RE-ELECTION OF SENATOR FALL ASSURED BY ACTION OF CAUCUS OF REPUBLICAN LEGISLATORS

John Baron Burg of Albuquerque, After Stating Preference for Another, Votes to Make Decision of the Majority Unanimous—The Successful Candidate Makes an Address in Which He Promises to Work for the Best Interest of New Mexico—Speaker Baca Is Conspicuous for His Absence From the Junta

Santa Fe, N. M., Jan. 24.—Fifteen members of the state senate and 25 members of the house of representatives, comprising a majority of both houses, all republicans, last night entered into a solemn compact to vote for Albert B. Fall for United States senator, the vote to be taken January 28. The caucus at which the agreement was reached was held in the chamber of the supreme court. It was a thoroughly good humored gathering attended by much talk. Almost every member present made a speech. Some were brief and some were long, but every one voiced a plea for harmony in the republican party and among its representatives in the legislature. It was early evident that the members of the caucus had made up their minds to support Judge Fall. Speaker after speaker declared that, while he believed the election of the senator last June was perfectly legal and valid, yet he was willing that the work should be formally ratified by going through the form of another election. Representative Burg of Bernalillo was one of the men who did not believe Judge Fall is one man for the place. That is, he said that his constituents would be better satisfied in the United States senator could be selected from Bernalillo county. Mr. Burg, however, pledged himself to abide by the choice of the majority, and on the final ballot voted for Judge Fall. The caucus was called to order by Senator E. A. Miera shortly after 8 o'clock. Representative Jose Lobato of San Miguel was the unanimous choice for chairman and Representative Young of McKinley was chosen secretary. Representative Chavez acted as interpreter. Reading of the roll disclosed that it was signed by 35 members of the legislature, and that three members, Senator Sitzer and Representatives Burg and Chavez, who had not signed, were present. Upon investigation of the caucus, former States Chairman Bursum, National Committeeman Spless, Hon. Charles Springer of Colfax, Malaquias Martinez of Taos and Eugenio Romero of San Miguel addressed the meeting. Then followed speeches by almost every member present. Senator Sitzer spoke three times, each time growing a little more fervent in his declarations of loyalty to the party of Abraham Lincoln and warning the others against repetition of the errors which had lost Zernalillo county to the republican column. Representative Burg was another who was thrice on the floor. Mr. Burg is a progressive. He cast the three hundred and seventh vote which elected Judge Fall to the senate for the short term. He did not believe the second election

was valid, and was not convinced that Judge Fall was the best man for senator. He concluded by inviting the republicans present to join with the progressives. Major Llewellyn was the next speaker and promptly restored to good humor those who had been slightly ruffled by Mr. Burg's plain talk concerning what that gentleman thought were the faults of the republican party. Senator Holt followed with a strong plea for harmony and predicted that in no distant day the progressives and republicans would once more be united. After a short speech by Representative Castro in which that gentleman called upon everyone present to pledge himself to abide by the will of the majority, the caucus proceeded to ballot on its action with the following result: For Fall—Senators, Abeytia, Bowman, Burns, Clark, Crampton, Gallegos, Hartt, Holt, Ifield, Laughren, Miera, Navarro, Page, Pankey, Romero, Representatives, M. E. Baca, Blanchard, Christman, Cooney, Cordova, Goodell, Hilton, Downs, Llewellyn, Lobato, McGilfray, Padilla, Quintana, Sanchez, Toombs, Tripp, Trujillo, Tully, Vargas, Young. For Andrews—Burg. For Clancy—Carson. For Bursum—Chaves. For Malaquias—Martinez—Lucero and Montoya. The second and final roll call showed the meeting solid for Fall. Fall Makes An Address. Upon the announcement of the result a committee consisting of Messrs. Vargas, Burg, Sanchez, Llewellyn and Romero was appointed to escort Senator Fall from the Palace hotel to the capitol. The senator was heartily cheered as he entered the room. He thanked the members of the legislature for their expression of confidence in him, and pledged himself to work for the best interest of New Mexico. He might not, he said, be progressive enough to suit the stand patters, but he yielded to none in his loyalty to republican principles and he did not believe it would ever be necessary for him to depart from these principles in order to give his best service to his state and to his country. "At any time," said Senator Fall, "the people of New Mexico feel that I am doing my duty a simple resolution of the legislature to this effect will act as my recall and I will at once surrender my commission as a senator of the United States." Senator Fall criticized rather sharply those responsible for casting doubt upon the legality of his election last June, not that it injured him personally, but for the reason that it had hampered his work on behalf of the

state in Washington. His colleagues in congress, said Judge Fall, could not understand how a legislature could elect a senator and then attempt to cast doubt upon its own work. Among the republicans not present at last night's caucus were Senator McCoy, Representatives Clancy, Labadie, Manzanares, Moreno, Skidmore and the speaker. Messrs. Skidmore and Moreno are known to favor Senator Fall, while the attitude of the others is unknown. The senate was in session only a few minutes this morning, the proceedings being purely formal. Senator Clark presented a petition for a uniform system of weights and measures, which was referred to Senator Bowman of the printing committee. A messenger from the house announced the passage of that body of House Joint Resolution No. 2, providing for the election of a senator on January 23, and House Joint Resolution No. 3, providing interpreters for the house. Senate Bill No. 26, appropriating funds for the salaries and expense of the legislature. House Bill No. 10, defining the crime of embezzlement. House Bill No. 13, permitting judges to rent chambers. House Bill No. 26, defining Sunday. This bill would require saloons to close at midnight instead of daylight Sunday, as now. House Bill No. 29, providing an additional judge for the Fifth judicial district. A senate substitute for House Joint Resolution No. 2 was referred to the committee on privileges and elections. House Joint Resolution No. 3 went to the committee on finance. House Bill No. 10 to the committee on judiciary. House Bill No. 13 to the committee on finance. House Bill No. 26 to the committee on state affairs. House Bill No. 29 to the committee on judiciary. The senate adjourned until 3:30 p. m. Monday. Legislature Is Expensive. The house this afternoon, under suspension of the rules, passed House Bill No. 51, by Mr. Montoya, an act providing for the per diem and mileage of members of the legislature and per diem of the employees. The total appropriation carried is \$39,500 or \$599 for each day of the session. Marcos C. de Baca was the only man who voted against it. A petition from the teachers of San Juan county was presented by Mr. Christman asking for a uniform system of taxation to provide for at least five months of school in each district of the state. The house presented a resolution of condolence to Representative Blas Sanchez upon the death of his infant son, which occurred Wednesday. The resolution was introduced by Messrs. Baca and Toombs. The house this afternoon listened to an eloquent address by Charles A. Vogelstein of the Panama-Pacific exhibition inviting the state to participate in the San Francisco exposition of 1915. The house then adjourned until 3:30 o'clock Monday. AMERICAN AVIATOR KILLED. Port of Spain, Trinidad, Jan. 24.—Frank Boland, an American aviator, was killed last night while flying here. After accomplishing numerous successful flights in Venezuela he had arranged to give a long exhibition flight here tomorrow. The weather conditions being perfect last night he decided to make a trial flight. He was returning to the landing place when his airplane suddenly veered and struck the ground with terrific force. Boland was found dead beneath it. GERMAN SCIENTISTS DISTRESSED. Christiansia, Norway, Jan. 24.—The Norwegian expedition for the relief of the German scientists reported to be suffering terrible privations in a remote part of Eitzebogen, left Advent Bay, Spitzbergen, Monday, but was forced to return there today as the water was found open and communication overland impossible. The relief of the scientists will be impossible until new ice has formed.

BUILDING FALLS; KILLING EIGHT PEOPLE

BIG DRY GOODS STORE IN McKinney, Texas, is demolished by falling rock.

SPECIAL SALE IN PROGRESS

ESTABLISHMENT IS FILLED WITH CROWDS OF WOMEN SHOPPERS AND CLERKS.

MANY ACTS OF HEROISM

A DOCTOR CRAWLS BENEATH THE RUINS AND KEEPS GIRL ALIVE UNTIL RESCUED.

McKinney, Tex., Jan. 24.—There was assurance this morning that the collapse of the four story Commercial building here yesterday had not developed into the holocaust which for hours after the walls fell rescuers and eye witnesses declared it to be. Practically the entire floor space is left bare and there is no possibility of finding any large number of bodies underneath the wreckage. The death list remained at eight, with one person—Mrs. Bell Williams—probably fatally injured, and 11 slightly hurt. Mrs. Williams was severely crushed when the building collapsed, and burned in the fire that immediately broke out. Eye witnesses for hours yesterday said that from 35 to 50 women and girls were buried in the ruins. A "special" sale was in progress and shoppers in numbers were in the store, when the disaster struck, and many were seen to join in the rescue work. Falling against the building gave way by the core, they demolished it. Recovery in quick succession of five bodies gave color to the reports that many more had been killed. Many stories of miraculous escapes are being told this morning. A Kistler dug his little daughter out of the ruins and was directed by the child to where his mother and grandmother were imprisoned. He carried the child to safety, then returned and released the woman unharmed. Dr. J. E. Knight crawled under the ruins and, using restoratives, kept Miss Lula Zarey, a clerk, alive for an hour until a rescuing party reached her. She will recover. DEBS IS ARRESTED. Terre Haute, Ind., Jan. 24.—Eugene V. Debs, socialist candidate for president of the United States in the last election, was arrested here today on an indictment returned against him in the federal court for the Third district of Kansas. Debs is charged with obstruction of justice. Debs wrote an expose of alleged conditions in the Fort Leavenworth prison for the "Appeal to Reason," which caused a government investigation and the dismissal of the warden, but the matter printed in the Appeal was considered obscene by the federal grand jury and action was brought against the editors for sending it through the mails. The witnesses in this case, it is alleged, Mr. Debs encouraged to leave the jurisdiction of the court. Debs brands the indictment as an effort to ruin the "Appeal to Reason." ACCUSED OF ARSON. Chicago, Jan. 24.—Indictments against four men charging arson and burning property to defraud were returned today by the grand jury in connection with the investigation of the operations of the alleged "arson ring." Those named in the true bills were: Samuel Rottenberg, Joseph Clark, Harry Brown and John Kahlzak, also known as "The Captain." Rottenberg, Clark and Brown are public fire insurance adjusters and Kahlzak is said to be one of the "torch bearers" employed by the combine. The bond of each defendant was fixed at \$40,000. Fires attributed to the "arson ring" have caused loss of many thousands of dollars.

COREY ADVISED AGAINST THE DEAL

DID NOT WISH STEEL CORPORATION TO TAKE OVER TENNESSEE COMPANY.

THE PRICE WAS TOO HIGH

WITNESS GIVES COMMITTEE IMPRESSION THE COMPETITOR COULD HAVE BEEN KILLED.

GARY KNEW ABOUT THE DEAL

WAS AWARE THAT POLLS EXISTED, EVEN THOUGH HE TESTIFIED DIFFERENTLY.

New York, Jan. 24.—The Tennessee Coal and Iron company was taken over by the United States Steel corporation during the panic of 1907 despite the protests of the corporation's president, William E. Corey. Mr. Corey so testified today under cross-examination at the hearing of the government suit to dissolve the corporation. He declared he had not concurred in the purchase because the price paid was too high. This price was the equivalent of \$119 a share. "John W. Gates told me that the stock was cheap at \$250 a share," Corey testified. "I invariably replied that he was 400 too high." Mr. Corey persisted in his contention that the Tennessee Coal and Iron company was and would have continued a steel rail competitor of the United States Steel corporation if it had not taken it over. Mr. Corey testified that Judge E. J. Tamm, when he was on the bench at the time, because he attended some of the meetings. Before the Stanley steel investigation committee Judge Gary testified that as soon as the existence of the polls came to his knowledge he had ordered them stopped. William E. Corey testified on cross examination today in the government's suit to dissolve the corporation. For two days Mr. Corey has given testimony bearing on the contention of the government that the corporation is a monopolistic combination. He was examined today by C. A. Severance. Mr. Corey was asked concerning the steel rail pool among American manufacturers, including the corporation. He said that the pool was a "hangover" from a pool that existed before the corporation was organized. It was broken up, he said, in 1904 or 1905. Thereafter, Mr. Corey testified, some other manufacturers wanted to raise the price on several occasions, but the Steel corporation declined. Since 1904 the price of steel rails, Mr. Corey said, had not varied more than 32 cents a ton. "For several years," he added, "prices of steel rails have been higher in France, Germany, Austria, Italy and Russia than here." Taking up the international steel rail pool, Mr. Severance sought to show that the reason why producing countries did not invade one another's territory was because the transportation rates would make it impracticable to do so. "Was it not the common custom to do so?" Mr. Corey replied. Mr. Severance asked if the witness did not recall cabling to James A. Farrell, when Mr. Farrell was aboard, asking him to ascertain at what price rails had been shipped from Belgium to the Pacific coast for consumption by the Harriman lines. "I remember that I cabled Mr. Farrell to that effect," Mr. Corey replied, "but I am not prepared to say whether it was before or after the period you refer to." This period ended in 1910. SUSPECT IS ARRESTED. Davenport, Iowa, Jan. 24.—George Cramer, said to be wanted in Chicago in connection with the murder of Diamond Merchant Logan, was arrested here last night. He had been working at the car shops in Bettendorf for several weeks. He was placed in jail, held for investigation.

DENIES A TRUST CONTROLS MONEY

MEMBER OF J. P. MORGAN FIRM TESTIFIES BEFORE THE HOUSE INVESTIGATORS.

OFFERS PREPARED STATEMENT

THIS DOCUMENT DEFENDS "INTERLOCKING DIRECTORATE" SYSTEM.

SAYS IT IS NOT YERNISIOUS

DIVERSIFIED INTERESTS PREVENT A COMBINATION OF GREAT CAPITALISTS.

Washington, Jan. 24.—To refute the contention that a group of 180 men in the world of finance, through interlocking directorates, control corporation assets aggregating \$25,000,000,000, Henry P. Davison, partner of J. P. Morgan and Company, today offered to the house money trust investigating committee a long prepared statement, calculated to controvert statistics prepared by the committee's accountants and put into the records for the purpose of showing such a condition. Mr. Davison offered his statement at the conclusion of his testimony and the committee decided to deliberate whether to admit it. Mr. Davison thereupon gave out copies, although earlier in the day he and Thomas W. Lamont, another partner of J. P. Morgan and Company, had declared they had no statement to give out. The statement reviews the inference drawn from the committee's tables. "No such control as is alleged and no such deduction can be properly made from the tables. Those who have made such deductions have fallen into several obvious errors. They fail to observe: first—that of the total number of directors in these particular corporations this group represents only about one quarter; second—that upon this assumption, those men, in order to exercise 'control' must act and vote in every instance as a unit, although they come from different parts of the country and represent diverse and frequently conflicting interests; that upon this assumption the directors outside of this 'group' must be mere dummies, with no voice or opinion of their own, who, in almost every instance, are overruled by a minority; finally—that this sum of 25 billion dollars is not actual cash or liquid assets, susceptible of manipulation or misuse by the directors, the fact of course being that the great bulk of this enormous sum is and for years has been tied up in the rights-of-way, rails, ties, equipment, factories, plants, tools, manufactured goods and other forms of corporate property necessary for carrying on railroad and industrial business in the country. Mr. Davison was on the stand again in the money trust hearing today. Mr. Untermeyer took up Mr. Davison's statement of yesterday that "the concentration of banking resources in New York was sufficient to care for the business of the country at its present development." "There is less consolidation in New York banking today than there was ten years ago," said Mr. Davison. "The resources of the New York banks are only 18 per cent of the resources of the entire country. We are dealing today in larger units, industrially, commercially and every other way, in many instances a corporation may want to borrow up to \$5,000,000. It is much to that corporation's advantage to be able to make that loan from a single bank rather than to have to go shopping round making loans of \$500,000 here and there." "Don't you think it would be an advantage to have a good many independent banks in New York, so that he could have some place to go shopping around if he had to?" asked Mr. Untermeyer. "I think the banks of New York are independent," replied Mr. Davison.

CONSTANTINOPLE IS A CITY OF TERROR

FIGHTING AND RIOTS OCCUR IN MANY PARTS OF THE CAPITAL OF TURKEY.

FORMER COMMANDER KILLED

NAZIM PASHA, UNTIL LATELY WAR MINISTER, SHOT DURING A DEMONSTRATION.

PEACE DELEGATES RECALLED

BALKAN STATES PREPARE ONCE MORE TO WHIP THE PORTE INTO SUBMISSION.

Constantinople, Jan. 24, 11 a. m.—Fighting has occurred at several places in the city this morning. A dozen or more persons have been wounded and many arrests have been made. Great public excitement has followed the killing of Nazim Pasha, the former war minister and commander of the Turkish army, who was shot during public demonstrations here last night. Talat Bey, the new minister of the Interior, informed the European embassies this morning that all measures necessary to insure the security of the city had been taken. He also addressed directors to the provincial government explaining the reasons for the change in the government and calling upon the people to lend their moral and material aid to the government. "We are determined," he said, "to defend the interests of the country, now face to face with the prospect of a new outbreak of hostilities." Enver Bey, who has taken such a prominent part in the overthrow of Nazim Pasha's cabinet, is the popular hero of the day. Nazim Pasha's death, by a shot from the revolver of Enver Bey of Talat Bey, is believed to have been accidental. The two officers, in order to protect themselves from the fire of Nazim's aide-de-camp, who had shot at them from a window, drew their revolvers and emptied them at him. A bullet struck and killed Nazim Pasha, who was seated inside the room. The funeral of Nazim Pasha, who was killed here last night, took place this morning. The new grand vizier and minister of war, Masud Shekhet Pasha, an old comrade of the dead commander-in-chief, attended. After the burial the members of the cabinet went to the palace and took the oath of allegiance to the sultan. Subsequently the retiring foreign minister, Noradunninghan Pasha, was called to a meeting of the cabinet council to explain the foreign situation. The sultan went to the mosque at noon to attend the usual Selamlik at which Masud Shekhet Pasha and Enver Bey also were present. The function passed off without incident. The new Turkish cabinet is constituted as follows: Grand vizier and minister of war—Mahamoud Shekhet Pasha. President of council of state—Said Halim. Minister of the interior—Hadji Agha. Minister of foreign affairs, temporary—Mukhetar Bey. Minister of marine—Tachurhusand Mahamoud. Minister of justice—Ibrahim Pasha. Minister of finance—Rifait Bey. Minister of public works—Salsaria Effendi. Minister of pious foundations—Patri Pasha. Minister of agriculture—Rajjel Effendi. Minister of posts—Osman Bey. Minister of public instruction—Shekri Pasha. # ACT TO REMOVE UNFAITHFUL OFFICERS

### SENATOR EVANS' BILL IS CREATING MUCH INTEREST IN THE LEGISLATURE.

Following is the text of the bill to remove public officers introduced in the legislative senate in Santa Fe by Mr. Evans:

Be it enacted by the legislature of the state of New Mexico:

Section 1. Every person holding any office of trust or profit under and by virtue of any of the laws of the state of New Mexico either state, district, county or city office, who shall wilfully misconduct himself in office or who shall wilfully neglect to perform any duty enjoined upon such officer by any of the laws of the state of New Mexico, and who shall in any public place within or without the state be in a state of intoxication produced by strong drink, voluntarily taken or who shall commit any act constituting the violation of any penal statute involving moral turpitude shall forfeit his office and shall be ousted from office in the manner hereinafter provided.

Sec. 2. It shall be the duty of the attorney general of the state of New Mexico and of the district attorneys of the several districts of the state within their respective jurisdiction on notice being received by them in writing that any officer herein mentioned has been guilty of any of the acts, omissions or offenses as set out in section 1 of this act to forthwith investigate such complaint and if, on such investigation, he shall find that there is reasonable cause for such complaint he shall forthwith institute proceedings in the district court of the proper county or the supreme court of the state of New Mexico to oust such officer from his office.

Section 3. The proceedings to oust any state officer under the provisions of this act shall be commenced by the attorney general of the state of New Mexico, provided, however, that on the complaint being made to the governor of the state of New Mexico that the attorney general of the state of New Mexico has been guilty of any or all of the acts set out in section 1 of this act, it shall be the duty of the governor forthwith to notify the district attorney of one of the districts in the state of New Mexico who shall proceed to investigate such charges as in the manner hereinafter provided for the investigation of other officers and such district attorney shall institute proper proceedings in a court of competent jurisdiction to oust such attorney general from office.

Sec. 4. Said proceedings in ouster shall be tried in a summary manner by the court and shall have precedence over criminal and civil actions and shall be tried at the first term after the filing of the complaint or petition herein named, provided, the answer hereinafter mentioned shall have been on file at least ten days before the day of trial. A continuance may be granted either side for good cause shown but no continuance shall be granted by an agreement of parties.

Section 5. An appeal shall lie from the decision of the district court to the supreme court of the state of New Mexico on the part of either the state or the defendant, but such appeal on the part of the defendant shall not operate to stay the judgment of the court unless the defendant shall within five days from the rendition of such judgment give a supersedeas bond to be approved by the court which appeal shall be taken in the same manner as now provided for appeals in civil actions, provided, however, that such appeal must be perfected and filed in the supreme court within 30 days from the rendition of the judgment of the district court.

Section 6. Upon filing of the complaint or petition for writ of ouster a summons shall be served upon the defendant and a copy of the complaint or petition filed against him. The answer day shall be the same as is now provided in civil suits under the code of civil procedure and the petition and answer shall constitute the only pleadings allowed and all allegations in the answer shall be deemed controverted and any and all questions as to the sufficiency of the petition or complaint shall be raised and determined upon the trial of the case and if said petition is held insufficient in form the same shall be amended at once and such amendment not delay the trial of the case.

Section 7. If the defendant shall be found guilty, judgment of ouster shall be rendered against him.

Section 8. Upon petition being filed

# Foods That Blind Little Children

### START THEM OFF RIGHT WITH A GOOD LAXATIVE AND THEN WATCH THEIR DIET.

Mothers are often unconsciously very careless about the diet of their children, forcing all to eat the same foods. The fact is that all foods do not agree alike with different persons. Hence, avoid what seems to constipate the child or to give it indigestion, and urge it to take more of what is quickly digested.

If the child shows a tendency to constipation it should immediately be given a mild laxative to help the bowels. By this is not meant a physic or purgative, for these should never be given to children, nor anything like salts, pills, etc. What the child requires is simply a small dose of the gentlest of medicines, such as Dr. Caldwell's Syrup Pepsin, which in the opinion of thousands of watchful mothers is the ideal remedy for any child showing a tendency to constipation. So many things can happen to a constipated child that care is necessary. Colds, piles, headaches, sleeplessness, and many other annoyances that children should not have can usually be traced to constipation.

Many of America's foremost families are never without Syrup Pepsin, because one can never tell when some member of the family may need it, and all can use it. Thousands endorse it, among them Mrs. M. E. Darling, R. F. D. No. 4, Bellevue, Pa., who writes: "I certainly think Dr. Caldwell's Syrup Pepsin saved my baby's life. Marjorie is a bottle baby

MARJORIE DARLING

and could not get her food to digest, but I found by giving her a small dose of Syrup Pepsin when she had colic it always cured her." Dr. Caldwell's Syrup Pepsin is sold by druggists at 50 cents and \$1 a bottle, the latter size being bought by those who already know its value, and it contains proportionately more. Results are always guaranteed or money will be refunded.

Everyone likes Syrup Pepsin as it is very pleasant to the taste. It is also mild and non-gripping and free from injurious ingredients.

If no member of your family has ever used Syrup Pepsin and you would like to make a personal trial of it before buying it in the regular way—a postal will do—to Dr. W. B. Caldwell, 417 Washington street, Monticello, Ill., and a free sample bottle will be mailed you.

as provided in section 2 of this act praying for a writ of ouster against any of the officers herein named and whether such action is brought by the attorney general or by the district attorneys of the various districts, the district court or the judge thereof or in case the action is brought originally in the supreme court then the supreme court or any judge thereof may on application of the attorney general of the state or the district attorney bringing such action suspending such officer or officers so accused from performing any of the duties of their office pending a final hearing and determination of the matter and the person having the power, by appointment to fill vacancies in such office, shall upon such suspension, appoint some proper person temporarily to fill said office and to carry on its duties until such hearing shall be finally determined or until the successor of the officer so suspended shall be elected and shall have qualified. No person shall be suspended from office under the provisions of this act until at least five days' notice of the application or the order of suspension shall be served upon him, which notice shall set forth the time and place of the hearing of said application and said officer shall have the right to appear and make any defense that he may have and shall be entitled to a full hearing upon the charges contained in the complaint and upon the application for the order of suspension and no order of suspension shall be made, except upon finding of good cause therefore. If on the final hearing of the complaint or petition herein provided the officer is not removed from his office he shall receive the salary allowed

him by law during the time of his suspension. Such officer so temporarily appointed shall receive the same salary as is provided by law to be paid the officer filling such position.

Section 9. In case the complaint referred to in section 2 of this act shall be made to the district attorney instead of the attorney general it shall be the duty of the district attorney immediately to notify the attorney general of such complaint and to transmit to said attorney general a statement of the nature of the same and the names of all the witnesses together with all other information which he may have.

Section 10. All actions under the provisions of this act shall be commenced in the name of the state of New Mexico on the relation of the attorney general of the state or on the relation of the district attorney.

Section 11. The attorney general and the district attorneys of the several districts of the state of New Mexico shall have the power and they are hereby authorized and directed whenever complaint has been made, the names of the witnesses furnished them or whenever they deem necessary to issue subpoenas for such witnesses so furnished them. And for such persons as they shall have reasons to believe have any knowledge of the truth of the complaint made to appear before said attorney general or district attorney at a time and place to be designated in the subpoena then and there to testify concerning the subject matter set out in said complaint. Each witness shall be sworn, true answers to make to all questions propounded to him touching the matter under investigation and the testimony of each witness shall be reduced to writing and be signed by the witness. The attorney general, assistant attorney general and the district attorneys of the several districts of the state are hereby authorized and empowered to administer the necessary oath and affirmations to such witness. Any disobedience to such subpoena or refusal to answer any and proper question propounded by the attorney general, assistant attorney general or district attorney at such inquiry shall be a misdemeanor and shall be punished by a fine of not more than \$500 or by imprisonment in the county jail for not more than six months or by both such fine and imprisonment.

Section 12. No person shall be excused from testifying before such attorney general, assistant attorney general, or district attorney at any such investigation or in any investigation or to be excused from testifying in any proceeding brought in any court of competent jurisdiction under the provisions of this act on the ground that his testimony may incriminate him but no person shall be prosecuted or punished on account of any transaction, matter or thing concerning which he shall be compelled to testify, nor shall such testimony be used against him for any crime, or misdemeanor under the laws of this state.

Section 13. In all appeals to the supreme court, the supreme court may receive further testimony and may adopt any procedure not inconsistent with this act which it may deem necessary for a full and final hearing and determination of the case and

said court on appeal shall either affirm the judgment of the lower court or enter such final judgment as it deems that justice may require. On appeal said cause shall stand for trial at the first session after such appeal is perfected and filed and shall have precedence over all civil and criminal cases.

Section 14. The attorney general shall have power on his own initiative and without complaint having been made to him, to institute proceedings in ouster against any and all state, district, county and city officers, under the provisions of this act and the district attorney may institute such actions without a complaint being made to him as he is authorized to institute upon complaint being made, but, before he shall institute such actions he shall notify the attorney general of his intention to do so and lay out all of the facts in his possession, and attorney general shall have a right to intervene in said action and declare on the prosecution of the same and may authorize and direct the district attorney to institute or refrain from instituting such action.

Section 15. Nothing in this act shall be construed as repealing any law now in force in this state making it a crime or misdemeanor for said public officers to violate certain statutes of this state and provide a punishment for said violation and proceedings under this act shall not be a bar to proceedings under any original statute in the state of New Mexico now in force or which may be in force.

Section 16. This act shall not apply to judges of the supreme court, district judges and members of the legislature.

Section 17. All acts and parts of acts in conflict herewith are hereby repealed.

the senate and approval by the governor. Following is the text of the bill:

Section 2. The vacancy hereby created shall be filled in the manner now provided for the filling of vacancies in the office of district judge.

Section 3. which provided that the chief justice of the supreme court should divide and apportion the work between the two judges, was eliminated by the house.

# CO-OPERATION IS FOUND TO BE PROFITABLE

### FOREST SERVICE AND SHEEP OWNERS WORK TOGETHER TO MUTUAL ADVANTAGE

Albuquerque, N. M., Jan. 24.—On his way east after attending the meeting of the National Wool Growers' association in Cheyenne and the meeting of the American National Livestock association in Phoenix, A. F. Potter, chief of grazing, of the United States forest service, stopped off today in Albuquerque and conferred with third district officials on a number of important questions. Mr. Potter was accompanied to Albuquerque by A. C. Ringland, forester of the third district, who also attended the Phoenix convention as a representative of the forest service. Both Mr. Potter and Mr. Ringland expressed themselves as highly pleased with the result of their attendance at the convention and declared that the people of Phoenix outdid themselves in their efforts to entertain the visiting stockmen.

illated organizations, which cooperate with the forest service to day," said Mr. Potter, "and it is this cooperation between the livestock men and the forest service which has resulted in the excellent relations and conditions which exist today. In my speeches before the meetings in Cheyenne and Phoenix, I argued for a continuance of co-operation and indicated that the forest service is willing to aid the stock men in any manner in connection with the administration of the ranges, the only object of the service being to secure greater results for the men who use the range. Ever since the government of the ranges was transferred from the interior department to the agricultural department, the end in view has been to secure results and obtain greater efficiency.

"Most important among the results achieved because of co-operation between the forest service and stock growers may be mentioned the reduction in losses and strays; that livestock grazed on ranges under our administration average more in weight than those grazed on ranges where co-operation does not exist and consequently bring fancier prices on the market.

"We hope with continued co-operation to increase the results in the livestock industry on national forests by 25 per cent; also to throw open for range purposes parts of the national forests now inaccessible."

### Praise This Remedy For Consumption

If the voluntarily written words of grateful people living in all parts of the country, praising Beckman's Alternative, a remedy for the treatment of coughs, colds, throat and lung troubles, are to be believed, this medicine is certainly doing a vast amount of good for such sufferers. We state more but facts and give to you the names and words of praise of those who declare it benefited them—in many cases coupled with the writers' statements that it restored them to health. This is a sample taken from many:

St. Mary's Academy, O'Neill, Nebraska. "Gentlemen—About seven years ago I was attacked with the dread disease, Tuberculosis. I coughed unceasingly, could not sleep nor eat, even could not speak out loud and could do no work. I had three hemorrhages, raised blood most of the time and suffered of night sweats, fever and chills. A specialist of Columbus, Ohio, pronounced my case hopeless. Nearly five years ago I heard of your Alternative and procured some at once, with the result that I soon found myself restored to health. For the past four years I have been able to continue my teaching, and though I have always had heavy school work I am also able to perform much manual labor. I consider your medicine, if faithfully taken, a most excellent remedy for Consumption. Mother Superior retains this testimonial." (Signed) MARY.

Sisters of St. Francis, Franklin, Arkansas. They testify: "Furner and Lane, Frankfort, and in upbuilding the system. Does not contain poisonous opiates or habit-forming drugs. Ask for booklet telling of recovery and write to Beckman Laboratory, Philadelphia, Pa., for evidence. For sale by all leading druggists." E. G. Murphy, Central Drug Co.

# The Best Treatment for Itching Scalps, Dandruff and Falling Hair

To allay itching and irritation of the scalp, prevent dry, thin and falling hair, remove crusts, scales and dandruff, and promote the growth and beauty of the hair, the following special treatment is most effective, agreeable and economical. On washing, comb the hair out straight all around, then begin at the side and make a parting, gently rubbing Cuticura ointment into the parting with a bit of soft flannel held over the end of the finger. About additional partings about half an inch apart until the whole scalp has been treated, the purpose being to get the Cuticura ointment on the scalp skin rather than on the hair. The next morning, shampoo with Cuticura soap and hot water. Shampoo alone may be used as often as agreeable, but once or twice a month is generally sufficient for this special treatment for women's hair. Cuticura soap and ointment sold everywhere. Sample of each mailed free, with 25¢ Skin Soap. Address "Cuticura," Dept. 3, Boston. Apply finger-tipped men shave in comfort with Cuticura Soap for the face, too. Sample free.

# WHY IT PAYS TO BUY ADVERTISED GOODS

Because the advertiser has done something to inspire confidence. He has not only explained the value and usefulness of his product, but has put his personality and reputation behind his statements. He can be trusted because his very business existence is at stake. He believes in his goods to the extent of investing his capital, not only in making the goods right, but in advertising, which will not prove permanently profitable if he fails to make good—secure repeat orders. The advertising is not only a protection to the trade name, but it is the advertiser's guarantee of quality. You are justified in being suspicious of unadvertised goods, because, however much confidence the dealer or manufacturer may have in them, he has not enough faith in them to spend money in telling others of their goodness.

It Always Pays to Buy Advertised Goods

# SOME VARIETY IN THE LIVES OF SAILORS

NOTES FROM PRIVATE LOG KEPT BY PETTY OFFICER ON BATTLESHIP ARKANSAS

The trial trip of the super-dreadnought Arkansas, one of Uncle Sam's biggest two battleships, including President Taft's Christmas jaunt with the bluejackets from Key West to Panama, her crew's experiences with a shark in Florida, Chinese traders on the Isthmus and Cuban policemen in Havana, are described in the private log of Alexis Doster, navigator's yeoman, forwarded from the Arkansas's present station in Guantanamo Bay, says the New York World.

The first sensation came on the night of December 17 at Key West, just as the Arkansas had finished coaling ship in record time. The automatic fire-alarm rang, sending every man on the jump to his station. The searchlight rheostats used in coaling had only heated the forward bulkhead, it was found, so the tars returned to their hammocks.

Spare hours of the next day the crew fished over the side of the battleship. The call for supper was disregarded when one of the lines suddenly tightened and the man at the dry end of it was almost pulled into the water by a bite. Fifteen men tumbled on to the line and a big shark was hauled over the side. The man-eater hardly had time to coil its big jaws before it was killed and a wrangle was in progress for its teeth and backbone.

Friday, December 20, began with the heaviest kind of work, practicing fire control, dotter and loading drill of the five-inch guns. While Ensign John Paige was trying to board the battleship Delaware a wave caught and badly crushed him between the launch and the ship.

That night a fishing party failed to return, nor could the first search launch find the deep sea anglers. A second one, sent out later, returned in the morning with the missing boat in tow. The engine had broken down and the fishing party had passed a bad night in the choppy sea.

The Arkansas sailed from Key West December 21 with the president's party and reached Colon Christmas eve. Uncle Sam's Christmas present to a large liberty party from the ship was a trip across the isthmus. The nar-

# Near 70—Feels Like 50

MRS. A. CAMPBELL

Mrs. Campbell's doctor advised her to take a tablespoonful of Duffy's Pure Malt Whiskey before each meal. She did so and recovered health and youthful feeling.

"Eight years ago, when sick, I lost my appetite. I could not eat solid foods. My family physician advised taking a tablespoonful of Duffy's Pure Malt Whiskey before each meal as a stimulant, as it was good for the system. It did much more good than the doctor said. I feel more like fifty years old than sixty-nine. My appetite is splendid, and I find a tablespoonful of Duffy's Pure Malt Whiskey is very invigorating. A dealer tried to sell me a substitute for Duffy's, but the doctor told me to insist on the genuine; that some dealers tried to sell something else to make more profit on inferior goods." Mrs. A. Campbell, 1111 West Ninth Street, Spokane, Wash.

# Duffy's Pure Malt Whiskey

Mrs. Campbell's experience is similar to that of thousands of men and women who have been brought back to a state of health and vigor by using Duffy's Pure Malt Whiskey as directed. Many learn its great medicinal value first from their own family doctors. Others hear from friends or relatives direct. Still others read the testimonials of those who are so grateful to Duffy's that they wish to aid fellow sufferers by writing of their good fortune in using this pure malt whiskey.

rator waxes eloquent over that trip, which usually costs passengers \$6 each, with its special train provided with every comfort, and with one of the government engineers to explain engineering work on the big ditch. There was a half-hour stop at the Culebra cut and three hours in Panama City. Here the sailormen grandly drove around in victorias at 20 cents an hour, while the denizens of Panama set off firecrackers in honor of Christmas day.

"We were sorry our capital was so small," reads the diary, "because of the big bargains in the Chinese and Japanese shops. Tea sets of nice pieces for two simoleons! Pillow covers, doilies and embroidered silks for next to nothing! We thought of people at home, but had to console ourselves with coconuts, pineapples and bananas. That night, after our turkey dinner, the ship looked like a world's fair 'tween decks, when the sailors, compared their parrots, monkeys, caps of native fibre and their Oriental notions."

A tropical moon and blue southern seas accompanied the Arkansas on her

trip back to Key West, with President Taft, whom she landed on December 29 without other adventure than the picking up of a man lost from the Delaware. That same night the Arkansas turned her nose toward Havana, where she arrived the following evening. By next afternoon liberty parties in store clothes were already in Havana, taking trolley rides through the city and suburbs, riding in cabs on the Prado and making the acquaintance of tropical vegetation and strange exotic vegetables.

"Very beautiful ruins" was the verdict on Cabanas fortress and Morro Castle, which they visited next morning. But they were surprised to find the Cuban soldiers and policemen so well equipped and drilled, and were particularly impressed by the Havana policemen's nifty uniforms. One of the mounted police, as if to exhibit his skill for the sailors, stopped a runaway horse and carriage in a way they thought would make any New York cop jealous and led them to conclude the spickety cops are both useful and ornamental."

The Havana cigarette factories with

their many pretty girls and hospitable proprietors, who loaded the boys up with cigars and cigarettes, were another part of this day's experiences, besides wonderful shopping. The boys found yellow, pink, light blue and green are the only colors known to Cuban architects. But they fell in love with the inner courts of the Spanish houses, their fountains and palms. The writer says: "I noticed that, although the sun beat down with terrific heat, I was never uncomfortable nor perspired." The party sat in the new year on the Prado, while the natives fired bombs and fireworks.

Official routine took up the next three days, with interminable official visits. The navigator's work of sounding around the ship for the radius of 200 yards the Arkansas needs to swing in was done upon arrival and the buoys were located before leaving.

MEAN THEIR BOWELS ARE WASTE-CLOGGED; LIVER SLUGGISH AND STOMACH SOUR.

Your child isn't naturally cross, irritable and peevish, Mother! # "SALTED" A MINE AND FOOLED EXPERTS

NEGRO WITH TOBACCO AND GOLD DUST EXPECTORATED THE PRECIOUS METAL

Raleigh, N. C., Jan. 24.—How W. S. Cook, a Maine man, now in the Maine penitentiary, came to North Carolina, "salted" a gold mine and took in such shrewd investors as the Guggenheims and the late Senator Sawyer, has only now come to light.

Thirty miles northeast of Raleigh is a gold mine known as the "White House." Ten years ago Cook heard of this property, took an option on it and the 350 acres of land, and later bought it. The first thing he did was to interest the late Senator Sawyer of Colorado and one of the Guggenheims. He invited them to send experts to investigate the "White House."

In that section gold can be "panned" in the streams, and mining in this fashion is very simple. There is a gold vein through that region, and in the adjoining county of Nash is the "Portia" gold mine, which has been worked for a long time, and for three-quarters of a century was a good producer.

Cook "salted" the ground in a novel way. He hired a negro named Burke, provided him with plenty of chewing tobacco and also with gold dust. Whenever the experts went Burke went, and he literally spat gold. He enriched the earth to such an extent that the "pay dirt" was satisfactory to the experts, and on their report their principals took part in the formation of the "Gold Bond Dredging company" of Arizona to develop the property. Cook and some of his associates were put in charge, bonds were floated to the amount of \$150,000, modern machinery was purchased, and many of the stockholders came down to North Carolina to see the mine. Burke in the mean time talked incessantly, bragged about the richness of the mine, and hinted at even greater things.

Cook made no attempt to interest North Carolinians in his project. Western people were his principal victims, but some were from New England.

However, Guggenheim must have become suspicious, for he sold his stock, as did a few others.

Cook got about \$25,000 for promoting the enterprise. He was known as a "high roller" in two counties, and champagne flowed where before it had been almost unknown.

They got some gold from the mines, but not much. Stock to the amount of \$50,000 was disposed of and the proceeds were largely spent for pleasures. A club house was built, carriages were kept, servants were plentiful, but no debts were paid, and creditors came in. A suit was brought by the Atlantic Equipment company for machinery furnished and a judgment was obtained for \$2,300 due it.

# The Doctor's Answers on Health and Beauty Questions

BY DR. LEWIS BAKER.

The questions answered below are general in character; the symptoms or diseases are given and the answers will apply to any case of similar nature.

Those wishing further advice, free, may address Dr. Lewis Baker, College Bldg., College-Hillwood streets, Dayton, Ohio, enclosing self-addressed, stamped envelope for reply. Full name and address must be given but only initials or fictitious name will be used in my answers. The prescriptions can be filled at any well-stocked drug store. Any druggist can order of wholesaler.

"Distress" writes: "My hair is so oily and straggling I wish you would tell me something to make it soft and fluffy. It makes me positively homesick. I also have a great deal of dandruff."

Answer: Many women would be more beautiful if they had soft, fluffy hair. I can tell you a very simple remedy, one that will make your hair soft and fluffy. It will cure dandruff, itching scalp and lustreless and falling hair. Ask your druggist for a 4 oz. bottle of plain yellow mineral and use according to directions, and you will be surprised to note the difference in your hair.

"Fred W." writes: "I suffer with headaches, indigestion, nervous debility and am also thin almost to the danger point. What can be done for me?"

Answer: You can very readily overcome these difficulties by using three-grain hyponitrate tablets. They are put up in sealed cartons with full directions. These are highly recommended and if used according to directions you will soon be rid of headache, your indigestion will be gone and you will gain from 10 to 30 pounds. These tablets should be taken regularly for several months and you can depend on gaining flesh.

"Lee" writes: "I have tried so many remedies for rheumatism that I am almost afraid to try any more, but if you can tell me a sure cure I will try it."

Answer: Do not be disheartened because you have not been able to find something that will cure your rheumatism for you can be cured if you will take what I tell you. Get from the drug store: Iodide of potassium, 2 drams; sodium salicylate 4 drams; wine of colchicum, one-half oz.; comp. fluid balmwort 1 oz.; comp. essence cardiol, 1 oz.; and syrup sarsaparilla, 5 ozs. Mix and take a teaspoonful at meal time and again before going to bed.

"Fern" writes: "I have suffered with a bad cough for some time and I also am weak and tired most of the time, which I think is due to the severe coughing. Can you give me a remedy?"

Answer: Yes, your weakness is due to the coughing, but you can be cured by using the following: Get a 2 1/2 oz. package of essence mentho-laxene and make according to directions on the bottle, then take a teaspoonful every hour or two until the cough is cured. This makes a full pint of the very best and safest cough syrup. If your druggist does not have mentho-laxene have him order it for you of the wholesaler firms.

Doctor: What can I take for a bad case of indigestion. I have suffered with it for many years and nothing I take helps it at all. I am also bothered with constipation.

Answer: You should not neglect in-

digestion and constipation as it leads to more serious trouble, very frequently appendicitis is caused by this neglect. Begin at once and take tablets triopiptine. These are packed in sealed cartons with full directions for taking.

"Laura S." writes: "I am so tired and nervous all the time that I can scarcely drag one foot after the other. It is very hard for me as I have to work. My appetite is also very poor."

Answer: What you need is a good tonic restorative treatment. Take the tonic prescribed below and you will soon be strong and healthy and will not have that tired feeling. Your work will become a pleasure to you. Syrup of hypophosphites comp. 5 ozs, tincture cadmate, 1 oz., mix, and take a teaspoonful before each meal. This should be continued for several weeks until you feel perfectly strong.

Mrs. W. W. Q. asks: "Can I safely take off 40 pounds of fat? I weigh 180 pounds; too much for my height."

Answer: Yes; you can by taking, as per the directions which accompany, 5-grain arbolene tablets, put up in sealed tubes and sold by well-stocked druggists. They are safe for any fleshy person to take.

"Anna R." writes: "I have taken medicine from several doctors for liver and kidney trouble and constipation, but it does not seem to help me at all. My skin is sallow, I have constant headaches, and dizzy spells. What shall I do?"

Answer: The best remedy that I know for your trouble is three grain sulphur tablets (not sulphur tablets). These are packed in sealed tubes with full directions. Most of the remedies only relieve, but if you take the sulphur tablets regularly for a few weeks you will be cured. This will purify the blood and your skin will lose that sallow look.

"Busy Mother"—Bedwetting can be cured in children by giving them the following: Tincture cubeb, 1 dram; tincture rhus aromatic, 2 rams, and comp. fluid balmwort, 1 oz. Give from 10 to 15 drops in water an hour before each meal.

Doctor: "I have a very bad case of catarrh of the head and my stomach, bowels and blood are affected. I suffer greatly and would like a cure."

A. G.—Local treatment should be used as follows: Get 2 ozs. of anti-septic vilane powder. Use a half teaspoonful to a pint of warm water; sniff the water from the palm of the hand through the nostrils two or three times a day. Then make a catarrh balm by mixing a level teaspoonful of vilane powder with one ounce of vaseline or lard and apply to the nostrils as far up as possible. Also take a teaspoonful four times daily of the following: Syrup sarsaparilla comp. 4 ozs.; comp. fluid balmwort, 1 oz.; fluid ext. buchu, 1 oz. Mix and shake well.

# Blood Bath Knocks Rheumatism

Remarkable Effects of a Remedy That Actually Irrigates the Entire Blood Supply.

It sounds queer to take a blood bath but that is precisely the effect of a most remarkable remedy known as S. S. S. It has the peculiar action of soaking through the intestines directly into the blood. In five minutes its influence is at work in every artery, vein and tiny capillary. Every membrane, every organ of the body, every emunctory becomes in effect a filter to strain the blood of impurities. The stimulating properties of S. S. S. compel the skin, liver, bowels, kidneys, bladder to all work to the end and of casting out every irritating, every pain-inflicting atom of poison; it dissolves, by irrigation all accumulations in the joints, dissolves acid secretions, renders them neutral and scatters those peculiar formations in the nerve centers that cause such mystifying and often baffling rheumatic pains.

And best of all, this remarkable remedy is welcome to the weakest stomach, because it is a pure vegetable infusion, is taken naturally into your blood just as pure air is inhaled naturally into your lungs.

The great Swift Laboratory has spent millions of dollars in perfecting, producing and placing in the hands of the public this wonderful remedy. So give your blood a good bath with S. S. S.—for it knocks the worst forms of rheumatism every time.

You can get it at any drug store at \$1.00 a bottle. It is a standard remedy, recognized everywhere as the greatest blood purifier ever discovered. If yours is a peculiar case and you desire expert advice, write to The Swift Specific Co., 157 Swift Bldg., Atlanta, Ga.

ers, hoping to save at least a part of their money, organized the North Carolina Dredging company and prepared to purchase the property. Thomas W. Bickett, the present attorney-general, was appointed receiver and he sold the property to the dredging company for \$11,750. This company's authorized capital stock was \$50,000, the stockholders being New England, New York and far western men. Another sale was soon suggested by the owners to some Philadelphia capitalists who had been interested. These employed a Durham lawyer, who found that Cook and his associates had mortgaged the property for \$150,000 before the dredging company bought it. So the Philadelphia men backed out.

The whole fraud has been exposed by a suit before the state supreme court. This court finds that the mortgage for \$150,000 made by Cook and his associates was fraudulent and two commissioners have been appointed to sell the property in February. They also have been instructed to notify the sheriff of Franklin to enter two

vaults in the principal banks in Franklin county which had been leased by Cook and which have not been opened in over six years.

After his departure from North Carolina Cook went back to his old home in Maine and there launched other schemes, was prosecuted and convicted and is now serving a sentence in the state prison.

Here is a remedy that will cure your cold. Why waste time and money experimenting when you can get a prescription that has won a world-wide reputation by its cures of this disease and can always be depended upon? It is known everywhere as Chamberlain's Cough Remedy, and is a medicine of real merit. For sale by all dealers.—Adv.

Mrs. A. R. Tabor, of Crider, Mo., had been troubled with neck headache for about five years, when she began taking Chamberlain's Tablets. She has taken two bottles of them and they have cured her. Sick headache is caused by a disordered stomach for which these tablets are especially intended. Try them, get well and stay well. Sold by all dealers.—Adv.

TIME TO GET BUSY

The bill providing for the erection of a federal building in the city of Las Vegas, which was introduced in congress by Senator A. B. Fall of New Mexico, has passed the senate and is now under consideration in the house.

Now is the chance for Mr. Ferguson to make good, which he appears to be trying to do. It is also time for the committee having charge of securing the options on a suitable site to get busy once more.

Several years ago a site was selected, but it was necessary to secure the right of way for a street through a section now held as private property in order to make the lots available. It is understood all these arrangements were made, but slowness on the part of congress in making an appropriation sufficient to purchase the lots is said to have been the cause of the lapse of the options.

The appropriation calls for the expenditure of \$100,000 for the building. Congress several years ago passed a bill appropriating \$15,000 for a site. An effort to secure an additional appropriation of \$15,000 for an extension to the site was killed by a committee of the senate.

Las Cruces has a strong lobby at Washington working for an appropriation for a federal building. Why should not Las Vegas do the same?

SWIMMERS TO INVADU U. S. Montreal, Jan. 24.—Ten of the speediest swimmers of McGill University left Montreal today for their annual American trip. In the course of the next two weeks the Canadians will engage in a series of contests at Yale, the University of Pennsylvania, Columbia and other leading eastern universities.

CELEBRATES 100TH BIRTHDAY. Charlotte, N. C., Jan. 24.—Harry Garrison, one of the most widely known residents of this section of the state, celebrated his one hundredth birthday anniversary today at his home at Millers Creek. The entire membership of the Mecklenburg Camp of Confederate veterans of this city made a pilgrimage to the home of the centenarian to help in the celebration.

NEWS FROM THE CAPITAL Santa Fe, N. M., Jan. 24.—Word was brought to the capitol today by visitors from Carrizozo that a telegram was received Monday stating that the United States supreme court upheld the supreme court of this state deciding that Carrizozo is the county seat of Lincoln county. This decision ends a long dispute which started a few years ago when the county seat was removed from Lincoln on the plea that Carrizozo is on the railroad and that Lincoln is many miles from it. The half finished court house at Carrizozo will doubtless be completed in the near future, now that the row is over.

When the news was brought to Attorney General Clancy this morning by a newspaper man the attorney general showed much interest in the report and remarked that the Lincoln people in their suit had raised a great variety of objections to the transference of the county seat to another place. The state supreme court today fixed January 31, 1913, as the date for Sheriff Charles C. Clonson, of Santa Fe county, to appear before the court to show reason why he is not in contempt because of allegations based upon the affidavit of Captain Fred Fornoff, of the New Mexico mounted police, charging Mr. Clonson with violating an order of the court by allowing a prisoner to be at liberty. The prisoner referred to is Ricardo Alarid.

In Supreme Court In the state supreme court, Chief Justice Roberts, Mr. Justice Parker and Mr. Justice Hanna and Supreme Court Clerk Sosa, present, the following business was transacted: The case of New Mexico vs. Longino Maruzo, charged with rape, was docketed and judgment of the lower court affirmed. This was on appeal from Grant county and the appellant failed to perfect the appeal. His sentence in the lower court was not less than five nor more than six years in the penitentiary.

In the case of James W. Norment, appellee, vs. Celso Lopez, treasurer of Santa Fe county, the case was docketed and judgment of the lower court was affirmed. This case involved taxes.

Educators Coming The state board of education met at the capitol at 10 o'clock this morning. Among the matters which came up for action are:

The course of study for industrial education prepared by a committee consisting of Miss Meyers, superintendent of industrial education, Dr. Frank H. H. Roberts and C. M. Light; the drawing up of rules regarding institutes and the plan to consolidate these institutes; the certification of 50 applications to teach in institutes.

Two Prisoners Sheriff W. T. Dufur of San Juan county and Mounted Policeman Lovelace arrived here last night, having in custody two prisoners for the penitentiary convicted at the term of court just closed in that county. One of the prisoners, P. H. Head, was convicted on a charge of arson growing out of the burning of the plant of the Durango Planing Mill and Lumber company last summer. The other man, supposed to be named Reeves, but with various aliases, was convicted of horse stealing. Reeves is said to be a desperate character, and made several attempts to saw himself out of jail while at Ateak, and also annexed two fine steel saws from some unknown source at Durango on the way to Santa Fe.

Foreclosure Hearing In the New Mexico Central Railroad company foreclosure hearing before Judge Loren C. Colby, special master and referee on Tuesday last an order was made to close proofs by February 4 proximo unless for good cause shown parties should have more time in which to present evidence.

LUMBER HEARING RESUMED. Cincinnati, O., Jan. 24.—Hearing of the protest of southern lumbermen against the proposed increase in freight rates on lumber from the south to Canadian points was resumed in this city today before a special examiner of the Interstate Commerce Commission. The southern lumbermen contend that the increased rates will be an unfair discrimination in favor of the lumbermen of the northwest, who will be enabled to place their product in the Canadian market cheaper than the lumbermen of the south.

JOSEPH H. CHOATE IS 81 New York, Jan. 24.—Joseph H. Choate, former United States ambassador to Great Britain, received the congratulations of many friends today on the occasion of his eighty-first birthday anniversary. Mr. Choate is in excellent health and is to be seen daily at his law office in Wall street.

NEW YORK STOCK EXCHANGE New York, Jan. 24.—The unexpected change in the attitude of Turkey and the resultant weakness of European markets constituted the chief influence in trading here. London and the continental markets were sellers here when business began, but reversed their attitude and took back some stocks.

International shares were the weakest, but professional selling soon cut and there was an irregular recovery which brought the leaders to within fractional distances of yesterday's close. The advantage was not long maintained, however, a break of 5 points in Illinois Central, which was attributed to misgivings as to the maintenance of its dividend, undermined the market and prices fell back to the low point. Bonds were steady.

Union Pacific gave way two points when Illinois Central broke to 121 on the fear that the income from the road's \$23,000,000 holdings of Illinois Central stock would be materially reduced if the dividend was cut. General selling stopped soon after midday and there was a slow recovery, running to about a point in some instances. Illinois Central rallied 2 1/2. Prices hovered about midway between yesterday's close and the low of the morning. The trend was upward, the evident support which the market received earlier indicating some of the shorts to buy stocks. Forecasts of the currency movement indicate a slight gain by the banks the interior receipts being sufficient to offset the loss by gold exports and treasury operations.

The market closed steady. Late operations were livened by spasmodic selling of the important shares and a bear drive against Can which forced it to 3 1/2. Earlier low prices were duplicated in some instances, but the pressure was of brief duration and the market made some recovery when selling let up. The closing sales were as follows: Amalgamated Copper 11 1/4 Sugar 174 Aitchison 104 1/2 Northern Pacific 118 1/2 Reading 104 1/2 Southern Pacific 105 1/2 Union Pacific 158 1/2 United States Steel 63 1/2 United States Steel pfd. 109 1/2

The program of the present convention has been prepared largely with the view of increasing knowledge of horse breeding and of either exploding or substantiating the numerous theories advanced on that subject. ## CONSTANTINOPLE IS A CITY OF TERROR

(Continued from Page One)

peace delegates that the war will be again almost immediately. There are, however, two currents of opinion among the representatives of the Balkan league. One of these is in favor of asking Sir Edward Grey, as honorary president of the peace conference, immediately to convoke a session of the delegates at which the resumption of hostilities will be declared. The other urges that the powers should first be allowed to deal with Turkey.

The European governments are already in communication with regard to the situation. The view here is that the reply to Turkey to the note of the powers must be awaited before any drastic action can be inaugurated. Lack of information as to the real meaning and scope of the movement in Constantinople precludes in the official view anything in the nature of peremptory action. The delegates of the allies were busy all day obtaining the views of the foreign ministers prior to their formal meeting at the Serbian headquarters this evening.

The new Turkish cabinet has decided to recall the Ottoman peace delegates from London, according to a dispatch today from Constantinople. The Turkish government is also said to have requested its ambassadors at Vienna and St. Petersburg to return to the Turkish capital.

Enver Bey, the most spirited leader of the Young Turks, was today appointed chief of the general staff of the Turkish army. At the headquarters of all the peace delegations the greatest activity and excitement prevails today. Cipher telegrams from Sofia, Belgrade, Athens and Cetinje crossed messages from London to those capitals during the early morning hours. Before noon the heads of the four delegations had held several meetings to discuss the situation. The allies seem disposed to consider the revolution in Constantinople as an affront to the European powers more than to themselves. Therefore they think that the powers are entitled to make the first move. Whatever it may be and whatever its result, it can not prejudice their future action, they declare.

The delegates consider the resumption of the war in the course of the next week as almost inevitable, even if the powers should urge an active intervention.

### DEMOCRATS KILL RECEPTION.

## Doughnuts

That will remain moist.

Every housewife who bakes her own bread knows that if a little potato is added to the sponge, the bread will not dry out so quickly. In this recipe potato is utilized to make doughnuts that will remain moist and fresh for several days.

K C will be found to have distinct advantages over any other Baking Powder for doughnuts. K C is a double acting baking powder with which a large batch of doughnuts may be mixed and fried a few at a time. The last will be as light and nice as the first.

### K C Potato Doughnuts

By Mrs. Nevada Briggs, of Baking School fame.

*3 cups flour; 2 eggs; 1 cup sugar; 5 level teaspoonfuls K C Baking Powder; 1/2 teaspoonful salt; 1/2 teaspoonful nutmeg; 1 cup cold mashed potato; 1/2 cup milk, or more if needed.*

Sift three times, the flour, salt, spice and baking powder. Beat eggs with rotary beater, then mix using rotary beater, gradually add sugar, then work in the mashed potato with a spoon and alternately add milk and flour mixture. Make a soft dough, roll into a sheet, cut into rounds, pinch a hole in the center with the finger and fry in deep fat.

Put fat frying should not be hot enough to brown the doughnut until it has risen. When the doughnut is dropped into the fat it sinks to the bottom. As soon as it comes up it should be turned and turned a number of times while cooking. This recipe is excellent as they do not take the fat in frying and will stay moist for days.

## FALL FROM HORSE HAS FATAL RESULT

### ELMER KIRKPATRICK DIES THIS MORNING IN CITY JAIL OF BRAIN CONCUSSION

Elmer M. Kirkpatrick died early this morning in the city jail, his death being caused by a concussion of the brain received in falling from his horse. The man is believed to have been intoxicated when the accident occurred.

Kirkpatrick was seen about town by several people Wednesday night in an intoxicated condition and during the night spent much time in the local saloons also riding about the city on his horse. At 5 o'clock yesterday morning Kirkpatrick was advised by Police Officer Terry McGovern to get up his horse and go to bed; Kirkpatrick, taking the advice, rode up to the Cooley stable and tried to get in, but, on finding the door closed, was seen by McGovern start north on Seventh street.

About 6 o'clock the police received a message from the telephone office to the effect that there was a man lying in front of the telephone office apparently dead. The man was found by Jna Gilstrap, colored, who was passing the office at that time on his bicycle.

An inquest was held this morning. Officer McGovern testified to the coroner's jury that on responding to central's call, he found the man to be Kirkpatrick and as he was unable to take him to the city jail alone, he summoned Officer Ward. With the use of a wheelbarrow the two officers got the man to the jail. City Physician C. C. Gordon was summoned immediately and found Kirkpatrick to be drunk and that he had a bad scalp wound on the back of his head.

Dr. P. H. Crail, who also was called, testified that Kirkpatrick was in an intoxicated condition and that he had received a severe scalp wound on the back of his head. Chief of Police Ben Coles and Police Officers McGovern and Ward all testified that during the time that Kirkpatrick was in jail he was in a stupor and unable to move about. Charles Koehn of Cleveland, Ohio, who is serving a term for trespassing on the Santa Fe Railway company's property, testified that Kirkpatrick received the best of attention and that he seemed unable to recover from the effects of the liquor and wished to sleep all the time. This morning at 5:30 Koehn awoke and offered Kirkpatrick some water. He also put a pillow under his head after which Koehn went to sleep. On awakening the second time Koehn found Kirkpatrick dead on the floor of the cell, lying on his face where he had fallen from his cot.

After hearing all the testimony the coroner's jury, composed of E. J. Scott, Vicente Montoya, C. V. Hedgecock, J. H. Stearns, A. M. Adler and Amos Kline, agreed that Kirkpatrick's death was caused by concussion of the brain, received presumably in falling off his horse while under the influence of liquor.

The inquest, which was held in the undertaking rooms of J. C. Johnson and Son, was presided over by Judge D. R. Murray. Mr. Woodcock, a local stenographer, took down all of the testimony.

Kirkpatrick, who was 30 years old and had been in Las Vegas for the past six years, came here from Galveston, Texas. He lives with his mother, Mrs. Kirkpatrick, at the Camfield dam, where, when the construction work was in progress, he was employed as a locomotive engineer. Since the suspension of the work on the dam Kirkpatrick has been engaged in farming. Two days ago his mother left for Moderville, Ind., to visit her son-in-law, Dr. W. T. Vandamont. Word has been sent to both Kirkpatrick's mother and his brother-in-law of his death. Besides these two Kirkpatrick is survived by a brother, Carrou Kirkpatrick, of Ullyses, Neb., and by a brother-in-law, George Crim, of Seward, Neb.

## DENIES A TRUST CONTROLS MONEY

(Continued from Page 1)

Mr. Davison added he knew of no bank in New York controlled by another bank. Mr. Davison distinguished between control of stock and control of management of banks. Mr. Davison reiterated that a law preventing "interlocking directors" would set the country back 25 years. He agreed with Mr. Untermyer that it might be well to cut down the size of boards of directors of banks.

Mr. Davison said that he would favor a law enforcing complete publicity of intermediate profits made by financiers in floating securities and would approve of forbidding bank of floors and banks from participation in syndicates formed for floating securities. Mr. Untermyer brought out that on November 1, J. P. Morgan and Company had deposits of \$129,000,000 and had in various banks \$16,000,000. Mr. Davison offered a long statement relative to concentration, but the committee withheld it from the record until it could be examined.

When Mr. Davison was excused, James J. Hill was called.

Mr. Hill opened his testimony with a list of his directorships in New York and Chicago banks and in the Great Northern and Burlington railroads.

Mr. Hill said that the Great Northern and the Northern Pacific railroads were competitors.

When the Northern Securities company was dissolved, he said, he received 37,000 shares of Great Northern and 62,000 shares of Northern Pacific. He now has 20,000 shares of Great Northern and his son, Louis W. Hill, has 13,500 shares.

Mr. Hill testified that he was a director in the First National Bank of St. Paul, one of the largest banks in the northwest. He disagreed with Mr. Untermyer's suggestion that minority stockholders be given representation in directorates through cumulative voting. He said that such a system might allow competitors to secure a corporation's secrets by securing a place on its board. On the question of interlocking directors Mr. Hill said he held that the propriety of practice rested entirely upon the character of the individual man.

## MEXICAN CITRUS FRUIT GROWERS

Tampico, Mex., Jan. 24.—The organization of a permanent association of citrus fruit growers of Mexico is the purpose of a three days' conference which will begin here tomorrow. Many of the leading fruit growers of the Tampico territory have already arrived to attend the meeting. The proposed association, according to the statements of its promoters, will take steps to eradicate all scales and disease affecting trees and fruit and try to prevent the United States from enacting a law prohibiting the importation of Mexican fruit and trees since the increased average here will in a few years produce more fruit than the home market can consume, and foreign markets will be essential.

# NEW HIGHWAY TO JOIN PROPOSED ROAD

### SOUTHERN NATIONAL ROAD WILL CONNECT WITH OCEAN-TO-OCEAN AT SAN DIEGO

San Diego, Calif., Jan. 23.—Preliminary organization of the Southern National Highway association has been affected here, and at a convention to be held at Asheville, N. C., on January 30, next, this will be made permanent. The organization will include ten states of the Southland, the purpose being to secure a permanent highway across the United States, swinging around the Atlantic coast to the national capital. This would connect with a projected highway through New England to the Canadian line, and at San Diego, with the Pacific Highway through California, Oregon, Washington, to British Columbia. When this is completed the auto tourists may travel over a magnificent road in a great circle around the United States.

Colonel Dell M. Potter of Clifton, Arizona, was elected temporary president; D. C. Collier, of San Diego, who is president of the San Diego exposition in 1915, general vice-president and Fred Jackson, of San Diego, treasurer. Already telegrams are pouring in from the governors and prominent residents of the southern states through which the highway would pass. Each state is to select a route through its territory. The plan for permanent organization is to elect some prominent southerner, probably a governor of some state, as president.

Congress will be asked to appropriate \$25,000,000 toward the construction of the highway. The south has been virtually neglected by congress, in the matter of highway appropriations, since the civil war, and with the southland's representatives in control of the affairs at Washington, would receive more friendly consideration than would any other. San Diego pledged \$10,000 toward the expense of the convention at Asheville and the campaign at Washington and within two days \$2,000 of this sum was raised by C. W. Fox, a director of the San Diego exposition, who was made chairman of the finance committee; Collier, Jackson, Colonel Ed Fletcher and Rufus Choate, of San Diego, and Dell M. Potter of Arizona, were named as delegates to the Asheville convention.

San Diego has been made the southern terminus of the Pacific coast highway striking the ocean from Vancouver, B. C., and the western terminus of the California state highway extending inland to El Centro. All of this road would become a part of the round-the-country circle of the proposed highway. The suggested route would give to auto tourists the shortest and most direct route from ocean to ocean, open to travel in comfort almost the entire year, with easier grades through the mountains than any other that could be devised.

Arizona and New Mexico have entered enthusiastically into the plan, the only one whereby those states could be placed on the ocean-to-ocean highway and from the southern states further eastward is coming every assurance of interest and co-operation. These temporary organizations are being formed and delegates to the Asheville convention chosen.

BIG BASKETBALL GAME TONIGHT

LAS VEGAS AND SANTA FE HIGH SCHOOL GIRLS' TEAMS TO CONTEST AT ARMORY.

This evening at 8:15 o'clock at the armory the referee's whistle will blow, starting what is expected to be one of the fastest games of basketball ever seen in Las Vegas. The Santa Fe high school and the Las Vegas high school girls' basketball teams will be the principal attraction, but the game between the eighth grade teams of the Normal and the High school, as a preliminary to the big event, will be well worth seeing.

A big attendance is expected, as it is to be the only inter-city game played here this winter. The basketball fans of the city are urged to turn out in full force to see the game and help the local team win. The Santa Fe aggregation arrived today and is right on edge for the game this evening.

During the evening the junior class of the High school will have a candy sale at the armory. The admission is 35 cents for both the games. Following is the line-up of the local high school team: DeSais Evans, captain, 3 c.; Elizabeth Parnell, r. c.; Gladys McVeagh, f.; Chella Van Petten, f.; Nellie Wells, g.; Alice Connell, g.

A "TWO-BIT" LAW

Denver, Jan. 24.—A modified "two bit" campaign fund bill was introduced in the senate today by Senator Carver. It provides that the state chairman of each political party shall receive from the state treasurer 20 cents for each vote cast by that party at the last state election, to be used as a campaign fund.

It further provides that no candidate shall contribute to the state committee more than 40 per cent of his first year's salary and that his total campaign expenditures shall not exceed 50 per cent of that salary.

The Carver bill is intended to supplant the present "two bit" law under which the state chairman receives 25 cents for each party vote. In opening deliberations in the house today Chaplain M. A. Head prayed that harmony might prevail and that factional strife might be overcome. Although he mentioned no names, members of the house expressed the belief that he referred to the contest among the democratic members to enlarge the committee on rules.

According to its yearly custom the Las Vegas council of the Knights of Columbus will give a dance on Easter Monday in the armory. This was decided upon at a meeting of the council held last evening. The meeting last evening was largely attended and enthusiastic. The Knights of Columbus are planning to organize a class for the first three degrees of the order, to be initiated in the early spring.

MISS SMITH LOYAL TO NORMAL SCHOOL

FORMER INSTRUCTOR OFFERS TO RENEW HER CASH PRIZE FOR COMMERCIAL STUDENTS.

Miss Martha B. Smith, who laid the foundation for the present flourishing commercial department at the New Mexico Normal University, is still greatly interested in the school. She has written from Hampton, Va., where she is connected with Hampton Institute, to Dr. Frank H. H. Roberts, president of the New Mexico Normal University, that she will renew her offer of a cash prize to the student in the commercial department doing the most thorough work. Following is an extract from Miss Smith's letter:

"The Optic containing the announcement in regard to the commercial department at the Normal came two days ago. I have had to delay my response, owing to the pressure of work during office hours and my desire to send a properly constructed letter instead of a pen written one.

"Of course you know I was delighted to hear that at last you have the commercial instruction on the proper basis. I look upon my connection with it as the happiest teaching in my experience, and to have it grow and progress so successfully makes any effort of mine seem doubly worth while. I anticipate for the work increasing usefulness, in accordance with your belief and the faith the regents have evinced in its future.

"I wish to make a similar offer this year, provided you and Professor Cornell approve. I haven't a copy of your catalogue and can't recall definitely the terms upon which the prize was offered. I shall be glad to have you to send me one, and also to have you let me know if you wish the
