FRIDAY EVENING, AUGUST 20, 1897

ARE THEY HOUSEKREPERS? A ladies' literary society the other day discussed the question whether the popular belief relative to the domestic infelicity of literary women is well founded or, in simple English, whether they make good housekeepers. The ladies disposed of this question in short order, by promptly declaring that there was no reason why a good writer should not make a good cook, and with so much unanimity that the only wonder is that they ever arranged such a de-

The ladies, however, made the mistake of accusing the men of jealousy in claiming that literary women were not felicitously domestic. The charge is both unfounded and unfair. When the men make this accusation they do so because they have seen the unhappi. ness of their unfortunate brethren who happen to be married to literary women. Cheerless homes, slatternly wives or second-rate boarding houses are the rule, rather than the exception, for

these miserable beings. There is no reason why a good writer should not be a good housekeeper, if she chooses to be. The trouble is, most literary women prefer to turn out bad novels and poems for fourth-rate magazines and periodicals rather than to oversee the baking in their kitchen. When they are not engaged in this important work they are occupied in attending receptions, frequented by alleged local lions, and viewed by President McKinley on his fooling themselves into the belief that it is culture. The elder Dumas did Lake Champlain. not think it beneath his dignity to superintend his kitchen himself, but most literary women in America would regard this as degrading. THE DISTRIBUTING POINT,

Las Vegas is the distributing point fo nearly all New Mexico. By the Atchison system, she has connection with Kansas or the east, Colorado on the north, Arigona the east, Colorado on the north, Arizona and California on the west, and Texas and Old Mexico on the south. Besides these, she has more stage lines, connecting her with tributary territory, than has any other town in New Mexico. This territory includes the entire section east and south of the mountains, and comprises the countles of C Ifax. Mora, Taos, San Miguel, Santa Fe. Secorro, Doña Ans, Grant, Chaves, Lincoln and Eddy, with parts of Valencia and Bernalillo—a country larger than all New England. This takes in the famous Valley of the Rio Grande and the less famous, but not less excellent. Valley of the Pecos—the finest fruit sections of the west.

THE ALTRURIAN SOCIETY.

It Will Be Organized On a New and Much Broader Basts.

The following circular has lately been les sed, cver the signs use of Prof T. D. A. Cockerell, secretary and trassurer pro tem, Mesilia, New Mex-

The Altrurian society, conducted last year by four members—Alice Casad (now Mrs. Ed. Buri), T. D. A. Cockereil, Sue Mead and C. W. Ward, is proposed to be organized on a new and much broader basis. The following proposals have the support of the four original members: MEMBERSHIP.

1 -There shall be two kinds of members, known as Territorial and

2 -All those who endorse the principles of the society, and are willing to work for its objects, are eligible for membership.

MEETINGS.

3 -The Territorial members shall hold one regular meeting annually, at the time and place of the New Mexico ducational association.

4.-Local members shallhold meetings at such times as may be desirable or convenient.

SUBSCRIPTIONS.

5 -Territorial members shall sut scribe seventy-five cents a year, in return for which they will receive the Rocky Mountain Educator and the New Mexico Educator, combined. 6 -Local members shall subscribe twenty-five cents a year, with the option of paying fifty cents more and receiving the papers mentioned above. OFFICERS.

7 .- Officers shall be elected at the annual meetings. It is recommended that the local members, in each district, organize and elect local officers. PLATFORM.

8 .- At the annual meeting of the Territorial members there shall be adopted a definite platform, which the me abers will pledge themselves to

9.—The planks of this platform shall be suc 1 as may be endorsed by every honest and progressive individual; is believed that hy advocating meas-ues, concerning which there can be little or no legitimate difference of opinion, we may, for the present, obtain the best results.

10,-The local members are recom mented similarly to adopt a local platform, applicable to local conditions. OBJECTS OF THE SOCIETY.

The objects of the society are indicated by its name. It is intended to make for the advancement of New Mexico and the spread of Altrurian ideas, by bringing to a focus the opinions and work of those scattered individuals who sympathize with its pur poses. The Territory contains a large number of such persons, whose efforts Is needed by poor, tired mothers, over have bitherto been without adequate worked and burden result, owing to their isolation. It is believed that by far the most valuable work may be done at the present time in relation to the improvement of our educational system, and it is suggested that educational affairs should be the chief corcern of the members The local membership is founded for sympsthiz is who wish to do something, but can not arrange to attend the annual meetings and take part in the discussion of Territorial affeirs. It is not intended that the society shall connect itself in any way with politics, as is generally understood, but it will be the duty of the members to try to refluence public affairs in the interests of humanity and progress. It may even at times come desirable and necessary to pu up candidates for school boards and possibly other elections.

The first annual meeting, at which a definite constitution will be framed and a platform adopted, will be held next winter at Albuquerque.

If the above proposals meet with your approval, I shall be glad if you will signify to me your desire to become a member, stating whether Territorial

Subscriptions should be forwarded to me; money so received, except that which goes to pay for the educational paper, will be held until disposed of by the society by vote in regular ses

Threatened Secession.

Chicago, Lilinois, August 19—The threatened secession in the ranks of the royal league as an outcome of the action of the supreme council in raising the assessment rates has proven a veritable fiasco. Of the 18,000 or more members of the order less than more members of the order less than 200 signified their willingness to form a new order and the majority of these have re-considered their action. Vernon council, of this city, one of the largest in the order, and of which weeks.
Messrs, Bowen and Halpin, the leaders of the secession movement, are members, has sustained the supreme council by a vote of 3 to 1. Councils in Missours, Wisconsin, Michigan and other states have taken similar sotion and the supreme council finds further yindication of its action in the fact that the assessmen's for the current month are being paid more promptly than for a year past.

is suffering with some disease or derangement of the origans distinctly feminine. Some clothes and some positions make the pain and discomfort seem less. Perhaps the nerves are most affected and this in turn disturbs the digestion. Nothing will ever completely relieve but a radical cure. The start of so-called "female complaints" may be a very slight thing indeed. It may be that in the beginning some small hygienic measures would stop the trouble. Certainly at this time, a little bit of the right medicine would stop it. When the trouble becomes worse, it is harder to cure, but still it can be cured. Dr. Pierce's Favorite Prescription will positively cure any trouble of this character. It may be absolutely relied upon. It affords lasting relief to a woman whose natural modesty has kept her from consulting physicians.

The True Remedy. W. M. Repine, editor Tiskiiwa, Iil., "Chief," says: "We won't keep house without Dr. King's New Discovery for Consumption, Coughs and Colds. Experimented with many others, but never got the true remedy until we used Dr. King's the true remedy until we used Dr. King's New Discovery. No other remedy can take its place in our home, as in it we have a certain and sure cure for Coughs, Colds, Whooping C. ugh, etc." It is idle to experiment with other remedies, even if they are orged on you as just as good as Dr. King's New Discovery. They are not as good tecause this remedy has a record of cures, and besides is guar nated. It never fails to satisfy. The cares of a family and bousehold are inflately more exhausting than the duties of bread-winners, hence women are more frequently afflicted with nervous weakness, sleeplessness and diminished energy than men. A quick remedy for the weakness produced by domestic worry and overwork will be found in MacDonald's Barley Elixin. This remedy is especially recommended to women because of its agreeable flavor. It is stimulating, refreshing and strengthening, promotes sleep, good digestion and cheerful spirits. As pleasant to take as the juice of a sweet orange. Price, \$1.00. FRUIT.

In the metropolitan markets of the western states New Mexico's horticultural products command from 5 to 15 per cent., greater price than the California products, owing to their size, richness in color and seculiarly delicate flavor. la grapes, for which the Rio-Grande Valley is famous, the Flame, Tokay, the Muscats, the Black Hamburgs and similar choice varieties are grown to perfection. In every quarter of the Territory are profitable orchards of apples, pears, peaches, cherries, plums, nec arines and all the small fruits indigeno o the temperate and semi-trapic zone.

SUGAR BEETS. Experiments covering a period of three ours demonstrate that New Mexico excels sy other country or section in the world in the quantity and quality of sugar beets n 1896, in the Pecoa Valley, some 1.400 yield per sere was a little over 16 tons and the average percentege of saccharine matter was over 16, the bighest record ever averaged 301.00 per acre, and the cost of raising the crop was a little less than \$22.00 per acre. The almost perpeturi sunshine during the growing season is the cause of the extra percentage of sugar in the betts, and the richness and adaptability of the soil accounts for the heavy yield.

CEREALS AND VEGETABLES Of innumerable variety are trofitably produced in New Mexico. The latter are notable for size and flavor, as well as their keeping qualities. Rio Grande Valley oats took the second prize at the World's Fair. Every field crop and all classes of vegetables can be and are grown with success

MINERALS. MINERALS.

It is no exaggeration to affirm that, in point of natural resources, none of the peerless Rocky Mountain states exceed New Mexico. Gold, silver, copper, zinc, lead coal (anthracite and bituminou-), fire clay, alum, sulphur, sait, gypsum, etc. are found in paying quantities in almost every county in the Territory. In many localities are valuable deposits of onyx and marble, while the turquois supply of the world is furnished by New Mexico mines.

TIMBER AND COAL. These essentials to the home-seeker are plentiful and cheap in New Mexico. Tracts of virgin forest, large or sm.ll. may be purchased now at astonishingly low figures, since the U.S. court has rendered such timely service in settling titles to the land grants.

DESIRABLE LANDS.

Thousands of acres of wild lands are to be had by compliance with the U. S. land laws, much of which is contiguous to water and desirable for colonization purposes when ditches and water storage reservoirs are provided. The land grant question is no longer a bug-a-boo in New Mexico and through the action of the land court, titles to wast tracts have been cleared up and settled. Some millions of acres have been confirmed by the courts to private ownership, while on the other hand an equal acreage has been rejected so far as the grant claimants are concerned and the land added to the public domain and is subject to entry under the government land laws.

NOTE: DESIRABLE LANDS.

Now Merico boasts the finest all the year round climate on the continent. Churches and graded public and private actions are maintained in every community. Sheep and cattle raising are ming the leading industries of the Teritory. Under legislative enactment, all best angar factories, woolen mins, smelters, refining and reduction works, including 100 acres of land for each factory or mill, enjoys immunity from tagation for a period of five years if erected prior to January 1, 1892.

The big advance in the price of wool in the Boston market yesterday, mentioned exclusively in THE OPTIC'S press report enused great rejoicing among sheep-raisers and wool-dealers. In this connections it may be stated that a large percentage of sheepmen in this vicinity will make fall cips, this season, owing to the fact that there is an abundance of grass and water and the fleecy fellows are in an unusually fine condition. Yearling wethers now bring over \$2 and lambs are in demand at

Don Felix Martinez boarded last night's train on a ten days' visit to his Old Mexico interests. On being accosted by an Orri reporter as to his future plans and the rumor that he would make his future residence in Et Paso, Mr. Martinez denied emphatically that he would leave Las Vegas. He stated that as he had a nice residence in RI Paso and he would probably take his family there for the winter, but that Las Vegas is a good enough place of rest dence and it would remain his future

E. C. de Bara, C. F Potter, and Pable Jaramillo bave built sidewalks in front of their premises in proximity to the court house and now it is asked and expected of the county board that they will set an example worthy of emulation by building a walk across the county's property so as to connect these citizens and their families, by board walk, with the

ILFELD'S The Plaza.

Marked the closing of our great summer sales yesterday, adding one more illustration of the well-known fact that Nothing is Done By Halves at Ilfeld's.

Anybody may create temporary flurries on the surface of trade by loud talk of more or less imaginary "price cutting," and attempts at dragging purchasers from the streets "by the neck," but this is emphatically,

Not Ilfeld's Style.

Other methods are required to bring a whole community to regard a business house as its prime recourse for all the material requisites of civilized living, where absolute fair dealing may be always relied upon. To gain such a standing in the public estern, and to maintain it from year to year, has been the result of our untiring effort in providing the completest and most attractive, stocks in all lines, and at the
