HANNA TAKES A HAND.

Urges His Own Firm to Join in a Movement of the Strike Settlement.

BANKER SPAULDING'S CASE

Cleveland Will be Offered the Presidency of the University of Virginia.

MEXICAN BICYCLE FACTORY

WASHINGTON, D. C., July 16.—Senator Hanna, who may be the means of settling the great strike, did lots of telegraphing, to-day, to the miners, operators and leaders at Pittsburg. It resulted in his sending a dispatch, urging Cleveland operators to join in a movement for settlement, and this to his own firm: M. A. Hanna & Co., Cleveland.

BAPTIST YOUNG PEOPLE.

They Assemble in Churches of Various Denominations for Prayer and Testimony.

CHATTANOOGA, TENN., July 16.—

Never has Chattanooga resounded with peans of praise as it did at six o'clock this morning, when the delegates and visitors to the seventh international convention of the Baptist young people met in six Baptist, Presbyterian and Methodist churches for jubilation, prayer and testimony. But the crowning meeting was held on the summit of Lookout mountain, where, as the sun rose, several thousand voices were lifted up and the strains of the grand coronation hymn, "All Hail the Power of Jesus' Name," ascended to the skies. At nine o'clock, President Chapman called the second day's session to order in the Auditorium, and for three hours there was a symposium on bible study. Simultaneous meetings were held at the First and Centenary Methodist churches, the First Presbyterian and the First Baptist; missions, spiritual vitality, junior work and sacred literature being discussed by two-score of speakers. Among them were Revs. Drs. J. S. Cleveland, Buffalo; C. H. Fitzwilliams, Pittsburg; W. M. Walker, Elgin; H. H. Weak, Rockford; Margaret C. Brown, Detroit, and Nora Yates, of Graham. After a recess there were conferences state, provincial and junior leaders. Then the delegates re-assembled in force in the Auditorium, and initiated an afternoon service of song, a feature of which was the impressive salutation of the flags, conducted by Rev. Dr. E. L. Wilkins, of Chicago. Brief reports, concerning the growth of the organization in their respective Territories were submitted by representatives of state and provincial unions.

A New Plan Suggested.

CHICAGO, Illinois, July 16.—W. P. Reid has suggested an entirely new plan for the settlement of the big coal miners' strike by arbitration. He wants it left in the hands of any three United States court judges, selected by miners' officials alone, or by miners and operators jointly. The one man, he says, opposing this or any other plan, is De Armit. "I challenge De Armit to accept the plan without conditions. My interests are larger than his. If he is honest in wishing to end the strike, as he would have the public believe, let him accept," declares Reid. "The men are entitled to work at living wages. When a laborer is paid less, neither argument nor philosophy reconciles him to his lot. He has a right to rebel."

Debs Cannot Go.

CHICAGO, Illinois, July 16.—E. V. Debs may not be permitted to go into West Virginia to urge the miners to join the strike. Private advices received in Chicago, to-day, by the big operators, state that arrangements are being made to secure an injunction against the leader of the social democracy restraining him from trespassing on the grounds of various companies of that state. The leading operators there say that they will see the laws enforced to the letter against every labor agitator who lifts his voice in the cause of the strikers.

No More Flinging.

MUNCIE, Indiana, July 16.—Train-master Thomas, of the Fort Wayne branch of the Erie railroad, has issued instructions to the trainmen forbidding them from waving their hands or handkerchiefs, or in any manner flinging with the women along the line of the road or conversing, except answer questions, with the women on the trains.

Will Move to Mexico.

MONTREY, Mexico, July 16.—The demand for bicycles in Mexico has decreased a large Chicago bicycle manufacturer to move his plant here. The Mexican government grants liberal concessions for the factory. American bicycles are selling at \$200, Mexican money. The factory has promised to sell them at \$100 Mexican money.

Brokers Firm Goes Up.

BOSTON, Massachusetts, July 16.—The brokerage firm of Brigham & Union, has suspended operations. This big bull movement in sugar, two days ago proved too much for the concern.

BRITISH OFFICERS OF 1776.

Their Remains to Be Removed to the Quaker City Cemetery.

PHILADELPHIA, Pa., July 16.—The attention of the British consul has been called to the fact that the extension of a street in the northern part of the city, which is in progress by the street department, will cause to be exposed a vault containing the skeletons of a large number of British soldiers, who died in the hospital attached to Lord Cornwallis' hospital, and which, in 1776 and 1777, were located on the estate soon to be cut through as the result of the march of progress in this city of homes. The vault has never been opened, but, from musty, old records, it is believed that the majority of the officers were buried in their uniforms, with their swords and other trappings of war, and that various papers of identification, and manuscripts relating to the stirring events at that period, were buried with them. Official representations on the subject will be made to the English government, and it is probable that an allowance will be made from the contingent fund for the purchase of a lot in the local cemetery, and the re-interment for all time of all that is mortal of the gallant, but defeated, Britishers.

CHICAGO'S DELINQUENT TAXES

Nearly Seventy Thousand People in That City Are in Arrears.

CHICAGO, Illinois, July 16.—During the past few days the judges sitting in the county court have been busily engaged in entering judgments and ordering sales or distraints in the case of citizens who are delinquent in their taxes on real estate or personal property. The number of these delinquents is said to run up between sixty and seventy thousand, while the total amount of arrearages involved exceeds \$8,000,000. Most of the large taxpayers have paid, although many of them have been compelled to borrow money to do so, and the bulk of the taxes unpaid is upon the small residences, furniture and other personal property of small tradesmen and wage-workers whose incomes have either been materially reduced or cut off altogether by the hard times. A period of thirty days' grace dated from to-day has been allowed to the delinquents, but the indications are that only a small percentage will be able to take advantage of it, and forced seizures of furniture and household effects and sales of real estate to tax sharks from the steps of the court house will be in order next month to an extent unprecedented in this city.

A Flood of Bills.

HARRISBURG, Pa., July 16.—Never has a president in the closing moments of congress been called upon to perform the task in the matter of signing or vetoing legislation that has confronted Governor Hastings for the past ten days, and much of which remains to be completed. On the first day of the present month nearly 600 measures were upon his desk for examination, approval or veto, and of these fully one-third remain to be acted upon before the last day of the month. These include measures sweeping increasing the penalty for fraudulent voting, fixing the age for school attendance at eight to thirteen and thirteen to sixteen if the children are not regularly employed; preventing fraud in the manufacture of cheese, providing for the holding of the stars and stripes over every public school, and establishing an annual bird day in all the public schools.

American Wins.

LONDON, England, July 16.—The first semi-finals, diamond sculls, rowed to-day, resulted in a clean-cut victory for the young American, Ten Eyck, of Worcester, Mass., who beat Howell, of Cambridge, by half a length.

In the final heat, Steward's challenge cup was won by the Leander club, which beat the New College of Oxford.

McDowell, of Chicago, was beaten in the final struggle by Blackstaff, who had to lower the record two seconds to do it.

New college beat the American's leader crew in the challenge cup race.

Queer Case of Blood Poisoning.

WASHINGTON, D. C., July 16.—Joe Quinn, Baltimore's great utility man, is confined in the Leland hotel with blood poisoning, to-day. During the St. Louis game Quinn, in sliding, injured his left leg, and dye from his sweater entered the wound. His physicians are hopeful of preventing the disease from spreading.

Would-be Convention Cities.

DETROIT, Michigan, July 16.—The Republican league convention is holding its closing session to-day. The election of officers and location of the next place of convening are the special orders for noon. The cities now in the race for the next convention are Chicago, Kansas City, Omaha, Baltimore, Dallas and Los Angeles, with numerous back horses.

In the First Degree.

ST. LOUIS, Missouri, July 16.—The preliminary hearing of Dr. Richmond Cornwall, charged with the murder of his brother, Herbert, on July 7th, began before Judge Murphy, this morning. The state is making the effort to show murder in the first degree.

The Baptists' Meeting.

CHATTANOOGA, Tenn., July 16.—A steady rain, to-day, marred the pleasure of the visiting Baptists, but the meetings were regularly held.

TERRIBLE ACCIDENT

Three Wayward Boys Are Instantly Killed by a Train Near Austin, Tex.

SALT LAKE CITY MEETING

Washington Officials Laugh at the Reported Japan-Spain Offensive Alliance.

TARIFF BILL CONFEREES

AUSTIN, Texas, July 16.—Several boys, who were stealing a ride on a freight train, and were put off near here, early this morning, started to walk back. They sat down on the track to rest, fell asleep and were struck by another train. John Bridges, aged, fifteen; Charles Sweeney, thirteen and Lewis Montgomery, thirteen, were instantly killed. Henry Estill, thirteen, was badly injured. The boys live in Fort Worth. When the same train was pulling into the yards, L. Eoxx, a negro, was run over and killed.

Trans-Mississippi Congress.

SALT LAKE CITY, Utah, July 16.—At 10 o'clock this morning, debate on the silver resolution in the Trans-Mississippi congress began, Patterson, of Colorado, first defending his resolution.

SALT LAKE CITY, Utah, July 16.—8 p. m.—The entire day has been consumed with the silver question. No definite action has been taken at this hour, and the gold men are making a determined fight. The congress will undoubtedly endorse silver.

Polish Catholic's Anniversary.

DETROIT, Michigan, July 17.—The twenty-fifth anniversary of the establishment of St. Albertus Parish, the first Polish Catholic church in Detroit, was celebrated, to-day, with a great demonstration. Each of the Polish congregations of the city participated. The festivities will be continued tomorrow and end with commemorative services on Sunday.

Armor Plate.

WASHINGTON, D. C., July 16.—In the senate, to-day, conferees on the deficiency bill said they had agreed on all but one of the points of armor plate. The senate wanted to increase the price, but the senate refused to yield. The subject is still open. After this report, Senator Quay moved to adjourn until Monday, but the motion was lost. The senate then went into executive session.

An Offensive Alliance.

WASHINGTON, D. C., July 16.—Officials here insist, to-day, at the story cabled from Paris that Japan and Spain have formed an offensive alliance against the United States.

WASHINGTON, D. C., July 16.—The tariff bill conferees are holding an all-day session. Sugar and wool are stumbling blocks.

Decreased Earnings.

BALTIMORE, Md., July 16.—A statement of the Baltimore & Ohio railroad, issued to-day, shows decreased earnings for June. The year's earnings, however, are over \$25,500,000, being an increase of \$1,500,000 over last year.

Cleveland Is President Again.

WASHINGTON, D. C., July 16.—It is reported that ex-President Cleveland will, in November, be formally tendered the office of president of the University of Virginia.

Visits the American Ambassador.

PARIS, France, July 16.—M. Kaulino, ambassador at Paris, visited General Horace Porter, United States ambassador, at noon, to-day, and had a long interview with him.

Given to the Jury.

CHICAGO, Illinois, July 16.—The case of ex-Banker Spaulding, accused of embezzling \$25,000, of University of Illinois bonds, was given to the jury, this afternoon.

Accidentally Shot and Killed.

MARSHALL, Michigan, July 16.—Carl Wagner, fourteen years old, was accidentally shot and killed, this morning, by Charles Swinford, another boy.

Big Fire.

ROCHESTER, N. Y., July 16.—The grand stand stands and other buildings owned by the Rochester base ball club, at Riverside park, were destroyed by fire this morning. The loss is \$15,000.

Appeal Dismissed.

LONDON, England, July 16.—The house of lords by a majority of one, dismissed the appeal of Earl Russell for judicial separation from his wife.

A Recess.

WASHINGTON, D. C., July 16.—A further recess to Thursday's session was taken by the house, at noon, to await the final report of the conferees on the general deficiency bill.

Those who ought to know what they are talking about, and whose reputation for truth and veracity, in the neighborhood in which they reside, above reproach, insist upon it that the City on four corners is not as was represented in "The Optic," the other evening. It is a substantial building, and is completed of only of certain parties who have a grievance against the contractor for compelling them to furnish the brick for the structure.

THE WAY TO SETTLE IT.

While the report of an impending coal famine may be taken with a grain of allowance, there is no doubt that any proposition for an impartial tribunal to settle the rate of wages on an equitable and honest basis should be welcomed by all right-minded people.

The situation has been such that such an arbitration would have been acceptable without a strike. It has been practically conceded by all that the miners are insufficiently paid, and in many cases additionally juggled out of the slender nominal rate by the notorious devices of high store prices, wagon limits and unfair stores.

To that situation must be added the fact that 100,000 men are standing idle, and that industry is liable to be hampered by a lack of fuel. Such circumstances should make the proposition for a tribunal of high standing to investigate and settle the rate of wages for all districts, and to determine, not only the difference between districts, but the difference in rates between genuine payments in cash and payments subject to the juggling devices, welcome to every honest man.

The miners on their part should smooth the pathway to arbitration by accepting it, if even a fraction of the operators agree to it. Let a portion of the mines start on the basis of ample and honest wages, and the other mines must follow, or if they do not the strike can be sustained better against them, better if a part of the miners are earning fair pay.

These considerations should bring about arbitration promptly, and if it is established on such a basis its prospects of success will be good.

The Dona Ana county Republican justly demands that every member of the late Territorial legislature who now holds a Territorial office should be removed, under the provision of section 854 of the Organic act.

The OPTIC is under obligations to T. J. Heim for the new Railroad Red Book of the West, and official guide and time tables of the Denver & Rio Grande railroad. It is the neatest and most complete thing of the kind that ever came to our table.

The appointment of Luna to be U. S. marshal may mean much for the republican party in New Mexico. Leave the governor alone. He knows what he's about and where he's at.

It is all silly (waddle, this talk, that the Territory should not employ a view said in the re-building of the capitol.

Search Into the Past.

From the Denver Post. When Professor William Libby, of Princeton university, reaches New Mexico, early in July, he will enter upon researches in the Acocoma country that are likely to prove of absorbing interest to students of archaeology of the world over.

Near the center of the plains of Acocoma—a vast expanse of wild prairie land, situated west by south of Albuquerque some a twenty-five miles—lies a rectangular rock of red and gray sandstone, shaped like the figure 8 with perpendicular sides 700 feet high.

This rock is called "Mesa Facundia"—re-chanted mesa. The outcroppings of stone project from the face of the walls at the top, making the summit wholly inaccessible. The top of this elevated tableland, or mesa, covers an area of some forty acres. Here there flourish, according to tradition, in the sixteenth century, a thrifty community of "pueblo" or village Indians.

A Difference of Opinion. From the Raton Reporter. It is estimated that the tramps in the United States cost the country from \$18,000,000 to \$20,000,000 for which they make no returns. Four-fifths of them are under fifty years of age, are able-bodied, and have the physical ability, at least, to follow some useful calling.

Wonder where THE OPTIC got the above paragraph. Will it kindly explain how the tramps of the United States cost from eighteen to twenty million dollars a year? Will it also explain why these tramps make no returns for that alleged cost to the country? And we also want to explain why these men, representing "nearly every trade and occupation of the United States," are roaming the country.

Rio Grande Waters. From the Denver Republican. The decision of the New Mexico court in the Elephant Buttes reservoir case will, it is hoped, put a stop to the attempt to prohibit the use of the waters of the Rio Grande for irrigation above the city of El Paso.

WHAT IS San Miguel county going to do in the matter of an exhibit at the Territorial fair? The court having taken judicial notice of the fact that the Rio Grande in New Mexico is not a navigable stream, the government was driven to the contention that the diversion of water in New Mexico interfered with the navigation of the river at points several hundred miles below.

Cuticura

From the Denver Post. The ever bright and at times charming philosophical "Optic," who conducts the social and personal department of the Las Vegas Optic, says: When the bright-eyed "society belle" who stands behind the counters is pleased to say, "I am clerking not because I am tired of life, but for the enjoyment of earning my own money, and I am anxious to please my employer, so that he will advance my salary, for the more I earn I am certain the more valuable my services are to him—"

Commissioners' Proceedings.

(Official) NOON SESSION.

Las Vegas, N. M., April 13th, A. D., 1897. Board met pursuant to order. Present, H. G. Coors, chairman; Catalino Romero, member; Petronilo Lucero, member; Patricio Gonzales, clerk.

Thomas Lester, resident of Mora county, appeared in person and prayed for reduction of taxes on account of a rate made by the assessor. Not being the proper time to hear complaints of that nature, the board postponed action, until the month of June, when he will be duly notified of the action taken by the board.

The sum of \$112.00 was abated on the taxes of Mrs. Annie Pappin, being a penalty added on her return for taxes of 1896.

In the matter of the insane woman, Sarah A. Morrisey, John W. Zollars one of the directors of the New Mexico insane asylum appeared before the board and expressed his willingness to receive the patient at the asylum, provided that the county board should see that the money to be paid for the first quarter shall be paid within that time aforesaid, and further payments to be made in advance. He also furnished the chairman with all the necessary papers and blanks for the receiving of the said patient at the asylum.

John W. Zollars and E. V. Veder, as members of the Citizens' club, appeared

before this board, to confer with regard to a new law passed at the last session of the legislature empowering the board of county commissioners at county seats and unincorporated towns to better protect and maintain sidewalks and public streets.

The matter was fully discussed at large by the gentlemen aforesaid as well as the board of county commissioners and it was decided to let the matter rest until the new law is in their hands.

A recess was ordered until 2 o'clock p. m. Approved, H. G. Coors, Chairman.

Attest: PATRICIO GONZALES, Clerk.

Do Not Like the Sermon. LONDON, England, July 15.—A storm has been created in the Church of England by some of the passages in the jubilee sermon of Cardinal Vaughan, Catholic Archbishop of Westminster.

Owing to the fact that it was preached at the height of the jubilee festivities, it received but scant attention from the press, but it has since been put in pamphlet form and a quarter of a million copies printed for distribution in the various dioceses.

The passages that have raised a rumpus, are those in which the cardinal congratulates the high church party in the Church of England, upon having permeated with Catholic doctrines and practices, and in which he expressed his thanks for this "partial conversion" to the old faith of England.

The church papers also contend that in thanking God for the divine favor, which surrounded the queen with a special grace from the beginning of her reign, the cardinal literally admits that his church is not the only true church, inasmuch as, according to his own faith, Queen Victoria is a heretic. Hence, they say, the admission that a heretic can be endowed with a special grace and be surrounded by divine favor is one of the most extraordinary things that has ever come from a Catholic prelate.

It is understood that the address was directly inspired from the Vatican and represents the holy father's personal sentiments.

A card on the outside of office door says: "Come to lunch. Be back in ten minutes." And, the man will be there on time.

That is, for some days, weeks or even months, he will. Then he will be at home occasionally for a day. He'll tell you he had a headache—a turn of cholera morbus, or maybe he'll say he had a lump in his stomach and felt too miserable to move. The lump was probably two or three ten-minute lunches condensed.

The man who "boils" his lunches will find Dr. Fiere's Pleasant Pellets the best friend he ever met.

There is no case of biliousness, constipation, indigestion, "heart-burn," or any of the rest of the night-mare breeding brood, that these little "Pellets" will not cure. They cure permanently.

Woman's Work

Is never done, and it is especially wearing and wearisome to those whose blood is impure and unfit properly to tone, sustain, and renew the wasting of nerve, muscle and tissue. It is more because of this condition of the blood that women are run down,

Tired, Weak, Nervous.

Then because of the work itself. Every physician says so, and that the only remedy is in building up by taking a good nerve tonic, blood purifier and vitalizer like Hood's Sarsaparilla. For the troubles peculiar to women at change of season, climate or life, or resulting from hard work, nervousness, and impure blood, thousands have found relief and cure in

Something to Depend On.

Mr. James Jones, of the drug firm of Jones & Son, Cowden, Ill., in speaking of Dr. King's New Discovery, says that last winter his wife was attacked with La Grippe, and her case grew so serious that physicians at Towson and St. Louis did nothing for her. It seemed to develop into Haasty Consumption. Having Dr. King's New Discovery in store, and selling lots of it, he took a bottle home, and to the surprise of all she began to get better from first dose, and half dozen dollar bottles cured her sound and well. Dr. King's New Discovery for Consumption, Cough and Colds is guaranteed to do this good work. Try it. Free trial bottles at Murphy-Van Feltan Drug Co's.

THIS LOCALITY

Las Vegas the Chief City of New Mexico—Some of Her Resources, Attractions and Advantages.

LAS VEGAS is the natural sanatorium of the United States, combining more natural advantages than any other place in America. Her thermal waters are the equal of the Hot Springs of Arkansas while her climate is infinitely superior. There is no malaria, no excessive heat or cold, no gnats, rats or mosquitoes. The air is pure, dry, rarified, and highly electrified—a certain cure for consumption, if the disease be taken in time. The hot waters are a specific for liver, skin, rheumatism and blood disorders. Her Montezuma hotel is the finest hostelry between Chicago and California, and is situated in a beautiful canyon, five miles from town, where the Hot Springs, forty in number, come boiling to the surface.

The latitude is about the same as that of central Tennessee, while the altitude is nearly 5,500 feet. This combination gives a peculiar, but most happy, result. In the winter, during the day, the thermometer seldom falls, in the shade, below forty degrees, while it often runs, in the sunshine, to sixty-five degrees—or even more. On the other hand, in the summer, the heat is never oppressive, in the shade, and no light or too warm for comfortable sleep, under one or two blankets. The sun will shine nine days out of every ten, the year round. This, with the extreme dryness of the air, caused by the very slight precipitation of moisture; the清新的 aroma, rolling down from the pine-clad mountains; the large amount of electricity in the air, and the consequent ozone, resulting from the lightning; and the location of the town, land-locked by mountain and mesa—these all conspire to produce an atmosphere which is a balm to all diseases of the respiratory organs. The percentage of death from consumption is lower in New Mexico than it is anywhere else in the United States, and for the same reason. Mexico excels Las Vegas in the salubrity of its climate. Asthmatics experience immediate and permanent relief, in this altitude.

STREET TALK.

Taxs One. Golden opportunities—See Ifeld's ad. El Caldwell is fixing up the crossing, around town. A burro and one plain drunk were run in, last night. Andres Sava's child is quite sick. Dr. Tipton is in attendance. It is regretted very much, by his friends, that R. Volmer is not improving. The grass in the plaza park is being cut, adding greatly to its appearance. There was a lively handstand between Springer and Wagon Mall yesterday. Walter Butler and party expect to go into camp a few miles above Mora, to-day. Chas. Schmitt is repairing his carpenter shop, on Columbia avenue and Ninth street. The pay car reached the city, last night, and pay checks are in circulation, to-day. Emerson Atkins and the Long boy expect to join the Olney camping party, over Sunday. Hugh London is having a new sidewalk laid in front of his residence, on Douglas avenue. Nicolas T. Cordova is having some new signs painted on the windows of his Bridge street store. Lizzie Crites and Mrs. Anna Carson and children joined the Blake camping party to the upper Sapello. Thirteen carloads of cattle from Magdalena, en route to Texas, fed at the local yards, this morning. N. Padilla had the misfortune to have his arm broken by being thrown from a horse, this morning. Mr. Marshall bought of the Wood estate the residence on north Seventh street; consideration, \$1,500. A new brown-stone sidewalk will soon be laid in front of Mrs. M. J. Wood's new stand, on Sixth street. "The Millennium" is the subject for consideration at the tent to-night. All should bear this. All are invited. The American Cigar Co. will put on four more men, Monday, making a force of eight men at the bench. The bicycle race is now worn by the people who paid \$100 for their wheel just before the price came down. The ladies of the Eastern Star announce a musical on August 25th, to raise money to fence the Masonic cemetery. Walter Conklin, a cigar maker, recently purchased a new suit and his friends wonder why he only wears a part of it. Mrs. Norman and three children have been helped to El Paso by public subscription, they being in destitute circumstances. Health and pleasure seekers returning from El Fortin, to-day, were Mrs. W. E. Gartin, Mr. and Mrs. McAfee and Mr. Phinde. The Olney and Long families are in camp on the upper Sapello. Dr. F. E. Olney and B. F. Forsythe will join them, tomorrow. Du Fruit Menet will wed Miss Amelia Hunting, of Show Low, Arizona, and a lady of Cerrillos as was stated in this paper a few days ago. A number of cyclists, who went up to the hot springs last night, were caught in the rain and had to remain there. They came back this morning. From the number of suicides induced by the heat all over the country, we feel inclined to believe that the hot wave may be the much talked-of fool-killer. J. O. McCormack, J. Gamble, George Beatty and Lee Crites made up a fishing party for the left fork of the Gallenas, with headquarters at Frank Zumbach's. After August 1st, Onava Altravates water will cost the public, delivered, 20c per gallon. CHAS. WRIGHT, 206 15.* United Order of American Mechanics initiated Wm. H. Hirt into the mysteries of their order last evening. This is a growing order and one that is attracting much attention. The bridge on the road to the upper town, near the sanitarium, is in a dangerous condition. One horse was injured there, this morning. It should be repaired at once. Chas. Tamme is fixing up the walks in front of his residence property in good shape. Go there and do likewise, thus avoiding cost to yourselves and inconvenience to pedestrians. Those expecting to enlist in the new military company to be formed here, will meet in the council chamber, at the city hall, Monday evening, so we are informed by Captain Parker. Captain James will enlist the members. The following parties made due application for retail merchandise licenses: Rosenthal Bros. for opera house and store; L. H. Manca & Co., N. L. Rosenthal & Co., Roman Ortiz y Ribera, Geoffroy & Desmarais, Duncan opera house. J. D. Kutz, of Warsaw, Ind., arrived in the city, last evening. It is understood that he will be awarded the contract for the heaters of the new addition to the Territorial insane asylum. The writer personally knows that there is not a better or more economical system of heating in operation in the United States than the Kutz system of hot water heating.

TAX COLLECTIONS.

Ten Counties and Four Court Clerks Have Paid Up to Date. Auditor Marcelino Garcia has received reports from the county collectors of Mora, San Miguel and Eddy counties for the month of June, 1897, since the report published yesterday was prepared. The amounts of each received by the Territorial treasurer, in conformity with the reports rendered to the Territorial auditor, are as follows:

Table with columns: County, Year, Territorial Purpose, Territorial Institutions, Total. Rows for Mora, San Miguel, Eddy, and Totals.

The following district clerks have also sent in the sums opposite their names, for the quarter ending June 30, 1897: C. H. Gilder, First district \$ 253.35, O. N. Marron, Second district . . . 1,050.00, W. B. Walton, Third district . . . 430.50, Felix Martinez, Fourth district . . . 486.50, W. M. Driscoll, Fifth district . . . 287.00. \$2,497.00.

Sacred Feast Day. In the circles of the Catholic religion, to-day is the most sacred and most devoutly observed of all their feast days, it being the "Feast of St. Carmel." At 8 o'clock, this morning, solemn high mass sung, at the hot springs, by Rev. Leo Aaron, O. S. D., followed by a largely attended procession, after which, Rev. T. P. O'Keefe preached a very impressive sermon, on "Devotion of Catholics to Our Lady of Mt. Carmel." This society took its rise on the mountain that the bible says, Prophet Elias descended from heaven on, situated in Palestine, near the City of Jerusalem. Its religious history dates back to the first ages of the world.

RAILROAD RUMBLINGS.

Engine No. 718 is being repaired. Engine No. 437 is having her boiler washed, to-day. The pay checks were well received by the railroad boys, to-day. Two Christian Endeavor trainloads took breakfast here, this morning. Several tramps rode in on the Christian Endeavor train, this morning. Wm. Struba, operator, wife and child, left for San Marcial, last evening. Machinist W. W. Curtis resigned his position with the Santa Fe here, last night. G. T. Seely, son of the former general superintendent, T. J. Seely, left for Socorro, on an engineering trip. Mike Smith, the machinist and foot-racer, has been laying off, this week, owing to a severe strain he received last Sunday evening. Conductor John Donahue has been transferred from the Silver City branch to the Albuquerque-El Paso run, and he has moved his family to the latter place. A railroad detective, who travels almost constantly between Chicago and Cleveland, reports that the number of tramps now on the road exceeds anything he has ever seen. He says it is not fair to call them tramps, for they appear to be mechanics and laborers out of employment. The detective in question makes the almost incredible statement that he counted 197 tramps on one freight train. Phillip Collins, foreman of the section gang on the Atchison railway at Turner, Kansas, near Kansas City, has been arrested on warrants sworn out by detectives in the employ of the railway company, charging him with padding the company's pay roll. Some time ago, the first inking of padded pay rolls became public and it was stated the company had been robbed in this manner of thousands of dollars. Since then, detectives have been working all along the road. According to the Railway Age, 622 miles of railway were laid in the first six months of the present year. In the first six months of 1894, but 625 miles were laid, but with this one exception, no year back to 1875 has so small a record. Louisiana has laid in 1897, with 111 miles and California with ninety-three miles. About half the states laid no track at all. From present indications, it is inferred that the total mileage laid this year will be about 2,000 miles—about the record of each of the last three years. The Kansas supreme court has affirmed the decision of the district court of Neosho county, granting to Wm. Carey a verdict for damages against the Atchison. Carey was a fireman, and was injured when the engine was running, by breakage of machinery used in its construction. The case was appealed by the railroad company, on the grounds of contributory negligence and that the jury had failed to answer certain special questions. The court sustains neither contention and affirms the decision of the lower court. The heavy passenger traffic from California to the east, incident to the big Christian Endeavor convention in San Francisco, and the low rate now in effect from California to Chicago, has commenced. Extra trains will continue to be run on all roads until the thousands of eastern Christian Endeavorers have been returned to their homes, and the large number of western people who take advantage of the low rate are carried into the east. The low rate will remain in effect until August 15th, and for this reason the east-bound traffic will probably not be characterized by the rush of the travel west-bound. Probably one of the best equipped and jolliest sets of boys that ever got together for a summer's outing is the jolly party of railroaders, who will leave, to-morrow evening, for a sixty days outing, in the James mountains and Sulphur springs country. The party consists of Bob Moore, C. F. Helwagen, Geo. W. Green, Sanford North, C. A. Berum, Richard Davidson, J. E. Oyater, Wm. Hurt and probably R. F. Hays. They will outfit from Espanola, the equipment consisting of a grub wagon, loaded with grub, with a few provisions, with a negro cook as engineer, and a four-horse coach for the party to ride in. Their headquarters camp will be made in the vicinity of Sulphur springs, Bernillo county, and they will go fully equipped with pack-oxen to radiate into the mountains wherever the spirit moves them.
