THE CURRENCY BILL

The president is reported to be strongly insisting that congress shall remain in continuous session, if necessary, and at any rate to keep steadily at it until a currency bill is passed. He is definitely committed to a measure whose support among the bankers is almost negligible...

The president is thus justifying the fear of the baleful influence of politics in what is essentially a non-partisan matter. And if the president is to do politics with monetary legislation, it is certain that he or others will do politics with monetary administration.

The objection to the control of the federal reserve board by a political body to the complete exclusion of the owners of the capital to be controlled by that body is not based on fear that any president would appoint unworthy men to the central board or that anything like "graft" would be possible. Nobody fears anything of the kind.

which it is safe to say that not a dozen had ever read the Aldrich bill, or knew what was in it or why. Every successive president will absolutely dominate the federal reserve board by the three official members...

It is said that the German Reich bank is entirely controlled by government appointees, which is not quite true. The small directory is entirely appointed by the emperor, and they are not allowed to have any pecuniary interest in the bank.

RAILWAY EFFICIENCY TESTS

A compilation has been made showing that during the month of August the Pennsylvania railroad made efficiency tests to ascertain the observance of train safety rules in nearly 185,000 cases.

Particular attention was also given to the performance of flagmen of their required duty, there being 5,989 tests on this subject, out of which there was perfect performance in all but 13 cases.

THE BUSINESS MAN AND THE TARIFF

The Literary Digest has forsaken its attitude of impartiality long enough to show its sympathy for the Wilsonian tariff program by declaring:

"The most remarkable thing about the new tariff law in the opinion of one observer, is the calmness with which it is received by those very interests which only a few months ago were proclaiming frantically that its passage would be the signal for chaos and disaster in the world of American industries."

Will the editor of the Literary Digest please point out what course there remains for business interests to pursue, outside a course of calmness? To spend one's time in useless protests against an injustice that has been effected by law, would be the supremest of folly.

under which the lawmakers may have placed him.

The atmosphere of calm, which the editor of Literary Digest endeavors to twist into a virtual approval of the new tariff law, is merely the working of this spirit of determination which has made the American business man supreme.

INTEREST IN HEARING

Albuquerque, Oct. 17.—"Business men generally throughout the state are manifesting the greatest interest in the forthcoming hearings in New Mexico by the interstate commerce commission," said Chairman Hugh H. Williams of the state corporation commission this morning.

"It is the contention of the state commission that the rates in effect to all points in New Mexico, both from the east and the west, are generally excessive and that the towns of this state should enjoy at least as favorable rates as those to Trinidad or El Paso."

Recently Commissioner Owen appeared before the meeting of the Wholesale Grocers' association in Albuquerque and explained the purposes of the commission in bringing the action before the interstate commission, and cleared away considerable misapprehension regarding the purposes of the state board.

IMPORTATIONS OF BEEF INCREASE RAPIDLY

UNITED STATES NO LONGER SENDS OUT MORE MEAT THAN IS BROUGHT IN

Washington, Oct. 17.—The recent transfer of the United States from the small list of beef exporting countries to the large list of beef-importing countries is sharply illustrated by the August figures of imports and exports of beef and beef cattle and a comparison thereof with the August figures of earlier years just made by the foreign and domestic commerce bureau of the United States.

Even the value of the comparatively small number of cattle exported is now less per head than in earlier years, despite the general advance in prices meantime. The average export price of the 18,069 head of cattle in the eight months ended with August, 1913, was \$34, against an average of 68 for the 418,865 head of cattle exported in the corresponding months of 1904.

FOOTBALL NOTES

"Germany" Schultz, the old Michigan star, is assisting coach "Hurry U" Yost at Ann Arbor.

Ten touchdowns in a game lasting just 44 minutes, was the record of the Princeton Tigers in their game with Fordham.

Some Harvard enthusiasts are talking 2 to 1 odds that the Crimson will beat both Yale and Princeton this year.

John Cates, the old Yale end and track captain, is helping the coaches develop the Johns Hopkins University squad at Baltimore.

Princeton began playing football in 1869, Yale in 1873, Harvard in 1874, Pennsylvania in 1876, Dartmouth in 1882 and Cornell in 1887.

Dartmouth has shown a lot of improvement of late. The Hanover eleven is lighter than for some years, but will make up for this in speed.

Washington and Jefferson has one of the heaviest teams in its history this year. The W. and J. eleven has a game with Yale October 25, and expects to make a good showing against the Elis.

The University of Pennsylvania football eleven suffered a loss when it was announced that Harry Wilson, veteran tackle of last year's eleven, would not come out for its team this season.

The record score of the college teams for the season to date is that made by Beloit against De Kalb Normal at Beloit, Wis. The home eleven scored 116 points, making 16 touchdowns, 14 goals from touchdowns and two goals from placement.

LAND RESERVE OPENED

North Platte, Neb., Oct. 17.—The first step looking to the opening of the Nebraska national forest reserve to settlement was taken today, when the registration of prospective homesteaders was begun at North Platte, Broken Bow and Valentine. The Nebraska reserve, comprising about 300,000 acres, was set aside during the Roosevelt administration, but was later abandoned under a proclamation of President Taft. The registration will be open until October 29, when the drawing of lots to determine selections will be made.

JUDGE SUSTAINS LEVY

Denver, Oct. 17.—Judge John A. Perry in the district court here today sustained the assessments levied by the state tax commission against the Denver Gas and Electric Light company and the Denver City Tramway company, which the city commissioners had endeavored to reduce. The court refused to pass upon the constitutionality of the law creating the state tax commission, on the ground that the "recall of decisions" amendment to the state legislation prohibits district judges from declaring a statute unconstitutional.

NEW EVIDENCE COMING

Plymouth, Mass., Oct. 17.—A hint at evidence not yet received was given by the state at the continuation of the trial for murder of Mrs. Jennie May Eaton today.

This had to do with a typewritten document alleged to have disappeared from the Eaton home after the death of Rear Admiral Eaton. Dorothy Ainsworth, the younger of Mrs. Eaton's two daughters by an earlier marriage, was asked by District Attorney Barker what she knew of such a paper. The defense objected, whereupon the district attorney called on Mrs. Eaton's attorneys to produce the document. The matter was not pressed, but Mr. Barker said he hoped to introduce the paper later.

After the admiral's death a search was made for a will alleged to have been made by the admiral after the date borne by the will filed for probate, which left his property to the widow and his step daughters.

This is the Cook Book that makes the food which makes the whole family happy.

Cottolene

—the shortening that insures digestible food. Makes light foods lighter.

TRY THIS PIE CRUST
(Written especially for the Cottolene Cook Book by Mrs. Lincoln)

Mix 1 scant half-level teaspoon salt with 1-2 cups pastry flour. Chop in, with a knife, a scant half-cup of chilled Cottolene. When well cut together, mix in very gradually 3 tablespoons milk, mixing evenly. Do not knead with the hands. Sprinkle some flour on molding board, flour rolling pin, roll dough into rectangular shape, roll up, cut in two, stand one roll on end, pat it flat and roll to a round a little larger than the pie plate, cover plate and fill with pie material. Roll other half of parts in same way, making it 1-2 inch larger than plate, make several incisions in top crust, lay it loosely over pie, wet edge of lower crust and press the two together, marking with a fork. Marking keeps crust from puffing and helps to keep in the juice.

While you think of it, drop a postal for **HOME HELPS**, this FREE Cook Book, written by five of America's greatest cooking experts. It also tells, clearly, how to use Cottolene successfully in the recipes you have always used.

The DOCTOR'S ADVICE

by Dr. Lewis Baker

The questions answered below are general in character. The symptoms or diseases are given and the answers will apply to any case of similar nature.

Those wishing further advice free, may address Dr. Lewis Baker, College Bldg., College-Elwood Sts., Dayton, O., enclosing self-addressed stamped envelope for reply. Full name and address must be given, but only initials or fictitious name will be used in my answers. The prescriptions can be filled at any well-stocked drug store. Any druggist can order of dealer.

"Anxious Wife"—Give 10 to 15 drops of the following in water an hour before each meal and your child will soon be controlled from bedwetting: Comp. fluid halmwort, 1 oz.; tincture cubeb, 1 dram; tincture rhus-aromatic, 2 drams.

"La Rue" writes: "For many years I have suffered with stomach and bowel trouble which has been caused by a severe case of catarrh. My blood is also in poor condition. What can be done for me?"

Answer: If you follow the directions given below you should be well and strong again. Obtain the following from any well stocked drugstore and mix by shaking well, then take a teaspoonful four times daily: Syrup sarsaparilla comp., 4 oz.; comp. fluid halmwort, 1 oz.; fluid ext. buchu, 1 oz. Use in connection with this the following local treatment: Get a 2-oz. package of antiseptic vilane powder and make a catarrh balm by mixing one ounce of lard or vaseline with a level teaspoonful of the powder and use in the nostrils daily. Also make a wash of one pint of warm water and one-half teaspoonful of vilane powder and use two or three times a day until the nostrils are thoroughly cleansed and your trouble should soon be gone.

"Elsie M." writes: "I have such short, stringy, straggling hair and my scalp is full of dandruff. Please advise what to do."

Answer: The best advice I can offer is simple. Get at a well stocked drugstore a 4 oz. jar of plain yellow mayol, directions accompanying and use it regularly. It promotes a healthy, vigorous growth of hair and abates dandruff, itching scalp, lustreless hair and stops falling hair. If the hair is harsh and straggling it restores a soft, fluffy appearance, and brings back the intense natural color.

"Hazelle" says: "I would certainly appreciate something that would increase my weight and take away that languid feeling which I am subject to most of the time. My blood is weak and watery and my appetite is poor."

Answer: Your condition is very easily overcome if you will follow the directions given below. Ask your druggist for 3-grain hypo-nucleate tablets and take according to the directions and your weight should increase. These tablets promote assimilation, absorption and aid digestion, transform the complexion and figure. They are prescribed by physicians and are perfectly good. They should be taken regularly for several months and you should depend upon gaining flesh and that languid feeling will vanish completely.

"D. E. G." writes: "My rheumatism is getting worse all the time. I am getting so stiff that it makes it very hard for me to get around."

Answer: Do not worry about your rheumatism, as that can be very easily controlled by using the following: Get at the drugstore the ingredients named mix thoroughly and take a teaspoonful at mealtime and again at bedtime and you should soon be entirely relieved of that disagreeable

The Shuberts announce four plays that they have now in rehearsal for speedy production. One is "Turandot," the play based on a Chinese legend that Percy MacKaye has rewritten from various German and English versions and that is to be clothed in gorgeous trappings, copied from those at Reinhardt's theater in Berlin, where it was originally mounted. Two more are comedies of the life of the hour—"Miss Phoenix" by Albert Lee and "A Modern Girl" by Ruth Richardson. The fourth play, which is by Miss Crother, has not been named yet.

Will G. Richmond, a resident of Inglewood, Cal., will answer any inquiries about Foley's Honey and Tar Compound. He says further "Foley's Honey and Tar Compound has greatly benefited me for bronchial trouble and cough. After I used other remedies that failed. It is more like a food than a medicine." Do not ac-

Fine Laces Within Reach of All

Who wouldn't undertake to own a pretty boudoir cap and gown when both can be made for about two dollars and a half expenditure? Since manufacturers of lace have said goodbye to the old hand-made patterns and have turned their attention to the original designs that can be made by machinery, we have a new order of the finest and most exquisite laces that cost hardly more than fine, plain cotton fabrics. This adaptation of design to mechanical workmanship has done wonders in putting pretty things within the reach of even woman.

These laces are woven in wide foundings as well as narrow edgings and can be used like any other thin material. They have made a tremendous advance in popularity this season. The cheaper varieties of machine-made laces are not specially durable, but they are not intended for garments demanding durability. But with a modest outlay one can buy the German Val and better grades of shadow lace and be sure of their wearing qualities. It is laundering that is hard on filmy lace. It is so easily done that garments made with lace trimmings should never be sent to a laundry but done at home. No starching, no bluing is necessary. They are washed as other laces are washed by hand.

The pretty mainsook boudoir gown shown here is made up with expensive and trimming of the least expensive shadow lace which sells from twenty-five to forty cents a yard. About two and a half yards of it provide for the sleeves, trimmings and lace strips in the cap. Five yards of ribbon an inch wide is needed and two yards of baby ribbon. A yard of net ruffling for the cap and five yards of a very narrow lace edging in one of the simple Cluny patterns for the gown are needed. Four yards of mainsook will be an ample allowance for the body of the gown. It is easy enough to figure that this bewitching little outfit can hardly be called an extravagance by any one.

The same design can be worked out in wash silks and more durable laces if it is not necessary to practice strict economy. Even in these materials so much prettiness can hardly be achieved at so small an outlay of money, in any other way.

JULIA BOTTOMLEY.

PLEASE HIM WITHOUT FUSS

Not Hard to Put Some Dainty Handwork on the Front of Husband's or Brother's Silk Shirt.

A man doesn't like "fussy" things, but he'll appreciate a bit of handwork on the front of his silk shirt. Ask him! No, don't—surprise him!

If you are afraid that you can't make the shirt entire, buy one from his haberdasher. The material best suited for the purpose is striped—colored stripes about an inch apart on a white ground—so be sure that you get his favorite color. Most men are fond of lavender. Now stamp in the center of the white ground between the colored stripes, about two inches apart, tiny designs not larger than a ten-cent piece down the front. There is a tiny round five-petaled flower with out foliage or stem and with a solid dot to fill the center space where the petals meet that is easily drawn or stamped by even the novice, and looks well. If preferred, one can use the more difficult bowknot or fleur-de-lis. Pad the designs well and work them in white silk floss. Floss the color of the stripes may be used, but it is rather conspicuous. There is a quiet elegance about the white on a white ground that most men would prefer. It is necessary to embroider only that part which shows when the coat is unfastened. Of course, a hand-embroidered monogram upon the left sleeve pleases the wearer still more.—Philadelphia North American.

New Sashes.

To the invention of new sashes there seems no end. These long lengths of supple material are an absolute rage in Paris, and they are worn by women and girls of all ages. Some of the newest sashes are tied directly in front, in a large, full bow; others are tied at the side rather low down; others, again, are wound round the hips in Fatima fashion and simply knotted at the back.

All the art shades of blue are in demand for these sashes, especially the blue known as Madonna.

For wearing with pure white dresses and smart sashes of printed gauze, which exhibit various shades of red intermingled with touches of black and deep blue. Almost all the sashes of this season are fringed in order that they may fall heavily.

Gathered Skirts.

All smart skirts now are gathered at the back of the waistline, and the plain, close-fitting skirt—at this point—is distinctly out of the running. Of course, the fullness is between the waistline and hip only, for below the hips the garment must cling closely to the figure.

SMART FALL GOWN.

Model of brown and white striped wool cloth with collar, vest and belt of brown poplin.

Chiffon Motor Bonnet.

Among the attractive new automobile caps is one of two thicknesses—chiffon, made like a sunbonnet. The chiffon is green and blue and is shirred over a wire frame which fits closely about the head and flares out over the face. The inside of the bonnet is blue and the outside is green.

Raffia is also used for automobile bonnets. A prettily patterned cap is woven of colored straws and is mounted over a shirred foundation of colored silk. A frill of the silk about the face and neck softens the effect of the raffia. A silk chin string fastens at one side under a bunch of artificial flowers.
