SUNDAY TRAIN TAKEN OFF.

Lake Valley Station, January
1st, 1900—Sunday train service
on Lake Valley branch is discon-
tinued. Train will run daily,
except Sunday.

R. J. JOBSON, Agent

CHARLEY GAUSE SUES.

Charles Gause, formerly of Hills-
boro but now of Socorro, has
brought suit in the district court
at Pueblo, Colo., against Levi
Baldwin & Co., cattle dealers of
New Mexico, to recover sums of
money said to be due him as his
portion of profits accruing from
the sale of 3,000 cattle and several
hundred calves.

It appears that on Sept. 23,
1896, the plaintiff purchased and
contracted for a large herd of
cattle from the Western Union G.
L. and L. Company, through its
agent, T. J. Wright. The pur-
chase price was to be \$10.50 for all
cattle running in Socorro and
Sierra counties, N. M., with all
calves branded in 1896 and 1897 to
be thrown in and delivered free of
charge. At the time of this pur-
chase the plaintiff was unable to
handle so large a cattle contract,
and therefore negotiated with the
defendant company to license the
money and handle the contract for
a certain portion of the profits.
The 3,000 head of cattle, however,
were delivered from time to time
and paid for by the defendant
company, and, it is claimed by
Gause, were sold at an immense
profit. The defendant, it is alleged,
has refused to furnish an account-
ing of its transactions in the pur-
chase and sale of the cattle, and
has also refused to divide the
profits according to agreement.
In his complaint Gause asks the
court to compel the defendant to
produce all books and other papers
relative to the purchase and sale of
the cattle. He further asks that
the court appoint a receiver for the
company.

SPAIN'S GREATEST NEED.

Mr. R. P. Oliva, of Barcelona,
Spain, spends his winters at Aiken,
S. C. Weak nerves had caused
severe pains in the back of his
head. On using Electric Bitters,
America's greatest blood and nerve
remedy, all pain soon left him. He
says this grand medicine is what
his country needs. All America
knows that it cures liver and kidney
trouble, purifies the blood, tones up
the stomach, strengthens the nerves,
gives vim, vigor and new life into
every muscle, nerve and organ of the body.
If weak, tired or ailing you need it. Every bottle
guaranteed, only 50 cents. Sold by
L. E. Nowers, druggist.

During the latter days of the
past week, one of the best-known
citizens in Grant county, has been
engaged in the art of demonstrating
to Demingites how easy it is
for the human race to be made
gags of. By the simple shaving
off of his mustache and donning a
pair of goggles, the party above
referred to has introduced himself
to meet of our influential and busi-
ness men, as well as those of Silver
City with whom he was best ac-
quainted, and played the deaf and
dumb rascal to perfection. Under
the disguise mentioned he has
traded for thousands of head of
cattle, and transacted other busi-
ness of great moment, and after it
was all complete has introduced
himself as he really was—and then
the latter has always been on the

other fellow. None have escaped,
but all have been subjected to the
test and nineteen out of twenty
have bit at the joke and sold Mr.
Holstein more or less cattle while
he claimed to be a mute and did
business with a slate—Deming
Headlight.

Says the Lordsburg Liberal:

Some of the cattlemen in this sec-
tion of the country have recently
learned a lesson. They wanted to
sell some beef and so killed some
of their own cattle, brought the
meat to town and sold it. George
Scarborough, who is hired by the
cattlemen's association to look out
for all violations of the laws, and
B. B. Ownby, the inspector for
this section, got after some of the
men who were thus selling meat.
All the sellers explained that they
were killing their own cattle and
selling their own meat, and the
law had no business to interfere in
such a transaction. It was ex-
plained to them that the law did
have a great deal to do with such
transactions, and that a man can-
not kill and sell his own cattle in
this territory without giving a
bond, that this law was passed for
the benefit of the stockmen of the
territory, and to protect them, and
that cattle owners should be the
last to disobey these laws. When
the men found out that they had
really disobeyed the law they came
up to the justice shop like men,
plead guilty and paid their fines,
and then applied for a license to
kill their own stock.

CATARACH CANNOT BE
CURED

With local applications, as they
cannot reach the seat of the dis-
ease. Catarach is blood or constitu-
tional disease, and in order to
cure it you must take internal
remedies. Hall's Catarrh Cure is
taken internally and acts directly
on the blood and mucous surfaces.
Hall's Catarrh Cure is not a quick
medicine. It was prescribed by
one of the best physicians in this
country for years, and is a regular
prescription. It is composed of
the best tonics known, combined
with the best blood purifiers, acting
directly on the mucous sur-
faces. The perfect combination of
the two ingredients is what pro-
duces such wonderful results in
curing catarrh. Send for testi-
monials, free.

Props., Toledo, O.
Sold by druggists, price 75c.
Hall's Family Pills are the best.

A LIGHTNING EXPERT

Kean St. Charles in Kigman, A. T.,
Mineral Weight.

Gassy Thompson, a famous min-
ing expert from the Sweetwater
in Colorado, was out to the Ora
Plata the middle of last Thursday
and made the usual exhaustive ex-
amination of famous experts. He
was even quicker in his methods
than Smiley, Marcus Daly's chief
rock sharp Sweetwater Bill we
will call him for short, arrived at
the mine. He got there all right,
pulled off his coat and spurs,
crossed his manly bosom and had
the basket lower him to within 15
feet of the bottom of the shaft.

Got out on the ladder with one foot
and yelled to the men in the bot-
tom who were engaged on a three-
foot pay streak worth \$100 per ton,
"Is that the vein? How many
feet from the north end perpendicular
to the south end horizontal?" "Three
feet two and 14 stone
weight," was answered back.
"That is enough," said Bill,
"lower me to the surface."

On arriving at the surface, Bill
does his flick and jotted down
three fingers of the formation and
the strike of the blacksmith. He
took his time, 4 minutes, to render
his decision, that the formation

was all right for gold, but their
people want palladium and ar-
ginium with a smattering of turquo-
ise thrown in to color the water.

As the Ora Plata has only pro-
duced \$500,000 in gold above the
180 foot level, and no turquoise,
the pump was drawn and work
stopped.

Sweetwater Bill is only a sample
of the rock prophets who turned
down Cripple Creek, Randburg
and even Leadville. It is the
highest recommendation a mine or
district can get to have one of
these graduates of a business col-
lege report adversely on a mine or
district. There is not a pros-
perous mining camp on the frontier
but what had to contend with this
manner of bug or rock parasite.
The Ora Plata has won insip-
ing and the district also. It has a
record that speaks itself louder
than the wind of these whis-
pered plagues against which there is no
guarantee. Paddy Miles who is
the next knocker that knows more
than Solomon, that gold is where
you find it. It will take more than
the railroad grade experience of
Sweetwater Bill to turn down a
county that has produced forty
millions of gold and silver, though
he may for obvious reasons, tem-
porarily delay work in one man-
za. The woods are full of these
fellows with red leggings.

Guthrie's Candies at the post office

Says the Albuquerque Citizen:
Thos. S. Hubbard, with a posse of
several men, left yesterday afternoon
for the Indian villages along
the low line canal for the purpose
of notifying the Indians that they
must obey the injunction of Judge
Crumpacker to the effect that they
(the Indians) must not interfere
with the work being prosecuted on
the canal. If the Indians positively
refuse to obey the mandate of the
court, Sheriff Hubbard will give
summon together a big posse of
men and wholesale arrests of Indians
will be made.

THE PLAGUE

At a meeting of the San Francisco
board of health, Dr. Kinney,
the federal quarantine officer, re-
ported that all the animals which
were inoculated with the virus
form the body of the Chinese who
expired a few days ago under sus-
picious circumstances, had died.
The autopsy of the guinea pigs
showed symptoms of genuine hu-
man plague. The board decided
that the Chinese who died had
been afflicted with the plague. A
request was made for 100
volunteer doctors to make a
house to house examination
to aid the board in thoroughly
disinfecting the entire Chinese
quarter. Colorado is taking pro-
tective measures and no doubt
New Mexico will also guard
against the plague.

M. E. CHURCH

The revival services are closed.
Twenty professed special help dur-
ing the meetings; eleven of which
have united with the church. The
proceeds of the lecture by Dr. A. P.
Morrison were \$20, and will be
applied on parsonage debt. We
thank our friends for their presence
at the lecture. The Epworth
League will not meet on Sunday
Prayer service next Wednesday at
which practical talk on Christian
living will be given. All invited
I will be at Kington meeting and
night Sunday.

H. VAN VALKENBURGH.

Pastor.

HOME CULTURE CLUB

The Home Culture Club met
Friday evening, March 9th. As a
number of the members were
absent, the extra time was devoted
to the study of the stars. The
current events discussed were the
"Boer War" and the "Famine in
India." Two select readings,
Shakespeare's "Comedy of Errors"
and an article on science. The
club then adjourned for a week.

Territory of New Mexico, Auditor's
Office—Insurance Department—
Certificate of Publication—
For the Year Ending Dec.
31st, 1900.

Office of Auditor of Public
Accounts, Santa Fe, N. M., Feb.
6th, 1900. It is hereby certified
that the Springfield F. & M. Insur-
ance Company, a corporation orga-
nized under the laws of the
State of Massachusetts, whose
principal office is located at
Springfield, has complied with all
the requirements of the laws of
New Mexico, so far as the said laws
are applicable to said company, for
the year of our Lord one thousand
one hundred. In testimony
whereof, I, L. M. Ortiz, auditor of
public accounts for the Territory
of New Mexico, have hereto set my
hand and affix'd my seal of office
at the city of Santa Fe, the day
and year first above written.

[L. M. ORTIZ] (Signed)
Luis M. ORTIZ
Auditor of Public Accounts.

SHELDON'S EXPERIMENT

Topeka, Kas., March 12.—Rev.
C. M. Sheldon, who edits the To-
peka Capital this week had a con-
ference this morning with visiting
correspondents promising to give
them such information as he could
during the week. At 11 o'clock
he met the working force of the
paper and gave out instructions
for the day.

SHELDON'S RULES

At noon today Mr. Sheldon said
to reporters: "My first editorial
for the Indian villages along
the low line canal for the purpose
of notifying the Indians that they
must obey the injunction of Judge
Crumpacker to the effect that they
(the Indians) must not interfere
with the work being prosecuted on
the canal. If the Indians positively
refuse to obey the mandate of the
court, Sheriff Hubbard will give
summon together a big posse of
men and wholesale arrests of Indians
will be made."

At a meeting of the directors
of the R. K. mine Tuesday, \$1,500
was voted for development work
the present year.

The Mary C. extension of the

Richmond, under lease by Tom-
pson & Co., is proving a genuine
bonanza. The ore vein is 2½ feet
wide, and every ton of the mineral
mined thus far is worth \$375 in
gold and silver.

Quite a heavy snow fell and
frost occurred Wednesday night.
It made the live stock man happy,
but the individual with the bloom-
ing orchard saw nothing to be
delighted about.

—H. M. Porter, the millionaire
owner of the Snake and Opportu-
nity mines, was in the camp this
week and favored this office with a
short call in company with Manager
Hopper. He is well pleased with
the mining outlook here.

Geo. Prentiss, a big cattle
buyer of Kansas City, is in town;
also Mr. Seaman, the El Paso
miner and metallurgist.

Prof. J. C. Carrera, of Los
Cruces, came in on Monday's stage
to arrange for a five ton exhibit of
ores from this camp for the Paris
exposition. The professor engaged
Messrs. Alois Preiser and J. R.
Fick to make the collection.

There will be Theosophical
readings at the home of Mrs. E. H.
Backlund every Wednesday even-
ing, at 7:30. All who are interested
in the subject are invited to attend.

Sierra county angora goat
hides are coming into general use
as fur robes. There is no domes-
tic animal that can so well supply
this great and increasing demand
of the human family as the angora
goat, inasmuch as the skins can be
taken in such a variety of stages.
When the hair has one month's
growth it can hardly be distin-
guished from the astrakhan when
dyed black; and, when taken at
inter periods of growth it can be
made to represent the polar or
black bear robes. Most of the
bulky robes now sold as wild
animal fur are merely goat skins
dyed, from this county. Much of
the fur used for muffs, cloaks, and
trimming comes from the same
source. For these and kindred
purposes fine angora goat skins
sometimes bring as much as \$10
and \$12 in the manufacturing
cities.

Mr. Horace Lockwood, of
Denver, is here to engage in busi-
ness. We welcome the gentleman
to our little city.

Rev. Dr. Morrison's lecture on
the "Young Man of To-day" drew
a large crowd to Union church
last Monday evening. The lecture
was bright and sparkling, instruct-
ive and beneficial.

The Mexican barber shop has
gone out of blast. Reason—it did
not advertise.

Travel is quite brisk, Orchard's
two coaches often being required
to bring the visitors into Hills-
boro.

Bartley O' Kelley, a Hillsboro
boy, took second prize for elocution
at the Silver City Normal
School, the other day.

The E. Page Shoeing and Re-
pairing company, operating two
shops, have struck a huge deposit
of manganese ore at a depth of 220
feet.

Dr. Walker and father, of
Grafton, have bought the Charter
Oak mill and will move it to that

A. L. Taylor is shipping two
places.

At the Cincinnati the ore
chambers are being attacked, and
regular shipments to mill and
smelter will begin next week.

Bull of the Woods shipments
are on the increase.

SIERRA COUNTY MINES.

GREAT CHANCES FOR LUCRATIVE INVESTMENTS.

The Black Range, looked at from any direction, presents a curious aspect, dark and smoky, whose timber-clad peaks cut a serrated line on the horizon. The name "Black Range" is given on account of the heavy forests of pine and pine that grow so thickly all over the country. This range of mountains extends in a northerly and southerly direction and is in length about 120 miles and about forty miles in width. Water and game abound there in plenty, and along the eastern flank of the Range a great belt of mineral—gold, silver, copper, iron and manganese.

The first section showing value is the great silver producing mines of Lake Valley. The mines of this section are enclosed and almost entirely surrounded by a lateral strata of quartzite resting upon dolomite. This is the location of the famous "Bridal Chamber," where \$3,000,000 worth of almost pure silver was extracted in six months.

North Percha and Tierra Blanca, two other great silver camps, are located on this Lake Valley belt, some 18 miles distant. Gold, also, has been found in fascinating quantities in both these latter camps.

The great silver camp of Kingston, at the foot of the Black Range, eight miles from Hillsboro, has produced \$7,000,000 in silver. This camp has experienced two booms, and will no doubt enjoy a third, with fair silver legislation.

The Black Range mineral belt again shows richly at Hermosa, 27 miles from Hillsboro, in a great body of limestone of dolomite character. The silver camp of Hermosa has shipped about \$2,000,000 in silver, and as yet has hardly reached its prime. Free coinage would make it probably one of the most prosperous mining camps in the West.

From Hermosa camp the mineral belt can be traced into the Apache Mining District, of which the town of Chloride is the business center. Here great veins of mineralized quartz crop above the enclosing country formations. Along the eastern contact the greatest amount of work has been done—commencing at Byers Run. Here the vein in one place at the Cliff mine shows a width of more than five feet. Thence looking along the vein we find, all along, evidences of work the miner has done, in piles of ore lying at the mouths of tunnels and shafts. These ores are rich in silver, and carry gold enough to make their working profitable—say from \$8 to \$10 gold per ton.

The next camp is the rich Hillsboro gold district. It is located upon the eastern contact of the mineral belt of the range, the formation of the district where the rich gold ore is found being porphyry. The veins are true fissures. The Bonanza mine alone in this district paid dividends amounting to about \$250,000. Hillsboro also has large and very rich gold placers, which are at last about to be made to give up their vast treasures to the Mesa del Oro Company. Hillsboro is the oldest camp in Sierra County and has produced altogether about \$9,000,000 in gold.

The Midnight mine has been worked to some depth, sufficient to prove its great value. The Colossal mine is another of equal worth.

On the northern slope of Hagan's Peak is located an important group of claims—the St. Cloud, Atlanta U.S. Treasury and White Eagle. On the Treasury a shaft entirely in ore opens the vein to a depth of 140 feet, showing on the 100-foot level an ore body more than 24 feet wide; running high in silver and low in gold.

Crossing the belt we come to the Silver Monument mine which has been sunk to a depth of 400 feet, in bornite ores rich in silver, with a little gold.

A group of claims are now being worked on Mineral Creek near the town of Chloride, and a small stamp mill operating. Two other claims of this district are worth mentioning—the Readjuster and Nordhausen, both containing good ore.

In the Grafton mining district, next on the Black Range is the famous Ivanhoe gold mine. Development work consists of a 250 foot tunnel on the vein, the first-class ore of this property yields 17 ozs. gold per ton.

The Ivanhoe vein enters the Emporia claim, upon which 750 feet of work has been done in ore. Shipment returns of Emporia ore show 13 oz. gold per ton.

The next place along this vein which has been prospected sufficiently to warrant an estimation of value is at Camp Kingsbury, three miles north of the Emporia mine, at which camp is located the Great Republic group of mines. Ore worth 1 per pound in gold has been mined here in places, and general shipments from the whole group have paid handsomely.

A word now to investors or those looking for a country that is sufficient to warrant the putting in of money with a fair and reasonable assurance of being successful in reaping a reasonable profit on the money placed. The different mining sections of Sierra County have been developed to that extent as to leave no question as to their ultimate great value.

There is an abundance of gold and silver here awaiting the coming of those who have the means to bring it to the surface. It is also true that many of these camps are remote from centers of reduction, and therefore the necessity of having some means of handling the low-grade ores near where they are mined.

Come to Sierra County, but come with money. Under these circumstances a rich and profitable field awaits you.

LEGAL NOTICE.

Last Will and Testament of Jose
M. Apodaca, deceased.

To Maria Victoria M. de Apodaca, De-
visor and Executrix; Juan Jose
Trujillo, Francisco Apodaca,
Executors; and Jose Maria de
Jesus Apodaca, devisee, and
to All Whom it May
Concern:

You are hereby notified that the
alleged Last Will and Testament of Jose
M. Apodaca, late of the County of Sierra
and Territory of New Mexico, deceased,
has been produced and read in the
Probate Court of the County of Sierra,
Territory of New Mexico, at regular
term thereof held on the 5th day of
March, 1890, and the day of proving said
alleged Last Will and Testament was, by
order of the Judge of said Court, fixed
upon fixed for Wednesday, the 4th day of
April, A. D. 1890 Term of said Court,
at 10 o'clock in the forenoon or said day.

Given under my hand and the
Seal of said Court this 5th
day of March, A. D. 1890.

THOS. C. HALL,

Probate Clerk.

NOTICE OF FORFEITURE.

To the Louis Thompson Estate
Its Heirs, Executors and
Administrators.

You are hereby notified by the undersigned, W. G. Beals, that during the year A. D. 1890 one hundred dollars (\$100.00) has been expended in labor and improvements on and upon the King Mine and Mining Claim, situate, lying and being in the Bromide Mining District, in Sierra County, Territory of New Mexico, and to which for a fuller and more particular description of said King Mine and Mining Claim reference is here made. And you are further notified that said expenditures were made in order to hold said mine and mining claim under the provisions of Section 2324 of the Revised Statutes of the United States for the year ending December 31st, A. D. 1890, and that if within ninety (90) days after the expiration of the publication of this notice you fail to contribute or pay to the undersigned your proportion of said expenditures as a co-owner or co-owners in said mine and mining claim, your interest in the same will become the property of the undersigned, under said Section 2324 of said Revised Statutes.

Drying preparations simply develop dry catarrh; they dry up the secretions, which adheres to the membranes and decomposes, causing a far more serious trouble than the ordinary form of catarrh. Avoid all drying inhalants, fumes, smoke and snuff and use that which cleanses, soothes and heals. Ely's Cream Balm is such a remedy and will cure catarrh or cold in the head easily and pleasantly. A trial size will be mailed for 10 cents. All druggists sell the full size. Ely Brothers, 16 Warren St., N. Y.

The Balm cures without pain, does not irritate or cause sneezing. It spreads itself over an irritated and angry surface, relieving immediately the painful inflammation. With Ely's Cream Balm you are armed against Nasal Catarrh and Hay Fever.
