LINCOLN COUNTY SVMMER NORMAL.

Many Reasons Why Every Teacher Should Attend the Normal this Summer.

NOTICE OF SUPERINTENDENT.

Advantages of Attending Lincoln County Summer Normal.

The Lincoln County summer normal will be held at Capitan, beginning the first Monday in August and continuing for four consecutive weeks.

Following we enumerate some of the many advantages of attending this normal 1st. Superior Faculty - Prof. D. M. Richards of the Las Cruces A.& M.College has again accepted the position of conductor of the Lincoln County summer normal. All who attended the normal at White Oaks last year can testify to his superior ability as an instructor and to his tact and skill in disposing of and answer ing the questions that come up before such a body. He is gentlemanly, kind, and courteous and his enthusiasm and long experience in school work are of untold advantage to the teachers for they cannot help but catch the spirit of enthusiasm and plying for first grade certificates will be gain many helpful ideas from his practical suggestions.

County Superintendent E. I. Coe is a young energetic worker in the ranks and will lend every assistance to make the normal a success.

Second: Double Course of Study Be sides the regular normal course of study that is prepared by the Territorial Board of Education there will be a higher normal course by the aid of the teachers in attendance, giving considerable time to the study of methods, management, discipline and other subjects of equal importance to the successful teacher.

Teachers who are not preparing to take the examination and those who can spare the time from their regular studies will here find a great advantage over the single course as followed by most normals.

The younger teachers will learn much from the instructions, suggestion, and experience of the older ones, while all will find their minds all the brighter and their enthusiasm all the greater for having come in close contact one with another

Third: Length of Term-Every one can readily see the advantage of a four weeks' term over a shorter one. It takes considerable time to organize and get to named settler has filed notice of his intenpractical work and thus about the time the organization is completed and the teachers claim, and that said proof will be made become interested in their work a short before the United States Commissioner at term normal closes, having accomplished Lincoln, New Mexico, on August 15, 1903. but little real good. But where the term viz: Leo Oswald, Homestead Application is as long as four weeks, the time is sufficient to do much more real work and much | n 2 me 4. many teachers who live in a lower altitude for cash. Make inquiry at this office, and who wish to recuperate and strengthen

their physique or escape the scorching MARRIAGE TO UNITE POWERS rays of a summer's sun, we offer a climate unexcelled in the South West. Capitan is beautifully sifuated at the foot of the Capitan Mountains and has an altitude of over 6,500 feet. The warmest summer days are not too warm to comfortably study.

Sixth: Accessibility - Capitan is in easy reach of all teachers in the county and those in adjoining counties it being reached by the El Paso & Northeastern and has stage line connections with Ros well. Lincoln and other adjacent places.

Seventh: Accommodations-Last, but not least in the minds of the teachers.

Rooms have been offered free of rent to the teachers while attending the normal.

In this way several teachers can join together and do light house-keeping and reduce their board bill considerably. Water will also be turnished free. The two hotels have offered most liberal terms on board or rooms.

> W. E. Dudley, Chairman Normal Committee,

Cilencoe N. M., June 20, 1903. Editor Eagle—I beg to annouce through the medium of your paper that our next Normal Institute, held at Capitan, N. M., applicants for second grade certificates will be required to be examined in arithmetic, geography, orthography, reading, grammar, history, physiology, elementary, pedagogy and penmanship. Those apcivil government, elementary algebra, advanced pedagogy and elements of zoology and botany. Applicants for third grade certificates will be examined in the same subjects as those for second grades.

held at Capitan, beginning on Monday, August 3rd, 1003, and to be in session four weeks. The regular examination of teachers takes place on Friday, August 28th.

As heretofore, teachers are required to attend the County Institute at least two weeks but as little beneficial work can be done in such a limited term, it has been decided that we have two weeks longer session than usual, and it is to be hoped that all teachers will attend the full time.

Rumor Says Princess Margarett of Connaught Will Wed the Czar's Brother.

London, July 22. Once more a rumor has been cropped up as to the Connaught, and in St. Petersburg it is said that she is destined to become the consort of the czarevitch. According to the gossips, the matter was talked over by Oueen Alexandra and her sister, the dowager empress Dagmar (mother of the czarevitch), when they met at Copenhagen on the occasion of the family gathering in honor of King Christian's birthday, and it is also stated that the announcement of the betrothal will be made during King Edward's visit

The czarevitch and Princess Margarett of Connaught met when he was in England for the late queen's diamond jubilee, and he was said at the time to have been much charmed by her.

If, indeed, Princess Margarett is destined to become the wife of the czarevitch, it is by no means improbable that she may some day share the imperial throne of Russia, for, as the czar has no son, his brother is his heir.

The Game Law.

Consolidation Discontinuance.

After this issue of the White Oaks Eagle the paper will be consolidated with the Capitan Progress and the publication continued at Capitan under the name of the Capitan News. This change is made purely for business reasons. The Eagle Printing Co. has acquired both papers and business conditions do not warrant the continued publication of both papers in the county; hence the consolidation of the two plants. Capitan has been selected because of its advantages as a central location for a county paper.

The proprietors of the Eagle Printing Co. are under obligations to the business men and to the good people of White Oaks for favors and kindnesses shown the Eagle very dear, Perosi, as in the future he will and for a patronage which has been extended in accordance with conditions believe he will be our successor." He has governing their prosperity or adversity, as been known many years as one of the greathas been experienced in the life of the est preachers of the church.

In quitting White Oaks as the base of our operations, we do not intend to quit laboring for her interests and future welfare, but will continue the same and endeavor to aid her every enterprise, as we shall every other community in Lincoln county. We shall take a special pride in contributing, when in our power to do so. to the town's well being and to the welfare of all her inhabitants.

the support that has been given us during piazza. the half a decade we have published the Eagle in White Oaks, and if we have accomplished any good for the community we hope, at least, that we have we have been amply compensated by the hearty cooperation, friendly aid and good will of the best citizenship of the community. The good will and whatever share of the patronage we merit we hope to retain, and shall strive to show a just appreciation.

All unexpired subscriptions to the Eagle will be turned over fo the Capitan News, which paper will be regularly forwarded to the Eagle's subscribers.

The Chapman-Ludlam Oil Well.

E. G. Ludlam returned Tuesday from the east, where he has been for some time looking after the affairs of the company, While in St. Louis he ordered a quantity of 5-inch casing, which will be used in reducing the present hole, and some bits and

The well is now down something like 500 feet, and as soon as the new tools and casing arrive, the operators will begin their downward stroke for China. Messrs. Chapman and Ludlam are showing their faith by their works, and should they be fortunate enough to strike oil, and the indications are favorable, it will be one of the greatest boons Lincoln county ever experienced.

For the sake of their presistency, unremitting toil and faith in the final results, Arr. and for the benefits to accrue to the people of this section, generally, the Eagle earnestly hopes that success may crown their efforts. John D. Brotherton, the old reliable well man, will continue to conduct the drilling operations.

Has the very best of accommodations to be found in this section of New Mexico. .
