THE
SHERWIN-WILLIAMS
PAINTS

Paint saves half the labor of house cleaning. Painted wood-work is easier to clean than unpainted wood-work. It doesn't collect as much dirt, and what dirt it does collect comes off easier. Paint this year and you'll have less work next year.

The Sherwin-Williams Family Paint in small cans meets the hundred and one demands for a little paint about the house. Dries quickly. The girls can apply it. Can be scrubbed. Color cards for the asking.

About Rheumatism.

There are few diseases that inflict more torture than rheumatism and there is probably no disease for which such a varied and useless lot of remedies have been suggested. To say that it can be cured is, therefore, a bold statement to make, but Chamberlain's Pain Balm, which enjoys an extensive sale, has met with great success in the treatment of this disease. One application of Pain Balm will relieve the pain, and hundreds of sufferers have testified to permanent cures by its use. Why suffer when Pain Balm affords such quick relief and costs but a trifle? For sale by all druggists.

The county commissioners have been in session since Tuesday and still have work to do. Commissioners Jaramillo and Armijo, the only members of the board in attendance, are painstaking in the discharge of their official duties and deserve hearty encouragement and support in their efforts to improve the condition of the county's financial affairs.

James Patterson, postmaster at Patterson, Socorro county, and a large sheep owner of the Prairie Mountain district, is in the city for a few days.—Albuquerque Journal.

Presbyterian Church Notes.

Robert Noble will sing a solo Sunday night.

The Ladies' Aid Society will meet at the home of Mrs. Thos. Jaques Tuesday afternoon at 2 o'clock. The coming sale must now be kept in view.

The subject for tomorrow's discourse will be "The Philosophy of Miracles." An effort is generally made to make the morning and evening discourses relate to each other. Everyone should feel his need of knowing more and becoming better.

Professor Gordon will give his illustrated lecture in the church Friday evening, April 14, at 8 o'clock. The subject is, "A Trip to Berlin by Way of Holland and the Rhine," and will be illustrated by many fine stereoscopic views of interesting scenes and places. The admission is 25 cents; children under 12 years, 10 cents. The proceeds will be applied to the purchase of song books for the Sunday school and for other church needs.

H. A. Blackstone of New Hampshire who two years ago bought a ranch a few miles up the valley of P. N. Yunker arrived in the city this morning from his far eastern home to look after his interests here.

TELEPHONE LINE EXTENSION

Socorro Will Soon Be Connected with All Points North as Far as Denver and South as Far as El Paso.

Captain T. J. Matthews, manager of the Socorro Telephone Company, states to a representative of the Chieftain that the long distance line will be in operation between Socorro and points north as far as Denver and also between Socorro and points south as far as El Paso not later than August 1. This feature of Captain Matthews' telephone enterprise has been contemplated from the beginning, and it is gratifying to know that the realization is so near at hand.

The Chieftain is authorized to announce in addition to the above cheering news that seven men will be put to work Monday morning on the extension of Socorro's telephone system to Magdalena and Kelly and that that branch will be open for business not later than May 15; also, that the construction of an exchange at San Marcial will be begun May 1, and that when that exchange is completed connection will at once be made with San Antonio and Socorro.

THE SANITARIUM AGAIN.

District Attorney Elfege Baca Receives a Courteous Letter from President W. R. Edison.

The following letter explains itself:
St. Louis, Mo., March 31, 1905.
Mr. Elfege Baca,
Socorro, N. M.

My Dear Sir:
In reply to your communication of the 27th, beg to advise you that at the final conclusion of our Committee, Socorro will receive every consideration. It is true that you had very bad weather during our visit to your city, at the same time no other town in New Mexico had advantage on account of weather during our trip through the territory.

We are now making a careful investigation of all the different points visited and hope to at some time in the near future decide definitely upon the location of the Sanitarium. Our Committee may possibly make a return trip, however, I do not know whether this will be necessary or not but whether we make a return trip or not we intend to give careful consideration to every point visited by the Committee while in New Mexico.

Thanking you for your interest in the movement, I beg to remain

Fraternally yours,

W. R. EDISON,

President and Chairman of the Committee.

Famine Enters Homes in Globe.

A special dispatch to the Los Angeles Examiner, from Globe, Arizona, dated March 30, says:

Although there has been no rain here for a week, the conditions resulting from the floods are still no better than before the rain ceased. So many washouts occurred on the railroad that it will take weeks to repair the damage and in the meantime no shipments of freight can be made. Butter is selling at \$1 a pound and there is neither flour nor sugar in the town.

The smelter is closed on account of the lack of fuel and the electric light plant is closed because there is no oil, leaving Globe in darkness. In every home food is scarce and hard to obtain. Some of the poorer classes are actually starving, and a citizens' committee has been organized to relieve want as much as possible.

There is much sickness and every doctor in town is busy night and day making calls. It would be difficult to exaggerate the seriousness of the conditions now existing.

NEW MEXICO'S RANGERS.

The Denver Republican Has a Word to Say about the Territorial Mounted Police.

New Mexico learned a lesson from Texas when it provided for a force of rangers like that which for many years constituted what might have been called the regular army of Texas, says the Denver Republican. They were mounted police in the service of the state and formed in companies like a military organization.

When the western and southwestern parts of Texas constituted a wild frontier, these rangers did splendid work in running down outlaws and in breaking up bands of robbers and cattle rustlers. It is with a similar purpose that a company of New Mexico rangers has been organized.

Cattle thieves and other outlaws have given much trouble in the southern part of the territory and the new company will have its headquarters at Socorro. From that point it will scour the country in search of the thieves, and as the men have been well selected much good work will undoubtedly be done.

A force of this kind is well adapted to service in a sparsely populated country like the southwest. Made up of men used to outdoor life, skilled horsemen and good shots, a company of rangers can cover a large scope of country in a few days, and there are but few robbers who will remain long in a region where they are exposed to such pursuit. Probably every member of the company just organized in New Mexico is in love with the kind of life he will have to lead in this service, and this will make them good soldiers. It may be counted on that cattle rustling in southern New Mexico will soon come to an end.

Catarrh Cannot be Cured

with local applications, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quick medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.

THE MARTIN RELIEF LAW.

Injunction Asked Restraining Territorial Auditor and Treasurer From Carrying It Into Effect.

BEFORE JUDGE McFIE.

To Be Heard April 17 Certificate of Indebtedness Not to Be Disposed of and no Loans to be Made.

On Saturday last Hon. T. B. Catron filed a complaint in the First Judicial District Court for Santa Fe County asking that W. G. Sargent, auditor of the Territory, and J. H. Vaughn, treasurer of the Territory, be cited to show cause why an injunction should not be issued against them restraining them from carrying into effect the provisions of Council Bill No. 40, being an act of 36th Legislative Assembly known as the Martin Flood Sufferers' Relief Law and to prevent them from issuing and disposing of the certificates of indebtedness authorized to be issued under the provisions of the law to the amount of \$50,000 to be distributed amongst the several counties of the Territory for the relief of sufferers from last year's floods and for the protection of settlements from future damage by overflow; and to enjoin them from transferring any territorial funds in the territorial treasury to the relief fund created under the said law and from making any loans from any source whatever for the benefit of such fund and restraining them from proceeding in any manner whatever to carry out the provisions of the said Martin Flood Sufferers' Relief Law. The case will be heard before Judge McFie in chambers on April 17th coming, and District Attorney E. C. Abbott who, under the new law, is assistant attorney general, is now preparing the answer of the Territory to the complaint preferred by Mr. Catron as above. The case will prove of profound interest to the people and will be strenuously contended for on both sides.—Santa Fe New Mexican.

Calls on the President.

Hon. W. E. Martin called on President Roosevelt Monday to pay his respects. According to a special dispatch to the Albuquerque Citizen, Mr. Martin said: "The entire west approves the president's policy of a square deal to every man—that was all any western man ever wanted."

CHAIRMAN BURSUM AND DELEGATE ANDREWS CONFER.

It was 8:40 o'clock this morning by Hon. H. O. Bursum's splendid gold watch, which was presented to the chairman of the territorial republican central committee by the organization, when the stalwart superintendent of the territory's penal institution, left for Santa Fe on train No. 10 after taking breakfast at the Alvarado.

Mr. Bursum arrived from San Antonio, New Mexico, on the early train. He was met at the station by Senator W. H. Andrews, and the delegate to congress and the chairman of the republican central committee spent a half hour together, while Mr. Bursum waited for train No. 10's coaches to be brought back from the lower end of the Santa Fe yards, where they were taken to be turned around so their "Baker" heaters would heat them through-out.

Mr. Bursum said that he was on a flying trip to the capital, and would return south tonight or tomorrow to go to his sheep ranches in the Oscura mountains, where his sheep will soon begin lambing. "We are going to have lots of lambs this year," said he.—Albuquerque Citizen.

APRIL FOOL BLIZZARD.

Saturday's Snow Storm One of the Severest on Record.

Until last Friday ideal spring weather had prevailed here for several days. The people had begun to congratulate the splendid spring, when atmospheric conditions changed and we were again in the throes of a storm, which perhaps is without equal in its severity in this land of sunshine. With the cold, west wind coming in gales, snow soon began to fall, and Saturday we had a heavy snow mantling the earth. Snow continued to fall until early Sunday morning. Reports from outside points indicate that the snowfall was the heaviest in many years. John H. Bragaw, who experienced all kinds of hardships in reaching the city from his Mimbres ranch, being thirty-six hours coming from Georgetown, a distance of about twenty-five miles, says that there was a fourteen-inch snow here in April, 1874, and with this exception the recent snow storm is without parallel here. The snow is now rapidly disappearing and the storm seems to be broken.—Silver City Independent.

Frank Sickles returned last night from a visit of several days in the San Andreas mountains about 75 miles southeast of Socorro. He says that there is about two feet of snow in those mountains and that the storm of April 1 killed a good many sheep and goats and some weak cattle.

OFFICIAL PAPER OF SOCORRO COUNTY.

SATURDAY, APRIL 8, 1905.

The war situation in the far east the first of the week seemed to indicate that the chief difference between Generals Kuropatkin and Linevitch was that General Kuropatkin knew which way to run.

People who contemplate committing matrimony should remember that according to a law of the thirty-sixth legislative assembly when they are married they are not married unless they have paid the probate clerk a license fee.

The county commissioners have been in regular quarterly session this week and the business like manner in which they have disposed of all matters presented to their consideration is of course gratifying to their political friends and ought to be even to their political opponents.

SOMEBODY on the editorial staff of the Santa Fe New Mexican apparently all unconsciously perpetrated the best joke of the season when he wrote, "In Egypt, Englishmen are at present working the Um Rus mine, which suspended two thousand years ago. Of course, it is under a new management!"

According to the records made from the government rain-gauge at the School of Mines, the rainfall at this point since the first of August has been 11.36 inches. This is approximately three times the amount of the rainfall here for the fourteen months preceding the first of August. Is it any wonder that the citizens of Socorro county are looking forward to a record breaking year?

Prof. Hiram Hadley, territorial superintendent of public instruction, is sending out circular letters to county school superintendents and other active educators asking their co-operation in an effort to improve the public schools of the territory. Professor Hadley himself has been a witness of the fact that New Mexico's public schools have undergone a vast improvement in the last score of years and it is gratifying to know that this veteran educator is giving the enthusiasm of youth to the work which he was recently appointed to do. It is to be hoped that Professor Hadley's appeal to the educators of the territory will meet with a prompt and hearty response.

SOME time ago the Chieftain announced that a certain former citizen of Socorro had died of pneumonia down in Mexico. Tuesday morning of this week that selfsame former citizen of Socorro had the presumption to appear on the streets of the city as much alive and as smiling as he ever was before the Chieftain pronounced him dead. The grave question with this paper now is, What business has a man to conduct himself in that inconsiderate fashion? A man who will show so little regard for a newspaper's reputation for truth and veracity must of course have very little regard for his own. In fact, if he himself were to say that he was dead his statement would have to be taken with a few grains of allowance.

The members of Captain Fullerton's mounted police force will assemble at headquarters in this city on the 15th instant for assignment to duty. It is safe to

predict that the wisdom of the legislative assembly in providing for this force will be amply vindicated shortly after the force begins active operations. Lawless characters will be suppressed or driven from the territory, crimes will be diminished in number, the heavy expense heretofore borne for the trial of criminal cases will be reduced, New Mexico's reputation for law and order will be enhanced, and the business and social life of the territory will feel a new impulse. These results are greatly to be desired and the territorial police force will therefore enter upon active service backed by the hearty approval and best wishes of all good citizens.

EDDY COUNTY DISTRICT COURT.

Every Saloonkeeper Indicted on One to Four Counts and Fined \$25 and Costs By Judge Pope.

Judge W. H. Pope wound up the spring term of Eddy County District Court at Carlsbad last week, after practically cleaning up the docket. Every saloonkeeper in Eddy County was indicted by the grand jury on from one to four counts—selling liquor to minors, allowing minors to loiter, allowing minors to gamble and running games of chance. Judge Pope fined each one \$25 and costs on each indictment returned against them, and warned them never to appear before him again on any similar charge.—Santa Fe New Mexican.

CHANGES THE SHOES.

Man Wanted Others to Fight, But Would Not Go to Front.

When the country was hovering on the brink of war with Spain, a Western senator, himself hoping that hostilities might be averted, had a very belligerent constituent. From him the senator received a letter some days before congress cast the die, which breathed hostility in its every line. He was evidently fretting under delay, and demanded that Uncle Sam drive Spain off the Western hemisphere forthwith. President McKinley was then seeking some peaceful outcome. The men out West had no patience with the president or those senators who, too, were striving for peace. The bellicose clamor of this constituent touched the senator's sense of humor.

"My good friend, I am glad to hear that you have such a patriotic spirit," said the Western senator, in effect, when he wrote in reply. "We are about to commission a new warship, which will engage in the glorious conflict now impending. I have two positions for landsmen to fill on that ship and have taken special pleasure in recommending you for one of them. Knowing your positive sentiments regarding war, I feel sure you will be glad to accept, and lay down your life, if need be, for the good of the old flag and your country. Wire me at once your acceptance."

Several days the senator waited for a reply from the West, and as none came, he sent his belligerent constituent a 200-word telegram, exhorting the man earnestly to come forward in his country's cause. This finally brought a faltering epistle full of excuses. The constituent's patriotism, as far as immediate service for the flag was concerned, had oozed through his fingers. He was so overwhelmed with pressing business that it was absolutely impossible for him to go to the front.

The war went on without him.

The Wily Japanese.

Mr. Takahira, the Japanese minister at Washington, says the New Orleans States, has a new story which he tells with great glee. He says he heard two women discussing his nation.
"The Japanese," said one of them, "ought to be excluded from the country. Their young men come here to school, and no sooner do they arrive than they begin a systematic course of cheating."
"How is that?" asked the other.

"They only pay tuition for one," said the complainant, "and they learn enough for two or three."

Last Hope Vanished.

When leading physicians said that W. M. Smithart, of Pekin, Ia., had incurable consumption, his last hope vanished; but Dr. King's New Discovery for consumption, coughs and colds, kept him out of his grave. He says: "This great specific completely cured me, and saved my life. Since then, I have used it for over 10 years, and consider it a marvelous throat and lung cure." Strictly scientific cure for coughs, sore throats or colds; sure preventive of pneumonia. Guaranteed, 50c and \$1.00 at all drug stores. Trial bottle free.

VAST SUM FROM TOURISTS.

Switzerland Annually Collects Thirty Million Dollars for Entertainment of Foreign Guests.

It needed a painstaking German to figure for us a set of statistics long desired, but of a sort that nobody cared to tackle the tedium or the difficulty of computing them. These figures are the annual number of tourists in Europe and the amount of money they spend. The German's estimates cover the totals in both items, and, large as their number is, the Americans do not constitute quite the whole of the globe's yearly nomad population. But what quantity of Americans do visit the old world and what amount of money they leave there may be guessed from this German's computations. Switzerland entertains through the year 3,000,000 visitors, who spend \$30,000,000. Italy, the Riviera and Spain between them attract an expenditure of \$60,000,000. The various great capitals in all cull \$45,000,000 that come from the pockets of the 900,000 visitors to Paris, the 600,000 to London, the 500,000 to Berlin and the 350,000 to Vienna. The baths and seaside resorts accommodate 12,000,000 guests, who spend over \$16,000,000.

Scrubbing the Twins.

Even a mother may, for practical purposes, need better acquaintance with her children. The New York Mail and Express tells the story of little twin girls whose resemblance to each other was the cause of an amusing mistake on the part of their mother.

First one and then the other was to be taken into the bathroom, for a thorough scrubbing and then a plunging in the tub. One of them had just been through the process, when the grocer's boy called at the door below. The mother had to hurry down-stairs and take care of the provisions. After she had put everything away she came back, caught one of the twins, ran into the bath-room with her, gave her a bath and let her have her frolic.

When the little girl had scampered back again there was a whispered consultation between the twins, and then they both began to giggle.

"What are you laughing at?" called the mother.

"Nothing," was the reply, in happy unison.

"But you are laughing at something," persisted the mother.

"Tell me what it is."

"Well," said Katie, rolling about on the floor, "you gave me two baths, and you didn't give sister any."

A Dandy for Burns.

Dr. Bergin, Pana, Ill., writes: "I have used Ballard's Snow Liniment; always recommended it to my friends, as I am confident there is no better made. It is a dandy for burns. Those who live on farms are especially liable to many accidental cuts, burns, bruises, which heal rapidly when Ballard's Snow Liniment is applied. It should always be kept in the house for cases of emergency." 25c, 50c, \$1.00 bottle. Sold by Socorro Drug and Supply Co.

ACROSS COUNTRY.

The signs of the times point to an enormous increase of intelligent public interest in health; to a new generation with purer, stronger blood and therefore more active, braver brains and bodies.

No physically robust, healthy person ever succumbed to grip, consumption, malaria or any other germ disease. But with a weakened system we all have to fight the germs of disease. Our blood is often in a fertile condition for the growth of bacteria, the germs of disease—because our stomach is disordered or our liver is torpid—in either case our blood does not get the proper nourishment. A torpid liver means a stagnation of the blood and an accumulation of poisons which furnishes a weak spot for bacteria to enter.

BIG PROFIT IN BATHHOUSE.

Average New York Seashore Resort Receives Nearly \$2,000 a Day for Rooms Alone.

If you doubt that the nickel and quarter business doesn't pay, consider the money-making propensities of the average seashore bathhouse around New York, and make over your opinion. A representative bathing pavilion has 1,500 bath compartments. It costs 20 cents to rent one. On a medium hot summer's day some \$800 are derived from renting these rooms, for the compartments are used in the course of the day by about 4,000 persons. Bathing suits rent for 25 cents each. There would be 8,000 of them for such a pavilion, which means \$1,000 a day if half of them are rented once; and it is fair to assume that three-fourths of the 4,000 bathers pay five cents for the use of a comb and brush—\$150. A total of nearly \$2,000 to say nothing of the proceeds from restaurant, bar, barber shop and indoor baths.

Forgot He Was Married.

"He is the most absentminded man on record."
"What has he done now?"

Wine of Cardui Cured Her.

213 South Prior Street, ATLANTA, GA., March 21, 1903.

I suffered for four months with extreme nervousness and lassitude. I had a sinking feeling in my stomach which no medicine seemed to relieve, and losing my appetite I became weak and lost my vitality. In three weeks I lost fourteen pounds of flesh and felt that I must find speedy relief to regain my health. Having heard Wine of Cardui praised by several of my friends, I sent for a bottle and was certainly very pleased with the results. Within three days my appetite returned and my stomach troubled me no more. I could digest my food without difficulty and the nervousness gradually diminished. Nature performed her functions without difficulty and I am once more a happy and well woman.

BILLS THAT BECAME LAW.

The following synopsis of bills that were passed by the thirty-sixth legislative assembly are selected from the list published by the Santa Fe New Mexican. They are such as are thought to be of special interest to readers of the Chief.

CHAPTER 72. An Act entitled An Act to aid Territorial institutions to erect buildings and other permanent improvements C. B. No. 78.

The act authorizes Territorial institutions to expend the funds from the sale and lease of their lands for buildings, equipment and other permanent improvements. The boards of control are to make full report of such expenditures to the Governor.

CHAPTER 73. An Act to authorize the Territorial Board of Education to issue certificates to normal institute conductors, to harmonize the school law and for other purposes, A. C. S. H. B. No. 14.

The act empowers the Territorial Board of Education to issue five-year teachers' certificates to persons whom it may deem qualified but whose scholarly attainments are at least equal to those of a graduate of either of the two New Mexico normal schools; the certificate to entitle the holder to teach in any public school without further examination provided the holder also has a certificate of attendance at some city, county or summer normal school. The act authorizes the expenditure of not to exceed \$50 for holding teachers' institutes in counties of the third and fourth class. The act authorizes the superintendent of public instruction to issue temporary permits to teach, to applicants before the annual examination for teachers' certificates. County superintendents are authorized to appoint as conductor of normal institutes any person of good moral character, who possesses a first-class teachers' certificate. The act also provides for the examination of applicants for third grade teachers' certificates in January.

CHAPTER 74. An Act to validate and legalize indebtedness incurred by boards of education and boards of school directors in excess of the current income of such boards, and to authorize the issue of bonds to pay such indebtedness, C. B. No. 118.

The act validates all debts heretofore incurred by boards of education for legal purposes. Boards of education shall before August 1, 1905, ascertain the amount of unpaid indebtedness and issue bonds for its payment in denominations of \$100, at six percent interest, the principal to be payable at the option of the board after ten years.

CHAPTER 76. An Act to amend section two (2) of chapter LXIII of the Session Laws of 1899, entitled "An Act to amend sections twenty-nine, thirty-seven and twenty-nine thirty-eight of the Compiled Laws of 1897," C. B. No. 83.

The act defines adverse possession of land, hereditaments and tenements and provides that no suit is to be maintained against any one having had adverse possession of such lands, etc., in good faith under color of title for ten years, for their recovery, except claimant was imprisoned or of unsound mind or was a minor when his cause of action accrued, in which case he shall have one year after release, becoming of age or recovering sanity to bring suit. Adverse possession is defined to be an actual and visible appropriation of land, commenced and continued under a color of title and claim of right inconsistent with and hostile to the claim of another; and in no case must 'adverse possession' be considered established with in the meaning of the law, unless the party claiming adverse possession, his predecessors or grantors,

have for ten years paid all taxes, territorial, county, and municipal which during that period have been levied upon the land or interest claimed whether assessed in his name or that of another."

CHAPTER 77. An Act relative to bounties on wild animals, A. C. B. No. 68.

The act authorizes boards of county commissioners to levy a tax not exceeding eight mills on horses, burros, mules, bovines, sheep and goats during the years 1905 and 1906, thereafter not to exceed four mills, to pay wild animal bounties as follows: Coyote, wild cat and lynx, \$1.00; panther or mountain lion, \$10. Each applicant for bounty must present the entire skin, the prostrate clerk to cancel such skin without disfiguring it.

CHAPTER 79. An Act to regulate the formation and government of corporations for mining, manufacturing, industrial and other pursuits, A. C. B. No. 58.

This is the Greer corporation law, based upon a similar act in force in New Jersey. It is the longest law upon the New Mexico statute books. Article 1, defines the powers of corporations; article 2, their formation, constitution, alteration, dissolution; article 3, elections, stockholders' meetings; article 4, dividends, and payment of capital stock; article 5, the winding up of corporations; article 6, executions against corporations; article 7, insolvency; article 8, service of process; article 9, remedies against officers and stockholders; article 10, foreign corporations; article 11, merger of corporations; article 12, lost certificates of stock; article 13, fees on filing certificates and sundry provisions. The law covers 111 printed pages.

CHAPTER 83. An Act with reference to the doing of assessment work upon mining claims, C. B. No. 65.

The act provides that where mining property is involved in legal controversy and upon which assessment work is necessary to prevent the forfeiture of the claim, upon petition to the court, the petitioner shall be entitled to an order permitting him to enter upon the property to do such work. Upon the doing of such assessment work, the property in controversy shall not be subject to relocation as against the parties to such suit.

CHAPTER 84. An Act to compel certain prisoners to do public work in incorporated cities and towns, C. B. No. 87.

The act authorizes authorities of cities and towns to compel municipal prisoners to work upon the public streets or do any other kind of public work. It is the duty of the county jailer to deliver such prisoners to the city marshal upon written order from the mayor.

Cheated Death. Kidney trouble often ends fatally, but by choosing the right medicine, E. H. Wolfe, of Bear Grove, Iowa, cheated death. He says: "Two years ago I had kidney trouble, which caused me great pain, suffering and anxiety, but I took Electric Bitters, which effected a complete cure. I have also found them of great benefit in general debility and nerve trouble, and keep them constantly on hand since, as I find they have no equal." All druggists guarantee them at 50c.

Rough on the Capital. Bill—A man 104 years old has been arrested for stealing at Washington, D. C., and is said to be the oldest thief in the world.

Jill—Gee! Isn't there any time limit where a man should stop stealing?

Bill—Not in Washington, I believe.

DOG DEFIES FIRE AND WATER.

Canine Left to Guard Master's Apartment Sticks to Post Although Flames Rage About Him.

The bulldog's tenacity of grip is proverbial, but he also possesses a grip of quite another sort, one which enables him to stick to his orders in spite of the most untoward circumstances. The Atlanta Constitution gives an example of a dog's faithfulness. "Stub's" master had gone away for the night and had left the dog to guard his apartments.

In the evening the house caught fire, and before the fire engine arrived the blaze had gained firm hold and little could be saved. Some of the men discovered the dog and tried to coax or drive him from the room, but Stub held his post. His would-be rescuers did all they could to tote him out, but he would not budge. Warning growls showed that he would use his teeth if the men resorted to force, and finally, in their efforts to save the dog, the firemen turned two streams of water on him. Even this did not dislodge him.

The dog's master was found and notified of the fire. When he reached his home the roof had fallen in and the building was a mass of flames. He gave one clear whistle, and Stub, who had defied fire and water and all human inducements, bounded out of the house and the next instant was licking the hand which caressed him.

Ballard's Horehound Syrup. Immediately relieves hoarse, croupy cough, oppressed, rattling, rasping and difficult breathing.

Henry C. Stearns, Druggist, Shullsburg, Wis., writes, May 20, 1901: "I have been selling Ballard's Horehound Syrup for two years, and have never had a preparation that has given better satisfaction. I notice that when I sell a bottle they come back for more. I can honestly recommend it." 25c, 50c, \$1.00. Sold by Socorro Drug and Supply Co.

"Astonished!" not "Surprised!" There is a story that Noah Webster was, as might be supposed, a stickler for good English, and often reproved his wife's misuse of the language.

On one occasion, according to a fanciful yarn, Webster happened to be alone with the pretty housemaid in the dining room, and being susceptible to such charms, put his arm around her and kissed her squarely on the mouth. Just at that moment Mrs. Webster entered the room, gasped, stood aghast and in a tone of horror exclaimed: "Why, Noah, I am surprised!" Whereupon Mr. Webster coolly and calmly, but with every evidence of disgust, turned upon her. "How many times must I correct you on the use of simple words?" he remarked. "You mean, madam, that you are astonished. I, madam, am the one that is surprised."

Frightful Suffering Relieved. Suffering frightfully from the virulent poisons of undigested food, C. G. Grayson, of Lula, Miss., took Dr. King's New Life Pills, "with the result," he writes, "that I was cured." All stomach and bowel disorders give way to their tonic, laxative properties. 25c at all drug stores, guaranteed.

Entry Notice. Magdalena, Socorro County, N. M., March 20th, 1905.

Before me, H. A. Bruchvogel, a justice of the peace of Socorro County, N. M., Precinct No. 12, today appeared G. O. Oswley, to me personally known to be the head of a family and deposes: That on or about January 17th, 1905, he took up at his place of residence one bay mare mule, about 12 1/2 hands high and about 8 years old, branded on right thigh, on left hip, on left thigh.

Also one brown horse mule, 8 years old, about 12 1/2 hands high, branded on left thigh. After duly inquiring at all surrounding places as to ownership of these two animals, the same being constantly on his premises, he now wishes to post the same according to law.

All this he declares upon oath to be true and thereunto affixes his signature and seal.

H. A. Bruchvogel, justice of the peace, Precinct No. 12.

We once heard of a farmer who had a hen which, in spite of all discouragement, was determined to become a mother. He tried all the usual methods to prevent the hen from raising a family, and as a last resort the hen hid out and began her three weeks' duty by sitting on a box of fish-hooks his son had laid away in a corner of the corncrib. Several weeks after the hen showed up in the barnyard with sixteen fine black bass following her, and he says she is as proud of the job as a little boy is of his first copper-toed boots.

ADDITIONAL A S. C. S. E. T. C. CLAIMS. The Torrence lode claim, New Mexico School of Mines claimant, alleges this claim on the west.

DEPOSITION. Of this area 4.067 acres lie in the N. E. 1/4, sec. 9, T. 1 N., R. 20 E., S. 1 M. The presumed course of the lode is north and south. The number of feet claimed on the lode is one hundred and eighty-one and eight-tenths, extending from the north lode post to the south lode post of said claim, as described in the foregoing field notes. The surface round claimed is six hundred feet in width on the north end of the said lode and on the south end of said lode five hundred and thirty and five-tenths feet in width, or thereabouts, to center line of adjoining claim.

The notice of location of said Torrence quartz mine is on file in the office of the county recorder of Socorro County, at Socorro, in book 44, page 48, and the amended location notice thereof is of record in said office in book 23, at page 63.

The mining claim hereby sought to be patented is joined on the west by the Torrence lode claim, New Mexico School of Mines claimant. No other conflicting claims. Any and all persons claiming adversely the mining ground, vein, lode, premises, or any portion thereof so described, surveyed, plotted, and applied for, are hereby notified that unless their adverse claims are duly filed according to law, and the regulations hereunder, within the time prescribed by law, with the register of the United States land office at Las Cruces, in the Territory of New Mexico, they will be barred by the provisions of the law in such cases made and provided.

Small Holding Claim No. 1726. NOTICE FOR PUBLICATION. DEPARTMENT OF THE INTERIOR, United States Land Office, Las Cruces, N. Mex., March 18, 1905.

Notice is hereby given that the following named claimant has filed the notice of his intention to make final proof in support of his claim under sections 16 and 17 of the act of March 3, 1891 (26 Stat., 854), as amended by act of February 21, 1893 (27 Stat., 470), and that said proof will be made before Probate Clerk of Socorro County, at Socorro, New Mexico, on 29th day of April, A. D. 1905, viz: Edmundo V. Baca, claimant for the N 1/2 of NE 1/4 SW 1/4 of NE 1/4 and SE 1/4 of NW 1/4 section 25 T. 3. S. R. 1 east of New Mexico Principal Meridian.

He names the following witnesses to prove his actual continuous adverse possession of said tract for twenty years next preceding the survey of the township, viz: Anastacio Aranda of Esposimeto, N. M.; Albino Gonzales of Esposimeto, N. M.; Macedonio Martinez of Socorro, N. M.; Pilar Martinez of Socorro, N. M.

Any person who desires to protest against the allowance of said proof, or who knows of any substantial reason under the laws and regulations of the Interior Department why such proof should not be allowed will be given an opportunity at the above-mentioned time and place to cross-examine the witnesses of said claimant, and to offer evidence in rebuttal of that submitted by claimant.

NEW MEXICO MAN IN DEMAND.

C. T. Brown, Well-Known Mining Expert and Engineer of Socorro, in Joplin Mining District.

C. T. Brown, the well known mining expert and engineer of Socorro, New Mexico, ex-trustee, has bought six lots of the Neal-Joplin Syndicate lease on the Langdon land in the Joplin mining district, Missouri.

There are on these lots a pump, a shaft to stuff at 91 feet, three drill holes showing 18 feet of rich ore at 114 feet, and a second shaft now sunk to within 36 feet of the ore. A mill is to be erected at once and the new mine will be known as the "Maude E." named for Mrs. Van House. Mr. Brown is much in demand as a special expert on zinc and lead ores, having had much experience in working this class of ore and having been very successful therein. -Albuquerque Citizen.

Chamberlain's Cough Remedy the Best and Most Popular.

"Mothers buy it for croupy children, railroad men buy it for severe coughs and elderly people buy it for la grippe," says Moore Bros., Eldon, Iowa. "We sell more of Chamberlain's Cough Remedy than any other kind. It seems to have taken the lead over several other good brands." There is no question but this medicine is the best that can be procured for coughs and colds, whether it be a child or an adult that is afflicted. It always cures and cures quickly. Sold by all druggists.

MR. MARTIN IN WASHINGTON.

Evening Star Speaks Well of One of New Mexico's Prominent Citizens.

The Washington Evening Star in its issue of April 1 speaks in very complimentary terms of Hon. W. E. Martin as follows:

"W. E. Martin, chairman of the finance committee of the senate of the New Mexico legislature, which has just adjourned after a busy sixty days' session, is in the city on a trip of recreation, and called on the President to pay his respects. Mr. Martin is a warm friend of Governor Otero. Mr. Martin has been interpreter, chief clerk and member of both the house and senate numerous sessions, and is one of the best translators and interpreters in the United States."

For a Weak Digestion.

No medicine can replace food but Chamberlain's Stomach and Liver Tablets will help you to digest your food. It is not the quantity of food taken that gives strength and vigor to the system, but the amount digested and assimilated. If troubled with a weak digestion, don't fail to give these Tablets a trial. Thousands have been benefited by their use. They only cost a quarter. For sale by all druggists.

Captain J. F. Fullerton, Lieutenant Cipriano Baca and Sergeant R. W. Lewis, all of Socorro, having taken part in the organization of the Mounted Police here on Saturday, have returned to their southern homes. The other members of the force, W. E. Dudley of Alamogordo, H. J. McGrath of Lordsburg, J. J. Brophy of Clayton, Julius Meyer of Estancia and George Elkins of Hachita, have also returned home and all will report in Socorro on the 15th instant for assignment to duty. -Santa Fe New Mexican.

Rheumatic Pains Quickly Relieved.

The excruciating pains characteristic of rheumatism and sciatica are quickly relieved by applying Chamberlain's Pain Balm. The great pain relieving power of the liniment has been the surprise and delight of thousands of sufferers. The quick relief from pain which it affords is alone worth many times its cost. For sale by all druggists.

Superintendent H. O. Bursum of the Territorial Penitentiary, after spending yesterday here on official business, went south last evening to be for the next few weeks at his sheep ranch in the Oscura Mountains, about 35 miles east of San Antonio. Mr. Bursum expressed himself as highly pleased with the outlook for the lamb crop and the wool clip of this spring in Socorro County. -Albuquerque Citizen.

Keep your bowels regular by the use of Chamberlain's Stomach and Liver Tablets. There is nothing better. For sale by all druggists.
