VOL. 24

SOCORRO, NEW MEXICO, SATURDAY, OCTOBER 20, 1906

NO. 36

SHERIFF LEANDRO BACA

Still Holds Possession of His Office in Spite of Governor Hagerman's Order

JUDGE PARKER IS PROHIBITED

By Supreme Court from Recognizing Masias Baca as Sheriff of Socorro County

Events have not been moving very rapidly, though rather decisively, toward the settlement of the question as to who is sheriff of Socorro county. As the readers of the Chieftain well know, Governor Hagerman recently issued an order of removal against Sheriff Leandro Baca for alleged malfeasance in office. Mr. Baca determined to test the question of the governor's power in the premises, and has continued to hold possession of the office subject to an order of the court. The following from Tuesday's issue of the Santa Fe New Mexican tells the rest of the story to date. Says the New Mexican:

"E. C. de Baca, acting as clerk of the Territorial Supreme Court during the absence of Jose D. Sena, this noon received through E. W. Dobson, of Albuquerque, attorney for Sheriff Leandro Baca, of Socorro county, an order issued by Hon. E. A. Mann, Associate Justice of the Territorial Supreme Court, commanding Judge Frank W. Parker individually and as presiding judge of the court of the Third Judicial District Court for the County of Socorro to refrain from recognizing in any manner or form Masias Baca as sheriff of Socorro County. Masias Baca as well remembered was recently appointed by Governor Herbert J. Hagerman to succeed Sheriff Leandro Baca removed for alleged malfeasance in office.

"The writ was issued this afternoon and was made returnable at the adjourned term of the Territorial Supreme Court, opening October 27 of this month. The original writ was sent to Judge Parker at Las Cruces this evening and a copy to Attorney E. W. Dobson at Albuquerque. The writ is identical with that granted by Judge Edward A. Mann upon Judge Ira A. Abbott on petition of Thomas S. Hubbell who had been removed as sheriff of Bernalillo County, by governor M. A. Otero, except that in the Baca case the office has not been turned over to the new appointee while in the Hubbell case it had and therefore the court claimed no jurisdiction. The writ was issued as a matter of course and not upon the merits of the case."

WAS ATTACKED BY A SKUNK

Little Daughter of Mr. and Mrs. Geo. H. Rowe is the Sufferer.

A recent press dispatch published in the territorial papers says: "The little girl of Mr. and Mrs. G. H. Rowe of Clear Creek, a little settlement in the Mogollon Mountains of this county, was playing on the porch at her home recently when she was attacked and bitten nine times on the legs by a skunk. The mother heard the child scream and kicked the animal off the porch. A cowboy killed the animal. Mrs. Rowe is now en route to the Pasteur Institute at Chicago to have the child treated. She fears rabies may develop."

Leo Cortesy returned to Socorro the first of the week from a long absence spent in traveling over the northwestern states and Mexico in the employ of the Southern Carnival Company. He will visit at his mother's home for about a month and then go to Mexico.

C. T. Brown returned home Wednesday morning from a ten day's absence in Mexico on mining business. On the trip from El Paso to Chihuahua Mr. Brown and other passengers had a thrilling experience a short distance south of the latter place when the entire train ran off the track. There was a pretty general shake up but luckily nobody was hurt.

SCHOOL OF MINES NOTES

Items of Interest Gathered at the Institution During the Past Week

Rue N. Hines attended the sessions of the grand Masonic bodies at Albuquerque the first of the week.

Prof. R. B. Brinsmade, who occupied the chair of Mine Engineering last year, was a visitor in Socorro yesterday morning.

E. N. Hobart of Silver City, a recent graduate of the State Normal School at that place, enrolled for an engineering course Monday. And still the number grows.

Dr. C. G. Duncan favored faculty and students with a lecture Monday on the subject of "Hygiene and First Aid." The Doctor's talk was practical and exceedingly interesting and was listened to with perfect attention throughout. Other lectures of a like character are contemplated.

Says the Denver Mining Reporter: "The New Mexico School of Mines opened the new school year of 1906-07 last month. The enrollment exceeded that of last year, and there are still a number of former students at work in the mines who will return for registration at an early date. The character of the students attending this school is very satisfactory, and the positions held by the graduates of the institution indicate that their instruction is of good order."

CROSS ON STATEHOOD VOTE

Attorney General Says "Yes" or "No" Must be Signified by Mark.

In certain anti-joint statehood sections of the territory an impression prevails that a ballot without a cross against either the "yes" or "no" on the statehood proposition is to be counted as a vote against statehood.

The following is the opinion of the attorney general on the subject:

October 17, 1906. Hon. C. V. Safford, Secretary Republican Central Committee, Santa Fe, New Mexico.

Sir—I have your letter of the 16th inst., in which you ask, "In the event a voter neglects to cross either the 'yes' or 'no' on his ballot with reference to the statehood proposition, please advise if the ballot on that question should be counted either for or against."

You are advised that in such an event the ballot should not be counted for or against on the statehood question. Respectfully submitted.

W. C. REID, Attorney General.

EVERY COUNTY FOR ANDREWS

Or Nearly Every One, Is the Opinion of Chairman H. O. Bursum

According to the Albuquerque Morning Journal the prospect of the 10,000 majority for Mr. Andrews looks exceedingly bright. Says the Journal: "Chairman Bursum, of the territorial republican central committee, says the election of Candidate Andrews, for delegate to congress, looks exceedingly bright, and he predicts a majority of 10,000 votes for the head of the republican ticket. Chairman Bursum is of the opinion that Mr. Andrews will carry every county in the territory, with the exception of two or three known democratic counties."

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that can not be cured by Hall's Catarrh Cure. F. J. CHENEY & Co., Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions, and financially able to carry out any obligations made by his firm. W. ALDING, KINNAN & MARVIN, Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally acting directly upon the blood and mucous surface of the system. Testimonials sent free. Price, 75c. per bottle. Sold by all Druggists.

Take Hall's Family Pills for constipation.

FIRST REPUBLICAN GUN

Will Be Heard in Las Cruces Tonight After the Dona Ana County Convention

BURSUM AND ANDREWS SPEAK

Outlook Never Brighter for Republican Party in the Territory Says Mr. Bursum

According to the Albuquerque Journal, the first large meeting held by the republicans thus far during the present congressional campaign will be held Saturday night in Las Cruces, following the meeting of the Dona Ana county republican convention which takes place in Las Cruces Saturday afternoon.

Speakers at this meeting will be Delegate W. H. Andrews, Chairman H. O. Bursum of the republican committee, Col. G. W. Prichard, and a number of southern New Mexico men.

Delegate Andrews and a party of friends will leave Albuquerque Friday night for Las Cruces. The meeting will be a big one and is planned to start off the republican campaign in Dona Ana County with a rush.

Chairman Bursum returned to Albuquerque yesterday from Socorro where he has been giving a little attention to local politics. The Socorro county convention will probably not occur until the end of the month.

"The outlook was never better for the republican party in the territory," said Mr. Bursum last night. "The fact of the matter is, that if we can tell by present indications the majority which will be given Mr. Andrews will break all records and will distance our expectations. The trend is all to the republican candidate and I confidently expect a magnificent majority such as has never been given to a candidate in this territory before."

MASONIC MEDALS BESTOWED

Grand Master Jas. G. Fitch of This City One of the Recipients

Before the grand lodge closed yesterday afternoon three handsome medals, containing the Grand Master's jewel were presented to Grand Masters James G. Fitch of Socorro, Hon. W. B. Childers of this city and to Col. Maximilian Frost of Santa Fe, says the Albuquerque Citizen. The medal was sent to Frost by special deputy he was unable to make successful arrangements to be in attendance at the meetings. Col. Frost is a past grand master of the New Mexico Grand Lodge and has reached the highest of degrees in Masonry. W. B. Childers was a grand master of the lodge twenty-three years ago and is therefore the oldest active past Grand Master.

MASONIC GRAND OFFICERS

Were Elected at Albuquerque Tuesday for the Ensuing Year

At the session of the Grand Lodge of Free Masons in Albuquerque Tuesday, the following officers were elected to serve for the ensuing Masonic year: A. M. Pratt, Carlsbad, Grand Master; J. W. Wilson, Deputy Grand Master; C. D. Stevens, Raton, Grand Senior Warden; C. F. Easley, Santa Fe, Grand Junior Warden; Arthur J. Maloy, Albuquerque, Grand Treasurer; A. A. Keen, Albuquerque, Grand Secretary.

The next Grand communication will be held in Carlsbad in Eddy County.

One Democrat Left.

Thos J. Ross, the cattle man of Sierra county, was in the city to consult with ex-Boss Hopewell of the democrat party who formerly resided in that county, says the Albuquerque Morning Journal. Mr. Ross is a candidate on the democrat ticket for the legislative district of Socorro and Sierra counties and desires some pointers as to how he can be elected. Mr. Ross was turned over to "Boss" Marron, the only successful one-man boss of a big party today in the territory.

EDELEN-BERRY WEDDING

At Epiphany Church Tuesday Evening Was One of the Prettiest in Socorro in Years

VERY IMPRESSIVE CEREMONY

By Rev. W. R. Dye of Santa Fe—Bride and Groom Go To Colorado

One of the prettiest weddings which have occurred in Socorro in recent years was celebrated at Epiphany church Tuesday evening, when in presence of her relatives, some of her young friends and a few intimate friends of the family, Miss Pearl Berry, youngest daughter of Mrs. Jas. F. Berry of this city, gave her heart and hand into the keeping of Mr. Alexander W. Edelen of Elkton, Colorado. The church had been tastefully decorated for the occasion, and, in its color scheme of pink and white, presented an appearance that could not fail to be pleasing to the most artistic eye.

The entrance of the bridal party at half past eight was the signal for the organist, Mrs. A. L. Mitchell, to strike up the strains of the wedding march. The bride's appearance as she proceeded slowly up the aisle leaning on the arm of Dr. C. G. Duncan attracted many admiring glances. She was gowned in white satin, wore a bridal veil, and carried a shower bouquet of bride's roses.

Miss Effie Berry, the bridesmaid, looked extremely pretty in a gown of pink net over white taffeta and a picture hat of white and pink and carrying a bouquet of brides roses. The party was met by the groom and his best man, Mr. O. D. Robbins, at the chancel steps, where at the proper moment Doctor Duncan gave the bride into the charge of the man who had won her. Here, also, Rev. W. R. Dye of Santa Fe performed the beautiful marriage ceremony of the Episcopal church in a manner that few if any of those present had ever seen surpassed in impressiveness.

At the conclusion of the ceremony the bridal party was driven to the home of the bride's mother on Eaton avenue, where a few intimate friends had been invited to meet them. The house had been beautifully decorated for the occasion, and here the bride and groom were the recipients of a world of heartfelt good wishes. Most of those present had known the bride since her childhood and had learned to admire and respect the groom a year before when he was a student at the School of Mines. It is rarely, therefore, that expressions of good will are more genuine even on occasions similar to this. A pleasant social hour was spent, dainty refreshments were served, and good byes were said. Mr. and Mrs. Edelen left Socorro at 4:20 Wednesday morning for their prospective home in Elkton, Colorado, where he holds an excellent position with the Elkton Consolidated Mining and Milling Company.

McKINLEY-McINTYRE.

The Marriage of Two Popular and Interesting Young People at Carthage.

A very pretty and interesting wedding occurred at Carthage on Thursday of this week, when Miss Agnes McIntyre became the bride of Mr. John McKinley of that place. The ceremony, which was performed by Rev. H. M. Perkins, pastor of the first Presbyterian church of Socorro, at the home of the bride's mother, was attended by almost the entire community and proved to be among the most pleasant social events that have taken place in that locality in years. After the conclusion of the ceremony, and congratulations had been extended, a most delightful and well appointed feast was served. The happy young couple will make their future home in Carthage where both are well and favorably known.

Hon. W. E. Martin came up from Las Cruces Friday and remained in the city for a day, returning south this morning.

MR. BURSUM'S PAYMENT

Of Funds to the Territory Not to Be Considered in Light of Final Settlement

RETAINS ALL LEGAL RIGHTS

And More Will Be Heard of the Matter Later, Says the Las Vegas Optic

A recent able and timely editorial in the Las Vegas Optic puts the matter of the payment of certain funds into the territorial treasury by Mr. Bursum in so clear a light that the Chieftain gladly reproduces the editorial for the benefit of its readers. Says the Optic:

"Two or three papers of the territory who have been inclined to censure Mr. Bursum despite the weakness of the report that was published covering penitentiary matters and the failure of the Santa Fe county grand jury to obtain an indictment against him, have sought to make capital of the fact that the gentleman paid over to the territory a couple of thousand dollars alleged to be owing from the former superintendent to the penitentiary.

"Mr. Bursum paid this sum under protest wholly upon the ex parte showing of the territory. The whole matter is yet to be subjected and at Mr. Bursum's instance to a thorough investigation of the courts and the legislature, and it is more than probable that all of the money paid over and something additional will be found to belong to Mr. Bursum and not to the territory.

"The attorney general sought to institute a civil suit for the recovery of certain sums of money which it was claimed Mr. Bursum owed. This was done right in the heart of a strenuous political campaign. Mr. Bursum as republican chairman could not spare the time to prepare his defence and make the researches and examine accounts necessary to show that every penny of this money had been rightfully devoted to the requirement of the penitentiary.

"Therefore he directed his attorney to go to Santa Fe and make the best arrangements he could for the postponement of the matter until after election. It was necessary to put up the amount of money involved and this Mr. Bursum did and in doing so he does not prejudice his cause or admit that this money belongs to the territory. He will be prepared to make a full showing and it is rumored that he will file a suit against the territory for money in excess of the amount involved which the territory owes him on penitentiary accounts."

MIDLAND OPERA QUINTETTE

Their Entertainment at the Opera House Wednesday Night Proved Very Enjoyable

The Chieftain's prediction that the entertainment to be given by the Midland Quintette at the opera house Wednesday evening would prove to be an exceedingly enjoyable one has been fully verified. A large and attentive audience listened to the rendering of the program and found very much to commend and very little to criticize from beginning to end. In short, everybody present appeared to enjoy the entertainment greatly. It is hoped and believed that the pleasure derived from this entertainment will insure an even more liberal patronage of the rest of the series of five to be offered this winter.

You are Invited.

and especially requested to be present at the Presbyterian church tomorrow morning at 11 o'clock.

We want every man, woman and young person who has the interest of Socorro and community at heart to be present. Good music, no sermon, address on matters of local interest by pastor. Sunday school at 10 o'clock. Preaching service at 7:30 p. m.

Rev. W. R. Dye's sermons at the Episcopal church Sunday were greatly enjoyed by the large congregations in attendance.

THE REAPPORTIONMENT

Recently Made by Governor Hagerman Has Stood the Test of the Court

HON. T. B. CATRON FAILED

In His Effort to Establish the Illegality of the Governor's Action

A press dispatch from Albuquerque to the Santa Fe New Mexican under date of October 15 says: "At 3 o'clock this afternoon Judge Ira A. Abbott handed down an opinion in the case of Thomas Benton Catron vs. the county of Santa Fe et al. in which the complaint asked for a mandamus of Santa Fe County and other defendants to carry out the provisions of the legislative apportionment made in 1891 by ex-Governor Prince, and to ignore and to set aside the provisions of the apportionment recently made by Governor Hagerman. In the decision Judge Abbott fully sustains the validity and legality of the apportionment made by Governor Hagerman and refuses to grant the mandamus prayed for in the complaint. The decision is very lengthy."

GRAND COMMANDERY

Elected New Officers at Grand Conclave of Knights Templar in Albuquerque

The sixth annual Grand Conclave of the Grand Commandery of Knights Templar, of New Mexico, met in Albuquerque today in annual session. The grand officers are as follows:

A. H. Harlee, Silver City, Grand Commander; Arthur Everett, Albuquerque, Deputy Grand Commander; J. C. Slack, Clayton, Grand Generalissimo; O. L. Gregory, Las Vegas, Grand Captain General; J. H. Wroth, Albuquerque, Grand Senior Warden; J. W. Donavan, Raton, Grand Junior Warden; Frank Henning, Raton, Grand Prelate; J. A. Maloy, Albuquerque, Grand Treasurer; A. A. Keen, Albuquerque, Grand Recorder; C. D. Stevens, Raton, Grand Standard Bearer; C. D. Boucher, Las Vegas, Grand Sword Bearer; W. P. Fox, Albuquerque, Grand Warden; A. M. Whitcomb, Albuquerque, Grand Captain of the Guard.

O. E. S. GRAND OFFICERS

Elected for Ensuing Year at Albuquerque Thursday Afternoon

At the regular annual session of the grand chapter of the Eastern Star at Albuquerque Thursday afternoon grand officers were elected for the ensuing year as follows:

Grand Matron—Lena Bolton, of Carlsbad, N. M.
Grand Patron—John E. Griffith, of Socorro.
Associate Grand Matron—Mrs. Mae Browne, of Las Vegas.
Associate Grand Patron—C. D. Stevens, of Raton.
Grand Secretary—Mrs. Minnie Miller, of Albuquerque.
Grand Secretary—Mrs. Kate Moir, of Deming.
Grand Conductress—Mrs. Mary Duncan, of Socorro.
Associate Grand Conductress—Mrs. Minerva Reed, of Las Vegas.

SMELTER TO BE ERECTED

In Eastern Socorro County According to Statements of R. B. Thomas

Col. R. B. Thomas, who is operating immense iron deposits in eastern Socorro county, is in the city on business, says the Albuquerque Citizen. Mr. Thomas states that his company will soon begin active operations and will build a railroad to transport the iron, to connect either with the Santa Fe or the Rock Island roads, at which point of connection they will erect a hundred and fifty-ton smelter for the manufacture of pig iron. The capital has all been raised and the work will begin shortly and the lighting of iron furnaces in southern New Mexico is an assured fact in the near future.

OFFICIAL PAPER OF SOCORRO COUNTY.

SATURDAY, OCT. 20, 1906.

REPUBLICAN TICKET.

For Delegate to Congress
WILLIAM H. ANDREWS
of Bernalillo County

It is only a little more than two weeks until election day and politically Socorro county is still as placid as a summer sea.

Even democrats concede that Mr. Andrews will be elected to succeed himself as delegate to congress, but the 10,000 majority proposition makes them wince a little.

O. A. LARRAZOLO, the democratic aspirant for the honor of representing New Mexico in congress, tried for the same honor four years ago and made a good impression, even though then, as now, his race was a hopeless one.

SOCORRO county's affairs have been very acceptably administered by the present republican county officials and that fact alone constitutes a sufficient argument against turning the administration of those affairs over to democratic aspirants to office.

The democratic candidate for delegate to congress is booked to expound his type of democracy to a Socorro audience this evening. Mr. Larrazolo is an eloquent speaker, but it is morally certain that not a single republican will be seduced by the charm of his oratory.

CHAIRMAN BURSUM of the republican territorial central committee is an exceedingly busy man these days. According to precedent the results of his quiet but effective direction of affairs will be seen November sixth in a rousing majority for the republican territorial ticket.

Up in Bernalillo county the political pot is boiling as it never boiled before. Those republicans who are opposed to the return of the Hubbells to power have fused with the democrats, and the once powerful bosses will not have an easy time of it to recover their lost prestige.

STUDENTS continue to arrive at the School of Mines and it is now safe to predict with certainty that the enrollment in the technical courses of the institution this year will considerably exceed that of last year. The School of Mines is progressing satisfactorily to all concerned.

SOCORRO county democrats are not cutting much ice just at present. In fact, there are not many of them left. If, however, their present purpose of nominating a people's ticket is carried out and compels the nomination of an unusually good republican ticket, they will still be able to point to some reason for their continued existence as democrats.

ALL question as to whether the executive of the territory has the power to remove a county officer under charge of malfeasance in office, should be settled, settled at once, and settled right. There is good reason to expect that all doubt on the subject will be cleared away at an early date, for the case of Leandro Baca, who still holds possession of the office of sheriff of Socorro county in spite of an order of removal issued against him by Governor Hagerman, is set for the atten-

tion of the supreme court in a few days. It is to be hoped that the action of the court will bear directly upon the main question at issue. At any rate, the court's action will be awaited with no little public interest.

HON. T. B. CATRON has appealed to the courts to test the legality of Governor Hagerman's recent re-apportionment of the territory into legislative districts. Under the old apportionment Santa Fe county alone constituted a council district, while under the new apportionment Santa Fe and Sandoval counties together constitute such a district. Mr. Catron recently regained control of the republican party machinery in Santa Fe county and was designated as that county's choice as a candidate for the position of councilman from the new district. In a joint convention of the two counties, however, Mr. Catron was defeated for the nomination, and that defeat is generally supposed to be responsible for his appeal to the courts. Judge Abbott of the second judicial district has just decided adversely to Mr. Catron's contention, and the case may be taken to the supreme court. The progress of the case will be watched with more than ordinary interest, for its final disposition may lead to serious political complications.

To one not familiar with the drift of public sentiment in New Mexico, it may seem a little strange that there is almost no agitation whatever of the statehood question at this time. The question is supposed to be almost vital to the welfare of the territory and election day is only a little more than two weeks away, and yet in the discussion of political questions that of statehood does not by any means take the foremost place that it might be expected to take. This does not by any means indicate a lack of interest in the subject of statehood. It is nothing more nor less than a recognition of the fact that it is settled that New Mexico will give a substantial majority in favor of joint statehood, that Arizona will give a substantial majority against that important measure, and that any agitation whatever in this territory would not materially affect the final result. When the question of joint statehood is disposed of, the effort to secure separate statehood for New Mexico will be renewed, and there is good reason to expect that the effort will soon at last be crowned with success.

Wounds Bruises and Burns.
By applying an antiseptic dressing to wounds, bruises, burns and like injuries before inflammation sets in, they may be healed without maturation and in about one-third the time required by the old treatment. This is the greatest discovery and triumph of modern surgery. Chamberlain's Pain Balm acts on the same principle. It is an antiseptic and when applied to such injuries, causes them to heal very quickly. It also allays the pain and soreness and prevents any danger of blood poisoning. Keep a bottle of Pain Balm in your home and it will save you time and money, not to mention the inconvenience and suffering such injuries entail. For sale by All Druggists.

Lunar Athletics.
The "man in the moon" must surely regard with amused contempt our much vaunted athletic records. A good terrestrial athlete could cover about 120 feet on the moon in a running broad jump, while leaping over the barn would be a very commonplace feat. He would find no difficulty in carrying six times as much and running six times as fast as he could on earth, all because the moon attracts bodies with but one sixth of the force of the earth.

The Singer 66-1 ball bearing for sale by Geo. Sickles.

SWEEPING THE HOUSE.

How to Prevent Making a Great Dust.

When you sweep a room raise as little dust as possible, because this dust when breathed irritates the nose and throat and may set up catarrh. Some of the dust breathed in dusty air reaches the lungs, making parts of them black and hard and useless. If the dust in the air you breathe contains the germs of consumption—tubercle bacilli—you run the risk of getting consumption yourself, says the Pittsburg Press. To prevent making dust in sweeping use moist sawdust on bare floors. When the room is carpeted, moisten a newspaper and tear it into small scraps and scatter these upon the carpet where you begin sweeping.

As you sweep brush the papers along with the broom and they will catch most of the dust and hold it fast, just as the sawdust does on bare floors. Do not have either the paper or the sawdust dripping wet, only moist.

In dusting a room don't use a feather duster because this does not remove the dust from the room but only brushes it into the air so that you breathe it in or it settles down, and then you have to do the work over again.

Use soft dry cloths to dust with and shake them frequently out of the window or use slightly moistened cloths and rinse them out in water when you have finished. In this way you get the dust out of the room.

In cleaning rooms you should remember that dust settles upon the floor as well as on the furniture and is stirred into the air we breathe by walking over them.

You can easily remove all this dust in rooms which have bare floors in houses, stores, shops, schoolrooms, etc.—after the dust has settled by passing over the floor a mop which has been wrung out so as to be only moist, not dripping wet.

Danger From The Plague.

There's grave danger from the plague of Coughs and Colds that are so prevalent, unless you take Dr. King's New Discovery for Consumption, Coughs and Colds. Mrs. Geo. Walls, of Forest City, Me., writes: "It's a Godsend to people living in climates where coughs and colds prevail. I find it quickly end them. It prevents pneumonia, cures la grippe, gives wonderful relief in asthma and hay fever, and makes weak lungs strong enough to ward off consumption, coughs and colds. 50c and \$1.00. Guaranteed by the Socorro Drug and Supply Co. Trial bottle free."

Land Crabs.

Crabs are generally supposed to live in the ocean, but there is one species that lives on the land. It is found on the island of Jamaica, in the West Indies. It burrows in the sand sometimes two or three miles from the sea. It has two long claws. In attacking an enemy it binds it with one claw. The crabs stay in the ground during the day and hunt for their food at night. They visit the ocean once a year to lay their eggs. They travel by night, when they are caught in great numbers.

Torments of Tetter and Eczema Allayed.

The intense itching characteristic of eczema, tetter and like skin diseases is instantly allayed by applying Chamberlain's Salve and many severe cases have been permanently cured by its use. For sale by All Druggists.

France's Fine Roads.

France is one of the best paved countries in the world. The first Napoleon instituted and carried out a road system which gave France the roads which are lasting monuments to the Napoleonic foresight and shrewdness. These roads, always passable and reaching all the centers of population, are competitors of the railways.

Furnished rooms at Winkler's.

KILLING DUMB ANIMALS.

Cases Where the Use of Chloroform Is Positively Cruel.

"Why will so many people cling to the idea that chloroforming is the most merciful means of death possible for dumb animals?" asked a veterinarian recently. "Only the other day I was called upon to perform the trying and almost impossible task of killing an old horse in this way."

"The horse, it seems, had been the pet of a wealthy woman who left provision for him in her will and decreed that if ever the family to whose care she entrusted him should deem it necessary to end his life this should be done with chloroform, so that he might be assured a painless death. Then the horse became blind and otherwise disabled and the family decided that death would be a mercy."

"Of course the provision of the will had to be carried out but no greater case of mistaken kindness could have been possible. It is impossible to administer sufficient chloroform at one time to kill an animal the size of a horse, so dose after dose had to be given, the poor brute slowly and painfully smothering to death."

"Chloroform is all right for cats or dogs but for larger animals it is a positive cruelty, whereas a pistol, well aimed at the head of any beast, will send it out of life so quickly that it has not time to feel the shot or realize what has happened."—New York Press.

A Young Mother at 70.

"My mother has suddenly been made young at 70. Twenty years of intense suffering from dyspepsia had entirely disabled her, until six months ago, when she began taking Electric Bitters, which have completely cured her and restored the strength and activity she had in the prime of life," writes Mrs. W. L. Gilpatrick, of Danforth, Me. Greatest restorative medicine on the globe. Sets stomach, liver and kidneys right, purifies the blood, and cures malaria, biliousness and weaknesses. Wonderful nerve tonic. Price 50c. Guaranteed by the Socorro Drug and Supply Co.

Animals' Queer Ways.

Birds as well as four footed animals and insects often avail themselves of the labors of others in home making. I have a photograph of a barred owl nest in a remodeled hawk nest. Skunks use woodchuck burrows, white footed mice and flying squirrels are fond of building holes in decaying trees made by woodpeckers, and bumblebees take possession of mice nests in the ground.—St. Nicholas.

An Awful Cough Cured.

"Two years ago our little girl had a touch of pneumonia, which left her with an awful cough. She had spells of coughing, just like one with the whooping cough and some thought she would not get well at all. We got a bottle of Chamberlain's Cough Remedy, which acted like a charm. She stopped coughing and got stout and fat," writes Mrs. Ora Bussard, Brubaker, Ill. This remedy is for sale by All Druggists.

A Queer Perfume.

Several substances, whose odor is to western nostrils exceedingly repugnant, are highly esteemed in the east as perfumes. In Persia and Afghanistan, asafetida is considered a delicate perfume and many luxurious persons carry a quantity of it in their pockets or in a bag suspended from the neck.

Blood Poisoning

results from chronic constipation, which is quickly cured by Dr. King's New Life Pills. They remove all poisonous germs from the system and infuse new life and vigor; cure sour stomach, nausea, headache, dizziness and colic, without gripping or discomfort. 25c. Guaranteed by the Socorro Drug and Supply Co.

The Story of a Medicine.

Its name—"Golden Medical Discovery" was suggested by one of its most important and valuable ingredients—Golden Seal root.

Nearly forty years ago, Dr. Pierce discovered that he could, by the use of pure, triple-refined glycerine, aided by a certain degree of constantly maintained heat and with the aid of apparatus and appliances designed for that purpose, extract from our most valuable native medicinal roots their curative properties much better than by the use of alcohol, so generally employed. So the now world-famed "Golden Medical Discovery," for the cure of weak stomach, indigestion, or dyspepsia, torpid liver, or biliousness and kindred derangements was first made, as it ever since has been, without a particle of alcohol in its make-up.

A glance at the full list of its ingredients, printed on every bottle-wrapper, will show that it is made from the most valuable medicinal roots found growing in our American forests. All these ingredients have received the strongest endorsement from the leading medical experts, teachers and writers on *Materia Medica* who recommend them as the very best remedies for the diseases for which "Golden Medical Discovery" is advised.

A little book of these endorsements has been compiled by Dr. R. V. Pierce, of Buffalo, N. Y., and will be mailed free to any one asking same by postal card, or letter addressed to the Doctor as above. From these endorsements, copied from standard medical books of all the different schools of practice, it will be found that the ingredients composing the "Golden Medical Discovery" are advised not only for the cure of the above mentioned diseases, but also for the cure of all catarrhal, bronchial and throat affections, accompanied with catarrhal discharges, hoarseness, sore throat, lingering, or hang-on-coughs, and all those wasting affections which, if not promptly and properly treated are liable to terminate in consumption. Take Dr. Pierce's Discovery in time and persevere in its use until you give it a fair trial and it is not likely to disappoint. Too much must not be expected of it. It will not perform miracles. I will not cure consumption in its advanced stages. No medicine will. It will cure the affections that lead up to consumption, if taken in time.

A Queer Wager.

There are men whose pride is in the stoic endurance of acute discomfort. They insist upon doing unpleasant things in order to convince themselves that they can do them. At Oxford some years ago there was an eminent Rugby football player whose passion was to discover the most uncomfortable things and then do them. One evening a humorist suggested that—as it was January—is would be rather beastly to sit in a cold tub all night long. The foot baller at once offered to wager that he could sit till morning chapel time in his cold tub. And he did it.—London Chronicle.

Sick Headache Cured.

Sick headache is caused by derangement of the stomach and by indigestion. Chamberlain's Stomach and Liver Tablets correct these disorders and effect a cure. By taking these tablets as soon as the first indication of the disease appears, the attack may be warded off. For sale by All Druggists.

Effective Weapons.

During the sieges of mediaeval times it was very common for the besiegers to throw from their catapults and other military engines dead bodies of dogs, swine together with pieces of horse flesh and similar carrion, into the city or castle besieged in order that the defenders might by the stench of this putridity be forced to the surrender.

Bile Poison

has a very bad effect on your system. It disorders your stomach and digestive apparatus, taints your blood and causes constipation, with all its fearful ills.

Thedford's Black-Draught

is a bland tonic, liver regulator, and blood purifier. It gets rid of the poisons caused by over-supply of bile, and quickly cures bilious headaches, dizziness, loss of appetite, nausea, indigestion, constipation, malaria, chills and fever, jaundice, nervousness, irritability, melancholia, and all sickness due to disordered liver. It is not a cathartic, but a gentle, herbal, liver medicine, which eases without irritating.

Price 25c at all Druggists.

SKELETON EXCITES COMMENT.

Was Discovered in an Old Adobe
House in Santa Fe.

Since the discovery of the skele-
ton in the old adobe house at
134 West De Vargas street, there
has been much speculation among
the old inhabitants as to who was
the victim of the supposed murder,
says the New Mexican. The bones
were gathered Saturday
and buried in an unmarked grave
at Rosario cemetery. City Mar-
shal Charles Conklin, who has
spent his entire lifetime in Santa
Fe, says he remembers when the
dwelling in which the gruesome
find was made, was built. Accord-
ing to his recollection it was er-
ected about forty years ago. He
does not remember of any one dis-
appearing from this house and
does not take much stock in the
theory of foul play. A story is
now going the rounds to the ef-
fect that this skeleton may be
all that remains of a young army
officer posted here in the early days
and failed to put in an appearance
one morning. When he was re-
ported missing a search was in-
stituted but no trace of him could
be found. He had disappeared
as completely as if the earth had
opened and swallowed him.

The Sexes.

Every continent, except the
American, has more females than
males. Europe has two-thirds of
a million more women than men.

CHINA'S AWAKENING.

Wonderful Improvement in Peking
in the Past Two Years.

A competent authority on
things Chinese states that dur-
ing the last two years China has
made more real advancement
than in the previous millennium.
That his judgement is sound is
apparent to those who enjoy the
vantage point of a residence in
Peking. It has long been pre-
dicted that changes would be
surprising in their speed but the
most sanguine had not hoped for
what is taking place.

In passing through Peking the
streets seem to be the most strik-
ing phenomenon. Three years
ago there seemed little hope that
the black mud and the disgusting
sights and stench would ever
give place to anything better.
The board that has been appoint-
ed to repair the streets was con-
sidered to have an Augean task
and was the butt of many face-
tious remarks. Now the broad
thoroughfares are fast being con-
verted into handsome avenues.
The central portion a strip of
about seven yards in width is be-
ing well macadamized with the
aid of steam rollers. This is
flanked on each side by shallow
drains of brickwork, a row of
trees, an unpaved strip of five
yards in good repair, then a curb-
ed sidewalk of varying width
cheaply cemented with pounded
lime and earth. The building
line has been straightened, nec-
essitating the rebuilding of many
shops the rehabilitation of which
is in keeping with the rest. Long
forgotten sewers have been re-
opened and places of convenience
erected the use of which is made
compulsory. Innumerable un-
sightly sheds which have occu-
pied half the road way are being
removed forever it is hoped and
the squatters have sought other
fields in which to ply their trades.
The new roadways are guarded
by uniformed police in their
sentry boxes and kept in order by
numerous laborers. Fine telephone
poles strung with countless cop-
per wires replace the topsy turvy
line of the last few years. The
telephone is no longer a curiosity
but is fast becoming a necessity
to progressive business men—Joseph Franklin Griggs in Century.

A Badly Burned Girl

KEEP YOUR BLOOD CLEAN

UNION AND QUAY COUNTIES.

The Land Office in the Clayton Dis-
trict Doing Big Business.

The officials of the United
States land office at Clayton have
been kept very busy this year and
especially since the first of April.
During the six months ending
September 30 3,701 homestead
entries have been made, aggregat-
ing 585,000 acres; during the
same time, about 2,000 applica-
tions for entries have either been
rejected or suspended. Five
clerks are now employed in the
office and the services of several
more are required. During the
same time 128 desert land entries
have been allowed which contain
about 21,400 acres; 157 final
homestead proofs have been made
the land therein described con-
taining 25,000 acres. Many con-
test cases have been filed and are
being tried constantly; the major-
ity of them end in the cancel-
lation of the entries contested
thus throwing the land contested
in them back into the public do-
main for entry by other appli-
cants. The emigration into
eastern and southern Union and
eastern counties is very great at
present and if it keeps up within
a year there will be no public land
open for land entry in those sec-
tions. Lands are rising in value
as settlers are coming in and as
homesteads and desert lands en-
tries are made. Even relinquish-
ments and homesteads and desert
land entries bring from two to
three dollars per acre. One re-
linquishment recently was pur-
chased for \$600 from the original
entryman and the purchaser in
three days sold the same for \$750
to an intending settler, thus clear-
ing \$150 in seventy-two hours.

The sheep and cattle that have
grazed in the parts of Union and
Quay counties above referred to
for many years are being driven
out slowly but surely and are
going west and south. The new
settlers fence with wire and posts
as soon as they have taken up
claims thus shutting off the use
of the public domain from the
live stock.

The Rose of Jericho.

The Rose of Jericho is also
called the resurrection plant from
the fact that, after being appar-
ently dead and dried, it may be
revived and made to bloom by
placing it in a bowl of water.

Notice of Suit.

In the District Court of the Third
Judicial District of the Territory of
New Mexico, within and for the county
of Socorro,
Mary McGee,

Plaintiff,

vs. No. 5140
James H. McGee and the un-
known heirs of William
Parks, Defendants.

The above named defendants are
hereby notified that the plaintiff has
filed a complaint in the above entitled
cause in which she asks that her estate
may be established against the adverse
claims of defendants in the following
described mining claim situated in the
Magdalena Mining District, Socorro
county, New Mexico, described as fol-
lows:

"Commencing at this monument of
stone and running one thousand feet
to the south end center stake No. 1;
thence running three hundred feet
westerly to corner stake No. 2, which
is the southwest corner; thence seven
hundred and fifty feet northerly, seven
hundred and fifty feet to the northwest
corner of stake No. 4; thence east three
hundred feet to N. E. to the north end
center stake No. 5; thence east three
hundred feet to north end center stake
No. 6; thence southerly seven hundred
and fifty feet east side center stake No.
7; thence seven hundred and fifty feet
southerly to S. E. corner stake No. 8;
thence westerly three hundred feet to
stake No. 1, place of beginning. This
claim is located about fifteen hundred
feet northwest of the Graphic ore
dump, and lies north of the Silver Bell
Mining claim (patented)."

And that the said James H. McGee
and the unknown heirs of the said
William Parks be barred and forever
estopped from having or claiming any
right or title to the said premises ad-
verse to plaintiff, and that plaintiff's
title thereto be forever quieted and set
at rest and that she have such other
relief in the premises as may be deemed
proper.

Said defendants are further notified
that unless they appear and answer in
said cause on or before the 11th day of
December, A. D. 1906, judgment and
decree will be entered against them in
said cause by default.

Plaintiff's Attorneys are Dougherty
& Griffith, whose postoffice address is
Socorro, New Mexico.

WILLIAM E. MARTIN,
By Clerk of the above named Court.
AGNES M. JAGULES,
Deputy.

STRENGTH OF CHARACTER.

It Combines Power of Will and
Power of Self Restraint.

Strength of character consists
of two things—power of will and
power of self restraint. It re-
quires two things, therefore, for
its existence—strong feelings and
strong command over them. Now
it is here we make a great mis-
take. We mistake strong feel-
ings for strong character.

A man who bears all before him,
before whose frown domestic
tremble and the children quake,
because he has his will obeyed
and his own way in all things we
call a strong man.

The truth is he is a weak man.
It is his passions that are strong.
He that is mastered by them is
weak.

You must measure the strength
of a man by the power of the
feelings he subdues, not by the
power of those who subdue him,
and hence composure is often the
result of strength.

Did we never see a man receive
a fragrant insult only growing a
little pale and then reply quietly?
This is a man spiritually strong.

Or did we never see a man
bearing a hopeless daily trial re-
main silent and never tell the
world what cankered his home
peace? That is strength.

He who, keenly sensitive with
many powers of indignation in
him can be provoked and yet re-
strain himself and forgive—he is
the strong man, the spiritual hero.

PASTEURIZED MILK.

Simple Home Method of Securing
Safe Food For Babies.

Pasteurized milk is that which
has been heated to a temperature
of between 155 and 170 degrees
and kept at that temperature
from ten to thirty minutes before
being rapidly cooled and put on
ice.

It may seem strange that a
lower temperature than the boil-
ing point should be the one se-
lected but bacteria which cause
milk to sour are killed at 155
degrees, and the disease germs
which are likely to be present are
destroyed at 170 degrees.

For the mother who wishes to
pasteurize at home the simplest
and (with care) a safe method is
to place the milk in glass jars,
fill a pail with boiling water and
place the jars in this. The
water should come nearly to the
top of the jars and above the
milk. Set the pail in a warm
place and stir the milk occasion-
ally. The milk is heated to the
desired degree before the water is
lowered to the pasteurizing tem-
perature. Lastly and most im-
portant, cool the milk by run-
ning cold water into the pail, then
stopper quickly and set on ice.

Remember that pasteurized milk
may easily become contaminated
again and only proper care can
insure its remaining sterile.—

NEW MEXICO SPANISH

Said by Competent Authority to Be the Best in the World.

Professor Hills, of the language department of the Colorado College, contributes a long article on New Mexico Spanish to the September number of "Publications of the Modern Language Association," in which he claims that the Spanish spoken by the native people of Southern Colorado and Northern New Mexico is the best in the world.

Here is part of what Professor Hills says:

"The region treated is only a small part of the southwestern states and territories where Spanish is spoken, and yet it is as large as Italy. Its population may be roughly estimated at 125,000 Spanish speaking persons of whom some 40,000 or 50,000 are in Colorado and the remainder in New Mexico.

"The language spoken throughout this extensive region is nearly uniform. The people for most part are shepherds, drovers, or small ranchers or they are day laborers in the mines, in the sawmills or on the railways.

"New Mexican Spanish has been influenced only to a slight extent by English. The speech of the wealthier, more enlightened classes shows greater traces of English influence than does that of the common people. A few words and expressions of English origin are in common use but pronunciation and inflection and syntax, seem not to have been influenced at all. On the other hand a strong Indian influence is evident in vocabulary and in pronunciation but not in inflexion or construction.

"Popular New Mexican Spanish does not differ greatly from the speech of the rural districts of northern Mexico, nor does it differ from the popular Castilian of central Spain to the extent that the two peoples may not understand each other with little difficulty. Castilian speech with many Andalusian peculiarities, was carried to Mexico several hundreds of years ago and thence was carried northward into New Mexico. For generations the New Mexicans have had little intercourse with the people of central and southern Mexico and almost none with the people of Spain. They have lived in isolation and they have been ignorant of letters and yet their speech has not changed greatly since it came from Spain. Probably greater changes have occurred in the popular speech of central Spain than in that of New Mexico during the last century.

"In this connection it is interesting to compare the history of Spanish with that of French in America. While French has tended to break up into divergent speech groups that differ considerably one from the other and all from Standard French, Spanish has held together with remarkable tenacity, and has in the main traveled the same road of phonetic development that the speech of Central Spain has followed. Throughout Spanish America the speech of cultivated Castilians is still the standard of literary expression; but in spoken Spanish, the Americans have certain peculiarities that are recognized standards of speech through out all Spanish America.

"Thus we have as it were a smaller circle within a larger, a general standard for all the Spanish speaking world, but with certain definite modifications in Spanish America."

Wounds Bruises and Burns.

By applying an antiseptic dressing to wounds, bruises, burns and like injuries before inflammation sets in, they may be healed without maturation and in about one-third the time required by the old treatment. This is the greatest discovery and triumph of modern surgery. Chamberlain's Pain Balm acts on this same principle. It is an antiseptic and when applied to such injuries, causes them to heal very quickly. It also allays the pain and soreness and prevents any danger of blood poisoning. Keep a bottle of Pain Balm in your home and it will save you time and money, not to mention the inconvenience and suffering such injuries entail. For sale by All Druggists.

A Cream of Tartar Powder Made from Grapes NO ALUM

SCHOOL FUNDS APPORTIONED

To the Various Precincts of the County by Sup't Jose Antonio Torres.

I, Jose Antonio Torres, Superintendent of Schools in and for the county of Socorro, in the territory of New Mexico, do hereby certify that I have duly apportioned the school fund of said county on this 8th day of October, 1906. The amount of money subject to such apportionment is two thousand one hundred and thirty-two dollars and fifty cents (\$2,132.50). The total number of persons of school age is 4,265. The rate per scholar is 50c, which is apportioned to the several school districts as below:

Dist. No.	No. Scholars	Am't Apport'd
Socorro City	484	\$242.00
3	65	32.50

County Superintendent.

An Awful Cough Cured.

"Two years ago our little girl had a touch of pneumonia, which left her with an awful cough. She had spells of coughing, just like one with the whooping cough and some thought she would not get well at all. We got a bottle of Chamberlain's Cough Remedy, which acted like a charm. She stopped coughing and got stout and fat," writes Mrs. Ora Bussard, Brubaker, Ill. This remedy is for sale by All Druggists.

THE YOUTH'S COMPANION,
144 Berkeley Street, Boston, Mass.

ENGAGEMENT ANNOUNCED

Miss Lena E. Price and Mr. Alex J. Davis Have Plighted Troth.

Mr. and Mrs. Joseph Price of this city announce the engagement of their daughter Miss Lena E. Price to Mr. Alexander J. Davis of Kelly. Miss Price is one of Socorro's most accomplished and popular young ladies. Mr. Davis, the fortunate man in the case, is recently from Chicago and holds a responsible and lucrative position in connection with the famous Kelly mine. The marriage will be solemnized not long after the holidays and a wedding trip to Europe has been definitely planned. The Chieftain unites with relatives and friends in extending the very best of good wishes to the prospective bride and groom.

A Badly Burned Girl

or boy, man or woman, is quickly out of pain if Bucklen's Arnica Salve is applied promptly. G. J. Welch, of Tekonsha, Mich., says: "I use it in my family for cuts, sores and all skin injuries, and find it perfect." Quickest pile cure known. Best healing salve made. 25c at the Socorro Drug and Supply Co.

\$10 Reward \$10

Strayed or stolen from my premises at San Marcial, a large dark bay stallion four years old and branded S on the left shoulder, gentle but not broken. I will give a reward of \$10 for the return of the horse to me at San Marcial.

CAPT. JACK CRAWFORD.

An assortment of fancy stationery at The Chieftain office.

Stronger and Stronger

THIS BANK has enjoyed a continual growth from the time it first opened its doors for business. Hence we believe the people appreciate us. We are now better prepared than ever to serve the public. We receive deposits in any amount no matter how small and allow interest on time deposits, issue drafts, loan money on approved security and render every service which is usually extended by a sound and conservatively managed banking institution. We make a specialty of BANKING BY MAIL. Write us about our system.
