THE DEMING GRAPHIC

"A LIVE PAPER IN A LIVE TOWN."

VOLUME XII, NUMBER XLVII

DEMING, LUNA COUNTY, NEW MEXICO, FRIDAY, JULY 24, 1914

FIVE CENTS A COPY

FULL SHARE HONORS WON BY LOCAL GUARD

Proved That Members of Company
I Are Best Shots, and Given
Honor of Governor's Escort.

MOST SUCCESSFUL MANEUVERS

First-Time in New Mexico's History
Assembled Full Regiment for In-
struction at Camp Brookes.

Out of four competitions at the maneuver camp of the National Guard and U. S. Army which closed here Tuesday, Company I of Deming won two. First was the honor of escorting the governor last Friday, and Monday the mid-range trophy, a silver loving cup, was won by the local company's rifle team, Edward Milliken, James Ackerman, Dennis Snyder, and Jesse Oliver. The shooting was at 500 and 600 yards and the newly organized company competed with expert riflemen and sharpshooters from all over the state. The results show what determination to win will do, even in the face of the greatest difficulties. Next year the Deming organization will easily win the long range trophy, which was not competed for this year on account of lack of time, the general efficiency trophy, won by Company E of Santa Fe this year, and the cash prizes, \$50 for first place and \$25 for second, for company field firing, won this year by Company M of Portales and Company K of Clovis. So close was the score for the mid-range trophy that the staff officers decided to award a special cash prize of \$25 to Company B of Carlsbad which lost to the Deming company by a single point.

Camp Brookes passed into history shortly after 2 o'clock Tuesday afternoon when the order came to strike the tents. In less than half an hour the tents were struck, rolled up and taken to the quartermaster. When the tents were down and off the ground the campsite was carefully policed and not a paper or rag was left where more than 1,000 had camped for eleven days. Even the sinks were filled and the brush burned. It is the boast of the army that they always leave a campsite cleaner than it found it.

Company I of Deming left the camp early in the afternoon, the rest of the National Guard left early in the evening for their home stations, and the First Battalion of the Sixth U. S. Infantry, and Battery C of the Sixth U. S. Artillery left early Wednesday morning for their long hike to Fort Bliss, Texas.

The encampment from every standpoint was a decided success. It was the first time that New Mexico ever assembled a complete regiment. Although the rains of the early part of the week interfered somewhat with the drills, the work was carried on in the camp. The review of the troops present by Governor W. C. McDonald last Friday gave the citizens an opportunity to see all the militia and regulars on parade at one time and the comments on the appearance of men was most complimentary. The officers of the regular establishment detailed here for instructors gave the militia every care and attention and to their efforts as well as to the interest of the guardsmen is due the success of the camp.

Moving pictures were taken of the combat exercises for the board of commission managers of New Mexico. These will be shown over the country and at the San Diego exposition.

Sues Santa Fe Railway

John H. White, formerly a railroad man running out of Deming has filed suit for \$50,000 damages against the Atchison, Topeka and Santa Fe railway, alleging that he was thrown under a baggage car at Deming, while attempting to effect a coupling of cars. He was employed as a switchman and attributes the accident to the alleged negligence of the defendant company.

Dr. George A. Still, son of the famous founder of osteopathy, stopped over in Deming one day this week on his way to Silver City, where he will be the guest of Dr. Leonard Taylor. Dr. Still is surgeon-in-chief of the osteopathic hospital at Kirksville, Mo.

Mrs. A. V. R. Kleiner of Mogollon arrived in the city Thursday on a short visit with friends.

REGULARS PROVE FINE TEACHERS FOR MILITIA

"Both in number of militiamen in uniform and in the character of the work being done, the present state encampment of the national guard at Camp Brookes near Deming is the most successful in the record of the New Mexico militia."

This was the comprehensive statement of Governor William C. McDonald on returning from Deming to Santa Fe after a day at Camp Brookes where a special program in his honor was given.

Of the celebration of "Governor's Day" in his behalf the governor had little to say beyond the fact that it was very enjoyable. But he is enthusiastic over the results being accomplished by the guard under the supervision of the regular troops.

"The boys are having a good time," said the governor, "and I think are enjoying every minute of the time. But they are working hard and they are accomplishing more in the way of practical military work than at any former encampment. The large body of regular troops, not only officers but enlisted men, are taking a keen interest in whipping the guard into regular army form, and the results they have obtained in the few days since the camp opened are remarkable. Our guardsmen are getting into first-class form and the benefit of the ten days of constant association with and instruction from the regulars will be invaluable."

—Rio Grande Republican.

H. NORDHAUS & SONS COMPANY WILL ENLARGE STORE AND STOCK

When Remodeling is Completed This
Store will Have a Basement, Stock
Room, Mezzanine Floor, and Large
Ready-to-Wear Department.

The H. Nordhaus and Sons Company are receiving bids for extensive improvements of the property on Gold avenue. The plans include the addition of a stock room in the rear to be 22 by 50 feet and the enlarging of the sales floor space to 50 by 120 feet. There will be a basement also in which a heating plant large enough to heat the stores on Gold avenue, Pine street, and Silver avenue.

The principal improvements will be in the Gold avenue dry goods and clothing departments. Eighty-five feet back from the street the roof will be raised to accommodate a mezzanine floor extending across the building. The whole will be rewired and redecorated.

It is the ambition of the progressive company to conduct the largest ladies' ready-to-wear department in the Southwest. In this department there will be new fixtures to care for an extensive stock to be carried.

The millinery department will be expanded and will include toilet articles of all kinds, hair goods, and facilities for hairdressing and manicuring. Of course, a much larger stock will be carried, thus insuring a wide selection.

PLAINVIEW ITEMS

W. D. Wintamute is putting in a crop on Fred Sherman's place.

The program for today is: The women of the neighborhood go berry hunting and the men repair the crevices in the canal. In each case it is an all day job, the women having a picnic as one feature of their trip, and the men taking their luncheon with them.

J. T. Brown has a very pretty crop—fifteen acres of milo, made thus far by the rains.

Your Uncle Erastus F. Hurst is all smiles—it's a boy. Mr. Hurst has a 60-acre crop in—all looking fine.

The Chandler brothers have a pretty crop of thirty acres doing fine under these excellent rains.

The recent heavy rains proved too much for the capacity of our irrigation system and several breaks have occurred, causing a flooding of several hundred acres of land and spoiling for the time being, some of our fine roads. The damage to the farmers' dam is considerable, and will entail expensive repairs.

R. S. Ackerman planted earlier than any one else and he says his 20-acre patch of milo averages two and a half feet high.

HUGH H. WILLIAMS IS SURE OF RE-ELECTION

After Making Hounds of State, Deming's Favorite is Certain of Nomination in Convention.

HOME TOWN IS BEHIND HIM

Will Vote for Him Regardless of Party, Because he is Booster for the State and Valley.

As the time for the Republican state convention approaches it is becoming more and more apparent that the renomination of Hugh H. Williams to succeed himself as state corporation commissioner will have little or no opposition from any quarter. Every county realizes that he has made a very valuable man for the whole state, and that he is always on the job doing something good for some locality. He works open

HUGH H. WILLIAMS

and above board and always is "absolutely on the square." He would walk fifty miles any time to do a favor for a friend, and when you speak of Hughey's friends you refer to practically all the citizens of the state. He treats the people fairly and the corporations fairly, and when he tackles a hard problem, never quits till he finishes it to the satisfaction of both parties. He is one of the most consistent boosters of his home state that can be found anywhere within its borders and when it comes to getting results for labor performed, no one can get the start of "Hughey."

Being a self-made man, he knows the "ins" and "outs" of business affairs, and just what to do in the interest of the public. He is friendly to everybody and always has a pleasant word for the man in any station in life.

With his valuable experience on the state corporation commission, it would be mighty good business sense to retain him on the commission for at least another term. As a matter of dollars and cents it would show good judgment.

Durazzo, Albania—A note threatening to destroy the capital and kill the ruler of Albania unless William of Weid tendered his abdication of the rulership was handed yesterday by the Musselman insurgents to the representatives of the European powers here.

Washington, July 23—Reginaldo Cepeda, senator from the state of Coahuila and intimate friend of General Carranza, has been selected by Provisional President Carballo to negotiate the transfer of the government at Mexico City to the constitutionalists.

Mr. Cepeda, who was hiding in Mexico City during the Huerta dictatorship, left Vera Cruz today for Tampico to meet General Carranza. He has full instructions and authority to arrange for the transfer of the government.

Furnishes Cabbages

Company I is indebted to E. F. Milliken for several fine cabbages which formed part of the Sunday rations at Camp Brookes.

Chihuahua, Mex., July 23—That the científicos, the men who have long dominated Mexican politics and who are held responsible by General Villa's soldiers for their country's woes, must leave the country or stand trial for their offenses: is the demand of the officers and soldiers of the division of the north.

JOHN M. McTEER WINS TRIP TO BIG EXPOSITION

John M. McTeer, district manager for the Missouri State Life Insurance company, has written enough insurance to win a trip to the Panama-Pacific Exposition at San Francisco for himself and his family. Mr. McTeer is twenty-six points ahead of the best in the Southwestern organization which numbers 301 agents.

Lumber Company to Incorporate

The Mimbres Valley Lumber company owned by R. W. Long of El Paso, under the management of J. V. Schurtz for the past two years and a half, is to be incorporated in the near future under the laws of the State of New Mexico. The capital stock is to be \$25,000, with \$10,000 paid up. The main office of the company will be in Deming, with J. V. Schurtz as the resident manager. Stock in the new company will be on sale to local people.

Charged With Larceny

Complaint has been filed against Joe Walker by R. C. Eisle in the court of Justice of the Peace C. C. Rogers charging the defendant with the larceny as bailee of goods to the value of \$11.25. It is alleged that the defendant disposed of goods bought on the installment plan and were the property of the complainant until pair for.

PROPOSE \$75,000 HOTEL HERE AT CORNER OF GOLD AND PINE

Architects Draw Plans for Hostelry
to Have 60 Rooms, Ornate Lobby,
Mezzanine Floor, De Luxe Suites;
Accommodations of First Order.

Plans are being made to erect a 60-room hotel in Deming at the northwest corner of Gold avenue and Pine street. Through its local agent, John McTeer, the Missouri State Life Insurance company has offered to loan \$60,000 if local capitalists will raise \$25,000 more. The contracting firm of Trost & Trost has drawn plans for the structure which show a most modern conception. To avoid the expense of installing and running an elevator the building will be but two stories in height and will occupy all of five lots, 125 by 142 feet. There will be three wings in the general shape of the letter "E."

While the exterior will be of plain brick the lobby will be quite ornate, as will also the grill, main dining room and mezzanine floor. Off the mezzanine floor will be located the de luxe apartments with rooms in suites and baths. On the street will be ten shops for various purposes, including barber shops, Turkish baths, lavatories and offices. The architects declare that the rent from these will pay all the expenses of conducting the hotel and leave the earnings of the hostelry to pay interest on the investment.

The lots which are owned by local capitalists will be turned in at their value and the cash has all been virtually pledged. Efforts to close the deal are being made this week.

PAUL NESCH, THE BAKER GETS FINE BAKERY WAGON

Paul Nesch, proprietor of the model bakery on Pine street has just received from De Kalb, Ill., a model bakery wagon with all the latest improvements. The vehicle is of white enamel with nickel trimmings, plate glass front and glass doors and windows.

Attached to the wagon is a large gong, which, when rung announces to patrons that the family bakery wagon is approaching. Mr. Nesch says that the increased demand for his pies, cakes and bread necessitated getting a wagon to supply his patrons all over the city.

Mr. Nesch has also adopted a system whereby his customers get a share of his prosperity. He is selling for cash, twenty-five tickets for one dollar, the tickets being good for a loaf of bread or each ticket is good for five cents in trade for anything carried in stock of the bakery. Instead of giving coupons or premiums the real cash is given to the customer.

Dr. R. E. Buvens, formerly connected with Dr. M. J. Moran, left this week for Lordsburg where he will establish a dental office.

Frank Staplin, who has established a daily Republican newspaper in Santa Fe is a visitor in the city.

TYRONE IS TO BE CITY OF MORE THAN 10,000

According to Authentic Reports,
Townsite Will be Thrown Open;
no Concessions Granted.

CAMP IS RAPIDLY FILLING UP

Growth of Mining Town Means Prosperity for Mimbres Valley Farmers and Deming Merchants.

According to authentic reports the townsite at Tyrone will be opened within the next ninety days. It was believed that the town was to be owned by the Phelps-Dodge interests, but it seems now that no permanent concessions will be granted, and that lots will be sold both for residential and business purposes. The delay in opening is due, it is said, to the fact that the company had not perfected its title to land on which the townsite is to be located. A decision in the lower courts has been obtained, but one is pending in the supreme court and this will settle the matter beyond any doubt.

TOWN OF 10,000

Officers of the company, and those persons who have watched the progress of the work, declare that Tyrone will be a town of more than ten thousand inhabitants within the next five years, or when the mines are fully opened up and the power plant and mill completed. This is based on an official estimate of 6,000 workmen who will be required in the camp. With the railroad from White-water, and the original costs of the claims, there has been invested something like eight million dollars by the Phelps-Dodge interests and this large amount would not have been expended did the company not contemplate extensive activity and large returns.

WORK ADVANCING

The company is now engaged in the erection of a large mill and power plant. The Leopold-Tyrone tunnel has been completed several months and the workings are down to 800 feet. The ore body is estimated to be two miles wide and four miles long, and it is all covered by the company claims. Machine shops, supply depot, and much equipment are ready, and machinery is arriving daily. There are now two general merchandise firms, one owned by the company and one operating independently. There are also a number of other small shops. The camp is filling up rapidly with miners.

SPELLS OPPORTUNITY

The growth of Tyrone presents a great opportunity to the Mimbres Valley, as the camp is reached by only one railroad and that directly from Deming. Daily trains will be run on this road next month, instead of the present tri-weekly service. Nothing is grown in all that vast region of mountains, and the produce of the valley will meet with ready sale there. The merchants of Deming, too, will find an opportunity to supply the wants of those who are well able to pay for the best, but it will be necessary for the merchants to go after this trade as the merchants of Silver City and El Paso are doing right now.

Washington, July 23—Opening of the Panama canal to the world's commerce on August 15 next was announced tonight by Secretary Garrison. Probably the first vessel to pass through the great waterway will be the Cristobal, a war department steamer now at Colon.

Washington, July 23—Sudden withdrawal by President Wilson of his nomination of William F. Jones to become a member of the federal reserve board today ended the bitter controversy over his confirmation in the senate.

Letters which passed between the president and Mr. Jones accompanied the withdrawal showed that Mr. Jones requested the action and regretted that the fight could not be carried through to the finish.

Oyster Bay, N. Y., July 23—The obligation to appear in court and defend himself against a \$50,000 libel suit begun by William Barnes, Jr., chairman of the Republican state committee, was imposed on Colonel Roosevelt tonight with the serving on him of the papers in the case. A copy of the complaint was handed to the former president by James S. Y. Irvins of the law firm which is acting for Mr. Barnes.

NEW MEXICO COWBOYS CAPTURE MANY PRIZES

Lakewood, N. M.—Two New Mexico cowboys, John Murrar and Clay McGonagill carried off over \$800 in prizes at a recent cattlemen's convention and roundup held at Dewey and Pawnee Okla., respectively. Murrar and McGonagill competed in broncho busting, roping and other cowboy contests with the best cowboys in the Southwest and carried off a majority of the honors. Motion pictures were taken of the events.

Washington, D. C.—Possibility of American intervention in Haiti and Santo Domingo to restore peace is an absorbing topic of discussion in administration circles. Late official dispatches regarding the situation in the revolutionary torn republics gave but little hope that the contending forces in the two countries would be able to restore order.

With 400 marines who are to sail from Norfolk, Va., for Guantanamo, Saturday, the number of marines now there or on American warships in Haitian and Dominican waters, would be increased to more than 900.

Welcome Present

Three gallons of ice cream were presented to Company I by the Palace Drug store. The cream was much appreciated and was consumed at the noon meal Sunday.

S. P. DIVISION SUPERINTENDENT WILLIAMS FRIENDLY TO DEMING

New Official Meets Business Men of
City and Expresses Opinion on Im-
portance of Railroads and People
Getting Together in Conference.

Deming was favored Friday with a visit from Division Superintendent T. H. Williams, who is the very worthy successor on this division of the Southern Pacific, to J. H. Dyer, who had the happy faculty of making every man his friend. Mr. Williams made a very favorable impression during his visit here, and was very much pleased with conditions in this vicinity. Mr. Williams was accompanied by Assistant Superintendent T. H. Kruttschnitt and Division Engineer J. D. Matthews. The distinguished railroaders were taken in tow by Senator Laughren and Secretary Holt and passed a very delightful day with the governor's party at the state encampment. Of course, Superintendent Kruttschnitt and Engineer Matthews are very familiar with Deming conditions, and were not at all surprised at our activity, but it was a very pleasant revelation to Superintendent Williams, who manifested his appreciation on many different occasions, and had a good many pleasant things to say about Deming and her progressive people. Among other things he stated to Secretary Holt, that the company was preparing to make extensive improvements along its lines, and that because of Deming's general prosperity and the hustling quality of its citizenship, this region would receive its full share of favors from the Southern Pacific company.

Indicative of his feeling, Superintendent Williams invited the governor and his party to dinner in his beautifully appointed private car "Tuesday." Fortunately the Santa Fe train did not leave until 8 o'clock which afforded an opportunity for a very delightful and profitable conference between the railroad magnates and the people. Governor McDonald expressed himself as being very favorable to frequent conferences between the people and railroad officials, as it tended to a better understanding of things and rendered business affairs much easier to adjust. Superintendent Williams expressed his great pleasure on behalf of his party in being able to spend the day so profitably, and gave assurance that he would visit Deming again in the very near future and investigate extensively her resources and possibilities.

Mexico City, July 23—Throughout the day federal reinforcements were arriving at Xochimilco, menaced by Zapatistas. The roads leading from the capital to that town were lined from early this morning until late tonight with federal cavalry and infantry, making the twenty mile trip overland. Tonight the garrison at Xochimilco numbers 5,000 men, including infantry, cavalry and artillery.

COLUMBUS NOTES

T. A. White left the first of the week for Arizona, and on Tuesday he notified his family here that he had found a location at Safford, and that they should pack their household goods and follow him to that place. We have not been informed what the nature of the business is into which he will embark, but Mr. White has proved to be a hustler, and will no doubt meet with success in his undertaking.

Clyde Darrow is the latest immigrant to come to this place, he having arrived from Bloomington, California the first of the week and has moved a carload of household goods and farming implements to his place which is several miles north of Columbus, which is known to some as the Marilee place.

The dog license tags will be here in a short time and the village marshal will supply you one for your dog as well as give you a receipt for your dog tax. We have about eight hundred (or less) dogs in town and the number will be reduced if the tax is not paid, so says the marshal.

Thursday and Friday of last week Mrs. Howard Alley entertained the Twelve Trump club at a very delightful house party, the first of its kind ever given in Columbus. The guests began assembling Thursday morning and at noon were the participants of a splendid dinner and a cold lunch was served at 6:00 p. m.

The evening was spent in card playing until twelve o'clock, when they met the train from El Paso upon which one of their members, Mrs. Moody, also Mrs. Lewis and daughter, Millicent, arrived, giving them a pleasant surprise. The following morning breakfast was served at 9:30 of which all partook heartily. Dinner was served at 3 p. m. and in the evening the husbands and sweethearts joined the party playing whist, after which the hostess served fruit and candy. The guests departed at a late hour expressing their gratitude to Mrs. Alley for the unusually pleasant party.

Through the death of W. D. Close, who was buried last Sunday in the cemetery at this place, the valley loses a man of much worth. Mr. Close had been one of our leading citizens and his death will be a great loss to the community.

Mr. Close had gone to El Paso for treatment about a week before his death, but previous to that time he had been quite ill at his home with Bright's disease.

On Sunday at six o'clock Mr. and Mrs. J. F. White entertained Miss Beardslee and Miss Otis at dinner. The delicious dinner included, beside numerous delicacies, the finest Columbus brand of fried chicken and several varieties of choice vegetables raised in Mr. White's garden. Anyone who doubts Columbus' ability to raise the very finest of garden truck should see Mr. White's garden.

Home grown watermelons will soon be on the market. Farmer Barrington brought in the first of the season the other day and reports the crop coming along in fine shape. There is nothing better than a Mimbres Valley watermelon.

Ralph Cozine and Wheeler Calhoun returned home Tuesday after a short absence from their homestead.

Mr. Cowgill told us this week that one of his pullets from his pen of thoroughbred chickens had begun to lay. The pullet is now about five months and ten days old.

Frank A. Spence of El Paso, a wealthy real estate owner of that place, was a Columbus visitor the first of the week, coming out with Mr. Blair to investigate real estate conditions at this place. We understand that he is well pleased with the outlook.

A flag pole has been erected at the camp and a flag is now being raised at reveille and is lowered at retreat according to army regulations.

Mrs. Ellen Williams, a sister of Mrs. W. C. Hoover, who has been visiting with friends and relatives in Texas, stopped in Columbus for a short time this week while on her way to visit with her parents in California.

The well drilling outfit of E. J. Fulton was taken this week to the claim of Clyde Darrow where Mr. Fulton will drill a well and if water is found in sufficient quantities, he will be employed to drill others in the same locality.

W. H. Waldron left last Tuesday for Tularosa, where he has been offered a position.

MINERAL DISPLAY AT NEW MEXICO STATE FAIR

Another evidence that the New Mexico state fair is taking on not only the form but the substance of a real annual exposition of the resources of the state, is the announcement of the state fair commission that the mineral display at Albuquerque this year will not be the joke of former years, but a real showing of the mineral resources of New Mexico. This has been made possible by the fact that Dr. F. A. Jones, president of the school of mines at Socorro, who is to have charge of the state's mineral display at the San Diego exposition, will assemble the material for that display at the state fair. Dr. Jones already is assured of ores for use in making this display running into thousands of dollars in value. The ores may be entered in the several competitions for valuable prizes and trophies offered by the fair commission, and after the fair will be taken to Socorro where Dr. Jones will have trained staff of assistants, teachers and students, in classifying and mounting the ores for the permanent display at San Diego. It is proposed to make this mineral collection so large and so complete that when returned to the state after the exposition, it will stand as a permanent encyclopedia of New Mexico minerals. Awards for mineral displays at the state fair are described in this year's premium book which may be had on application to Thomas Binkert, secretary to the fair commission at Albuquerque.

SANTA RITA NEWS

John Nix, Sr., from Uvalde, Texas, is visiting his son John and family.

Mrs. Frank Reed and young daughter arrived home Tuesday from a two months' visit in New York and Canada.

Mr. and Mrs. R. I. Kirchman have returned from their honeymoon spent on the Gila.

Quite a number from here attended the barbecue given at Warm Springs Sunday by Mr. and Mrs. Marion Portwood.

Miss Alma Teel is again on duty at the Santa Rita Store Co.

Mrs. Nina St. Clair from Silver City visited at the John Turner ranch over Sunday.

Harvey Mathews, who has been employed as foreman of a repair at the Chino Copper company's coarse crusher for several months past, has gone to Mogollon where he has accepted a similar position.

Mr. and Mrs. Harvey Forsythe, Mrs. Charles Hickman and Mrs. W. H. Mosely visited with friends at Pinos Altos last Thursday.

Mr. and Mrs. C. B. Jones and Mr. and Mrs. M. R. Chapin enjoyed an outing to the Mimbres river Sunday.

Will Hines from Rockport, Texas, is visiting his relatives John H. Smith and family.

Mrs. Elizabeth Byron from Danville, Ill., is visiting her daughter Mrs. Harry Brewer and family.

Mr. and Mrs. John Cashin have gone to Globe, Ariz., to reside.

Mike Burns, who has been foreman of the Chino company's carpenter shop here for the past two years, will leave the first of the month for a hunting trip in the mountains. Mrs. Burns will visit relatives in Wisconsin.

Jack Dyer will fill the vacancy caused by the resignation of V. H. Poindexter, mill foreman for the Chino Copper company.

The Santa Rita railway excursion for the three hundred summer Normal students is a go, arrangements to that effect after much parleying having finally been perfected this week when a committee solicited enough subscriptions from the Silver City merchants to insure the success of the undertaking. The fare for those not students will be \$2.00 for the round trip. A special rate is given the students. The train will leave the local Santa Fe station at 8:50 a. m. An hour will be spent in Hurley on the going trip. Returning from Santa Rita, the train will leave at 5 p. m., arriving in Silver City at 7 p. m.

At both Hurley and Santa Rita, Chino officials will show the students the various points of interest and otherwise look out for their entertainment. The trip promises to be a big success and it will give the students some idea of the stupendous mining operations in the Santa Rita district.

PERSONAL

Mrs. H. O. Wicks of Silver City was a Deming visitor this week.

C. E. Williams of Hurley came down Monday and took in the sham battle.

Mr. and Mrs. C. E. Hewitt of San Marcial are visiting friends in the city.

M. Brugger came up from Columbus Sunday and paid a visit to Camp Brookes.

Jesse V. Adams of Silver City was a visitor to the encampment grounds Saturday.

J. C. Prewitt of El Paso was a visitor to the maneuvers and encampment Monday.

W. C. Green of San Francisco, Cal., was a business visitor in the city this week.

B. J. Kesley of El Paso came up Sunday to view the sham battle near Camp Brookes.

D. Bradley and L. Crawford of Silver City were visitors to the camp grounds Sunday.

F. M. Burns of Newton, Kans., is among the prospective settlers in this section who arrived this week.

Joe Roseborough left Monday evening for St. Louis on a business trip.

Pauline A. Kacin of Chicago, Ill., and John J. McCourt of El Paso, were visitors at the local chamber of commerce this week.

Sam Lindauer, wife and family, after spending a few days visiting Sigmund Lindauer, left Saturday morning for Chicago, Ill.

R. L. Ballantyne of Douglas, Ariz., C. E. Williams of Hurley and J. T. McCabe of Lordsburg were among the visitors that saw the sham battle Monday.

F. M. Bruce of Denver, Colo., arrived in the city Monday and will spend the summer here and at Faywood Springs.

Van T. Manville, a business man of Silver City came down Monday from the Grant county metropolis to take in the army maneuvers.

W. F. Lowmes of Berkeley, Cal., arrived in the city Monday and is looking over the land of the valley with the intention of locating.

George W. Armijo, an attorney of El Paso, and formerly an officer of the militia was a visitor during the maneuvers.

Mrs. William Leffler, Jr., left Tuesday morning for San Diego, Cal., where she will spend the summer on a vacation trip.

A baby boy arrived early Monday morning at the home of Mr. and Mrs. Frank Howard. The mother and little son are reported to be getting along very nicely.

A. B. Daniel left Saturday night for his old home in Mississippi on a visit with relatives and will return with Mrs. Daniel, who has been visiting relatives for some time.

Justice of the Peace Homer Tarbill came in from Mimbres Saturday and visited Camp Brookes during the day.

H. C. Trost, one of El Paso, architects, was in the city this week in connection with the plans for rebuilding of the Clark building destroyed by fire recently.

Jack Goodwin, formerly connected with the mechanical department of the Graphic, left Saturday night for eastern Texas where he has taken a job as foreman on a weekly publication.

District Judge Colin Neblett, Thos. W. Carter, J. A. Shipley and Fred Shipley came down from Silver City Saturday in an automobile and while here visited Camp Brookes.

Mr. and Mrs. A. G. Jaffa of Santa Fe were in the city during the army encampment and maneuvers and while here spent most of their time visiting friends at Camp Brookes.

J. E. Cleveland, president of the Capital Savings & Investment Co. of Phoenix, Ariz., with a branch at Silver City, passed through Deming Monday on his way to Silver City from El Paso where he has been in consultation with architects regarding the plans and construction of a new hotel in Silver City estimated to cost \$150,000.

OLD MINE IS REOPENED IN PINOS ALTOS DISTRICT

The old Silver Cell mine, at one time one of the great producers of Pinos Altos district, promises to come into the limelight once again and to return to the habit of producing for its owners a regular weekly supply of gold and silver bullion. About two months ago a lease was secured on this property by C. W. McSherry and Dr. R. H. Gudger of Silver City and they immediately put experienced men to work to see what could be done to restore the mine to the producer class. Their work has been successful and within a short time they will be shipping bullion. The big values found in the Silver Cell had been taken from close to the surface and after carefully going over all the workings, except the lower ones which are filled with water, and sampling the vein matter, it was decided that a drift run from the old air shaft at the hundred foot level would open promising territory. The judgment of the lessees in this matter was excellent as results showed. The vein has increased in width and richness and after some distance had been tunneled it was evident that the formation was identical with that from which large values had been taken years before and the work of stopping was commenced at once. The ore is a rich chloride of silver heavily sprinkled with native silver and will yield to treatment in the small furnace now on the property. This is one very great advantage of Silver Cell ores: The extraction of the metal is a simple matter.

The lessees have been fortunate in securing as superintendent, F. E. Wilcox, a practical mining man of wide experience. Operations are being carried on in both shafts of the mine and a steam hoist has been installed on each, both being operated from the same boiler. Mr. Wilcox expects to have all the preliminary work in the matter of repairs to timbering, pumps, etc., completed during the present week and work commenced upon the taking out of pay ore. Those who know the character of the mine and its ore state that the lessees have broken into one of the ore pockets for which the old mine has been famous in the past. That they should do so at such an early stage in their work is particularly lucky.

The Silver Cell was located and is still owned by the Dimmick Bros. of Silver City and Pinos Altos. It was worked in a very primitive way by the owners but with splendid success in the early '90s and a great deal of bullion was produced. One of the startling exhibits from Grant county at the Chicago World's Fair was an immense slab of almost pure silver which was the product of this mine. The Dimmicks spent a great deal of the money taken out in developing the property and equipping it with machinery and having gotten out of

the rich ore zone, were obliged to shut down. Some years later the mine was sold to Eastern capitalists and they proceeded to open with a two-compartment shaft and to straighten out the windings in the tunnels driven by the previous owners. They finally surrendered the mine to the Dimmick Bros. Several other companies took hold of the mine, but all seemed to have made the mistake of going too deep and getting below the rich ore zone. The present lessees have taken care not to make this same mistake and are going after the values that may lie in those parts of the undeveloped ground which are easier to reach. They have also taken up a number of claims on adjoining ground which has promising rock on the surface.

Mogollon Mining News

"The mines of the Mogollon district, New Mexico, are in most prosperous condition and great activity," said E. A. Wayne, general manager of the Ernestine and the Mogollon companies, at the Harvey house, Friday. The output of gold and silver bullion and rich concentrates is steadily increasing and exploration to greater depth shows continuity of ore deposits and values. Mogollon is a very lively camp, employs 500 men and has worlds of ore. The mills are running day and night and the roads between the camp and Silver City are lined with teams, wagons and autos hauling mineral out and supplies into camp.

According to Mr. Wayne the sentiment of the management of the larger companies is very conservative and does not court notoriety and is opposed to any attempt to "boom" the camp, which is considered detrimental to legitimate mining operations. "Our company is not selling stock and there is none for sale. We are simply mining, and such is the case of the other companies in Mogollon."

The Mogollon Mines company and the Ernestine Mining company, although distinct corporations, are practically owned by the same stockholders and under the same management. Frank Hitchcock, former postmaster general, is president, and E. A. Wayne is general manager. The Ernestine Mining company has made great improvements in its milling plant. To increase its capacity a 260-horsepower oil engine of the De La Vergne type was added, which gives a capacity of 250 horsepower, and the crushing capacity was increased from 160 to 300 tons a day. The old mill has been remodeled and the old machinery replaced by new and up to date machinery and appliances, so that it is practically a new mill, with the most modern metallurgical equipment, rendering the additional recovery of the values nearly equal to the cost of milling. Allen F. Mutter is in charge of the mill. Meanwhile the mines were being steadily developed. The main shaft on the Last Chance vein has reached a depth of 1,600 feet, which is 800 feet below the tunnel level, and ore reserves are being developed and blocked out. The average monthly production of the company is \$60,000. The company has about 28 claims.

The Maud S has been developed to a depth of over 750 feet. The Maud S vein is credited with having produced something over \$1,250,000.

The Socorro Mines company, in the same district, under management of A. L. Anderson, has been making large improvements and development. The deepest workings have reached a vertical depth of about 900 feet. The company and the Little Fannie mine shows a vein of continuous milling ore from grass roots to the lowest workings. This company recently acquired the Pacific Mines group from El Paso people, who were working it under bond and option from the Oaks company. On these properties, consisting of the Pacific, Atlantic and Hustler, during the past year, Davis, Fulkerson & Parker of El Paso, drove an admit tunnel 1,690 feet, sunk the main shaft 335 feet and drifted 650 feet, besides other work, making a total of half a mile of work, which yielded over \$128,000 of an average grade of \$10 to \$20 per ton. Below the 250-foot level the lode in places is said to run from \$30 to \$48 per ton. And that was the showing that sold the property to the Socorro Mines company.

The Oaks company is driving the great drainage and transportation tunnel, to intersect the producing veins of that section at depths of 1,000 to 2,000 feet beneath the outcrops, and will cut veins in over 70 mining claims. W. J. Weatherby is president and H. A. Hoover is secretary and assistant manager. The company is composed of local and California capital.

H. S. Potter, R. L. Johnson, J. A. Hoppe and J. F. Nellens of El Paso came up from the Pass City Monday and visited the encampment and viewed the sham battle.

HURLEY ITEMS

We are glad to say that it was a mistake about Deputy Z. Redding being so badly injured. He received a few cuts on his face, but was otherwise unharmed.

A number of Hurleyites attended the picnic at Warm Springs Sunday, July 12. Among them were Mr. and Mrs. Keates, Mr. and Mrs. Ira Brown, Miss Mabel Goeforth and Lee Gooding.

"Navajo Bill," an old time resident of Deming, but now employed by The Victor Land and Cattle Co., was very badly cut up Sunday.

The roads to Santa Rita were so bad Saturday that the ball players were unable to get there to play the scheduled game.

Sunday's game was postponed and will be played later.

Mr. Jenny and family have left for Salt Lake City, Utah, where they will remain indefinitely.

Misses Valeria Bell and Sallie Eckert of Silver City, were in town visiting friends Saturday and Sunday.

It is believed that all records for rainfall in any one month have been broken here. The first of July a total of 5.75 inches of rain has fallen. Saturday a wall of water 11 feet high swept down the canyon at the Chino Copper company's power station, on Whiskey creek, while at the B ranch six feet of water was registered.

The Mimbres river is full of water, the first time in three years. Farmers along the river report a bountiful supply of water and the crop outlook is the best in years. Range grass is knee high. At several points the recent high water did considerable damage, washing away corn and alfalfa. The wheat has all been harvested and stacked.

The Normal school students of Silver City were given some idea of the stupendous mining operations of the Chino Copper company, when the Silver City board of trade ran an excursion here for 300 students of the summer school. They enjoyed the

trip, arriving here at 10 o'clock and leaving at 12 for Santa Rita. A large delegation of Chino officials met the students and escorted them through the mill and power house.

The four Mexicans who attacked Deputy Sheriff Garrett a week ago in a saloon row, severely slashing the officer, were fined \$100 each and sent to jail for 90 days, following a hearing held before Judge D. W. Boise. At the time of the trouble, another Mexican was shot and killed by the officer.

Mr. and Mrs. G. C. Gray are the parents of a daughter.

The little son of Mr. and Mrs. J. A. Barrett died here after an illness of one week. The funeral was held at the family home, burial being in the Hurley cemetery.

IOLA ITEMS

Dr. and Mrs. Hollinshead and R. Wykoff were pleasant guests at the Danse place Sunday.

Frank Nickell who substituted for Mr. Carter at Waterloo, returned to his home in the Gap.

Russell Nickell who had been in and around Deming for some weeks has returned. It is reported that Russ was homesick. After calling his home "Ultima Resorto", it seems rather inconsistent to become homesick for it.

If Jupiter Pluvius keeps on with his good work irrigation expenses will be reduced to a minimum. Everything is looking beautiful.

Charles McKee has been working on his place which looks very promising.

The next social evening for the neighbors will be held at Mrs. Danse's home, the announcement of which will be made Sunday. Come to Sunday school or inquire at post office.

H. S. Murray who has been visiting his friends, Mr. Wm. Soule and Mr. and Mrs. Sam Gibson, left for Los Angeles last week.

NEW BATTLESHIP ARIZONA IS PARTLY COMPLETED

It is expected that the next session of congress will authorize the building of two more battleships of the dreadnaught type, one of which will be named New Mexico. The last battleship authorized has been named Arizona, our sister state on the west.

The latter is the third battleship to bear the name Arizona in the history of the navy. The first was a paddle wheel steamer, built in 1858 at Wilmington, Del. and owned by the Southern Steamship company at New Orleans. One of fourteen vessels acquired by the confederate government. Ran the blockade from Mobile to Havana with cotton. On return trip was captured by the U. S. S. Montgomery, under alias of Carolina, October 28, 1862. Farragut reported that she was loaded with powder, arms and ammunition of all kinds. This vessel formerly bore the name of Caroline.

While under way about 38 miles below New Orleans on February 27, 1865, caught fire and was totally destroyed.

The second was a frigate, launched October 5, 1865, navy yard, Philadelphia. Acquired by contract at a cost of \$527,103.79 for hull, and \$680,000 for engines. This vessel was formerly the Neshaminy and was changed to the Arizona on May 15, 1865, and to the Nevada on August 10, 1869.

Transferred to J. Roach in part payment for building the U. S. S. Puritan.

The third, Battleship 39, building at the navy yard, New York, has been named the Arizona. This vessel is a sister ship of the U. S. S. Pennsylvania, building at the works of the Newport News Shipbuilding and Dry Dock company, Newport News, Virginia.

Description—Length on designed water line, 600 feet; length over all, 608 feet; breadth, 97 feet, one-half inch; draft, 28 feet, 10 inches; displacement, 31,400 tons; speed, 21 knots.

Battery—Twelve 14-inch guns; four submerged torpedo tubes; twenty-two 5-inch rapid fire guns; complement, 950 officers and men.

The machinery will consist of high powered turbines with smaller cruising turbines geared to the propellers. The Arizona will have turbines of the Parsons type.

Battleship 39 was authorized by act of March 4, 1913. Limit of cost \$7,425,000. Constructional period, 36 months from September 15, 1913. Keel laid March 16, 1914; July 1, 1914, the vessel was reported to be 17.4 per cent completed.

CENTRAL NOTES

Mrs. Polk of Texas is visiting Mrs. James A. Wiley.

Mrs. Walter B. Elliott entertained the Bridge club Friday afternoon.

Miss Belle Warren and Mrs. McCorkle have returned from a trip to the Mimbres.

Miss Margaret Foy and Ed Foy of Chicago are visiting their sister Mrs. Thomas Foy.

An informal dance was held at the home of Lieut. and Mrs. S. A. Wallen Tuesday evening.

The friends of Mrs. Andrew Javenger are glad to see her able to be out again after her recent illness.

Major E. P. Rockhill was among a party of dove hunters that visited Canaigre Saturday afternoon.

Mr. and Mrs. Foy, Miss Foy and Ed Foy spent Friday visiting at the DeLaney ranch north of Hurley.

The Central school board wishes to thank everyone for their enthusiastic assistance at the celebration at Bonner's Grove on the 4th of July and to tell the public that \$151.25 was cleared which amount goes to help swell the fund for the new school building.

RED MOUNTAIN AND TUNIS

There will be a song service at the Red Mountain school house next Sunday at 3 o'clock. The Rev. Theodore Platt will preach. The order of service will be as follows: Organ prelude, Mrs. Kathryn Chandler; "All Hail the Power of Jesus' Name," congregation; prayer; solo, Rev. Theodore Platt; anthem, "Sing, O Heaven," choir; Bible reading; quartet; sermon; offertory; duet, Mr.

Shurtz and Mrs. John Poole; duet, The Misses Hinson; benediction.

If the weather is inclement the service will be postponed to the following Sabbath.

The ladies of this suburb have organized a women's club to meet twice in each month at the residence of one of its members. They have christened the club the "Entre nous." The first meeting will be held at the residence of Mrs. Kathryn Chandler next Wednesday afternoon, July 29.

The Literary club is planning to have an open air concert and ice cream social on the Jacobs' verdant lawn along the Borderland, in the near future. The balcony will serve as a stage. It is probable that a Japanese scheme will be carried out, the members coming in Japanese kimonos, while Oriental pillows, strewn under the glow of Japanese lanterns for the guests to sit upon will be a pleasing innovation.

The county tractor will be out this week to grade the road in front of the Nordhaus ranch in order to put in culverts which will be hauled, no doubt, with joy by the autoists. At this place is a large discarded reservoir in the middle of the road, which is the county road as well as the Borderland. Would it not be a good idea to take the dirt from this reservoir and fill in the holes east and west of it?

Sells Farm to Eastern Party

The Wells-Peugh Realty company sold this week eighty acres of deeded land five miles south of the city to Mr. Work of New York City, the consideration being \$30 per acre.

The same firm also sold lots 13 to 18 inclusive, block "00" for T. M. Chase.

A four room house and lots in Hamlin, Kans., owned by Robert Whitney was sold this week by this firm.

SOUTHERN PACIFIC CLOSES DEAL FOR AUTOMOBILES

A contract for the delivery of not less than sixteen seven-passenger six-cylinder 1915 model Cole automobiles to transport Southern Pacific transcontinental passengers from Globe to Phoenix via the Roosevelt dam during the world's fair, was signed last week in Tucson be-

tween C. M. DuBois of Tucson, state agent for the car, and E. W. Clapp of the Southern Pacific.

Clapp and DuBois closed the contract following receipt of word from Charles W. Fee, general passenger agent of the Southern Pacific, who passed favorably upon the scenic highway after a thorough inspection.

It is estimated that as many as 600 people will be taken over the route on some days. They will be transported in automobiles, so the contract calls for as many cars as may be needed up to 100. The railway company purchased sixteen as a minimum in order that the net charge to the company could be made at a satisfactory basis.

TWO MEN ARE ARRESTED FOR PASSING BOGUS CHECKS

Gafford Williams and Charles G. Garrett were arrested Wednesday morning by Sheriff Dwight B. Stephens and Deputy Sheriff John Kelly on two charges of issuing fraudulent checks.

Garrett is charged in the complaint filed by Morris A. Nordhaus in which it is alleged Garrett presented a check for \$48.50 at the Nordhaus store and received goods to the value of \$9.80 and the remainder, \$38.70 in cash.

Gofford Williams was arrested on complaint of Tony Deckert of the firm of Lester & Deckert. It is alleged that the defendant came into the store of Lester & Deckert and presented a check for \$35.50. Mr. Deckert suspected that something was wrong and told Williams to wait until he went to get some change for a bill. Sheriff Stephens was notified and Williams was arrested. The checks were signed with the name of John Kiely, who is foreman on the ranch of Mrs. E. L. Cummings, widow of a Philadelphia millionaire, and were drawn on The Bank of Deming. The two men were taken before Justice of the Peace C. C. Rogers, where they entered a plea of guilty and were bound over to the grand jury in the sum of \$500 each.

Mayor John Corbett and Arthur Raithe have each purchased a new Paige car of W. O. Grace. The cars are beauties and among the best in Deming.

Mrs. H. H. Richardson and her sister, Miss Barningham of Rockford, Ill., have returned from El Paso, where they have been visiting friends.

R. E. Sisco, formerly a merchant of Columbus, was in the city the early part of the week en route to El Paso where he expects to locate.

Browne-Toms

Another surprise was sprung on the people of Deming this week in the matrimonial line when the news became known that Miss Maude Toms and Samuel M. Browne had been married. The young people made a secret trip to El Paso last Wednesday morning and were married at the Sheldon hotel in the Pass City, Wednesday afternoon by Judge A. S. Eyzar of the El Paso County court. Miss Eva Fuller, a friend of the bride accompanied the couple to El Paso and attended the wedding. Mrs. S. M. Browne, nee Toms is one of the popular young women of the younger social set of Deming and is the daughter of Mrs. Nannie G. Toms and the sister of Mrs. Pearl Cobble. Mr. Browne is one of the popular employees of the Southern Pacific offices in this city, being chief clerk to Roadmaster Charles Butler. The young couple returned from El Paso Thursday morning and have set up housekeeping in a cosy home provided by Mr. Browne.

Attorney James S. Fielder of this city was a business visitor to Silver City this week, returning Thursday.

MOUNTAINVIEW

Jack Noyes has moved into his new home.

Bill Abbe and A. Stall have finished their well digging and have returned home.

D. Rambo had the misfortune to lose one of his horses this week.

M. F. Akers and family spent Sunday at the C. L. Quigley ranch.

Mr. and Mrs. Ray Onisley spent a very pleasant day at the Maisel ranch this week.

C. W. Snidow was a guest at dinner at the Noyes ranch Sunday.

Mart Akers and C. W. Snidow are busy working south of Iola.

C. E. Green of the South Wilderness was through Mountainview one day this week.

Mrs. Anson Stall has been ill for some time, but is reported improving.

Obituary

William Joseph DeBuono, born February 2, 1913, died July 13, 1914. Age 17 months, 11 days.

Mr. and Mrs. Joseph De Buono of Cambay, N. M., brought their little boy, William, to Deming early Monday morning to consult physicians. The baby took sick Sunday night with convulsions and continued to grow worse. He died Monday at 6:30 p. m. at Hotel Baker.

Funeral services were held Tuesday afternoon at Mahoney's undertaking parlors. The remains were buried in the Deming cemetery.

Mr. and Mrs. Young Bounds of Sunny Slope ranch and F. M. McVannin motored into Deming Tuesday and Wednesday they proceeded on to El Paso. They were accompanied from here by Mrs. John T. Warren, wife of Night Marshal Warren. Mr. McVannin went on to Hutchinson, Kan. to attend his sister who is very ill. Mrs. Young Bounds and Mrs. Warren returned home Thursday evening on the late train and Mr. Young Bounds came in his new Ford automobile. He encountered several mishaps on the road and reports the route in bad shape on account of the heavy rains.

STATE NEWS NOTES

The mother-in-law of Representative W. H. Christian of Aztec, committed suicide after slaying her daughter, sister-in-law of Christian, at Omaha, in the news brought to Santa Fe by Superintendent of Public Instruction Alvin N. White on his return from the Educational association meeting at St. Paul. The tragedy is said to be the result of a suicide pact. Clashed in loving embrace, the corpse of 31-year-old Mrs. Cornelia Downs, and her daughter Anna, aged 50, were found. Both women had been dead for hours from gas asphyxiation. Mrs. Downs left a note saying: "My dear daughter Anna has been crazy for a few weeks. Her suffering has been dreadful. I cannot see her suffer any longer. I hope and pray our dear Father in heaven will forgive this last act. One coffin next to my dear father's grave—Mrs. Downs."

The late Capt. C. H. Downs, husband of Mrs. Downs, operated the ferry line between Council Bluffs and Omaha. Mrs. William Christian is the only daughter and will inherit the vast amount of real estate and personal property of the two deceased women. She is at present in Europe on a transatlantic tour and was reached by a cable. It is thought that the departure of Mrs. Christian made the two women feel so lonely they they agreed to end life together.

Santa Fe—When the supreme court decided that one-third interest in the Siazar group of mines at Twining, Taos county, belonged to John Birdwell, another third to A. C. Probert, and only the remaining third to himself, William Fraser, a veteran mining man of Taos county, vowed he would kill Birdwell, if the latter ever attempted to take possession. Fraser arrived at Twining from his home at Valdez, to carry out his threat, for Birdwell had gone to the property to do some necessary assessment work, but was killed himself. Three days before, Alexander Gusdorf, who arrived from Taos, with B. G. Randall, the banker, said Fraser had started out for Twining to carry out his threat, but turned back at Anisett. However, he made the journey in a wagon and immediately upon arrival in the mining camp, called Birdwell from his shack. The men had angry words, and Fraser ran to his wagon for a gun, while Birdwell also dashed into the house for a weapon. Two shots rang out simultaneously and Fraser fell dead, the bullet having pierced his right side and dropped from his back. The coroner's jury rendered a verdict of justifiable homicide in self-defense and no attempt has been made to arrest Birdwell.

William N. Hager, vice president of a bank at Las Cruces and reputed to be very wealthy, was Wednesday sued for \$30,000 damages for breach of promise by Rose Fishback of Hot Springs, Ark. The complaint was filed by Catron & Catron in the federal court and states that on or about Christmas day Hager promised to marry defendant, that she prepared for the wedding and on June 6, 1913, wrote him from Hillsboro, Mo., that she was ready to fulfill her promise. On arriving at Hot Springs on June 11, she was very much shocked, so alleges the complaint, to find a letter from defendant, informing her that he had already married another woman on or about June 6.

Socorro, N. M.—Eduardo Otero, through his attorney, E. A. Mann, filed suit in the district court here, asking \$25,000 damages against Eliego Baca, editor of La Opinion Publica, a Spanish paper, published in Albuquerque, three lessees of the publication, Juan Z. Guzman, Santa Cruz Ronquillo and Luis Torre being made joint defendants with Baca. The damages are asked on the ground of libel and defamation of character, the allegations in the suit being based on articles published in Baca's paper on June 29 and July 1. Mr. Baca, soon after the publication of the articles, assumed full responsibility for their authorship. Some two weeks ago Mr. Baca and the three lessees of his paper, were arrested on a charge of criminal libel, on complaint sworn to by Mr. Otero, and were held to await the action of the grand jury, being released on bail.

Gallup—Santa Fe Section Foreman Garrison of Wingate station, is in the Santa Fe hospital in Albuquerque, receiving treatment for two knife wounds in the back, alleged to have been given by Section Foreman Bennett of Gonzales. It is said that Bennett had been in Gallup on a spree and boarded a train out of the local yards, getting off at Wingate. Engaging in a fight with Garrison, Bennett is alleged to have drawn a knife and stabbed Garrison in the back twice in succession. After being treated here Garrison was taken to Albuquerque.

Santa Fe—The First National bank at Albuquerque has notified the postoffice department that it no longer desires to continue as a depository for postal savings funds and Acting Postmaster J. H. Vaughn has been ordered to remit to the postmaster at Socorro by registered mail instead of the postmaster at Albuquerque. The First National bank at Santa Fe also refused to act as depository for postal savings funds.

It is understood that the reason for the action of the banks in Albuquerque and Santa Fe refusing further to handle the postal savings funds, is that there is too much red tape connected with the work, the time of at least one man being necessary to look after the details of the deposits.

Carlsbad—The body of J. H. Reed, a goat man, was found in the home of C. L. Brown, near Queen, in the Guadalupe mountains. Mrs. Brown admits shooting him because he made improper advances. Her husband had come to Carlsbad leaving her and three children alone. She was taken to jail and will have a preliminary hearing. Mr. Brown is a homesteader, coming here seven years ago from Missouri. They are poor but well liked.

Las Vegas—In the district court John J. Perrine was sentenced to serve five months in the county jail for assault on his wife. Perrine had served time before on account of this and his sentence was made heavier than it ordinarily would have been. There are six children in the family, four boys and two girls.

Taos—A small circus, moving its animals and paraphernalia recently from Questa to Taos, had among its menagerie an elephant, which caused the Taos Telephone company grief. The elephant, using its trunk effectively, broke off several telephone poles, evidently with the intention of interrupting wire communication.

Santa Fe—Attorney general Frank W. Clancy holds that a druggist is under no legal obligation to fill a physician's prescription when that prescription calls for alcohol or narcotics. The opinion is in reply to an inquiry by M. N. Thompson of Logan, Quay county, who is both a physician and a druggist.

The three-year old son of Mr. and Mrs. P. N. Skow of Carrizosa was bitten by a rattlesnake last week and had a narrow escape from death, through prompt treatment.

WALNUT WELLS NEWS

Mrs. Eliza Brittain left Saturday for Eagle Pass, Tex., where she will visit her daughter, Mrs. Williams.

Frank Gentry who has been spending the past year with his aunts, Mrs. Massey and Mrs. Robertson, left Saturday for his home in Crystal City, Tex.

C. O. Wills and family made a trip to Douglas, Ariz., the past week in their auto.

Miss Renie Cheney spent several days the past week with Mrs. R. L. Keith.

Sergt. Arwood of the signal service, stationed at Alamo Hueco Post, spent the afternoon of Thursday in the valley. He states that his wireless plant will be installed on Saturday, taking the place of the heliograph.

The community will be pleased to hear of the recovery of the little daughter of Will Brittain. Mr. and Mrs. Brittain returned from Hachita last week.

A number of new wells are being drilled on homesteads. We are pleased to hear of E. H. White having secured an abundance of water. R. L. Keith is having a well drilled on his brother's homestead.

Frank Stedham is building an engine house and will soon install a gasoline engine on his home place.

On several occasions recently Mexicans from across the border have raided and driven off horses. On one occasion they shot and killed a couple of cows.

Divorce Granted

Martha E. Gregg, represented by her attorney, J. S. Vaughn, was granted a decree of divorce against Samuel J. Gregg by District Judge Colin Neblett here this week. The plaintiff was given custody of the four children of the couple and certain mining property in the Tres Hermanas district.

Fillbusters Cross the Line

General Roque Gomez and his entire force of 300 fillbusters invaded the United States at Dog Springs, N. M., Wednesday, according to official reports made to Colonel Tomas Ornelas at Juarez and to the United States military authorities. The report of the invasion was made to the Second Cavalry headquarters at Douglas, Ariz.

Gomez is well supplied with rifles and ammunition, according to army men. He has many extra mounts for his men and a wagon train of half a dozen wagons with large quantities of provisions and extra ammunition.

Grocery Salesman Discharged

In the case of the people vs J. M. R. Williams, charged with violating the state law preventing the sale of merchandise by itinerant merchants, District Judge Colin Neblett rendered a decision yesterday. Williams, who, it is alleged, represented the Southwestern Grocery company of El Paso, sold a large quantity of merchandise in this city and vicinity was tried in the justice court and fined. He took an appeal through his attorney, J. S. Vaughn, and the defendant's attorney contended that the acts of his client came under the control of the interstate commerce commission and that the constitution of the United States gave to congress alone the power to regulate interstate commerce and that the state statute was invalid and unconstitutional. The court upheld the contention of the defendant and he was discharged.

Large Cattle Shipment

Harry Martin, live stock agent of the Santa Fe railroad company was in the city this week, making arrangements for the shipping of 4,000 head of cattle to Kansas City and other Missouri points. Four trains of cattle cars were used in the shipment which is one of the largest consignments of cattle ever sent out of Deming at one time. The four trains were given the right of way over all freight trains between here and the Missouri river. The cattle were loaded at various points on the Santa Fe between Deming and Silver City, and were owned by different stockmen in Grant and Luna counties.

DEMING, NEW MEXICO, FRIDAY, JULY 24, 1914

CAMP BROOKES

The work of Camp Brookes was a success. This was the decision of the United States Army officers who had, during the course of their duties, the opportunity to observe closely the activities of the National Guardsmen through the relation of instructors to pupils. Even the uninitiated realized the progress which was made and many expressed surprise that a regiment, composed largely of the rawest recruits, could accomplish so much in eleven days. The novices worked hard, however, and willingly profited by the good examples set by the regular forces in the joint maneuvers.

That there would be some friction in so large a body of men, but lately and loosely organized, was to have been expected, but that there should have been so little dissatisfaction is remarkable. The officers of the regular establishment spared no pains to give instruction and the guardsmen strove hard to attain to their exemplars.

This is the eighth year in which the guardsmen have met together in camp without any serious illness. This goes to show what military life will do for the young men of the country, through teaching them to care for their bodies, and to devote their energies to the accomplishment of a worthy purpose. The lessons taught cannot be forgotten, as are so many given to indolent minds. Instruction was combined with strict discipline, and the impressions will not be quickly erased. Thus the benefits are permanent, even cumulative, because the young men will influence others to cleaner living.

When the idea of a ration of twenty-five cents a day a man was first mentioned, the newspapers of the state took a good laugh, and jokingly asked how the guardsmen would be able to follow the strenuous program outlined. Company I of Deming not only fed its members well, but had a credit of more than thirty dollars when the brief time in camp was over. The food was not coarse, though it was plain and wholesome—meat, bread, potatoes, cereals, coffee, and a few luxuries. It cost little, but went far, and placed the stomachs of the citizen-soldiers in better working order than they had been for many years perhaps. Love of luxury is, it might be judged from this, the cause of much disease and suffering as well as the high cost of living too high. Officers of the regular army now mess with their companies, and declare they would not think of touching other food when full efficiency in the field is required.

It is axiomatic in the army, in business, and in the sports that, good leaders of men have been at some time good followers of able masters. This is hard for the individualistic mind of most Americans to understand. Why any one should subject their own will to the will of another absolutely is beyond such, but failure to do so has caused the wreck of many promising lives. The lessons of obedience to higher authority have been well inculcated into the minds of the young men at Camp Brookes and at a time when the minds are plastic. This is the chief good of discipline.

Nothing need be said of the first purpose for the training of National Guardsmen. They will form the nucleus for a second line of defense in time of the Nation's great need. Everything must be subordinated to the learning of those things which mean success on the battlefield. The day always arrives swiftly, unexpectedly, and it generally means the deployment on the firing line of the unorganized militia, undisciplined, mis-fed, poorly led, and fated to a great sacrifice of blood. Between them and the enemy stand the regular army with all its efficiency, but lack of numbers, and the National Guard with its men half-trained, but fully educated to intelligent patriotism.

Deming certainly did the generous thing by the military forces of New Mexico, and the officers attending the camp declared that never before in any part of the United States had they seen a camp site so well selected and so well provided for in the way of water, fuel, baths, and conveniences of all kinds. Many will ask how the city is to benefit, and many will knowingly say that the money spent to bring the maneuvers here was wasted. The answer, and refutation, is too plain to need elucidation. The guardsmen represented every class from all sections of New Mexico. The hospitality extended will not be forgotten nor will it go long unrewarded.

BETWEEN SEASONS

Between seasons is accounted a dull business period. During this time buying by retail customers is light as compared with the seasons when in full swing. The dull period need not, however, be one of loss and indolence. The old-fashioned storekeeper certainly will roll over the counter, spit tobacco juice in the direction of the stove, and swap warm-weather stories for hard times whimpers. The live-wire merchant, however, will be just as busy as when customers are crowding his store. First of all his buying will receive attention. He will seek new goods in the cheapest markets, and he will study his prices to be able to sell more cheaply and still preserve his margin. Displaying and advertising will be kept up to attract those who must buy and who will go where the best and cheapest can be had.

In Deming the merchants should work to increase trade territory. There are merchants here who draw their greatest revenue from the old settlements of Grant and Luna counties, but who persistently refuse to recognize the existence of the newer industrial settlements which are growing up in opulence, but whose trade is going elsewhere. Now is the time to become acquainted with these people and to draw their attention to the superior advantages of dealing in Deming. When the fall season begins there will be no time for this. Creating new business in this way will mean a permanent revenue which can be drawn on in the dull seasons.

JUSTICE HORACE LURTON

There is widespread regret over the Nation over the death of Justice Horace Lurton of the United States Supreme Court. In the reconstruction of the tribunal, which was one of ex-President Taft's greatest single service to the country, the appointment of Justice Lurton, a Southerner of another political school, stood out conspicuously in testimony of the single-minded devotion to the good of the public service with which that work was done. In the labors of the reconstructed court whose efficiency is not less well known than the justness of its many great judgments, Justice Lurton was easily an equal among equals.

President Wilson is early called upon to fill one of these great offices. In doing so he may well be guided by the high standard set up by his immediate predecessor.

The copious rains of the last week have caused the farmers and stockmen to smile. Enough moisture has fallen within the week to mature a crop of beans or milo maize if properly conserved and the grass on the ranges which was well started by the early rains will be good until the end of the season. This means local prosperity this fall.

There are numbers of citizens of Deming who are not members of the chamber of commerce who should be. The dues are inconsequential, but the influence of a large and representative membership cannot be over-estimated. Everyone is interested in the progress of the city, but this interest, however great, cannot be translated into active measures to secure that which is sought, unless everyone belongs to the organized body pledged to a definite end. Outside the fold one is apt to grow skeptical, to become fault-finding, and to grow cold, all because there is no point of contact which would insure sympathy in difficulties, help in time of need, counsel, and that intangible something which the "boosters" call "community spirit."

GENERAL NEWS NOTES

Washington—Secretary of State William J. Bryan in a formal statement issued this week says that he would not sign the proposed bill that he was not willing to give his wife, and announced his intention of supporting the proposed state constitutional amendment extending the franchise to women to be voted upon in November next.

Woman, Mr. Bryan said, had proved herself equal to every responsibility imposed upon her, and would not fail society in this emergency. Above all other arguments in favor of giving her the ballot he placed the right of the mother to a voice in the moulding of the environment of her children. "The mother," the secretary said, "can justly claim the right to employ every weapon which can be made effective for the protection of those whose interests she guards and the ballot will put within her reach all of the instrumentalities of government, including the police power."

Fort Smith, Ark.—Finding of charred fragments of the bodies of two men in the ruins of a cabin and reports of an attempt to destroy the surface workings of another mine owned by the Becho-Dorman Coal company were Tuesday's developments in the conflict between strikers and non-union coal miners and other company employes in the Hartford valley coal fields. The discovery of parts of two skulls and human bones, raked from the remains of the cabin, explains, it is believed, the disappearance of J. W. Sylesberry and John Baskins, mine guards, after Friday's battle at Prairie Creek and tends to confirm a statement sworn to by Sam C. Thomas, a company employe, that he witnessed the execution of Sylesberry and Baskins.

Rockville Center, N. Y.—One-half of Rockville Center's police force of six men is accused of burglary by warrants issued here Thursday. Two of the three men—patrolmen James Vertizan and Henry Wickes—were arrested while on post; the third, Rufus Peterson, on his vacation, is believed to be in Holyoke, Mass. The Holyoke police have been requested by wire to apprehend him.

Three trunks, containing articles of every description, valued at approximately \$5000, were found in the chicken coop of Vertizan and Wickes. The village trustees are trying to induce the prisoners to explain how the trunks came to be there.

Many robberies have been reported in the village since last fall when summer residents closed their houses for the season. The depredations culminated recently in the robbery of Arnold Husser's general store, just across Main street from police headquarters.

Colorado Springs, Colo.—Reports from Altman, Colo., 30 miles southwest here, noted as the highest incorporated town in the world, indicates a heavy fall of snow Thursday morning.

Oyster Bay, N. Y.—For the first time in the history of the "Progressive" party, Col. Roosevelt faced the possibilities of opposition within the ranks over the choice of candidates. He learned that at the meeting of the "Progressive" committee of New York county Tuesday night chairman Francis W. Bird declared for a straight "Progressive" ticket and after the meeting learned that Harvey D. Stiman of Binghamton, had announced his candidacy for the Republican nomination for governor on a platform opposed to William Barnes and Charles F. Murphy.

Col. Roosevelt, it was said here, was fully aware of the resistance he would meet if he sought to bring about "Progressive" endorsement of Mr. Hinman or of any other candidate outside the "Progressive" party. To all inquiries he merely replied that he had nothing to say at present.

Boston, Mass.—Lawrence Robinson, charged with the murder of police inspector Thomas J. Norton, committed suicide Tuesday night by cutting his throat with a steel shank which he had removed from one of his shoes. Since the opening of his trial Tuesday he had been confined at night in a room of the court house.

Robinson was accused of shooting Norton while resisting arrest in the Boylston case on June 19.

Tombstone, Ariz.—Col. H. L. Pickett died Tuesday morning. He was 67 years of age and was one of the best known attorneys in the southwest. He settled in Silver City, N. M., in 1886. From there he went to Salt Lake, Utah, and in 1902, came to Tombstone. He leaves a son, Harry Pickett, who is a practicing attorney of Memphis, Tenn.

New York—There will be no strike of baseball players in the two minor leagues. The Kraft case, basis for a strike order issued by the baseball players' fraternity was settled by the Newark Internationals agreeing to buy Nashville's interest in Kraft.

Announcement to this effect was made by Charles H. Ebbetta, owner of the Brooklyn Nationals, and a large stockholder in the Newark International League Club.

Glenwood Springs, Colo.—Summoning his daughters, Lois, aged 12, and Faye, aged 10, from a local hotel to his office, Dr. T. L. Hutchinson shot and killed them and then killed himself. He is believed to have been insane.

Two weeks ago, it is said, he drove his wife and daughters from their home. Since that time they had been living in a hotel.

Freeport, N. Y.—Plans for the immediate future occupied the attention of Mrs. Carman, who was released from the county jail at Mineola in \$20,000 bail for trial this fall, under a grand jury indictment charging manslaughter in the first degree in connection with the murder of Mrs. Louise Bailey. In a statement, Mrs. Carman told for the first time her story. Mrs. Carman said that it was not true that she was "insanely jealous, as the newspapers had people to believe."

Los Angeles, Cal.—According to Adolfo Carillo, agent here for the constitutionalists, American, French and Japanese land holders in Lower California who have received concessions from Diaz and Huerta governments are to be ousted from Mexico and their holdings turned over to Mexicans.

Reading, Pa.—Ashland Wilkes, sire of many famous light harness racers, was found dead today in his stall at the Hillside stock farm, near here. His progeny included 185 standard performers, 11 of them having marks from 2:10 down to 2:01 1/2. He was foaled in 1882 at Lexington, Ky., and was brought here ten years later.

New York—The tentative plan adopted a month ago by the bondholders and stockholders protective committee of the Chicago, Rock Island and Pacific Railroad company in the hope of reorganizing the Rock Island system has been abandoned and the syndicate which agreed to underwrite the reorganization has been dissolved, it was announced this week.

ONE DOLLAR

Will buy a certificate of Deposit in this bank.
Save the dollars—deposit them regularly—and with each one drawing four per cent interest annually, you'll soon find that you will have a good sized bank account.
And more than that—you will have acquired the Saving Habit—the one sure way to success.

A Modern Dry Goods Store

Within two weeks we will let a contract to erect the most modern Dry Goods Store in the Southwest.

It will take about three months to complete the same, and in the meantime, we are anxious to reduce our stock, and will therefore make prices that will be an inducement to buyers. We do not intend to move our stock to the new store and invite you to come and give us a chance to convince you.

Our summer ready-to-wear goods will be offered below cost, and this will hold good in all departments.

THE LINDAUER MERC. CO.

depends upon the political plane of the community concerned. Since it is well that the public schools should be controlled by the people, it is inevitable that popular opinion, expressing itself through political agencies, should have all to do with the making or unmaking of the school boards. Theoretically, women have an equal voice with men in the conduct of the public schools of the several states in the American Union; practically, they have not. Men in four-fifths of the states, putting the case roundly, control political machinery absolutely. Where women may vote for school board candidates, as a rule, men have it in their power to dictate to the candidates chosen. In numerous instances men have power to appoint school boards. In a majority of instances men control the purse strings and can at their pleasure restrict or give freedom of action to school directors.

"This will account largely for the fact that the salaries of women school teachers are uniformly low. Let the situation be stated as it has been formulated in a report of the committee on salaries and cost of living to the National Educational Association at its meeting in St. Paul: 'The large majority of teachers are women,' says this report, 'and as such are still without the right of suffrage in most states, therefore the funds from which their salaries are paid are under the control of officials in whose selection they have no vote. It should be clearly recognized by the National Educational Association, therefore, that the relation of woman suffrage to the honest and fair adjustment of the salaries of women teachers is vital and immediate.' The association at its session recently indorsed the finding set forth here.

"There is logic in the demand for this recognition, it seems to us, if there is logic in the demand that women should be compensated equally with men for the same amount and quality of work. The principle of equality, if allowed at all, should naturally be permitted to govern throughout. Women teachers as a rule are now not only not receiving adequate compensation, but they are being discriminated against in favor of men. What seems to be needed is a public sense of the justice of the claim that adequate salaries should be paid public school teachers according to the ability of these teachers and without any regard to sex. That this sense may be developed and sharpened, it seems to be equally necessary that sex shall no longer mark a dividing line in citizenship."

PERSONAL

Arthur Raithel went to El Paso this week on a short business trip.

T. M. Chase of Tyrone has bought a Saxon car from the local agency.

John T. Dean and wife and Myron Dean and wife came up from Columbus this week and visited Camp Brookes.

Mr. and Mrs. H. G. Yeager of Santa Rita were visitors at Camp Brookes the first of the week.

Phillip Upton came in from Val Verde Monday and spent the day visiting the encampment.

Mr. and Mrs. H. E. James of Carlsbad were among the visitors in the city to witness the sham battle.

A. P. Kehoe and wife of El Paso arrived in the city Monday and spent the week with friends.

T. B. Smith came down from Silver City Monday in his Saxon car and took in the army maneuvers.

Carl Peugh and Joe Wells went to Tyrone Tuesday to deliver a Saxon car sold at that place.

The Santa Rita Baseball club have bought a Saxon car from the local agents which they will raffle.

Attorney R. C. Ely and little daughter returned Saturday evening from a short stay at San Diego, Cal.

J. A. Mahoney left Monday for Chicago and other Eastern points on a business trip.

Roy Lester came up from El Paso Wednesday for a short visit with his mother, Mrs. C. H. Lester.

Miss Laura Beecher came down from Silver City Monday to visit the encampment and witness the sham battle.

Mrs. H. A. Foster and Mrs. Folks of Cambray, came in Tuesday to attend the funeral of little William De Buono.

Dr. F. E. Morton of Columbus, Ind., who, with his wife were guests of Dr. M. J. Moran last winter, has

returned to Deming and will locate here permanently.

Postmaster Jeff Maxwell of Miesse was a visitor in the city this week.

Mrs. T. F. Yates and Miss Geraldine Nichols of Godley, Texas, are visiting with friends in the city.

Mrs. L. B. Jacobs came down from Paywood Monday to visit the encampment.

H. H. Gault and wife of St. Louis, stopped over in the city Tuesday on their way to Fort Bayard where they will visit friends.

C. E. Holmberg of Fort Bayard, was a visitor in the city one day this week.

C. W. Bowers, prominent horse and cattle raiser of Davis, Cal., is visiting friends in the city.

L. H. Bartlett of Santa Rita was an encampment visitor Monday on his way to El Paso.

J. A. Kinnear and James Hines are to open a drug store in the building on Pine street formerly occupied by the Williams harness shop.

Felix Garnet returned from San Simon, Ariz., Tuesday, where he has been engaged in installing wells in that vicinity.

Mr. and Mrs. J. D. Anderson of State College arrived in the city in their automobile Monday and the following day started by motor for Los Angeles, Cal., where they will spend the summer.

Miss Jessie Turner, Miss Lucille Armstrong and Mrs. J. C. Huff stopped over in Deming Tuesday from a visit to Kansas City, Mo., on their way home in Santa Rita.

R. C. Pendleton arrived last week from Winslow, Ariz., to take the position as assistant chef at the local Harvey house.

Mrs. J. A. Mahoney and daughter, Mary, left Sunday for San Diego, Cal., where they will spend the remainder of the summer.

S. C. Thompson left the city Sunday morning for Philadelphia, Pa., and on the way he will stop over at points in Kansas, Missouri and Illinois.

Leonard O. Tucker, local cashier in the Southern Pacific office, who underwent an operation at the Deming Ladies hospital is reported to be improving and expects to resume his duties by the first of next week.

Thomas R. Murchison, brother of Mrs. Arthur C. Raithel, returned to his home in Los Angeles last Saturday afternoon. Mr. and Mrs. Arthur Raithel accompanied Mr. Murchison as far as El Paso. Then Mr. and Mrs. Raithel spent Sunday in High Rolls and Clouderoft as guests of Mr. and Mrs. P. W. Williams of El Paso.

Mrs. Lizzie Bryams stopped over in Deming on her way to Miami, Ariz. from Santa Rita, where she has been visiting her daughter, Mrs. Brenner.

Walter B. McFarland and family of Silver City came down Monday to witness the sham battle and visit the encampment.

Walter Brunson, a member of the Graphic mechanical force, returned Monday from a month's visit with his parents at Safford, Ariz. He said he had a good time, but was glad to get back to good old Deming.

Oscar Rainville of Silver City was a visitor in Deming Monday to make arrangements for the setting up of a large automobile truck which he received here by freight from Detroit.

J. R. Williams and wife of Globe, Ariz., were visitors at the chamber of commerce Wednesday looking for information of the Mimbres Valley with the intention of settling near Deming.

BANK OF DEMING MAKING GOOD IMPROVEMENTS

The Bank of Deming is being remodeled inside to give more lobby room for the convenience of depositors. There is now an outside office for Cashier Arthur Raithel. The building will be rewired and redecorated.

NOTED CALIFORNIA SCHOOL TEACHER VISITS DEMING

Miss Edna J. Norcross, formerly of Denver, Colo., and a well-known educator of California, stopped over in Deming Tuesday on her way home from St. Paul, where she attended the convention of the National Educational Association.

Deming is surely living up to her reputation as a live town," said Miss Norcross. "I had not been in the city over an hour when I was visited by a real estate man who took me around the city in his automobile and on a short ride into the country. What I saw greatly impressed me with the country near Deming and the city itself is well laid out and will undoubtedly be quite a metropolis some day. I particularly took notice

of your fine school buildings and I wondered to myself if your school system was free from politics. "Those who are in any degree familiar with the creation, composition and conduct of school boards, speaking generally, will not need to be told that there is intimate relation between these bodies and politics. Such relation may be unavoidable; it is not necessarily harmful. Everything de-

They all see it now—what Henry Ford saw years ago—that the light, strong, quality car, sold at a low price, best meets the demands of all the people. Now they're all following where Henry Ford led.

Five hundred dollars is the price of the Ford run-about; the touring car is five fifty; the town car seven fifty—f. o. b. Detroit, complete with equipment. Get catalog and particulars from

**SCHEIDIGER LOCAL MAN,
WINS OVER PROFESSIONAL**

For the amusement of the visiting officers and troops, a classy boxing tournament was given at the Crystal theater Saturday night, in which three championship bouts were scheduled. The first being an eight round contest for the lightweight championship of the New Mexico National Guard, between Mike Baca of Company E, Santa Fe and Shorty McCoy of Company F, Santa Fe, which, at the close of the contest Baca was declared winner by George Coxe, who officiated as referee. The next bout was one of six rounds for the welterweight championship of the state national guards, between Chick Connolly and Fitz Craven, in which Craven threw up the sponge in the third round.

The main event of the tournament was a ten round contest for the heavyweight championship of New Mexico, between Charles Scheidiger, a lineman employed by the Deming Electric company and Bart Gordon, a member of the Roswell Battery. The bout started with ginger and concluded with a whirlwind finish, with both men pounding each other freely. Gordon took a great deal of punishment during the last three rounds and displayed considerable knowledge of ring practice, but was handicapped by the long reach and superior height of Scheidiger, who was awarded the decision.

Gordon was hailed as a sure winner and recently fought a thirty-two round bout at Juarez, Mexico, across the river from El Paso, Texas, with Joe Herriek, securing the decision, after being almost knocked out.

Scheidiger has been a resident of Deming for the past year and is an electrician. He was the favorite with the large crowd present and Deming sports claim to have a "White hope" in Scheidiger.

**C. & O. MINING COMPANY
MAKES ANOTHER STRIKE**

Another rich strike of gold ore is reported from Pinos Altos which promises to be a repetition of those made recently by Bell & Wright and which produced for them something over \$50,000 worth of high grade ore. The present strike was made Saturday by John Oglesby, one of the pioneer miners of the Pinos Altos district, on ground adjoining that from which Bell & Wright took their big values. A little of the good stuff was encountered Friday afternoon and during the work on Saturday a sack of ore was taken out that will be worth, at a conservative estimate, \$100,000 per ton. Since that time more of this high grade has been found and since it occurs in bunches rather than in a thin stringer, as was the case on the Bell & Wright ground, it looks as though the main core of the streak was yet to be reached.

The strike was made on the Langston property, which is owned by the C. & O. Mining and Milling Company. When Bell & Wright ran into the high grade gold ore last fall it was near the side of their property which adjoined the Langston and in fact they were working so close to the line that a law suit was imminent for a time to decide on whose ground the rich ore was found. Mr. Oglesby at that time started to sink a shaft across the line on the Langston. He has been getting out good paying ore

for most of the distance of 270 feet which he has sunk. Reaching about the level of the other strikes he commenced to tunnel back into the claim and it was at a distance of forty feet from the property line that the present strike was made.

All friends of mining in Pinos Altos hope that the pocket will be a record breaker, but even if it should not, it will not mean that the mine will be abandoned. The mine is a paying proposition on the regular run of the ore and the rich pockets are just additional velvet.

Mooney Wanted No Ghost

He was big and bronzed with the hands of a laborer and looked every inch the man needed by Ed A. Mooney of the New Mexico Implement company, to assist in putting up Fairbanks-Morse engines.

"Where are you from?" asked Mooney.

In what happened to be a natural sepulchral voice the man answered, "Death Valley."

"What part?"

"Funeral mountains."

"What'd you do?"

"Worked in the Coffin mine."

"What shift?"

"Graveyard."

Edward Mooney, Esq., moved abruptly away from the man. "Say, see here," he said, "We're looking for live ones. We haven't any jobs for ghosts. You had better go to Tombstone, Ariz., or Deadwood, South Dakota," said Mooney, "you may get a job there, where it is more appropriate."

TYRONE ITEMS

Again for the third time in nine months the grim reaper invaded the home of Mrs. A. C. Butt, taking therefrom her father who died very suddenly Thursday of paralysis at his home in Los Angeles. Mr. Butt being unable to go owing to her nervous condition, resulting from the many sudden deaths in her family, Mrs. E. R. Donnelly, her sister, left Friday for Los Angeles to attend the funeral.

Mrs. O. A. Von Buckholtz of Salida, Colo., arrived in Tyrone Wednesday to spend the summer with her old school chum, Mrs. A. C. Butt.

Jean Santsehi of Ghent, Belgium, reached Tyrone Wednesday for a stay of several weeks.

Mr. Rockford of the Missouri Life Insurance company has been in town several days.

E. R. Donnelly of Hurley, is stopping with Mrs. Butt while nursing an injured hand.

A Mexican horse-thief was killed and another captured about seven miles west of Tyrone last Thursday afternoon, July 9 by a posse who were hot in pursuit of the bandits. It was like a moving picture drama, according to former postmaster J. E. Sheridan who happened to be in the vicinity at the time on a prospecting trip. The two horse-thieves rode up to Mr. Sheridan's camp and asked for a drink of water and after inquiring for directions about the road, departed. Within fifteen minutes, came a flying squad of deputy sheriffs and Jo says they were moving some. They halted just long

enough to find out the direction the bandits took and then commenced an exciting chase over hill and dale that reminded Jo of the good old days of the early eighties. In the capture, one of the horse-thieves attempted to slash Deputy Ira Stockman with a long slick and actually cut through the clothing of the deputy before he was stopped with a bullet from the latter's six-shooter. The bandit fell dead in his tracks. The other gave himself up and is now in the county jail awaiting the action of the next grand jury.

The men stole four horses from some ranchers near Lordsburg who started in pursuit and at Tyrone enlisted the aid of Deputy Stockman and Albert Jacobsen. All the horses were recovered.

**SUPERINTENDENT WILLIAMS
ENTERTAINS THE GOVERNOR**

After the review of the troops at the encampment by Governor William McDonald and staff, a complimentary dinner, consisting of several courses, was given in honor of Governor McDonald by Division Superintendent T. H. Williams of the Southern Pacific company of Tucson, in his private car, "Tucson," in the railroad yards. The affair was an informal one and those who enjoyed the hospitality of Superintendent Williams, besides the guest of honor were Colonel D. A. Frederiek, commander of Camp Brookes; Adjutant General Harry T. Herring of the New Mexico National Guard; John Corbett, mayor of Deming; Assistant Superintendent T. H. Kruttschnitt of the Southern Pacific; Southern Pacific Division Engineer, J. D. Matthews; Senator C. J. Laughren and Willard E. Holt, secretary of the chamber of commerce. It was a sort of get-acquainted party as Superintendent Williams has but recently been promoted to his present position, having come to this division from Sacramento, Cal. Toasts were drunk to the success of the New Mexico National Guard, the U. S. Army and the future progressiveness of Deming and the Mimbres Valley which were very ably responded to by Senator Laughren and Mayor Corbett.

FORT BAYARD ITEMS

Mrs. Poust entertained at bridge Tuesday afternoon in honor of Mrs. Marietta. Her guests were Mesdames Christie, Howard, Tillman, Stevenson, Dabney, Scott, Rockhill, Elliott, Wallen, Tefft and Collendar. Mrs. Lloyd and Mrs. Burns came in for the delicious refreshments. The exquisite prizes were won by Mrs. Howard, Mrs. Tefft and Mrs. Tillman.

Mrs. Tefft entertained Saturday afternoon at bridge. Her guests were Mesdames Tillman, Christie, Stevenson, Elliott, Rockhill, Collendar, Howard, Marietta, Scott and Dabney. The prizes were beautiful white silk hose. The following ladies were invited to partake of the delicious refreshments: Mrs. Bruns, Mrs. Lloyd and Mrs. Norton.

Mrs. Lloyd has Captain and Mrs. Dabney as her house guests.

Mrs. Lloyd entertained at an informal dance Saturday evening.

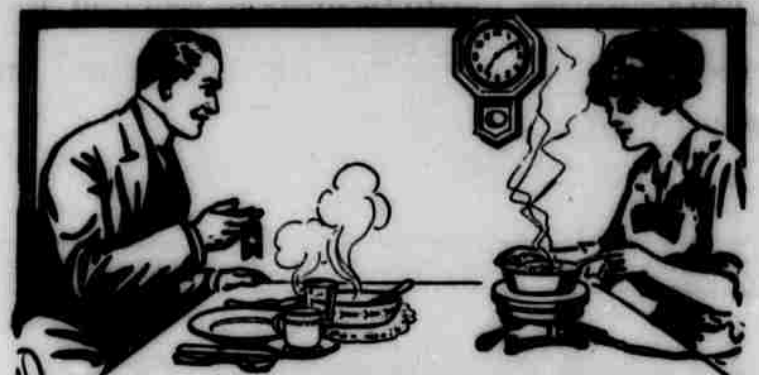

**IN
THE
NURSERY**

Why not give baby the best. Yes, why not? "Do It Electrically"

**It will Be Ready
in a Minute**

As a matter of fact this wonderful little disk stove is ready to cook in much less than one minute from the instant you turn the switch. And you can cook on it practically anything you wish.

It is, perhaps, the most convenient and useful of the great variety of electrical cooking devices now within the reach of all, not excepting those receiving the more modest incomes.

It represents the genius of the "Light House Keeping Age" now opening to us—banishing as with a fairy wand all the nuisances of smoke, soot, disagreeable odors, and tiresome delays.

You cannot fully appreciate its many virtues until you actually use it. Come in and cook on the fine little G-E stoves we carry in stock and learn a lesson in real convenience.

Lightning Struck Flag Pole

During the big electrical and rain storm here Sunday night a ball of lightning struck and shattered the large flag pole on the east of the Harvey House. All of the electric lights were extinguished in the city for a short time and the rain came down in torrents. Women and children while leaving the Union station were compelled to wade in water over their shoe tops to reach the sidewalks on Silver avenue and the streets were miniature rivers of water.

L. C. Bussler of Magdalena arrived in the city Monday and is visiting friends.

NOTICE OF PENDENCY OF SUIT
Civil No. 488

IN THE DISTRICT COURT OF THE SIXTH JUDICIAL DISTRICT OF THE STATE OF NEW MEXICO, WITHIN AND FOR THE COUNTY OF LUNA.

Mary E. Weatherman, plaintiff
vs.
William H. Weatherman, defendant
By William H. Weatherman, the above named defendant:

You are hereby notified that a suit has been instituted against you by the above named plaintiff in the district court of the sixth judicial district of the state of New Mexico, within and for the county of Luna, entitled "Mary E. Weatherman, plaintiff, vs. William H. Weatherman, defendant, civil No. 488."

The general object of said suit is to have the bonds of matrimony now existing between plaintiff and defendant dissolved by this court and the custody of the minor children, Verol Weatherman, Edward Weatherman and Elton Weatherman, awarded to plaintiff.

Plaintiff alleges as grounds for her said action that defendant has deserted and abandoned plaintiff, wilfully and without cause, and without her consent, and that since the first day of January, 1911, defendant has wholly neglected and failed to support plaintiff according to his means, station in life and ability.

You are further notified that unless you enter your appearance in said suit on or before the 24th day of August, 1914, judgment will be rendered against you in said suit by default.

The name and post office address of the attorney for plaintiff is A. W. Pollard, Deming, New Mexico.

Given under my hand and seal of this court at Deming, New Mexico, this 2nd day of July, 1914.

(Seal) C. B. HUGHES
Clerk of the District Court of Luna County, New Mexico

July 3 to July 24

IN THE PROBATE COURT OF THE COUNTY OF LUNA, STATE OF NEW MEXICO.

Administrator's Notice

In the Matter of the Estate of Ned Keith, deceased.

To whom it may concern:

The undersigned administrator of said estate hereby gives notice that on Monday, the seventh day of September, 1914, at ten o'clock in the forenoon of said day, at the court house in Deming, Luna county, New Mexico, he will apply to said court for an order of approval of his final account and report, on file in this cause, and for his discharge as such administrator.

WALTER L. RUSSELL
Administrator.

July 3 to July 24

Encampment Notes

A cloudburst early Saturday morning broke over Camp Brookes and Deming and the members of the militia and regulars were given a drenching. The rain storm lasted for nearly four hours and the parade grounds were covered with water and the maneuvers of the troops were somewhat hampered.

Large crowds of visitors from El Paso and numerous points in New Mexico and Arizona have been daily visitors to Camp Brookes to witness the maneuvers by the state and regular troops.

Major M. L. Stern of Albuquerque, formerly quartermaster of the New Mexico National Guard, who recently resigned, was a visitor to Camp Brookes Sunday, after which he went to El Paso on a business trip.

Four members of Battery "C" Sixth Field Artillery, U. S. A., who were out in the vicinity of Deming looking for stray horses of the artillery, were compelled to seek shelter at the A. D. Tyler ranch Saturday morning until after the big rain storm had passed over.

Some thirty women, prominent in social circles of Las Vegas, heartily cheered Major L. W. Ilfeld of that city, in command of the First Battalion, when he and his command passed in review before the moving picture camera. The major, staff officers and troops of the First Battalion, received the cheers with pride and smiles, which were caught by the movie man.

HANOVER NEWS

The ice cream social given at the Hanover school house on the evening of July 10 was a decided success, Fierro, Santa Rita and Hanover being well represented.

Miss Ethel Pyke left for Hurley Wednesday after spending several days with Mr. and Mrs. J. W. Welch.

The Rev. C. I. Walker held service here last Thursday evening.

Miss Alice Brown spent last week at Hurley visiting friends.

Mrs. Reed Bonduerant of El Paso joined her husband here last Saturday.

A wagon load of Hanoverites attended the ice cream social at Santa Rita Monday evening.

A six-room house is being built on Swansont Hill for the foreman of the Empire Zinc Co.

FIERRO NEWS

Mr. Groese Nunn, wife and daughter Viola of Cooks Peak, were visiting W. G. Hodgo and wife the first part of the week.

Mrs. J. W. Clayton and son Reg of El Paso, are visiting the family of A. H. Dowell. The lady expects to join her husband in Mexico where they have some mining valuable mining property. Mrs. Dowell will accompany them on the trip.

Mr. Rider of El Paso is here looking over the big gold camp.

Tom Holsman was over from Santa Rita Wednesday.

Construction of the new school house under the supervision of Al Doran is moving along nicely.

HURLEY ITEMS

Mrs. John McGeever arrived home this week from Long Beach, Cal., where she has spent the past two months.

This section has been visited with three heavy rains this week, putting water in all the small streams.

Jack Dyer has been promoted to mine foreman of the Chino Copper Company here, filling the vacancy made by V. H. Poindexter's resignation.

M. E. Goldsack left this week for Clifton, Ariz., where he has accepted a position with a mercantile company.

Harvey Mathews left Thursday for Mogollon where he will be employed by the Ernestine Mining Co. He has held the position as repair foreman in the coarse crusher department with the Chino Copper company here.

R. D. Bryden motored to Deming Saturday with his family.

G. W. Duvall and Miss Emma G. Drury, both of Hurley, were married at the home of Mr. and Mrs. Oliver Wold in Silver City Thursday afternoon. The Rev. M. O. Stockland of the M. E. church officiating. The groom is employed in the office of the Chino Copper company. The newlyweds will make their home at Hurley.

BOOSTS BORDERLAND ROUTE FOR FALL TRAVEL TO COAST

Already inquiries are being made as to the most feasible route for auto travel to California for the Pacific-Panama Exposition. During his recent trip to New Mexico from San Antonio, Tex., Col. A. L. Westgard mapped out two routes, one for fall travel and the other for summer travel.

Speaking of the proposed routes he said:

"In the summer time the route I would suggest would be from San Antonio to Amarillo, thence to Tucumcari, N. M., Albuquerque, Magdalena Springville, Ariz., petrified forests, Flagstaff, Grand Canyon, Needles, through the Mohave desert, where the roads are good, Barstow, San Bernardino and Los Angeles.

"One of the best fall routes would be from Fort Stockton to El Paso, to Deming, N. M., Lordsburg, Douglas, Ariz., Bisbee, Tombstone, Tucson, Florence, Phoenix, Yuma, Bramby, El Centro and San Diego, Cal."

Col. Westgard has been engaged in making strip maps, taking in every point along the routes he has traveled, showing all the physical features of the routes, the bridges, culverts and lack of them, soils, proximity of road, building materials, grades, topography, mileage, compass directions, crops, density of vegetation, climatic conditions, all of which data is given to the National Highways association and the Transcontinental Highway association of which Col. Westgard is a director, to be placed before the government in its plan for the building of 50,000 miles of improved highways, for which a bill is pending in congress.

Goats Struck by Lightning

W. C. Silsby, the Burro Mountain Angora rancher, had 32 goats killed by lightning last Thursday and the Mexican herder must have had a very narrow escape. Four of the goats were under one tree and the remainder were under another about 40 feet distant while the herder was not quite on a straight line between the two. It seems that there must have been two bolts of lightning since the current would scarcely jump so great a distance. One of the animals killed was a valuable buck, the heaviest shearing animal in the herd.—Silver City Independent.

F. W. Vellacott, referee in bankruptcy for this district, came down from his home in Silver City Thursday to attend to Deming bankrupt matters.

NOTICE OF PENDENCY OF SUIT
 Civil No. 438

In the Sixth Judicial District of the State of New Mexico, within and for the County of Luna.

Margaret Nies, plaintiff vs. Ira Nies, defendant.

The above named defendant, Ira Nies, is hereby notified that a civil action has been instituted against him as hereinabove set forth in the above entitled court, by Margaret Nies, plaintiff therein, in which cause of action it is alleged as grounds therefor that the defendant has wholly failed and neglected to support the plaintiff, and praying the court for a decree of absolute divorce from the defendant, and for general relief.

Now, therefore, the said Ira Nies, defendant as aforesaid, is hereby notified that he is required to appear in said court and action and answer demur or plead to the complaint filed in said cause, on or before the seventh day of September, 1914, the said date being more than twenty days after the date of the last publication hereof, and that unless he so appears and answers, demurs or pleads, judgment by default will be rendered against him in said action, and that plaintiff will apply to the court for the relief prayed for in her said complaint.

The name of the plaintiff's attorney is R. F. Hamilton, whose post office address is Deming, Luna county, New Mexico.

Witness my hand and the seal of this court, this 24th day of July, A. D. 1914.
 (Seal) C. B. HUGHES
 July 24-Aug. 14 Clerk

Announcement Notes
 "The Adventures of Kathryn," the most talked of motion picture drama ever written, will be shown at the Comet theater beginning August 18 and continues until the entire series are shown. Announcements of the number of reels to be shown each evening will be made later.

Music will be a special feature at the Comet from this time on. Among other new pieces, we have the William Tell overture. The music and pictures at the Comet will be of the very best at all times and everything will be done for the convenience of our patrons.

The Air-dome is also showing excellent pictures and the crowds enjoy the starlit canopy and cool breezes. There is no place in the Southwest where you can get more for your dime than at the "Hull movies, Air-dome or Comet.

Opportunity for Girls

The State Normal at Silver City offers the opportunity for twenty or twenty-five girls of the ninth grade rank to go to school and at the same time earn their board and room.

The homes where the girls may stay are the best in the town, being free of tuberculosis and being personally known to the authorities of the school as acceptable in every way.

Address all inquiries to M. L. Entole, principal, Silver City, New Mexico.

FAYWOOD ITEMS

The Rev. Henry will hold his usual services at the school house Sunday, July 26. All are welcome to these services.

Tot Tustin and John DeGraffenreid, drove into Deming Wednesday in Mr. Tustin's new automobile.

D. Pryor and friend, Dr. S. D. Fewkes of the Smithsonian Institution, stopped at Old Town while on their way to Deming. They investigated the old ruins. They found a worshipping stone and a burying bowl. Mr. Pryor has just finished putting in some fine silos up at the N A N ranch. Some of the farmers will gladly avail themselves of the opportunity to see them filled, as Mr. Pryor has offered to explain the silos to them.

Arthus Cheek of El Paso is visiting the family of Dr. Brown at their Mountain Home ranch on the Mimbres.

Tom Templeton and Dillard Franks drove into Deming Saturday for provisions.

H. H. Bishop and Lee Pratt went to Deming Wednesday on business.

Hiram Mortenson left for Deming Saturday. He was called in to see his wife who is seriously ill there.

Ira Hatch, who has been working on the Cassiere farm left for Washington last week.

G. Shipman who sold his ranch near Dwyer to H. V. Whitehill, will leave for California this week with a carload of horses. A large farewell dance was given his son George Monday night.

The Mimbres river still holds its own. It has come down every day for a week. Monday it washed away quite a good deal of land, corn and alfalfa and some orchards from San Jose were washed down the river.

Albert Lindauer and others around here, went down Wednesday to Deming to see Governor W. C. McDonald. They wished to put in a protest against the Rio Mimbres Irrigation company buying all the land. It is claimed they will give up building the dam they have held on this land for years, but Mr. Lindauer no doubt will give the information.

The people from here who went to Deming to investigate the five per cent loan, got "cold feet" and came back home. They think the home banks are safer.

Victoria, Mex.—Via Laredo, Tex.—Hope to the vanquished federals if they will surrender without further resistance was held out Wednesday by Venustiano Carranza in a banquet which he attended here. In his address Carranza indicated that he was verse to wrecking vengeance on Huerta's followers. Though he had previously announced nothing but unconditional surrender would suffice. Carranza Wednesday made a stirring plea for the exercise of leniency "in treatment of the conquered by the victorious 'Constitutionalists.'"

The address of the first chief was greeted by applause from all around the table, indicating that his remarks were received with approbation.

The Usage Your Bedding Receives

Eight hours of steady use out of every twenty-four—your bedding has to be good to hold up under this. That is why we specialize on bedding that keeps its shape and is always comfortable.

There is a lot to know about bedding, a good deal more than just size and weight—another case of buying what you can't see.

The furniture business is full of this kind of buying and we make it as simple for you as we can, by telling the truth about our goods. We are careful to carry only such goods as can stand the truth.

Besides our own special made up mattresses at \$5.00, \$8.00 and \$10.00, we have the exclusive agency of the Ostermeier and Sealy mattresses, both with a world-wide reputation of being the best in their class. We sell them at the national advertised prices.

THE STORE OF QUALITY

SECRETARY HOLT RECEIVES INFORMATION ON TOMATOES

Secretary Holt of the chamber of commerce has received the following communications in reference to the tomato blight which has been troubling the farmers of this locality. The first is from Director R. H. Forbes of the University of Arizona Agricultural college and is as follows:

"Replying to yours of July 14, I will say that very evidently the trouble with your tomato plants is a fusarium disease, resident in the soil, which attacks the root systems of the plants, choking up the passages through which the sap circulates, and finally causing the death of the plants. The fusarium organism causing this disease being resident in the soil is exceedingly difficult to combat, and in fact, cannot be economically exterminated. The difference between the plants which you make mention of is doubtless due to resistance of individuals to the disease. It is frequently possible to select seeds of resistant individuals with the result that the best quality is established in the progeny and the damage lessened by this means."

The following is from D. E. Merrill, station entomologist and acting botanist of the New Mexico Agricultural college:

"The trouble with the tomato plants is likely one of three diseases which have a good many characteristics in common. Further on I will give some of the diagnostic symptoms so you may be able to decide, perhaps. You will understand that the diseases of the tomato, along with a good many other plant diseases have not been worked out fully even as to cause, let alone the control. But work is being done on them and we have hoped for the future. We have likely the same disease in our tomatoes at the farm, but with other work we are into, have not been able to take up these diseases. Florida and California have done something with these and I give you the benefit of their findings."

"FUNGUS BLIGHT"—Due to a fungus fusarium. May attack most vigorous plants or those low in vitality. First sign usually the yellowing of the larger lower leaves. They usually dry from the tip later. The leaf stem and the plant stem near the yellow leaves when cut across show darkened veins. Later the disease spreads more or less rapidly to the rest of the plant.

"Since this is due to a fungus that lives over in the soil there has been no means found for preventing it attacking plants except to rotate the crops so that tomatoes will not come on the same ground only about in three year intervals.

"SCLEROTIUM BLIGHT"—Due to a fungus, Sclerotium. In the case of this blight the first symptom is the wilting of the terminal portions of the plant of the terminal leaves in particular. The wilt then extends to other parts. The disease live over in the stems of dead tomato plants and is scattered when these are moved about in cultivation. The fruiting bodies of this disease may be destroyed by spraying the ground about the plants before they have been infected, with ammoniacal copper carbonate. (Copper carbonate, five ounces, ammonia water at 26 degrees Beaume, three pints; water 50 gallons.) In a wooden or earthen vessel, dissolve the copper carbonate in the ammonia to which one gallon of water has been added. Stir until

SAXON \$395

F. O. B. Detroit

"Cool as a Saxon"

—this expression is becoming proverbial among knowing motorists—their hot weather slogan. Everywhere is the Saxon delighting its owners by its surprising ability to remain cool in the hottest weather and under the most trying conditions.

The Saxon has a honeycomb radiator, the finest type of radiator built—the same kind of radiator, in fact, that is used on many of the high priced cars. Its large cooling surface plus the exceptional design of the motor simply precludes any possibility of overheating.

And this feature is but one of the many that have rendered the Saxon the automobile sensation of the year. Have you had a demonstration drive? If not—take one today.

Wells-Peugh Realty Co.

Agents Sierra, Grant and Luna Counties

dissolved. For keeping, pour into jugs or bottles that can be corked tight. Use not later than a week after making up. Dilute in the above proportions when using.

"Stable manure or other vegetable fertilizer affords better opportunity for this fungus to live. So where possible do not use such. Keep the weeds down and keep the soil loose about the plants. Florida recommends staking the vines to keep them off the ground.

"BACTERIAL BLIGHT"—Due to Bacillus solanacearum. Starts very like the last disease above. As a rule, however, the plant that is suffering from the bacterial blight has become infected through a leaf, which shows the disease present by wilting. Next, that portion of the stem next to this leaf begins to wilt and finally the whole plant becomes involved. Dark veins may show in the leaves and a dark gummy substance often is deposited in the woody part of the stem. In this way it may resemble the Fungus Blight. The attack is usually more localized on the plant than is the case with the Sclerotium Blight, in which the whole plant usually shows distress at once in many places, but it spreads faster and usually kills the plant quicker than does the Sclerotium.

"No remedy is known.

"You can watch the plants to decide which of the diseases you have and may act accordingly. Unfortunately there has been no cure worked out for these as yet—not in the same way that there has for others."

List of Letters
 Remaining uncalled for in the post office at Deming, New Mexico, for the week ending July 18, 1914:
 Paul Bertram, Domingo Esquivel, Sabino O. Guaderrama, Hugo Mayer, Frank Mendenhall, Alton Powell, Arthur Ryden Merritt, Celso Rubin, Mrs. Nancy Smith, Francisco Thomas, Sotero Valles.
 When calling for these letters all advertised and give date.

Farm Lands Open for Settlement
 Large tract of good valley farm-settlement in Oregon. Over 200,000 acres in all. Good climate, rich soil, and does not require irrigation to raise finest crops of grain, fruit, and garden truck. For large map, full instructions and information, and a plat of several sections of exceptionally good claims, send \$3.40 to John Keefe, Eugene, Oregon; three years a U. S. surveyor and timberman. An opportunity to get a good fertile free homestead near town and market.—adv.

Mrs. J. S. Hilliard of Oklahoma City, Okla., arrived in the city Thursday and is visiting friends.
