CHINESE TROOPS AND VESSELS FLEE

REBELS PUT IMPERIAL FORCES
TO UTTER ROUT AT HANKOW
IN FIERCE BATTLE.

CAPITAL IS IN IGNORANCE

CANNOT OBTAIN AUTHENTIC IN-
FORMATION; WIRELESS RE-
PORTS DISAPPOINTING.

REVOLUTION IS SPREADING

MANY IMPERIAL TROOPS HAVE
BEEN DISARMED BEFORE THEY
CAN JOIN THE REBELS.

Hankow, China, Oct. 20.—By Wire-
less to Kiu Kiang, 2:45 P. M.—Re-
layed by telegraph to Shang Hai, 4
P. M.—The government troops have
retreated to Seventy Mile Creek be-
yond Hankow Fluvial. Revolutionists
claim a great victory. Chinese war-
ships have retreated down the river
out of sight of the settlement, which
is quiet.

Officials Are Afraid.

Peking, Oct. 20.—Fears which had
prevailed here since yesterday, were
confirmed tonight by an Associated
Press dispatch from Hankow, which
stated that the rebels were winning.
The message was sent from Hankow
early yesterday morning. It was car-
ried by a messenger to the nearest
open wire and received here this
evening.

Up to 6 o'clock tonight the govern-
ment and the foreign legations were
in the dark as to developments in
the south. The officials claimed that
the absence of news was due to the
fact that the minister of war, Gen-
eral Yin Tehang, was holding the
telegraph lines and not allowing any
but his own messages to be trans-
mitted.

They stated that General Yin
Tehang organized his forces and was
rapidly pushing forward his troops,
meanwhile contenting himself with
reporting military details without
furnishing definite news of Wednes-
day's fight. It was explained that the
concentration of the two imperial
divisions had been completed last
night at Kwang Shu, on the Peking
and Hankow railroad, 70 miles north
of Hankow. It was understood that
General Yin Tehang, the commander
in chief, had reached Kwang Shu.
Official assurances also were given
that although the situation had been
grave recently, the outlook was now
much improved and the ultimate tri-
umph of the government was certain.

A rumor was current that the re-
bels had cut the railroad behind the
imperial troops and captured Siaoan,
30 miles north of Hankow.

Another native report was that the
rebels held the railway tunnel at
Shin Yang Chow, in the southern part
of Ho Nan province and about 100
miles north of Hankow. Attempts to
establish wireless communication be-
tween the capital and Hankow have
thus far been fruitless.

Consular dispatches from Yun Nan
report persistent rumors of dissatis-
faction among the imperial soldiers.
Both the modern troops and the lo-
cal regiments threaten to mutiny be-
cause they have not been paid and
refuse to march against the rebels in
Sze Chuan. The viceroy is said to
have withdrawn the ammunition from
the troops and to have fortified his
yamen.

The French consul at Yun Nan re-
ceived a letter signed "War Minister
of the Revolutionists," recommending
that foreigners leave the country
while yet there was time. In conse-
quence the missionaries have been
warned by couriers and are prepar-
ing to leave.

A Mohammedan rebellion is re-
ported imminent in Kan Su, the
scene of the Mohammedan revolt in
1858-75.

The belief is strong here that a
serious defeat of the government
forces, as seems probable from to-
night's dispatch from Hankow, would
have such an effect on the country
generally that it would fall ripe into
the hands of the revolutionists. The
legations today sent a strong joint

protest to the government against
the prohibition of cipher dispatches,
which is completely dislocating
trade and threatens to upset the money
market and lead to a dangerous
panic.

Revolutionists Claim Victory.

Shanghai, China, Oct. 20.—The fol-
lowing message from Vice Admiral
Winslow, senior British naval officer
at Hankow, sent by wireless from a
British vessel off Hankow, was re-
ceived this morning:

"All telegraph lines to Shanghai
and to Peking were destroyed by fire
last night for a distance of a mile
beyond the settlement."

Another wireless message dis-
patched from Hankow at noon today
and retransmitted over the land lines
at Kiu Kiang, reaching here at 4
o'clock, says that the government
troops retreated up Seventy Mile
Creek, while the Chinese warships
withdrew down the river out of sight.
The revolutionaries claim a great vic-
tory.

Still another message says that the
revolutionists at Hankow claim a
great victory over the imperialists.
They declare that they captured the
river and the railway station, after
which all the Chinese warships
retreated with the exception of one
cruiser which succeeded to the rebels.
The retreat of the imperialists at
Hankow is confirmed in other dis-
patches from Kiu Kiang, which state

(Continued on Page Four)

AVIATOR RODGERS IS STILL MOVING WEST

IS THE ONLY ONE OF SEVERAL
BIRDMEN TO CONTINUE CROSS
COUNTRY TRIP.

Waco, Texas, Oct. 20.—Aviator
Rodgers at 11:15 o'clock a. m., today
resumed his ocean flight, starting
from this city for San Antonio.
Flying high and steadily,
Rodgers passed over Bartlett, 55
miles south of here at 12:25 o'clock
p. m.

A Mile a Minute.
Temple, Texas, Oct. 20.—Rodgers
reached here, 30 miles from Waco, in
30 minutes flying time.

Making Good Time.

Georgetown, Texas, Oct. 20.—
Rodgers passed over here at 1:25
o'clock p. m., about 75 miles from to-
day's starting point.

Reaches Austin Safely.

Austin, Texas, Oct. 20.—Rodgers ar-
rived at 1:55.

Rodgers made one stop en route
here, alighting at Granger. On land-
ing here he said he was uncertain
whether he would continue on to San
Antonio today.

Robinson Resumes Trip.

Dubuque, Ia., Oct. 20.—Hugh Rob-
inson, the aviator, who is on his way
from Minneapolis to New Orleans in
a hydro aeroplane, rose from here at
10:30 today and started south. He
expected to reach Rock Island, 90
miles from here, by tonight.

FRANK MANZANARES RESIGNS FROM TICKET

CANDIDATE FOR STATE AUDITOR
QUITS AND FRANCISCO DEL-
GADO SUCCEEDS HIM.

Santa Fe, N. M., Oct. 20.—F. A.
Manzanares, of Fort Sumner, who
was the candidate for state auditor,
on the democratic ticket, has volun-
tarily sent in his resignation to the
state central committee, at Santa Fe,
and the resignation has been accept-
ed by the committee.

Francisco Delgado, of Santa Fe, has
been named by the committee as the
democratic candidate for state audi-
tor at the coming election.

Mr. Delgado was at one time cash- ier of the First National bank here

SWALLOWS PAUL HANDLE.

Albany, Oct. 20.—When five-year-
old John Guynes was playing near his
home today he swallowed the seven-
inch wire handle of a tin pail. An
ambulance surgeon managed to re-
move the wire while the boy was on
the way to the hospital. The next
time he may swallow the pail.

TAFT GREETED BY FAMOUS OLD SCOUT

CURLEY, THE ONLY MAN OF CUS-
TER'S COMMAND TO ESCAPE,
MEETS PRESIDENT

THE TWO MEN SHAKE HANDS

TWO DISTINGUISHED WYOMING
LEGISLATORS WILL ACCOM-
PANY PARTY TO LINE

SEVERAL THOUSAND MILES

EXECUTIVE HAS A LONG JOUR-
NEY AHEAD OF HIM BEFORE
COMPLETING HIS TRIP

Sheridan, Wyo., Oct. 20.—President
Taft and party re-entered Wyoming
today. The president was met here
by United States Senator Warren
and Congressman Mondell, who will
escort him through the remainder of
the state. The local program in-
cluded an inspection of Fort Macken-
zie and a speech at the city hall.

Although today marks the end of
five weeks' traveling, the president
still has several thousand additional
miles to cover before leaving Pitts-
burg on his supplemental trip, details
of which were announced last night.

Secretary Hilles and others close
to the president are deeply interest-
ed in the receptions being planned for
Mr. Taft in South Dakota, Wisconsin
and Minnesota.

In the reception line on the station
platform here when the Taft train
came in was Curley, the Crow scout,
who is supposed to have been the on-
ly man with General Custer to escape
in the Little Big Horn fight. Curley
reported the news of the massacre of
Custer's troops. Mr. Taft shook hands
with him as he passed.

FARM CONGRESS IS BROUGHT TO CLOSE

NEW MEXICO WOMAN ELECTED A
DIRECTOR OF WOMEN'S DE-
PARTMENT OF WORK.

Colorado Springs, Colo., Oct. 20.—
The sixth annual convention of the
International Dry Farming congress
and the first International con-
gress of Farm Women came to a
close at noon today. Fourteen
hundred delegates registered for both
congresses during the week and the
exhibits were viewed by more than
40,000 persons.

The most important work of the
morning was the election of officers
by the Congress of Farm Women, as
follows:

President, Mrs. Leslie Stavert, Win-
nipeg, Canada; first vice president,
Miss Irma E. Mathews, Oklahoma
City, Okla.; second vice president,
Mrs. Clark W. Kelly, Devil's Lake, N.
D.; third vice president, Mrs. John T.
Wittles, Logan, Utah; secretary-
treasurer, Mrs. John T. Burns, Colo-
rado Springs, Colo.

The executive committee includes:
Mrs. C. C. Stearns, Rosalie, Kan.;
Mrs. Swift, Boise, Idaho; Mrs. J. W.
Carpenter, Cheyenne, Wyo.; Mrs. L.
A. Morrill, Utah; Mrs. J. E. Mondell,
Tucson, Ariz.; Mrs. William Flannery,
Belgrade, Mont.; and Mrs.
Charles A. Lory, Fort Collins, Colo.

Resolutions were passed endorsing
the vocational educational bill now
pending in congress; the establish-
ment of a national bureau of home
economics and the holding of a spe-
cial women's exhibit at the annual
sessions of the congress.

Today's program of the dry farm-
ing congress was of an educational
nature. Among the principal speak-
ers were E. R. Parsons, of Parker,
Colo.; L. R. Weldon, of Dickinson, N.
D.; J. M. Bradshaw, of Payton, Colo.,
and Dr. W. T. Parker, of Moline, Ill.

WILD MAN CHARMED.

San Francisco, Oct. 20.—Ishi, the
aborigine from the wild Deer Creek
country, is in a fair way of being
domesticated. Already he is not so
wild but that the gentle passion can
soothe his savage breast.

PASTOR CHARGED WITH SERIOUS CRIME

BAPTIST PREACHER IN BOSTON
ACCUSED OF POISONING A
YOUNG WOMAN.

HIS ARREST IS DRAMATIC

DIVINE IS CAPTURED BY THE PO-
LICE WHILE CALLING ON
HIS FIANCEE.

GIRL'S DEATH IS A MYSTERY

DIED FROM EFFECTS OF POTAS-
SIUM CYANIDE SENT HER
AS MEDICINE.

Boston, Oct. 20.—Rev. C. V. T.
Richeson, a pastor of a Baptist
church in Cambridge, was arrested
early today as a result of the police
investigation of the death by poison-
ing of Miss Avis Lee, a student
at the New England Conservatory of
Music. The arrest was made at the
home of Moses G. Edmonds, father of
Richeson's fiancée, in Brookline.

A day or two before Miss Lennell's
death cards were issued for the wed-
ding of Mr. Richeson and Miss Violet
Edmonds, which was set for Tuesday.

The officers were unable to gain ad-
mittance to the Edmonds home last
night and guarded the house until
this morning, when the arrest was
made. Mr. Richeson took his arrest
coolly.

A warrant charging first degree
murder was sworn out this morning
against Richeson.

Superintendent Watts said he
received word last evening that
William Hahn, a druggist of New-
ton Center, had sold cyanide of po-
tassium to Richeson on the night of
October 10.

According to Watts, Richeson told
Hahn he had a troublesome dog
which he desired to get rid of, and
thus secured the poison.

Victim Was Ill.

Avis Lennell, 19 years old, whose
home was at Hyannis, Mass., was
found dead in the bath room of the
Young Women's Christian Associa-
tion home in this city last Saturday.
At first it was believed that she had
committed suicide, but later develop-
ments showed that she had unknow-
ingly taken cyanide of potassium,
given or sent to her by some other
person, which she used in the belief
that it would remedy physical condi-
tions which were causing misery.

Miss Lennell had previously been a
friend of Mr. Richeson and it was
understood at Hyannis that an en-
gagement existed. Later, however,
the clergyman became engaged to Miss
Edmonds, whose father is a trustee
of the Newton Theological Institu-
tion where Mr. Richeson studied for
the ministry.

Richeson is 35 years old and is a
native of Rosehill, Va. At a brief
formal hearing in the municipal court
Richeson was held without bail for
further examination October 31, the
date set for his wedding, and was
sent to jail pending further proceed-
ings.

ITALIANS BOMBARD TRIPOLITAN TOWN

SHELL BENGHAZI AND SUCCEED
IN LANDING 4,000 TROOPS UN-
DER RESISTANCE

Benghazi, Tripoli, Oct. 20.—The
Italian fleet under Rear Admiral Au-
drey, bombarded this city yesterday
and landed 4,000 men, who, after a
brief battle, occupied a portion of
the town. The greater part of the
troops, however, camped on the beach
last night. The Turks refused to sur-
render and made a stubborn resist-
ance.

ENGLISH VESSEL SINKS.

Hamburg, Oct. 20.—Two English
steamers collided in the mouth of the
Elbe during a fog today. One of the
vessels sank and the other was
stranded. No details were available
late this afternoon.

TWO JURYMEN ARE CHALLENGED BY STATE

BOTH ARE ACCUSED OF BIAS TO-
WARD DEFENDANT M'NAM-
ARA IN LOS ANGELES

OPPOSED TO DEATH PENALTY

FOR THIS REASON THE PROSECU-
TION ASKS THAT THEY BE
DISMISSED

COURT WITHHOLDS DECISION

ONE TALESMAN IS A SOCIALIST
AND BELIEVES TIMES WAS
DESTROYED BY GAS

Los Angeles, Oct. 20.—The state
challenged Talemans T. W. Adams
at the opening of the McNamara mur-
der trial today because of implied
bias. The challenge was based on
Adams' opposition to the death pen-
alty and also what the California
criminal code defines as "actual
bias." The court took this matter
under consideration.

The challenge was resisted by At-
torney Darrow for the defense, who
cross-examined Adams. The tales-
man said he believed the Times dis-
aster was due to a gas explosion, hav-
ing formed the opinion from reading
of the case in newspapers and mag-
azines. He objected strongly to cir-
cumstantial evidence.

There is no section of the criminal
code covering circumstantial evidence
and for that reason it was necessary
to construe Adams' attitude on this
question as bias toward the prisoner.
Adams is a socialist and a portion
of his examination was taken up in
separating his theoretical political
beliefs and his personal attitude to-
ward the prisoner.

The state takes the position that be-
lief in the gas theory is virtually be-
lief in the innocence of the defend-
ant. A few minutes later the state
also challenged Talemans A. R. McIn-
toch because of his objection to the
death penalty on circumstantial evi-
dence.

This challenge was also resisted by
the defense. Implied bias was the
formal ground for the challenge.

"I would convict no man on cir-
cumstantial evidence," insisted McIntosh,
with emphasis when questioned by
the defense. "Now suppose the evi-
dence were entirely circumstantial,
would you find the defendant guilty
in any case?" he was asked.

"I might find him guilty, but I
would not impose the death penalty
on circumstantial evidence," answer-
ed McIntosh.

The court also took this challenge
under consideration.

E. F. Decker, a landscape gardener,
declared on direct examination, and
later on cross examination that he
could return a verdict of guilty on
circumstantial evidence providing the
death penalty was imposed.

The court interrogated Decker and
drew forth the statement that he
could not render a verdict of guilty
if it meant the death penalty for the
defendant. The court allowed the
challenge, interposed by the state.

Talesman Seaborn H. Manning then
was interrogated and passed for cause
by the state. He was the first to
withstand the questions of the pro-
secution without being challenged.

Talesman F. D. Green underwent a
brief examination by the state and
was also passed for cause.

The men who probably will be the
first two jurors in the McNamara
murder case were selected in court
today. They are Seaborn H. Manning
and F. D. Green. Both men, already
passed for cause by the defense, were
passed by the state today and indica-
tions were that Manning and probably
Green would escape peremptory chal-
lenge.

The death penalty, which the low-
er house of the California legislature
voted to abolish this year, became a
prominent issue in Judge Walter
Bordwell's court today in the effort
to get a jury to try James B. McNam-
ara, for the murder of Charles J.
Haggerty, who was killed in the Los
Angeles Times explosion fire a year

ago. Four successive talesmen under
examination by the state said that
they were opposed to the infliction
of the death penalty.

Ernest F. Decker, a landscape gar-
dener, when questioned by the court,
said flatly that he would not return
a verdict of guilty in a capital crime
on circumstantial evidence. The case
of T. W. Adams and A. R. McIn-
toch, who also opposed infliction
of the death penalty on circumstan-
tial evidence, were taken under con-
sideration by the court, making in all
five talesmen now under challenge
for cause. S. H. Manning, already
passed for cause by the defense, also
was passed by the state, being the
first talesman to pass both sides. He
probably will be the first final juror
unless excused by peremptory chal-
lenge. F. D. Green, a retired rancher,
also was examined by the state and
passed for cause.

RIVER IMPROVEMENT.

Somerset, Ky., Oct. 20.—Citizens of
half a dozen counties of southern
Kentucky gathered today at the town
of Burnside, this county, and joined
in a celebration in honor of the com-
pletion and opening of Lock No. 21
on the Cumberland river. The con-
struction of the lock is the most not-
able step yet taken for the improve-
ment of the upper Cumberland and its
completion will give navigable
water the year round from Nashville
as far up the river as Burnside.

RAIN AGAIN DELAYS WORLD'S SERIES GAME

CONDITION OF GROUNDS IN PHIL-
ADELPHIA SUCH THAT PLAY
IS IMPOSSIBLE.

Philadelphia, Oct. 20.—Jupiter Plu-
vus still holds the advantage in the
series for the baseball championship
of the world. For three days the
rain god has prevented the Philadel-
phia Americans and the New York
Nationals from getting together for
their fourth tilt for the premier base-
ball honors.

Today opened as dark and gloomy
as did Wednesday and Thursday and
when the umpires saw that there
was no prospect of the weather clear-
ing they again decided not to wait
until later in the day and called the
game off at 9:50 o'clock.

The game goes over until tomor-
row. Umpire Klem, after an inspec-
tion of the field, gave it as his opin-
ion that there will have to be an
early and radical change in the
weather if there is to be a game here
tomorrow.

A WYOMING TOWN BADLY TERRORIZED

FIVE MEN "SHOOT UP" PLACE
AND ESCAPE UNHARMED AF-
TER FRIGHTENING CITIZENS

Salt Lake City, Oct. 20.—A special
from Cokeville, Wyo., says that five
men rode into that town last evening
and for nearly an hour held the place
at their mercy. It is believed that
two members of the party were the
Whitney brothers, who have been
terrorizing parts of southern Idaho
and Western Wyoming and for whom
a search is on.

The men made their appearance
first at the Wyoming saloon and dur-
ing their visit took a shot at the bar-
tender. Going out on to the street,
they ordered the residents to their
homes and, while enforcing their or-
ders with their firearms, Peter H.
Anderson received a bullet in the leg.
Later, the visitors rode to the office
of County Attorney Reynolds and
took several shots at him, but none
was effective. Just before leaving the
town they rode to the Fuller saloon
and fired a volley through the front
window. So far as know no one was
hurt there. Before the townspeople
could organize for resistance, the
visitors rode away and a posse is
searching for them.

WHITE SLAVER CAPTURED

Albuquerque, N. M., Oct. 20.—Dom-
ingo Perra, indicted last week by the
federal grand jury at El Paso for
breaking the white slave act, was ar-
rested last night by federal officers
at a point about ten miles from Mag-
dalena and brought to this city. He
will be taken to El Paso tonight by a
deputy marshal from the local office.

ROCK ISLAND MEN TO JOIN IN STRIKE

BETWEEN 5,000 AND 10,000 MEN
WILL BE ADDED TO THOSE
ALREADY OUT.

NOT A SYMPATHETIC MOVE

PRESIDENT OF BOILERMAKERS'
UNION SAYS STRIKE IS IN
REGARD TO WAGES.

OTHER ROADS MAY ALSO JOIN

DISAGREEMENT MAY RESULT IN
GENERAL STRIKE ALL OVER
THE COUNTRY.

Kansas City, Oct. 20.—Labor lead-
ers here announced today that the
five allied crafts of shopenmen now
on strike along the Harriman rail-
roads are preparing to strike on the
Rock Island system and that a strike
vote is being taken.

The proposed strike would add be-
tween 5,000 and 10,000 men to the
number already out.

It is said in labor circles that other
roads are likely to be involved in
the strike before it is settled.

"The trouble on the Rock Island sys-
tem is not the same as on the
Harriman lines," J. A. Franklin,
president of the boilermakers' union,
said today. "There is a question of
wage increase involved in the Rock
Island trouble. The federation is in-
terested the same as in the present
strike, but it is incorrect to say that
the Rock Island men are striking
from sympathy."

Mr. Franklin said the wage ques-
tion involved a sliding scale and was
so complicated that it would be hard
to say just how much increase is be-
ing asked at this time.

COAST-TO-COAST AUTO DRIVER STOPS HERE

HARRY C. DRUMM OF CHICAGO IS
LAYING OUT PATH FOR BIG
TOURING PARTY.

Harry C. Drumm, pathfinder for
the National Touring club of Amer-
ica, on his way west, arrived in Las
Vegas last night. He stopped here
to overhaul his engine and left for
Santa Fe early this morning. S. M.
Drumm is his companion on his cross
country trip and from here to Santa
Fe his wife and Miss Hazel Cox of
Albuquerque were members of the
party. Drumm passed through Las
Vegas last fall on his way to the
coast in company with a A. L. West-
gard, a pathfinder for the Touring
Club of America. On this trip Drumm
is taking photographs of points of
interest along the road. On his re-
turn he will write a complete descrip-
tion of the route for a motor publica-
tion.

Mr. Drumm was favorably im-
pressed with the roads of New Mex-
ico and the southwest last year. This
summer, in an article in an eastern
publication, the roads of the south-
west were declared almost impassable
by an easterner ignorant of the true
conditions.

Taking issue with the writer Mr.
Drumm wrote to the publishers and
informed them of the falsity of the
statements, correcting many of them.
The publisher asked for more infor-
mation and it is to furnish this that
Mr. Drumm is making the trip. He
has taken a great interest in the
places along the Santa Fe trail and
can be relied upon to give the roads
their just due. The road between
Trinidad and Raton, he says, is one
of the finest pieces of mountain high-
way over which he has ever driven.
Yesterday, crossing the pass, he ran
into a snow storm but got through on
schedule time. Drumm left Trin-
idad yesterday morning at 7 o'clock
and arrived in Las Vegas last night,
less than 12 hours after starting. He
stopped at numerous points along the
road gathering data for his article
and taking photographs of landmarks
and points of interest.

When questioned about the roads

(Continued on Page Four)

BUILDING ALREADY DONE

ALBUQUERQUE HOME OF BRANCH OF LOCAL FIRM IS MAGNIFI- CENT STRUCTURE

Albuquerque, N. M., Oct. 20.—The new Charles Ifeld company building, construction of which was begun in June, is now almost completed, and already goods are stored in part of it. The building is modern in every respect, and is by far the largest warehouse in the city.

This new structure measures 163 by 192 feet over all, but as it is L-shaped, not all of this is available floor space. The main portion of it, which fronts on Copper avenue, is of two stories and basement, with a mezzanine floor added. This makes a very attractive appearance in the downtown portion of the building, and offers an admirable opportunity to store goods in a modern way. The first floor of this main portion will contain offices and sample rooms, the mezzanine floor will be given over to sample and show rooms, and the second floor will be the hardware store room. The basement, and the projected extension behind the main portion will be storeroom, mostly for groceries. A shipping room will be made of the first floor of the extension. An elevator of the electric type, with a capacity of 2,500 pounds will connect all floors and make the transportation of goods from one floor to another a simple matter. It will be five feet wide by 10 feet 11 inches long.

Not content with building the structure of reinforced concrete all through, the designers have added fire doors at all important openings, as on the first floor and the basement between the main building and the annex, at the entrance of the stairway to the second floor, over the stairway entrances to the basement, and in other places.

The elevator shaft, that veritable chimney in all too many cases, is equipped with automatic fire doors at every landing, and with an additional folding door of fire proof construction outside these. So that there is little doubt but any fire will be confined to the place in which it originates. All windows are equipped with fusible links which will melt and allow them to close in the event of the temperature at any time becoming greater than 150 degrees, thus shut-

ting drafts from the fire and making it easy to smother. All windows are metal framed, as are the doors, and all are of the strongest wire-reinforced glass, so that though heat may crack them, they will yet shut in the air. The big plate glass show windows which are to go on the first street side are an exception to this.

The building will front on Copper avenue, which is to be graded east from First street to the railroad tracks when the building is completed. It will have a loading platform inside the hollow part of the L, facing First street, for wagons to back up to, and a second platform along the side track on the railroad side, directly opposite the first. Numerous doors protected by rolling steel fire doors and by metal awnings above, open on each. On the railroad side are several chutes for unloading goods from railroad cars directly into the basement.

It is estimated that the basement of the annex alone will hold 300 carloads of case groceries, or similar goods. The basement of the main building is of about the same size, and the floor all over the building totals about two acres in size. This makes the warehouse one of the largest in the section. All the floors are clear all along, except a row of supporting columns of concrete along each side. The ceilings are all high, and every possible convenience has been arranged for.

A humidifier for the cigar stock will occupy the southeast corner of the main building first floor, and an enclosed office for the shipping clerk will have the same place in the annex.

The building, with the yard space necessary for unloading wagons, takes up all of the block just south of Tijeras avenue, and between the railroad and First street. It is higher than the average two-story building, because of the mezzanine floor, and the exterior is attractively finished in pebble-dash and smooth cement plaster. The first street side has several large show windows, and these are finished in an attractive bright copper moulding. There is also an entrance to the first floor on this side.

The building is being constructed by a local firm, J. A. Harlan and Son, from designs made by Trost and Trost, architects of El Paso.

Over the door on the first street side an immense panel of rough cement has been left, which will a little later on be occupied by the sign, made of cement, "Charles Ifeld Company, Wholesalers of Every thing," which is about right, as the field people sell everything from a box of toothpicks to an automobile or traction engine.

NOTES OF LABOR WORLD.

The International Glove Workers' union has extended its jurisdiction to include the canvas glove workers. In the South Wales coal mines most of the workers are paid by piecework, and wages vary with the coal prices.

Jews in almost every large city in the country are giving financial aid to Cleveland's six thousand striking garment workers.

Few unions have spent more money in the support of strikers than has the United Mine Workers of America. In ten years this organization spent about \$8,000,000 in fighting the mine owners.

At Greenfield, Mass., nearly 400 persons, largely railroad men, moved by the high prices of groceries, have organized a co-operative store association with a capital of \$25,000,000.

According to statistics there has been a gain of 250,000 in the membership of the unions affiliated with the American Federation of Labor during the last year. Los Angeles has the honor of gaining the greatest percentage.

It is reported that Thomas L. Lewis, who was last year defeated for re-election as president of the United Mine Workers of America, by J. P. White, of Iowa, will be a candidate against White in the coming election of national officers.

The formation of what is now the American Federation of Labor originated in a meeting held in Terre Haute, Ind., on August 2 and 3, 1881. This meeting resulted in the issuance of a call for a convention at Pittsburgh, Pa., which opened November 15, 1881.

The strike of street railway men in Trieste, Austria, has ended with the men obtaining a small increase of pay, the minimum rate being now fixed at 82 1/2 cents a day, and a number of small concessions as regards annual leave, free uniforms, etc., having been made.

The scheme to amalgamate the two international unions of steam shovel men, which originated in San Francisco, has received the endorsement of Samuel Gompers and will be considered at the coming convention of the American Federation of Labor, at Atlanta, Ga.

Labor unions in Colorado have bought a coal mine near Erie, which promises to furnish them fuel on 20-year contracts at a price lower than current rates. It is a union-owned project throughout. The mine is owned and worked by union men and the coal will be delivered to unionists by union teamsters.

St. Louis labor leaders are endeavoring to land the headquarters of the

opera house, has begun at the drug stores of E. G. Murphy and O. G. Schaefer. There is a good early advance sale and there is every indication the big show will be greeted by a large audience.

In the company appearing in Frederick Thompson's "Polly of the Circus," with Miss Ida St. Leon in the leading part, are, in addition to a score or more of well known actors, a number of circus people and circus acts which contribute not a little to the success of the play. The big third act sawdust scene represents a three ring circus in actual operation—one of the most realistic stage pictures ever shown on the stage. One of the many features of "Polly of the Circus" is a trained horse, one of

a carload carried by this attraction. The animal is called Bingo and is a thoroughbred. He was brought to this country by Barnum & Bailey's circus and afterward sold to the New York Hippodrome when Frederic Thompson was the managing director. During the summer time Bingo is one of the features of that great amusement place, Luna Park, Coney Island, New York city. Miss St. Leon and Bingo are great friends. The little actress says that her horse "can do anything but talk."

Patrons of the local play house will have the rare opportunity of seeing Bingo and a number of other famous animals. "Polly of the Circus" is one of the most unique plays presented in many years.

KEEP THE SKIN CLEAR

With
CUTICURA
Soap and Ointment

No other emollients do so much for pimples, blackheads, red, rough and oily skin, itching, scaly scalp, dry, thin and falling hair, chapped hands and shapeless nails. They do even more for skin-tortured and disfigured infants.

Although Cuticura Soap and Ointment are sold by druggists and dealers everywhere, a liberal sample of each, with 25-page booklet on the care and treatment of skin and hair, will be sent, post-free, on application to "Cuticura," Dept. A, Boston.

International Association of Machinists, which are to be moved from Washington, D. C. The only two places under consideration are St. Louis and Indianapolis. The Machinists' organization is second only to that of the United Mine Workers. It is stated that annually \$2,400,000 in dues and assessments is handled at the headquarters. The new headquarters will be selected by a referendum vote.

TAFT VISITS THE BLACK HILLS.

Deadwood, S. D., Oct. 20.—President Taft is to spend tomorrow in the Black Hills country and at all the cities and towns embraced in the itinerary elaborate preparations have been completed for his reception and entertainment. He will begin the day with a brief stop at Custer, from which point he will come to Deadwood for a visit of four hours in this city and lead. A luncheon at the Great Northern, at which the president will be the guest of Congressman Martin and the business men of Deadwood, will be the chief feature of the program here. After leaving Deadwood a short stop will be made at Sturgis and the evening will be spent at Rapid City.

UNION COUNTY'S TICKET.

Clayton, N. M., Oct. 20.—The republicans of Union county met here Tuesday for the purpose of nominating a county ticket. The convention lasted two days and the interest was intense.

The ticket, which follows, is conceded by all to be one of the strongest tickets ever put in the field in Union county.

Senator, Eugenio B. Gallegos; representatives, O. T. Toombs and Linton; sheriff, R. I. Mansker; treasurer, G. S. Yates; assessor, George Gonzales; clerk, Nestor T. Baca; superintendent of schools, H. H. Tritt.

HOME CURE FOR RHEUMATISM

Do not waste time nor take chances of becoming a cripple or helpless sufferer from Rheumatism by trying to cure the disease with external applications alone. Such treatment sometimes gives relief from the severe pain, or may reduce the inflammation of a swollen joint or muscle, but the effect cannot be more than temporary. Each day the cause is allowed to remain in the system Rheumatism gets a firmer hold on its victim. Purify your blood of the inflammatory uric acid and then you will cure the disease permanently. The system will respond more quickly and surely to S. S. S. than any other treatment. This great blood purifier possesses the penetrating qualities necessary to drive out every trace of uric matter from the circulation and build the blood up to a nourishing and healthful condition. Only pure blood can overcome Rheumatism. Thousands have cured themselves of Rheumatism by using S. S. S., a medicine made entirely of roots, herbs and barks; no harmful mineral enters into its composition, and S. S. S. is therefore safe for any one to use. Book on Rheumatism and medical advice free. S. S. S. is sold at drug stores.

SEAT SALE BEGUN FOR "POLLY OF THE CIRCUS"

SPECTACULAR PLAY TO BE PRODUCED AT DUNCAN OPERA HOUSE MONDAY NIGHT.

Reservations of seats for "Polly of the Circus," which will be staged next Monday evening at the Duncan

Polly and Bingo in "Polly of the Circus."

NOT NECESSARY TO BECOME TOO FAT

NEW YORK WOMEN HAVE A
SCHEME TO KEEP DOWN
SUPERFLUOUS FLESH

"Women have been gaining in weight during the summer. A study of Fifth Avenue, New York City of an afternoon will show this," said a woman who practices physical culture. "Perhaps the most important cause of this is the mental attitude of the women. They are willing to gain a little in weight, for they carried the matter of getting thin too far, and, being willing to gain something, they have gained too much."

"Other causes arise from the fashions. Among them can be mentioned the following:

"Sitting in a motor car makes women stout."

"The pretty shoes that are the vogue help to increase one's weight because it is impossible to walk in them."

"Hobble skirts encourage the coming of the pounds, and even if one doesn't wear a hobble skirt one wears skirts too narrow for comfortable walking."

"Afternoon teas put on flesh. It is true the English women drink tea and eat bread and butter and keep slim, but they take long walks, rain or shine, and they don't hamper themselves with shopping bags or umbrellas."

"Another encourager of flesh is the short waist which with its straight skirt conceals the fact that a woman is stout. It makes a woman feel that she can afford to have full hips and so she eats a little more and exercises a little less."

"But by far the greater factor in the general increase in weight is the mental attitude. Last spring the women were reducing so strenuously that they impaired their health. Then they decided that it was better to be a little plumper and to have better health. As a result they began to take ice cream sodas in the middle of the day, between meals, and to indulge in afternoon naps. The result was im-

mediately apparent in the added pounds."

Not as Hard as it Looks

"Reducing the weight is difficult for the reason that one looks at it as a great stunt which is next to the impossible, but really it is not so hard. A good way to effect it is to follow the reduction code as it is written out for the English court women. They are these:

"Begin today."

"Make your next meal light and drink nothing at all with it."

"Take a glass of hot water one hour before your dinner or your luncheon. Then don't drink again until two hours after you have eaten."

"Buy a bedroom scales. Weigh yourself night and morning. Keep a card tacked on the wall and make notes on it daily."

"Unless you eat a big dinner you will be lighter in the morning than you were when you went to bed."

"Once a week have a reduction banquet. Take nothing but hot tea and crackers. Let this be your dinner. You will not die of hunger before morning and you will awaken feeling lighter and better."

"Walk one hour each day. Never mind how far you walk, but keep going for one hour. Walk half an hour going from your home. Then turn and take the other half hour to return."

"Never walk for walking's sake. It is a very trying thing to do. Make an errand for yourself. Stop marketing by phone and go personally. Do all your household errands on foot."

"The Russian women, who are proud of their white skins have a massage which is made out of limes and soap. It sounds heroic. They cut a lime, rub it on some good toilet soap and with this rather vigorous sponge they massage themselves. The result is a lather which they take off with hot salt and water. It may be that all skins would not stand this, but it works in St. Petersburg, where they boast that fat is not to be found in good society."

"Reduction banquets are very smart. At one there were no guests under normal. The menu was olives, clams, bread of chicken, baked potatoes and salad with coffee minus sugar as a win-up."

"Chewing a Prune Half a Day."

"There is a new German reduction exercise, the pumphandle walk. It would not do for drawing room use, but it can be tried in the gymnasium

along with the other unconventional exercises. You can wear a tight skirt for it if you prefer; for the pumphandle is an up and down step, not a swinging one."

"A believer in the New Thought cult has a theory that your body obeys your mind. You say, 'I'm getting thin! I'm getting thin!' And behold you actually do get thin."

"I have tried on myself and it worked well. At dinner time I said: 'I am getting thin, but I must not eat. I am not hungry, so why should I put food in my stomach?'"

"I repeated this and I got thinner each day. For by this formula I managed to go without a meal each day. I don't know how it would have worked at all three meals, but it went well at night. I find that it is easier to go without dinner than without breakfast. Very few persons can omit luncheon."

"One of my patrons came back from Europe this fall with an increase of 20 pounds. For this woman I gave the Arden treatment. This consists of a rigorous diet. I put her upon one prune for breakfast with a big cup of strong coffee. I told her that at Arden they had been known to chew a prune 20 minutes, and it was not a rubber prune either."

"For dinner I told her to take chopped meat and nothing else, but all she wanted of it, and for supper some green salad without dressing. The woman who doesn't get thin on this in ten days is one who prefers to stay fat."

IN MEMORY OF GEORGE

Jackson, Miss., Oct. 20.—"George Day" was observed for the first time by the public schools throughout Mississippi today, when special exercises were held by the pupils in honor of the memory of the late General James Z. George, who was for many years one of the foremost figures in public life in this state. Following distinguished services in the civil war, in which he was several times wounded and captured, General George served the state of Mississippi as chief justice and as United States senator, filling the last named office until his death in 1897. To the public at large he is best remembered as the dominant figure in the constitutional convention of 1890 that devised a legal method of eliminating the negro from politics and maintaining white supremacy in Mississippi.

The Optic prints all the news.

WOMEN BARRED FROM CHURCH BAZAAR

PRIEST LEARNED THEY WERE
CARD SHARPS AND PROMPTLY
EXPELLED THEM

The Rev. P. H. Ludeke, pastor of the Roman Catholic church of St. Francis of Assisi in Brooklyn, sent out a warning to other pastors and to folks interested in charity shows to look out for women card sharps. Father Ludeke and his assistants have learned that there are at least a dozen women, almost clever enough to be in jail, who have been politely swindling church entertainments.

The priest made the discovery by accident and just in time to bar 11 tricky women from the big progressive euchre party the Allied Societies of the Church of St. Francis of Assisi gave at the Forty-seventh Regiment armory the other night. Father Ludeke, with Father Dwyer and Father T. J. Kelleher, stood grimly at the portals of the armory turning back young women who had expected to make a good thing of the charity card play.

Father Kelleher was a passenger on a Northland avenue car. He had a newspaper close to his face and the two well-dressed women who sat next to him did not observe that he was a clergyman. They gabbled gayly, and at first Father Kelleher didn't pay much attention to their conversation. Presently he heard something that made him an unrepentant eavesdropper.

As the Plot Thickens

"Don't you know, my dear," said one of the women, "Kitty and I are going to the Forty-seventh Regiment armory to carry away the prizes we take a fancy to? Some of them are lovely."

"What makes you so sure you will get them?" asked her friend.

"It's a sure thing. There will be a dozen of us there and we have a system that can't be beat. We simply play in with each other, that's all. Whenever we can work in our own cards we do it, and you may believe that cards are trained. They would come if we whistled to them."

"Has the system worked all right?" said her companion.

"Beautifully, my dear. Perfectly successful! I suppose that Kitty and I have cleaned up 40 big euchre entertainments in the last year. The prizes we got would make you open your eyes—gold and silver things worth a lot of money. Many of them are really valuable and can be sold for theater money if we don't care to keep them."

By this time Father Kelleher had lost all interest in church news or whatever it was he had started to peruse. He glanced cautiously now and then and studied the appearance of the two women very carefully. He made sure that he could recognize them again if they turned up anywhere near him. As soon as he got off the car he hastened to Father Ludeke and told him what he had overheard.

Father Ludeke was not greatly surprised. He had heard rumors that a band of women were playing dishonestly at the big church entertainments and that some of the women were members of good families. He had heard, too, about marked cards and stacking the deck and lip signals and the other little tricks that go with sure thing play.

Tells Them It's a Mistake

"Well," said the pastor of St. Francis church, "we will just wait for these enterprising women. If they past us we will deserve to be victimized."

With Father Dwyer the two priests stood at the main entrance and kept a sharp eye on the people streaming in. The annual euchre and reception of the allied societies is a big affair and more than two thousand persons went to the armory.

For half an hour the priests saw nothing suspicious. Then they observed a knot of women, all well-dressed and of prosperous appearance waiting on the sidewalk and whispering together. With something of the detective's instinct Father Ludeke never took his eyes off that group. Presently two women detached themselves from the group and strolled toward the armory entrance in the wake of two men and their wives, a family party known to Rev. Ludeke. The women from the sidewalk fell in behind easily, as if to give the impression that they were with Father Ludeke's acquaintances. As they started to pass through the door Father Ludeke said to them very quietly:

"Excuse me. I fear that you have made a mistake."

The women looked at him just long enough to realize that there was something behind the quiet remark. Then they gathered up their skirts and flattered down the steps.

Perhaps half an hour later two more from the sidewalk group tried the same game, but again Father Ludeke detected the stratagem and turned them back. That was enough for one night. The sidewalk party broke up and its members disappeared. There was no crooked play at the euchre that night—no complaint of any sort.

"There is no doubt," said Father Ludeke, "that many charity entertainments have been the prey of such women as we turned away last night. I have reason to believe that these women are organized skillfully and that there are at least 12 in the band. I am sure that 11 of them tried to get into our entertainment last night by attempting rather a shrewd trick. If we had not been forewarned by a fortunate circumstance we would have been victims as scores of other churches and societies have been. Many of the prizes given at the larger churches are worth \$50, so you can see the motive for dishonesty."

DISTRIBUTE ARKANSAS RICE

Little Rock, Ark., Oct. 20.—"Arkansas on Wheels," a special train of 11 cars carrying 150 representative business men of Arkansas, mayors of cities, a brass band and a company of singers and entertainers, left the capital today for a tour through six states to exploit the products and commercial advantages of the commonwealth. The train carried four cars of exhibits of the 55 counties and it is planned to give a bag of Arkansas rice free to every housewife who visits the train along the route.

LIEUTENANT TAKES BRIDE

Tannersville, N. Y., Oct. 20.—A wedding of interest in military circles took place here today, the bride being Miss Elizabeth Morse Colgate, daughter of Mr. and Mrs. Gilbert Colgate of New York city, and the bridegroom Lieutenant Stanley M. Rumbough, of the Fifteenth cavalry, U. S. A. The marriage was performed at the country home of the bride's parents. After a wedding trip to Europe Lieutenant Rumbough and his bride will reside at Fort Myer.

A BALD HEADED WOMAN.

Shorn of Her Crown of Beauty, Loses in Love and Marriage.

Hair is certainly most necessary to women. Who could love and marry a bald headed woman? What charms could one array to offset such a disfigurement?

A woman's goal is usually love and marriage. Her crowning glory is her hair. The loss of her hair mars her beauty, happiness, and success. Yet, right here in Las Vegas, there are thousands of women who are neglecting or injuring their hair to such an extent that it is only a matter of time when it will be utterly ruined.

Many women destroy the beauty of their hair through thoughtlessness or ignorance of certain facts. They use curling irons over-heated, or to excess, which destroys the natural oil of the hair, causing it to split, break, and come out. They do not shampoo their hair often enough, or too often. They use soaps or preparations which contain ingredients positively harmful to the scalp and hair.

As a result of such treatment, dandruff is created, the hair loosens, loses color, falls out, and baldness commences, unless proper and prompt precautions are taken in time. Then again, microbes and certain diseases bring about unhealthy scalp and hair conditions.

Almost any woman mad rid herself of dandruff and diseased scalp and hair if she will but use the right remedy. We have the remedy, and we will positively guarantee that it will either cure dandruff and baldness or it will not cost the user anything.

That's a pretty broad statement, but we will back it and prove it with our own money. We will return your money if you do not find that Rexall "93" Hair Tonic is an entirely satisfactory remedy that will promote hair growth and overcome scalp and hair troubles; that it will grow hair even on bald heads, unless all life in the hair roots has been extinguished, the follicles closed, and the scalp is glazed and shiny. It gets its name from the fact that it grew hair in 93 out of 100 cases, where it received a thoroughly hard, impartial, and practical test.

We want you to try Rexall "93" Hair Tonic at our risk. You surely cannot lose anything by doing so, while you have everything to gain. You had better think this over and then come in and see us about this offer. You will be well repaid for your visit to our store! Remember, you can get Rexall Remedies in this community only at our store—The Retail Store. B. G. Murphy.

Restored to Health

MRS. JAMES CRAVEN

The body but qualities of Whiskey it woman to It will do you will give a Tuftless waitress

regular user of Duffy's Pure Malt Whiskey and I have derived much benefit from its nourishing qualities. It is the greatest tonic and stimulant I know of for weak systems. I was very sick some time ago, but owing to this elixir of life, I am enjoying splendid health at present. I should have written sooner and thanked you for the good your whiskey has done and is doing for me. It is the real medicine of the American people." Mrs. James Craven, Waltham, Mass.

Duffy's Pure Malt Whiskey

STANDARD OF PURITY AND EXCELLENCE SINCE 1860

If every man and woman in the United States would only appreciate what this great family medicine does toward building up the system, driving out the disease germs by strengthening the digestive organs and quickening the circulation so as to prevent a cold or other form of congestion from becoming deep rooted, ninety per cent of the illness would be avoided. When people get sick they blame different causes, but if they would only stop and think the chief cause is the system is allowed to run down; the blood becomes thin, the digestive organs are not strong enough to do their work properly, the tissues become weakened, the kidneys are unable to carry off the waste matter. The result is pains, aches, and all kinds of troubles. Just give your system a chance; build it up by taking Duffy's Pure Malt Whiskey as directed; it will build new tissue, help the stomach digest the food, strengthen the heart action, enrich the blood and invigorate the body, brain and nerves.

Duffy's Pure Malt Whiskey is the only whiskey that was taxed by the Government as a medicine during the Spanish-American war.

Sold in SEALED BOTTLES ONLY by druggists, grocers and dealers, or direct, \$1.00 a large bottle. Our doctors will send you advice free, together with a valuable illustrated medical booklet on request. The Duffy Malt Whiskey Co., Rochester, N. Y.

LET US HAVE STABLE GOVERNMENT

This paper would like to ask the democratic party a question and it would like in reply, a direct, straightforward and honest answer:

What is Wrong With the Constitution of New Mexico and Wherein Should It Be Amended?

We have heard a great howl from Jones, from Hand, from McGill, from Fergusson, from Burkhardt and some more of them, but we have never heard them say in plain language what there is to amend in the constitution of New Mexico that calls so imperatively for an easier method of amendment.

It has been shown in the press of both parties, including the official democratic organ, that the constitution of New Mexico is easier of amendment than the constitutions of a majority of the other states in the Union, easier than the greatest constitution of them all—the constitution of these United States—and by far easier than the constitution of the state of Virginia from whence comes that imperial statesman, the Hon. Henry D. Flood, who has so unceremoniously injected himself into New Mexico politics.

It is a fact that the thinking man in this new state who has read and carefully considered the constitution of New Mexico, knows that it is neither too difficult nor too easy of amendment.

It is true that Judge McGill stated before the committee on territories in the house that every clause in the constitution of New Mexico had a joker in it, but can he come before the electorate of New Mexico sup-

ported only by such a radical following as such a statement could muster and override the 13,000 majority vote that was cast for the constitution?

A majority of the constitutional convention consisted of republicans, but they in turn, gave fair treatment to the minority and the constitution that was drafted in that convention contains also, some of the best and wisest provisions for the protection of majority and minority alike.

In general effect the constitution of New Mexico is modeled upon the constitution of these United States, a constitution under which this great nation has risen to be a world power.

Will the democratic party for once in its life face a real issue and answer the question? Will it state what there is in that constitution that is in need of amendment to make it so imperative that an easier method of amendment should be found, at the first state election?

Will Mr. Fergusson, who said after the constitution had been adopted that "he bowed to the will of the majority" and then went to Washington to urge the Flood amendment, state where, in his opinion, the constitution is so gravely defective?

Will Mr. McGill let out for the inspection of the voters, the hundreds of "jokers" that he said in Washington, the constitution contained?

Will Mr. Jones tell wherein the constitution is so injurious that it must be made easy to amend without delay?

Will the democratic Journal of Albuquerque point out, in view of its past statements, where it now stands on this question and why?

Will Mr. Flood explain the necessity for at once amending the constitution, in view of the fact that Virginia with an iron clad constitution, has sent him to congress?

The electorate of New Mexico, especially that citizenship that has built New Mexico from a wilderness and a savage land, is entitled to know of the democratic party, what is there wrong with this constitution that it must be amended?

WHERE IT STANDS

No Minority Amendments.
H. B. Fergusson, J. D. Hand, A. A. Jones and W. R. McGill, who are insulting the New Mexico electorate at Washington by assuming to juggle with the constitution, now, it is said, seek only to force a separate vote on the changing of the amendment provision when the first state officers are elected.

The Morning Journal will be pleased to hear what amendment proposition these high-minded and patriotic peanut politicians would like. It may seem impertinent on the part of the people who ratified the present constitution; but it does appear that it would be only fair for Mr. Fergusson et al to take us into their confidence so far as to give us some idea of what they are going to do. We repeat, it may be highly presumptuous for the majority of the New Mexico voters to ask such a question but purely as a favor it would be a satisfaction to have these gentlemen put us wise. Meantime there will be a natural feeling of gratitude on the part of the electorate that Mr. Fergusson and the other gentlemen who have been put in charge of the fate of New Mexico didn't decide to reject the whole constitution.

So far as can be learned, a constitution which can be amended at will by the minority in the pursuit of its ward politics is what Mr. Fergusson and his friends want. The present constitution, as the Morning Journal has shown a hundred times, can be amended two years after the constitution goes into effect by a majority vote of the legislature and by a majority vote of the people. The latter majority needs be only 40 per cent of the entire vote cast at the election.

This same thing can be done eight years thereafter; and for the first amendments, which may be three in number, must stand for Eight Years before another bare majority can change them. Meanwhile two-thirds of any legislature may call an election on amendments to the constitution.

The word "He" has been overworked in this connection; the Morning Journal, in regard to those who say the constitution is difficult or impossible to amend, can only point again to the facts and allow the public to draw its own conclusions as to the scruples, the fair play, the honesty, the patriotism, the political decency, the regard for the truth on the part of the men who are telling the country and congress that the constitution is not amendable.

The democracy, it has been alleged, was about to entirely repudiate the action of Messrs. Fergusson, Jones, Hand and McGill. The democracy has not done so. The Morning Journal warns the leaders of the party that unless they turn down this dirty work and do so promptly they will never escape the obloquy and the

opprobrium and the shame of a deliberate attempt to delay statehood for the sake of a political trick. This constitution was thrashed out, article after article, by the people of New Mexico as no other constitution ever was in any state. Every voter who could read studied it from end to end for months, and when the vote was cast a tremendous popular majority was cast for the constitution as enacted. Yet these democrats take the position that the people did not know what they were doing; they were not aware "the constitution could not be amended," and they must be given a chance, by Fergusson, Hand, Jones and McGill, to revise the amendment provision when the vote for state officers is taken. It is easy to guess these democrats' idea of an "amendable constitution," one that can be changed at will by a whining bunch of soreheads whose time is spent in devising ways and means of wrecking the principle of majority rule. The fact that H. B. Fergusson seeks this change is all the evidence needed by the people of New Mexico, that it is dangerous and foolish and crack-brained. Chairman Floyd of the house committee may have faith in the high motives of Fergusson and his party; the people of New Mexico know better. They will not touch an amendment provision offered by H. B. Fergusson with a twenty-foot pole. This work at Washington is a piece of insolence which deserves and will get a stinging rebuke from the people.—Albuquerque Journal, April 27, 1911.

IS THIS McDONALD'S IDEA OF THRIFT?

W. C. McDonald, the democratic candidate for governor, bewails the fact that the average citizen spends too much for luxuries. He believes you should live on 75 cents or a dollar a day at the very outside. The London Chronicle, one of the leading newspapers, in the land where McDonald's foreign cattle barons run things with a high hand own all the land and make "tenants" out of the "country folks" as they term them, tells some of the facts as to what some of the workmen over there get in return for their labor.

"The English workmen," sadly comments the Chronicle, "are hovering so close to the borderland of starvation that a slight rise in the price of foodstuff would produce that awful result."

The Chronicle cites the following: "Here is a London workman's budget, supplied by Mr. Percy Allen, who has known the man for 14 years as a teetotaler, a friendly society man and a trades unionist (member of a union)."

"His average earnings are 18s a week and out of that he pays rent, 2s. 3d.; bread, 2s. 6d.; meat, 1s. 6d. Every farthing is of importance to this man and to hundreds of thousands of laborers in London, whose earnings are not more than 18s a week on an average. The dock laborers average only 12s a week. Even the addition of one penny a day to the food bill would put a strain on these workmen."

These are a concrete sample of conditions in the land where the cattle barons who employ Mr. McDonald hold the reins of government if their leading daily newspaper may be taken as authority.

Cheap lands contribute to their finances in New Mexico and when lands can no longer be had in New Mexico, their interest in New Mexico will cease—unless, of course, they can control the government here, as they control it over there.

The English workman, the London Chronicle speaks about—who fears an advance of even one penny a day in the cost of his food—is a victim of free trade.

The English workman knows what free trade means—he is working on that basis.

The democratic party, Mr. McDonald and the foreign cattle barons favor free trade in this country.

Do you agree with Mr. McDonald, that the average American is a spendthrift?

TWELVE MINERS KILLED

Hibernia, N. J., Oct. 20.—Twelve men were drowned here today when a blast destroyed a partition between two shafts in the iron mines of the Wharton Steel company and let a great quantity of water, accumulated in an old shaft, flood the gallery where they were at work. All the victims are foreigners except David Slaght, foreman of the gang, who lost his life in trying to aid his men.

ST. LOUIS WOOL

St. Louis, Oct. 20.—Wool, weak; territory and western mediums 17@20; fine mediums 16@18; fine 11@15.

Lame back is one of the most common forms of muscular rheumatism. A few applications of Chamberlain's Liniment will give relief. For sale by all druggists.

CHINESE TROOPS AND VESSELS FLEE

(Continued From Page One)

that the Chinese gunboats are retreating to Kin Kiang. The conduct of the rebels at Hankow is reported to be exemplary. Martial law is being enforced.

Today's advances of the rebels' success at Hankow caused great jubilation among the Chinese here.

The run on the banks has stopped, but the native banks are unable to pay their outstanding accounts and business is at a standstill. The venerable North China News, anticipating an ultimate imperial victory, in an editorial today, recalling the awful fate which traditionally awaits rebels in China with the slaughter of innocent kinsfolk with the object of blotting out stained names, says that the powers are not intervening because of self interest, adding:

"The ringleaders undoubtedly must die, but Yan Shy Kai, arriving with well filled money bags and imperial pardons for signature, is offering mercy to those who have been coerced into participation in the revolt. The events of the past week must lead to a genuine redress of grievances. China should remember the starving multitudes beggared by the Yang Tse Kiang floods. Those with whom the rebels had been able to plead fought and died."

Victory is Confirmed.

Hankow, Oct. 19.—Delayed in Transit—A two days' battle between the government forces from the north and the revolutionists ended in a victory for the latter. The rebels forced the imperial troops to retreat to a point ten miles north of Hankow. The loyalist gunboats dropped several miles down the coast.

Two More Cities Fall

San Francisco, Oct. 20.—Cable dispatches received from China today by the local Chinese papers confirm the news of a victory of the rebel forces at Hankow. The Chinese Free Press was informed by messages from Changhai that the damaged fleet under the command of Admiral Sah Chen Tung was so badly crippled that it had to withdraw from the scene of action. One of the imperial gunboats surrendered to the enemy. The revolutionists now report they also have captured Wong Chow and King Chow in the province of Hu Peh, near Hankow.

The Chung Sai Yat Po has news from Shanghai that the imperial troops stationed in the provinces of Che Kiang, Honan and Noanbul threaten to revolt in aid of the republic.

COAST-TO-COAST AUTO DRIVER STOPS HERE

(Continued From Page One)

between here and Raton Mr. Drumm highly commended them, stating that the only bad place is in the vicinity of Maxwell. This statement has often been verified by tourists whose answer to the questions put to them has commended all of the stretch except at that point. One of the needs, he says, is sign boards pointing out the right road at forks. Many ranchmen have fine branch roads to their places and a tourist often takes one of these, causing a considerable delay.

Last night the expert mechanics at the Whalen garage went over the engine of his car, a Staver Chicago 30, putting it in order for the trip across the mountains to the south and west. Tourists all like to make the Meadow City a stopping place, as there are good accommodations for their cars and themselves. Las Vegas is fortunate in having one of the best equipped garages in the state and tourists can always stop here for a rest while their cars are gone over by careful hands.

Mrs. H. C. Drumm, an Albuquerque girl, is making the trip, following her husband on the train. She came in from Albuquerque yesterday, accompanied by Miss Hazel Cox of the Duke City, and they all made the trip to Santa Fe today. Following Mr. Drumm about two weeks behind is a party of tourists on their way from the east to the Pacific coast. Mr. Drumm, as well as gathering information for his article, is laying out the route for them. The party will be in charge of A. L. Westgard, who has been through here twice on coast to coast trips. The party is traveling in ten automobiles, making an imposing array of chug wagons.

TODAY'S COMMERCIAL AND FINANCIAL NEWS

NEW YORK STOCK EXCHANGE

New York, Oct. 20.—Trading in the metal stocks dominated the movement of the stock market during the morning. Transactions in United States Steel again reached heavy proportions and the copper stocks, after remaining comparatively inactive for months, once more took a prominent position. Extensive selling, which depressed the market in the early trading, was largely due to realizing following yesterday's abrupt rise, although the steel shares were subjected to pressure from the bears. The tone of speculation visibly improved in the second hour and there was a smart advance. The movement had its inception in the copper group, spread to United States Steel and ultimately gathered in the active railroads.

Amalgamated Copper, Utah Copper and Tennessee Copper sold 1 to 1½ above yesterday's closing and American Smelting half, after it had rallied from 64¼ to 65. United States Steel was bought in enormous amounts and showed more active in the rise to 60½ than in the previous decline to 59¼. One block of 7,500 shares changed hands at the top figure, and there were many individual transactions of thousands of shares. Speculative sentiment was perplexed by the varied movements of this stock and the opinion gained currency that a large pool was manipulating it. Bonds were irregular.

Weakness cropped out again in spots, after which Reading was pushed up to 140, which was the signal for another sharp rise in prices. The close was strong.

The market closed as follows:

Amalgamated Copper.....	54½	market slow 5 to 10 cents lower;
American Beet Sugar.....	107½	Lights \$5.95@6.02½; mixed \$6.00@
Great Northern.....	124	5.97; heavy \$6.00@6.05; rough \$6.00
New York Central.....	1105½	6@6.30; good to choice heavy \$6.20@
Northern Pacific.....	117	6.30@6.50; bulk of sales
Reading.....	140	There is little estimated at 10,000;
Southern Pacific.....	110	market average 10 cents higher.
Union Pacific.....	163½	Native \$2.75@2.80; western \$2.40@
United States Steel.....	60½	2.80; yearlings \$1.00@1.35; lambs
United States Steel pfd.....	64@64½	native \$2.75@3.00; western \$3.75@
		6.15.

CHICAGO BOARD OF TRADE

Chicago, Oct. 20.—With snow and rain in the northwest impeding threshers and spoiling wheat still in the field, the cereal today made a fresh advance in prices. Opening figures were unchanged to ¼ lower. December started at 101 to 101½ and quickly advanced to 101½.

The close was nervous with December 1@1½ cents net higher at 102½ @ ¼ cents.

Scattered investment buying made corn firm. December opened a shade lower to ¼@¾ up at 65½ to 65¾ % and rose to 65¾.

The close was strong 1¼@1½ cents up at 66½. Notwithstanding a little wavering at the outset, oats gathered strength from corn. December started ¼ down at 47½ and then advanced to 48 cents.

CHICAGO LIVE STOCK

Chicago, Oct. 20.—Cattle, receipts estimated at 2,500. Market weak. Beavers \$4.75@8.75; Texas steers \$4.10@6.10; western steers \$4.25@7.25; stockers and feeders \$3.25@5.80; cows and heifers \$2.00@6.15; calves \$6.50@9.00.

Hogs, receipts estimated at 23,000;

NEW YORK METAL

New York, Oct. 20.—Spot copper 12.15@12.25; lead 4.25@4.30; silver 64½.

NEW YORK MONEY

New York, Oct. 20.—Mexican dollars 45; prime paper 4¼@4½; call money 2½.

MINING CONGRESS.

Chicago, Oct. 20.—The program committee of the annual session of the American Mining congress to be held here next week announces that in addition to President Taft the notable speakers will include Secretary of the Interior Walter L. Fisher, President B. F. Bush of the Missouri Pacific railroad, Dr. J. A. Holmes, director of the bureau of mines, and Governors Carey of Wyoming, Hawley of Idaho, Sloane of Arizona and Spry of Utah.

CATHOLIC WOMEN CONVENT.

Rochester, N. Y. Oct. 20.—Branches of the Ladies' Catholic Benevolent association throughout New York were represented here today at the opening of the annual state convention of the organization. An initiation of 500 candidates will be one of the principal features of the gathering. The sessions will continue over tomorrow, concluding tomorrow night with a banquet at the Hotel Seneca. Among the guests at the banquet will be several of the supreme officers of the association.

PERSONALS

Mrs. Buhler left last night for Indiana on a visit with friends and relatives.

P. E. Jones of Raton arrived last night from the north on a short business trip.

H. G. Pearson arrived this afternoon from his home in Springer on a business trip.

"Buffalo" Jones came in from his buffalo ranch at Onawa this afternoon on a business trip.

W. S. Dougherty, a resident of Mora, was in Las Vegas yesterday and today on business.

Mrs. and Mrs. Ignacio Maestas and daughter of Roy came in from their home in Roy last night.

J. E. Washbourne arrived last night from his home in Wagon Mound on business in the Meadow City.

Oscar Goebel, a prominent merchant of Belen, was in Las Vegas today on business and visiting friends.

Henry Schmidt, a dry farmer from the mesa, who has been in Kansas attending the funeral of his father, returned to Las Vegas last night.

Mrs. Jerry Leahy, who has been the guest of her sister, Mrs. David J. Leahy for the past two weeks, returned this afternoon to her home in Raton.

William H. Comstock, the dry farmer and landman, returned this afternoon from a business trip to Newton, Kansas, and other points in that state.

L. Calhoun, a dry farmer from the Red River country, came in last night from his home and was in Las Vegas today transacting business and buying supplies.

J. P. Van Houten a prominent ranchman of Shoemaker, was in Las Vegas yesterday and today visiting friends and looking into some business transactions.

John Tally, formerly roundhouse foreman in Las Vegas and now a farmer living in the vicinity of Shoemaker, was in the city yesterday and today on business.

Luther Foster, director of the New Mexico College of Agriculture and Mechanic Arts, and experiment station, arrived from Las Cruces this morning on a business trip.

A. M. Horn, the contractor for the new Elks' club house, will leave tonight for Raton where he has some work bearing completion. He will return the first part of next week.

Louis Mosselman a ranger of the forest reserve on the Upper Pecos came in last night. He was accompanied on his trip by Dr. Wolf, who is spending the winter on the reserve.

Rev. O. P. Miles, pastor of the First Baptist church of Las Vegas, returned home yesterday afternoon after a tour through Kansas giving lectures or talks for the International Lyceum bureau of which he is a member.

John Davis and Mr. Baxter, farmers in the district about Wellington, Kansas, have been in Las Vegas several days on land business. The have purchased land from E. E. Johnson and left today for their home well satisfied with their trip to New Mexico and proud of their interest in the new state.

Mr. and Mrs. Tom Ross arrived last night from their home in Echo, Ore., and will be the guests of their daughter, Mrs. Arthur Hild, on an extended visit. Mr. Ross is a former resident of this city and one of the old timers. At present he is running a woolen mill and farming in Oregon, this having been his business in Las Vegas.

HEARST AGAIN A DEMOCRAT.

New York, Oct. 10.—William R. Hearst's announcement that he was back in the regular democratic fold caused much speculation in political circles today regarding the fate of the Independence League. This organization was founded by Mr. Hearst and nominated candidates, supported by him, in the last national and state campaigns. Mr. Hearst declared himself last night at the opening rally of the local fusion campaign.

"I am speaking," he said, "as a good citizen, I hope, and also as a good democrat. Mr. Murphy and his kind drove me out of the democratic party five years ago but the commendable course of the national democracy has brought me back into the fold."

Take Your Common Colds Seriously. Common colds, severe and frequent lay the foundation of chronic diseased conditions of the nose and throat and may develop into bronchitis, pneumonia, and consumption. For all coughs and colds in children and in grown persons, take Foley's Honey and Tar Compound promptly. O. G. Schaefer and Red Cross Drug Co.

A fool and his money are soon parted that others may make both ends meet.

NORMAL PLAYERS PRACTICING HARD

THE FOOTBALL SQUAD IS RAPIDLY GETTING IN SHAPE FOR EARLY SEASON GAMES.

Every afternoon as regularly as the clock strikes 4 the boys of the Normal football squad have been going to the High school grounds and doing the hardest kind of work in preparation for the coming games. In the squad the highest ambition of the coaches are rapidly being realized and the team that goes on the field representing the Normal will do the school credit. The squad that reported for practice, though promising looking, was as green as grass. But, under the careful training of Tipton and Baker, it is rapidly getting wise to the fine points of the game. Tipton and Baker have been in the thick of the fight at all times and have been hammering football into the team.

Lack of a team to buck against is what is worrying the coaches and they ask that those young men interested in football come out to the High School grounds in the evening and try stopping these gridiron warriors. The One Cylinder team will not be ready to do this until Saturday at which time it will hold its first open air practice on the grounds at 3 o'clock. The men are all under careful training and will be in good condition for the coming games. If the rates come in time the first game with Watrous at Onawa will be played a week from tomorrow. Jacobs, the trainer, has been out of the city but is expected back tomorrow in time for practice. In his absence Harry Winger has had his eagle eye out to see that his crew attends to business and he himself has been training on ice cream and chewing gum.

At the last roll call by Captain Conway all were present and though some are over trained they will be in fine condition to tackle the Normal bunch on Saturday afternoon. Until then it is requested that all football players, has-beens or otherwise, report at the field for practice that the Normal may have opponents. The Normal team represents the city of Las Vegas as well as the Normal so it is up to the players of Las Vegas to help it train for the outside games.

FOLEY KIDNEY PILLS
Supply just the ingredients needed to build up, strengthen and restore the natural action of the kidneys and bladder. Specially prepared for backache, headache, nervousness, rheumatism and all kidney, bladder and urinary irregularities. O. G. Schaefer and Red Cross Drug Co.

The state convention at Las Vegas was stirred profoundly, when Elfege Baca arose and resented the plea that the Spanish-American citizens, of whom he is one, needed any special consideration. All they should have, he declared, is justice. They are well able to take care of themselves, they need no guardians, they are not mere infants. The house was rent with cheers as he thus declared himself a man and that New Mexico patriotism knows only one flag, one people, that every loyal citizen is an American, no matter what the blood that flows through his veins, be it from German, or French, or Spanish, or English, or Irish ancestry.

Spent Boyhood in Kansas. Elfege Baca was born in the Gem City, Socorro, on February 27, 1865. When one year old, his parents took him to Topeka, Kansas, and he did

not return to New Mexico until he was 14 years old. When only 18 years old, he was appointed deputy sheriff in Socorro county and a year later, deputy sheriff of Bernalillo county, early displaying those qualities of fearlessness which made him a terror to evil doers. For five years he served in that capacity, when he was appointed deputy United States marshal by Marshal Trinidad Alarid and in those days, the United States marshalship was not quite as peaceful a job as it is today.

A Vote Getter.
In 1893 he was appointed probate clerk of Socorro county and to show that he was a vote getter, he ran for the same office the next year and received 882 majority, or more than his opponent received altogether. In 1897 he was elected mayor of Socorro. In 1900 he was elected superintendent of county schools. On September 16, 1905, he was appointed district attorney for the counties of Socorro and Sierra, comprising the Seventh judicial district. On August 29, 1906, he moved to Albuquerque, where he was no stranger and where on August 13, 1895 he had led to the altar, Miss Francesquita Pohmer, a native of New Mexico with German and Spanish ancestors.

As a Lawyer.
Mr. Baca studied law with the late Judge H. B. Hamilton. In 1885, he was admitted to practice before the supreme court of New Mexico and in 1902 to practice in the state of Texas. He was a member of a law firm at Socorro with Judge A. A. Freeman, who had just retired from the supreme bench of New Mexico.

A Progressive.
Mr. Baca comes of distinguished and illustrious ancestry. He has been successful in business, in law and politics. His very career shows that he is a man of progressive ideas, and it is certain, that he will be heard from in congress; that he will there demonstrate that the people of his blood are as capable, as aggressive and as progressive as the Anglo Saxon or any other race. Elfege Baca in congress will give New Mexico a

An Eloquent Orator.

not return to New Mexico until he was 14 years old. When only 18 years old, he was appointed deputy sheriff in Socorro county and a year later, deputy sheriff of Bernalillo county, early displaying those qualities of fearlessness which made him a terror to evil doers. For five years he served in that capacity, when he was appointed deputy United States marshal by Marshal Trinidad Alarid and in those days, the United States marshalship was not quite as peaceful a job as it is today.

A Vote Getter.
In 1893 he was appointed probate clerk of Socorro county and to show that he was a vote getter, he ran for the same office the next year and received 882 majority, or more than his opponent received altogether. In 1897 he was elected mayor of Socorro. In 1900 he was elected superintendent of county schools. On September 16, 1905, he was appointed district attorney for the counties of Socorro and Sierra, comprising the Seventh judicial district. On August 29, 1906, he moved to Albuquerque, where he was no stranger and where on August 13, 1895 he had led to the altar, Miss Francesquita Pohmer, a native of New Mexico with German and Spanish ancestors.

As a Lawyer.
Mr. Baca studied law with the late Judge H. B. Hamilton. In 1885, he was admitted to practice before the supreme court of New Mexico and in 1902 to practice in the state of Texas. He was a member of a law firm at Socorro with Judge A. A. Freeman, who had just retired from the supreme bench of New Mexico.

A Progressive.
Mr. Baca comes of distinguished and illustrious ancestry. He has been successful in business, in law and politics. His very career shows that he is a man of progressive ideas, and it is certain, that he will be heard from in congress; that he will there demonstrate that the people of his blood are as capable, as aggressive and as progressive as the Anglo Saxon or any other race. Elfege Baca in congress will give New Mexico a

An Eloquent Orator.
The state convention at Las Vegas was stirred profoundly, when Elfege Baca arose and resented the plea that the Spanish-American citizens, of whom he is one, needed any special consideration. All they should have, he declared, is justice. They are well able to take care of themselves, they need no guardians, they are not mere infants. The house was rent with cheers as he thus declared himself a man and that New Mexico patriotism knows only one flag, one people, that every loyal citizen is an American, no matter what the blood that flows through his veins, be it from German, or French, or Spanish, or English, or Irish ancestry.

Spent Boyhood in Kansas. Elfege Baca was born in the Gem City, Socorro, on February 27, 1865. When one year old, his parents took him to Topeka, Kansas, and he did

not return to New Mexico until he was 14 years old. When only 18 years old, he was appointed deputy sheriff in Socorro county and a year later, deputy sheriff of Bernalillo county, early displaying those qualities of fearlessness which made him a terror to evil doers. - 1,000 feet 1x12 lumber, S2S.
- 20 gals. Linseed Oil.
- 10 gals. Paint.

NAMES BY THE
HUNDREDS ON
CARSTHE SANTA FE DEMONSTRATION
TRAIN HAS ENTERTAINED
876,000 VISITORS

Topeka, Kan., Oct. 19.—Two times it was necessary to wash the entire Santa Fe demonstration train on its five weeks' trip through Kansas, Oklahoma, Texas, Colorado and New Mexico. The cars were washed with hose and brush that the chalk marks, pencil marks and carvings might be erased. These marks were the initials of the thousands of visitors to the train while it was touring its way through the west.

J. F. Farrell, publicity agent of the Santa Fe, tells many interesting experiences of the train's trip. Mr. Farrell returned to Topeka to recuperate and prepare for a tour of the south the remainder of October. The train is at Newton and will be taken to Dallas to be placed on exhibition at the Texas state fair. Later it will be shown at San Antonio and Houston to the fair crowds in those cities.

The demonstration train, showing railroad progress in the last 30 years, has made a tremendous hit in its five weeks' tour. By actual count of the persons who have walked through the train, 876,000 people have witnessed the demonstration. This does not include the persons who have stood on the station platforms and have not entered the cars.

Denver claims the honors of furnishing the largest crowd. It was estimated by Denver newspapers and by the count on the train that 50,000 persons saw the exhibition in that city. The smallest crowd was at Abo, N. M. This is a station on the Santa Fe but not a house is in sight. Despite this desolation 76 persons from the surrounding country drove to the station and witnessed the train.

Publicity Agent Farrell believes that one-half of the 876,000 that visited the train were school children. In every town they visited the schools were dismissed that the children might see the great strides taken in the manufacture of railway equipment. The Santa Fe officials took special pains to explain the details to the children. Despite the fact that nearly a million persons walked through the cars, between the bumpers, over the platforms and up and down over the locomotives, not a single accident marred the journey. Not a fall was recorded. The division and district officials all along the way assisted Frank Farrell in handling the crowds and in watching their tactics.

From the records recorded at the offices of the Santa Fe in Topeka the train has received 1,200 columns of newspaper advertising. This does not include the enormous amount of space given to photographs of the train and tables of its details. It is rumored at the general offices of the Santa Fe in Topeka that the train will be sent over the coast lines of the road. Its popularity has been advertised all over the country and in every Santa Fe city demands are made that the train be sent for their view.

The fact that the train was assembled and built in the Topeka shops has given this city a wide advertising.

HONOR EDUCATOR.

Milwaukee, Wis., Oct. 20.—Fifteen hundred public school teachers of Milwaukee have joined in preparations for an elaborate banquet to be given in the Auditorium tomorrow night in honor of Carroll C. Pearse, superintendent of schools in this city. The affair is to be in recognition of the election of Superintendent Pearse as president of the National Educational association.

Don't trifle with a cold is good advice for prudent men and women. It may be vital in case of a child. There is nothing better than Chamberlain's Cough Remedy for coughs and colds in children. It is safe and sure. For sale by all druggists.

Foley Kidney Pills

James C. Dahlman, "Cowboy" Mayor of Omaha, "Throws the Lariat" Mayor Jas. C. Dahlman started his career as a cowboy, and is at present mayor of Omaha, and has the following record: Sheriff of Dawes Co. Neb., three terms; mayor of Chadron, two terms; democratic national committeeman, eight years; mayor of Omaha, six years, and in 1910 candidate for governor of Nebraska. Writing to Foley and Co., Chicago, he says: "I have taken Foley Kidney Pills and they have given me a great deal of relief so I cheerfully recommend them." Yours truly, (Signed) JAMES C. DAHLMAN, O. G. Schaefer and Red Cross Drug Co.

If a man hasn't any sense some woman is sure to think he is sentimental.

Foley's Kidney Pills vs. a Hopeless Case

Hon. Ark. J. E. Freeman says: "I had a severe case of kidney trouble and could not work and my case seemed hopeless. One large bottle of Foley's Kidney Remedy cured me and I have never been bothered since. I always recommend it." O. G. Schaefer and Red Cross Drug Co.

SANTA CLAUS TO FURNISH GOOD FOOD

KILLING REINDEER IS EXPECTED TO SOLVE THE HIGH PRICE OF BEEF

That the reindeer will be an important factor in lowering the high prices of meat on the Pacific coast, and that meat shippers are already beginning to feel the shortage in demand for beef in Alaska, is the statement named by Dr. James A. Holmes, director of the bureau of mines, who has just returned from a two months' trip among the coal fields of the most northern territory of the United States. A great future is open to the Eskimos and other settlers in the fertile valleys of Alaska, is Doctor Holmes' opinion, for the land is unusually fertile, and the reindeer herds are able to withstand the cold winter and subsist on moss and other vegetation where cattle would starve.

When the Controller Bay controversy was at its height, Doctor Holmes left Washington to inspect the coal regions under dispute in order to determine the advisability of working mines in that region. He was later joined by Secretary Fisher of the department of the interior, who spent three days with the party investigating in the coal lands. The result of the investigation has not been made public. Doctor Holmes has declined to talk on local mines until permission is granted from the secretary of the interior.

While touring Alaska he and his party of explorers had several exciting experiences, being chased by a huge brown bear, and weathering a terrific gale on the coast, when the wind blew 80 miles an hour, and threatened to dash the little house in which they were quartered into the sea. Secretary Fisher, with his party, was in the storm, but not the encounter with the bear. After leaving the railroad on one trip, it was necessary to march along a river bed for 70 miles to get to the coal field.

Faced the Wounded Brute
"The meeting we had with a brown bear was not so exciting as some try to make it," said Dr. Holmes. "We were tramping across country above the timbered area when one of our party saw a great brown bear as large as the one at the zoo. He shot at it, but only broke one of its forelegs. Two cubs, which the great bear had been protecting, ran away when they heard the shot, and left the wounded mother growling fiercely."

"I was about 100 yards away at the time, with not a tree in sight to climb to escape out of the reach of the bear, and with no gun to defend myself. When the bear spied me she ran swiftly toward me, limping on three legs. I did not run, for the bear could have made much better speed even on three legs, so I waited to see what was going to happen. When a short distance from the huge bear stood on its hind legs, towering far above me. It looked at me inquisitively for a few seconds, dropped to its feet, and loped away."

"There is really little danger from bears, for they seldom attack a man except when they are defending their cubs or when they are wounded and cornered. This bear evidently did not seem to take much interest in me, for it left me alone."

"Our other exciting experience" was at the coast, when the violent storm, peculiar to that region, kept us in our house wondering when it was going to blow over. The wind attained a great velocity, and was probably blowing 80 miles an hour when we were caught. Secretary Fisher was in our neighborhood, and weathered the storm as well as we did, for no one was hurt. They do not have our blizzards. It is a terrific wind, with a great downpour of rain."

Saw Thousands of Reindeer
"The reindeer were the most interesting things we encountered. Thousands of these animals are now in Alaska and are multiplying rapidly. The Eskimos and others who own them find them indispensable food and useful for transportation of their produce. The meat of the reindeer is being used extensively for food in the cities, and it is said to be as good as the best beef. Unfortunately I did not have an opportunity to eat any, so have to rely on what others tell me of the flavor. Although the market for the reindeer meat has not been extended to Seattle and Portland, the shippers there say the market for beef has decreased considerably in Alaska in the last few years on account of the reindeer meat."

"There is a great future for those who raise reindeer for the market."

for these animals are able to live through the winter on food that they forage from beneath the snow. No matter how deep the snow is the reindeer dig down with their hoofs and antlers to get the lichen moss, their chief food.

"Although the season for crops is short, the climate is so favorable that the produce that is now being raised there attains full growth. In the valleys, protected from the cold winds, the vegetation is so luxuriant that it reminds me of the vegetation in tropical countries. At some places the grass reaches to a man's head when he is on a horse. They are now experimenting to see what produce can be raised in Alaska which will grow to advantage in the short season."

MOST CERTAIN WAY TO END A BAD COLD

Surely Breaks the Cold and Ends Grippe Misery in a Few Hours.
It is a positive fact that a dose of Pape's Cold Compound taken every two hours until three consecutive doses are taken will cure Grippe or break up the most severe cold, either in the head, chest, back, stomach or limbs.

You distinctly feel the cold breaking and all the disagreeable grippe symptoms leaving after the very first dose. It promptly ends the most miserable headache, dullness, head and nose stuffed up, feverishness, sneezing, sore throat, running of the nose, mucous catarrhal discharges, soreness, stiffness and rheumatic twinges.

Pape's Cold Compound is the result of three years' research at a cost of more than fifty thousand dollars and contains no quinine, which we have conclusively demonstrated is not effective in the treatment of colds or grippe.

Take this harmless Compound, as directed, with the knowledge that there is no other medicine made anywhere else in the world, which will cure your cold or end Grippe misery so promptly and without any other assistance or bad after-effects as a 25-cent package of Pape's Cold Compound, which any druggist in the world can supply.

IN THE FOOTBALL WORLD.

New York, Oct. 20.—By far the most pretentious schedule thus far in the football season is due to be carried out on the college gridirons tomorrow. There are more important and more difficult games for the big teams and teams not so big.

On the Eastern menu are such rich dishes as Yale vs. the Army, Pennsylvania vs. Brown, Princeton vs. the navy, Syracuse vs. Lafayette, Carlisle Indians vs. University of Pittsburgh and Cornell vs. Washington and Jefferson. Harvard isn't so seriously involved, having Amherst as an opponent.

In the West the University of Chicago and University of Illinois line up for their annual contest at Chicago, and Minnesota and Nebraska will be seen in action at Minneapolis. Michigan will play Ohio State and Wisconsin will have Ripon College as an opponent. Other games in the middle west that will attract attention will be those of Indiana vs. Northwestern, Missouri vs. Iowa State College, and Washburn College vs. Haskell Indians.

In the South the University of Georgia will have in Sewanee a foe that is highly regarded. Vanderbilt will play the Central University of Kentucky. North Carolina will meet Davidson and South Carolina will play Florida. Other games in the South will include Virginia vs. Virginia Military School, Tennessee vs. Maryville College, West Virginia vs. Westminster College, Tulane vs. Louisiana State Normal, Washington and Lee vs. Lake Forest, Georgetown vs. Richmond College, Arkansas vs. Hendrix College and Texas vs. Baylor University.

NOT VISIBLE IN AMERICA.

Washington, Oct. 20.—American sky gazers are not directly interested in the annular eclipse of the sun which takes place tomorrow, for in this section of the world the phenomena will not be visible. The path of the annulus will begin on the east coast of the Sea of Aral and moving in a southeast direction will pass over the island of Hainan and New Guinea and terminate in the South Pacific ocean. As a partial eclipse it will be visible over nearly all Asia, Australia, and the northern part of New Zealand.

ALABAMA EDUCATORS MEET.

Montgomery, Ala., Oct. 20.—A large number of the leading educators of the state were here today for the opening of a joint annual session of the executive committee and the department of city and county superintendents of the Alabama Educational association. The session will last two days and will be devoted to the discussion of a wide range of subjects relating to educational work.

NEW HEAD OF UNIVERSITY.

Boston, Mass., Oct. 20.—Boston University today installed Dr. Lemuel H. Murlin as president of that institution. The inauguration exercises were held in Trinity church this morning and were witnessed by a large number of the most prominent educators of the country. John L. Bates, former governor of Massachusetts and president of the university corporation, presented the seal and charter of Boston University, and Dr. Murlin made a brief response. This afternoon, in Old South church, addresses of greeting were delivered by representatives of Yale, Harvard, Columbia, Princeton, Dartmouth and other leading colleges and universities of New England and the eastern states.

JUST TRY A TEN CENT BOX OF CASCARETS

Insures you for months against a Sick Headache, Biliousness, Constipation or a Bad Stomach.

Put aside—just once—the Salts, Cathartic Pills, Castor Oils or purgative waters which merely force a passageway through the bowels, but do not thoroughly cleanse, freshen and purify these drainage or alimentary organs, and have no effect whatever upon the liver and stomach.

Keep your inside organs pure and fresh with Cascarets, which thoroughly cleanse the stomach, remove the undigested, sour and fermenting food and foul gases, take the excess bile from the liver and carry out of the system all the decomposed waste matter and poisons in the intestines and bowels.

A Cascaret tonight will make you feel great by morning. They work while you sleep—never gripe, sicken and cost only 10 cents a box from your druggist. Millions of men and women take a Cascaret now and then and never have Headache, Biliousness, coated tongue, Indigestion, Sour Stomach or Constipated bowels. Cascarets belong in every household. Children love to take them.

President William H. Taft, who is on his homeward journey from his "Swing Around the Circle"

Former Governor George Curry Republican Candidate for Congress From New Mexico

AMERICAN PURITY CONGRESS

Columbus, O., Oct. 20.—The sixth International American Purity congress, which is to meet in this city Monday for a session of four days, promises to be one of the most representative gatherings of moral reformers, church workers, humanitarians and philanthropists that has

ever assembled in this country. The progress of the international campaign to suppress the white slave traffic will form the leading topic of discussion. More than 50 persons will appear on the program, representing leaders in moral and social movements throughout the United States and Canada.

Cottolene

A Rational National Shortening

The woods are full of imitations of Cottolene—because Cottolene has made a pronounced success as "the perfect shortening." These imitations are of inferior quality, are packed in tins with ordinary removable covers, and depend largely upon substitution methods for their sale.

When you ask for Cottolene be sure you get Cottolene. There's only one Cottolene—packed in patent air-tight tin pails, with our trademark on the face of the pail.

It pays to pay a little more for Cottolene because of its superior quality and the fact that, being richer, it will go one-third farther than lard or any of its imitations. Its use means economy in the end.

NEW MINING COMPANY

Santa Fe, Oct. 20.—A million dol-
lar mining company was incorporat-
ed yesterday when the articles were
filed in the territorial secretary's of-
fice by the Minnesota-Santa Fe Min-
ing company with offices at 217
Johnson street, Santa Fe, and Wil-
liam W. Ingersoll, the statutory
agent. The new company is for the
purpose of doing a general mining
business, including the reduction, con-
centration and smelting of ores and
minerals. It is capitalized at \$1,000,-
000, consisting of 1,000,000 shares at
\$1 each. The company begins with a
paid up capital \$2,000 the stock-
holders being H. M. Parnam of Min-
neapolis, 1,990 shares; A. B. Cray-
craft, of Santa Fe, 5 shares, and J.
A. Carruth, of Santa Fe, 5 shares.

CANAL OPENS IN 1913

home cooking. Meals 25c. Try them.This office has received a booklet
from the territorial engineer written
by him on the irrigation resources of
New Mexico. It is undoubtedly the
most complete article dealing with
the irrigation resources of the new
state ever written and is a copy of
Engineer Miller's address before the
New Mexico Chautauqua association,
August 5, 1911. In it he covers every-
thing from the early irrigation in the
state as used by the Pueblo Indians
up to the present and a prophecy
into the future. The pamphlet is il-
lustrated by maps showing the drain-
age of the land and the rainfall in
the different parts of the state. Sev-
eral half tone illustrations add to the
attractiveness of the booklet. After
dealing with the historical facts, Mr.
Miller takes up irrigation by pumping,
by which he estimates that 100,000
acres can be watered. By effective
drainage systems he says about 100,-
000 acres will be added to the irri-
gated land. Aside from the large
projects there are numerous small
systems, private projects, which as
a rule, get their water by utilizing ar-
royos and other small streams. Mr.
Miller has made a careful study of
the resources of New Mexico and
he says that there are over 4,000,000
acres in the new state that can be
placed under irrigation. The manu-
facturers are beginning to make use
of the water as power and the rec-
ords show about 225,000 horsepower
being utilized at the present. To
this the power that will be developed
by the big Elephant Butte project
which is the largest in the world at
the present time, with the others will
add up to 250,000. The engineers,
however, have figured that the re-
sources if used to advantage will
double this amount.

PEONY ROOTS

All authorities agree that October is the month to plant Peonies.
We have five of the very best named varieties in red, pink and
white.They have been grown one year in this climate and are sold
without being divided, making them much superior to those usually
sold.507 Sixth Street **PERRY UNION & SON** Phone Main 462GEE! BUT IT WAS
PLENTY COLD TODAYSCATTERING FLURRIES OF SNOW
FELL AND EVERYBODY WAS
SHIVERINGThe first flurry of snow fell in Las
Vegas today and, if one believes in
the old time legend, the Meadow City
is due to have 20 snows before spring
comes around. That snow fell in
Las Vegas is not to be wondered at
for north of here ground is covered
with a coating of white. As far north
as Shoemaker and Dillon a heavy fall
is reported and the mountains on
the west have been whitened by
snow. The trains coming in from
the north today were white with
snow clinging to the sides and tops
of the cars. It is said Raton got six
inches of snow and from the feeling
in the air here for the past 24 hours
this seems extremely probable.A tourist train on crossing the Ra-
ton mountains yesterday, ran into a
blizzard and the snow clouds are rap-
idly traveling southward. Last night
the thermometer dropped below the
freezing point and at 4 o'clock last
evening ice formed in puddles of wa-
ter in the chicken yards and corrals
around the city. This morning the
telephones at all the coal offices rang
almost continually as people wanted
their winter supply in a hurry. This
cold spell may be only a passing bliz-
zard but it has served to warn peo-
ple to prepare for winter, something
the mild fall weather failed to ac-
complish. The thermometer failed
to get above 40 degrees all day to-
day.

PENINSULA IN A PANIC.

Mexico City, Oct. 20.—Though the
so-called Reyes revolt in Tabasco and
southern Yucatan is not regarded
generally as important, the federal
government and population of the
peninsula are in panicky condition.
Troops are held at Merida, the capi-
tal of Yucatan, with a train ready to
transport them to disaffected points.
There is great excitement over a ru-
mor that a mysterious ship landed
arms and ammunition on the Yuca-
ton coast.From Mazatlan comes the news
that General Banderas, the erstwhile
self-styled governor of that town, is
with others, collecting troops and
guns in Culiacan Rosales to resist the
federals, who are going there to pacify
the state of Sinaloa.The election returns thus far give
Pino Suarez 8,823 votes; President
de la Barra 4,956, and Dr. Vasquez
Gomez, 2,606 out of a total of 16,-
004 cast for vice president. Two
states and two territories have not
yet reported.Don't be a camel, even if that ani-
mal can go for two weeks without
taking a drink.It's what you are doing now that
counts; not what you are going to do.
