Odd Bits of News

Toledo, O.—Clarence R. Feather-
stone, 22, went to great pains to
serve well a customer named Mrs.
Henrietta Johnstone, at the restau-
rant where he was employed as a
waiter. She came every day and he
grew attentive. Then they decided
to marry. At the marriage license
office, the records show they were
mother and son.

Winstead, Conn.—Two months
ago Fritz Helmer, while working in
his garden, lost a \$5 bill from his
work shirt. Shortly afterward, as
he was eating boiled cabbage from
the garden, the bill was found. In
the meantime Helmer had sold hun-
dreds of heads of cabbage.

Benton, Ill.—The modern Enoch
Arden, returning to his wife, first
calls over the telephone. Peter
Schuttler, after a difficulty with his
wife, left Normal, Illinois, seven
years ago. A year later the body of
a man killed by a train was identi-
fied as Schuttler. Returning from
Liverpool recently, Schuttler called
his sister at Normal over the tele-
phone and from her learned that
his wife was about to marry his
brother. Schuttler is now in Nor-
mal trying to effect a reconciliation.

Pana, Ill.—Eight years ago Mr.
and Mrs. Oscar Gootch, of Litchfield
placed their child in an orphan asy-
lum, from which she was adopted
by Mr. and Mrs. George Metzger of
Pana. Gootch then became wealthy
and started to search for his daugh-
ter. He found her recently in Mrs.
Samuel P. Mooney of Pana.

La Crosse, Wis.—This section of
the country has had winter all the
summer. Farmer William Finn got
so angry because the snow had
spoiled his crops that he picked up
a snowball the other day and threw
it at a rooster. That day for din-
ner he ate the first chicken ever
killed by a snowball in August in
the United States.

Gary, Ind.—Gary taxijitneys are
waging a war on fat men. The
drivers get near-sighted when a
fat man stands waving frantically
at them from the sidewalk. Eight
jitneys recently passed by Mayor
Tom Knotts. "Why should we put in
one man who takes up fifteen cents
worth of room?" said a driver. A
five passenger jitney will carry ten
slim steel workers at a nickel each.

Anahac, Tex.—At the time of the
gulf storm of the 16th W. F. Mayes
was alone at his home on the
bank of the Trinity river. He oc-
cupied a room upstairs. The wind
broke out one of the windows and
the rain came in. To keep the
water from dripping down on the
piano in the parlor below he work-
ed until morning mopping up the
water. The river in the meantime
rose to a depth of five feet in the
house and he found the piano
floating around the room.

Greenville, S. C.—Arthur Warren
has put to shame the three wise
men who went to sea in a bowl by
completing a 20 mile cruise on far
river in a bathtub. He sent his
clothes ahead by express and they
were waiting for him when he ar-
rived. Warren says Diogenes and
his tub has nothing on him.

Reading, Pa.—When Edwin Lies-
man, instantly killed by lightning,
was picked up, an almost perfect
likeness of a tree was found in the
smallest detail to have been photo-
graphed on his breast. The tree
was outside the window in which
Liesman was sitting when the bolt
struck him.

New Brunswick, N. J.—John W.
Whiteman was bequeathed his
mother-in-law by his wife who died
recently. She specified in her will
that he was to take care of her
mother for the remainder of her
life, and that if he refused, the
mother was to bring suit against
him for wages for sixteen years of
domestic service.

Washington, D. C.—Ten thousand
dollars was received by Secretary
McAdoo, accompanied by a letter
stating that the writer "had paid
double to the United States he
amount he stole" and this was an-
other payment to satisfy his con-
science. The sum was the second
largest contribution ever received
for the conscience fund.

Davenport, Ia.—John H. Ode, a
night mail distributor, looking into
an old safe, accidentally pressed a se-
cret spring and opened a compart-
ment in which were found \$340 in
currency and checks amounting to
\$3000. The safe was bought in
Leoria forty-two years ago.

Popeka, Kans.—Sherman E. John-
son, 7 year old son of Walter John-

son Kansas newspaper man, issues
a children's daily newspaper. It
consists of one column and several
ads of ice cream parlors. The ads
are paid for in trade. The paper
sells for one cent.

Doylestown, Pa.—Fifteen years
ago Mrs. George Pailey of Bristol
stuck a needle into her leg. When
it was removed the other day
it crumbled to pieces in the physi-
cian's fingers.

homa, taking care of his wheat has
purchased an Overland car and re-

in over two hundred miles.

Mrs. George Ingraham was very
much surprised Sunday when a few
of her neighbors took well filled
baskets for a big birthday dinner,
and visited her. Everybody enjoy-
ed the dinner and ice cream in the
afternoon. Those who were present
were, Mr. and Mrs. Sprague and

WHAT CATARRH IS

It has been said that every third
person has catarrh in some form.
Science has shown that nasal catarrh
often indicates a general weakness
of the body; and local treatments in
the form of snuffs and vapors do little,
if any good.
To correct catarrh you should treat its
cause by enriching your blood with the
oil-food in Scott's Emulsion which is a
medicinal food and a building-tonic, free
from alcohol or any harmful drugs. Try it.

THE CLAYTON NEWS
OFFICIAL PAPER OF UNION COUNTY

CHAS. P. SUTHERS (HIGH)
Editor and Owner

ONE DOLLAR PER YEAR

Entered as second class matter October 26, 1902, at the postoffice at Clayton, New Mexico, under the Act of March 3, 1879.

Saturday, September 18, 1915.

Mr. Guyer says that he didn't; but he did.

The Jimmy is happy. District court has adjourned and the "goose hangs high."

And it didn't erupt—a lot of bum foolishness about "P. High" and other less known celebrities. We feel slighted.

We understand that the city "dads" have appointed a night marshal, and if our information is correct, they certainly did some job.

Some job, this. "Leading the thought," as newspapers are said to do, and having to contend with an old knocker who hasn't had a virtuous thought in forty years.

Honestly, we admit that our "leak from the brain" article was a little rough, but it met with a hearty welcome from a large number of readers who recognized its truth. All editors like to be commented, and that is the reason why Mr. Guyer has such a happy and contented expression.

We are getting tired of this drawn out republican chase for state candidates. Undoubtedly there are some good men who vote the republican ticket in this state; so why not mention them and quit slandering Catron, Sec., Andrews, Larrazolo, Springer and Bursum in the face of an intelligent electorate?

The fair was a grand success and everyone is happy. The big barbecue Thursday, advertised exclusively by the News, and considered another "scoop" by the editor, was the biggest and best ever. It was a real pleasure to see the people enjoy the fine barbecued beef and mutton. A barbecue should be a regular event of the fair.

Farm products at the Union county fair this week thoroughly demonstrated that this is an agricultural country. Owing to the lateness of the season the exhibit was not all that it would have been if the fair had been held two weeks later, as many crops have not yet matured. The exhibits shown were beyond compare, especially for a new country.

What has become of Kitchener's big army of three million men is a question that has haunted pretty clear in the proface of a book which Lloyd-George has written. A great part of it at least lies idle and passive for the want of guns and ammunition with which to fight. The unique feature of this war is that it is as much an industrial as a military contest. That, of course, has been remarked many times; but Lloyd-George puts an emphasis on it which may suggest that few have quite appreciated to what extent the military forces are dependent on the industrial forces of the nation. What must be done to win? Enable the soldiers to create "the triumphant spectacle of their guns pouring out a stream of shot and shell" which will "deluge the trenches with fire and scorch the German legions back across their frontier." Well, one would think that if that verbal picture can be translated into deeds there would be no doubt as to the results prophesied. As the Minister of Munitions sees it, the task of Great Britain is to create mountains of shells.
—Dallas News.

A Pledge

I, John Smith, citizen, by birth or by solemn oath of allegiance, of the United States of America, do resolve from henceforth to avoid the pessimistic negligence, unmanly surrender of prerogative, and unjust default of civic duty that gives opportunity to the demagogue, the dis-

loyal propagandist, the organized strength of "pacifist" weakness; to oppose so far as in my power lies the civic heresies of hypocritical or blind idealism and the treachery that would send Uncle Sam, armed with a broken-bladed jackknife, into international ways where highwaymen lurk; to support my party so far as it promises to uphold the American flag, to defend American rights, and protect American citizens; to endeavor to purify it of factionalism and error, and in every way, by restraint of selfish impulse and cultivation of sanity with courage, to contribute so far as I may to the spread of true Americanism in this time of test. I shall earnestly and unceasingly endeavor to keep my head straight on my shoulders and not twist the other fellow's neck because he is not looking in the direction I do.—New York Sun.

The republicans are showing some anxiety over their candidate for governor, because the cause of Secundo Romero seems to be making headway, and that is something they do not like—it is embarrassing to the extreme. They admit, to themselves, that a ticket headed by him would go down to overwhelming defeat, but they do want him to keep that county of his in line for the grand old party of grafts and stand-patism; so they are trying to shove him off the track without letting him know he is being shoved. They have talked Bursum until they are black in the face, and they are now talking Judge Leahy, of the same county, who is not a candidate for governor, and would be easy picking for the democrats if he was, but they live in the hope that Sec may take a notion to support him and get out of the way himself.

There is a third man in the field for the nomination for the United States senate on the republican ticket, at least there are a number of very influential republicans who are quietly passing the word around that neither Catron or Larrazolo can be nominated, which is taken to mean that the third candidate is in the field. As yet no man outside the combination has obtained the name of their candidate, but that the Catronites have sensed something to be wrong is evidenced by their frantic efforts to fix things up in Bernalillo, where the leading members of the Ortiz family are on the war path against Catron because of some bad deal in which they think they got the worst of the manipulations. Rumor has it that Spies, Black Eagle of San Miguel county, may be the dark horse candidate, and it is just possible, of course, that the rather efficient politician from San Miguel county will not throw over such an opportunity, if it offers.

Bio Arriba county has been forced to issue certificates of indebtedness for more than five thousand dollars on account of the workings of the new county salary law. This, of course, is in addition to all the available funds, including all the fee money collected for three years, and is considered to be an indication of what is going to happen to the taxpayers generally when that law gets to working as it was intended to work. The county salary law was involved in the senate journal falsifications. It is a very suggestive fact that the majority of the bills involved in that little political deal, and forced upon the people of the state as laws, certainly high and costly pieces of legislation. Every month or so a new county drops into the certificate of indebtedness class. A certificate of indebtedness is a polite name for a note, and indicates that the officers of the county, having absorbed all available funds, are entitled to still more money under the new law. The counties strong financially can pull through without issuing certificates, but the weaker ones get caught. The new salary law is an expensive political proposition.
