OF HOME INTEREST

The New Mexico legislature meets next Monday.

Andreas Romero, a prominent citizen of Peralta, spent the early part of the week in Socorro.

After a snow and a cold snap for a little more than a week, the weather has come off warm and pleasant-just like spring.

The new board county commissioners were sworn in last Monday and after holding a brief ses- year old son, a year or so ago. sion adjourned until January 25.

Langford Johnson, of Mogollon is here attending court, as prosecuting witness against Riley little son.

James Shelton, of Cooney, 'was citizens of Cooney.

The Justice of the Peace election, last Monday, was a lively and exciting though peaceable one in Socorro. There were three candidates, Judge H. R. Harris, the present justice and police judge; ex-Probate Judge Camillo Baca and John A. O'Neill. Mr. Baca was elected by a large ma-

"Ex-Court Clerk" Jackey Mc-Cutchen doesn't seem to be picking on Editor Anderson, of the Rincon Weekly, as much as he used to do. What's the matter, Jackey? Did Anderson manage to get through your thick hide? Perhaps it is just as well you let up, Jackey, for Anderson is likely to peel you alive the next time.

The case of Maximialino Griego charged with murder of a man at San Antonio, some ten years ago has been on trial all this week, This morning (Saturday) the jury brought in a verdict of not guilty and Griego stands acquitted of the charge. The Riley case comes up next and it is likely it will take most of next week to try it.

The people all over the territory are carnest in their demands that the extortionate fees allowed by law to county officials shall be cut down. If this is not done by the present legislature, its members will return to their constituents next spring only to find themselves dead so far as their future political career is concerned.

Last Monday we was in the "The Maze" store at Albuquerque, and priced their goods-or some of them-for we could not price all. Their stock is simply immense and their prices are about two-thirds of those charged here in Socorro. Parties wishing goods should write them for price lists and save money by buying from them, for a dollar saved is two dollars made these hard

Bribery will not be so rampant in the legislature this winter as it was said to be two years ago. Miera-4. The people all over the territory are terribly alive to the wrongs perpetrated on on them by an infamous gang of selfish politicians, and it is safe to predict that both bribe givers and bribe takers will find themselves behind the jail walls if such a thing is attempted in the present legislature.

egg tonic with sherry, and who dislikes the taste of a raw egg, may be giad to know that the egg may be effectually disguised in a cup of coffee. Prepare the coffee to the taste, with cream and sugar, keeping it very hot until ready for the egg, which must be beaten thor-oughly in another cup, and the prepared coffee added by degrees to it. Drink is hot, and you will find it not only pala-table, but strengthening.—Philadelphia Baked Milk.

Put milk in an earthenware jar. Cover the opening with thick paper and bake in a moderate oven until the milk is as thick as cream. This is often palatable to invalids who do not care for milk.—New York World. Delaware's Finances.

Little Delaware's state finances are in a thoroughly thrifty condition, her as-sets exceeding her liabilities by nearly \$200,000. Her debt could be entirely wiped out at once but for the fact that wiped out at once but for the fact that some long term bonds cannot be advantageously called in. The state many years ago chartered several farmers' banks, all of which are now prosperous, and in these the state has considerable capital invested. The par value of the state's holdings in bank stock is just short of \$390,000, and the market value a triffs over \$475,000. The state are is a trifle over \$475,000. The state expenses, not including school appropria-tions, fall a little short of \$200,000 per Manzanares 30 dollars and 33 cts. | Year.-Rew York Sun.

The Daily Globe-Democrat.

The best daily newspaper that comes to this office-and perhaps the best all around daily newspaper published in the United States is the St. Louis Daily Globe Democrat. The news in all departments is full, accurate and complete. If you wish political July 7, No. 5412, H. Chambon news, the general news of the day, commercial, religious or the St. Louis Daily Globe-Democrat and so arranged that you can find the particular news you are looking for without searching the sporting news, you will find it in looking for without searching the paper all over for it. The telegraphic service of this newspaper is the fullest and most complete of any paper published in the United States or in the entire world. If you wish to keep informed on the current events of the day you can do no better than read the Globe-Democrat. The subscription price to mail subscribers, including the big Sunday edition is only \$6 per year for the daily, and only \$1 per year for semi-weekly.

THE ST. LOUIS GLOBE-DEMO-CRAT- Semi-Weekly- Tuesday and Friday-Eight Pages each issue-Sixteen Pages every week -ONLY ONE DOLLAR A YEAR, is unquestionably the biggest, best and cheapest national news journal published in the United States. Strictly Republican in politics, it still gives ALL THE NEWS, and gives it at least three days earlier than it can be had from any weekly paper published anywhere. It is indispensable to the farmer, merchant or professional man who desires to keep promptly and thoroughly posted, but has not the time to read a large daily paper; while its great variety of well selected reading matter makes it invaluable as a home and family paper. Remember the price, ONLY ONE DOLLAR A YEAR. Sample copies free.

Why is it that one man is old and deere pid at 45, and another hale and hearty at 80? The accident of birth has something to do with it. Some men are born stronger than others, but frequently the strong man becomes weak and the weak man strong. It depends on the care he takes that will wreck the engine. Likely as not this same man will totally ignore the call for help from some one of his own organs. He will let the trouble grow and grow until it lays him out in bed. If he keeps on working with a damaged body, he will soon wear it out. The strain on his nerves will tell on his constitution. He will not be hearty when he is old. The chances are he never will be \$\frac{1}{2}\$ at at all. Dr. Pierce's Golden Medical Discovery restores health. It is not only a cure for disease, it is a preventive. Whenever a man feels that he is losing weight and that his oidinary work gives him undue fatigue, he needs the Golden Medical Discovery." No matter how his trouble shows itself, this wonderful results, and not because there is snything supernatural about it—not because it does anything that is unexpected, or anything which his discoverer did not mean it to do. That it cures many different so-called diseases is the most natural thing in the world when you understand that nearly all diseases spring from the same thing—bad digestion and consequent impure blood. The "Discovery" makes the appetite good, the digestion strong, assimilation easy, and the blood rich and pure. No disease of the blood can withstand its action.

THE CHURCH WORLD.

THE British museum has no fewer than 700 theological books written concerning the creation of the world. THERE are 38 Endeavor societies in

China, with a membership of 1,069-out of 50,000 Christians in the empire. In a recent address Bishop Arthur

Cleveland Coxe condemned strongly the revelry and dissipation which he says mark the observance of Thanksgiving day. THE benevolent contributions of the

Church of the Pilgrims, Brooklyn, No Y., Dr. R. S. Storrs, pastor, amounted last year to over \$20,000, a larger sum than was raised for home expenses.

THE last year has been a prosperous one for the Baptist churches in this country. There has been a gain of 140,433 members, while the increase i the number of ordained ministers is nearly 2,000.

THE English evangelist, Henry Varley, has recently been holding union services in Oakland, Cal. The entire city has been aroused spiritually. Street preaching was a feature of the work, sometimes as many as forty ministers assisting.

Con. Jar Buar, of the Salvation Army in India, reports that in one district alone seventeen Hindoo temples have been surrendered and twelve whole vil-lages, the inhabitants of which have professed conversion, have placed themselves under the army.

Ir is estimated that there are 48,000 church edifices belonging to all branches of Methodism in the United States, having a total value of \$168,000,000 Their total benevolences for the year 1893 amounted to \$23,414,238, contributions to missions alone exceeding \$1,000,-

BARRELS OF MONEY.

THE king of Slam in his state attire is worth more than \$1,000,000. LONDON has thirty people whose in

comes are over \$500,000 a year. THE sultan of Turkey, with the aid of his numerous wives, contrives to an nually spend \$30,000,000.

Ir is asserted that the wealth of the Rothschilds has doubled in the last twenty years, and is now \$3,000,000,000. A NICE little sum in taxes is paid by Joshua M. Sears, of Boston. His real estate has an assessed valuation of \$3,-751,000, and the tax thereon is \$48,019.99. TWENTY MILLION dollars' worth of bank notes leave the Bank of England daily; while sixty folio volumes of

ledgers are filled with writing in keeping the accounts of a single day. Ir cost the British government for the twelve months ending April 1, \$450 .-000,000 to run itself and its income was \$465,000,000. For the coming year the expenditures will be \$461,000,000, of which \$6,000,000 is for torpedo boats. war vessels and the like.

To PREVENT its notes being forged by the aid of photography the Bank of France is about to print them in three colors-bistre, red and blue-and in new designs. The 1,000-franc notes are nearly ready, and the 100-franc note will be changed soon.

A Damp Detector. In England they have what is called a "damp detector," a silver trinket, not unlike a compass in appearance. At the back are small heles in the silver, through which the damp passes and moves the needle until it points to the word "damp." By the aid of this contrivance unaired sheets can be detected. -Hardware
