Inquiries Solicited.

"Cow Boy" Has a Grievance.

Datil, N. M., June 5, 1902.

EDITOR CHIEFTAIN:

Judge Kinkade of Toledo, Ohio, recently discharged the regular grand jury, selected another and said the following in his charge to the jury: "It is currently reported that there are boards (jury commissioners) and individuals in this county so crooked that it is impossible to get any measure past them without the use of money. You have lived in this county for years and you know to whom this talk refers. It is said certain lines of business flourish because they pay for protection. The money is divided among those who scheme and work for the protection of thieves." We submit the foregoing actions and remarks by Judge Kinkade to the people of Socorro county without comment. Cow Boy.

THE CHIEFTAIN office has just been supplied with a stock of card envelopes.

Graphic Smelter Shut Down.

Operations at the Graphic smelter near Kelly were suspended very suddenly Sunday morning when it was discovered that steam was escaping through an opening in the boiler into the fire-box. The accident seems peculiarly unfortunate from the fact that only three or four more days were necessary to make a complete clean-up of ore in the bins. Captain Fitch, however, takes a philosophical view of the case and congratulates himself that the boiler was found to be defective before it blew up with the probability of killing three or four men. Several carloads of bullion have been sold from the Graphic smelter in the last two or three weeks.

Card of Thanks.

Sam'l Locke wishes to express his deep appreciation and gratitude to the friends who performed such an abundance of kind offices during the recent illness of his deceased wife and at the funeral and interment.

DOCTOR CHARLES R. KEYES OF DES MOINES, IOWA.
Director Elect of the New Mexico School of Mines.

VICTORY FOR SOCORRO.

The Las Vegas Ball Team Succumbs to the School of Mines Team after a Gallant Struggle.

Nine gory scalps dangle at the belts of the School of Mines baseball team. The Las Vegas nine arrived in Socorro on schedule time Wednesday morning and were escorted to the quarters chosen for them at the Arcade. At 3 o'clock in the afternoon they marched to the ball ground and to honorable defeat. The two teams lined up as follows:

Las Vegas	Socorro
C. Rhodes.....Pitcher.....	J. Haverly
O. Harron.....Catcher.....	R. McDonald
H. C. Hays.....First base.....	E. Baca
L. Tipton.....Second base.....	F. Wilson
F. H. Wolcott.....Third base.....	E. Cosgrove
M. Otero.....Short stop.....	H. Howell
W. Taylor.....Center field.....	F. Zingerly
T. Tipton.....Left field.....	N. Baca
J. Levy.....Right field.....	J. Martinez

Probert and Hill acted as umpires.

The game was without sensational features. Haverly, the left-handed phenomenon, pitched a beautiful game for the home team. It was amusing to see the looks of surprise and chagrin on the faces of the visitors as they took their places at the bat and smashed one, two, three great holes in the atmosphere with the regularity of clockwork. Nobody could have done better work behind the bat than McDonald did. Howell, Wilson, and Emilio Baca were true to their excellent records. Charlie Rhodes, the diamond-stud twirler for the visitors, pitched three innings and then retired tired at seeing his fielders chase the flying sphere. Seven runs were debited to Rhodes' account in those three innings. It must be said of the Las Vegas team that they tried hard. Even when it seemed as though they would be shut out entirely they never flagged in their efforts. When Otero finally succeeded in crossing the home plate in the seventh inning he was presented with an elegant bouquet by a lady in the grand stand. The visitors conducted themselves in so manly a fashion during their stay in Socorro that there are many here who will wish them better success should they come again.

Following is the score by innings:
Las Vegas 0 0 0 0 2 1 1—4
Socorro 2 1 4 0 0 3 0 5—15

A Great Show Coming.

On June 13 there will be a great gathering at Socorro to witness Howe's Great London Shows and grand street parade. The country for miles around is extensively billed and every one should be on hand to see this gorgeous spectacle. One of the many features of this great show is the Bicycle Whirl, one of the most daring and thrilling acts ever presented.

COURT PROCEEDINGS.

Business Transacted at the Temple of Justice This Week.

José Estrada has taken out his naturalization papers.

Sylvestre Abeysa y Sanchez was tried on a charge of murder and the jury failed to agree.

The case against Flavio Apodaca charged with assault with a deadly weapon was dismissed at the cost of the territory.

George W. Bement vs. The Graphic Carbonate Mining Company; judgment for the plaintiff in the sum of \$12,851.82.

The indictment against John Vivian for larceny was quashed and the defendant was discharged from liability under the same.

Joseph Wiggins plead guilty of murder in the second degree and was sentenced to the penitentiary for the full term of his natural life.

Rosalio Jaramillo, indicted for assault with intent to kill, withdrew his plea of not guilty, entered a plea of guilty, and was fined \$50 and costs.

H. G. Buell who was held in custody charged with house breaking and larceny was released, the prosecuting attorney moving the dismissal of the cases.

Manuel Romero, charged with the murder of Andres Chavez at Frisco a year ago last January, was found "not guilty" by a jury of his peers and discharged from custody.

Four cases against A. J. Mackey ranging from the stealing of cattle to assault with a knife with intent to kill were dismissed with leave to reinstate, the defendant being ordered to pay the costs.

Antonio Vincent pleaded guilty to a charge of burglary and was sentenced to two years in the penitentiary. He entered the same plea to a charge of burglary and sentence was suspended during good behavior.

W. I. Lyle, José P. Torres, W. P. Younker, and G. Biavaschi were arraigned for violation of the Sunday law, pleaded guilty as charged, and sentence was suspended on payment of costs by defendants. One case against G. Biavaschi was dismissed at cost of the territory.

First Big Show Coming.

Howe's Great London Shows come to the west very highly recommended by the Eastern press. They have large troupes of trained horses and ponies; a large menagerie of rare and costly animals, supreme artists from this and foreign countries besides having a host of funny clowns to make laugh. These big shows will be at Socorro June 13.

OF HOME INTEREST.

House to rent. Inquire of C. T. Brown.

Ice cream and crushed fruit at Katzenstein's.

Friday, June 13, Howe's great London shows.

Ports and Angelica wines at the Palace Saloon.

Paul L. Wilson of Deming spent Sunday in this city.

See Howe's great London shows next Friday.

Just received at the Palace saloon, California claret wines.

Howe's great London shows, Friday, June 13.

L. R. Babcock and son of Kelly were visitors in the city Monday.

A full line of taffeta silks in the latest colors at Price Bros. & Co.

Hon. A. Schey of San Marcial was a guest at the Windsor Monday.

The very latest style in Eagle Shirts just received at Price Bros. & Co.

Col. J. S. Hutchison has been among the visitors in town this week.

W. A. Cozine registered at the Windsor Sunday from Water Cañon.

A. H. Hilton came up from San Antonio Monday on private business.

Mrs. J. S. Mactavish of Magdalena was a guest at the Windsor Monday.

Misses Cecil and Lolita Alexander are visiting relatives and friends at Hillsboro.

Mrs. A. Cortes left on yesterday's belated train to join her husband in Douglas, Arizona.

Mrs. C. G. Cruickshank of San Marcial registered among the guests at the Windsor Monday.

Ziegler Bros.' ladies' shoes and Oxfords of the very latest styles just received at Price Bros. & Co.

J. W. Medley left for his home near Magdalena Thursday after several days attendance upon court.

The home of Mr. and Mrs. Ed. Kealer of this city was gladdened by the arrival of a baby girl Thursday.

W. H. Winter left yesterday for his home in El Paso after two weeks of attendance upon court in this city.

Prof. C. L. Herrick was in town Monday from Kelly where he is now looking after his mining interests.

J. R. Vigil is doing a rushing business in putting up new bill boards and covering them with pretty pictures.

Hon. H. B. Fergusson of Albuquerque was among the visiting attorneys in attendance upon court Wednesday.

Don Matias Contreras arrived in the city Sunday to attend an adjourned session of the board of county commissioners.

Hon. A. A. Freeman left yesterday morning for his home in Carlsbad after a ten days' visit with friends in Socorro.

Hon. Frank A. Hubbell of Albuquerque was in town Sunday morning on his way to his sheep ranges in the western part of the county.

Mrs. Philomene Girardot of Schley, Colorado, is in the city as the guest of her daughter Mrs. Frank F. Smith and will remain five or six months.

Domenico Tabacchi and Miss Rachele Biavaschi will be united in the holy bonds of matrimony at the Church of San Miguel Monday morning.

Mrs. Chas. Stewart of East Las Vegas, formerly of Marysville, Ohio, was a guest in the home of Mr. and Mrs. John E. Griffith two days this week.

The Corpus Christi parade Sunday was one of the largest seen in the city in recent years. San Miguel band furnished music for the hundreds of devotees and the solemn chanting of several female voices added greatly to the solemnity of the occasion.

Pure Grape Cream of Tartar Powder

DR.

PRICE'S CREAM BAKING POWDER

Awarded
Highest Honors, World's Fair
Gold Medal, Midwinter Fair

F. A. Gardom spent the greater part of the week in the city. Mr. Gardom is now located at Water Cañon where he represents the Three Brothers Mining and Milling Co.

The board of county commissioners have been in session this week as a board of equalization. The proceedings will not be ready for the printer until next week.

Hon. A. E. Rouiller arrived in town Wednesday to attend the meeting of the board of county commissioners. Mr. Rouiller has been quite ill of late but is now recovered.

It is reported that all saloon-keepers of the city have agreed to observe the Sunday closing law. Those Sunday morning drams will now have to be taken Saturday night.

D. W. Ewing of Monticello was in the city two or three days the first of the week on court business. Mr. Ewing, who is a flourishing stockman, reported feed good on his ranges.

The success of the memorial exercises last Thursday was largely due to the efforts of Mrs. L. B. O'Gara, who took the initiative and had general supervision of the arrangements.

Elston E. Jones has accepted the position of assayer for the Lena mining company of Lordsburg. Young men equipped with diplomas from the School of Mines are always in demand.

E. A. Clemens of Magdalena recently sold three carloads of horses from his A. L. ranch to an Indiana buyer. Mr. Clemens says that horses of certain grades are steadily increasing in price.

Miss Agnes Jaques arrived home Monday morning from Missouri. The train on which Miss Agnes came was delayed three days near Lamar, Colorado, by a wash-out in front of it and one behind.

Prof. O. R. Smith and Willie Hult left yesterday morning for Lincoln county where they expect to spend the summer in surveying public lands. Professor Smith will have charge of the instrument work.

Mrs. Henriette Billing of Cincinnati, Ohio, arrived in the city Saturday morning on her way to visit her mining properties at Kelly. Mrs. Billing was accompanied by her attorney, Mr. W. S. Little of Cincinnati.

Jay Turley, U. S. deputy surveyor, was in the city the first of the week on his way to Las Cruces. Mr. Turley had just come down from the mountains of the northern part of the territory where the snow was seven feet deep.

Mr. and Mrs. Orrin Rice gave their many Socorro friends a very pleasant surprise Wednesday morning by appearing among them unannounced. Mr. Rice returned home yesterday, but Mrs. Rice is still the guest of friends in the city.

Pierre Hines and Marvel Smith went out to Magdalena Monday morning to visit the Graphic smelter. Owing to the unexpected shutting down of the plant their visit was not so interesting and profitable to them as it would have been.

Reward for Lost Dog.

Lost, Friday afternoon, between Socorro and San Antonio a sable and white Collie bitch. A suitable reward will be given for recovery.

OFFICIAL PAPER OF SOCORRO COUNTY.

SATURDAY, JUNE 7, 1902.

New Mexico demands statehood of the 57th congress.

THE statehood bill seems laid on the shelf in the United States senate but it is certain that the Hon. B. S. Rodey is not.

WHILE other parts of the earth are devastated by cyclones and floods and volcanic eruptions, New Mexico basks in the bright sunshine and the purest air that the Almighty had to bestow.

There is grave dissatisfaction with certain verdicts rendered during this term of court, and intimations are rife that jurors have been tampered with. This is an exceedingly unfortunate state of the public mind and if there is any reason for it other than the usual feeling of disappointment when a verdict does not please all parties an investigation certainly is in order. Until that investigation has been made, however, care should be exercised in placing the burden of responsibility.

Peace reigns in South Africa. Let all the world rejoice. While war is perhaps not an unmixed evil there is enough of evil in it to amply justify General Sherman's definition. The Boers made as gallant a struggle for independence as the world has ever witnessed, and that against the largest army that Great Britain ever put into the field. The future policy of Great Britain toward this conquered people must be an important consideration in determining the measure of her justification.

THE Santa Fe New Mexican of Saturday appeared with a School of Mines supplement containing an elaborate account of the commencement exercises, including the full text of Hon. A. A. Freeman's able address. There was also a statement at considerable length of the nature of the work done at the School of Mines and of the value of that work as promotive of the interests of the Territory. The supplement was profusely illustrated. There were half-tone pictures of the School buildings and surroundings and a fine half-tone portrait of Doctor Charles R. Keyes, the newly elected Director. The biographical sketch of Doctor Keyes is reproduced in this issue of THE CHIEFTAIN. The issue of the New Mexican referred to well illustrates the alertness and skill of the paper's able editor, Col. Max Frost, and one of the means by which he succeeds in keeping the New Mexican in the lead of the dailies of the territory.

The School of Mines.
THE New Mexican today devotes more than customary space to educational matters in New Mexico, although it always gives space and encouragement to the furtherance of education in New Mexico. The School of Mines which held its commencement exercises on Thursday evening is one of the territorial institutions of learning which should and does fill a large place in the educational system of the territory. In its curriculum and aims it is intensely practical and contributes substantially toward the material development of the great southwest. There is a great need for mining and civil engineers, assayers and chemists, who can

give brain and skill toward wresting from the treasure houses of this part of the country, the gold, the silver, the copper, the lead, the iron, the coal, the precious stones and other minerals which are known to be stored in the mountains, hills and tablelands for the use of mankind. A high standing of the School of Mines among the technical institutions of the nation has been assured and undoubtedly it will continue to move to a still higher plane during the coming years.—New Mexican.

Food Imports and Exports.
ALTHOUGH the products of American manufacture now greatly exceed in value the products of agriculture, yet agriculture furnishes nearly two-thirds of the value of our exports; and the country exports considerably more than twice as much agricultural produce as it imports.

Of food importations sugar is easily first, and coffee is second. The value of sugar is a little more than one dollar per capita for the entire population, of coffee a little less than a dollar. Of course purchases from Porto Rico and Hawaii are no longer rated as foreign imports, and are not included. The tea imported has a value less than one-fifth that of coffee. Imported wines cost considerably less than teas.

Of exports of agricultural products cotton is first. The amount received for it is equal to four dollars a year for every person in the United States, and is twice the value of the coffee and sugar imported. Wheat, corn and flour come next to cotton in the order of exports.

Lard heads the meat products; live cattle, bacon, fresh beef and hams follow. Of cheese we export about twice as much as we import. In this, as in many other articles which we both buy and sell, the anomaly is explained by the difference in varieties. Foreign countries produce certain cheeses better than we do, usually the higher priced, whereas in the simpler grades we can undersell European producers.

Articles which a nation at one period imports may subsequently become articles of export. Like a man, it learns to produce some things for which it has relied upon others, and to abandon the production of other things which foreign countries can furnish more cheaply.—Youth's Companion.

British Municipal Ideas.
MR. JAMES BOYLE, the American consul at Liverpool, an old newspaper man and private secretary to McKinley during his terms as governor of Ohio, takes "Municipal Socialism" as a text in a recent report to the state department. He finds that 99 municipalities in Great Britain own their street railway systems, 40 own their own gas plants, and 181 supply electrical light. Half the population of London uses municipal gas. Both Glasgow and Liverpool own their street railways. In Glasgow street railway fares range from 1 cent to 2 cents. Universal 2-cent fares will shortly be adopted in Liverpool. From street railway profits Sheffield has appropriated \$75,000 for the erection of shops and business premises to be rented. Liverpool owns municipalized docks and Bristol has followed the example at a cost of over \$10,000,000. Liverpool has demolished 3000 slum houses and private owners 4000 more. Improved tenements in this district to the number of 2200 have been built or are under construction. The policy is to have new blocks ready for dispossessed tenants.

Americans are surprised to find the extent to which the municipal ownership idea has spread out in Great Britain. Bradford, like Liverpool, owns a hotel; Manchester owns a ship canal; Alexandra palace, London, is municipal property; Torquay owns a rabbit warren; Colchester an oyster fishery, St. Helen's a sterilized milk depot, Hull a cremato-

rium, Doncaster and Chester a race course, Bournemouth a golf course, West Ham a stone-flagging factory and Leamington and Harrogate own Turkish baths and give free fireworks exhibitions. Numerous British cities supply free concerts. Liverpool supplies gas, and to some extent hot water, on the slot principle. Two cents pays for gas sufficient for four hours' consumption by one burner. When public ownership is taken for a text in the United States it is well to admit that the British municipalities are immensely ahead. Consul Boyle is evidently impressed with American backwardness in the whole matter.—Globe Democrat.

Martinique And St. Vincent.
FEW catastrophes in our own or any other times of which even approximately accurate records have been made are comparable with that which devastated the islands of Martinique and St. Vincent last month.

The three events which range themselves beside this one in the mind are the eruption of Vesuvius, which wiped out the cities of Pompeii and Herculaneum in the year 79, the great Lisbon earthquake, in 1755, and the eruption of Krakatoa in August, 1883.

For centuries the name of Pompeii has stood for supreme horror, yet most of its many thousand inhabitants escaped. Of those who were actually in St. Pierre at the time of the explosion, but one is known to have come out alive.

A large part of the island of Krakatoa was blown away by the convulsion of 1883. The sound of the explosion was heard at a distance of two thousand miles, and air waves travelled four and one-half times round the world. Thirty-six thousand persons are said to have perished.

Beside this stupendous cataclysm, the horror in Martinique, so far as its geological character is concerned, was more restricted and less important; but in these days of quick communication and closer international ties it is the human interest which counts. Upward of thirty thousand lives were blotted out in a single minute, and the occurrence of the horror at the very door of the United States gives it a poignancy which a more remote event could not have had.

The heroism of some of the survivors of St. Pierre and the tidal wave of pity and material aid which set so quickly toward the stricken islands are lights in an awful picture. One would not wish to forget the captain of the Koraima, who, although so badly burned that he was blind and hardly recognizable, asked only of his rescuers that they put him back at his post of duty; or that other captain, the commander of the Roddam, who kept his place on the bridge even after he was horribly burned, and with the help of two other crippled men brought his vessel into port.—The Mirror.

Read It in His Newspaper.
George Schaub, a well known German citizen of New Lebanon, Ohio, is a constant reader of the Dayton Volkszeitung. He knows that this paper aims to advertise only the best in its columns, and when he saw Chamberlain's Pain Balm advertised therein for lame back, he did not hesitate in buying a bottle of it for his wife, who for eight weeks had suffered with the most terrible pains in her back and could get no relief. He says: "After using the Pain Balm for a few days my wife said to me, 'I feel as though born anew,' and before using the entire contents of the bottle the unbearable pains had entirely vanished and she could again take up her household duties." He is very thankful and hopes that all suffering likewise will hear of her wonderful recovery. This valuable liniment is for sale by A. E. Howell, Socorro; W. M. Barrowdale, Magdalena.

The Beautiful Beyond.
Beyond this beautiful and rippling stream, just over the edge of a grassy knoll, there blooms a rare and richly tinted flower, they tell us that it is so rarely beautiful that it may have blushed to life at the touch of an angel's kiss, and caught its rosy flush from a burning star.

Beyond the pathless mountains that lift their blue peaks in the fading distance, they tell us there is a charming valley that drinks the diamond dew of morning and bathes in the liquid sunbeams, clad in verdure of everlasting green and dotted all over with flowers of every hue and shade.

Beyond the blue waves of the pathless ocean they tell us there is a clime from which the mellow sunlight of spring never departs; that it is laden with the songs of birds, that note and plumage, and peace, ease and plenty rule the lives of people that never heard of war or pestilence.

Beyond the curtain of darkness that hangs over the gloomy night there dwells the picture of morning—a picture of fresh new life—that seems to wake and move away the mists, and they tell us its foreground is hope and its background is pleasure.

Beyond the ashes and struggles, the fears and disappointments, the bitter trials and the wearing labors of time, we are taught in Eternity whose higher possibilities give promise to calmer hours and sweeter rest.—Bob Taylor.

Saved From An Awful Fate.
"Everybody said I had consumption," writes Mrs. A. M. Shields, of Chambersburg, Pa. "I was so low after six months of severe sickness, caused by Hay Fever and Asthma, that few thought I could get well, but I learned of the marvelous merit of Dr. King's New Discovery for Consumption, used it, and was completely cured." For desperate Throat and Lung Diseases it is the safest cure in the world, and is infallible for Coughs, Colds and Bronchial Affections. Guaranteed bottles 50c and \$1.00. Trial bottles free at all druggists.

Plucky Girl.
Up from Mexico comes the story of a plucky girl which goes to prove the oft repeated statement that the American girl can do almost anything and it well. The story is told by Gilbert Kirkland of Chihuahua, who claims to know the girl:

"Mary Holland," said Mr. Kirkland, "is one of five children. All of them are quite young, while Mary, the oldest, is only 23. The father died and left his family in destitute circumstances in Brooklyn, N. Y. The mother is an invalid. Mary has but a poor education and had to depend upon hard manual labor for a living. Finally she secured a situation as nurse for an old lady, who went to Mexico for her health. Her employer died, and the girl was thrown on her own resources. She failed to get employment and as a last resort cut off her hair and donned male attire. She was young and strong and managed to do creditably all the jobs she secured. At last she drifted to an American ranch in southern Chihuahua, where she remained over a year. The girl saved her money and made investments which turned out well. She now has a bunch of 500 head of cattle of her own in Chihuahua and has also two promising mining claims for which she refused \$4,000 American money. She has accomplished this all in only three years, besides helping support her mother and sisters in the east.

Happy Time In Old Town.
"We felt very happy," writes R. N. Beville, Old Town, Va., "when Bucklen's Arnica Salve wholly cured our daughter of a bad case of scald head." It delights all who use it for Cuts, Corns, Burns, Bruises, Boils, Ulcers, Eruptions. Infallible for Piles. Only 25c at all druggists.

Blows out the gas and furnishes the newspapers with a just and an ordinary notice. "Didn't know it was loaded" may be an honest plea, but it never brought a victim back to life. Those who let a cough run on, in ignorance of the danger, find no escape from the consequences when the cough develops into lung trouble. The best time to kill a snake is in the egg. The best time to cure a cough is when it starts. Ordinarily, a few doses of Dr. Pierce's Golden Medical Discovery will cure a cough at the beginning. But even when the cough is deep-seated, the lungs bleed and the body is wasted by emaciation, Dr. Pierce's Golden Medical Discovery will in ninety-eight cases out of every hundred effect a perfect and permanent cure.

My husband had been coughing for years and people frankly told me that he would go into consumption, writes Mrs. John Shiversman, of No. 2523th Place, Chicago, Ill. "He had such terrible coughing spells, we not only grew much alarmed but looked for the bursting of a blood vessel or a hemorrhage at most any time. After three days' coughing he was too weak to cross the room. The doctor did him no good. I started the cure to a druggist, who handed me a bottle of Dr. Pierce's Golden Medical Discovery. My husband's recovery was remarkable. In three days after he began using Dr. Pierce's Golden Medical Discovery he was up and around, and in two more days he went to work. Two bottles cured him."

The Common Sense Medical Adviser, 1001 pages, in paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

Summer Excursions.
Southern Baptist Convention, Asheville, N. C., May 8-15, 1902; tickets on sale May 5-6-7 at one fare for the round trip.
National Baptist Anniversaries, St. Paul, Minn., May 20-22; tickets on sale May 17-18 at one fare for the round trip.
To Portland, Oregon, tickets on sale May 28 to June 9 at \$50 for the round trip.
To San Francisco, California, tickets on sale May 28 to June 9 at \$35 for the round trip.
To Minneapolis, Minn., tickets on sale July 4-5 at one fare plus \$2 for the round trip.
To Tacoma, Washington, tickets on sale July 17-22 at \$50 for the round trip.
To Salt Lake City, Utah, tickets on sale August 6-7-8 at one fare for the round trip.
To San Francisco, California, tickets on sale August 4-9 at \$35 for the round trip.
For further particulars inquire at the depot.

THOS. JAKES,
Santa Fe Agt.

You may as well expect to run a steam engine without water as to find an active, energetic man with a torpid liver and you may know that his liver is torpid when he does not relish his food or feels dull and languid after eating, often has headache and sometimes dizziness. A few doses of Chamberlain's Stomach and Liver Tablets will restore his liver to its normal functions, renew his vitality, improve his digestion and make him feel like a new man. Price, 25 cents. Samples free at A. E. Howell, Socorro; W. M. Barrowdale, Magdalena, drug store.

Nothing Easier.
Mr. and Mrs. Bailey, a young couple recently married, were beginning their housekeeping, and were doing the work of putting the rooms in order themselves.
Mr. Bailey was having some trouble in hanging one of the presents, a fine clock, upon the wall of the dining-room.
"Why is it taking you so long, dear," asked the young wife, "to put up that clock?"
"I can't get it plumb," he replied.
"Then why don't you send for the plumber?" she asked, in perfect sincerity.

My little son had an attack of whooping cough and was threatened with pneumonia; but for Chamberlain's Cough Remedy we would have had a serious time of it. It also saved him from several severe attacks of croup.—H. J. Strickfaden, editor World-Herald, Fair Haven, Wash. For sale by A. E. Howell, Socorro; W. M. Barrowdale, Magdalena.
Candies, nuts, oranges and apples at Katzenstein's.

CHARLES R. KEYES, Ph. D.

Biographical Sketch of the Distinguished Geologist Elected Director of the Faculty of the School of Mines.

Dr. Charles R. Keyes, who has accepted the presidency of the New Mexico School of Mines, at Socorro, is an Iowa man. He was born at Des Moines, December 24, 1864. His early education was received in the public and private schools of that place. He was a student at the University of Iowa, in the faculties of engineering and sciences, being graduated with the degree of B. S., and in due course having the higher degree of A. M. conferred upon him. Two years were then spent in practical field work in geology, associated with the famous Dr. Wachsmuth, a colleague of the Swiss naturalist, Louis Agassiz. During this period, Mr. Keyes found time to prepare a series of over 800 unique sketches in India ink illustrating the remarkable work on North American Crinoid Camerata published by Harvard University in three huge volumes.

Mr. Keyes then spent three years at the Johns Hopkins University at Baltimore, studying and investigating in mineralogy, microscopic petrology, and geology, under the guidance of one of the world's most famous scientists, the late Dr. George H. Williams. While at this institution, Mr. Keyes received all the honors it was possible for the institution to confer: University Scholar, Fellow, and Fellow by Courtesy. He was graduated with the degree of Doctor of Philosophy. His inaugural dissertation has been incorporated in the text books on geology that are used the world over.

For several years, Dr. Keyes was connected with the United States Geological Survey. Several important memoirs were prepared as the result of some of his more productive efforts in this connection.

Dr. Keyes was instrumental in getting the legislature to pass the law establishing the Iowa Geological Survey, and he was chief in organizing the work. The new feature which Dr. Keyes introduced into the law governing the survey was the ex-officio board of control, by means of which the organization was removed entirely from political dominance, and was made a permanent scientific bureau. Prior to this time, state scientific bureaus had everywhere a precarious existence and much valuable work done was soon lost on account of petty politics. Since the Iowa survey was established no less than a dozen other states have modeled their scientific bureaus after the Iowa law. Another important feature of the Iowa survey, and one which has made Iowa's a model for all other states, is the idea which Dr. Keyes has always insisted upon that in a great industrial state, the geological survey, while not neglecting the more purely scientific side of the work, should occupy itself primarily with the direct application of the geological results to the development of the mineral resources of the state. In Iowa the wisdom of this course has been fully demonstrated.

As state geologist of Missouri, Dr. Keyes reorganized the entire work and methods of the Bureau of Geology and Mines. In three years the productive work of the survey was greater than in the previous 30 years as the ten large volumes of memoirs amply attest.

For several years past, Dr. Keyes has been looking after private mining interests in Missouri, Michigan and the Rocky mountains and has been called upon to advise a number of large mining companies in regard to the values of properties. In addition he has written hand-books on practical geology, and on ore deposits.

Besides the four quarto volumes which he published during his connection with the Iowa Geological Survey, and the ten volumes while directing the Missouri survey, Professor Keyes has written a number of other books and nearly 300 memoirs and magazine articles on a wide range of subjects. Dr. Keyes has the reputation of being a most prolific and interesting writer on mining, ore deposits and geology. A complete list of his writings was published a short time ago in the Bibliographic Hopkiniana, issued by the Johns Hopkins University. Some of these works have been translated into German and other foreign languages.

Dr. Keyes has traveled extensively in both this country and in Europe, Asia and Africa, where he has examined many of the principal mining districts and has gained a wide acquaintance with mining men and professors of the mining schools and universities. He was a member of the International Geological Congress, which met at St. Petersburg, several years ago, and was a member of the coteries which under guidance of the government officials was invited by the Russian government to inspect the mining and geological resources of the great Slavic empire.

For the public and semi-public positions which he has held, Dr. Keyes has been chosen, on account not only of his high scientific attainments, but his good organizing faculties, and

eminent ability to get along harmoniously with people. His associates are said to agree that he combines, what is rarely found in a single person, broad and extensive theoretical training and practical talents.—New Mexican.

"You have what I call a quinine cough," said the doctor, proceeding to mix a dose of medicine for his caller.

"And a quinine cough, I suppose," wheezed the patient, "is a sort of Peruvian bark."

Virulent Cancer Cured.

Startling proof of a wonderful advance in medicine is given by druggist G. W. Roberts of Elizabeth, W. Va. An old man there had long suffered with what good doctors pronounced incurable cancer. They believed his case hopeless till he used Electric Bitters and applied Bucklen's Arnica Salve, which treatment completely cured him. When Electric Bitters are used to expel bilious, kidney and microbe poisons at the same time this salve exerts its matchless healing power, blood diseases, skin eruptions, ulcers and sores vanish. Bitters 50c, Salve 25c at all druggists.

Much Will Then Be Wasted.

It will be a long time before that new Castellane baby will be old enough to call papa to account for wasting mamma's money.—Cleveland Plain Dealer.

Call at A. E. Howell, Socorro; W. M. Barrowdale, Magdalena, drug store and get a free sample of Chamberlain's Stomach and Liver Tablets. They are an elegant physic. They also improve the appetite, strengthen the digestion and regulate the liver and bowels. They are easy to take and pleasant in effect.

California Seaside Excursions.

Tickets on sale each Tuesday, Thursday, and Saturday from May to September inclusive to San Francisco and return at \$55; to Los Angeles, San Diego, Santa Monica, and Redondo Beach at \$35. Return limit, November 30, 1902.

Also, to Denver, Colorado, June 24, one fare for the round trip. Return limit, July 5.

To Chicago, Ill., June 15, 16, 20 to 23, one fare plus \$2 for the round trip. Return limit, Sept. 15.

To Omaha, Neb., Oct. 13-14, one fare for the round trip.

How to Avoid Trouble.

Now is the time to provide yourself and family with a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is almost certain to be needed before the summer is over, and if procured now may save you a trip to town in the night or in your busiest season. It is everywhere admitted to be the most successful in use for bowel complaints, both for children and adults. No family can afford to be without it. For sale by A. E. Howell, Socorro; W. M. Barrowdale, Magdalena.

An Optimist.

An optimist is a man who thinks he can take a few cheap tools and a back door yard and keep his table supplied with green stuff.—Denver Republican.

Rheumatism

The liniment bottle and flannel strip are familiar objects in nearly every household. They are the weapons that have been used for generations to fight old Rheumatism, and are about as effective in the battle with this giant disease as the blunderbuss of our forefathers would be in modern warfare.

Rheumatism is caused by an acid, sour condition of the blood. It is filled with acid, irritating matter that settles in the joints, muscles and nerves, and liniments and oils that nothing else applied externally can dislodge these gritty, corroding particles. They were deposited there by the blood and can be reached only through the blood. Rubbing with liniments sometimes relieve temporarily the aches and pains, but these are only symptoms which are liable to return with every change of the weather; the real disease lies deeper, the blood and system are infected. Rheumatism cannot be radically and permanently cured until the blood has been purified, and no remedy does this so thoroughly and promptly as S. S. S. It neutralizes the acids and sends a stream of rich, strong blood to the affected parts, which dissolves and washes out all foreign materials, and the sufferer obtains happy relief from the torturing pains.

S. S. S. contains no potash or other mineral, but is a perfect vegetable blood purifier and most exhilarating tonic. Our physicians will advise, without charge, all who write about their case, and we will send free our special book on Rheumatism and its treatment.

NOTICE OF SUIT.

Territory of New Mexico, County of Socorro, In the District Court.

Michael Mandell and Mandell Brothers & Company, a firm composed of Michael Mandell, K. Mandell and Felix Mandell, Plaintiffs,

vs. Phoenix Development Company, Philip Bach, Jr., M. L. Wicks, A. B. Nalton, Florence Wicks, M. L. Wicks, Jr., and Olive C. Bryant, Defendants.

To the Phoenix Development Company, a corporation, Philip Bach, Jr., M. L. Wicks, A. B. Nalton, Florence Wicks, M. L. Wicks, Jr., and Olive C. Bryant:

You and each of you are hereby notified that suit has been brought against you by Michael Mandell and Mandell Brothers, a firm composed of Michael Mandell, K. Mandell and Felix Mandell, plaintiffs therein, in the District Court of the Fifth Judicial District of the Territory of New Mexico for the County of Socorro; that the object of said suit is to set aside, cancel and hold for naught a certain deed executed by the said Philip Bach, Jr., to the said corporation, the Phoenix Development Company, which said deed is recorded on page 545, volume 43, of the records, in the office of the probate clerk and ex-officio recorder of the said County of Socorro, and which said deed purports to convey to the said corporation those certain mining claims known as the "Moosa Mine," the "Iron Crown Mine," the "Iron Bar Mine," the "Iron Cross Mine," and the "Iron Cross" and "Iron Crown" mill sites, situate in the Mogollon Mining District in said County of Socorro, upon the ground that the said deed was fraudulently executed to the said corporation, to defraud the plaintiffs, by Philip Bach, Jr.; also alleging that the said plaintiffs became the purchasers of the said property at a master's sale in a suit against the said Philip Bach, Jr., and praying that their title in and to said property be established against the defendants named in said cause.

And you and each of you are further notified that, unless you enter your appearance in said cause, on or before the 20th day of July, A. D. 1902, the complaint filed in said cause will be taken as confessed and the relief prayed for therein be granted by default.

JOHN E. GRIFFITH, Clerk of the Court. W. B. Childers, P. O. address, Albuquerque, N. M., attorney for plaintiffs.

NOTICE.

District Court for Socorro County, New Mexico.

Rachel L. Johnson, Plaintiff

vs. John S. Johnson, Defendant.

The said defendant, John S. Johnson, is hereby notified that a suit has been commenced against him in the District Court for the County of Socorro, Territory of New Mexico by the said plaintiff, Rachel L. Johnson, for a divorce from the bonds of matrimony now existing between plaintiff and defendant, for the custody of the children, May and Leona Johnson, for reasonable attorney's fees and temporary and permanent alimony, and for other and further relief. That unless the said John S. Johnson, defendant, enters his appearance in said cause on or before the fourteenth day of July, A. D. 1902, judgment will be rendered in said cause against him by default. Name of plaintiff's attorney is James G. Fitch, whose post office address is Socorro, New Mexico.

JOHN E. GRIFFITH, Clerk of said District Court.

ADDITIONAL LOCALS.

A lady friend of the editor, residing not a hundred miles from Socorro, relates that Miss Antiqua had an offer of marriage from Mr. Swim, which she finally accepted. A facetious friend of Miss A. was led to wonder if she feared that it was a case of sink or swim.

"Leola" should remember that no reputable newspaper will publish a communication unless the writer's identity is made known. If the article sent to this office yesterday over the above signature had borne the writer's name also it probably would have been published.

Court Stenographer Earl E. Sidebottom was initiated into the Order of the Eastern Star and became a member of Magdalen Chapter No. 8 Monday night. Mr. Sidebottom endured the ordeal of initiation with great fortitude and gives promise of being a star of the first magnitude.

Prof. F. A. Jones returned Thursday morning from Las Cruces where he was called to act as one of the judges in a joint debate between students of the Agricultural College and the Las Vegas Normal University. Professor Jones speaks in enthusiastic terms of his entertainment in Las Cruces.

C. T. Brown arrived in the city yesterday morning from El Paso where he was called to attend a meeting of the executive board of the International Mining Association. Mr. Brown reported that the association is about to incorporate and will at once take steps to secure a permanent home for itself.

Mesdames Jane Griffith and John E. Griffith and daughter Lena expect to leave Tuesday for Colorado Springs where the former will spend the summer. Mrs. John E. Griffith will go on to Sterling, Kansas, where she will be joined by her husband, the efficient clerk of this district, about the first of July.

Sam'l Locke's appointment as cattle inspector for this district will not be revoked. Mr. Locke has just received a letter to that effect from the cattle sanitary board. The appointment is heartily endorsed by the cattlemen of Socorro county. Mr. Locke's qualifications in all respects are of the highest order.

Mrs. G. W. Prichard, wife of the able attorney for the fifth judicial district, arrived in the city Sunday and is the guest of Mrs. C. F. Blackington on McCutchen avenue. It is rumored that Mr. and Mrs. Prichard contemplate becoming residents of Socorro. It is greatly to be hoped that the rumor is well founded.

One of the most successful balls of the season was given Wednesday night in the Garcia opera house in honor of the visiting Las Vegas ball team. L. N. Barnes was the promoter of the undertaking. The visitors were a fine lot of young men and it was a pleasure to entertain them. May their visits be frequent in the future.

There was some excitement and feeling manifested in the city yesterday over the rumor that District Attorney Prichard had determined to institute legal proceedings against all business men of Socorro who had been guilty of keeping their places of business open on Sunday in violation of law. The rumor was probably not well founded.

Hon. Elfego Baca has put a very high feather in his cap by securing the acquittal of Manuel Romero charged with the murder of Andres Chavez. The evidence seemed to be strong against Romero and the Territory was represented by excellent legal talent, but Mr. Baca secured a verdict in behalf of his client and has been much congratulated by his friends over his success.

Rev. Jas. McConnell preached an able sermon Sunday at Epiphany church from the text, "Know the truth, and the truth shall make you free." Mr. McConnell's thought was that the truth should be sought with a spirit of reverence as well as with intellectual light; also, that while there should be agreement on essentials there is room for disagreement on non-essentials and for charity in all things.

Judge H. B. Hamilton of El Paso arrived in Santa Fe last

evening from Chicago. Judge Hamilton was a former resident of New Mexico and a judge on its supreme bench. He had been in Chicago to attend a meeting of the Eagle Mining and Improvement Company and filed amended incorporation articles for it today. The company will conduct extensive operations in Lincoln county and is composed of Chicago and Indiana people.—Santa Fe New Mexican.

Grand Matron Mrs. Elizabeth Warren of Silver City visited Magdalen Chapter No. 8 O. E. S. of Socorro Wednesday night and conducted the initiation of Mesdames Jane Griffith and Nancy Smith into the mysteries of the order. At the conclusion of the ceremonies of initiation there were certain ceremonies observed in the banquet room which were greatly enjoyed by all participants. Mrs. Warren complimented the local organization very highly on the excellence of its work.

The question of Irish wit was up at the dinner table, when a certain popular clergyman who visits Socorro periodically spoke thus: "To kiss the Blarney stone is a perilous feat. One must lean far out and down from the top of a lofty parapet. On one of my visits to Blarney castle I pretended that I was going to undertake this feat. A pretty Irish girl standing near suddenly exclaimed with apparently not the slightest idea of being witty, 'Oh, man dear, don't kiss the Blarney stone while I'm here.' I promised her I wouldn't."

SCHOOL OF MINES BILL.

Introduced Early in the Present Session of Congress. Good Prospect of Its Passage.

Yesterday's Washington dispatches contained comments on the bill for the benefit of schools of mines as follows:

The house members from the west who are working for the passage of the national irrigation bill, have considered a proposition which involved adding an amendment to the irrigation bill whereby a portion of the proceeds of the sale of public lands should be applied to the endowment of schools of mines. Grosvenor of Ohio introduced a bill embodying this proposition early in the session. It has been reported favorably to the house. It has been believed that it involved too much in the nature of the irrigation bill to secure easy passage by itself. Grosvenor accordingly made the request that it be added to the irrigation bill as an amendment and he agreed that it should only apply to non-arid lands, and would therefore not conflict with the irrigation measure. The western members decided to reject the proposition for the reason that it would jeopardize the chances of the irrigation measure. In fact, a hint came from the speaker that such a measure would not be germane to the bill. It was decided, however, that such action did not mean hostility to the Grosvenor bill and that the irrigation people would circulate a petition to have it brought up in the house for passage. The Grosvenor bill provides that there be annually appropriated out of money derived from the sale of non-arid public lands the sum of \$10,000 to be paid to each public land state and territory for use in establishing and maintaining a school of mining, metallurgy, engineering, etc. Grosvenor has not yet declared his intention of voting for the irrigation bill.

Filthy Temples In India.

Sacred cows often defile Indian temples, but worse yet is a body that's polluted by constipation. Don't permit it. Cleanse your system with Dr. King's New Life Pills and avoid untold misery. They give lively livers, active bowels, good digestion, fine appetite. Only 25c at all drug-gists.

Bad for Cattle.

Hon. I. B. Hanna, superintendent of forest reserves in New Mexico, who returned from the Gila forest reserve yesterday afternoon rode over 400 miles over the reserve the past ten days. He reports that cattle are dying by the score for lack of water and feed and that all along his way were strewn dead and dying cattle while the water places had to be watched by the cowboys as the cattle were too weak to leave the water after they had reached it. He predicts that unless there are heavy rains soon in southwestern New Mexico many cattlemen will have to go out of the business.—New Mexican.

NEWS OF THE WEEK.

A Summary of Important Events Condensed from the Press Dispatches.

The briquet plant recently established at Gallup is pronounced a success.

The international canal bill is up for discussion in the United States senate.

Peace has been declared in South Africa on terms very favorable to the Boers.

The American Steel Wire Company will erect a \$5,000,000 factory at Beaumont.

Several lives were lost and much property was destroyed by a flood at Joliet, Ill., Tuesday.

The name of W. J. Brayan was loudly cheered at the Indiana State convention Wednesday.

Silver City is to have a home smelter. Funds for the preliminary costs have been subscribed by citizens.

Heavy rains fell yesterday in Kansas, Nebraska and Iowa. At Cortland, Neb., a foot of water fell in three hours.

Thousands of striking coal miners in Pennsylvania are now looking to the President to use his influence to induce the mine owners to accept arbitration.

The official count will be necessary to determine who has been elected governor of Oregon. Unofficial returns indicate that Furnish, Republican, is 144 votes ahead of Chamberlain, Democrat.

Informations Filed.

Since May 31 informations have been filed in the office of the district clerk as follows: For violation of the Sunday law, W. I. Lyle 1, Fread H. Sweet 1, J. M. Allen 2, John Hilton 2, Jose A. Montoya 2, Patrick Higgins 2, Jose Baca 2, W. P. Younkers 3, G. Biavaschi 4, Melcor Silva 2, Eliso Barrerez 2, Jose Montoya 2, Thomas Armstrong 1, Harry Armstrong 1, Wm. D. Armstrong, 1, Frank Armstrong 1, Francisco Bargas 2, Juan Sanchez 1; for violating the gambling law, G. Biavaschi 2, W. J. Lyle and Jose P. Torres, W. P. Younker 2; for larceny of barbed wire, John Vivian; for murder, Jose Brito; for carrying deadly weapon, Jose Brito.

Get An Ax.

Delegate Rodey of New Mexico, whose fund of good stories is exhaustless, related this incident in the cloak room yesterday:

"I was traveling through the west a couple of years ago," he said, "when our train stopped at an eating place for dinner. The woman who kept the place was evidently an easterner and was quite anxious to spread around her the cultured habits of her section.

"Will you please give me a knife for my pie," said one of the men eating dinner.

"We don't eat pie with a knife here," replied the woman, quite severely.

"Then, madam," remarked the cowboy, quite unabashed, "will you please get me an ax."—Washington Post.

Closing Exercises.

The twenty-third annual commencement of Mt. Carmel academy, conducted by the Sisters of Loretto, will take place at the Garcia opera house June 12. The pupils show great interest and good will in the time devoted to careful training by their teachers and the entertainment promises to be a musical and dramatic treat. It is hoped that the people of Socorro will show their appreciation by a large attendance.

Howe's Great London Shows.

This enormous aggregation is advertised to exhibit in Socorro on June 13 giving two of their inevitable performances at 2 and 8 o'clock p. m. Don't miss seeing the beautiful and rare animals and beautiful ponies and positively the greatest trained animal exhibition in the world.

Cause of Delayed Trains.

This morning's dispatches state that six Santa Fe trains are stalled at Emporia, Kansas, by floods in the Cottonwood and Neosho rivers. The former river is three miles wide over the tracks and the latter five miles. Water is a foot deep over the rails.

The Big Show is Coming.

The agents of Howe's London Shows have been in our city arranging for the coming of that ever welcome amusement aggregation, and the small boy will be correspondingly happy, and everybody and his best girl will be at Socorro on circus day, Friday, June 13.

A New Branding Device.

The new branding iron is a self-heating arrangement. The handle is a hollow tube wherein is held gasoline. On the end of the tube is an air pump to force the gasoline down and assist in generating a gas to heat the brand on the other end. This brand is made of copper and is heated from the inside. As no fire reaches the outside of the brand it always remains clean and also preserves its perfect lines. The heat on the brand is kept at a certain continuous temperature as long as the gasoline remains in the tube. Three hours branding can be done with one filling, and it only requires a few minutes to refill, not as long as it takes to heat a new iron under the old method. As fast as an animal comes into the chute and is squeezed the iron is there ready to do its work. The action is more rapid and created quite considerable interest among stockmen who saw it work. It can be used in wind or rainstorm, for when once the gas heat is generated, which is accomplished in from five to ten minutes, the machine is ready for continuous use. Tests for speed as compared to the old way have been made and have resulted in branding at the rate of better than 100 head an hour, but then the cattle were not brought from the cars fast enough, and the full service of the machine was not shown.—Record Stockman.

To Denver, Colorado Springs and Pueblo.

Tickets on sale June 1 to October 1. Fare, one and one-third for the round trip. To points in Michigan, Minnesota, and Wisconsin, one fare plus \$2.00 for the round trip.
