ANOTHER RAILROAD FOR TUCUMCARI

Santa Fe Will Build Road Into Tucumcari From Texico, Connecting Us With Other Towns

IT LOOKS LIKE GO THIS TIME

Dawson May Build Into Trinidad, and Then We Will Be Connected In All Directions

It is the opinion of the local business men, and especially of E. E. Stewart, that the "go" is on for the Santa Fe road into Tucumcari from Texico, and will connect us with other towns in the direction of Dawson.

Now this is no pipe dream, but a reality, and the fact has been established by the fact that the Santa Fe road will be built into Tucumcari, and then we will be connected in all directions.

SUMMER COURSE

The enrollment for Mr. Henderson's Summer Commercial course will be much larger than was at first expected, and Miss Edith R. Keyes has been engaged to assist in teaching Business English and Spelling. Mr. Keyes will be in a student in the class as usual.

The commencement last week at the high school was a very successful one, and the students from various parts of the county were present in large numbers.

The students will be glad to see the new books that have been ordered for the coming year.

By this means the students will not only be given an insight into the way business is being done by private firms, banks and corporations, but they will also be taught how the business of our town and county is being conducted.

Any good business man should know enough about the typewriter and letter writing to carry on the correspondence of his firm, and any stenographer should know enough of bookkeeping and business practice to act as a competent business woman. This will be kept in mind.

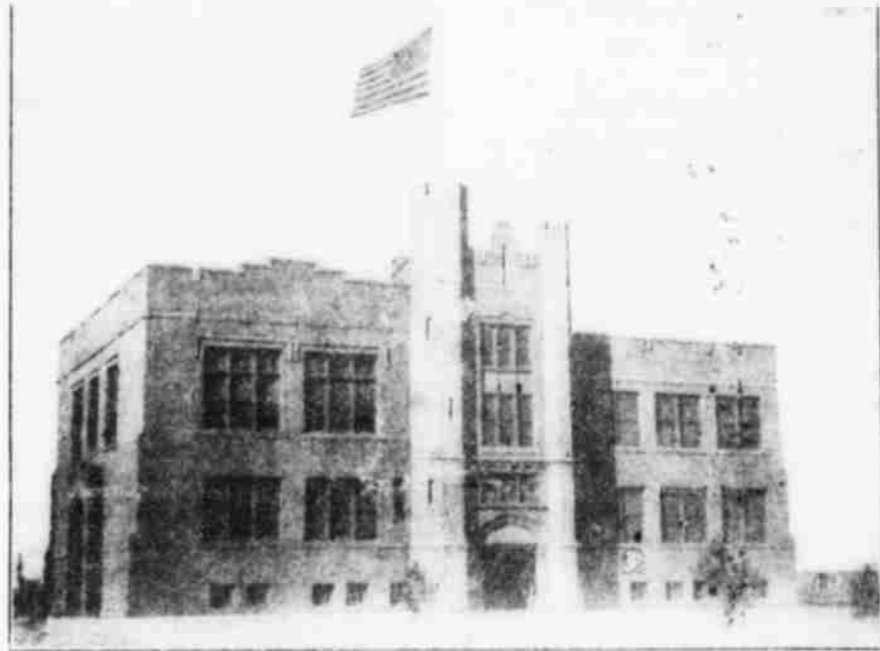

FRESHMAN CLASS

The School Year Which Closed Today Has Been An Unqualified Success. The Teachers and Scholars Worked Faithfully

LARGE CROWDS ATTEND EXERCISES

Baccalaureate Services Sunday Morning at Baptist Church Eighth Grade Monday Evening. Commencement Play at Opera House Wednesday. Oratorical Contest Thursday and Graduating Exercises Friday Ends Year's Work

The third year of the existence of this school has just closed. We who have passed through its portals may not have had the same success as those who have just entered, but we have had a most successful year. The school year which closed today has been an unqualified success. The teachers and scholars worked faithfully.

HIGH SCHOOL BUILDING

This year is indeed a record one. In the month of May, we have had a most successful year. The school year which closed today has been an unqualified success.

Though we have had a most successful year, we have not had the same success as those who have just entered, but we have had a most successful year.

TRUE HEROISM

The true heroism recently displayed as the Titanic went down has a tendency to elevate man. It has always been so regarded the gentlemen stand back for the ladies, where there was a preference, but never has it been shown quite so plainly, so universally as in the recent disaster.

That noble woman, Mrs. Strauss, who faced death rather than leave her husband to perish alone, exemplified that part of her marriage vow, "until death do us part," that is she who describes a large element in perpetual courage the honorable memory of such a noble woman. In spite of age, it seems to me, to save her husband could have been placed in a boat to float away.

The President's Aid, Archibald Butt, displayed a most typical character by so bravely wrapping his only friend in a blanket and sealing his coat tightly to a life-belt and with a swim cap tipped over his head and his feet spread sending a cheerful message to his friends, while he stood firm to face with his boat.

We have brave warriors, brave of heart and brave of tongue, but none are more so than those who passed muster only singing that good old song, "Swear to My God to Thee," accompanied by the Titanic band, when all were well, bowed up to an icy grave.

That day should be set aside for the same commemoration, business houses closing and appropriate services held in every land as long as time shall be, commending said services with "Swear to My God to Thee."

Senator A. B. Fall is at the bar in Washington and is liable to "lose a home run" most any time. He is ever alert to the interests of the people he represents and has now introduced a bill to amend section thirteen of the Act of June 20th 1910, being "An Act to enable the people of New Mexico to form a State Government" and so forth and providing for two in each of the individual districts in New Mexico. This bill is introduced and is now in the office.

The person who stands on the street corner looking around for something to gossip about or to find fault with, not always find what he is looking for. He would a life he lives. His soul shivers and widens until it is shown in its proper and true. For such a person life has lost its savor. It becomes a mere mechanical whirling. He passes through life in a daze and sees no good in anything.

THE BEST SERVICE AT FAIR RATES

The most valuable telephone service is the service that makes communication possible with the greatest number of people. That is the significance of the term universal service. The great Bell System approaches very nearly this ideal condition. If you have a Bell Telephone, you are connected with a system that serves twenty million people. Isn't that worth while?

And isn't it some satisfaction to know that the rates you are paying are only sufficient to cover operating expenses, and pay a fair rate of interest on the investment? No bonds on which to pay interest; no water in the stock; in fact, and here's the big thing that commends The Mountain States Telephone and Telegraph Company, for every dollar of capital stock issued, there is \$1.15 invested in plant.

Isn't that eminently fair to the public.

only. His taxes are paid for the usual amount, and he has no other means of support. He is a poor man, and he is a poor man because he is a poor man.

One of the striking things that has been done since the Congress has been to provide for the poor. The government has provided for the poor in many ways, and it has provided for the poor in many ways.

SEEKS TO CUT HOMESTEAD CULTIVATION TO 10 ACRES

Congressman Taylor and Committee Confer With Commissioner On Bill

Washington, April 23.—A session of the house committee on public lands, consisting of Representatives Taylor of California, Mendenhall of Oregon and Price of New Mexico, today with Commissioner Borah of the general land office regarding the bill which seeks to limit the acreage of homesteads to 10 acres.

Representative Taylor's bill provides that the acreage of homesteads shall be limited to 10 acres. This bill is a modification of the act of 1906, which provided for 80 acres. The bill is a modification of the act of 1906, which provided for 80 acres.

As we see it, the present complexity of the law is a hindrance to the development of the public lands. It is a hindrance to the development of the public lands. It is a hindrance to the development of the public lands.

ROOSEVELT'S REQUEST REFUSED BY DELEGATES

They Declare that They Will Vote for Taft in Spite of All His Protests

Boston, Mass., May 2.—The refusal of the Republican delegates at large to accept the Roosevelt nomination today has been a surprise to the delegates of the College convention. Although Roosevelt delegates, his friends, complained the situation arising from the strategy.

The situation is acknowledged by the delegates to be without parallel in the history of the convention.

Although the Republicans of the state elected Roosevelt as their candidate for the nomination by a majority of 100 over 500 Roosevelt on the presidential preference ballot, at the same time they elected by a decisive vote the entire slate of eight delegates at large pledged to the former president. Roosevelt secured 10 delegates in the districts and President Taft secured 100 delegates, so that Taft and Roosevelt each have 18 delegates from the state in the national convention.

A similar situation was created in the Democratic hall, Speaker Champ Clark withdrew as pledged delegates on one ground, and a few votes were cast for Wilson in the presidential preference contest. At the same time delegates at large pledged to Governor Paoli of Massachusetts, were elected to the national convention, though the name of Paoli did not appear on the presidential preference ballot.

Roosevelt followers have condemned this violation of a pledge as a precedent in the history of the party, while the Taft men will do likewise in the same regard.

In his request to the delegates at large, Roosevelt declared in his own name for the will of the people, and that, therefore, the delegates, if elected, elected as pledged delegates should vote for Taft, who had received the presidential preference vote. One by one the delegates, as they were heard from today, protested that under similar conditions would they cast their ballot for Roosevelt than they had been pledged.

Both Roosevelt and Taft supporters announced their intention to vote for Roosevelt.

A sharply different interpretation of the primary act is respectively interpreted by the delegates of the Democratic state committee. Judge Riley said that all district delegates should vote for the candidate of their party who received the presidential preference vote of the state, whatever that pledge might be, and that they were pledged delegates to support the candidate of the state.

NEW MEXICO WANTS HUNTING AND FISHING GROUNDS

Why Not Have a National Hunting and Fishing Ground in the Sunshine State

That the lake which will be created upon the completion of the Elephant Butte dam now under construction in the lower Rio Grande Valley will afford one of the most beautiful and attractive summer resorts and fishing grounds in America, is shown by the following statement recently made by Mr. C. J. Blanchard, Chief Statistician for the United States Government.

The Elephant Butte dam will be 265 feet high, 140 feet on top and 400,000 cubic yards of material will be used in its construction. The dam will create the largest artificial body of water in the world—a total of 2,000,000 acre feet of storage water. The water will form a lake more than 40 miles long and 80 feet deep.

In the summer time the Elephant Butte lake will make a most beautiful summer resort. The lake will be stocked by the government with bass and other fish. The lake will be the largest body of water between Mexico and the Great Salt Lake and between the Rocky Mountains and the Pacific Ocean. The area will have many bays and inlets and will afford camping places for all the people who wish to take advantage of them.

The wild duck and geese are sure to find their way to this lake and the wild animals which will take up their abode along its banks, and which can be placed there by the state game warden and the government, will make all the country immediately surrounding the greatest hunting ground in the West.

The United States government maintains a National Game Preserve in Yellowstone Park. There are, however, no hunting privileges in the Yellowstone fishing being the only sport allowed. If the government could be induced to create a NATIONAL HUNTING GROUND in the Elephant Butte Lake district, the benefit to New Mexico would be greater than anything yet undertaken by Uncle Sam for the betterment and advancement of the South west.

Thousands upon thousands of people who journey to the Rocky Mountain Summer Resorts and to the Pacific coast would direct their journeys to New Mexico and to a climate which cannot be equaled in any other part of the world. This would bring into the state annually many thousands of dollars now being spent in other West coast resorts; it would create a permanent advertisement the magnitude of which can hardly be grasped.

New Mexico is now a sovereign state with all the rights of any other state in the Union. We have efficient representation in congress—men who have ambitions to do things worthwhile—and now is the time to take advantage of every opportunity to make New Mexico a great state, known to the world for its superior advantages as a place for investment, pleasure and health. The plan outlined above is not beyond our reach and no time should be lost in bringing every pressure to bear upon the National Congress to create this National Hunting Ground in the Sunshine State.

DELEGATES WILL SEEK TO LAND NEXT CONVENTION

At a meeting of the local organization of the Retailers' Association here the following members were named to attend the state meeting at Albuquerque next week. They are instructed to secure next year's meeting for Tucumcari. T. A. Mendenhall, Charles Mendenhall, George Egan. The alternatives are Stanley Lawson, Donald Stewart and Henry Wolford. Entry into the state association was made at this place, and for this reason, if none other, it is thought that the next annual meeting should come here. Tucumcari is amply able to take care of the crowd and it is a sure thing the guests would be properly cared for. Mr. St. man is getting the organization into the working condition.

TITANIC MAIL CLERKS ARE HONORED

Congress Appropriates Two Thousand Each to the Relatives of the Dead—Mail Clerks

Washington, D. C., May 2.—The house today passed the postoffice appropriation bill, carrying the amendment giving \$2000 to the nearest relative of each of the three American sea post mail clerks who were lost on the Titanic.

The marine committee of the house favorably reported the Alexander bill which provides that all American vessels must be provided with life boats sufficient to care for all human life on board.

SHOES! SHOES!! SHOES!!!

Our Final Annual Douglas Shoe Slaughter is on. Beginning tomorrow, Dollar Day, which is Friday, we propose to break all previous records on the W. L. Douglas Ox-fords.

Our regular One Dollar reduction off the stamped price of each shoe holds good during this final cleanup, being one of the greatest inducements ever offered in Foot Wear in Tucumcari. And going over a little further. We propose to move some of these goods at a greater sacrifice still.

Your interest demands an investigation.
