State Page! News from Other Cities

Trouble Automobile Is Incriminated

Las Vegas, Oct. 24.—Word was received here yesterday that a large automobile belonging to a tourist was burned about twenty miles south of the city. No details of the fire were received but it was said that it was caused by a short circuit in some of the ignition wires. The tourist continued on their journey by train.

School of Mines at Socorro Is Now Well Attended

The school of mines at Socorro is crowded to capacity, according to E. N. Hubert, assistant state engineer. Many devoted soldiers are attending, taking a short course in engineering. It has become necessary to convert the upper story of the Mill building into a dormitory. A number of knock-down buildings have been brought in from the Kelley Mining Camp to provide accommodations. C. T. Brown, a resident arranged for this.

Wells Lemon Extract For House; Flood.

Albuquerque, Oct. 24.—Pietro Zito, who runs a grocery store on South First street, recently pleaded guilty to an indictment charging him with selling lemon extract containing over 75 per cent alcohol in the Indiana. Zito was tried in the federal court and was fined \$500 and sentenced to serve 90 days in the Bernalillo county jail. Upon the payment of the fine the jail sentence was deferred until Jan. 1.

Reckless Driving Gets A Jail Sentence.

Albuquerque, N.M., Oct. 24.—F. R. Kinn, who operates a baggage truck in this city was arraigned in the court of Justice McClellan yesterday morning and given a sentence of 30 days in jail for speeding on the city streets. The severity of the sentence was due to the fact that it was his third offense. Justice McClellan says he will break up the reckless driving if he has to send all the offenders to jail.

Rain Increases Hunting Facilities.

Albu., Oct. 24.—The chamber of commerce of this city has been putting on a big membership drive and although the work is not completed, it is now an assured fact that the organization will have a large membership when the drive is over. A big meeting was held October 15 at which time directors and officers were elected to carry on the work for the coming year. Nearly all the business men of the city have joined the new organization and it is said that it is one of the liveliest chambers of commerce in the state.

Las Vegas to Have A Building Ordinance.

Las Vegas, Oct. 24.—The building committee of the city council held a meeting last night at which time it was decided to pass an ordinance compelling every person to get a permit from the committee before being allowed to erect any kind of building in the city limits. If the ordinance is passed the committee will look over the plans and specifications of all new buildings and will not allow any house or business block to be erected which will not be a credit to the city. The matter will be taken up at the next meeting of the council.

Money Entrants in Phoenix-El Paso Race.

Silver City, Oct. 24.—This city will have at least two cars in the Phoenix-El Paso auto race which will be held November 2. Frank Bennett will pilot a Marmon in the big classic and Pal Phillips will drive a Buick. It is also rumored that there possibly will be another entrant before the race is started. So far there are over 20 entrants in the big classic which is creating much interest all over the southwest. The \$10,000 prize is to be divided three ways, \$7,000 to the winner, \$2,000 second and \$1,000 third. There will also be several special prizes from the treasury companies.

Texas Boys Land In New Mexico.

Tector, Oct. 24.—Although the Cattle Trails convention has been over only a few days, one result has already been shown. J. E. Hawkins of Joplin, Mo. was one of the visitors at the convention and was so much impressed with the country in the Pecos valley that last week he returned and purchased the Brewer farm four

miles north of here. This is one of the finest farms in the valley and the cash consideration is said to be \$20,000. Mr. Hawkins will move here with his family at once and thinks in the near future several of his friends from Missouri will also secure farms in this section of the state.

\$1,500 Reward Offered For Barn Burners.

Albuquerque, Oct. 24.—The reward for the arrest of the person or persons who set fire to the barn belonging to J. R. Shuffelbarger was last night raised to \$1,500 when the Central Labor union added \$500 to the \$1,000 already offered by the Business Men's association. The barn was burned some time ago and 111 horses were lost. It is thought that the fire was of incendiary origin. Mr. Shuffelbarger stated yesterday that it was impossible for the fire to start by spontaneous combustion and that the building was set on fire. He also pointed out the fact that before he left the barn for the night he locked the door and after the fire he found the door had been opened. Although the officials are working on the case, no clue has been found.

Las Vegas Boys Break Postal Box

Las Vegas, Oct. 24.—Fred Frank age 11, Gustave Romero age 12, Alejandro Romero age 11, and Ralph Clark, age 14, were arrested yesterday morning by Chief of Police Murphy and arraigned before Justice Stewart charged with stealing four boxes of cigars from the postoffice box of the Las Vegas News company. The boys pleaded guilty in the charge and were fined \$5 each and were then sent to the city jail, where they were held until their parents called for them. According to the story of the boys they broke the box open about 10 o'clock last Sunday night and after getting the cigars, smoked part of them and distributed the rest of them among their friends.

Scarcity of Quail In San Miguel County.

Las Vegas, Oct. 24.—According to the reports of Game Warden Tamme there is a great scarcity of quail in this section of the state and unless something is done in the near future to replenish the supply they will be extinct in a short time. There is still an open season on these game birds and several of the local sportsmen think that there should be a closed season for two or three years in order to give them a chance to recuperate. Other sportsmen think part of the state could do much to relieve the present situation by raising the birds on their ranches during the closed season.

Las Vegas Auto Hits Street Car.

East Las Vegas, Oct. 24.—Dr. W. B. Tipton, superintendent of the state insane asylum, after having just purchased a new Paige car, decided that it should be initiated in the right way and proceeded to drive it home. While driving around the corner of the plaza he ran into a street car and the two cars became mixed up so that it took some little time to get them apart. Luckily little damage was done to either the auto or the street car, except a broken fender on the new Paige.

Thought Husband Dead; Had Married Another Man.

Albuquerque, Oct. 24.—Mrs. Anita Anaya, who was arrested in Las Vegas some time ago on a charge of bigamy, was brought in this city and arraigned before Justice McClellan. After hearing the evidence in the case she was held in wait action of the grand jury. The woman said that her husband went to war and as she did not hear from him she thought he was dead. She admitted later in the court that she had heard from reliable sources that he was alive and well.

Autoist Who Killed Girl Is Arrested.

Albuquerque, Oct. 24.—Ralph A. Gibson who it is alleged was the driver of the car which struck Edith Bushring some time ago causing her death, was charged with involuntary manslaughter yesterday in the court of Justice of the Peace, McClellan. Gibson waived the right of preliminary examination and was held to await the action of the grand jury under a bond of \$1,000. It is believed that the accident was an unfortunate occurrence and that the driver was

in no way to blame. According to reports a request had been sent by the father of the girl to the justice asking that Gibson be freed and not prosecuted.

Bozell Faces A Shortage Of Houses.

Bozwell, Oct. 24.—There is much discussion here regarding shortage of houses for the many people who are coming to the city and many of the business men think that the city is greatly in need of a modern apartment house. The chamber of commerce receives letters almost daily from customers who wish to spend their vacation here and it is obliged to tell them that there are no houses to rent in the city. The question has come to the point where the city must build houses and apartments or else stand still and stop growing. It is thought that a meeting will be held in the near future to settle the question and to see if something cannot be done to relieve the present situation.

Teachers' Association To Meet Next Month.

Silver City, Oct. 24.—The regular meeting of the New Mexico Educational association will be held in Albuquerque during the week of Thanksgiving and according to the report of Miss Isabel L. Eekles, the president, there will be a record attendance. A special one and one-third fare will be granted for the occasion and Grant county will be represented by the entire normal faculty, many city teachers and several of the county teachers. As the meeting last year was postponed on account of the "flu" it is expected that the meeting this year will be an important one.

Five Thousand Acres Sold In Curry County.

Glovis, Oct. 24.—One of the greatest weeks in the history of land transfers in Curry county has just closed with the prices of lands soaring higher every day and plenty of takers for the property. The total transfers shown in the week's summary shows that over 5,000 acres have been sold and the price averaging \$50 per acre. Nearly all the land which has been sold is within ten or twelve miles of the city which means much to the city itself.

Chaves County Teachers Hold Convention.

Bozwell, Oct. 24.—Chaves county Teachers' association is meeting here. Some of the most prominent educators in the state are present as well as several from outside the state. The sessions opened today will continue until Saturday noon. A big dinner will be served for all those who attended on Friday evening and a most interesting program has been arranged for the occasion.

Log Cabin Company Now Developing.

Santa Rita.—The log cabin mining company formerly known as the China Extension, is proceeding rapidly with development of its property. The China Copper Co. owns property adjoining the Log Cabin property on three sides. The Log Cabin Mining Company is now taking out some rich copper, lead and silver ore. The silver ore runs 25.00 ounces per ton. The ore also carries values of 36.87 per cent copper and 70.49 per cent lead.

Honey Raising In Mesilla Valley.

One of the big industries of Mesilla Valley is honey raising; 30,000 pound car shipped.

\$90,000 Worth Of Trucks Shipped.

Albuquerque stores \$90,000 worth of trucks for use in constructive road work in district.

24,000 Acres of Land Leased.

Wyoming stockmen lease 24,000 acres grazing land in Sandwood and Santa Fe counties.

Detroit Oil Basin In Dona Ana County Attracts Attention.

Good roads bureau completes project in Tlaxera canyon. Machinery to drill 4000 ft. test well on way to Ora Grande.

Republic Mine at Silver City Ships 200 tons zinc sulphide ore a month.

Dona Ana farmers advance \$20,000 to prevent removal of dredges to Arizona.

Silver Monument mine at Chisole taking out ore, mill about ready to operate.

NEW MEXICO WEEKLY INDUSTRIAL REVIEW

Houston to get a depot.

Farmers of Fort Sumner are planning erection of a \$40,000 hydro-electric plant.

Miller
GEARED TO THE ROAD
UNIFORM MILEAGE
Tires

"I am penalized if ever one comes back"

Drive Up or Call Up

We're Always at Your Service

We are making good in our business by making good with the motorists. Good tires, quick service and moderate charges, form the combination that is winning us bigger trade each week.

By good tires we mean Miller Tires—famed for uniform mileage. Uniform Millers mean no "second bests." That is because they are built by a system of uniform workmanship—by training all Miller Tire makers to a single standard.

Why trust to luck in buying tires when Miller offers you mileage certainty?

One point more—the quick, obliging service that we are rendering is something that, once tried, men always come back.

Give us a chance to earn your patronage and you'll like to trade here.

REARDON BROS. GARAGE

GEARED TO THE ROAD

Happenings in Columbus Worth While

The game season opened Monday. Dr. Ficht was in El Paso Sunday.

The Columbus school has a new superintendent. It was Principal Coffin, now it is Superintendent Giffin.

Jay O'Leary is the Columbus representative of the Eagle Oil Co. No news is good news—that is the situation in regard to the Valley Oil well this week.

Zeno Johnson has a 600 leather cartridge belt full of shells. The game season is on. Grady W. Spencer, erstwhile superintendent of the public school has gone to Montana.

Take a look at the movie ads in the Courier. Big things at both houses the rest of this week and next. A Buick touring car ran off "the grade" into the arroyo Monday. No one hurt and slight damage to the car.

Here's a job for a seamstress. The U. S. government wants one at Camp Furlong. See the classified ad column.

Captain J. A. Wagner, district quartermaster, returned to El Paso Monday after an inspection at Camp Furlong. There is a surprise coming soon in regard to mines and mining in the Tres Hermanas mountains, ten miles from Columbus.

The Rev. Mr. Wachob of the Lutheran denomination at Fort Hayard will hold services at the Y. M. C. A. on Nov. 2 at 2 p. m. The Village Trustees have purchased a wheel street sprinkler at a bargain from Deming. Now they need a truck or team to propel it.

Mr. and Mrs. Alex and children have returned to their home in Cloverdale, N. M., after an extended visit with Mrs. Alex's parents in Columbus.

Henry Burton of the Columbus Telephone company announces that he will surprise the subscribers in the near future with a new telephone directory. Mrs. Susan Moore, formerly of Columbus, who had a very serious accident some time ago in El Paso is able to be about again after several weeks in the hospital.

South Columbus as a suburb looks large. Bailey & Hulsey are selling lots every day. Even the editor of the Courier purchases two lots. Editors, as a rule, are broke or nearly so. Being in the latter class we purchased to increase our nucleus of a tank roll.

A. D. Frost, the furniture man has decided to take a partner in his business owing to the general prosperity of Columbus and the ever increasing population. It closed the deal Wednesday night Mother and boy doing very nicely and the boy weighs ten pounds at the scales. Cigars are in order along Broadway.

An impromptu pound social was held at the M. E. Church last Friday evening for the benefit of the Rev. and Mrs. Barton. It was a short and sweet affair—eventual predominating. Mrs. Barton responded in behalf of her husband and herself. General satisfaction resulted, all feeling the spirit of the occasion, both the recipient and the donors.

The Columbus Oil Filling station owned by Evans & Tracy will be ready for business as soon as the large 12,000 gallon tank is placed in position. It was purchased in Fort Wayne, Indiana, for \$300 and the freight here was \$50.00. When the proprietors saw the freight bill there was an explosion other than gasoline. The explosives used by the Hot. Tracy exploded like a bunch of 25 a. 4 times exploding.

Last week's issue of the Courier contained a "personal" ad in the classified ad column from a grief-stricken lady in Nebraska wanting address of a brother and father-in-law on account of the death of

a soldier-brother. Sunday, C. A. Lovell of Columbus saw the ad and called at the Courier office and gave the address wanted, and the Courier immediately notified the lady in question, Mrs. Bert Greenwood, Alaska, Neb. Only another argument showing the worth of the classified ad column. Some line as they did grief-stricken, likewise the the love-lorn, but most times they are a big help to the buyers and sellers of the needed articles that do not warrant large display advertising.

Monday afternoon, Oct. 30, at 3 o'clock, Lieutenant Harry Ayers of the Quartermaster's Corps and Miss Jane Hall of Jackson, Miss, were married at the home of the "backstreet" on North First street south, where Miss Hall has made her home since coming to Columbus. Lieutenant and Mrs. Ayers left immediately after the ceremony for Camp Dodge, Iowa, where he will be discharged from the service, and after a visit with his sister in Lincoln, Neb., they will go to Alameda, Kans., where they will reside permanently. Both of the young people were well liked in Columbus, and the bride especially received a great deal of sympathy from the camp who will miss her.

The Columbus branch of the American Red Cross met Wednesday afternoon and elected the executive committee for the following year: Those serving are W. C. Franklin, William Klein, J. L. Norwood, J. L. Greenwood, J. H. Cox, W. N. McCurdy, Mendames A. Fredrickson, Laura Ritchie, Arthur Brock, B. E. Busco, John McCullough, J. H. Cox and Bertha Halloway. This committee will meet at 7 o'clock Saturday afternoon at the Red Cross office on North Main street, near the Parlor Drug Store.

Church, the sign painter, is an artist as well. He has just completed the curtain and wings for his new Crescent Vaudeville and Motion Picture house. It is a credit to him as well as the theater. The curtain represents prominent business houses at a period a few years hence. The Courier noticed particularly the four and five story skyscrapers. Church, anyway, has the credit of erecting the first five story building in Columbus.

A Sunday chicken dinner in the mountains, with all the accessories of a camp fire and hot coffee which go into the making of things enjoyable, was the introduction the editor's wife received to the wonderful scenery near Columbus. In the automobile party was Mr. and Mrs. Joe Clark, Mr. and Mrs. Carl Krogger of Camp Furlong, Mr. McCullough, Joe Johnson, and Mrs. Wilson Kilgore.

At Tucuman, the city is now attempting to buy land for a city park. Columbus will be in the same fix some day and it will be expensive. Now is the time to lay out a park and in a few years it could be a bloom with shrubbery and trees.

Public utilities play a very important part in community development and unless they are allowed rates sufficient to make a profit they can not keep up their properties nor extend service to meet growth of communities.

Due to depressed conditions of the western metal mines since the armistice was signed, we have all had a good chance to see how much prosperity of this section depends on mines. Conditions which curtail production affect all of us.

Mrs. Garland Black, wife of Lieutenant Black, formerly of the 12th Cavalry but now in the signal corps, came here the past week visiting her parents, Colonel and Mrs. Begler of Camp Furlong.

R. M. Reed of Silver City, spent a tough day in town last week. His young son, Raymond, has had an operation for adenoids, but is improving rapidly.

Let us all start a club for a city park. One individual's effort is small, but with a united appeal Columbus would have a park in a short time. A. G. Weid and Mr. Hampton left for El Paso Sunday. Mr. Weid drove back a new Republican. Mr. Weid now has the Columbus agency for the "Hop."

G. R. Rogers registered at the Grand Hotel at Albuquerque this week.

A. D. Frost is going away again this week and he is not in the cigar business, either.

The Carpenters' Union meets every Wednesday night in the Masonic Hall, west of the arroyo. George Rowitt is the popular president of the organization whose membership is constantly growing.

This has been a busy week for the stock in Columbus, so was last week, but the happy parents were too busy to inform the Courier. The first addition to the 24th Infantry is John Edward James Williams, son of Captain John C. Williams and his estimable wife, Mrs. Williams was attended by Major Deane of Camp Furlong. Both mother and son are doing "just splendid." Congratulations are in order.

Saturday an unknown Mexican secured employment as a section hand under Foreman McCullough of the El Paso & Southwestern. Yesterday was his first day at work and his horoscope was wrong because he fell off the hand-car going to work and received many bruises and a broken collar bone. Dr. W. O. Ficht attended him and then took him to El Paso and placed him in a hospital there.

It will be of interest to the many friends of Mrs. Garnet Parks, whose husband was at one time editor of the Courier, to know how pleasantly situated she and her family are in Anacortes, Washington, on Puget Sound.

In a letter to Mrs. J. H. Cox she describes the place as an old city well kept and it is nearly surrounded by water. She speaks of the reasonable cost of living. For the small sum of \$15 she has a stucco cottage, nicely furnished, a lawn with beautiful roses and all kinds of shrubbery. She also has a good garden with even berries. Quoting her: "You could not drive me away from here with a club," expresses a good deal.

The Army paper, The 12th Cavalry Standard, of Camp Furlong and Columbus is now being published every week. The Courier wishes to attract the attention of the merchants of Columbus to the advertising value of the Standard. It now has an honest circulation of 1000 which means 5,000, as every soldier in Camp Furlong reads every line of it every week. It is a soldier's paper, especially and extremely interesting to each one of them for the incidents of camp life are written by the soldiers themselves and in turn ably edited by Captain Simmons. An ad in its columns, ordered by any merchant in Columbus, is not the act of a "good fellow" wanting to help the paper along. It is a wise act and shows business sense.

V. L. PIEPMER GETS BRIDGE CONTRACT OVER ARROYO Regular Weekly Meeting of the Village Trustees, Oct. 21, 1919.

The Board of Trustees met in regular session, Mayor J. H. Blair being absent and Trustees Fredrickson, Evans, Tracy and Klein being present.

Motion by Evans and seconded by Fredrickson that W. Klein act as mayor pro tem. Motion carried. The minutes of October 14 were read and approved. The minutes of October 15 were read and approved. The following bills were presented: The Columbus Courier, publishing proceedings, \$7.50 The Village of Deming, street sprinkler, 100.00

Motion by Tracy seconded by Evans that above bills be allowed and warrants issued for the same. A. Fredrickson Yes A. Evans Yes H. O. Tracy Yes

Lee Thomas' application for building permit was read. Viola Clark's application for building permit was read. Motion by Evans and seconded by Tracy that A. Fredrickson and Wm. Klein be appointed a committee to approve above applications. Motion carried. Ordinance No. 54 was read for the second time. Motion by Tracy and seconded by Fredrickson that same be passed at second reading. Motion carried. J. H. Cox's sealed bid was opened and read. P. I. Walker's sealed bid was opened and read. V. L. Piepmer's sealed bid was opened and read. Motion by Evans seconded by Fredrickson that the report and plans of Bridge Committee be approved and committee be dis-

charged. Motion carried. Motion by Evans and seconded by Fredrickson that V. L. Piepmer's bid for building an eight foot bridge for \$1,000 be accepted providing the estimate raised \$500 or over and also that V. L. Piepmer be required to give a \$500 bond. A. Fredrickson Yes A. J. Evans Yes H. O. Tracy Yes Motion by Tracy and seconded by Evans that a committee be appointed to attend to drawing an estimate and attend to all business in regard to proposed bridge. Motion carried. Fredrickson and Tracy were appointed a committee to transact all business connected with the building of proposed bridge on First South Street.

The clerk was instructed to notify J. J. Clark to put in a check valve on the Miller line at once. No further business the Trustees adjourned. Edwin G. Dean, Clerk.

SETTLING AT BEST MANY UNFOUNDED RUMORS H. Blanchard, Proprietor

Settling at rest many unfounded rumors and starting a new one the Courier now is informed that the War Camp Community Service will not disband November 1, but will continue to active service until February 1, 1920. There have been many rumors afloat in Columbus and throughout the country that the Red Cross was going to be disbanded as far as active participation in army camps was concerned. Saturday Acting Field Director Cortright received the following telegram which should place a quietus upon such rumors. Denver, Colo., Oct. 16, 1919. L. L. Cortright, Acting Field Director, Red Cross, Columbus, N. M. Rumor that Red Cross will cease to function Nov. 1 untrue. Red Cross will continue to function. W. L. Kennedy, Acting Director. Messrs. Cortright and Stetels are giving wide publicity to above telegram and condemn the rumors as malicious and ridiculous.

The Whole Family Likes The LEONARD Hi-Oven Range

What's the Most Important Spot in YOUR Home?
Isn't it the kitchen, where Mother spends more of her time than in any other room—the room for which the youngsters make a rush when they come from school—the room where Father goes to look for the rest of the family when he comes home from work? The kitchen deserves to be the coolest, cheeriest, most convenient room in the house. You'll find it so in most well-planned homes where the Leonard Hi-Oven has found a place—for it's the range, after all, that makes the kitchen "the heart of the home."

Here Are the Things You'll Like About the Leonard
The oven is just the right height for convenience—no back-breaking stooping, as with the ordinary low-oven range. It's the range that takes the "Aks" out of baking. Consumes less fuel and saves time. The oven begins to heat the moment the fire is lighted—no wasted heat up the chimney while the fire is getting started. The oven heats evenly on four sides—no need to turn the baking and so, necessarily for opening the oven door until the baking is done. Eliminates baking failures. Occupies less space than a low-oven range—a decided advantage in a small kitchen. Heater type body keeps the kitchen cozy, and a room or two besides. Holds fire over night.

Before You Buy ANY Range, See the Leonard Hi-Oven
We'll take pleasure in telling you more about it. We want you to see its sturdy construction and handsome finish, and to compare its pointed with other types of ranges. You'll be quick to appreciate its advantages, because it recognizes the conveniences you've always had to contend with in the low-oven range. Get the Leonard Hi-Oven Best. You'll be delighted with its construction and service—particularly so when you find it costs no more than any other high grade range.

Carroll & Norwood
"There are nine of 'em of Leonard Ranges—one of them will just suit you"

News and Gossip of Camp Furlong

WRITTEN AND COMPILED BY SOLDIER CORRESPONDENTS FOR THE 12TH CAVALRY "STANDARD"

GENERAL AND PERSONAL

Squadron Sergeant Major Harry L. Hartley has returned from the base hospital at Fort Bliss, where he was undergoing treatment for his eyes.

Corporal Johnny Roach is stealing time off from Regimental Headquarters these days. But we should worry as Johnny is getting in trim for the football team, and believe us Johnny is some player.

Colonel George W. Siegler, 12th Cavalry, is on an official business trip at Deming, N. M. The Colonel is president of a board of officers appointed to settle and investigate claims made by civilians of Deming and near by, for damage of private property.

The Courier now a days looks like and reads like a regular newspaper. By gosh, we hate to say it, but it used to look like a hand bill for a department store advertisement, but now it is a regular paper. The people of Columbus should be proud of the improvement and do all they can to supply the editor with news. Good luck to you, Mr. Kligen, your improvement is most noticeable.

Lieutenant Thomas, who was transferred to the 12th Cavalry, has been transferred back to the 12th again. Lieutenant Thomas is just as efficient as they make 'em and just when we were beginning to regret his loss, presto, back he comes again. We hope we won't lose him the second time.

Mr. Murphy, our efficient Western Union operator, has returned from his vacation. We can now claim our telegrams at any old time for Mr. Murphy is right on the job. Glad to see you back, Mr. Murphy.

A couple of clerks very nearly broke their necks the other day when an airplane passed over the building. Clerks should be more careful in the future as they are badly needed at Headquarters, and with all the emergency men gone good clerks are very scarce.

Things that will never happen—The Twelfth being moved from the border.

If you don't want to get pinched by the military police, don't come galloping down the Deming road, through camp.

Can any one tell us where Barney Tierney is? We have not seen him around headquarters for quite a spell. Maybe he is making improvements on his farm.

LOST—One perfectly good squadron, number second, station Hachita. What has become of all the boys of the second. News from Hachita we have galore, we don't think. Wake up Hachita and come across with some news. We know you like to read the Standard, but how about something to put in it. We know Hachita is on the map, but please let us know what the gallant second is doing. What is the matter with Sergeant Dunne? Get the boys on the job, Eddie, and tell them to come across with some news.

Lieutenant Colonel C. C. Winnia, Commanding Officer, Camp Shannon, will spend a few days at Culberson's ranch and nearby, on a hunting trip. We wish the Colonel all kinds of luck. N. B.—This news didn't come from any one in Hachita either.

Speaking of personnel, the Sergeant Major of that part of the 12th desires that his clerks be good horsemen. Private Blaker, personnel clerk, can be seen any morning now going around the Bull Ring bounding like a rubber ball.

First Lieutenant J. H. Seranton, 24th Infantry, recently received orders to proceed to Fort Ethan Allen for discharge. Lieutenant Seranton was the Adjutant of the New Mexico 2nd District for quite a long time. He was well thought of not only by the officers and enlisted men of his own regiment, but 12th Cavalry also. The Lieutenant always had a smile for every one, and it was with regret that such a valuable officer had to leave our community, and we of the 12th wish him the best of luck and that success attend his every effort in civilian life.

TROOP & NEWS

Cook Kuzmewsky, better known as the "Tapioca Kid," is still visiting down every night. Are you going to have a military wedding, Tapio?

Private Graham received a severe shock last week when his horse walked out from under him.

For the past week our Second Lieutenant has been continually singing, "I'd rather be outside a looking in, than on the inside looking out."

Lawlor, Franklin & Co. have started in the automobile business. As yet they have only part of one car, but Pap says that it will be fine to shoot "revenue" from. How about it, Pap?

Corporal Eddie says that he is glad that he is re-enlisted. These are cold nights to be on the "Hoie," Corporal.

Chief of Police Thompson has gone into the real estate business. He expects to make Van-Astor-Bill look like thirty cents, when they strike oil in Columbus.

An Englishman once visited America, and on returning to his native land met at the club a very old friend who said, "Oh, I say Harry, I wish that you 'ave been to the States." "Oh, yes, had a very charming time, British know, dinners and all that rot, most hospitable people, only their humor is quite so impossible, the only way that you know they are making a joke is when they laugh at it themselves. Then you must laugh. That is the only way to make friends with the blooming beggars."

For instance, a silly ass will rush up to you and laugh in your face and will say, "Oh, Oh, I say, you've got my sheep." Well you know old top what would I do running around with his silly old sheep. And the bloody idiot will rush upon you saying, "Don't pass any of that warm air around here." Now you know that I wouldn't do anything so rude. Then another blasted rotter will come upon you and laughingly say, "Oh, I say old top, don't pass me any of that cow." Now I ask you Harry, what would I be doing with a cow?

I loathe the beastly Americans, don't even like milk. Won't you have a drink?—Well no, old top, pardon me, but as we say in the States, I'm on the water closet now. What, Ho.

W. V. C.

If water means cost ten cents a slice, how many slices could you get for forty cents? According to our way of figuring, one slice. You pay the other forty cents because—W-e-l-l, perhaps there was a War Tax on melons those days.

If the editor of the Standard gave you a dollar bill (but don't kid yourself that he ever will) and asked for a dollars' worth of change the change to be in fifty pieces, could you give it to him? It can be done.

Mr. Editor: Can't we soldiers have a little corner in the Standard where all soldiers can ask questions concerning the whereabouts of different outfits, also there are hundreds of questions pertaining to the service, that the answer could be found in this corner? It would be something for our little paper and would be appreciated by all.

WANTED—at least 80 big bushes for the Jar head battery. Pulling two and pushing one, then growing three is no doubt the exercise, but who in the name of pinto wants exercise like that. Why we don't talk above a whisper while on these morning rides. If you do those jar heads think that you are conversing on oats, then it is Sherman's ride to the stables, with the jar heads only five miles away.

Some one told Sergeant Notary that he sure screwed a wicked Waterman, and now he is laughing like a squirrel's breakfast.

Bud Gaudin returned from the horsemen's school this week and to hear him talk you would think he was showing women and not horses. As everybody in the troop wants to go to the horse-shoers school.

Speaking of show, according to

circles XYZ, then H. O. Moss Bergants will lead, or are leading Gallery practice, instruction courses, and then crowd. But some of the Moss Bergants are still boys and they would prefer the "22's" than the "20-20's."

When it comes in getting news, or rather furnishing news for the Standard, Sergeant Duce of the Machine Gun Battery leads them all. We do not like to make distinctions and we never show partiality, but it is worthy of note, that the efforts of Sergeant Duce in supplying us with not only very interesting troop news but other items as well, is very greatly appreciated. We thank you Sergeant and hope you will keep up the good work.

Now that Lieutenant Thomas is in command of Troop L, we may be able to get some troop news.

If the squadron foot ball team keeps on it will have the staff practicing foot ball with a view of membership on the team. Up to date we have one Corporal, and the Regimental Orderly Duval, grabbed away from us in the afternoon to play foot ball. We do not worry, however, because we would turn out the whole headquarters itself in order to maintain our standing, which is always first in any thing the Twelfth undertakes.

Personal Neatness and Cleanliness

Cleanliness is next in godliness, spake an old prophet. How true this is in the army, too, as it is one of the great elements that create and hold men up to an efficient standard of duty, pride and thoroughness in their every day work. Neatness in their dress and clean in person will make a man feel that he is a soldier and give him proper pride in his profession. This was demonstrated in France in many cases, restoring the spirit of tired and demoralized troops after a long tour at the front. One could see the changes at once, after troops were demoralized and cleaned up. Then men began to take an interest in life, shaving, polishing and walking out with firm erect steps feeling like two-year-olds once more. This is a wonderful factor in making one take an interest in their work, as it clears the brain and gives a very different viewpoint on life. Show me a clean well dressed soldier and generally he will be one of the bright lads who is taking a pride in his calling and pays attention to his every day duties, and works with cheerfulness and thoroughness in all the duty he is detailed to perform. The British government put gilt buttons on their uniforms so as to make the men polish them, and get away from their continual kicking, and they found it was the proper medicine for disgust, and lice, as it became a habit for them to clean everything and their spirits were cleaned as well as their bodies. Polish up your spurs, boots, and shavin and keep it up. E. S. Sawyer.

LIEUTENANT WINCHESTER WINS AT HORSESHOERS SCHOOL

Yep, it is true, but then again it is no more than we expected, because Lieutenant Winchester is a 12th Cavalry officer and that alone speaks for itself. The Lieutenant proceeded to Fort Bliss having been detailed to attend the horsehoopers school for officers and after a course of about two months took the required written examination and graduated with the average of 95, standing class A. Officers from the 6th, 7th and 8th Cavalry, in fact from all along the border attended, but as usual the representative from the Twelfth took the honor. Congratulations, Lieutenant.

WHOLESALE RESIGNATION OF REGULAR ARMY OFFICERS

Since November 11, 1918, 102 permanent and 1379 provisional army officers have resigned from the regular army.

First Sergeant James Boppel, Headquarters Troop, has requested that he be placed on the retired list. After 20 some odd years of faithful service the Sergeant has decided to retire. He can be seen every day leading the headquarters braves over the jump and leading in equation.

LOVE'S LIMIT.

As recited by Sergeant Harold D. Grimes, Captain, and Dragoon, before Mr. Grimes reaches the stage, Father Mr. Grimes, how's color and left. (Miss explains, please.) I'd swear for her, I'd love for her, The Lord knows what I'd bear for her, I'd die for her, I'd sigh for her, I'd drink the Ohio river dry for her, I'd kiss for her, I'd fuss for her, I'd smash a trolley car for her, I'd weep for her, I'd leap for her, I'd go without sleep for her, I'd fight for her, I'd hate for her, I'd walk the streets all night for her, I'd plead for her, I'd bleed for her, I'd go without food for her, I'd shoot for her, I'd boot for her, A rival who'd come to sue for her, I'd kneel for her, I'd steal for her, Such is the love I feel for her, I'd elude for her, I'd slide for her, I'd swim against the tide for her, I'll try for her, I'll cry for her, But I—me if I'd die for her. —Charles Harton.

COURT-MARTIAL IN SESSION AT COLUMBUS

General court-martial has been in session at Camp Furlong, according to departmental orders. The detail of the court is as follows: Major Alfred L. Rockwood, Twenty-fourth infantry; Captain John B. Baxter, Twenty-fourth infantry; Captain Edmund S. Sawyer, Twelfth Cavalry; Capt. Richard H. Ballard, Twelfth Cavalry; Capt. Henry V. Lyon, Twenty-fourth infantry; Capt. Murray H. Ellis, Twelfth Cavalry; First Lieutenant George W. Booth, Twenty-fourth infantry; First Lieutenant Christopher C. Strawn, Twelfth Cavalry; Second Lieutenant Dwight I. Francis, Twenty-fourth infantry; First Lieutenant William B. White, Twenty-fourth infantry; Judge advocate; Capt. Dudley B. Howard, Twenty-fourth infantry, defense counsel.

Ford THE UNIVERSAL CAR
Here is the Ford V8, a perfect whirlwind of utility. Fits into the daily life of everybody, anywhere, and all the time. For town and country, it is all that its name implies—horizontal, low in cost of operation; low in maintenance, with all the sturdy strength, dependability and reliability for which Ford cars are noted. We'd be pleased to take your order for one or more. We have about everything in motor car accessories, and always have a full line of genuine Ford parts—give genuine Ford service.

United States Tires are Good Tires

The Real Thing Right Through

Put United States Tires under your car and you'll find them the real thing.

They're built to wear—to give you the kind of economical service you want. And that's just what they do.

Hundreds of thousands of regular users will vouch for that—lots of them right around here.

There are five distinct types of United States Tires—one for every need of price or use.

We have exactly the ones for your car.

We Know United States Tires are Good Tires That's Why We Sell Them.
Pacht Bros. Co. H. Sordhaus & Son Co. Toledo, Ohio

BAPTISTS TO ORGANIZE REGULAR SUNDAY SCHOOL

Let every child in the community who is not attending Sunday school and especially every child of Baptist parents be present at the Baptist Church next Sunday morning, Oct. 26, from 10 to 11 o'clock for the organization of a Baptist Sunday school. The word "child" here means any and all ages under 160 years old and includes every adult who is a Baptist or is in sympathy with the Baptist church. Enough members have already been secured to insure a good attendance. Come and bring some one else with you and we will have a five permanent organization. Even though we have not yet secured a pastor that is all the more reason why we should meet at least once a week for scripture study in the Sunday school for the Sunday school is the teaching service of the church. Wherefore if we would win our young people for Christ and see them eternally saved without any possibility of fall—thereby making them fit subjects for baptism, church membership and missionary work for the Lord—we must reach them by teaching them God's eternal truths through the medium of the Sunday school. Let us begin this work promptly at ten o'clock next Sunday morning. We are doing all the personal work we can, but if our workers fail to reach you this week come on to Sunday school, anyway bring others with you, hand us names for the visiting list and above all and by all means pray for the success of the Sunday school, pray, PRAY.

GIRLS CLUB, W. C. C. S.

The Dunbar Literary Circle met Thursday, Oct. 16. The purpose of the meeting was to devise plans for the furthering of the girls' literary interest in the city of Columbus. At the meeting arrangements were made for two programs to be given by the circle, one on Thanksgiving, the other on Halloween night. The committee is working hard to make this the two leading features of the season. This circle had quite a large and enthusiastic membership at this meeting, five new members being enrolled. Persons talented along literary lines are invited to join us.

intended in our public school. Much interest was manifested in this class by Miss Coffin and the ladies who took part. We feel sure both strength and gracefulness have been desired to enjoy by having taken most helpful exercises. This class will meet regularly on every Tuesday night. All women and girls are invited.

METHODIST CHURCH NOTES

The Rev. and Mrs. Barton were the recipients of a "pious party" on Friday, October 17, given by the church members and town-people. The result is that the preacher is smacking his lips in anticipation, and the preacher's wife beams with housewifely pride as she surveys her well-filled shelves. But grateful as they are for the establish, they appreciate above all the generous kindness of these new friends, and are eager for the time to come when they may enter upon a larger service to the community.

Morning services at 11 on Sunday. Remember the change in time and adjust yourself accordingly. Subject: "That they might not perish."

The Sunday School Board had a meeting on Thursday evening for the purpose of planning for increased efficiency. The Board voted to have regular discussion meetings once a month. Election of officers is to be held at the next meeting, the date of which will be announced later.

Mariano Puchi was in Albuquerque early in the week and registered at the Goombis.

John P. Mack, well known in Columbus, is back again and says he will remain here. He is still interested in Tres Hermanas mountains.

Owing to the fact that he has his own spur track at the El Paso & Southwestern yards, Jay O'Leary is selling coal under the usual market price. He is handling three of the best grades. Three carloads arrived this week.

FOREIGNERS—GOOD AND BAD

In this country we have millions of foreigners—English, French, German, American, Italian, Belgian, Swedish, Norwegian, Greek, Turkish, Japanese, Chinese and of every other nationality. The great majority of these foreigners are conscientious and law-abiding citizens.

They work. There is also in this country another class of foreigners. They constitute the minority. They are not law-abiding and they are not citizens.

They agitate. And because of the wild-eyed, belittlable vociferousness of these unscrupulous wind-jammers and disorganizers our country of life has been in a constant state of turmoil.

This continual unrest and uncertainty are paralzing production, undermining efficiency and attempting the loyalty of many good men.

Labor and Capital must get together on a sane and reasonable working basis, where the division of profits will be fair to both sides.

But this will never be accomplished by allowing a brazen minority to carry the authority which belongs to a sane majority.

Men of intelligence and integrity do not care to take orders from illiterate and irresponsible foreigners whose only claims to leadership are misquipped consciences and a pair of leather lungs.

Means, not noise, must prevail if we are to live in peace and plenty in this country.

MUST LOOK AHEAD.

It is hard to keep cheerful and be an optimist in the face of depressing conditions. That is largely what copper producers have had to do since the armistice was signed.

The fact remains, however, that when the peace negotiations are finally closed and our system of credits and trade relations are again fully established, copper cannot help but be in great demand. Our own country which was not touched by the ravages of war, but which simply slowed up on building operations for a short time, cannot now catch up with requirements of nations which went through five years of destructive

warfare. They must buy every thing eventually when peace is established.

Our own needs in the face of building, development of electrical appliances, gas engines, airplanes, tractors, automobiles, etc., will require the use of more copper, tin and lead than ever before.

Such conditions might well cause even the strongest to hesitate if they did not look beyond present conditions. In spite of all this, however, consumption has gone on at a record rate in this country. An authority on the copper situation says: "Europe must buy largely the quantity is only limited by the amount of cash and credit that can be obtained."

Japan and China can be counted on as large buyers as soon as the pending political problems are worked out. The world needs copper in vast quantities and must come to this country for it; the need is urgent and imperative to restoration of normal industrial conditions.

HAYSEED ON PLATOCRAT

Not so many years ago the term "hayseed" was jeeritously applied to the American farmer.

And the farmer didn't resent it because he couldn't.

He lived from hand to mouth, and often there was but little left by the time it reached the month.

But now? Say, just watch the old boy's snuff!

He comes to town in his automobile, smokes the best cigars, and his family has a college education and buys the best of clothes.

Once he went into the bank with his hat in his hand. Now he owns the stock, is a director, or perhaps the president.

In other days he asked favors. Now he issues orders. A hayseed? Well, hardly. A plutocrat? You bet! Horse sense and opportunity did it.

CLASSIFIED ADVERTISEMENTS

WANTED—ROOM AND BOARD IN private family, where there is music. George Rodriguez, Care Courier.

FOR RENT—TWO NEW FINE plastered and painted rooms. Call at O. Shays laundry.
