The tastefully gowned woman is so because she has selected the particular style that suits her age, build, complexion and carriage. She has not selected a style simply because it looked well in a picture or on somebody else.

But you can't do any "selecting" unless you have a varie ty from which to select. Therefore, the first step toward being tastefully dressed is to go to a store that offers a wide and a carefully choosen variety.

And that is just what we give you here.

Official recognition was extended to the Boston congress by a resolution of congress. Under this resolution the United States sent invitations to the governments of the world, in addition to the business organizations. Appropriations totaling \$150,000 have been made by the state of Massachusetts, the city of Boston and Individuals, for the entertainment of the visitors.

Starting September 30, the foreign delegates will visit Buffalo, Detroit, Chicago, Cincinnati, Pittsburgh, Philadelphia, Washington and New York. On October 20 the party will sail for home from New York. The first session of the congress was held at Liege, Relgium in 1905. In 1906 the meeting was at Milan, Italy; in 1908 at Prague, Austria and in 1910 at London.

The membership includes commercial and industrial organization of all nations. Delegates to the biennial conventions are of two classes: the official delegates designated by the respective nations, and those appointed by business organizations affiliated with the congress.

The Boston chamber of commerce under whose auspices the present international congress is held, is said to be the largest commercial organization in America. It has nearly 5,000 members.

REPORTED DEATH OF PROMI-NENT LOS ANGELES PEO-PLE UNTRUE

Los Angeles, Cal., Sept. 23.-A remarkable hoax, complete in every detail and executed in such a way as to defy discovery at the time, was perpetrated upon the Los Angeles newspapers Saturday midnight, when the double suicide by Niles C. Folsom, a Los Angeles attorney, and Thelma Bartee of San Diego, was announced. The perpetrators acted with malice, according to the authorities, and vigorous search is being rande for them

"The published account of my supposed suicide must have been inspired by some persons who wished to do me harm. I have no enemies that I know of and I cannot for a minute believe that any one I know would cause such an article to be published. It is a fact that I knew the chorus girl and I also knew the Bartee woman mentioned in the account. My relations with both of these women were purely that of friendship and neither of them considered me other than a friend.

"At the time I was supposed to be engaged in carrying out this suicide pact I was at home in bed, It was said that I drove the machine at full speed over the cliff. This is dramatic, but it is not based on any facts. I can not even drive an automobile."
