FATAL FLAMES IN DENVER

Over a Half-Million Men Will Demand Shorter Working Days, May 1st.

THE STATEHOOD BILLS

WASHINGTON, D. C., April 23.—Congressmen Hall, of Missouri, and Congressman Money, of Mississippi, had a personal encounter in one of the committee rooms, to-day. The lie was passed and blows followed. Hall hurled a heavy glass inkwell at Money, cutting his scalp severely. By-standers interfered. Hall says the provocation was a personal matter, but he declines to discuss it and declares that Money dare not mention it.

Troops in Readiness

LONDON, April 23.—A detachment of troops at Dover and Brighton have been ordered to hold themselves in readiness for shipment to South Africa at any moment.

Date of Adjournment

WASHINGTON, D. C., April 23.—Republican senators canvassed on the proposition for a final adjournment to-day and they will endeavor to clear up business for adjournment, on May 18th. The appropriation bills will, of course, be given the preference.

The Statehood Bills

WASHINGTON, D. C., April 23.—Delegates Catron and Murphy, of New Mexico and Arizona, have canvassed the house on their statehood bills, and have concluded that these measures are more certain of passage at the next session of congress than now. The pending bills will probably be hung up for the present.

Athletic Sports

LOS ANGELES, Cal., April 23.—The third day of southern California's floral festival is being devoted to athletic performances, Indian races and games. This evening there will be an illuminated street pageant, in which the floats and tableaux will typify "The lands of the sun."

Good Allowances

SYRACUSE, N. Y., April 23.—In pursuance of the surrogate's order, a second division of the famous Crouse estate was made, to-day. To the \$3,000,000 already distributed, \$540,000 was added by the division among the heirs, to-day. Of the latter sum, Dorothea Edgarita Crouse, the reputed daughter of the late millionaire, receives \$270,000, while each of the cousins receives \$10,000.

Fatal Fire in Denver

DENVER, Colo., April 23.—Fire, early this morning, destroyed the Brightside home for boys. Ishall Cogle, aged eight years, was horribly and fatally burned; Culver Williams, aged sixteen, badly burned; Superintendent Roth Field, Capt. Field, his father, and Matron Parker were also injured. There were forty boys in the building at the time, and a panic followed their early and sudden awakening. The property loss is about \$3,000.

Pool Championship

PITTSBURG, Pa., April 23.—A number of prominent billiard players and pool experts are here from New York, Philadelphia and other cities to witness the tournament which will be inaugurated in this city, to-night, for the pool championship of the world. The contestants will be W. H. Clearwater, of this city, who holds the world's championship, and Alfred de Oro, of Cuba. De Oro formerly held the championship, but lost the title to Clearwater at the Syracuse tournament, and is anxious to regain the laurels.

McKinley Delegation

STAMTON, Va., April 23.—A solid McKinley delegation to St. Louis will be chosen by the state convention, which was called to order to-day by State Chairman William Lamb. The machine in the state made a bitter fight against the Ohio candidate, but in the outcome his friends captured sixteen of the twenty-four district delegates. Colonel Lamb and his following is making a strong fight this morning to prevent instructions, and in the face of overwhelming odds will carry it to the floor of the convention.

King Albert's Natal Day

LONDON, England, April 23.—A dispatch from Dresden says: The sixtieth birthday of King Albert is being celebrated on a monster scale throughout Saxony, to-day. In this city the anniversary is being signified by a general holiday, rendered all the more notable by the presence of Emperor William and his suite, who came out of their way on the return from Italy to participate in the festivities in honor of the venerable Sax in chief. To-night there will be a state banquet at the palace, followed by a state ball pyrotechnical display.

Congressmen Re-Nominated

ROCK ISLAND, Ill., April 23.—The republican congressional convention of the tenth Illinois district, to-day re-nominated Hon. George W. Prince, of Galesburg, for a second term.

America Not Represented

LONDON, England, April 23.—A Barcelona dispatch says that American artists have little or no representation in the exposition of fine arts and industrial arts which opened in that city to-day. The exposition is one of the largest enterprises of the kind ever held in Spain and in view of the fact that the affair is international with all of the countries of Europe represented, the failure of America to send an exhibit is receiving much comment. The exposition is divided into sections devoted to the exhibition of painting, sculpture, architecture, pottery, lace work and embroidery.

Brilliant Drawing-Room

LONDON, England, April 23.—The drawing-room held by the Princess of Wales to-day in behalf of the queen was the most brilliant function of the season. Thousands of spectators congregated about the streets adjacent to Buckingham palace, and the services of the mounted troops of the First Life Guards were called into requisition to keep the roadway clear for the hundreds of equipages. Five thousand "commands" had been vized by the Lord Chamberlain, and there were few absentees. The princess was assisted in receiving by her daughters, Victoria and Maund.

A deputy sheriff failed to locate the source and consequently made no arrests. The prisoner was in much discomfort, to say the least.

THE MONUMENT TO GRANT

Many Threats Made Against Scott Jackson, Murderer of Pearl Bryan.

ISRAEL KING RELEASED

HARRISBURG, Penn., April 23.—The last session, this morning, of the Grant monument association to-day completed its preparations for the unveiling and transfer to the city of the Grant monument in front of the Union League club-house, in Bedford avenue. The ceremonies will take place, day after to-morrow, and will be made more than usually elaborate by the participation of a large number of military, patriotic and civic societies. The presentation will be made by President Woodford, of the Union League club, and General Horace Porter will deliver the oration of the day. Mrs. Grant and her daughter, Mrs. Sartoris, are expected to be present and the statue will be unveiled by General Grant's grandson, Ulysses S. Grant, the son of Col. Fred Grant.

A Cook Book Free. "Table and Kitchen" is the title of a new cook book published by the Price Baking Powder company, Chicago. Just at this time it will be sent free if you write a postal mentioning the Optic. This book has been tried by ourselves and is one of the very best of its kind. Besides containing over 400 receipts for all kinds of pastry and home cooking, there are many hints for the table and kitchen, showing how to set a table, how to enter the dining room, etc.; a hundred and one bits in every branch of the culinary art. Cookery of the very finest and richest, as well as of the most economical and home like, is provided for. Remember "Table and Kitchen" will be sent, postage prepaid, to any lady sending her address (name, town and state) plainly given. A copy in German or Scandinavian will be sent if desired. Postal card is as good as letter. Address Price Baking Powder Co., Chicago, Ill.

There is a warm sectional contest for the eight delegates-at-large, Senator J. Donald Cameron will, without question, be selected to head the delegation, although a bitter fight will be made upon him. Governor H. D. Hastings, and who is to present Senator Quay's name to the St. Louis convention, will be second on the list. General Hastings, it will be remembered, nominated Senator Sherman in the convention of 1888. Senator Penrose, of Philadelphia, will be third. For the other five places nearly every county in the state has its candidate. The convention will also make two nominations for congressmen-at-large. The venerable Galusha A. Grow, at one time speaker of the national house of representatives, and who is approaching his seventy-third birthday, will probably be Hon. Samuel A. Davenport, of Erie.

The platform will include the usual rising Pennsylvania protective tariff plank and also a hard money paragraph almost identical with that adopted by the republican convention of New York.

so it is with an evil report started on its travels by a whisper or a nod. You do not know how many reputations it may destroy; how many families it may divide; how many lives render unhappy. Cultivate the same kind of disgust for the scandal monger that you have for the bog wallowing in the gutter.

Those who wallow in the slime and filth of small talk are none better than the genuine article. Slum the man or woman whose nose "is always bent to catch the scent" of some dirty story about other people, those human or inhuman crows and buzzards who feed on the carrion of gossip. Mark this: It is generally safe to silently suspect the person who is always suspicious of others. There is a "screw loose" somewhere in such a nature. Like the cuttle-fish which hides itself in a cloud of its own creation these human scavengers will seek to divert attention from their failings by continually harping on the shortcomings of others.

The female whisperers generally belong to a class who have no families of their own and so occupy their time in regulating the domestic relations of others. They call themselves "friends of the family" and on their weekly visits they sow disunion and discord and set the whole neighborhood by the ears.

A GOOD MONOPOLY. Those people of New Mexico who are disposed to find fault because many of the great railway corporations are "monopolies," do not stop to consider the benefits that the consolidation of railway interests bring. It cannot be denied that railway monopolies are the cause of very objectionable features, but the meritorious ones should not be forgotten. It is not many years ago that a traveler making a journey of a few hundred miles had to "change cars" from one to a dozen times. The little roads had separate depots in every town and city, and "change cars" meant an omnibus or other conveyance, and often no conveyance at all, to reach the distant depot of the connecting road. Trains were run with no reference to the convenience or interest of through passengers, and time-tables were arranged to suit local traffic, regardless of the leaving or arriving time at the termini, to say nothing about the stage connections. The traveler over these one-horse roads invariably found when he arrived at the terminus of one road, he would either have to lie over from night until morn, or morn until night, before the next train on the other road departed. Travel was one round of annoyance, and to study out all the "fine points" in a trip of a thousand miles required a mathematical head. Since these numerous small roads have been consolidated into large corporations, all these annoyances have ceased. A person can step aboard a train at Las Vegas and go into New York by changing cars only once—at Kansas City, St. Louis or Chicago, and the transfer requires only a few steps. The traveler simply enters a palace coach and whirrs along thousands of miles before he needs make a change. A lady or little child can now travel with less difficulty from Las Vegas to the Atlantic or to the Pacific than an experienced traveler formerly traveled a thousand miles. The public would rather accept the "conditions" of the monopolies than to return to the annoyances of traveling as it was twenty years ago. Then if we had no railroad "monopolies" nearly half of us would not be in New Mexico today, and as we would rather die here than live in paradise, we have much to be thankful for.

Hood's is the Best. Medicine all the year around, because it purifies, vitalizes and enriches the blood, and therefore gives strength to resist bad effects from all blood diseases, Malaria, Pneumonia, Colds, Catarrh, Rheumatism, etc. Serious illness has often been prevented when Hood's Sarsaparilla has been taken in time. Hood's Pills are the best after-dinner pills assist digestion, prevent constipation, etc.

A fourteen-year-old girl, adopted into the family of Capt. Ross, Grant county, was accidentally and fatally poisoned by eating "Rough on Rats," some of which had been spread on bread to exterminate mice.

None But Ayer's at the World's Fair. Ayer's Sarsaparilla enjoys the extraordinary distinction of having been the only blood purifier allowed an exhibit at the World's Fair, Chicago. Manufacturers of other Sarsaparillas sought by every means to obtain a showing of their goods, but they were all turned away under the application of the rule forbidding the entry of patent medicines and nostrums. The decision of the World's Fair authorities in favor of Ayer's Sarsaparilla is in effect as follows: Ayer's Sarsaparilla is not a patent medicine. It does not belong to the list of nostrums. It is here on its merits.

Stockholders' Meeting. A meeting of the stockholders of the Las Vegas Masonic building association will be held at the Masonic Temple, in East Las Vegas, N. M., April 27th, 1896, at 8 o'clock p. m., for the purpose of electing a board of directors to serve for the ensuing year and for the transaction of such other business as may legally come before such meeting. CHAS. LEECH, Secretary. A. D. HIGGINS, President. EAST LAS VEGAS, N. M., April 17th, 1896.

The camel is a beast of great strength and endurance. Nothing hurts it until the proverbial "last straw" is added to its burden. The human digestive system is very much like a camel. It is really astonishing how much abuse it will stand. Sometimes, however, something worse than usual will be eaten and will go through the stomach into the bowels, and there it will stick—that's constipation. Nine-tenths of all human sickness is due to constipation. Some of the simplest symptoms are coated tongue and foul breath, dizziness, heartburn, flatulence, and nervous distress after eating headaches and lassitude. A little thing will cause constipation, and a little thing will relieve it. Dr. Pierce's Pleasant Pellets is a certain cure for constipation. They are tiny, sugar-coated granules, mild and natural in action, and cause no pain or inconvenience about them. Sold by druggists.

SOME TRUTHS ABOUT TEXAS. "The Optic's" El Paso Correspondent is On Hand Again with a Timely and Newsy Letter.

To the Editor of The Optic. El Paso, Texas, April 21st, 1896—This is San Jacinto day. Hence the Lone Star state flag, once solitary and alone, but for half a century safe in the bosom of the union, floats over the top of the court house today.

Texas seems to have more legal holidays than any state we ever lived in; and we have lived in a number of them. But then, this state enjoys a number of distinctions. One, that it was an independent commonwealth, and experimented for ten years with autonomy, to be at last glad enough to be received into the open arms of Uncle Sam. Texas tugged at the coat-tails of the aforesaid Uncle Sam until the aforesaid kind, old fellow took pity on the ten-year-old stripling and adopted him into his family. But, alas, fifteen years later, the young scamp forgot all about the old gentleman's kindness, and kicked, with a dozen of the older boys, too, to be let out of the family relation, and, in the language of John G. Saxe, who drew the moral from cards, "to go it alone."

But to this the answer was, if you don't stay, "you'll get a lickin'," and so it had to be, before all this was long ago.

At an entertainment given, last night, by the public school, to raise money for the purchase of books for the high school library, the history of Texas passed in review. This auditor learned this lesson: Almost all of its leaders, early settlers, patriots, statesmen and soldiers, were from the southern states. Hence its thoughts, theories and tests of government represented the cavalier and not the puritan, Virginia rather than Massachusetts. What wonder then, that when our southern brethren attempted the experiment to divide the union that Texas should go with them. But let it be said to their honor, that whether the occasion be civic or religious, patriotic, or political, all classes, ages and conditions abound in a hearty and spontaneous expression of love and loyalty, adherence and affection for the union as it is.

At a recent large and enthusiastic gathering at San Antonio, where thousands from all over Texas were gathered together on the occasion of the sixth annual Epworth League conference, the speakers of this, as well as other prominent southern states, expressed sentiments of loyalty as they were proper in their addresses, discussing the great moral issues of the day, such as the sanctity of the Sabbath, the Epworth League and the infernal liquor traffic, the great missionary movement and other important questions, that clearly showed an unbiased observer, whatever may have been the sentiments of this people in the past, their present love of country cannot be questioned.

There is another thing we observed. The obtusely continued opinion regarding the character and quality of the Texas people, making no allowance for changes, is unwarranted and unjust. No people anywhere show according to the same number more apparent intelligence, or are better clad, better behaved or more appreciative of intellectual feasts and flow of soul than this people! The writer was ready to take note of any idiosyncrasy or peculiarity in this particular, but none presented itself. We did not go to scoff, and we had no occasion to. We found them alike any similar number of people that might gather among our better class of rural and village and town population, in anywhere where float the stars and stripes.

San Antonio is the political mecca and contains the shrine of hero-worshippers in the world-renowned Alamo. Its history can be gotten from the text books, but the localisms have to be gathered on the spot. One is to this effect: When Col. Davy Crockett drew a line in the center of the fort which he stampholed, whoever was to stay with me, fight, bleed and die, step on my side of the line of the 170 or more; all stepped over but one. That one escaped to Nacogdoches county eventually, but as he was making his way thro' the double wall to the north and then to the west, he finally reaching in the end east Texas, they tell it, he should have said, that while making his escape his heart was so bound, he was afraid the Mexicans on the other side of the wall could hear it beat. There were three women in the south room (if we were the compared directions right). The only survivor of the Alamo is one of these three, a Mexican woman, a hundred and eleven years old, living at this time in San Antonio.

A beautiful and perhaps the most populous city in Texas is San Antonio. Flowers, shrubs, trees, everywhere. Warm in winter, hot in summer, but clad in verdure fair, the larger part of the year.

It is this year the convention city. First the league conference, April 14th to 16th. This week the battle of flowers and the Knights Templars' convalesce. In June, 6th to 8th, the state railroad convention. For all these the railroads have made a five dollar round-trip rate to remote points in the state, which meant for El Paso delegates less than two-fifths of a cent per mile, for it is 635 miles from here to San Antonio. The rail-

roads do nothing, but gain a great deal. So does the public. A large military post, several railroads, some small manufacturing interests, a great many health seekers during the winter months and a fair amount of business produced by adjacent agricultural and stock districts, make the city a bustling center of commerce and consequent activity.

There is nothing to be seen between El Paso and there except the cañon, mesquite and torrially bushes and trees, with here and there a little town and a big court house. Del Rio is the best town between the two cities. At Langtry, where Fitzsimmons and Maher had their minute and minnowy contest, the following sign is in sight from the car window: "Ice cold beer and law west of the Pecos." As we needed neither, we went on and ceased before the patience of the reader falls the ONSERVER.

Suffrage Convention. A Territorial mass meeting is called by the National American woman suffrage association, to be held in Albuquerque, April 28th and 29th, for the purpose of organizing a New Mexico suffrage association.

The question of woman suffrage is aggressively before all the people of the great west. The glorious example of Wyoming, where women have voted upon every question that men have for thirty years, has answered every objection of the opponent. She has demonstrated that none of the fancied ills that theorists declared must follow the enfranchisement of women, have proved true in the actual experiment. Wyoming is today an unassailable argument for the advantages of a government that knows no sex. The progressive spirit of New Mexico will not permit her to lag behind her neighbors in this line of march. The time to act is now.

We earnestly request all the friends of the cause to be present at this mass meeting and to participate in its deliberations. Entertainment for delegates will be provided in the hospitable homes of Albuquerque. Ladies wishing entertainment will please address Mrs. Cora Armstrong, 636 South Broadway, Albuquerque, N. M. An interesting program will be provided. Come! Come! Let this be an earnest and enthusiastic gathering which shall make an energetic protest against existing conditions—a fit prophecy of a new time coming, when there shall be a higher and truer civilization.

UNWOUND MISERY FROM RHEUMATISM

O. E. King, Water Valley, Minn., cured by Ayer's Sarsaparilla

"For five years, I suffered untold misery from rheumatism. I tried every known remedy, consulted the best physicians, visited Hot Springs, Ark., three times, spending \$1000 there, besides doctors' bills; but could obtain only temporary relief. My flesh was wasted away so that I weighed only ninety-three pounds; my left arm and leg were drawn out of shape, the muscles being twisted up in knots. I was unable to dress myself, except with assistance, and could only hobble about by using a cane. I had no appetite, and was assured, by the doctors, that I could not live. The pains, at times, were so awful, that I could procure relief only by means of hypodermic injections of morphia. I had my limbs bandaged in clay, in sulphur, in poultices; but these gave only temporary relief. After trying everything, and suffering the most awful tortures, I began to take Ayer's Sarsaparilla. Inside of two months, I was able to walk without a cane. In three months, my limbs began to strengthen, and in the course of a year, I was cured. My weight has increased to 165 pounds, and I am now able to do my full day's work as a railroad blacksmith."

Las Vegas, the Chief City of New Mexico--Some of Her Resources, Attractions and Advantages.

Las Vegas, meaning "The Meadows," is the county seat of San Miguel county, lies on both sides of the Gallinas river, and with its suburbs, has about 10,000 inhabitants.

It has water works, street cars, and incandescent electric light plant, telephone exchanges, territorial agricultural experiment station, headquarters of the Atchison railway system, New Mexico division, together with railroad machine shops and tie-preserving works, stock yards, and the largest sheep shearing and dipping plant in the United States.

West of the river, the old town has the quaint and picturesque Mexican appearance--adobe houses, narrow, crooked streets, native people and customs, handicrafts and occupations; but the plaza and all the new town, east of the river, constitute a distinctive American city. The streets are wide and well graded, wide sidewalks abound, shaded with growing trees. Three parks, filled with grass and trees, add to the beauty and healthfulness of the place. Handsome and well-fitted stores, beautiful residences, and innumerable lawns, set in grass and adorned with shrubbery and flowers, combine to proclaim a cultured community, possessed of all modern comforts and conveniences.

A city hall, three temples, opera house, court-house, Masonic temple, opera house, Territorial Normal school and Territorial insane asylum are public buildings, constructed of red and white cut sandstone, unsurpassed in beauty by similar edifices in any town of equal size, in the States.

An Academy, Seminary, Jesuit college, convent school, Presbyterian Mission school, Methodist manual training school, Christian Brothers' institute, City kindergarten, a commercial school and a music school, besides several private teachers, are among the educational advantages and facilities.

Las Vegas is the natural sanatorium of the United States, combining more natural advantages than any other place in America. Her thermal waters are the equal of the Hot Springs of Arkansas, while her climate is infinitely superior. There is no malaria, no excessive heat or cold, no gnats, rats or mosquitoes. The air is pure and highly elastic, and is credited a certain cure for consumption, if the disease be taken in time. The hot springs are of the sulphur, iron, and magnesium mineral water class, and are situated in a beautiful park, a few miles from town, where the Hot Springs, forty in number, come boiling to the surface.

The latter are of the same class as that of central Tennessee, while the altitude is nearly 8,000 feet. This combination gives a peculiar, but most happy, result. In the winter, during a day, the thermometer seldom falls, in the shade, below forty degrees, while it often runs, in the sunshine, to 80 or 90 degrees. REPORT OF THE U. S. GRAND JURY.
To the Honorable Thomas Smith, Chief Justice of said Court:
We, as grand jurors at this term of court, duly empanelled and charged to inquire into offenses arising under the constitution and laws of the United States, present this as our final report.

The jury has been in session sixteen days, have considered twenty-two bills, and have returned sixteen true bills.
We have considered to pursue our inquiries without fear or favor, and desire to submit to your honor the impartiality of our proceedings, in our endeavor to serve the law. The jury finished all the matters submitted for investigation, several days ago, and have been delayed to this day because of the absence of material witnesses in a matter undecided.

Your jury have pursued their labors, not with the view of returning bills of great number, but of fair presentation.
We desire to express our appreciation of the efforts of the officers of the court and to your honor for your assistance in facilitating the prosecution of our business; and such business being now consummated, we ask that we be finally discharged.

TRACK AND TRAIN.

Mrs. C. C. Wray, wife of the chief dispatcher at this point, is visiting friends at Raton.
Three firemen and an engineer, lately arrived from Topeka, visited the hot springs, yesterday.
R. E. Montgomery, traveling agent for the M. K. & T., arrived in the city from the north, last evening.

Several engineers and firemen from Argentine, Kansas, are in the city and will run between here and Raton.
The shopman of the Atchison will take Thursdays and Sundays off, instead of Saturdays and Sundays as heretofore.

W. A. Wright, slight operator at the Las Vegas depot, has gone up to Pueblo, having been relieved at the key here by Operator Owens, of Trinidad.
Frank Trumbull, receiver of the U. F. Denver & Gulf railway, has filed with the district clerk in Las Vegas his report of receipts and disbursements for the month of March, showing a disbursement of \$444,685.74, leaving a balance on hand, April 1st, \$557,765.50.

T. J. Pargen, section foreman over there, left Clayton, for Trinidad, Colorado, to-day.

where he goes to take charge of a construction train, operating between Trinidad and Toluca. Mr. Pargen is a cousin of F. T. O'Dowd, roadmaster of the U. F. D. & G. railroad.
No. 3, or any other train, will not exceed a speed of two hours and fifty minutes from Raton to Las Vegas, a distance of 110 miles; one hour and fifty-five minutes from Las Vegas to Glorieta; one hour and fifty minutes from Lamy to Albuquerque. This running time includes ordinary stops and for water and coal. Passenger trains will not run at a higher rate of speed than forty-five minutes from Glorieta to Raton.
Brakeman L. A. Carter, of the Emporia division, was instantly killed, the other day. He was coming west on an extra, and when near Storry siding the extra was flagged by the work train. When the engineer of the extra applied the air to make the stop, the coupling pin between the engine and first car broke. This also broke the air hose, which caused the air to set on the train suddenly, and Mr. Carter, who was near the end of the first car, was thrown to the ground, two cars passing over him. He was forty-four years old and married.
GUARANTEE BONDS.
Auditor J. F. H. McKibbin, of the Atchison, has issued circulars 1 and 2 in reference to the guarantee bonds for subordinate employes, and the assignment of districts to be covered by the six traveling auditors. These are the first circulars issued by the auditing department in Topeka since the re-organization of the road.

Circular No. 1, which deals with the rules in regard to the bonding of employes, is in general respects exactly similar to the old circular issued on this matter, with the exception that the information conveyed is much more explicit.
In circular No. 2 several changes are made in the territory of the traveling auditors. The territory of A. L. Conrad, of Albuquerque, in charge of district 2, was found to be too large, and a portion of the work has been transferred to L. J. McQuade, of Hutchinson, who has charge of district 4. The other changes are of minor importance.
A copy of each circular is to be forwarded to all agents over the entire system.
AN ACCIDENT FORTUNATELY AVERTED.
What came near being one of the most disastrous wrecks in the history of the M. K. & T. was averted a few days ago by an accident. The train were the Missouri Pacific east-bound express and the Missouri Pacific fast mail, which have been running over the Wabash and M. K. & T. between St. Louis and Sedalia since the wreck of the bridge at the Gasconade river.
The pilot on the St. Louis bound train received orders to meet the fast mail at Estill, the first station beyond Franklin Junction and he read "Estill" for "Estill" Elliott is this side of Moberly.

The operator at Estill, who entered his office about the time the train went whirling over the town, casually opened his key and "spoke" to Fayette: "No. 8 has just left here." The dispatcher at Moberly hearing the message, was fortunate enough to stop the fast mail, which left Moberly a few minutes late, at Fayette, and averted what might have been a fearful accident.

An invalid soldier of Las Vegas, going to the soldiers' home at Santa Monica, Cal., wishes an attendant on the train. Parties at a distance, going through, will be paid for their services. Address City Physician, or City Marshal, East Las Vegas, New Mexico. 142-61
