could not sleep without some fireworks. They can't hit anything anyway."

There was no excitement on board the flagship. The United States cruiser Cincinnati, Captain C. M. Chester, reported to the flagship at midnight, "I have a prize." It is therefore believed other ships besides the New York have been busy during the night.

THE CAPTURE OF THE PEDRO.

Havana, April 24.—Admiral Sampson's plucky dash with the flagship New York, almost onto the Cuban coast and the capture of the Pedro, gained new laurels for him with his already enthusiastic and devoted command.

During the concluding features of the Pedro capture, the rest of the United States squadron disappeared from view and there was no one to dispute honors with the New York, of the first capture in Cuban waters. A newspaper boat followed her, but was left far behind in the race. The Dauntless, the dispatch boat of the Associated Press, was the first to arrive on the scene of action. She came up just as the prize crew of the Pedro was embarking on board that steamer. The entire plan of action here is fraught with danger, not so much from Spanish guns as from the difficulties of maneuvering a large squadron at night without showing any lights to the enemy on shore. Speculations are rife as to what the Spaniards are doing and intend to do. It is not believed that Admiral Sampson will confine himself entirely to a blockade of the island, although he informed the correspondent that he did not expect any action would occur immediately. It is certain, however, that some movement will be made on Matanzas, probably tomorrow. Whether this will be simply in the nature of a blockade, or for the purpose of securing a base of supplies, cannot yet be ascertained with any degree of certainty.

When the children are hungry, what do you give them? Food.

When thirsty? Water.

Now use the same good common sense, and what would you give them when they are too thin? The best fat-forming food, of course. Somehow you think of Scott's Emulsion at once. For a quarter of a century it has been making thin children, plump; weak children, strong; sick children, healthy.

**The Arrival of the Millennium.**  
The date of the advent of this happy period has so often been fixed by prophets of many creeds, and there has been so many disappointments, that a grave doubt of its reality has gotten in the minds even of the credulous. But those acquainted with the facts are aware from personal observation and experience that Hester's Stomach Bitters is an admirable means of preventing and remedying kidney and bladder complaints. Liver and malarial trouble, constipation, sick headache, nervousness and nausea are all overcome by this beneficent regulator and tonic. When appetite is impaired and sleep broken or unrefreshing, a wineglassful shortly before meals and before retiring will do much to remedy the difficulty.

**A Return Shot.**

**He Doesn't Know.**  
She—Are typewriters as expensive this year as ever?  
He—Well—er—that is, I'm not in position to answer. I have a young man taking my dictation at present.

In 1888 my wife went east and was attacked with rheumatism. She received no relief until she tried Chamberlain's Pain Balm. Since that time we have never been without it. We find it gives instant relief in cases of burns and scalds and is never failing for all rheumatic and neuralgic pains.—D. C. Brant, Santa Ynez, Cal. For sale by A. C. Ireland.

**Easy Enough.**  
What's the difference between firmness and obstinacy?  
Firmness is man's adherence to a good cause; obstinacy is woman's adherence to a bad one.

"A word to the wise is sufficient" and a word to the wise should be sufficient, but you ask, who are the wise? Those who know. The oft-repeated experience of trustworthy persons may be taken for knowledge. Mr. W. M. Terry says Chamberlain's Cough Remedy gives better satisfaction than any other in the market. He has been in the drug business at Elkton, Ky., for 12 years, has sold hundreds of bottles of this remedy and nearly all other cough medicines manufactured, which shows conclusively that Chamberlain's is the most satisfactory to the people, and is the best. For sale by A. C. Ireland.

**Wheels.**  
Gowler—What kind of wheels does a dog have in his head?  
Gowler—Don't know.  
Fowler—Why, wooden wheels, of course.  
Gowler—How do you know?  
Fowler—By the bark that comes out of his mouth!

I was reading an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the Worcester Enterprise recently, which leads me to write this. I can truthfully say I never used any remedy equal to it for colic and diarrhoea. I have never had to use more than one or two doses to cure the worst case with myself or children.—W. A. **Reflections of a Bachelor.**  
Probably the happiest years of Jacob's life were the seven years Rachel's father made him wait for her.

As soon as a man hears all the other women begin to abuse a girl he thinks he would like to meet her to find out why they are all so down on her.

Jonah probably wondered for a long time whether he'd better tell his wife the truth or get up some other story that wouldn't make her look at him that way.

When an old bachelor has any opinions at all about love, all the women begin to wonder whether he thinks so because he is an old bachelor or whether he is an old bachelor because he thinks so.—New York Press.

"Yes," said the young man, "I am wrapped up in my art."  
"But," said the young woman, "I thought you were employed in a tailoring establishment."

"I am. I had this overcoat made under my personal direction."—Washington Star.

**Didn't Look It.**  
The bicycle enthusiast proudly held up a picture.  
"There," he said, "is the picture of a woman who has ridden 216 centuries."

"Is that so?" exclaimed the man of common sense. "And she doesn't look like a fool either, does she?"—Chicago Post.

He names the following witnesses to prove his claim: Antonio Martinez, Jose D. Fernandez, Antonio Romero, Jacobo Medina, of Santa Fe, N. M. MANUEL R. OZBEO, Register.

**SUMMER STYLES.**  
Novelties Prepared For the Approach of Warm Weather.  
The fondness for transparent fabrics which has prevailed all winter and has had unlimited indulgence in the direction of evening gowns, theater bodices and trappings promises to extend through the summer, for not only does the reign of silks, mousselines de soie and net show no signs of falling, but wash materials of the sheerest variety are shown in abundance. These will make charming warm weather gowns, and the trimming will consist of ruffles, ruchings, plaitings, baby ribbon, narrow velvet, embroidery and lace, profusely used and interspersed with knots of ribbon. Such gowns will be set off by a girde and high collar of black satin, with a jeweled, metallic or enamel buckle and clasps, or by a long sash with flowing ends.

For women whose wardrobe fund is limited, but who are obliged to have a variety of gowns for social purposes, an economical fashion is to have a gumpie for low cut, short sleeved dresses, so that the same costume may be worn to a ball or a formal afternoon reception. The gumpie consists of a close bodice of lining material, the upper part of which is covered and trimmed to harmonize with the gown, the sleeves being made to match.

Chenille spotted tulle, which has been employed for ball gowns during the winter and for various trimming purposes, is succeeded by chenille spotted taffeta, which is something entirely new and is used for some very effective gowns. The spots are usually of a different color from the silk ground. Chenille arabesques are also seen on light silks, and this sort of decoration is shown in a variety of motifs.

Embroidered blouses having a slight basque are now made to accompany any kind of skirt. This is a convenient and inexpensive fashion, destined to be successful.

An illustration is given which shows a pretty gown for a girl of 12 years. It is of dark green cloth, with a plain skirt and a full bodice, buttoning across with cloth buttons in front. The gumpie is of cream lace over light green silk, and a soft scarf of light green silk encircles the waist and is tied at the left side. The close cloth sleeves have a slight puff at the top. The hat is of green drawn silk trimmed with black ostrich plumes. JUDIC CHOLLET.

**HER ONLY ATTEMPT.**  
Unsatisfactory Result of a Young Wife's Effort to Reform Her Husband.  
The wife of a young South Side doctor had been greatly worried for some time by her husband's bad habit of mild swearing. Time and again she had pleaded with him to leave it off, but all to no avail.

Finally she hit upon a bright idea. Whenever he heard him swear she would disappear just a little more vehemently, hoping in that way to shock him out of the habit. It would be hard for her, she knew, but the game was more than worth the candle, so she bravely started in.

On the morning after she took this resolve came her first opportunity to give her husband's nerves the shock she thought would do him good. As they walked up the steps together on returning from a morning call the young doctor found the front door unlocked in violation of his express orders.

"Dash those dashed maids away!" he ejaculated. "Why don't they keep this front door locked?"

And then his wife began: "That's what I say, too, dash it all. Haven't they got sense in their dashed heads?"

This utterance on the part of his wife took the young doctor rather by surprise, but he was too angry to see the meaning of her behavior. So when he got inside and discovered that lunch was not ready on time he began again:

"Why, dash it all! Lunch is late again. What do those dashed girls mean by keeping me waiting every day?"

"Dash it all, yes; that's what I say!" his wife chirped in. "They're too dashed slow for any use." And then she looked up she saw one of the maids standing in the doorway holding up her hands and her mouth wide open in holy horror.

"Well, dash you, what are you standing there for?" demanded her mistress. "Why don't you go and get lunch?"

"Well, I was just tryin' to tell you, ma'am, that Mrs. Fourthly, the minister's wife, is right here in the parlor waitin' to see the doctor."

One thing is sure. The young doctor's wife has not sworn since.—Chicago Times-Herald.

**He Remembered It Well.**  
The Lawyer (cross examining)—Now, what did you say your first name was?  
The Witness (cautiously)—Well, I was baptized John Henry.

The Lawyer—You were, were you? How do you know you were?  
The Witness—Well—er—I was there, you know.

The Lawyer—Huh! How do you know you were?  
The Witness—Why, I couldn't have been baptized otherwise, and besides I think I can remember it quite well.

The Lawyer—Ho! You do, you do?  
The Witness—Well—er—yes.  
The Lawyer (deeply sarcastic)—Kindly explain to the court and jury, my friend with the phenomenal memory, how an infant in arms came to remember that ceremony so well, will you?  
The Witness—Well—er—you see, I wasn't baptized until I was 18 years old.—New York Sunday Journal.

**BOUND HAT.**  
These hats will form a charming accompaniment to the delicate gowns of flowered muslin which are to be worn.

The veil of the moment is of mesh or Greek net, with flat velvet dots or raised ones of chenille. A very strong, serviceable variety shows a square mesh closely sprinkled with woven spots of moderate size, having a hole in the middle. Veils of white net with applications of a row of leaves clovers in white lace are a novelty.

Empire fans, genuine and imitative, are preferred to most others at present and are used at balls, theaters and concerts.

Soft scarfs in the Roman style, with fringed ends, and the latest neckwear to accompany shirt waists. They are tied in a knot, with no bow, the ends being allowed to hang straight down in front.

An illustration is given which shows a round hat of mauve straw. The crown is surrounded by a soft drapery of velvet of a darker shade of mauve, and at each side is placed a large cluster of violets with foliage. JUDIC CHOLLET.

**Notice for Publication.**  
[Homestead Entry No. 4135.]  
LAND OFFICE AT SANTA FE, N. M.,  
April 14, 1888.

Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before the Probate clerk of Santa Fe county at Santa Fe, on May 23, 1888, viz: Manuel Tenorio, for the N. E. 1/4, sec. 27, T. 21 N., R. 18 E.

A Disgusted Woman.

It isn't any wonder that some women get disgusted with medicine and lose faith in the doctors.

When a woman complains of feeling weak, nervous and despondent, and suffers from headaches, pains in the back and stitches in the side, and burning, dragging-down sensations, the average physician will attribute these feelings to her stomach or liver trouble.

For years, possibly, she takes their prescriptions for these ailments without receiving any benefit, then, in final disgust, she tries the delicate organs concerned, making them well and strong. It heals all internal ulceration and stops debilitating drains. It takes the pressure off the nerves and makes them strong and steady. Under its marvelous merits thousands of women have been made healthy, happy and robust.

The "Favorite Prescription" restores weak, nervous, pain-racked women and makes strong, healthy, capable wives and mothers. With its use all pain and suffering disappear. All good medicine stores sell it and have nothing else "just as good." Constipation and torpid liver will make the most ambitious man or woman utterly groggy for a time. Pierce's Pleasant Pellets cure them. One little "Pellet" is a gentle laxative and two a mild cathartic.

Dr. Pierce's 100-page illustrated book, "People's Medical Adviser," sent, paper-bound, free for the cost of mailing (only 21 one-cent stamps, or, cloth-bound, 51 stamps). Address Dr. R. V. Pierce, Buffalo, N. Y.

**NEW MEXICO TO THE FRONT.**

Governor Otero Offers His Services—New Mexico's Quota—Regiment of Mounted Infantry Partly from New Mexico—Volunteer Items.

Captain J. T. Matthews reports that 21 men joined company B. First Infantry on yesterday and signed the enlistment papers, which brings the strength of the company, up to this morning, to 41 men.  
Don Pedro Sanchez, of this city, a half brother of the late Colonel Miguel E. Pino of this city, served as a lieutenant for three years during the late war. He is at present 67 years of age. This morning he filed a letter with the governor offering his services. This shows the right spirit on the part of the old veterans.

Lieutenant Chase, a graduate of Annapolis, who served several years on American men of war and who is now residing in Santa Fe, received telegraphic orders Saturday night to report at Newport News May 1, to Captain Seelye, United States navy, for service in the war with Spain.

Major F. Muller, of troop E, First New Mexico cavalry, has received telegraphic communications from Bland, Cerrillos and Madrid that numerous recruits have been secured at those places. Troop E will have its full quota of volunteers Tuesday evening.

John Steward, employed in the New Mexico job department, has wired Captain W. C. Reid, chief of the New Mexico signal corps stationed at Las Vegas, for a place in the corps.

Colonel Whigham, aide-de-camp, telegraphing the governor from Raton saying: "If my services are of any use to you, summons me at any time." This is the first offer for active service from any of the aide-de-camps on the governor's staff.

Hon. Amado Chaves, whose father served during the war of the rebellion with great gallantry, has offered his services to Governor Otero in any capacity with the New Mexico volunteers during the present war.

In order to correct an existing misapprehension, the New Mexico despatch states, that the National Guards, now enlisted in the service of the territory as such will not be called upon for active service, but members of the National Guards, either by organizations or individually, will be given the preference as volunteers from the territory or be commissioned as such only by volunteering; there is no compulsion and there will be no compulsion. Volunteering means to go freely and of their own accord. The National Guard of New Mexico is one thing and United States volunteers from the territory of New Mexico, mustered into the service of the United States, is another thing.

Captain Leonard Wood, who is named in the dispatch to Governor Otero as colonel of the regiment of cowboy mounted infantry, is a captain and assistant surgeon in the regular army, entered the service January 3, 1886. He is said to be a fine physician and also a man of superior military education and ability. It is understood, that he is the attending physician at the White house.

New Mexico's quota consists of four troops of cavalry.

**The Cowboy Regiment.**  
This forenoon Governor Otero sent the following dispatch to the president at Washington:

Should my services be required in the field I tender the same to you in any position you may see fit to place me. New Mexico volunteers will fight in the front rank with the soldiers of any section of our country for the preservation of the flag. Your obedient servant,  
**MIGUEL A. OTERO.**

The following dispatch was received by Governor Otero this morning:  
Washington, April 25, 1898.—The president directs that Captain Leonard Wood, United States army, be authorized to raise a regiment of cavalry as mounted riflemen and to be its colonel and has named Hon. Theodore Roosevelt, lieutenant colonel. All of the other officers will come from the vicinity where the troops are raised. What can you do for them? Answer immediately.  
**R. A. ALGER,**  
Secretary of War.

To which dispatch the following answer was made:  
**R. A. ALGER, Secretary of War.**  
Telegram received. Have full squadron of cavalry ready for service. Prefer to send them as cavalrymen, but probably can transfer as mounted riflemen, if necessary. Can raise battalion of mounted riflemen in about a week. Can you take squadron of cavalry and battalion mounted riflemen in addition?  
**MIGUEL A. OTERO,**  
Governor.

In answer to the above at 4 o'clock this afternoon Governor Otero received the following dispatch from Washington:

The squadron of cavalry will serve as mounted riflemen equipped and armed by the United States for this special service. Extra men may be wanted but at present only 340 men can be taken.  
**R. A. ALGER,**  
Secretary of War.

Governor Otero has already started to work to organize this squadron, the enlistment and muster to be made at the capital. It is understood that Adjutant General H. B. Hersey will be selected as major of the battalion, which will be part of the cowboy mounted infantry regiment under Colonel Leonard Wood and Lieutenant Colonel Theodore Roosevelt.

**MINOR CITY TOPICS.**  
Large crowds are patronizing the tennis court these days.  
Fifteen mild cases of measles are reported at the Indian school.  
Regular meeting of Santa Fe commandery No. 1, K. T., tonight.  
U. S. weather bureau forecast for New Mexico: Fair tonight and Tuesday.  
Yesterday's telegraphic news will be found on the second page of this issue.  
The government Indian school ball team is practicing regularly for the summer games.  
The foundation of the new building at the sanitarium is completed and brick is being laid for the walls.  
Indian dances are being given daily on the Palace hotel grounds for the amusement of the tourist guests.  
Steve Arnold, who has been ill with an attack of pneumonia for several days has recovered and is able to be around town again.  
Frank Andrews, clerk in the post-office, was bitten on the hand by a Gila monster recently, and is unable to attend to his duties.  
There is talk around town of organizing a local war brigade for service in the war with Spain. They would certainly be the loudest fighters in the army.  
The New Mexican special war artist is out with a cartoon in this issue. In as much as this is his first offense, the public will excuse the effort of detail in execution. The idea, however, is a good one, whatever it is.

Santa Fe has been holding public meetings and conferences with the view of establishing a canning factory in that city. There is no better fruit-growing district in the territory and the enterprise ought to succeed.—Cerrillos Register.

A meeting of the Omaha exposition commission has been called for next Saturday at 10 o'clock, in Santa Fe, when reports from all committees will be received and final arrangements made as to the territorial exhibit.

Juan Padilla was stabbed in the arm last night, by Candelario Torres, Torres was drinking and insulted Juan Padilla, who resented by slapping Torres. The latter retaliated by sticking a knife in Padilla's arm. Torres was arrested by Marshal Alarid and lodged in jail.

An important meeting of the Horticultural society will be held tonight at the office of the water company. The time for the annual exhibition will be fixed and various preliminary arrangements made. The committee on spraying will also make a report. All are invited.

A dinner party was given at the Palace yesterday by Captain James, at which the following were entertained: Governor, Mrs. and Master Miguel A. Otero, Misses Ruth and Kate Reynolds, Miss LaRue, Miss Atkins, Dr. Massie, Robert E. Gortner and Professor S. E. Black.

Go to Fischer & Co.'s for pure drugs, chemicals, toilet articles and fresh candy.

The party was well pleased with its visit here.

**A WORD OF ADVICE.**  
To Those Coming to Alaska or the Klondike Gold Fields.  
One thing should be impressed upon every miner, prospector or trader coming to Alaska, to the Klondike, or the Yukon country, and that is the necessity for providing an adequate and proper food supply. Whether procured in the States, in the Dominion, or at the supply stores here or further on, this must be his primary concern. Upon the manner in which the miner has observed or neglected this precaution more than upon any other one thing will his success or failure depend.

The supplies must be healthful and should be concentrated, but the most careful attention in the selection of foods that will keep unimpaired indefinitely under all the conditions which they will have to encounter is imperative. For instance, as bread raised with baking powder must be relied upon for the chief part of every meal, imagine the helplessness of a miner with a can of spoiled baking powder. Buy only the very best flour; it is the cheapest in the end. Experience has shown the Royal Baking Powder to be the most reliable and the trading companies now uniformly supply this brand, as others will not keep in this climate. Be sure that the bacon is sweet, sound and thoroughly cured. These are the absolute necessities upon which all must place a chief reliance, and care must be taken that no instances be neglected. They may, of course, be supplemented by as many comforts or delicacies as the prospector may be able to pack or desire to pay for.—From the Alaska Mining Journal.

A book of receipts for all kinds of cookery, which is specially valuable for use upon the trail or in the camp, is published by the Royal Baking Powder Company, of New York. The receipts are thoroughly practical and the methods are carefully explained, so that the inexperienced man, with its aid, readily prepare everything requisite for a good, wholesome meal, or even dainties if he has the necessary materials. The matter is in compact, handy durable form, the whole being weighing but two ounces. Under a special arrangement, this book will be sent free to miners or others who may desire it. We would recommend that every one going to the Klondike procure a copy. Address the Royal Baking Powder Co., New York.

**Not Been Found.**  
The young girls who ran away from home Thursday have not been found yet. They purchased tickets for Albuquerque but evidently took some other route for search there failed to discover them. The youngest girl was but 14 years of age and wore short dresses. She has a sister working in Albuquerque. The older girl was 17 years of age and bought the tickets. Inasmuch as they had no change of clothing friends of the young girls think it probable that they were that the escapee is merely a mad lark of two children. They went away alone and the story that they were procured by some unscrupulous person for villainous purposes is not credited. Any report reflecting on their character is considered premature and unwarranted. Both girls have in the past borne excellent reputations. Interested parties are still searching for them.

**Improvements at Santa Fe Depot.**  
M. R. Williams, superintendent of bridges and buildings on the Santa Fe railway, with a force of eight men, began work on extensive improvements at the Santa Fe depot in this city. The tank and windmill will be taken down, and pipes laid to connect with the Water company's mains. Water for engines will be obtained by means of a stand pipe located south of the depot. The grounds will be piped to furnish water for the park, cleaning cars and for use at the round house, and the fountain will be repaired and put in running order. It is the intention of the company to make an attractive place of the depot and grounds, and the work under way is the first step in that direction.

**INCREASED NEWS SERVICE.**  
First Efforts to Secure Same Fall—Negotiations for Specials Going On.  
Appreciating the fact that the people of Santa Fe are deeply interested in the progress of the war with Spain, the NEW MEXICAN, several days ago, made an attempt to get a much larger telegraphic service. In order to secure the increased service it was necessary to have the co-operation of the Albuquerque Citizen and the Las Vegas Optic. To arrange for this service involves an additional expense to the NEW MEXICAN of \$20 per week, the Albuquerque Citizen readily consented, as it is anxious to publish all the news obtainable, but the Las Vegas Optic, in accord with its usual policy of non-partisanship and something-for-nothing tactics, offered to the Associated Press four DOLLARS per week less than it asked, and as the offer was not accepted the Optic refused to take any additional report. The probable reason of the Optic's refusal is, that the morning Denver papers reach that city at 1 o'clock in the afternoon of the same day, and it is cheaper to steal telegraphic news 12 hours old, than to pay for news that is news; denies it to its patrons for the pitiful sum of four dollars per week.

Since the Associated Press refuses to furnish a more complete report unless the three evening papers in the territory all take it, the NEW MEXICAN is compelled, with sincere regret, to furnish its readers with such war news as can be had under the present arrangements. This paper may, however, be able to arrange for series of specials in addition to its regular report. Negotiations to that effect are now being pushed.

**THE CANNING FACTORY.**

Enthusiastic Meeting—Good Work Done—The Factory—Must Come—The Town Needs It.

The citizens meeting held on Friday evening last at the court house was a very successful and important one. The hall was well filled with our best citizens and all evinced a great interest in the proposed object. The number of ladies present was noticeably large.

Captain Day called the meeting to order and nominated Hon. L. Bradford Prince for chairman, Messrs. S. G. Cartwright and Amado Chaves were proposed for secretaries, and all those named were elected. Governor Prince then made what may be called the foundation address, going over all the facts connected with the fruit industry and the desirability of preserving works, which should include canning, evaporating and the making of jams and jellies. He laid stress on the point that this was an improvement on natural lines and not one that had to be forced or cultivated; that it has the threefold advantage of providing a market for our increasing fruit crop, labor for the unemployed and supplying a home market which already exists and is supplied from abroad. He stated the amount necessary for a full establishment, properly situated adjoining the railroads, to be \$5,000, but that a smaller affair which could be increased hereafter could be started for less money.

He was followed by Judge Morrison, Mr. Boyle, Dr. Harroun, General Bartlett, F. Nolan, S. Spiegelberg, G. W. Hickox, S. G. Cartwright, R. L. Bace, J. P. Victory, J. Weltmer, C. A. Spiess, Dr. Andrews, G. P. Money and others, and by Mrs. Rivenburg, who represented the Woman's board of trade.

A subscription paper was then prepared, providing for organization when \$2,000 is subscribed, and in a short time a large sum was subscribed in cash and various persons present promised to accept stock instead of cash for fruit to a considerable amount this coming summer. General Bartlett then moved that a committee of nine be appointed to procure subscriptions and arrange for immediate organization. Chairman Prince appointed General Bartlett, Dr. Harroun, Captain Day, Mrs. Rivenburg, S. G. Cartwright, Mrs. Gable, Amado Chaves, G. W. Knaebel and J. D. Sena. On motion the chairman was added to the committee. This committee will immediately commence a thorough canvass of the town. Every one of the meeting was enthusiastically in favor of the plan proposed, and confident of its profit and success.

The stock of the Fruit Works company ought to be subscribed for without delay by the people of Santa Fe, so that everything may be ready for operation when the fruit crop commences. There is no reason for hesitation in such a case; every consideration calls for a prompt response. The stock is divided into \$10 shares so that everyone can take part and become personally interested. The only question for each person is how much he can possibly afford. One citizen has arranged to convert stock in another company into money so as to invest it in the cannery, and another is selling some sheep for similar purpose. Don't wait for the committee to call, but calculate how much you can possibly afford, and then step around to the Water company's office and put down your name.

The fruit cannery is to be exclusively a Santa Fe institution. Not a dollar of stock will be sold elsewhere. It will be established by Santa Fe money, and managed by Santa Fe people. This is right. It insures the largest benefit to the people of the city, a fair price for fruit, fair wages for labor, and the profits of the enterprise will remain here to the advantage of the whole community.

**HEALTH CATECHISM.**  
To Be Committed to Memory By All Dyspeptics, Invalids, Consumptives.  
What is the first cause of nine-tenths of all disease?  
Imperfect digestion of food.  
Why does imperfect digestion cause disease of other organs?  
Because blood, nerves, muscles, bone and flesh are derived from the food we eat and digest. If digestion is perfect the blood is pure, nerves and muscles strong, flesh firm. If the digestion is poor, the blood is supplied from half-digested, fermenting food, irritating every nerve and organ. The result is, sooner or later, organic disease, because every organ being poorly nourished the weakest gives away first and we have liver trouble, kidney complaints, heart disease or consumption.  
Is not dieting the usual and best treatment to cure indigestion?  
No, because the dyspeptic has been starved long enough; what is needed is abundant nourishment, not the lack of it. The stomach and blood demand nutriment, not bran crackers.  
What is the best method of cure?  
Plenty of wholesome food well digested.  
But how can a weak stomach digest plenty of wholesome food?  
By taking with the food after each meal certain harmless remedies which are known to digest food and thus nourish the blood and rest the weak stomach.  
What are these harmless remedies?  
The most valuable are vegetable ferments, pure pepsin, Golden Seal and fruit salts. All of these are now combined in the form of pleasant tasting tablets sold by druggists under the name of Stuart's Dyspepsia Tablets.  
Are these tablets superior to the various liquid preparations so called dyspepsia cures?  
Most decidedly, because all liquid medicines become stale with age and lose whatever good qualities they may have had originally, while the tablet retains its properties indefinitely. Stuart's Dyspepsia Tablets can be carried in the pocket, always at hand ready for use when traveling or at daily occupation. The cost but 50 cents and should be kept in every family. They keep the digestion perfect and save doctor's bills by warding off disease.  
Are Stuart's Dyspepsia Tablets adapted to all forms of dyspepsia?  
Yes, because in all cases the trouble results from indigestion, fermenting food. Stuart's Dyspepsia Tablets cause the food to be digested before it has time to ferment.  
If you wish to know more about them ask your druggist for a package and try them.

**Judge Morrison Nails a Lie.**  
To the Editor of the New Mexican.  
Santa Fe, April 25, 1898.—Sir: I have just learned that a lying, malicious story has been put in circulation about me to-wit: that I have been wiring or writing to some one in Washington asking that detectives should be sent out here to watch our people. Permit me to denounce said story as a base, groundless falsehood without the slightest semblance of truth. I have not written a line to any one in Washington on any subject for at least three months, and I have written to no single soul about the matter referred to in one way or another. I cannot fancy why any one should circulate such a vile fabrication unless it is for the purpose of injuring me in the esteem of my neighbors. I know the person who has been endeavoring to circulate this lie, but I will not soil your pages by naming him. Very respectfully,
