SAID TO BE SANTA FEGIRL

Woman Murdered Near Colorado Springs Reported to Be Resident of This City.

THE DESCRIPTION FITS

Inquiry Develops the Fact That a Sadie Durant Formerly Lived

Colorado Springs, Colo., Dec. 21 .-The detectives and police are still as far from a clue to the solution of the murder mystery as ever, but their efforts to apprehend the fiend who is guilty are being redoubled.

The name of Sadie Durant, of Santa Fe New Mexico, has been introduced as a possible solution. While the police are investigating this clue, it is not believed it is the right solution.

An additional fact has been added to the description of the dead girl and that is that she had an unusually heavy head of hair. No less than 50 heavy hair pins were taken from the coil of hair that remained on the dead girl's head and picked up in the immediate

Sadie Durant Well Known Here.

The report that the dead girl is supposed to be Sadie Durant, a resident of Santa Fe, recalls to memory a woman by that name who resided in this city about two years ago. It was alleged that she was a divorced woman and while here gave away her children, two in number, to a wealthy resident of Sandoval County.

The description of the murdered woman tallies with that of the Durant woman, especially as to the dental work and heavy head of hair.

The woman left here and went to Deming, and later left there and went to Trinidad, Colorado. This was the last heard of her by people who knew her while she was in Santa Fe.

INJURED IN A RUNAWAY

W. S. Shepherd and Jack Quinleven, of Alamogordo, Have Accident Near Carrizozo.

Editor W. S. Shepherd of the Alamogordo News, had a narrow escape from serious injury in a runaway near Carrizozo, one day last week. With Jack Quinleven, of Alamogordo, he took a livery rig at Carrizozo for a drive to White Oaks, to look after mining interests there and about two miles from the former place, the team became frightened and ran away, overturning the rig and throwing the occupants to the ground with considerable violence.

Mr. Shepherd escaped with a few slight bruises, but Mr. Quinleven received several bad injuries. Both were compelled to walk back to Carrizozo in the face of a heavy wind where their injuries received medical atten-

FORMER SENATOR

Governor Two Terms and Later Went to U. S. Senate From That State .-Known in Santa Fe.

Boise, Idaho, Dec. 21.—After an illness lasting several weeks, George L. Shoup, a former U. S. Senator from Idaho, died at his home here today, in his 68th year. He was governor of Idaho at the time that territory was admitted into the Union and was also the first governor elected by the state. He was elected to represent that state in the Unitd States Senate in 1890, and served two terms.

The deceased was well known in this city, as he visited Santa Fe three Christmas holidays, as a member of the

MUCH TRAF-FIC ON SANTA FE CENTRAL

0,000 Sheep Shipped Within Last Six Weeks - Direct Connection With Rock Island Trains East and South to Be Made Next Sunday.

The freight business of the Santa Fe Central Railway is increasing at a very satisfactory rate to the management. Since the first of November, the company has done the best business since active operations commenced. During this period about 30,000 sheep have been shipped from points on the Santa Fe Central Railway east and north going via the Atchison, Topeka & Santa Fe Railway, the El Paso & Northeastern, and the Rock Island Systems and the Denver & Rio Grande. Freight traffic generally has been good and the prospects for a good increase in business during the coming year are very bright. On the 14th of December, through line freight traffic from this city via the Santa Fe Central and the Rock Island and the St. Louis & San Francisco roads to St. Louis as well as to Chicago and intermediate points has been established WATER USERS' mediate points has been established and has proven successful. Freight from Kansas City via the

Rock Island, the El Paso & Northeastern and the Santa Fe Central is laid down in Santa Fe in from four to five days and from Chicago and St. Louis in eight to ten days. Constant improvements in this line are being made. On Sunday next, the 25th instant, through passenger connection with the El Paso & Northeastern and the Rock Island Systems east and south will be made, that is, Santa Fe Central trains will connect directly and without delay at Torrance with the Chicago and St. Louis Rock Island passenger trains to these cities and with same trains to El Paso, Texas. There will be no delay either in going east or south. A new time table will go into effect on that day by which the Santa Fe Central trains will leave this city about noon, to connect with the El Paso & Northeastern and the Rock Island trains, east and south.

SANTA FE SHOPS AT LA JUNTA

New Additions That Have Cost Half a Million Completed-Will Employ

The new shops of the Santa Fe Railway at La Junta, have been completed. The improvements have cost in the neighborhood of half a million dollars. The machinery is now being installed in the various buildings by the railway company and it is announced that the shops will be opened for business February 1, when the fire will be first lighted under the three new 600-horse-power boilers.

The new shops will prove a good thing for the town of La Junta as the principal industry of the place is the Santa Fe Railway shop work. The population of the town is placed at 5,000. The opening of the new shops will increase the payroll at that point by the addition of about 800 skilled and unskilled workmen.

Enthusiastic Meeting at El Paso-Will Work for Construction of Elephant Butte Reservoir.

A special from El Paso says that the land owners of the Rio Grande Valley met in that city on Monday and organized a Water Users' Association to co-operate with a similar organization SENATE NOMINATIONS tomorrow. The association will aid in the construction of the Elephant Butte dam near Engle, New Mexico.

A committee of fifteen was appointed to select a permanent committee of three to consult with a like committee from Las Cruces and form an interstate committee to have charge of all questions pertaining to an equitable division of the waters of the reservois and matters of similar import. A.: other meeting will be held in the Pass City on the 29th of this month.

According to B. M. Hall, the cor sulting engineer in charge of the construction work, the reservoir will store sufficient water to irrigate 110,000 acres of land in New Mexico and 73,-000 acres in Texas and Mexico. New Mexico is included in the reclamation act, but Texas is not, and it is necessary therefore, to organize two dis-Water Users' Associations. tinct which will operate under different conditions. Texas and Mexico, by agree ing to the construction of the Elephant Butte dam and by yielding their rights to the waters of the Rio Grande, will be given a portion of the flood storage from the reservoir, but neither can use this nor participate in the benefits of the irrigation act without special legislation by Congress. The Texas Water Users' Association will at once proceed to secure such special legislation and will also arrange with the Mexican authorities for a division of the water, so that the Mexican side of the valley near El Paso may receive its

PRESIDENT TO HONOR ARIZONIANS

Brodje Slated for Brigadier General in Regular Army and McClintock for

A special from Washington says that it is again persistently rumored that President Roosevelt has several political changes in store for Arizona men. It is asserted that the president will appoint Governor Alexander M Brodie as brigadier general of the regular army and will name J. H. Mc-Clintock governor of the territory. Colonel McClintock was twice wounded in the Rough Riders' engagement at San Juan. He was last year president of the Rough Riders' Reunion Association.

It is believed that while Governor Brodie desires no political preferment, he would not refuse promotion in the regular army in which he served for years after graduating from West

Charles Goldsmith Arrested at Antonito-Offers to Make Good Amount of Check .- Probably Go Free.

Sheriff H. C. Kinsell went to Antonito yesterday in response to a telegram from Sheriff Jose A. Garcia, of Conejos County, Colorado, stating that he had Charles Goldsmith in custody at that place. Goldsmith evidently does not desire to resume his residence in Santa Fe, as he offered to James B. Reed, clerk of the First National Bank, of this city, if allowed to replace the troops which have already go on his way. Sheriff Kinsell telegraphed to this effect to Mr. Reed last night and the latter wired back that settlement would be preferable to

A week ago yesterday Goldsmith passed a check at the First National Bank, to which was attached the forged signature of Walter Sharp, the contractor for the new College Street bridge. Mr. Reed, who cashed the check and consequently made good the amount to the bank, which was nearly \$30, had the option of prosecuting him or allowing him his liberty, so decided to let him go, if reimbursed for the amount of the check.

There are a number of people in the city whom Goldsmith got the better of, including several merchants, but their chances for securing any thing are poor as in the future Goldsmith will give Santa Fe a wide berth.

WONT KICK OVER TRACES

Torrance County Falls in Line With Valencia in Selection of Member of Council. Special to The New Mexican.

Estancia, N. M., Dec. 21.-The call for a mass meeting issued last week to the citizens of Torrance county, to take action on what was held to be the unjust action of the Valencia County politicians in nominating a successor to the late Colonel Chaves, without giving this county representation, resulted yesterday in the gathering of a large number of representative citizens from all over the new county. Much resentment was manifested in the meeting over the action of the Valencia County leaders, which was held to be an example of the old injustice of taxation without representation. The resentment, however, confined itself to mere expressions. Cool heads dominated the meeting and it was decided that harmony in the party in the district was the thing most to be desired. There has been no opposition to Mr. Chaves the nominee here, the only protest being against the manner of his nomination.

It was decided therefore not to name an opposition candidate for the seat of Colonel Chaves in the council, but the sense of the meeting was that Torrance County submitted under pro-

Strong resolutions were adopted asserting the right of Torrance County to representation for its citizens and protesting against the course of the politicians of the old county. HARD FIGHT **NEAR MUKDEN**

Russians Attack Several Japanese Positions With Artillery and Infantry.

ALL EFFORTS REPULSED

Heavy Conscription in Russia---Port Arthur Warship Damages Confirmed---Togo Inspects.

Sharp Fighting at Mukden. Tokio, Dec. 21.-The following report from Manchurian headquarters

was received at 11:30 o'clock last night and was made public today: "On Monday at 5 o'clock in the afternoon the enemy's artillery, east of Da Mountain bombarded in the neighborhood of Sinlintung. At one o'clock in the morning of Tuesday the enemy's infantry attacked south of Pleniuhungpao and at Tatzupao. By four o'clock in the morning they were repulsed. Simultaneously the enemy's infantry attacked Chinshantung, Heilintung and Huangtia and made a most vigorous attack in the neighborhood of Chinshantung.

"The fighting continued about an hour when the enemy was completely repulsed. We had no casualties." Mobilizing More Troops.

St. Petersburg, Dec. 21.-The mobilization announced yesterday of the reserves in the seven military districts affects a portion of about half of the military districts of Russia. While some of the reserve men called to the colors will be used to complete the strength of the regiments going to settle for the check he presented to the front, by far the greater portion will be formed into reserve units to gone to the far east. This year conscripts taken, number about half a million men, being about double the number usually called to the colors.

The number of young men annually liable to military service is over 800,-000. The new mobilization will entail additional relief measures for the families of the reserve men, which probably will be met by increasing the credits of the Zemstovs for this

Confirm Port Arthur Disasters.

St. Petersburg, Dec. 21.-While declining to give details, the Admiralty admits that the Russian advices from Port Arthur sent by General Stoessel substantially confirmed the Japanese advices of the partial wrecking of the Russian ships in the harbor and the censor has been instructed to permit the publication of the dispatches.

It is claimed that several of the larger ships and a respectable number of the torpedo boat destroyers are still seaworthy, but they are not considered as factors in the coming fight between Admiral Togo's ships and the Russian second Pacific squadron. The whole series of misfortunes which has attended the Port Arthur squadron is a bitter chapter in Russian naval annals, but since the arrival of the latest advices there has been no disposition to criticise Rear Admiral Wirens' failure to make a sortie, General Stoessel having decided that further defense of the fortress would be impossible if the guns of the warships and the sailors landed were re-embarked.

Had the ships gone out in the condition existing they would have been at the mercy of the Japanese and would have been sacrificed without hope of inflicting even commensurate damage. If the fortress is relieved, it is believed most of the ships will be raised and saved.

Sevastopol Disabled.

Tokio, Dec. 21.—Admiral Togo, who personally made a series of observations of the Russian battleship Sevastopol, telegraphs to the Navy Department, expressing it as his opinion that the Sevastopol is disabled. Great weight is attached to Togo's personal observations and opinion, as instanced by the fact that when the Russian battleship Retropavlocsk was sunk, Togo was one of the few officers of the entire Japanese fleet whose eye caught the vision of a speedy disaster. Commander Yezoe, who was killed while torpedoing the Sevastopol, has been promoted and given other posthumous

THERE IS THEREFORE HOPE FOR COLORADO.

The proceedings of the Supreme Court of the state of Colorado in the teresting but also very disgraceful and lation of the injunction of the highest court of the state is a comment on American institutions, which is anything but complimentary. Indeed, quite the reverse. It is an awful reproach and a fearful stain upon popular government and election systems of some of the states. The frauds proven were of a most unblushing and dishonest character, and of corrupt and shameless effrontery. Fairness, decency and honesty seem to be unknown words in the vocabularies of the Denver Democratic bosses, and dishonesty, corruption and ballot box stuffing seem to have been their Shibboleth. It is, however, a great thing for the good character and fair fame of the people of that commonwealth and the cause of decency and honesty in elections, that there are two judges of the state Supreme Court who have the nerve, the courage and knowledge of law and the ability to punish the evil doers and to check the spread of this grewsome web and corrupt fabric of election stealing in that city. There is therefore hope for Colorado.

HELPING NEW MEXICO TO SINGLE STATEHOOD.

While eastern newspapers generally gle statehood and while some of them like the Democratic Philadelphia Record, heap slander upon slander upon the people of this Territory, western papers generally are on the opposite side and are helping this commonwealth to obtain what is justly and properly its due, namely single statehood and under present name. The Colorado Springs Gazette, an influential newspaper in the Centennial State says of the statehood phase as follows: "New Mexico has long been a territory and is now one of the most fertile the west. It is great in its sheep and cattle output, in its gold mines and in its marvelous fruit and other agricultural products. Of the four territories in question the greatest injustice is done to New Mexico, which has long been promised statehood and is now given half a loaf.

Mexican is right."-Socorro Chieftain. The New Mexican's thanks to its valued Socorro contemporary. In this instance as in all other public questions, the New Mexican is on the side of the people and fighting for their best interests, regardless of the wishes and desires of the few Albuquerque politicians who desire to break into the United States Senate or of the land and town lot speculators who want to unload on the men who they believe will rush to the joint state of Arizona should it become a fact.

Mrs. Chadwick insists that she is innocent. Innocent of what? Honesty? NEW MEXICO NOT YET READY FOR AUSTRALIAN BALLOT.

Some judicious improvement in the present election laws and the kind of ballots to be used hereafter will not come amiss by the Thirty-sixth Legislative Assembly. The present law is very good except in some minor details. These can easily be arranged and that in such a way that they will be about as efficient as is needed. In Arizona, they have for some years past used a modified Australian ballot. Should a constitution for the new state of Arizona, to consist of New Mexico and Arizona, be formed, the question of the election laws and the form of ballots to be used in future elections, will prove quite a stumbling block that will be hard to overcome. It goes without argument that a large majority of the voters of New Mexico are not yet ready for the use of the Australian ballot in any form. This is a fact that cannot be overlooked, but will have to be taken into consideration at the proper time.

IT IS UP TO THE RAILROADS.

These are fine winter days in the land of Sunshine and especially in its capital. The climate here is more bracing and healthful than it is on the California coast. It is milder and warmer than in Colorado. Tourists and health seekers are beginning to appreciate these facts and are coming to New Mexico. This paper is doing work every day in advertising the climate and weather conditions of the Territory and of this city, and it is gratified to see that this work is beginning to tell. TOO HIDE BOUND IN POLITICS.

"The fact that Senator Andrews is now promoting the building of a railroad from Durango to Albuquerque is additional evidence that his friends knew whereof they spoke when in the late campaign they declared him to be the man who doesthings."-Socorro Chieftain.

This is correct! Nevertheless, the fact that Delegate-elect Andrews is doing much for the development of the Territory, is not pleasing the yellow Democratic journals published in the southeastern corner of New Mexico. The plant of the American Lumber Company in Albuquerque, is one of the largest in the country and the largest in the Southwest. Manufactured lumber from it is being shipped to the most distant points of the United States and the lumber is giving satisfaction. Considering that New Mexico is called an arid waste by its enemies, the Territory is doing pretty well. Within six months, that company will employ between 900 and 1,000 men in its saw mills, box factories, door and sash factory in Albuquerque and this alone will insure prosperous times in the Duke City. That town was very lucky indeed in securing the location of the headquarters of that company.

A strong demand for the establishment of a parcels post by the postoffice department is coming to the front throughout the country. "I was much afflicted with sciatica," writes Ed C. Nud, Iowaville, Sedgwick county, Kansas, "going about on crutches and suffering a deal of pain. I was induced to try Ballard's Snow Linament, which relieved me. I used three 50c bottles. It is the greatest liniment I ever used; have recommended it to a number of persons; all express themselves as being benefited by it. I now walk without crutches, able to perform a great deal of light labor on the farm." 25c, 50c, \$1.00. Sold by Fischer Drug Co.

WHY YOU SHOULD TAKE

Wine of Cardui is a mild medicine, but a powerful tonic that is unrivaled in its success in the treatment of the diseases peculiar to women.

Over 1,500,000 suffering women have been cured of troubles that ordinarily are thought to require the expensive treatment of specialists, simply by taking this great woman's tonic.

Wine of Cardui recommends itself to modest women of moderate means, because it can be taken in the privacy of the home without submitting to a humiliating local examination and subsequent dangerous treatment.

It is not costly and every sufferer can afford it. If you are a victim of female weakness in any form Wine of Cardui is the medicine that you should take and you cannot afford to lose any time in starting the treatment. Your trouble is ever growing worse-never better.

Wine of Cardui never fails to benefit even chronic troubles of the most serious nature, and in nine out of ten cases it brings an absolute cure. 1,500,000 cured women endorse Wine of Cardui,

You should take Wine of Cardul. Ask your druggist for it today.

The Juanita property, at Kelly, Socorro County, is being extensively developed at present and a large force of men is employed.

Under the superintendency of L. A. Babcock, the Kelly mine at Kelly, is producing from 50 to 75 tons of ore daily. A force of about 75 men is on the pay roll of the company.

With the advent of a railroad or two in the northwestern section of New Mexico what are believed to be the most extensive coal beds in the world will be opened up. Since the incorporation of several railroads to run to that part of the territory much coal land has been filled on and development will begin with the building of the roads. The outcome is awaited with interest.

The North American Mining Company of the Lordsburg district in Grant County, has installed several power drills and much work is being done. The officers of the company are sorry that the drills were not put in some time ago as much more work is accomplished by their use.

S. W. Maltbie, of the Boney Mining Company, of the District of Columbia, arrived in Lordsburg last week to begin active development on a number of mining claims this company recently purchased in the Lordsburg district. A force of men will be put to work and a large amount of work will ne done at once.

Alamogordo again has the gold ever. Assays of ores have been reurned from the discovery recently made near that city by M. L. Oliver and Peter Reel which assays run \$30 to the ton in gold. On the claim staked out by these men is an eighteen inch lead of ore within a few feet of the surface and it is believed that their claim will develop into a paying mine.

Richard Woolsey recently returned o his home at Hillsboro from a trip to the east, where he went to organize a company to work his claims situated in the Placer fields, located near Hillsboro, in Sierra County.

The Las Cruces Citizen says: "Talk about monopolists. There are men in the Organ district, if the claims they have located would join each other, their claims would be ten miles long by 600 feet wide; and still they are locating more."

At the Boston Mining Exchange last week 1,895 shares of the Santa Fe Gold and Copper Company sold at from \$2 to \$2.75 a share.

The condition of the mining market last week is described as follows by the Engineering and Mining Journal:

two weeks ago, the metal markets are showing a lull in business, which may be attributed partly to the unfavorable conditions on the Stock Exchange and partly to the approach of the end of the year, when manufacturers are accustomed to take stock and count up conditions. In copper there has been comparatively little interest taken by domestic buyers, and purchasers for export have also been light. There has naturally been a slight recession in prices, but there does not seem to be a prospect of any

considerable fall. Business in tin has been moderate, and prices have fluctuated about as usual. In lead only the ordinary consumptive business is being done at the advanced price. Spelter is comparatively quiet, but prices remain firm, as there is no pressure to sell on the part of smelters. Prices in the Joplin ore market continue very high and buyers are competing for ore.

Silver has been firm, under the influence of continued demand from the east. The price has gone above 60 cents for the first time in many months.

The iron markets are strong, with good demand for both raw and finished material, and advancing prices are generally in order. In pig iron and billets especially, spot material is scarce, and in several of the local markets premiums are being paid for early delivery. Further advances are expected in finished materials next week, when several pool meetings are to be held.

The western coal markets are generally in fair shape. Demand for steam coal is good, and domestic trade has been stimulated by cold weather. Transportation conditions are not very good, and some delay has been caused by snow; while in West Virginia and in parts of Pennsylvania and Ohio drought has interferred somewhat with mining.

In the seaboard bituminous coal trade conditions continue good. The demand for steam coal is large, and apparently consumption in this line will be heavy throughout the winter. Here again there is some delay in transportation.

The anthracite coal trade has received an impetus through thep coming of cold weather, and this condition promises to last.

The Red Fissure Mining and Milling Company of the Bromide district in Taos County, is planning the erection of a complete plant of new mining machinery for the treating of ore of the company. The workings have now reached the 300-foot level and the property has shown some good ore, the au points in Southern New Mexico, shaft having penetrated about 200 feet Arizona and the Republic of Mexico of mineral running from \$2 to over \$100 to the ton on assays.

Actual work was somewhat retarded last week in the Tampa shaft on Tusas Peak in the Bromide district, caused by a breakdown in the machinery. The force was obliged to work with hand

steel. Material for repairs has arrived from Denver and when these are made the work will proceed.

Under the management of Joseph Brown the Graphic mine, near Magdalena, is producing about six cars of zinc ore a week. Thirty-five men, including engineers, blacksmiths and office men are employed.

The output of the Empire Gold Mining and Milling Company, which owns the Good-Hope Bonanza mine and mill near Hillsboro, was \$5,000 last month. It is estimated by the owners of this property that the output for the month of December will be over \$6,000.

What gives promise of being one of the greatest zinc mines in the world is situated in the Magdalena district. The mine is known as the Magdalena property and has been worked for years. It was abandoned early last spring by its owner, who thought that the property had been worked out. Last April representatives of the Ozark Zine Oxide Company, of Joplin, Missouri, purchased the mine for a song and the former owner thought that he was getting rid of a white elephant. Since that time 125,000 tons of zinc ore have been blocked out. There is yet a body of ore that is 77 feet in width and which is said to run at least 1,200 feet in one direction from the present workings. The property produces at present quantities of lead, copper, zinc and iron in various combination, all of the produce being shipped to Joplin to be smelted.

The largest deposits of mica in New Mexico and probably in the west are locted 15 miles southwest of Tres Piedras in what is known as the Cribbenville district. These deposits have been worked by mining men at intervals since 1884. At present not much work is being done on the property as the owners are not satisfied with the prevailing prices secured from the syndicate controlling the mica output. It is reported, however, that these mines will resume operations shortly as arrangements are being made to market the product independent of the trust.

ELECT OFFICERS

Santa Fe Lodge No. 2, Knights of Pythias, Hold Enthusiastic Meeting Last Night.

At Castle Hall last night Santa Fe Lodge No. 2, Knights of Pythias, met in regular weekly session for the transaction of routine business and the election of officers.

Master of Finance R. H. Bowler made his report and after the bills of the lodge were settled it was found that a substantial balance still remained on hand. After the regular business of the lodge was dispensed with, visiting brothers were called upon and some interesting speeches were

Then followed the election of officers which include the following: Chancellor Commander, Frederick Siegner: Vice Chancellor, Paul A. F. Walter; Prelate, J. L. Zimmerman; Master of Work, Charles Wagner; Master of Finance, R. H. Bowler; Master of Exchequer E. Lucero: Keeper of Records and Seal, J. S. Candelario; Master at Arms, J. R. Valencia; Inner Guard, W. M. Berger; Outer Guard, J. M. Anaya; Trustee, Charles Wag-

The lodge has prospects of adding some new members to its roll during the coming year and much interest was manifested at last night's meeting. The grand lodge of New Mexico will meet in Santa Fe in 1905 and the lodge is preparing to entertain the visiting members in a suitable manner.

It will be a sash and door factory and when completed will have entailed an outlay in the neighborhood of \$70,000. It is expected that the new factory will be ready for opening by April of next year and will give employment to 200 additional men.

This addition will greatly add to the facilities of the American Lumber Company and will make its plant one of the largest of its kind in the country and the largest in the southwest. With its present equipment the company is finding it hard to supply the demand of the wholesale trade and New Mexico lumber is meeting with a ready market wherever it goes.

Pueblos Claim They Have Secured Lost Land Titles-Commission to Visit Washington.

The delegation of Pueblo Indians who recently made a trip to the City of Mexico for the purpose of looking up titles to land in the vicinity of their present holdings and which they claim to be their property under letters granted by the king of Spain many years ago, have returned and report that their trip was successful and that they succeeded in securing the coveted documents.

While in the City of Mexico the Indians had a conference with President Diaz and other prominent government officials who they claim rendered them valuable assistance in securing for them documents of land grants under the Guadalupe Hidalgo and other treaties.

It is reported that in a short time a meeting of the different Pueblos will be held at San Felipe, when a commission will be appointed to visit Washington, carrying with it these documents, which it will lay before the President.

The Pueblos believe that the United States government will heed their appeals and restore to them tracts of land which they claim were unlawfully appropriated by the white settlers who have come to the Territory in re-

SPASM OF VIRTUE SHORT LIVED

El Paso's Attempt to Enforce the Sunday Law Has Evidently Been Given Up.

El Paso, after several weeks of strict enforcement of the Sunday law, was again a wide open town on Sunday last. The Pass City's spasm of virtue seems to have quietly faded away.

A week ago one of the saloons remained open all day in violation of the law and the edict of Sheriff Boone The owner was arrested and the case taken into the courts, but the jury failed to agree and this was taken by the other liquor dispensers in the city to mean that the Sunday law would not be enforced.

The result of the action of the saloon men Sunday is awaited with interest by the residents of El Paso.

BLOODY BATTLE

SHEEPMEN FIGHT

Folsom, N. M., Dec. 21.-A cutting affray occurred about eighteen miles south of Folsom near Cerro Grande Mountain, Monday morning. Maximiliano Martinez, a sheep herder, was notified by Leocadio Martinez, a sheep owner upon whose lands the latter alleged the former was trespassing, to immediately withdraw his herd. The notice was sent by Leocadio's father. at whom the trespassing herder took two shots upon the delivery of the notice. The old man beat a hasty retreat and told his son what had happened. The son went immediately and demanded of several herders, who were gathered about Max Martinez, who shot at his father.

Max at once informed Leocadio that he (Max) was the party who did it, and started for his gun to give Leocadio similar treatment, but Leocadio was too quick for him and Max found himself facing and looking down a Winchester, whereupon he stopped and proposed to Leocadio that they try their physical powers in the settlement of the difficulty. His proposition was quickly accepted and Max soon yelled enough.

Leocadio released him and started away, when Max ran up behind him and began cutting him with a knife, slashing a four-inch cut in Leocadio's arm near the shoulder, then suddenly cutting him under the left eye and another across the forehead from the roots of the hair down between the eyes. The wounds are serious.

Max Martinez is a brother of the notorious Juan Martinez, who is serving a life sentence for the murder of two Chinamen in Clayton, New Mexico, in the early part of January, 1896. He is under arrest here, awaiting a preliminary examination.

RECTOR OF ST. LUKE'S,

Ashburnham, Ontario, Testifies to the Good Qualities of Chamberlain's Cough Remedy.

Ashburnham, Ont., April 18, 1903.-I think it is only right that I shall tell you what a wonderful effect Chamberlain's Cough Remedy has produced. The day before Easter I was so distressed with a cold and cough that I did not think to be able to take any duties the next day, as my voice was almost choked by the cough. The same day I received an order from you for a bottle of your Cough Remedy. I at once procured a sample bottle, and took the medicine. To my great relief the cough and cold had completely disappeared and I was able to preach three times on Easter Day. I know that this rapid and effective cure was due to your Cough Remedy. I make this testimonial without solicitation, being thankful to have found such a Godsent remedy. Respectfully yours, E. A. LANGFELDT, M. A.,

THE SCENIC

HIGHWAY

An Artistic Booklet Descriptive of it as Well as of Las Vegas and the Gallinas Park.

"Las Vegas, the Scenic Highway and Gallinas Park" is the title of an artistic and superbly illustrated souvenir volume, that has reached the editorial table of the New Mexican. In fact, it is the handsomest volume of that nature that has come to the New Mexican's notice lately, excepting the press work, which is blurred and set off a little, perhaps, however, only in the particular specimen, which has been submitted to this office. The cuts were made by the Williamson-Heffner Engraving Company of Denver, Colorado, and are of very fine quality, while the typographical and press work are by the Optic Company of Las Vegas.

Most of the cuts are three column, but some of the inserts, noticeably panoramic views of Las Vegas, of the Gallinas Canon, of the Hot Springs and of the Gallinas Park are from five to twelve columns in width. A number of beautiful cuts illustrating the Santa Fe end of the Scenic Route are from photographs taken by John K. Stauffer of this city.

The book is printed on tinted paper FERNDELL French Lima Beans and and each page has a border in red French stringless beans are the top which sets off very effectively the pictures and the letter press and the mar-Del Monte asparagus tips are an exgins are of such width as to delight ceedingly nice vegetable to serve with good printers. The book is bound in a handsome linen finished, chocolate We have FERNDELL Peas, Platt's brown cover with appropriate design Peas, and also the imported French in red and is fastened with red silk Peas and mushrooms. We are show- cord.

The descriptive matter is well written and the statistics are succinct and striking, clinching the argument that Las Vegas possesses superior climatic and other advantages. That part of the booklet devoted to the Scenic Route is of especial interest to Santa pipes with amber mouth piece at \$2.50 Fe people and opens with the followand\$3.50 ing effective quotation from a letter Beautiful French Briar pipes, with of James W. Mr. Abbott, who visited both ends of the great highway, said upon his return:

"This is the greatest day I ever

"I don't believe any other mountain highway on the American continent has been conceived along such perfect lines, and built on so high a standard, all of double track width, with a maximum grade of five per cent, so that a horse with a buggy can trot over it from end to end."

The booklet in its word painting of the beauties of the road adds:

"Not a Roman of old, not a master of today has builded a more excellent way. It winds through deep chasms and over dizzy heights, but everywhere it is wide and hard and smooth. supported by solid stone and with never a grade of more than five per cent. Few events in this life can be more pleasant than a drive, on one of our ideal days, upon this splendid road which leads away to the mountain Colorado Springs Woman Attacked By wonderland that so few have been fortunate enough to penetrate."

The New Mexican quotes thus at length, because this noteworthy little book is a work of commendable local pride, of love for the Meadow City and New Mexico, and a memorial in the Hon. H. O. Bursum.

The volume contains 96 pages, is free from advertisments and is an art souvenir in every sense of the word. The compilers are Charles W. G. Ward, Robert J. Taupert and R. E. Twitchell.

Cripple Creek, Colo., Dec. 21.-Mrs. William Gladden shot and killed her husband today at their home in Arequa Gulch, three miles from Cripple Creek. The house where the shooting ocpart to the builder of the Scenic Road, curred indicates a terrible struggle, which must have lasted some time. The woman's statement is that her husband had been in the habit of coming home late and beating her. The climax occurred last night. She says he was intoxicated when he arrived home last night and beat her and then renewed the quarrel this morning. When he started towards her to kill that eclipses any that has been drilled her she grabbed a revolver and killed
