Washington. - Directly from administration circles has come admission war and his duty to his country seemthat the authorities of Great Britain ingly was done, and Japan are being telt out to determine their attitude toward the pro- man, nevertheless is said to have been mission which investigated the dispute posed conference on naval disarma, the oldest volunteer aviator trained

The admission on this subject is of He was not sent abroad, but was held interest because it proves the administ in this country to train the men who tration has believed for some time that were to fight in the clouds. He met the disarranment conference resolution with needlents and on one occusion pertainly would be passed by the senate in its original form, and by both to me within the month, "nothing houses finally in some form or other, could kill the bug," It is not customary for an administration to attempt to find out how foreign governments will feel about a Connolly about the lure of flying. He matter unless it is pretty definitely known that the matter is to be put up to them for consideration.

The Borah resolution for disarmament, or rather the Borah amendment take my uniform off. I am going to to the naval appropriation bill, was continue to fly. I love it and so does passed without opposition by the senate. Now the house, when it took the the range of its appeni." matter up, was favorable to the proposition, but some elements in the membership tried to force a provision into it, succeeded in identifying the species the amendment which would make the of owis which just now are making zance not only of mayy disarmament resting place and their nightly hundbut of army disarmament.

This suggestion on the part of the the reason is not hard to understand, are not uncommon owis, and they being favorable to Finland. Hundreds of letters have come into have shown an uncommon wisdom only

Can't Disarm Their Armies Yet.

As things are in Europe today, neither France nor Great Britain nor Italy would consent for a moment to disarm its armies. Europe is still a bolling pot of war, here, there and elsewhere; or if not a boiling pot of netual war, a pot boiling with war possibilities. It has been hinted by some and one or two other kinds of owls mission arrange to reduce the number, persons that the reason some members in turn. I was given permission to There are 7,000 troops in the Sarre armament should be given consider. see for myself. It was a lowering the latter are about to be sent away, ation by the conference is that, be dull day, and I hoped that because | The council asked the commission to cause Great Britain and Japan would of the semi-darkness the owls would report in every case in which the export consent to give it consideration, be awing. They were not, and I puisson of a German functionary had the whole disarmament proposition could not find them. would be thrown into the discard.

Washington already is beginning to speculate on what the outcome will correspondents for the usual Tuesday be if a conference on mival disarm- conference. He talked to them about ament is held with representatives of the cubinet meeting, about disarma-Great Britain, Japan and the United ment, about big business, and about States taking part therein. There will a lot of other things of high moment be a thousand and one things to be I was timerous about bringing in suct considered. The representatives of a seemingly unimportant thing as at each nation will feel their way and owl, but I finally plucked up my or will be constantly on their guard lest nithological courage and said; "Mr the representatives of another nation President, you have shown an interare quibbling, hedging or keeping back est in some owls of your dooryard. something. Any agreement that is understand that you have seen then reached must be iron clad.

There is one thing, however, which would tend to make binding a naval disarmament proposition. The fumilibot." ment of the terms of such an agree ment, or the lack of fulfillment, instantly would be detected. No nation can cover up its ship building operations. If, for instance, Japan should go on constructing dreadnoughts after It had agreed to refrain from so doing. the United States and Great Britain would know it at once.

Lesson of Recent Air Tragedy.

The recent appalling accident tragedy is better, that brought death to the pilot and six passenger aviators In an airplane which crashed to earth to be concerning some remarks which beneficent result. It may induce who came to the White House to see congress to establish altitude observa- the owls, and whom he led to their tion posts along the air highways so tree retreat. He said, "The papers that traveling plane men instantly may made it appear that when I asked the be informed of suddenly generated children if they knew about birds that

From time to time I have written know these small owls are beneficial concerning the aviators' urgent belief I fear the people might think I was that such altitude stations should be directing the children's attention or established. Accidents of the and the seeming necessity of the destrucwhich just has occurred have been tion of birds of this kind. The depredicted because of the absence of structive bird I had in mind was the the danger signal posts of the kind crow which comes into the House grounds and kills fledgling

SYNONYMS FOR JEW.

The name Israelite is usually employed with reference to the religion, Hebrew with reference to the language, literature and race, while Jew is used indiscriminately to represent a member of the Semitic race or a follower of the religion of Moses. They would be distinguished as "convert to Judaism" and "convert to Christian-"converted Jew," so there

BACK TO THE K. P. DUTIES

Louisville, Ky., Legion Men Respond to Appeal From Housekeepers for Housecleaning Helpers.

An alarming shortage of domestics faced the housewives of Louisville, Ky., when they began their spring cleaning recently. Unable to do all the scrubbing, window washing, carpet beating and sweeping themselves, with the maids of ante-bellum continuing their work in mills and factories, the Louisville women feared that their city would not be spick and span for Derby day. Then the American Legion posts of the city came to their rescue.

"All you former kitchen police here's a chance to ply your honorable calling with pay and with a house-wife in charge of the detail," read the

Back to Kitchen Police Duty.

Legion's announcement to unemployed ex-service men. They responded in platoons and squads, doughboys, gobs and gyrenes, each reciting his record with the broom and mop. The house wives made a rush for them.

The plan is being adopted in sev eral cities nearby with entire satisfaction to the employers and employed.

Engineers, lay on a hard cot in a hospital and wondered about his chances of getting home. He recov ered, however went into action and on November was again unded.

Brought back to America and placed in the base hos pital at Camp Lewis, Wash., Quehl worked out the details for a bronze memorial tablet. While awaiting his discharge he drew up the plans, and in civilian life again, he has obtained a patent on an invention which he calls the individual war memorial.

It is a plaque of bronze with the figure of a private in war uniform. Around the plaque in raised letters are the names of the allied countries A plate to be engraved with the service record is in the center. Orders are pouring in so rapidly that he has been forced to enlarge his working

SHOULD FILE CLAIM AT ONCE

Disability Demanda Required on War Risk Insurance Forms to Gain Attention.

"If you have a disability which you feel is due to your military or navel service during the war, you should as a matter of duty to yourself and your country immediately file a claim for disability," reads an article in the American Legion Weekly.

"To make the claim, obtain from our local post, the National Service Division of the Legion, or the Bureau of War Risk Insurance the following forms: Numbers 526, 530 and 545. In addition, make a detailed statement of your condition and occupation prior to service, injury or sickness during service, where treated, and physical condition since discharge. Obtain a like statement from one or more persons who were with you and knew of your disability during service. Get a statement also from one or two persons who have known you since discharge, particularly your employers and other disinterested persons.

"Last and most important, get statements from all the doctors who treated your case and from the hospitals where you were confined. These must all be sworn to before a notary public and forwarded to the Bureau of War Risk Insurance, where, after consideration of your health record, your military record and your present condition, an award should either be made or disallowed.

"If you are among the 100,000 whose claims are hanging fire, the National Service Division of the American Legion will make it its personal business to get a decision on your claim."

LIGGETT FRIEND OF LEGION

California Major General Snapped In Act of Working on Post's New Club Rooms.

During the Argonne-Mense loffensive, Maj.-Gen. Hunter Liggett commanded all American forces in the greatest battle in the history of the United States.

With the return of peace, Maj. Gen Liggett is working for the American Legion. An active member of a San

Francisco post, he was caught by the photographer at work on remodeling

its new clubroom.

What would have happened if, not many months ago, doughboys had seen a real live general wrestling with a refractory nall during a session of fatigue detail?

Bogus "Funds."
Declaring that there have been many funds started which were said to be for the benefit of ex-service men and women and which were used illegitimately, the Los Angeles, Cal., Advertising club has voted to withhold contributions and indorsement from any future campaign until the local American Legion posts have investigated.

To Have All Conveniences.

When American Legion members of the state of Wushington go to their annual state convention in July, they intend to eat, dance and enjoy the scenery on the way. Attached to their special train will be a dining car, observation car and a baggage car which will be used for dancing.

Establishes State Branch, The Iowa department of the American Legion has established a state

HOUSING OF HOGS MOST IMPORTAN

Sunshine and Ventilation Are Essential Considerations.

EXCELLENT DESIGN IS SHOWN

Modern Ideas in Sanitation and Sav Ing of Labor Are Carried Out-Entire Front of This Structure is Practically a Wall of Glass.

By WILLIAM A. RADFORD. William A. Radford will answer one and give advice FREE OF on all subjects pertaining to the Ill., and only inclose two-cent stamp for ing labor-saving buildings?

Sunshine is the elixir of life. Human modern homes, factories, office

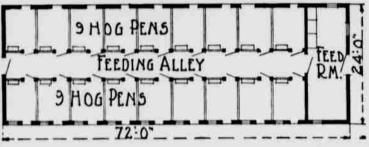

of doors. Through these windows and doors the house is assured of a constant and liberal supply of fresh air and an abundance of real sunshine.

In construction this hog house is frame set on a concrete foundation. It is 72 feet long and 24 feet wide and has eighteen hog pens. A feed room at the end is large enough to take care of the entire drove. The partitions between the pens are steel of the latest sanitary type. By installing a carrier track in the feeding alley which runs down the center between the two rows of pens, the farmer can eliminate much of the heavy work connected with the raising of hogs. The feed carrier can carry the feed from the feed room to the various pens. There will be no need for the old style wheelbarrow. Instead of rebelling against this task, the farmer's son or hired help will not complain.

"A stitch in time saves nine," says the old adage and it certainly is true of the construction and equipment of COST on all subjects pertaining to the subject of building work on the farm, for the readers of this paper. On account of his wide experience as Editor, Author and Manufacturer, he is, without doubt, the highest authority on all these subjects. Address all inquiries to William A. Radford, No. 1827 Prairie avenue, Chicago, Ill., and only inclose two-cent stamp for

In the construction of this hog house another important condition was beings, animals and plants all thrive taken into consideration. Ninety-five on it. They all need it in large quan- per cent of the fires on farms are titles and unless it is available, they caused by lightning. It has been wither and die. Nez Perces Hold Belief That All Man-

kind is Descended Directly From That Tribe. "Like nearly all people, the Nez

Perces Indians have a tradition concerning the origin of the human race," writes Maj. Frank Fenn in the Idaho Statesman. "According to the Indians there was in primordial times a dragon which went about the earth destroying whatever came in its way. There was only one creature capable of evading the monster. This was the coyote. When all other livings things had been made victims of the dragon it determined to establish its supremacy by killing the only surviving antagonist. coyote the dragon finally met the little water river, at a point now marked by a conical mound of stone which, in the branch of the American Legion News much maneuvering the coyote finally dies.

INDIAN LEGEND OF CREATION secured a grip on the dragon just behind the left shoulder. Because of its conformation, the dragon could not turn its head to reach the coyote in this position and the little animal gnawed its way through the side of the monster and tore out its heart.

"As the blood from the drugon's heart was sprinkled on the sands of the river bar the coyote's hot breath with the bloodcame in contact moistened sand and vivified a sediment mass which took form and became the race of the Nez Perces, from whom have descended the people of mankind.

High Cost of Plant Disease.

During last year, various plant diseases caused crop losses as follows: long search for the clusive 112,000,000 bushels of wheat, 50,000,000 bushels of oats, 80,000,000 of corn, 50,animal on the north bank of the Clear- 000,000 bushels of potatoes, 40,000,000 bushels of sweet potatoes, 185,000 tons of tomatoes, \$50,000 bales of cotton, course of ages, was reared by the Nez 5,000,000 bushels of peaches and 10, Perces in commemoration of the crea-tion of man and as a monument to this loss might have been avoided by their sacred animal, the copote. After the prompt application of known reme-

GLORY ACCRUES TO LEADER DOG HATERS "CALLED DOWN"

Be First in Some Undertaking That Succeeds.

Adam's glory was in being the first man, and Eve's in being the first womfirst to be tempted and the first to

sons and events that find their places in history. Always it is the beginnings of things that shed giory on the participants. Christopher Columbus has just been honored again because he was the first to discover America. and the landing of the Pilgrims is celebrated because they were the first to colonize Massachusetts. Harvard reloices in being the first institution of learning in what is now the United States and having set up the first printing press. The first settlers of any community are always persons of prime interest, and the first man to wear pantaloons or carry an umbrella, if living today, could coin money by putting himself on exhibition.

If one wants to be remembered, one has only to pick out the spot where a great city is to be built, or connect himself with an industry that is bound to grow, or do something that is bound to become the fashion. He is at once Immortalized. Generation after generation will speak his name, and on anniversary occasions orators will sound his praise. He may be individunlly no greater than thousands who have come after, but the glory of having been the first will be upon him forever and a day.-Columbus Dis-

SET RECORD FOR PROFLIGACY

Danish Courtier, Hundreds of Years Ago, Started Fashion Copied by Some Modern "Sports."

The "sport" who lights his eightets with \$5 bills find the pace set hundreds of years ago by courtlers in the reign of Queen Caroline Matilda of Demourk. Bills worth 830 were used by them as pipe lighters, and the leadership was taken by an old rone Count Rantzau, who, although 60, won the love of the beautiful Sophia Livernet, of the royal ballet, a maid of 18 years. Rantzau was the brains behind the plot that broke the rule of the guilty queen and her lover, Dr. Struensee, and put the downger queen, Juliana Maria, in power,

That assure holy promptly furned on Rantzau and ordered him banished. He was sunk in melancholy, but brightened long enough to give a sories of balls and entertainments more brilliant than any the kingdom had known. Then he drew his pistol, and all would have been over had not the lovely Sophia entered at that moment and by singing a trio of old melodies to the tinkle of her harp, won back his desire to live. He did

CHAVES

The Picacho well has been abandoned by the National Exploration Com-pany and the rig, casing and machin-ery is now being moved to this city, where it will be stored in the company warehouse. This well was the first started by the National company and was known as well No. 1. Actual drilling started in October, 1919. The depth of the well was 2200 feet the last 500 feet being a very hard forma-tion. Samples of the formation were taken from the bottom of the well and sent to the University of California and Columbia university in New York. Reports made from these samples showed it would be unprofitable to drill further.

The state of the s

Every known vegetable has a meaning to the mystic interpreters when it appears in a dream and with regard to most of them the oracles are definite enough. But with regard to peas the interpretations are rather confusing and at times contradictory. The great majority of the mystics, however, see in a dream of peas a fortunate omen

for those engaged in business. Many of the oracles speak of a dream of eating peas as that most favorable for business success and make mention of a dream of merely seeing peas without eating them. One or two qualify the good omen of a dream of eating peas by specifying that they must seem "luscious to the taste" in order that the dream may attain its full beneficence. These same oracles insist that the peas eaten in the dream be cooked for, say they, to dream of eating raw peas implies vexations and disappointments.

One or two lonely prophets say that to see green peas in a dream is a sign of good health, but if they are cooked it is a sign of illness. This with regard to the being cooked is, it will be seen, at direct variance with the vast majority of the mystic interpretations.

NO BUILDINGS ON THE SUN

Why Some Observers Imagined That They Saw Structures on Face of "Old Sol."

Well into the last century it was believed that the sun was inhabited, not with puny beings like ourselves, but with people weighing several tons and of proportionate strength.

The sun, being a body of most tre- Magazine, mendous size, must necessarily have inhabitants worthy of its grandeur. And, having men, women and children, it must have buildings in which to nde them and to carry on their industries.

Hence some observers, with an ingebuity which did credit to their imaginative faculties, were certain that they had discovered buildings on the dark, solid body of the sun. The buildings were not claimed to be in regular formation, such as a vast city tain, but were merely "traces."

lowed their imagination to run riot. ings (caused by uprushes of gas) in tive in England, to Oxford, where he openings we know as supspots, and the of civil laws, that the student body were taken to be buildings beside be a mere toy.

How to Clean a Carpet.

to it three pints of boiling water. Rub lete of no mean order, as many a this on the carpet with a piece of flannel, and then rub with another flannel dipped in hot water, or take one cake beaten him so badly that spectators of soap, shred it finely, add two tables of the race unmercifully chaffed spoonfuls of washing soda and pour him. She played many games with upon it one gallon of boiling water, skill and vigor, and there was not a Let it cool and then dip a flannel into woman in Washington that could the mixture and rub the carpet and before it dries rub with another flan- ing for strength and great activity. nel dipped in clean hot water. Am- In spite of this she was not unwom monta added to hot water and applied anily, and excelled as a harpist, wrote with a flannel also answers well.

To beat a carpet, beat it on the wrong side first and then more gently feather." on the right side. Beware of using sticks with sharp points, which may from carpets, first soak up all the ink possible with blotting paper, and then rub the stain with a flannel dipped in hot milk. Grease stains can be removed by mixing French chalk and water to a thick cream, and painting It over the spots. Let it remain on until quite dry, place over it a fold of cloth and Iron with a fairly hot iron; the grease will pass into the chalk.

Some of the Chinese fruits, cunning-

ly coaxed and lovingly cherished through many centuries, are said by experts to be delicious. There is an orange grown in China that is reported to surpass in sweetness and delicacy any of the oranges to which the people of Europe or of America are the long pink rifts of the desert val committed shinju, or double suicide, places where the temperature falls 20 ert ranges,—"The Desert," by C. Van the sen. Both hodies were recovered There is also a peach unlike any-

thing to which the West is necustomed, and a winter muskmelon that will appeal irresistibly to the European palate. This meion is at its best among the rest, assembled to see the In December and January. There are valiant brothers, Robert and Charles, many other good things in China to mount into the air yesterday, in comwhich Europeans will doubtless be in- pany with a certain Pilatre de Rosier. troduced in time. The Bright Side.

The worden of Golo penttentlary says that the one is true. Recently a negro prisoner, in for life, was brought before him and in the conversation the warden said; "Why, Rastus, you are all the year round, except in the in for life, aren't you?" With a broad coldest senson, from the end of Degrin the negro replied philo-ophically,

than it is to lead her.—Arkansas get microbes and I might get your Thomas Cat. get microbes."—Sun Dial.

"Oh, no, warden his from now on."

Was Not Afraid of Death by His Own Hand.

Sato told us stories—the young man who wanted the sword that he might disembowel the Russians and not have to bite their throats in the hand-tohand fighting.

Then the story of the samurai boy who must once in his life face deathmake up his mind that he is to die. His own case, at the age of twelve, coming home from school, to find his great uncle and his mother all serius, a naked sword on a little wooden rack, the house all in order.

To be told that he had disgraced the family, he had dishonored his father's sword and killed a dog. He would be given the privilege of committing harakiri, for he was a samurai's son.

His great uncle gave him an object lesson, showed him how it was done and told him to proceed, wrapping the blade in paper, that it might not cut his hand, and telling him that he must do as he had seen his great uncle do in earnest.

The boy begged for mercy. His kinsman and his mother were immovable. Was he afrald to die? If so, they might help him, and the uncle put his hand on his sword.

The boy's tears stopped. He knew his time had come and bowed. He opened his dress, rubbed his abdomen three times. He put out his hand and grasped the sword. He knew no more till a cry of "Mate" (Stop) brought him to his senses.

The reprieve at last. An instant more and he would have been dead by his own hand. He waited, dazed in a death sweat. His courage had been tested. He had faced death,-Asia

ACCORDED PALM FOR BEAUTY

Miss Harriet Lane Acknowledged to Have Been the Prettiest Lady of the White House.

Historians are inclined to give to Miss Harriet Lane, niece of President Buchanan, the palm for being the prettlest woman that ever ruled the White House social life. She was a blond in the sun might be supposed to con. With hair of a rare gold, deep-blue eyes, and her mouth was said to be That was how these observers al- one of the most beautiful ever owned by a Washington belle. Her beauty As a fact, what they actually saw was so noticeable that at the dawn was not a dark body on the sun at all, of womanhood, when she accompanied for it possesses none, but dark open- her uncle, then America's representathe sun's flaming envelope. These was to receive the degree of doctor differences in the shading of the spots greeted her appearance with terrific which the largest on the earth would of her lovely lips as she turned her

flowerlike face toward them. Look Out Upon the Desert.

Come to the eastern side of the peak and look out once more upon the desert while yet there is time. The afternoon sun is driving its rays through the passes like the sharp-cut shafts of searchlights, and the shadows of the mountains are lengthening in distorted silhouette upon the sands below. Yet still the San Bernardine range, leading off southeast to the Colorado river, is glittering with sunlight at every peak. You are above it and can see over its crests in any direction. The vast sweep of the Momye lies to the north; the Colorado with its old sea-bed lies to the south. Far away to the east you can see the faint forms of the Arizona mountains melting and mingling with the sky; and in between lie leys and the lilac tracery of the des-

COURAGE OF SAMURAI TESTED CALLS FOR MANY QUALITIES

Boy of Twelve Forced to Show He Archeologist Must Be Scholar, Linguist, Engineer and Artist, and Expert Handler of Men.

> The modern archeologist in Egypt must be more than a scholar. must have studied history, it is true; he must be familiar with what is known of the art and life of Old Egypt and he must have mastered the ancient language so that he can read

In addition to being scholar and engineer, linguist and artist, the modern archeologist must understand how to handle men. The men employed In archeological excavation in Egypt of Santa Fe will be applied toward are usually boys from 10 to 20 years the payment of said judgment.

Of age. Older than that, in a country

Dated at Santa Fe this 17th day where men and women age tragically fast, they are likely to be stupid.

Usually they are irresponsible and, spurred on by the light-fingered "antika" dealers in neighboring villages. The wise archeologist puts them on piece-work-so much for every cubic foot of earth removed, with bakshish, carefuly calculated on the basis of the "antika" dealers' current rates, for

every object unearthed. Since the bakshish varies with the condition of the object, it is to the interest of the worker to get each "find" out entire, if possible, or, if breakage is inevitable, with no part

Half of the minor objects discovered go to the Egyptian government and half are retained by the institution conducting the exploration.

SHOWED ENMITY IN BOYHOOD

Encounter Between Youthful Cromwell and King Charles I Might Be Called Prophetic.

Cromwell and Charles I of England first met when they were children at Hinchinbrook house, the home of a mutual friend of both the king and Ofiver's father. The boys were told to play together while their elders talked over affairs of state and fash-They got along well enough for while, and then a dispute arose, The young king was not used to opposition to his princely will, and when Oliver stoutly clung to his rights the king struck him.

Oliver cared not a bit that the blow was aimed by a king's hand. He swung his somewhat grimy fist as hard as he could, and caught Charles on the nose with the to-be-expected resuit. Blood flowed in quantities, and the young prince set up a great howl. D. 1921. Servants came running, and all might have gone ill with the careless commoner had not Charles' father taken a hand and declared that the blow was to be forgiven, as it was given in defense of a right, and his son must learn to know that right was greater than kings.

Cough May Originate in Stomach.

scribes a patient, a man of fifty-three, he had taken pounds of solium blearbonnte and other drugs in the course of the years. During the last a cough and spitting of thick mucus from the stomach. Under treatment of the dyspepsia by invage of the stomach and dicting, the cough disappeared. Hayen relterates the necessity for seeking latent stomach discusse with a puzzling cough, and also the necessity with chronic gastritis to restrict to two meals a day, with a nine-hour interval.

THE BOSS IS BACK ON THE JOB

Synopeis.—Grabam Norwissa railroad manager, and his secretary, Jimmy Deells, are marouned at Sand Creek adding with a young lady, Shelia Macrae, and her small-coate, Maise Ann. Unleaen, they witness a peculiar train hold-up, in which a special car is carried off. Norcross recombines the car as that of John Chadwick, founcial magnate, whom he was to meet at Portal City. He and Itshis rescue Chadwick. The latter offers Norcross the management of the Busies Short Line, which is in the hands of emitern speculators, headed by Breck cradge Funter, president of the line. Notuross, learning that Shella Macrae is stepping at Fortal City, accepts. Dodds overhears conversation between Entire Hatch and Gustave Henckel, Fortal City thanciers, in which they admit completity in Chadwick's klaimining, their object being to keep Chadwick from attending a meeting of directors to reorganize the Honer Short Line, which would poparelize their interests. To curb the monopoly controlled by Baren and Bearket, the Red Tower corporation, Norcross forms the Citizens' Storage and Warehouse company. He begins to manifest a deep interest in Shella Macrae. Dodds learns that Shelia is married, but living apart from for husband. Norcross does not know this. The Boss disappears, report has it that he has resisted and gone east.

CHAPTER VII.-Continued.

I told her about the wreck, and said used in years I was arried be hadn't got back yet. "What you heard from Mr. Cantrell I heard something that sounded like may have been all true enough," Kir-I heard something that something and analysis and the enough, "Air-m manifest and failf-impatient, "Oh, dear" and then she went on. "Thave just had a plone message from Mr. rail connection, "only it didn't have Cantrell, the editor of the Monn-anything to do with the big boss. Them The called the house to try thouse was probably plannin' to wreck to find Major Kendrick. He has heard the Mall, all right, and they came semething which may explain about down here to do it. The Lord only Mr. Norcross. The mid he didn't want knows why they didn't do it; p'raps

to put it on the wire."
That was enough for me. "PH go got the Sixteen in on the gravel right over to the Mountainver office," tracks" told her; and in just about two I only just about half heard what shallow of a dead tamb's tail, I was be was saying. He had the lastern, standing as Mr. Cantrell's ellow in and its light fell squarely upon a his juttle den on the third floor of the pross-tie a foot or two beyond where newspaper leniding across the avenue. we were standing. It was the last "Mrs. Macrae telephoned you?" he in the empty string from which

asked, prshing his banch of copy for the two rails had been taken up to

"Yes; just a minute ago." "I'll give you what I have, and you may do what you please with it. One fresh beyond all question of doubt of our young men-Branderly-bas discovered-in some way that he didn't of the wood sticking up beside it-a enre to explain over the phone-that there was a plot of some kind concocted in the lack room of a dive on lower Nevada avenue on the night Mr. Norcross disappeared. From what Branderby says, I take it that the plot was overheard, in part, at least, by some limbitue of the place who was too drunk to get it entirely straight The plotters were four of Cianadan's men, and, as Branderby got it, they were planning to steal a locomotive. Do you know anything about that?"

"I do, The engine was stolen all right, that very night. Kirgun, our master-mechanic, has known it was gone, but he has been keeping quiet in hopes he'd be able to find the engine without making any public stir

"The story, as it has been handed on to Branderby, is pretty badly muddied," the editor went on. "There was something in it about an attempt to wreck and rob the Fast Mail, and something else about sending a note to somebody at the Bullard-a note that 'would do the business,' was the way if was put."

cross!" I broke in excitedly, taking a

running jump at the guess. "If you will wait until Branderby comes in, he may be able to give you more of the particulars," Cantrell was beginning to say; but good gosh! for fear I shouldn't be able to get back to the round-house before Kirgan started out on that engine-rescuing

"That's enough," I gasped; "I'm gone?" and I tumbled down the two flights of stairs and sprinted for the railroad yard, reaching the roundhouse not one half-second too soon. Kirgan was there, with Gorcher and two firemen. They had a light engine out on the tank track and were fill

They took Mr. Norcross with them on the Ten-Sixteen?" was all I could say and then I guess my late electric the quick sprint down from the news-paper office, for I keeled over into Kirgan's arms and sort of half fainted,

Receipes when I came to, right good ngain, Kirgan had me up on the fireminn's box, with an arm around me to hold me there; Billy Gorcher was on the other side of the cab, niggling at the throttie; and the light engine was elicking it off about fifty miles an hour on the straight piece of track between Portal City and Arroyo.

CHAPTER VIII

A Close Call

and relaid to bridge the gap of the At the "Y" siding we stopped-withut going on to the gravel track where Gorcher had seen the lost 1016-and Kirgan and I got off with a lantern. I had managed to tell the big mastermechanic about the Cantrell talk, though I hadn't succeeded in making him believe that it accounted for Mr. Norcross' drop-out. Just the same he humored me by having Billy Gorcher stop, and now he was trying to make me take it sort of slow and easy as we stumbled out toward the stem of the "Y." That was Kirgan's way. He was as hard as nalls with a gang of men, but he could be as soft-hearted as any woman when a fellow was all in. And he knew I wasn't half "at

Dont get too much hope up. Jimmie," he was saying, as we humped nlong around the crooking track of the "Y." "We ain't goin' to find anything out yonder but a rusty loggin' track and that broken rail con-You see, I've been here before, and I know,"

He was as right as could be. When we reached the end of the "Y" there was the broken connection, just as he'd said. The old saw-mill track was still there, leading off in the dark up

of what we might find in that gloomy-While I was nerving myself and

had been taken out and the switch itself was as rusty as if it laidn't been cussing out before,

were a couple of bunks built against straight upstairs to our offices, the log wall. On what had once been Of course, there was nobody there bey, and reached for the golf cap be a bucket of water and a tin cup-

I was holding the lantern. When had me guessing, he found out who we were, he stopped swearing and got up out of While I was making a bluff at uncoventi us in. "You've got an engine here, I sup-

we'll get out of this quick. What day looking for the general manager's ofof the week is it?"

I told him it was Friday, and by his asking that, I knew he must have crisply. been so roughly handled that he had lost count of time. The next order was shot at the two firemen.

"You boys kick that packing-box to pieces and then pull the straw out of that bunk and touch a match to It. We'll make sure that they'll never lock anybody else up in this d-d dog-

The two young huskles obeyed the order promptly. In half a minute the dry slab stuff that the bunks were built of was ablaze and the boss herded us to the door, and a minute or so later we were all climbing into the cub of the waiting engine.

We had to run so slowly down the old track to the "Y" that there was plenty of chance for the boss to talk, if he had wanted to. But apparently ing a little with language if he had wanted to. But apparently "My name is Dismuke, and I am the "My name is Dismuke, and I am the he didn't want to. He sat on the fireman's seat, with an arm back of general manager of this railroad." sat on the way up, and never opened his head except once to ask me what was the matter with my wrapped-up hand. When I told him, he made no comment, and didn't speak again until we had stopped on the leg of the "Y" to let Kirgan and his three helpers put the borrowed rails back into place. "You say it's Friday," he began abruptly, "What's been going on since

Monday night, Jimmie?" I boiled it down for him into just s few words as possible; about the letter he had left for Mr. Van Britt, how everybody thought he had resigned, how Mrs. Shella and the major were two of the few who weren't willng to believe it, how Mr. Chudwick had been out of reach, how the rallroad outfit was flopping around like a chicken with its head chopped off, how President Dunton had appointed that proved as clear as daylight that a new general manager who was expected now on any train, how Gorcher and discovered the lost 1016 on the old disused gravel-plt track a mile beow us, and, to wind up with, I stipped He just took one look at the him Mr. Chadwick's telegram which had come just as I was finishing my supper in the Bullard grill-room, and those two others that had come on the knock-out night, and which had

been in my pocket ever since. He heard me through without say ng a word, and when I gave him the telegrams he rend them by the light of the gauge iamp-ulso without saying anything. But when the men had the "Y" rails replaced he took hold

the other leg of the "Y," and in less of things again with a jerk, "Kirgan, you'll want to see to get ting that dead engine out of the gravel pit yourself. Take one of the firemen I suppose we poked along into the and go to it. It's a short mile and black heart of the Timber range for you can walk in. Jimmle and I want to get back to Portal City in a hurry. the engine headlight showed us the remains of the old saw-mill camp by- to Gorcher: "We'll run to Banta ahead ing in a little pocker-like valley from of Number Eighteen and get orders the sides of which all the mill timber there. Move lively, Billy; time's prehad been cut. The camp had been clous."

We made Banta at a record clip. dozen shacks of all sizes and shapes, While he was in the Banta wire office, getting orders for Portal City, Mr. Norall dilapidated and dismantled, some cross took the time-card out of its cage in the cab and fell to studying it by the light of the gauge lamp. building which had probably served as Gorcher came back pretty soon with the mill-gang commissary and store. his clearance, which gave him the The ties at this end of the line were right to run to Arroyo as first section

so rotten with age that our engine of Number Eighteen. The boss blew up like a Roman powder as she edged up, and a little candle when he saw that train order. below the switch that had formerly It meant that we were to take the I am very busy, just now." siding at Arroyo with the freight that was just behind us, and wait there After we had piled off, there wasn't for the westbound "Flyer," the "Flyer" any question raised as to what we being due in Portal City from the east should do. Kirgan had taken a ham- at 9:15, and due to leave there, com- charge of things. And here was the mer from Gorcher's tool-box, and he ing west, at 9.20. I didn't realize at was the one who led the way straight the moment why the bess was so across the little creek and up the hill sizzling anxious to cut out the delay which would be imposed on us by the to the commissary.

When we reached the building we found the windows all boarded up and there, all right.

which would be imposed on us by the purify man got out of his chair, wait at Arroyo, but the anxiety was puffing like a steam-engine.

"We'll see about this!" he threat-

BETTER ROADS

FUNDS FOR BUILDING ROADS

Sum of \$622,000,000 Available for Highway and Bridge Construction and Maintenance.

(Prepared by the U. S. Department of Agriculture.)
Approximately \$622,000,000 is now nown to be available for road and bridge construction and maintenance during the year 1921, according to information sent to the bureau of public roads, United States Department of Agriculture, by the several state high-way departments. Should pending legislation be passed by congress and additional appropriations be made for federal aid, this sum would be increased by the amount of the federal

appropriation. The approximate amounts available to each of the states from local, state,

Hard Surface Road Built by Federal and State Funds.

and federal sources for road and bridge expenditure are; Alabama, \$9,000,000; Arizona, \$8,000,000; Arkansas, \$12,000,000; California, \$26,000. 000; Colorado, \$7,000,000; Connecticut, \$8,000,000; Delaware, \$3,500,000; Florida, \$7,725,000; Georgia, \$10,000,000; Idaho, \$4,500,000; Illinois, \$20,000,000; Indiana, \$9,500,000; Iowa, \$37,000,-000; Kansas, \$20,000,000; Kentucky, \$8,000,000; Louisiana, \$6,000,000; Maine, \$7,500,000; Maryland, \$4,800,-000; Massachusetts, \$8,000,000; Michigan, \$20,000,000; Minnesota, \$20,000, 000; Mississippl, \$11,000,000; Missouri, \$15,000,000; Montana, \$8,500,-000; Nebraska, \$6,000,000; Nevada, \$3,500,000; New Hampshire, \$2,500,000; New Jersey, \$16,000,000; New Mexico, \$4,000,000; New York, \$55, 000,000; North Carolina; \$6,500,000; North Dakota, \$7,000,000; Ohio, \$35,000,00; Oklahoma, \$8,000, 000; Oregon, \$10,000,000; Pennsylvania, \$30,000,000; Rhode Island, \$1,-700,000; South Carolina., \$6,000,000; South Dukota, \$7,000,000; Tennessee \$10,275,000; Texas, \$60,000,000; Utah, \$6,000,000; Vermont, \$2,000,000; Virginia, \$10,000,000; Washington, \$14,-000,000; West Virginia, \$8,000,000; Wisconsin, \$19,500,000; Wyoming, \$3,-000.000.

DIRT HIGHWAYS ARE EASIEST Unpaved Country Roads Cause Least

Most Destructive. The much maligned dirt road finds a champion in a Denver tire manufac turer, who asserts that exhaustive tests show that the unpaved country road causes the least tire wear. But the road must be in good condition, with no ruts to wear against the side

walls of the tire. When properly dragged, the unpaved country road is found to generate less heat in the tire than any other type of road. Slag roads were found to be most destructive to tires, the sharp points soon pitting the tread with my With the test car's wheels a fraction of an inch out of alignment, the tires

looked as if their tread had been sandpapered after only a few hours' travel. Asphalt pavement was found to develop much heat, but little externa wear. Macadam roads in good condition were found to be better than slag.

ADVANTAGES OF GOOD ROADS

Means Release to Farmer and City Man From Bondage of Rail-

To both city man and farmer the good road means release from bondage-bondage to electric, steam car schedules and discomforts-bondage to distance-bondage to time. Counties and states where good roads have become a steady part of a progressive program of legislation have seen vales shoot up in most surprising fashion, and this again has brought home the fact that good roads pay for them-

DEMAND FOR GOOD HIGHWAYS

Nothing So Vital to Transportation System and Future of Automo tive Power.

"Let's Preach It, Teach It and Demend Good Roads," says Orville D. Coppock, sales manager of the Commerce Motor Car company, Detroit. "Nothing is so vital to the transportation system of our country, and the future of the automotive industry as good roads."

Because of its tendency to damage roads, the tractor is barred from many state, county and private highways In spite of being thus in disrepute, however, it is considered indispensable in many communities for building, repairing and maintaining roads Many a fine dirt road owes its smoothness and state of good repair to frequent use of the drag or grader, pulled

Keep out all weeds before they get started. It is easier and cheaper.

Sunday School Lesson

Teacher of English Bible in the Moo Bible Institute of Chicago.) (©. 1921, Western Newspaper Union.)

LESSON FOR JUNE 26

REVIEW: THE SOCIAL TASK OF THE CHURCH.

GOLDEN TEXT-He shall dwell with DEVOTIONAL READING-Rev. 21:1-14.

PRIMARY TOPIC—The Way Jesus Wants Us to Live.
JUNIOR TOPIC—Some Things Jesus Wants Us to Do.
INTERMEDIATE AND SENIOR TOPIC -The Challenge to Boys and Girls. YOUNG PEOPLE AND ADULT TOPIC -The Challenge to the Church.

Revelation 21:1-14 is the passage of Scripture selected for devotional reading. Instead of attempting to review the lessons of the quarter it would be of great interest and profit to enter into a detailed study of this Scripture. The following outline may be helpful. I, The New Heaven and the New Earth (vv. 1, 2); II. The New People (vv. 3-8); III. The New Jerusalem (vv. 9-14).

Another way would be to assign the Golden Texts to different members of the class asking them to give the part of the particular lesson which illustrates the teachings of the text.

Still another way would be to sum marize the different Scripture passages, giving the leading lessons of The following is given by way of suggestion:

1. The believer's supreme obligation is to present himself as a living sacrifice to God. The grand reason for so doing is that he has received the mercies of God. The one so yielded will love his fellow believer sincerely.

II. The believer's body is God's property—the temple of the Holy Ghost; therefore we are under solemn obligation to use it for His glory,

III. Since God the Father and Jesus Christ work, it is incumbent upon all to work, and the man who will not work should not ent.

IV. God hates the greed that moves men to dishonest methods in order to get rich. His judgment shall fall upon

V. True education will lend one to Christ. The one only book which tells about him is the Bible. No one can call himself educated who is ignorant of the Bible.

VI. God rested when His work of creation was done. On this basis He has established the law of labor and The obligation to cease from labor is that one may remember God. VII. The church is an organism as

the human body. In order that there mny be real helpful co-operation there must be membership in that body.

VIII. Jesus should be welcomed as a guest into every home. He is an ex-ample of an obedient son in the home. IX. The most important question is not "Who is my neighbor?" but "To

whom can I be a neighbor?" Being a neighbor is seeing those about who need help and rendering such help in loving sympathy.

X. The Christian is a citizen as well

as a church member. Intelligent Christians will show proper loyalty to the

XI. When Christ shall reign as world between animals and men. The supreme business of the believer in this dispensation is to preach the gos pel to all the world as a witness,

XII. Jesus came and preached the gospel to the poor, but shall come again to judge the world and reign as King.

Since the whole of man's duty is summed up by Christ in duty to God and duty to man (Matt. 22:36-40), it would be profitable to go through the quarter's lesson and set down the teachings under

I. Duties to God; II. Duties to Man.

House Divided Against Itself.

He who sits above the waterfloods is still working out His ways, and man's extremity is, as ever, God's op portunity. But if we are to be real sharers in this task of divine reconstruction, and fulfilling of God's purposes for the human family, it behooves us to do our utmost by prayer and effort to repair the breaches which human waywardness has wrought in that instrument which He has designed, and through which He has chosen especially to work out humanity's salvation-the church of the living God, the One, Holy, Catholic and Apostolic Body of Christ. For until these wounds are healed the church must present herself as a house divided against itself; and, because the Savlor's prayer for a unity in the "one fold" remains unfulfilled, His enemies continue to triumph, and the forces which make for righteousness are thwarted.-Bishop Howden.

The one thing indispensable in the service of Christ we can learn nowhere else except at His feet. Here is the spiritual secret which makes a saint so potent for the highest good. For it is true of a saint that "the least of his words and actions may be of more vital effect in the world than the life's labor of any or the herd of benevolent people who are busied about much serving." Our Lord said concerning His chosen friends: "For their sakes I sanctify, I consecrate, Myself." Even when we set apart all that was unique in His self-consecration-all that He alone could, once for all, achieve—those solemn words come home to every disciple. For their sakes I consecrate myself.

Nothing So Sure as Death.

A blessed thing it is to die here, that we may live there. "And nothing is so sure as death, and nothing so uncertain as the time. I may be too old to live; I can never be too young I will therefore live every if I were to dle the next."

ALARM WARNS OF DEFECTIVE TIRE

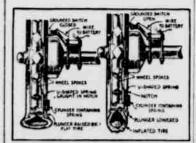

Electric Device Invented by Indianapolis Man Can Be Attached to Any Wheel.

ELECTRIC SWITCH DOES WORK

Placed in Position So That They Will Be Thrown to One or Other of Closed Positions When Tire is Punctured

It frequently happens that air leaks slowly from a tire without the driver's knowing it. The tire becomes flat and the rims of the wheel cut into it. To warn drivers in time, George F. Young of Indianapolis has recently invented an electric alarm which can be atached to any wheel. It consists of an this switch projects toward the spokes in all directions, of the wheel. The end of the blade blade to barely clear them.

Working of Switch. Working in conjunction with the blade of the switch is a metal finger mounted on one of the spokes of the wheel. This finger can slide radially to the wheel, but a spring normally

A Flattened Tire Presses a Switch finger Inward. The Electric Switch Is Thus Closed, and an Alarm in the Circuit at Once Gives Warning.

end up against the underside of the inflated tire. The other end of the finger will clear the projecting blade when the tire is properly inflated. Just as soon as the tire begins to flatten, the finger is pressed radially inward and it strikes against the projecting blade. The switch is thereby closed and an alarm, such as a well located light or buzzer which is very easily heard, is operated.

Rotate With Wheels

The various switches are mounted so that they do not rotate with the wheels with which they are associated; but leaves it. This method of mounting may be carried out in several different forms. The one most convenient is shown in the accompanying illustration.-Popular Science Monthly.

Does the Valve Leak?

It is an easy matter to discover whether the tire valve leaks or not if you know the little kink. Remove the cap and, having the wheel turned so the valve is right at the top, set up over the valve stem a bottle, a glass container of any sort, filled with water. If there is a leak, of course, the bubbles will indicate it. Try it with the cap on and with the cap off. You may find that a valve you thought all right is the sole cause of a tire constantly getting soft without apparent cause. The tube that shows no leak when taken out and immersed in water, valve and all, may leak through the valve slowly when in the shoe and pumped up to riding pressure. So this little kink is well worth remembering.

UNIVERSAL JOINT IS **VITAL PART OF AUTO**

No Portion of Car Works So Hard and Efficiently.

Takes Power of Engine and Transmits It to Propeller Shaft Which Moves According to Movement of Rear Axle.

There are hundreds of moving parts on an automobile or motortruck, but none works so hard and so efficiently as a universal joint. Such a joint is necessary on the propeller shaft extending from the clutch to transmission and from the transmission to the

rear axie, as the case may be, Universal Joints are known to operate at more than 98 per cent efficiency, which cannot be said of any other part of an automobile doing such strenuous

The universal joint, as its name indicates, allows for free or universal electric switch which is mounted on movement of the propeller shaft. It is the axle of a wheel. The blade of like your thumb, which you can wiggle

A universal joint takes the power stops very close to the spokes, though of the engine and transmits it to the enough space is left to enable the propeller shaft. At the same time this foint may be constantly moving first in one direction, then another, but usually it moves up and down because the rear axle keeps moving up and down over the road.

The propeller shaft angularity varies ccording to the relative movement of holds it away from the axle, with one the rear axle, and were it not for the use of universal Joints the shaft would bend or break, and hence could not

Every automobile uses universal joints on the propeller shaft. This is an all-metal joint, and the only care which this hard-working part receives is a little grease twice each year. It is remarkable how this part stands up even when owners forget it.

Most owners do not know what universal joint looks like because it never gives any trouble, but the wise owner will not allow joints to go without grease.

Grease is easily injected through the filler opening by means of a suitable grease gun. The joint should not be filled completely-one-third full is suf-

INJURIOUS TO CAR SURFACE

nmon Practice of Using Ammonia to Brighten Surface of Hood Will Ruin Finish.

There used to be a common practice of trying to brighten up the finish of the hood by the use on it of a solution of ammonia. AUTOMOBILE MATUNTS AND

There are now 44 different makes of automobiles in Mexico, as compared with 20 in 1313.

The "horseless carriage" twenty-five years ago was a curiosity with Barnum & Balley's circus.

One out of every 200 applications for permission to take a chauffeur's examination to drive a motor vehicle in New York state is from a woman.

In England, to secure greater safe ty on the highways, patrols are stationed at dangerous crossings to warn motorists, and at bad stretches of box to harden. These are nice to serve

For the production of gasoline there are 311 petroleum refineries in operation throughout the United States with a daily capacity of 1,721,025 barrels of oil.

NEW TRAFFIC SIGNAL TRIED OUT

This device for regulating traffic on busy street corners was tested the other day at Broad and Arch streets, Philadelphia. It is electrically operated and equipped with red, green and white lights. The green light warns pedestrians to hurry across as the red will follow immediately.

Seat Covers.

Seat covers may usually be cleaned very well with a nonalkaline soap and warm water. The best way to carry out this job is to take the covers off and give them a good scrubbing on the ground.

Hot Plugs.

In replacing spark plugs in hot cylinders they should not be screwed move them, due to contraction.

Automobile tourists swarmed so heavily in some parts of California and Florida this winter that they had to have camping places provided for them.

More motor vehicles are used by the state highway commissioners in the United States than by any other branch of the government. The health and hospital divisions and agriup too tightly or difficulty will later culture following. Prisons are the be experienced in attempting to re- next in line, with state militia or po-

We must express ourselves in order to grow and in order to reach our des-tined goal; and we express ourselves properly only when we try to make things better both in ourselves and in

FOOD FOR THE FAMILY.

For those whose meat products are somewhat or entirely restricted the following recipe

Peanut Roast. -Mix thoroughly two cupfuls of peanut butter with one cupful

of milk. Add four well-beaten eggs. Stir in one quart of slightly tonsted breadcrumbs, two grated onions, two cupfuls of hot mashed potatoes, two teaspoonfuls of salt, one tablespoonful of summer savory. Bake one hour in a wellgreased bread tin. Serve garnished with parsiey and molds of cranberry jelly.

Onion Fritters.-Sonk one pound of stale bread in cold water until soft, squeeze dry and separate with a fork. Meanwhile have a pound of onions boiled, drained and mashed; mix with salt and pepper, a tablespoonful of chopped parsley and a tenspoonful of thyme. Form into little cakes and dip in flour. Fry in hot fat.

Nut Chops.-Trim crusts of bread, (whole wheat), spread with peanut butter and cut in oblong pieces. Dip in egg, add six tablespoonfuls of cream, dip in cracker crumbs, place in be cooked with the chicken. a buttered pan and bake until brown.

Hallbut with Salt Pork.-Cut fat salt pork in very thin slices, then cut each slice in strips about three-eighths of an Inch wide, but do not cut the strips apart at the rind. Turn the rind into a circle and set to cook in ly until the fat is well drawn out from the pork, then remove and keep hot to serve as garnish for the fish. Two slices of pork will be sufficient for tbut cut a full inch in thickness. Sift two tablespoonfuls of flour and half a tenspoonful of salt on a board and lay a slice of halibut in it; pat gently so the flour may adhere to it; turn and flour the other side. Let the prepared fish cook in the fat, turning until both sides are well browned. Do not cook too fast. When done the fish will be moist, tender and julcy if cooked about ten minutes. Lay on a platter, garnish with parsley and the rinds of salt pork.

"You can make whipped cream? Pray what relief Will that be to a sailor who wants beef?"

"Cum Grano Salts."

GOOD THINGS FOR THE TABLE. A good salad to serve with game is

prepared as follows: Drain the sirup from a can of peaches; arrange the halves of fruit on head lettuce and pour over the following dressing: Mix two teaspoonfuls of sugar with one tenspoonful of celery salt, one-fourth teaspoonful of salt, oneeighth tenspoonful of

pepper, a few grains of cayenne, five drops of tabasco and add, gradually. four tablespoonfuls of corn oil, or olive oil, and two tablespoonfuls of lime

Fudge Wafers,-Prepare a fudge by using two cupfuls of sugar, one-half cupful of milk; one-third cupful of corn sirup, a tablespoonful of butter, bolled to the soft ball stage. Set away to cool, then add vanilla and mapleine: if chocolate is liked, a square of chocolate may be added and bolled with the mixture. Stir until beginning to thicken, then sprend on graham crackers: cover with another and put away in a with ten.

Allerton Potato Salad,-Cut a cu cumber in small dice; add an equal quantity of thinly sliced celery and half the amount of English walnut ments, broken very small; one-third the quantity of green pepper put through the meat chopper and squeezed dry in a cloth; add two cupfuls of cold diced potatoes and mix with mayonnaise. Serve on a lettuce leaf a slice of tomato, a spoonful of the saind, another slice of tomato, and garnish with uniyonnaise and shredded chives.

Canned peas, drained and mixed with a half-cupful of chopped pickles and the same amount of chopped peanuts, served with salad dressing, makes a tasty salad.

New Carrots, Peas and Onions,-Cook together new peas, diced new carrots and small white onlons until all are cooked. Add a bit of diced cooked bucon, a little milk and seasoning of salt and cayenne and serve hot Strawberry Pie.-Rake a pastry shell and when cold fill with crushed sweetened strawberries, top with sweetened whipped cream, chill and serve.

Snuggle Pudding.-Hollow out little cup cakes and fill with the following mixture: Three cupfuls of prunes rubbed through a sleve or colander, one tablespoonful of gelatin dissolved in two cupfuls of boiling water, one cup ful of whipped cream, one tenspoon ful of vanilla, and sugar to taste. Mix and set in a cool place to harden, then put into the cake cups when beginning to set.

There must be no stint of labor where labor will tell for our neighbor's happiness, but no wasteful extravagance of it where it will not

GOOD THINGS FOR LUNCHEON.

Now that the fresh mushroom is ready for the gathering let us have:

per and salt, add one-fourth of a cup ful of butter and thicken with two tablespoonfuls of flour stirred with a little cold milk. When serving, add a spoonful of whipped cream for each cup.

Smothered Chicken. - Cut up the chicken as for frying. Put a tablespoonful of butter into a frying pan-Dredge the chicken with flour and pepper and put into the hot frying pan and cook several minutes adding bits of butter, as needed. Add boiling water to not quite cover the chicken and let simmer one to four hours according to the age of the chicken; cover tightly. A half-hour before serv ing season with sait. A small piece of onion improves the flavor; it should

Creamed Calf's Brains.-Cover the brains with cold water and let soak over night. In the morning drain off all the water and cover with boiling water; cook for one-half hour. Drain off the water, separate the brains and skin them. Blend one tablespoonful a hot frying pan. Let cook very slow- of butter with an equal amount of flour and add a little milk. Stir and cook until smooth. Add sait and pepper to taste. Chop the brains and add them to the sauce. Cook for three baking a slice of fish. Have the halately.

> Carrots, fresh and crisp, ground through the fine knife of a ment grinder, added to salad dressing and served on lettuce, make a most whole some salad rich in mineral salts.

> Chopped Bermuda ontons, dresse with French dressing and used for sandwich are most appetizing. Hot's Mammoth sage is the most

highly prized as it grows very large lenves with the leaf stalks up from the soil, keeping them clean. The leaves are of fine flavor and much used in pork or pork sausage.

Emerald earth and azure sky, Busy bee and dragen-fly, Bobolinks singing in the grass, Daisles nodding in a mass— That's June. —Shirley George.

EASILY PREPARED BLACKBERRY DISHES.

There are two kinds of blackberries is the enrilest to come into the market and is much more dellclous than the later high bush blackberry,

For an everyday blackberry deep pan and fill with sweetened fresh berries, cover with a top crust and bake. This makes a juicy pie which may be served with or without cream. To keep the ple from bolling over and losing its juice, make a small paper funnel and stick into the top; the juice will boll up and fall back with-

out wasting. Blackberry Pudding.-Butter, finger sized pieces of bread and place in the bottom of a well-greased baking dish, cover with sweetened blackberries and repeat until the dish is full. Place in the oven and bake, serve either hot or

cold with cream and sugar. Blackberry Dumplings. - Stew quart or two of the berries in a deep saucepan. When boiling have ready some soft biscult dough cut out into small biscults and place over the tor of the pan. Cover closely and steam until done. Do not let the biscuits rise to touch the cover. Serve hor with the berries as sauce.

Blackberry Jelly.-Dissolve one box of gelatine in a little cold water, add three pints of boiling water, the grated rind of one lemon and one orange, the Juice of four oranges and one lemon. Let stund fifteen minutes, strain and add one quart of blackberries, pour into individual glasses and set in a cold place to harden. When rendy to serve garnish with whipped cream and a perfect berry, For a brenkfast dish there can be of fresh julcy blackberries, each wered with sugar

Beef Red Hot.-Cut roust beef or red peppers and firm ripe tomatoes. Slice one onion thin and brown in butter. Into a baking dish put a layer of meat, a layer of tomato and pepper with sensoning of salt, pepper and paprika for each layer. Over all pour a sauce made from the gravy of the ment, the butter from the frying of the onlons. Add a little curry or chutney and a mish of cayenne. Bake in the oven thirty minutes or until well browned over the top.
