LAS VEGAS, NEW MEXICO, SATURDAY EVENING, NOVEMBER, 4, 1905.

NO. 1

BETTER CONDITIONS PREVAIL THROUGHOUT GREATER PART OF DISTURBED EMPIRE OF CZAR: STRIKE GIVES TROUBLE

Desperate Effort Being Made to Preserve Finland to the Crown. All Parties Except Socialists Inclined to Accept Offered Reforms. Disorders in the South.

St. Petersburg, Nov. 4.—Last night for the first time in ten days the inhabitants of the capital could discard candles and kerosene and return to electric light. Normal conditions of life are gradually resuming. Street meetings and demonstrations have ceased and the people are returning to ordinary occupations. The situation in the provinces is also more reassuring. Agitation and disorder are gradually dying down. The most serious condition is in Finland, where the socialists and revolutionists are threatening to go to extremes. On account of the railroad strike the government is greatly hampered in returning to Finland the troops withdrawn to protect the capital.

Odessa, Nov. 4.—Pillaging here has been largely stopped, thanks to the intervention of troops and local militia formed largely of students, but the streets are unsafe except for sanitary officers and sisters of charity. The city presents the aspect of a military camp. The students' militia is pursuing rioters who are defending themselves with revolvers.

Trouble in Finland.

Helsingfors, Finland, Nov. 4.—Three Russian battleships, a cruiser and ten thousand troops have arrived here from Revel. The general strike continues. The situation is threatening on account of the attitude of the socialists. The other classes are disposed to be content with the imperial manifesto.

Political Pardon.

St. Petersburg, Nov. 4.—The text of the imperial manifesto granting amnesty to political prisoners declares free pardon is granted to political prisoners of various categories which are enumerated, also to participants in strikes and those responsible for breaking contracts. The

pardon extends to those in prison and those not yet tried. Those condemned to death are to have the penalty commuted to fifteen years at hard labor.

Capital Quiet.

Parl. Nov. 4.—The foreign office reports received here from Russia show that Riga and Odessa are now centers of disorder, that St. Petersburg and Moscow are quiet and that Finland has practically established an autonomous form of government without the Russian government adopting repressive measures.

Armed Encounter.

Kremenchug, Nov. 4.—There was an encounter today between armed factions of loyalists and revolutionists. The troops interfered to restore order and were forced to fire several volleys. Many were killed and wounded among both factions. The troops also suffered.

Trains Start.

Danzig, Prussia, Nov. 4.—Passenger trains for the Russian southwestern railway by way of Grajewo, started today. Passenger trains by way of Wirballen are not yet moving.

Copen Hagen, Nov. 4.—The foreign office here today received a telegram announcing that a large force of Russian troops had been landed and distributed through Nelingsford. The Russian squadron has entered the inner harbor. The strike continues unabated and the situation is critical.

Finland Freedom.

London, Nov. 4.—The second edition of the London Times today, which appeared about 1 this afternoon, publishes the following dispatch from St. Petersburg dated Nov. 3: "Finland has won her freedom. A manifesto embodying all the demands presented by the popular delegates at Helsingfors to Prince John O'Brien, governor general, will be submitted by the secretary of state, Luitner, for imperial signature at Peterhof tonight. The keynote of the new Finnish constitution is responsibility not to the monarch as heretofore, but to the secretary of state and diet. The presence of Russian warships off Helsingfors is intended to signify that although the emperor grants constitutional freedom, he intends to prevent the severance of the country from the empire."

Sheriff Armijo made the following statement to a Citizen reporter: "I, as sheriff of Bernalillo county, will, commencing with next Sunday, strictly enforce the law governing the closing of the saloons on the Sabbath, and anyone violating the law will be arrested and prosecuted."

"Does this mean, Mr. Armijo," asked the reporter, "that the saloons will have to close up tight and refrain from selling liquor on Sunday?"

"It means just that, exactly," replied the sheriff. "There will be no bluffing by closing the front doors and pulling down the blinds and then leaving the back doors open, as has been the case during the past two Sundays. I shall see that every saloon is closed up tight on Sunday, both back and front doors, and lights out, and if any saloon keeper refuses to obey my orders he will have to answer to the court for the violation of the law."

That this stand on the part of Sheriff Armijo has created some consternation among the liquor dealers is expressing it mildly. The sheriff will serve notice in the next few days on each saloon proprietor doing business in Albuquerque, ordering him to close his place on Sunday on the penalty of being arrested and prosecuted for the violation of the Sunday observance law.—Citizen.

MOTHER'S AWFUL DEED

Minneapolis, Nov. 4.—Mrs. James Brennan of this city quarreled with her husband last evening and after he had gone to work she shot and killed two children and wounded the other two so badly that they are not expected to recover. She then shot herself in the left breast and, it is believed, she will die.

One of the children died later at the hospital and the other cannot recover. The dead are: Lizzie, age 16; Alice, age 6; Arthur, age 13. The head. Appearances indicate the boys struggled desperately to escape.

SOUTHERN PACIFIC WRECK

San Luis Obispo, Nov. 4.—The Southern Pacific coast line limited passenger train dashed into a train of tourist cars at Santa Margarita station, fourteen miles north of this city, yesterday. Nineteen people were hurt, several seriously, and two probably fatally. Elsie Blacamore, a girl of nine years, was pinned in the wreckage. Her right arm was twisted out of shape and the bones were crushed. She also received internal injuries, which may prove fatal. Mrs. M. J. Martin of Ottumwa, Ia., is also in a condition which is considered serious.

GERMAN AMBASSADOR NEGOTIATES TREATY.

Washington, Nov. 4.—Baron Sternburg, German ambassador, called at the state department today and formally initiated negotiations for a new trade treaty between the United States and Germany, submitting the propositions of his own government. Secretary Root has taken the matter under consideration.

RATIFICATIONS OF TREATY SOON TO BE EXCHANGED.

Washington, Nov. 4.—M. Takahira, the Japanese minister, today had a long conference with Secretary Root. He expects that the exchange of ratifications of the Russo-Japanese treaty will take place towards the end of the month, probably the 20th inst.

Death of Mrs. S. A. Franklin.

Mrs. S. A. Franklin died at her home at the corner of Eighth and Main streets this morning at 7:10 o'clock, after suffering for some time with lung trouble.

She came here on August 17th, hoping to obtain relief, but the disease had progressed so far that the journey was in vain.

Deceased was but twenty-four years of age and leaves a little daughter, Eloise, thirteen months old, and a husband to mourn her death. The latter was employed by Thomas Raymond as bookkeeper.

The remains were taken back to the old home at Tennille, Ga., this evening by the bereaved husband.

THE CHAPERONS

The record house of the season saw "The Chaperons" at the Duncan last night. That it was a well pleased audience the almost constant applause gave eloquent testimony. The company was fully as large and fully as

FRATERNAL SANITARIUM TENT BUILDER ARRIVES IN LAS VEGAS TO BEGIN WORK AT ONCE

Ideal Portable Tent Cottages to Be Set Up in Colonies of a Hundred Each on Fraternal City Grounds. The New Plan of Management.

It is with more than ordinary satisfaction that The Optic announces that Jas. A. Walker, the gentleman who has the contract for building the ideal portable tent houses to be used by the National Fraternal Sanitarium, has arrived in the city with his family and will establish his home here with a view to giving personal supervision to the erection of a large number of cottages for the great institution. While it is not the intention of the sanitarium management to open the Montezuma until January 1, a goodly number of tents are to be ready before that time, and the work of putting them up is to begin just as soon as Mr. Walker gets his factory equipped.

Mr. Walker's instructions from the company are to build the tents in colonies of a hundred each, till the number reaches 500. Then he will wait until these are nearly all taken before beginning another lot. He will erect one of his tents of standard size and equipment in the city at once for the use of his own family.

The Walker portable cottage was patented last August. After making a most thorough investigation, the experts of the sanitarium company unanimously decided that it was the best of any to be had for their purposes. The home factory is at Rockford, Ill., but owing to the large number to be built here, the contractor and inventor will establish here at once a branch factory in which all the cottages to be used in New Mexico will be manufactured.

The Walker portable cottage of standard size, with accommodations for six people can be built for a hundred dollars, and it can be set up in two hours. It is built in sections and can be moved from one place to another. The system of ventilation is ideal, it has storm curtains and wire screens; it gives absolute protection from cold or rain or wind, is divided into cosy apartments, and is

built on a substantial frame. The standard cottage is eighteen feet long and twelve feet wide, but any size may be had to order.

It is worthy of note that Dowie has ordered tents from Mr. Walker for his million dollar settlement in Old Mexico. The Optic will receive in a few days cuts of the tents, showing exterior and interior views and the sectional devices.

The gentleman will be prepared to push work and the sanitarium company is ready to rush the tent cottage part of their great enterprise without any delay.

The Change of Management.

The projected change in the management of the sanitarium is to take place November 15. All of the preliminaries have been arranged and the new board, representing directly the Fraternal congress and the Associated Fraternities, comprising ninety-nine strong fraternal orders, will take up the reins immediately after the meeting. All of the directors, with the exception of one who is away, have agreed to the new arrangement. The following resolutions explain fully the new plan:

Continued on Page 7.

HOMESICKNESS CAUSES CANNUCK TO CHOOSE DESERT PILGRIMAGE

The tiny bacillus of homesickness has concealed about his Lilliputian anatomy the potentiality to work great havoc as well as to disturb the mental equilibrium and bodily poise of the hardest. A subject upon whom this mischievous germ got in his work with uncommon pugnance is Chas. McClatchy, somewhat simple-minded Canadian farmer.

McClatchy, who is forty years of age, was a passenger upon the No. 7 that passed through the city the night before last. He was accompanied by an uncle eighty years of age. Neither had ever been forty miles from their own Canadian farm before. Attracted by the uncommonly low rates offered by the Santa Fe, they set out to see the world and were bound for California.

The old gentleman was pleased as Punch, with the trip and with the experiences that kept crowding the hours as he journeyed. Not so the nephew. The bug of homesickness got busy and kept on increasing his lick. By the time Raton was reached, McClatchy was pretty nearly all in. He couldn't have felt worse had he been on a journey to the scaffold. All the stories of the golden beauties of the orange state were forgotten and his Canadian farm appeared in the lessening perspective, the one spot upon earth. He was alarmed by the strange people he encountered and by the strange sights he saw. He recalled weird stories of the blood-thirsty Indians of this western land. If he could only get back home, he

would never stir from his peaceful habitation again. The idea took shape and filled his mind to the exclusion of all else. Finally he could stand it no longer. He must go back and must start at once.

When the train was running at a rate of forty miles an hour approaching Azul, McClatchy started for the door of the train, shouting, "I'm going home; you can't stop me." Some of the passengers restrained him with difficulty until the conductor had slowed down, and then the man jumped, taking the back track at a run. Several of the passengers and trainmen pursued him, believing he would die in the wilderness, unless he should be gotten to some habitation. However, McClatchy distanced his pursuers.

Yesterday J. D. Hand found the man wandering about on his ranch, making his way to the northeast at the rate of about a half mile an hour. He brought the man to the city and turned him over to the officials. He does not appear to be insane but he is of simple-minded nature, is alarmed at everything new or strange he sees and is filled with the most intense longing to get back to his farm. His uncle paid little attention when McClatchy left the train. The old gentleman continued his journey to California with the remark "Charles will manage to get back home; he has plenty of money." McClatchy has funds enough to take him home and he will probably be sent back in a day or two.

INTERNATIONAL LIVE STOCK EXPOSITION

The following is an interview with A. M. Soule, dean and director of Virginia experiment station, a southern educator, and shows a far-reaching value to the International:

"The International Live Stock exposition has come to be recognized as one of the great educational institutions of America. Certainly this is a strong statement, but when one considers the large number of animals annually brought together in its magnificent arena, the broad statement made above is fully justified. It is not an unusual sight at Chicago to see as many as forty or fifty animals of a single breed or class in competi-

tion. To win in such company calls for the best efforts of the breeder and feeder, and naturally gives a stimulus to the producers of high-class animals that is having a far-reaching influence on the live stock industry of the country and it is needless to add that it is this great industry that has done probably more than anything else to make the American farmer the most progressive and broad-gauged tiller of the soil the world has ever known.

"The International Live Stock exposition is an index of the progress of the animal breeding in this country. Here are annually exhibited the best products of the minds and genius of the American breeder, concepts which have been developing during twenty, and in some cases even thirty or forty years. What a privilege it is to

come in contact with these men; what an inspiration to study the results of their consistent and united effort. It is no wonder that students of the agricultural colleges far and near, with their instructors, flock to Chicago during the live stock exposition. Where else could they hope to find a school exemplifying as this does all the principles of animal breeding and nutrition. Yes, the International Live Stock exposition is indeed a great school. Think of what it means to the hundreds of thousands of farmers who annually visit it and see what their brother farmers and stockmen have actually accomplished. Many a man has gotten his first true conception of what animal breeding and production means through a visit to the exposition. It has thus become a great vitalizing and inspiring force to the live stock men of the whole country."

MADDERN REMOVED.

Washington, Nov. 4.—The comptroller of the currency today removed from service Bank Examiner R. S. Maddern on account of his failure to discover the condition existing in the Enterprise National bank of Allegheny City, Pa. Owen T. Reeves, Jr., has been appointed to fill the vacancy. Reeves has been assistant bank examiner in New York City.

DR. McLEOD ARRAIGNED FOR MURDER OF MISS GEARY.

Boston, Nov. 4.—Dr. Percy McLeod, who was arrested yesterday in connection with the death of Susanna Geary, the chorus girl, was arraigned in the municipal court today and ordered to furnish \$29,000 for further appearance. The attorney for the prisoner intimated that bondsmen would be secured during the day.

TO PUT ON LID

The lid will be on tight in Albuquerque on Sundays hereafter, according to a statement made today by Sheriff Perfecto Armijo and it will be a difficult problem for the thirty-one to get a drink anywhere in the city on the Sabbath.

This afternoon at the court house,

TWENTY-SIXTH ANNIVERSARY OF THE LAS VEGAS DAILY OPTIC

Twenty-six years ago today, the Las Vegas Daily Optic appeared for the first time in Las Vegas. Reference to the files of November of the year 1879 show that the first number was a four column, four page paper, with a fair advertising patronage, no telegraphic service, several contributions from citizens, brief breezy news columns and a column of editorial paragraphs. The name of R. A. Klatter appears as editor. The Browne & Manzanares company are the only advertisers whose names are found in The Optic of today. Not more than one or two familiar names are to be found in the news columns. During the years that have passed the growth of The Optic has been steady and progressive. Reference

to the files shows several enlargements and steady improvement in the typographical appearance. Important news and telegraph features are added and there is every evidence that the paper has kept not only pace, but a little ahead of the growth of the city.

The Optic again takes this opportunity of thanking its patrons and friends for their support and confidence and hope to keep ever in the van of progress.

During the past two years a great deal of valuable equipment has been added to every department and it is the intention of the management, with the continued patronage of the people, to make other very substantial improvements within the next year.

spectacular as represented. There is always charm for the many beautiful maidens, gay garments and marches and dances under the play of brilliant colored lights. The girls' voices were fairly good, those of the men excellent and the full choruses were effective.

The flimsy pretext of a plot is simply an excuse for introducing many specialties and the striking spectacular effects. Much of the comedy isn't particularly funny, and there is a strain of coarseness in the whole production that prevents it from being entirely pleasing. As a rule the ensemble features are better than the specialties, though there are some clever individuals in the outfit. Ladell and Lydecker are exaggerated specimens of the long and short of it, and the former is a first class dancer, a capable acrobat and a fair comedian. Much of the work of Miss Valmesada is creditable and the Irish subway contractor is worthy of special mention.

COL. GREENE GIVES PRIZE

El Paso, Tex., Nov. 3.—Col. W. C. Greene, of New York and El Paso the noted copper miner and millionaire, has wired a draft for \$1,000 for first prize in the rock drilling contest to be held in this city during the

meeting of the American Mining congress, Nov. 14 to 18.

The committee in charge of the contest has reduced the entrance fee from \$50 to \$30, and with the first prize increased from \$800 to \$1,000. It is expected that the list of entries will be large.

Already entries have been made from Cananea, Mexico; Tombstone, and Bisbee, Ariz.; Tonopah and Goldfields, Nev.; Cripple Creek, Colo., and several places in Sonora.

The best drillers in the country will contest for the prizes and attempt to make new records. The world's record was established here two years ago and has never been broken.

CARDS CONFISCATED.

New York, Nov. 4.—Thousands of Tammany campaign postal cards issued in opposition to Hearst were confiscated today by order of Postmaster William R. Wilcox of this city. The cards were a miniature of the campaign poster containing the accusation by inference that Hearst was responsible for the assassination of McKinley.

**AD VALOREM RATES OF DUTY IN
OLD AND NEW GERMAN TARIFFS**

The monthly summary of commerce and finance for August issued by the department of commerce and labor through its bureau of statistics, contains the complete German customs tariff, giving a comparison of the rates of import duty levied in Germany under the old and the new customs tariffs, respectively. The rates are all expressed in marks per 100 kilos, since no ad valorem duties are levied in Germany.

Since the significance of a given rate of duty, however, appears more clearly when expressed in terms of ad valorem rates, the following table has been compiled by the bureau of statistics, in which the rates of duty at present levied in Germany on the principal articles of export from the United States are expressed in terms of ad valorem rates, based on the German estimates of the import value of those articles in 1903, the latest year for which figures are available.

These rates are followed by figures indicating the per cent of increase the present rates of duty will undergo in the new general and conventional tariffs, respectively. Thus, for example, the rate of duty on bacon imported into Germany being 20 marks per 100 kilos and the estimated value of 100 kilos thereof in 1903, according to the German returns, being \$7.50 marks, the rate ad valorem equals 23 per cent. The German rates of duty being fixed specific amounts, it is evident that the estimated ad valorem rate will fluctuate from year to year in an inverse ratio to the value of the product—that is to say, as the price of a given article will rise the estimated ad valorem rate will appear as a smaller percentage, and vice versa.

Such being the case, the estimates as to what percentage ad valorem the new general and conventional rates will constitute can only be approximately correct at best. If prices of commodities should not change greatly, as compared with those prevailing in 1903, the estimates of what the new ad valorem rates will amount to will be fairly accurate, otherwise they will not. However, the percentage of increase or decrease in rates, given in the last two columns of the table, are based on the actual specific rates charged under the respective tariffs, and are therefore independent of any change in the price of commodities. To cite once more the case of bacon taken as an illustration—the rate at present charged being 20 marks per 100 kilos, and that to be charged under the new tariff as compared with the old is 80 per cent. This 80 per cent is a definite fixed quantity, and the inference to be drawn from it is that if the price of bacon should remain about the same as in 1903 the ad valorem rate of duty under the new tariff being 80 per cent higher than in that year (which was 23 per

cent), will be about 41 per cent; but whether the rate will be above or below 41 per cent will depend on the course of prices of bacon in the future.

Among the products constituting the most important items in the export trade of the United States with Germany, the highest ad valorem rate of duty affects mineral oils, being 71 per cent ad valorem on illuminating oil and 72 per cent on lubricating oils. The specific rate on illuminating oil has been increased 66 per cent in the new general tariff and left unchanged in the conventional tariff. In other words, refined oils coming from countries enjoying the conventional rates, such as Russia and Austria. As for lubricating oil, the duty on the latter remains the same under the new general tariff and is reduced 40 per cent under the new conventional tariff, thus offering an advantage to "most favored nations" equal to 40 per cent of the amount of duty, or about 28 per cent of the value of the product.

The duty on tobacco is 57 per cent ad valorem and has not been changed in either of the new tariffs.

A series of notable increases affects agricultural products. Thus rye, the duty on which until now constituted the highest ad valorem rate, viz, 35 per cent, is advanced to 100 per cent (i. e., to about 70 per cent ad valorem) under the new general tariff and 43 per cent under the conventional. The specific duty on wheat, equivalent to 27 per cent ad valorem in 1903, is advanced 114 per cent under the new general and 57 per cent under the new conventional tariffs. The specific rate on wheat flour, which amounted to 35 per cent ad valorem in 1903, is raised 157 per cent in the new general (i. e., to about 89 per cent ad valorem) and 40 per cent in the conventional tariff (i. e., to about 48 per cent ad valorem). The duty of 1.60 marks on corn, which constituted 17 per cent ad valorem in 1903, is raised 212 per cent in the general tariff and 87 per cent in the conventional. The duty on dried fruit, which at present amounts to 29 per cent ad valorem, has been raised 200 per cent under the new general and reduced 18 per cent under the new conventional tariffs. That is to say, while oranges coming from favored nations will be subject to a duty of about 24 per cent ad valorem, those imported from other countries will have to pay a duty of about 89 per cent ad valorem.

The rates on provisions have also been greatly advanced. Bacon, which hitherto paid the highest ad valorem rate in the list of provisions coming from the United States, viz, 23 per cent, is advanced 80 per cent in the new general tariff, while no rate is provided for in the conventional tar-

iff. The duty on pork, which amounted to 21 per cent ad valorem in 1903, is advanced 176 per cent (i. e., to about 56 per cent ad valorem) under the new general tariff and 71 per cent under the new conventional. The duty on beef, amounting to 15 per cent ad valorem in 1903, is raised 200 per cent under the new general and 80 per cent under the new conventional tariff. Lard, with a duty of 11 per cent ad valorem in 1903, will be subject to a rate 25 per cent higher in the new general tariff, while in the new conventional the rate remains unchanged. The duties on oleo oil and tallow, amounting to 12 and 3 per cent, respectively, under the old tariff, are likewise raised 25 per cent under the new general tariff, with no provision in the conventional tariff.

As regards manufactures, the old rates are for the most part moderate. The duty on sewing machines, representing the highest ad valorem rate under the existing tariff among important articles of export from this country, viz, 22 per cent, is raised 48 per cent (i. e., to about 32 per cent ad valorem) under the new general tariff, no provision having been made under the conventional. Agricultural machinery, which pays on the average about 4 per cent ad valorem, will be subject to rates from 20 per cent to 88 per cent higher (according to the weight of the machine), so that the ad valorem rate under the new general tariff will range from about 5 per cent to 15 per cent, with no provision for conventional rates. The rates of duty on steam engines and motors of all kinds, which were hitherto the same as that on agricultural machinery, and averaged 4 per cent ad valorem, are advanced all the way from 40 per cent to 1150 per cent (according to weight) in the new general, and from 40 per cent to 837 per cent under the new conventional. In other words, motive machinery coming from countries not enjoying the conventional rates will be subject to duties as high as 50 per cent ad valorem, while that coming from favored nations will pay duties ranging from 5 1/2 per cent to 35 per cent ad valorem.

The duty on typewriters and adding machines, amounting at present to only about 2 per cent ad valorem, is advanced 150 per cent, i. e., to about 5 per cent ad valorem under the new general tariff, and no provision is made under the conventional. Boots and shoes, with present duties averaging about 1 per cent ad valorem, will be subject to duties increased all the way from 70 per cent to 177 per cent (according to weight and fineness) under the new general and 20 per cent to 38 per cent under the new conventional tariff. This will make the ad valorem rates under the new general tariff range from about 8 per cent to 15 per cent, and under the new conventional from 6 per cent to 8 per cent.

SOIL ANALYSES

The experiment station occasionally receives samples of soil, often less than an ounce, with the request that it be analyzed and the sender informed as to its fertility and the crops to which it is best adapted. Ability to comply with such requests is very much to be desired; but in spite of all the study that has been devoted to soils from the various view points, it is still practically impossible to tell much about the fertility of a soil or its adaptability to certain crops from the examination of a small sample of the soil.

There are many factors that enter into successful crop production but they may be roughly grouped under climate and soil. There may be an abundance of plant food in the soil and yet a crop may fail to grow because of insufficient moisture, too much moisture, too high or too low a temperature.

The soil sample, of course, does not tell anything in regard to the climatic conditions and we must learn these by observation or otherwise. Assume that we know the climatic conditions, what data concerning the soil factors can we derive from the sample? The nature of the sample itself is an all important matter. The sample, whether large or small, must be representative of the soil in question. This can be most nearly approximated by taking samples from a number of points in the field and fixing them into a composite sample from which the sample for examination may be drawn. One will readily see that the chances are poor that a composite sample will accurately represent any large area. What then of a single small sample?

The fertility depends on, among other factors, the amount of readily soluble food, and the physical characters of the soil such as fineness of its particles and the arrangement of these particles allowing free circulation of air and water as well as allowing roots to penetrate readily. The idea here suggests itself that we must not only know these points about the surface but to as great depth as the roots are liable to penetrate.

From a proper sample something can be learned in regard to the ease or difficulty of handling the soil, the methods to be used in cultivation and irrigation. In a general way the nature of the crop may be indicated provided the climatic factors are not unfavorable. Certain crops do best on heavy soils and others are lighter, bet-

ter drained soils; but while this is true, other factors may be either so favorable or unfavorable that the influence of texture may almost disappear.

The first question that suggests itself to the average mind is that of plant food. Is there plenty of available plant food? It is supposed by many that this question can be readily answered by a chemical analysis; but as yet the chemists do not feel that their analysis give a satisfactory answer to the question. The plant food in a soil may be divided into that portion which becomes dissolved during the growth of the crop and that which does not. The principal problem in soil analysis has been to find a solvent which would dissolve the materials in the proportion in which they are dissolved by the plants. It is comparatively easy to make a complete analysis of the soil; but such an analysis gives but little information as to the amount of materials that a plant can take from the soil; and while many solvents have been tried with the hope that the amounts of food shown would correspond with the growth of crops on the soil a satisfactory solvent has not yet been found.

Another reason for this unsatisfactory condition is that the weight of material removed from an acre of soil by one crop is so small in comparison with the weight of the soil on an acre to the depth of two or three feet as to lie within the limits of error of analysis. Of two soils one might contain enough soluble food for, say a crop of wheat, and the other not enough, and yet the analysis be practically the same. Even the amounts of potash, phosphoric acid or nitrogen which are usually added per acre in fertilizers if disseminated through the first two feet of the soil would scarcely show an analysis and yet we know that they show a marked effect on the yield of the crop.

J. D. TINSLEY.

**NEW SHOPS FOR
SANTA FE**

The Santa Fe railroad has completed its twenty-stall round house, of Ponca City stone, in the south yards at Shawnee, O. T., and is now engaged in installing a complete outfit of heavy machinery, which will be used in repairing and rebuilding the engines and cars of both the Atchison, Topeka & Santa Fe, which ends there, and the Gulf, Colorado & Santa Fe, which begins its Texas division at that place. The water tank, oil tanks for oil burners, power house, station yard, offices, two new depots costing \$150,000, and all other buildings except that of the shops and boiler house are completed.

**Nurse and Patients
Praise Duffy's**

Mrs. A. Schuman, One of Chicago's Most Capable and Experienced Nurses, Pays an Eloquent Tribute to the Great Invigorating, Life-Giving and Curative Properties of DUFFY'S PURE MALT WHISKEY.

"For that weak, run-down and gone feeling, it is the best tonic and stimulant in the world."

MRS. A. SCHUMAN.

"After years of constant use of your Pure Malt Whiskey both by myself and as given to patients in my capacity as nurse, I have no hesitation in recommending it as the very best tonic and stimulant for all weak and run-down conditions. At least twenty-five families use it in my own neighborhood, and when I go out nursing patients ask me what to take for that 'gone feeling,' and once that Duffy's is within their reach it is used always."—Mrs. A. Schuman, 1576 Mozart St., Chicago, Ill.

Duffy's Pure Malt Whiskey

For more than fifty years Duffy's Pure Malt Whiskey has been prescribed by doctors and used in over two thousand leading hospitals as the purest and most powerful tonic-stimulant, invigorator and health-builder known to medical science. It is endorsed by the clergy and professional nurses and recommended by all schools of medicine as a positive cure for pneumonia, consumption, grip, dyspepsia, indigestion, nervous prostration, all diseases of the throat and lungs, and every form of stomach trouble; malaria, chills, fever, and all run-down, weakened, diseased conditions of the body, brain, mind and muscle. It is a heart tonic, blood purifier and promoter of health and long life; makes the old hearty and young, and keeps the young vigorous and strong. Duffy's Pure Malt Whiskey contains no fusel oil, and it is the only whiskey recognized by the Government as a medicine.

There is but one Duffy's Pure Malt Whiskey. Insist on having the genuine and refuse cheap substitutes and imitations offered by unscrupulous dealers, which are placed on the market for profit only and which are positively harmful to both body and brain. Look for the trade-mark, the "Old Chemist," on the label, and be sure the seal on the bottle is unbroken. Sold in sealed bottles only; never in bulk.

All reliable druggists and grocers, or direct, \$1.00 a bottle. Advice and medical booklet free. Duffy's Malt Whiskey Co., Rochester, N. Y.

J. B. MACKEL, Distributor.

The Live Store
of Up-to-Date
Merchandise

E. ROSENWALD & SON

WE offer for the fall and winter trade to the citizens of Las Vegas, the best line of goods that we have ever carried. The stock is direct from the world's greatest and best markets and is selected with the care and judgment gleaned from years of experience. To make an examination of these goods is to satisfy yourself and to buy, hence we invite your inspection.

The Butterfly Skirt

The very latest in ready-made skirts, all the rage. We have them in all shades and in silk and in voile batiste. It is something new and nobby and we handle it exclusively in Las Vegas. Prices from \$12.50 to \$16.50.

Corsets....

Royal Worcester corsets, the very latest, especially the "Long Back Lengthening Waist," also the Dowager, especially adapted for stout figures. Thompson's glove fitting corsets in short and long hip, also the H. & W. waists for ladies, misses, children and babies.

Silks....

Everything in silks, plain taffeta from 19 to 36 in. wide, crepe liberties in all shades for street and evening wear, crepe de chine, pu de chine and Scotch plaids in lovely shirt waist patterns, and our world beater, "Never Tear Boxboy" taffeta at 50c per yard, suitable for lining and for dress.

Dress Goods

Novelty Scotch plaids, Panama cloth, Armure cloth, Henrietta cloth, Crepe de Paris, Voile etamine in all the leading shades. Brilliant mohairs, novelty patterns dress goods. Prices ranging from 25c to \$1.50 per yard.

The Reason Why

Thousands of people take Hostetter's Stomach Bitters in preference to any other stomach remedy because they found it the only one that could cure them. When the appetite is poor, complexion sallow, or the tongue coated you, too, ought to commence taking

Hostetter's Stomach Bitters

at once. Nature is calling for assistance and the longer you delay the sicker you're going to be. For any ailment of the Stomach, Liver or Kidneys you'll find it the best. It positively cures

Sour Stomach, Heartburn, Costiveness, Indigestion, Cramps, Female Disorders, Colds, Grippe or Pneumonia.

In order to guard against counterfeits we urge you to see that our Private Stamp on neck of bottle is unbroken.

RAILROAD NEWS

Santa Fe Hospital at Los Angeles Finest in Entire Southwest For Care of Sick and Injured

With the opening Wednesday of the handsome hospital in Los Angeles of the Santa Fe coast lines, there comes into active use what is declared to be the finest institution in the entire southwest for the care of the sick and injured.

The beautiful mission style building crowns an elevation at the intersection of East Sixth and St. Louis streets.

The building is three stories in height, and is ornamented with abeltry. The entrance is on St. Louis street, and the grounds are being arranged in terraces and are ornamented with lawns and shrubbery.

The hospital, which cost about \$80,000, is declared to be the most perfect of its kind in Southern California. It is the finest and most capacious of those of the Santa Fe system, the parent institution at Topeka even taking second place, while the new hospital at Albuquerque, complete as it is, is much smaller than this one about to be occupied.

Dr. Morrison states with pride that none but trained nurses will be employed at the hospital, the staff starting out with a roster of ten of the most skillful of these gentle ministers to the sick. In addition to the staff of physicians and nurses, there will be a corps of trained cooks and waitresses, as well as the usual help employed around such an institution.

Plan for Hospital Cars.

Dr. A. H. Farnheir of Chicago, passed through the city Sunday night for California, where he is going in the interests of a company that is being formed to establish at some California point a model sanitarium for tuberculosis patients.

While at Santa Fe Dr. Farnheir told a representative of the New Mexican about a newly designed hospital car that the Santa Fe Rock Island and

Southern Pacific railroads are thinking of putting on their different roads. The car contains all modern appliances usually found in a hospital, the doctor's kit, and in addition has a dietary kitchen, movable operating tables, and berths, so constructed that they can be raised or lowered to any desired height. When not in use these berths sink into the floor of the car, leaving the floor space free, with movable chairs for seats.

In the doctor's opinion, this is one of the finest hospital cars that has yet been devised, and he thinks that in a short time all roads running in the western country will have their trains equipped with one of these hospital cars.

Dying Man Picked Up.

A man named Richardson came near perishing on the desert in the vicinity of Kramer Thursday afternoon, says the San Bernardino Index. He was rescued in the nick of time by a Santa Fe engine, midway between Rodriguez and Kramer. The engineer and fireman saw a bundle in the center of the track and stopped the train. It proved to be a man's coat, made into a bundle, with a \$400 draft pinned to the upper side. The owner of the coat was found in the brush a little ways off, where he had crawled to die. He was taken to Bartow where he is gradually recovering. He said he had been to Death Valley. He had missed all the water holes and his two burros had died. He had been without water for forty-eight hours.

RAILROAD NOTES.

Fireman Heydt is on the sick list.

Engine 1610 is in the hole for repairs.

Brakeman Carpenter is laying off for a trip.

Fireman King of 1601 is laying off for one trip.

Engine 827 is in the shops, receiving an overhauling.

Engine 1224 is receiving a general overhauling in the local shops.

Cyclone Short has been promoted from wiper to machinist helper and does real well, they say.

Harvey D. Benjamin of the Harvey system has left for the east, after spending several days in this city.

"The Chaperons" opera company have a tourist sleeper, baggage car and coach of their own and are the biggest troupe, in cars and baggage

carried, that was seen in Las Vegas. Over half of their scenery was never taken from the car as it was too high and long for the Duncan stage.

Machinist Becker and Helper Swain are laying off today. Swain is getting homesick for Kansas and grasshoppers.

Within two years it is the hope of the builders of the interurban electric line in Illinois, to have a through trolley line between Chicago and St. Louis.

An average of 175 passenger cars a day passes through Newton, Kan. In the neighborhood of 60,000 coaches, chair cars, and Pullman cars pass through that point every year. This is surely an immense passenger business.

Officials of the Pullman company have denied positively that it will manufacture steel cars. The report that the company intends to erect a \$10,000,000 plant to build steel cars is said to be without any foundation in fact.

The St. Louis & San Francisco company has decided to do away with the appellation "system" as applied to its properties and hereafter the cars of the line will bear the simple word "Frisco," the "System" being erased as rapidly as the cars can be sent to the shops.

General Freight Agent A. N. Brown of the El Paso & Southwestern at El Paso, received members of the transportation committee at his office the other evening and discussed the freight rates which prevail between El Paso and Arizona points. No definite results were reached.

President Stillwell's special train, carrying many prominent eastern capitalists, who will inspect the line of the Kansas City, Mexico & Orient railroad, is composed of nine coaches and is one of the handsomest specialties ever gotten together. The train will arrive in El Paso in a day or two.

The Atchison, Topeka & Santa Fe Railway company has asked the court at Muskogee, I. T., to appoint an appraising board to condemn a right of way from Tulsa to Shawnee, Okla., 120 miles. This will connect the branch between Independence, Kan., and Tulsa and the Oklahoma lines in Shawnee. This plan will make Tulsa the junction of two and possibly four Santa Fe lines.

Bert C. Talmadge, one of the most popular Santa Fe switchmen employed in the San Bernardino yards, met a shocking death Tuesday afternoon, by being run over by the trucks of a box car, and the trainmen who were with him are of the opinion that he was knocked from the car by a fence post which was leaning far out toward the track.

General Manager Hurley is quoted as having said that passenger business of the road will not be changed as the result of the building of the Belen cut-off, but that there will be a re-routing of the through freight trains by way of Florence, Mulvane, Wellington and Harper. There is a possibility of through California passenger service on this route, too, in addition to the present service.

D. & R. G. System Santa Fe Branch.

Time Table No. 71 (Effective Nov. 7th, 1904)

EAST BOUND		WEST BOUND	
No.	Ar.	No.	Ar.
11	6 a. m.	426	3:30 p. m.
24	8 a. m.	426	12:30 p. m.

CHANGE OF ATTITUDE.

The change in the moral atmosphere in the Duke city since Judge Ira A. Abbott has been on the bench. Is strikingly illustrated by the strong stand which the Albuquerque Citizen is taking against gambling and the Sunday saloon, a stand, which a year ago would have cost the Citizen heavily in advertising patronage, declares the New Mexican. Says the Citizen in conclusion of an editorial, in which it praises the recent article of J. J. Hagerman, of Roswell, against gambling:

"The daily press of the territory has taken up the subject, and the Citizen believes without a dissenting voice has declared against licensed gambling. The fact is pointed to that bank deposits have doubled in El Paso since the closing out of gambling in that city, over what they were during a similar period before the closing; and those who are in position to feel the public pulse are well assured that in case of statehood the constitutional legislature will undoubtedly place gambling under the ban of outlawry; while even before the meeting of either convention or legislature, it is more than probable the leading cities of New Mexico will have banished open gambling by prohibitive license. Nothing whatever can be said in favor of gambling and everything can be said against it.

"When it comes to the open saloon on Sunday. It is well known that the laws of the territory are now amply sufficient to close them all, and it is believed that the district court judges all favor the enforcement of these laws. In fact, it was recently said that Albuquerque was the only town in New Mexico where the law was openly defied. Since then many, and it may be all, saloons in Albuquerque voluntarily closed their doors on Sunday; but the charge has been made by a paper published in this city that only the front doors have been closed, while the rear doors are kept only on the latch. This charge has been taken up by the press of the territory, where absolute closing is claimed, and much has been made of it, to the discredit of the Duke city. Whether the closing inaugurated by the saloon men themselves, be actual or merely of the front door, the Citizen has no knowledge; but it is willing to candidly confess that it does not believe such partial closing will meet the demands of the people or satisfy the purpose of the authorities."

BEN WILLIAMS VINDICATED.

We are glad to learn from Albuquerque that Special Officer Ben Williams of the Santa Fe, in the matter of securing the arrest of the assailant of Hon. Alex. Bowie of Gallup, did everything within his power to do. In view of the reports industriously circulated both here and in Albuquerque that the Santa Fe company was responsible for the attack on the Caledonia Coal company man and that it was shielding the offender, we suggested that had Mr. Williams arrested the porter who made the attack when he saw him at the train in Albuquerque, not waiting for a complaint by Mr. Bowie or action by the district attorney, such silly stories would not have started.

We are still inclined to think that Mr. Williams had sufficient authority to arrest this man and hold him for the action of the courts. However, we are informed both by Hon. Neill B. Field, attorney for the Caledonia Coal company, and by District Attorney Frank Clancy that Mr. Williams did what he believed to be his full duty and everything in his power to bring about the arrest of Mr. Bowie's assailant. Mr. Fields says also that Mr. Bowie is of that opinion.

Mr. Clancy informs The Optic that Mr. Williams came to him to make a full report of all the information he could secure in the matter within a half hour of the time the complaint was made by Mr. Bowie. Mr. Williams reported that the porter had probably gone through that morning north bound. Mr. Clancy holds that Mr. Williams had no power to make the arrest until a complaint had been filed by some one having personal knowledge of the facts in the case. The statute on which this opinion is founded is capable of more than one construction, but there is no doubt

THE OLD FOLKS AT HOME Are Never Without Pe-ru-na in the Home for Catarrhal Diseases.

MR. and MRS. JNO. OATKINSON, Independence, Mo.

Remarkable Cures Effected By Pe-ru-na.

Under date of January 10, 1907, Dr. Hartman received the following letter: "My wife has been a sufferer from a complication of diseases for the past twenty-five years. Her case has baffled the skill of some of the most noted physicians. One of her worst troubles was chronic constipation of several years' standing. She was also passing through that most critical period in the life of a woman—change of life.

"In June, 1895, I wrote to you about her case. You advised a course of Peruna and Manalin, which we at once commenced, and have to say it completely cured her. "About the same time I wrote you about my own case of catarrh, which had been of twenty-five years' standing. At times I was almost past going. I commenced to use Peruna according to your instructions and continued its use for about a year, and it has completely cured me. Your remedies do all that you claim for them, and even more."—John O. Atkinson.

In a letter dated January 1, 1900, Mr. Atkinson says, after five years' experience with Peruna: "I will ever continue to speak a good word for Peruna. I am still cured of catarrh."—John O. Atkinson, Independence, Mo., Box 372.

but Mr. Williams did his full duty in the matter and made every effort he conscientiously could to bring about the arrest of the offender.

BEST KIND OF INDICATION.

Robert L. M. Ross, United States court commissioner for this district, informs The Optic that never in the history of San Miguel county have so many land entries been made in the same space of time as during the past summer and fall. Three or four every day is the rule. The entries for the year will run up into the hundreds. Can there be a better evidence of the growth and continued prosperity of this county and the city to which it is tributary? Hundreds of additional families making homes, tilling the soils, building school houses, developing a dozen lines of industry. The prosperity of this city is in a large measure dependent upon the prosperity of the county and the number of people who are making homes. The resources of the country have scarcely begun to be developed. Thousands of acres of land in San Miguel, still lying fallow, will yield big returns. And it is the bringing in of this land that, after all, promises most for the substantial prosperity of the people.

"AMBITIOUS SLOGAN."

The officers and members of the Commercial club have sounded the slogan of "One hundred new members." The names of twelve new members have been received this week. The city is prosperous, many people are coming in and the outlook for the Commercial club is promising. Whatever other demand of these progressive times is neglected, the call of the city to all its varied interests to unite in making the Commercial club a power should be heeded. Under present conditions the club is prosperous and progressive and is working for every enterprise that will be of benefit to the city. Given a hundred additional enthusiastic members and not only will the finances of the club be enforced to such an extent as to ensure the taking-up and carrying forward of a number of plans of great moment to Las Vegas, but all the interests that go to make up a live city like this will be so firmly united upon one platform and as a single force, that much of important achievement will be assured.

Las Vegas ought to organize a quarter-of-a-century club. What would that mean? It would mean a population of 25,000 in the next two years.

November has come in with a threat of cloud and storm, but October was one of the finest months the city has been favored with in years. There was not a single day in which the sun

Mrs. Alla Schwandt, Sanborn, Minn., writes: "I have been troubled with rheumatism and catarrh for twenty-five years. Could not sleep day or night. After having used Peruna I can sleep and nothing bothers me now. If I ever am affected with any kind of sickness Peruna will be the medicine I shall use. My son was cured of catarrh of the larynx by Peruna."—Mrs. Alla Schwandt.

Why Old People are Especially Liable to Systemic Catarrh.

When old age comes on, catarrhal diseases come also. Systemic catarrh is almost universal in old people.

This explains why Peruna has become so indispensable to old people. Peruna is their safeguard. Peruna is the only remedy yet devised that entirely meets these cases. Nothing but an effective systemic remedy can cure them.

A reward of \$10,000 has been deposited in the Market Exchange Bank, Columbus, Ohio, as a guarantee that the above testimonials are genuine; that we hold in our possession authentic letters certifying to the same. During many years' advertising we have never used, in part or in whole, a single spurious testimonial. Every one of our testimonials is genuine and in the words of the one whose name is appended.

didn't shine, though one day was classed as cloudy, three days as partly cloudy and twenty-seven were clear. Las Vegas fall weather is hard to beat at any time, or weather at any other time of year for that matter.

"I am not an angel," says Governor Folk. No, and it will be a bad day for Missouri when he becomes one.

The election night smoker planned for the Commercial club for next Tuesday night will unquestionably prove interesting. Every member should make a special effort to come out.

According to the state statistics less whiskey has been consumed this year in Kentucky than last year. Nobody has tried to account for it but every one knows that Marse Henry Waterson has been in Europe.

The resolutions of the executive committee of the National Fraternal sanitarium, published in this issue, will impress the readers of The Optic as sound and sensible and likely to be productive of great good.

We modestly believe that the progress made by The Optic in the twenty-six years of its life is not altogether discouraging. However, we have the most rose-colored hopes for what shall be done in the next twenty-six years.

The proclamation of Sheriff Perfecto Armijo that the Sunday law is to be rigidly enforced in Albuquerque, front door, side door, rear door and cellar, will please not only the law abiding people of Albuquerque, but of the rest of the territory.

The Tucuman News, successor to the Alamogordo Journal, has made its appearance. If the first number may be taken for an example, the News will be one of the brightest, newest and ablest papers in the territory. S. R. May is president and manager of the News company.

It is currently reported that a number of saloons are running in this county in localities that have less than a hundred inhabitants. This is in direct violation of territorial statute, which makes not only the saloon man, but the official who issues the license, subject to a heavy fine. The matter should be thoroughly and promptly investigated.

The citizen of Las Vegas will view the present aspect of the Fraternal Sanitarium situation with the liveliest satisfaction. One of the most pleasing indications of speedy advancement with the plans of the institution is the arrival of the gentleman who has the contract for building the portable tent cottages to be used by the company.

NOTICE FOR PUBLICATION.

Homestead Entry No. 6154. Department of the Interior, Land Office at Santa Fe, N. M., October 11, 1905.

Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before United States court commissioner at Las Vegas, N. Taupert, Jeweler and Optician, 806 Douglas Ave.

A Smooth Sidewalk

Experience teaches that the smoothest sidewalk is the one made of cement. There are no splinters to kick up and get into your shoes and feet such as are found in board walks and there are no bricks to get loose and cause you to stumble. Our three years of cement sidewalk building in Las Vegas afford us the experience you are looking for when you want your new walk built. Give us a chance to talk with you about it. We have the only granite stone crusher in the city.

PERSONALS

Vivian Garcia of Anton Chico is in the city today.

C. E. Hummel is expected home from Pennsylvania in a few days.

A. A. Jones left this afternoon for Kansas City on a business trip.

Antonio Domingo Pacheco of Mora was in the city on business today.

Mrs. Maggie Bacher left this afternoon for Topeka, Kans., to visit relatives and friends.

Jose C. Martinez, deputy clerk of Union county, is visiting in the city with J. J. Jarrell.

W. Y. Black, chief clerk to General Superintendent Parker at La Junta, arrived in the city this afternoon.

George L. Guy arrived in the city this afternoon from Waveland, Ind., to spend the winter with his daughter, who is here on account of her health.

Henry Baca and family have moved to this city from Santa Fe and the former will be employed in the local railroad shops.

A. P. Swartz, vice-president of the California Wine & Cordial company of San Francisco, was in the city today calling on friends, but left on the afternoon train for Denver.

Eugenia Sena and wife of Santa Fe, arrived in the city last evening and will make their future home in this city. Mr. Sena will be employed in the Taupert jewelry store.

A. A. Gorgan of Denver, superintendent of the Western Union Telegraph company, was in the city yesterday on business. He left on the evening train for Albuquerque to visit the company's office at that place.

Mrs. W. G. Koogler and Mrs. Byron T. Mills, who visited in Watrous in behalf of the Ladies' Home of this city, returned home last night and report that the citizens were very liberal in their donations and showed a great deal of interest in the welfare of the institution.

M. Swartz returned this afternoon to his home in Ohio. He came here for his health, being afflicted with lung trouble and while here was taken sick with spinal meningitis. He was removed to the sanitarium and as his condition did not improve it was decided to take him back to his old home.

WE BELIEVE IN LETTING OUR LIGHT SHINE

A generation ago it was considered undignified for a financial institution to advertise in any way. The best of them do it now. The "Aetna" for one, believes in spreading the gospel of co-operation. What the "Aetna" is doing for Las Vegas you may already know. What it is doing for its members you can easily know by getting a copy of our detailed annual report. Will you not help increase the usefulness and productive energy of the "Aetna" and incidentally help yourself to a good thing?

CONDENSED STORIES OF HAPPENINGS IN THE TERRITORY

ANOTHER MILL FOR MOGOLLON—

There will be shipped from New York City during the present week a 35-ton stamp mill for use on the properties of the Enterprise Mining company in the Mogollon district. It will be installed as soon as on the ground. The mines owned by the company are well developed, and there is plenty of ore blocked out to furnish a supply for a long time. The cyanide process will be used in connection with the plant. Captain George Freeman is in charge of the operations of the company and is making it a success. The Mogollon district never had brighter prospects than at the present time, and the new mill is only one of many new enterprises being inaugurated.

DEATH OF ISAAC SIGGINS—

News has been received in Silver City of the death of Isaac Siggins at Phoenix, Ariz., last week. Mr. Siggins was one of the old time residents of Grant county. He came to the country in the seventies and located on a ranch on Dry creek, where he engaged in the cattle business until a few years ago, when failing health compelled him to dispose of his interests, and since which time he has been making his home with his relatives in Phoenix. During Indian times, Mr. Siggins had many thrilling experiences. He was about seventy-five years of age at the time of his death. He was unmarried and came originally from New York state.

DEATH OF A SISTER—

Mrs. A. J. Loomis of Santa Fe is in receipt of a telegram from Roanoke, Va., announcing the sudden death of her sister, Mrs. Joseph E. Pearson in that city Friday evening. Mrs. Pearson is well known in Santa Fe, she having visited her sister for a year of more some seven years ago. The news came as a shock to Mrs. Loomis, as she had just received a letter from her sister a few days ago, in which Mrs. Pearson stated that she was in good health. The telegram did not state the cause of Mrs. Pearson's death.

CHARGED WITH THEFT—

Allen Clark, who came to this city several weeks ago from Las Vegas, and who has been employed at the livery barn of W. L. Trimble & company, on Copper avenue, was arrested last night and lodged in the city jail, charged with stealing several

brushes and a curry comb from the barn. Clark was given a hearing before Police Judge A. J. Crawford this morning and found guilty of petty larceny. He was sentenced to serve thirty days in the county jail. —Citizen.

SHEEP SHIPMENTS—

Hon. Solomon Luna returned from Estancia, on the Santa Fe Central, where he made preparations to deliver a portion of a large sale of spring lambs to the firm of Harris & Akln of Fort Collins, Colo. Those shipped from Estancia will load about two trains and will be moved to Kansas, Nebraska and Colorado, over the Santa Fe Central and the Rock Island railroads. Although the sheep have been ready for some time, shipment has been delayed by the scarcity of cars.

STOCK SHIPMENTS

Cattlemen and sheepmen have had a good season; beef, mutton and wool commanding good prices. Gross, Kelly & company shipped several hundred sheep, recently, at good figures; the M. B. Goldenberg company 8,000 head a few days ago at good prices, both companies have handled large quantities of wool. Bremont shipped five-months lambs that weighed 78 pounds and netted him \$1.50 in Kansas City. Geo. Spence is shipping 7,000 lambs to Kansas City at \$3.00 without a cut. He is loading at Corona. Tafoya Brothers will load out 1,500 lambs this week at \$2.40. Mr. Long of Endee sold a few hundred lambs recently, tipping the beam at eighty pounds. So it is plain to be seen that the sheep interests here are A. 1. Several hundred cars of sheep and cattle are shipped from this point every year. There are several large ranches in this vicinity. The Bell ranch, one of the wealthiest cattle companies in the territory, lies just north of us; the Pajarita company, east; and the Three T's further east and south. Thus, Tucumcari has resources that justify continuous growth. —Tucumcari News.

In Trouble.

C. C. Cresler, who has been employed as draper and decorator at the Golden Rule dry goods store, was arrested early yesterday morning by Officer Frank Rossi on a drunk and disorderly charge, say the Journal. He was released later, but it is likely that a warrant will be issued against him today on the charge of beating a board bill of forty dollars, in this city, as the landlady has preferred a vigorous accusation to that effect. Cresler is also wanted by certain persons in Shawnee, Okla., whom he owes various sums of money on various checks and notes. He has been in this city a few weeks and during his brief sojourn here has not made for himself the most enviable reputation possible. When jailed yesterday morning a ten dollar bill was all the money found on his person. He made considerable resistance when it came to parting with the aforesaid greenback and when he was at last separated from it the note was neatly torn in halves.

Miss Lillian Sheridan, eldest daughter of Hon. and Mrs. Joe E. Sheridan, is still very ill at the home of her parents in Silver City. She is suffering from nervous prostration.

If in a kind of bilious mood, You wish an aid to digest food, No other pill is half so good As DeWitt's Little Early Risers. When e'er you feel impending ill, And need a magic little pill, No other one will fill the bill Like DeWitt's Little Early Risers. Sold by Winters Drug Co., and K. D. Goodall.

G. A. Bennett's Galena mountain mines in the Bear canyon district, are all showing big bodies of lead ore. Mr. Bennett will make a fine exhibit at the Miners' Congress at El Paso.

It's the little colds that grow into big colds; the big colds that end in consumption and death. Watch the little colds. Dr. Wood's Norway Pine Syrup.

Every ton of ore shipped from the Organs brings back money, of which considerable is spent in Las Cruces.

Half the ills that man is heir to come from indigestion. Burdock Blood Bitters strengthens and tones the stomach; makes indigestion impossible.

The Organ camps have been self supporting for the past twenty-four years, and have a bright future.

Ancient witchery was believed in by only a few but the true merit of DeWitt's Witch Hazel Salve is known by every one who has used it for boils, sores, tetter, eczema and piles. Sold by Winters Drug Co., and K. D. Goodall.

The Donna Dora mine at the Gold camp has a big pile of ore on the dump and a big body in the mine.

Accidents come with distressing frequency on the farm. Cuts, bruises, stings, sprains. Dr. Thomas' Electric Oil relieves the pain instantly. Never safe without it.

The Modoc mine is now working twelve men and is taking out good ore.

Bodily pain loses its terror if you've a bottle of Dr. Thomas' Electric Oil in the house. Instant relief in cases of burns, cuts sprains, accidents of any sort.

There are no mining camps in New Mexico which offer better opportunities for capitalists than the Organ mountain district.

"Neglect colds make fat graveyards." Dr. Wood's Norway Pine Syrup helps men and women to a happy, vigorous old age.

Judge James Corbin, one of the oldest and most prominent citizens of Silver City, is seriously ill at his home. His many friends sincerely hope for his speed restoration to health.

It is ten times easier to cure coughs, croup, whooping cough and all lung and bronchial affections when the bowels are open. Kennedy's Laxative Honey and Tar is the original Laxative Cough Syrup. Gently moves the bowels and expels all cold from the system. Cuts the phlegm, cures all coughs and strengthens weak lungs. Sold by Winters Drug Co., and K. D. Goodall.

Optic Fair Souvenir, wrapped ready for mailing, price 5 cents at this office.

A meeting of the Otero county Teachers' association was held last week. But few of the teachers of the county were absent from the gathering. Several profitable and instructive papers on educational matters were read. Professor Hiram Hadley, territorial superintendent of schools, attended the sessions of the meeting and gave an interesting address. By-laws and a constitution governing the association were adopted. The next meeting of the county teachers will be held December 16.

To Cure a Cold in One Day. Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. R. W. Grove's signature is on each box. 25c.

The supervisors of Otero county will be presented with a petition requesting the county to build three roads west of Alamogordo. At the present time there are no roads to the northwest of the town, although the country in that section is fast filling with settlers. The homesteaders are unable to get to the city during bad weather, because of the lack of roads.

When you want a pleasant physic try Chamberlain's Stomach and Liver Tablets. They are easy to take and produce no griping or other unpleasant effect. Sold by all druggists.

Various rumors have been rife for the past few days at Needles of the strike of some very rich gold ores south of Siam, a small station on the Santa Fe, west of Needles. This country has been prospected before and great iron deposits have been located in the years past.

Red Cross Bag Blue makes clothes be cured in much less time when promptly treated. For sale by all druggists.

The members of Silver City lodge No. 12, Knights of Pythias, are looking forward with pleasurable anticipations to a visit to be made on November 11, by a team from the Lordsburg lodge.

Women love a clear, healthy complexion. Pure blood makes it. Burdock Blood Bitters makes pure blood.

Mrs. A. Leavitt of Grand Rapids, Mich., arrived in Albuquerque Tuesday night to spend the winter with her daughter, Miss Sadie Leavitt of the high school. Mrs. Leavitt was among the passengers on the ill-fated California Limited wrecked near Kansas City, but escaped injury.

It is reported that William Foy, a nephew of Henry Foy, and who spent some months at Las Cruces a few years ago, was married down in Mexico to a niece of Colonel Greene, the millionaire mine owner, and was given \$20,000 for a wedding present.

Scott's Santal-Pepsin Capsules

A POSITIVE CURE
For inflammation of the Bladder and Prostate Glands. SCOTT'S SANTAL-PEPSIN CAPSULES cure quickly and permanently the most cases of gonorrhoea and gleet, no matter of how long standing. A bottle of capsules, 25c. by druggists. Price \$1.00, or 12 cash paid, \$1.00, 3 boxes, \$2.75. THE SANTAL-PEPSIN CO. Manufactured in Ohio. Sold by O. G. Schaeffer.

Son Lost Mother.

"Consumption runs in our family, and through it I lost my mother," writes E. B. Reid, of Harmony, Mo. "For the past five years, however, on the slightest sign of a cough or a cold, I have taken Dr. King's New Discovery for Consumption, which has saved me from serious lung trouble." His mother's death was a sad loss for Mr. Reid, but he learned that lung trouble must not be neglected, and how to cure it. Quickest relief and cure for coughs and colds. Price 50c and \$1.00; guaranteed by all druggists. Trial bottle free.

The Torrance saloon will soon be a thing of the past, says the Estancia News. The license expires the last day of the present month, and as there are less than one hundred people in the village, it cannot be renewed legally.

Man's Unreasonableness

Is often as great as woman's. But Thos. S. Austin, Mgr. of the "Republican," of Leavenworth, Ind., was not unreasonable when he refused to allow the doctor to operate on his wife for female trouble. "Instead," he says, "we concluded to try Electric Bitters. My wife was then so sick, she could hardly leave her bed, and five (5) physicians had failed to relieve her. After taking Electric Bitters she was perfectly cured, and can now perform all her household duties." Guaranteed by all druggists, price 50c.

D. C. Taylor has developed a flow in gwell on the Machio south of Lake Valley, says the Hillsboro Advocate. A heavy flow of water was encountered at a depth of forty feet, which continued to rise until it flowed over the surface.

The Exact Thing Required for Constipation.

"As a certain purgative and stomach purifier Chamberlain's Stomach and Liver Tablets seem to be the exact thing required, strong enough for the most robust, yet mild enough and safe for children and without that terrible griping so common to most purgatives," say R. S. Webster & Co., Udon, Ontario, Canada. For sale by all druggists.

Frank Campbell who fell from the stage while on his way to Kington, died Friday evening, says the Hillsboro Advocate. He was completely paralyzed from his neck down, but his mind was clear up to the time he passed away, as in sleep.

A Disastrous Calamity.

It is a disastrous calamity, when you lose your health, because indigestion and constipation have sapped it away. Prompt relief can be had in Dr. King's New Life Pills. They build up your digestive organs, and cure headache, dizziness, colic, constipation, etc. Guaranteed by all druggists; 25c.

Mexia Johnson, a student at the New Mexico Military Institute, died suddenly last week of apoplexy. He was stricken early Friday evening and died before morning. The boy was eighteen years of age and up to the time he was stricken was in perfect health.

Ladies who take pride in clear, white clothes should use Red Cross Bag Blue, sold by grocers.

No Poison in Chamberlain's Cough Remedy.

From Napier, New Zealand, Herald: Two years ago the Pharmacy Board of New South Wales, Australia, had an analysis made of all the cough medicines that were sold in that market. Out of the entire list they found only one that they declared was entirely free from all poisons. This exception was Chamberlain's Cough Remedy, made by the Chamberlain Medicine company, Des Moines, Ia., U. S. A. The absence of all narcotics makes this remedy the safest and best that can be had; and it is with a feeling of security that any mother can give it to her little ones. Chamberlain's Cough Remedy is especially recommended by its makers for coughs, colds, croup and whooping cough. This remedy is for sale by all druggists.

J. O. Duncan, a farmer, whose land is located two miles south of Artesia, has grown a bumper crop of kafir corn on irrigated ground. The ears average one pound and nine ounces each in weight.

When You Have a Bad Cold.

You want a remedy that will not only give quick relief but effect a permanent cure. You want a remedy that will relieve the lungs and keep expectoration easy. You want a remedy that will counteract any tendency toward pneumonia.

You want a remedy that is pleasant and safe to take. Chamberlain's Cough Remedy meets all of these requirements and for the speedy and permanent cure of bad colds stands without a peer. For sale by all druggists.

What irrigation has done for the Pecos valley, will be shown at the Dallas fair, where the Pecos valley exhibition car has been sent. A display of the vegetation of the valley will be shown and the methods of irrigation explained. J. C. Baird and J. K. Walling of Dayton, will be in charge of the car and the exhibit.

"I Thank The Lord!"

cried Hannah Plant, of Little Rock, Ark., "for the relief I got from Bucklen's Arnica Salve. It cured my fearful running sores, which nothing else would heal, and from which I had suffered for five years." It is a marvelous healer for cuts, burns and wounds. Guaranteed by all druggists; 25c.

Mrs. Gertrude Schaurer died at her home in Gallup on Oct. 21, and the homes of her children were saddened by the news. The deceased was the mother of John and Joseph Schaurer, business men of that town, and Mrs. Peternell.

Herb W. Edwards Injured.

Herb W. Edwards of Des Moines, Iowa, got a fall on a icy walk last winter, spraining his wrist and bruising his knees. "The next day," he says, "they were so sore and stiff I was afraid I would have to stay in bed, but I rubbed them well with Chamberlain's Pain Balm and after a few applications all soreness had disappeared." For sale by all druggists.

The Bennett-Stephenson of near Las Cruces is a steady shipper and is working a sufficient force to keep its mill and concentrator going.

The OPTIC'S Special Souvenir

The big sixteen Page Souvenir edition published by The Optic during the recent Fair and Fall Festival is rapidly becoming exhausted. Be sure and get one while they last

Price 5c Each

The edition is replete with half-tone cuts and splendid write ups about every thing concerning Las Vegas—Just what your friends in the East will want to get. Get them at this office or at the News Stands.

The Optic's Book and Job Department

Makes a specialty of everything in printing. We can print anything from a postage stamp to a Dictionary. If darning needles, threshing machines and air ships were handled in connection with modern printing, the Optic would immediately install a supply of the goods. But to produce modern printing requires new machinery, up-to-date types and skilled workmen. There is individuality in Opticprinting and there has been no pains spared in obtaining these necessities to produce modern work. A business house does not want a nasty, unsightly letterhead, nor does the visitor want a calling card five years behind date. Leave your order with the Optic, and it will be printed correctly.

The Loose Leaf Accounting System Is No Longer an Innovation.

It is recognized as an absolute necessity by all progressive accountants, auditors, manufacturers, bankers, and business men generally

The Jones Improved Loose Leaf Speciality Company are manufacturers of The Best that Genius and Experience Can Produce

THEIR PERPETUAL LEDGER is the most powerful, most durable and lightest on the market. It has no sharp corners or edges that mar the desk. It opens and closes quicker than any other. Its compactness permits the writing surface, when in use, to lie closer to the desk than any other binder. By its improved clamping and expanding mechanism the round back always remains in the center whether the book is used at its maximum or minimum capacity of leaves, thus giving it a beautiful and symmetrical appearance. The binder can be firmly locked on one or one thousand leaves, and one or more leaves can be inserted or removed without disturbing the others.

Further information sent on application, or our representative will call and show you the goods.

FRATERNAL SANITARIUM TENT BUILDER

(Continued from Page One)

The Resolutions.

At a meeting of the executive committee of the National Fraternal Sanitarium on Friday, October 20, held in the office of the president, at which all of the members were present, except Mr. Schlafley, who is in Europe, the following preamble and resolutions were unanimously adopted:

Whereas, The board of managers of the National Fraternal Sanitarium tendered to the fraternalist of this country through the National Fraternal congress and the Associated Fraternities of America full control of said sanitarium association, with full power to manage its affairs in all things and upon all questions, provided they, the fraternalists, were ready and willing to assume the management and would submit a plan which would bring success to this great humanitarian movement, and

Whereas, The present management has given both time and money during the past three years in its efforts to establish a piece of lasting good to suffering humanity, and

Whereas, This great movement has been given publicity of untold value in all parts of this country, thereby fixing the responsibility as to its success or failure upon the present management and officers, and

Whereas, The present officers are now ready and willing to sacrifice their high ambition in building this monument of fraternity by turning over all that has been accomplished up to this time to a fraternal committee, selected by both the national bodies, provided they are ready to assume the responsibility of carrying this great movement to an ultimate success, and

Whereas, The National Fraternal sanitarium movement has reached a point demanding definite action, because of the widespread publicity and the expectation that it would be ready to receive patients before now, and

Whereas, It is possible for the present management to make a move at this time without showing lack of courtesy to the joint fraternal committee, and

Whereas, The movement is in danger of serious criticism unless aggressive steps are taken at once to prepare for the reception of the hundreds of patients who are applying for admission, therefore

Be It Resolved, That in tendering the management and control of the Sanitarium association to other hands, that we, the executive committee of the National Fraternal Sanitarium, request them to furnish to this executive committee their plans of reorganization within twenty-five days from this date, say November 15th, and if found practicable for the ultimate success of this great movement, the present management will turnover all right and interest in the charter, good will, and control of said association, and

Be It Further Resolved, That it is the sense of this meeting that in tendering the control of this association into other hands we do so with the full knowledge of the fact that we are deserting the ship that we have so well guided up to this point, but that we are transferring the responsibility to the shoulders of others who, on account of their fraternal connection, can better secure the united support of the fraternal world.

Be It Further Resolved, That should such plans of reorganization not be presented by the joint committees of the two national bodies on or before the time set in this resolution namely: November 15th, then the president of this association shall call a meeting of the members of the present organization for the purpose of continuing the work of the organization and carrying out all its purposes.

Be It Further Resolved, That this resolution be spread upon the minutes of the association and a copy of same forwarded to each member of the joint committee.

Examination at Las Vegas.

The United States civil service commission announces an examination on November 25, 1935, at Las Vegas, New Mexico, to secure eligibles to fill vacancies as they may occur in the position of clerk or carrier in the postoffice at Las Vegas, New Mexico. Age limit, 18 to 45 years.

Male applicants must be at least 5 feet 4 inches in height and not less than 125 pounds in weight. It will not be necessary to take a medical examination at this time.

Applicants should at once apply to either the local secretary at the postoffice or to the district secretary at Denver, Colo., for application form 1371.

Applications will not be accepted unless received by the district secretary before 4:30 o'clock p. m. on November 18, 1935.

John Guzman, a section boss on the El Paso & Southwestern railroad at Walnut, was severely injured last week by the explosion of a torpedo at the tool house on his section. Guzman carelessly allowed a large sledge hammer to fall on the signal torpedo. The explosion scattered a chest of tools, and a piece of iron struck the man over his right eye, causing a great gash.

It was awarded the Grand Prize at the St. Louis Exposition. Try the Underwood and convince yourself. W. H. UNGLER, Local Agent, Crockett Building.

WITHOUT A BRASS BAND

fuss or any other cheap advertising October has proven by far the biggest month we have had since we are in business. It is very gratifying to us to know that our motto, "The Recollection of QUALITY Remains Long After the PRICE Is Forgotten," is being appreciated by the Las Vegas public. We shall continue to keep the best assorted stock of hardware and stoves and price our goods right. Just now we are showing a fine line of base burners at reasonable prices.

LUDWIG W.M. ILFELD, ..THE HARDWAREMAN..

BRIDGE STREET, LAS VEGAS, N. M.

MEADOW CITY BRIEFS

Canyon round trip ticket, 25 cents. 11-300

A. Strauss has received the second degree of Free Masonry.

Davis & Sydes, the grocers, put a brand new livery wagon into service today.

The initiatory degree in Odd Fellowship will be conferred at Las Vegas lodge Monday night.

What if it did rain today! Go to the canyon tomorrow. Electric cars every forty minutes. 11-300

The football game between the Normals and the High School team, which was to have been played on the grounds of the latter, was postponed on account of rain.

The three-year-old daughter of H. J. Kouth, a blacksmith in the employ of Albert Rodgers, is very sick with typhoid fever at the Hotel National.

Get up higher! The canyon is 400 feet higher than Las Vegas. 11-300

The maximum temperature yesterday was 59 and the minimum was 25 degrees. Rain and colder weather tonight is predicted. Sunday clear and colder.

A Mason calls attention to the fact that today is the 155th anniversary of the day when George Washington was raised to the sublime rank in Free Masonry.

Judge Mills has granted a divorce to Margarita Demario from her husband, Antonio Demario. The case was brought from Colfax county and the grounds were cruel and inhuman treatment and non-support.

O. G. Schaefer and C. E. Perry left this morning for the mountain country thirty miles beyond Las Vegas, prepared to bring home bear steak, lion skin, deer antlers and other trophies to prove their prowess as lineal descendants of the first great hunter.

Miss Maggie Bucher left on No. 2 today for Topeka, to visit Mrs. J. E. Hurley for a short time. She will also visit and make a thorough study of the schools of Chicago, Kansas City and other cities and return later again to engage in educational work in New Mexico.

Teachers and pupils of the Normal yesterday afternoon suspended lessons at one o'clock and repaired to Gallinas canyon, where they remained until 5 o'clock. The football team went along and improved the shining hours by practicing signals and tactics. A tempting lunch was partaken of before the conductor called "all aboard" for home.

The electric car will take you to the canyon, but there is no need of walking back—Car will take you up and bring you back. 11-300

There was quite a surprise on last evening, followed by a storm which showered down many good things eatable in the parsonage of the A. M. E. church, 703 Main street. The surprises were as follows: Mrs. T. J. Dunlap, Mr. and Mrs. A. Duval, Miss Beulah Dunlap, Earl Burne, Miss Allie Johnson, Miss Blanche Dunlap, Willie Houston, Miss Beatrice Dunlap, Charles Holmes, Mrs. Fred Houston and Mrs. Howard. Too much praise can not be given to those who came in such a needy time. Come again.

The Las Vegas Light & Power company had three payrolls today, one for the construction gang, one for the track gang and one for the bonding gang. A large amount of money was paid out. On next Saturday the company will have four payrolls as the operators of the line are paid every two weeks.

GREEN HOUSE FOR LAS VEGAS

Las Vegas is going to have one of the largest and finest green house establishments in the west and is going to have it right soon. Ira G. Hazard has already closed the contract for the erection of six hot houses each 125 feet long and sixteen feet wide. He will spend \$5,000 on the houses which will be located at his fine place on the Eighth street extension. A thousand dollars is now being expended by Mr. Hazard, who is in Toledo, O., securing the finest plants for the purpose that are to be had. There will be carnations of all kinds, roses of a hundred varieties, chrysanthemums, violets, pansies and all the greenery and flowering plants that can be raised in this part of the country.

Las Vegas has long needed such an establishment as this. It has always been necessary to send to Albuquerque, Raton or Denver for flowers. The enterprise is sure to be profitable, as well as a decided addition to the city. The demand for flowers and plants, here, is steady and considerable.

Commercial Club Smoker.
Next Tuesday evening the election returns will be received at the Commercial club and in conjunction with this a smoker for the members will be given. A large number of states and cities hold elections and returns from all will be received. While the most intense interest centers in the New York mayoralty election, yet there will be much more than the usual significance in all of the returns. Many great questions have arisen in the nation and parties have lined up anew since the presidential election. The nation is watching for results with a great deal of anticipation.

There should be a full attendance of members of the club Tuesday evening. All those who have made application for membership during the present month are cordially invited to be present.

Business and Pleasure.
The Presbyterian Christian Endeavor held its monthly business meeting last night at the home of Miss Lula Martin, 1005 Grand avenue.

After the business was transacted games were played and delicious refreshments were served. All returned to their homes convinced that business could be mixed with pleasure.

Three new members were received into the society.

Card of Thanks.
We wish to thank our friends for the many kindnesses shown to us, during the time of the sickness, and in the death of our little daughter and niece. Mr. and Mrs. George F. Moye, Mr. and Mrs. A. S. Moye.

Licenses to wed have been granted to Esquibel Flores and Cleotilde Trujillo, both of La Entramosa; to Gregorio Armijo, both of Rowe; to J. C. Martinez of Los Concepcion and Fidelia Lopez of Las Vegas; to Can'te-lario Castellano of Chapelle, N. M., and Vincentita Salazar of Bernal, N. M., and to Jose E. Montoya of Tecolote, N. M., and Lucinda Rodriguez of Rito Salado, N. M.

Merchants' licenses have been granted to the Winters Drug company for twelve months; to Salomon Montano of this city for twelve months; to Goldsmith & company of Chaperito for six months, and S. Kauffman of this city for twelve months.

All persons having copies of kodak views of any exhibits, parades, individuals, etc., will do the fair association a service by mailing them to Col. Twitchell. They will be utilized in preparation for next year's fair and in the advertising campaign.

Don't be a clam! Get out of your shell. Electric car runs to the canyon every forty minutes. 11-300

It is natural to want the biggest bunch—the most for your money. But in looking for the biggest bunch don't fail to consider quality, quantity, values and service as well as price.

We get the biggest bunch, buy closest, take every fair advantage—we buy well to sell well.

We expect you to want the biggest bunch—the most for your money—and you will always get the finest quality, the largest quantity, the very best values and the most pleasing service—in short, the biggest bunch.

C. D. BOUCHER
The New Mexico Coffee Roaster.

cannot easily be obtained without the use of good, pure, fresh drugs. For every ill which humanity suffers from there is a cure, but you must get it perfectly pure. Herbs, drugs and chemicals represent a very important place in medicines, but we handle only the purest, and family medicines which are the best. Things in rubber goods that are indispensable in every household are found here in abundance. Until Nov. 1, we offer Rubber Gloves at reduced prices.

SCHAEFER'S OPERA HOUSE PHARMACY

SPORLEDER SHOE COMPANY

You are cordially invited to come in and inspect our supply of La Cueva apples.

Excellent winter apples, in perfect condition, and not a worm in the whole lot. Come and see.

J. H. STEARNS, Grocer

It's a homely old adage "The Proof of the Pudding is in the Eating." But like many other old, plain things its true. Our Benjamin Suits are just what you are looking for. Try them. The wearing will prove their good quality.
