The repulse of small Russian attacks in the Lake Narocz region of Russia, successful raids by the Germans in Galicia, near Zloczof, where 250 Russians were taken prisoner, and small attacks in the wooded Carpathians, with the advantage resting with the Austro-Germans are reported by Berlin. In the latter region, however, Petrograd claims a repulse by the Russians of the Teutonic allies near Doronawatra.

While Congress was discussing the situation, the White House formally announced that President Wilson personally would take charge of the investigation recently ordered to be made by the Federal Trade Commission.

The Senate "bone dry" amendment to the postal bill prohibiting shipments of liquor into states which have prohibition laws was accepted by the House, 321 to 72. GOVERNOR DEBACA DIES

NEW MEXICO OFFICIAL PASSES AWAY AT SANTA FE.

Was Ill When Sworn in and Strain of Exercising His Functions as Executive Lessened Chances of Recovery.

Western Newspaper Union News Service.

Santa Fe, N. M.—Governor E. C. de Baca died Sunday afternoon at 4 o'clock of pernicious anaemia.

Governor de Baca had been ill for some time, failing health forcing him to take only a minor part in the campaign for his own election last fall. He was sworn in virtually on a sick bed, barely a score of persons attending his inauguration, which was held in his room in a local sanitarium. The end came so peacefully that for several minutes it was thought the governor merely was sleeping. With

Governor E. C. de Baca.

him at the time were his wife, his nurse, two sisters of charity, Archbishop J. B. Pitaval of New Mexico and his private secretary, Miss Clara Olson, whom he had caused to be summoned a short time previously, saying he wanted to do some work. He made a number of appointments on the 18th.

Washington E. Lindsey, Republican of Portales, Roosevelt county, is now governor of New Mexico, having been sworn in in the Supreme Court room by Justice C. J. Roberts, succeeding E. C. De Baca. Democrat, whose death occurred at St. Vincent's sanitarium here Feb. 18, as the result of a prolonged illness with pernicious anemia. The body of Governor De Baca was taken to the executive mansion on the 19th. Wednesday it was removed to the main corridor of the capitol building. A special train left Thursday, the 22nd, bearing the body to Las Vegas, where burial took place.

John S. Clark of Las Vegas will succeed Mr. Lindsey as president of the Senate. Mr. Clark has been acting as Republican floor leader in that body. Senators Reinburg of Santa Fe, and Kaseaman of Albuquerque are variously spoken of as his probable successor.

Women May Get Right to Vote.
Santa Fe.—As the constitution provides only that women may not vote for "officers" in New Mexico elections, a bill was introduced in the Senate conferring on women the right to vote on constitutional amendments. RIGHT TO SEIZE FOOD DEMANDED

ILLINOIS SENATOR URGES DRASTIC LAW TO FORCE DOWN PRICES OF FOODSTUFFS.

STOP EXPORTS OF FOOD

RUTHLESS WARFARE MAKES GREAT SACRIFICES NECESSARY DECLARES LLOYD GEORGE.

Western Newspaper Union News Service.

Washington, Feb. 24.—A measure authorizing the President to seize and sell foodstuffs whenever he believes a monopoly to exist was introduced in the Senate by Senator Lewis of Illinois. Mr. Lewis offered his proposal as an amendment to the revenue bill now pending before the Senate, and served notice he would bring it up for consideration at the first opportune moment.

The Lewis amendment authorizes the President, whenever in his judgment food and necessities of life are being monopolized and wrongfully held by persons in the United States for the purpose of making unjust increases in price, to proclaim the fact, and then seize the food through due process of law.

Other measures introduced in Congress to meet the food emergency included a resolution offered by Representative Lindbergh of Minnesota calling upon the controller of the currency to inform Congress how much money the banks of the country have loaned on food warehouse receipts.

Mr. Lindbergh believes there has been much speculation in food products and that such information would disclose the persons he believes responsible for existing high prices.

Senator Martine of New Jersey offered a resolution declaring an embargo on the exportation of food stuffs from the United States.

During the day also a conference was held by Republican senators who believe Congress should act to relieve the food shortage before it adjourns.

London, Feb. 24.—Premier Lloyd George said in a speech in the House of Commons that the success of the allied cause depended on the ability to solve the tonnage shortage, which was now affecting the ordinary needs of the nation and military exigencies. The situation, he declared, called for the gravest measures. The premier said there was no sure way to victory without hunting the submarines from the deep.

Enormous sacrifices were necessary from the British public, said Mr. Lloyd George. He stated the government proposed to dispense with all non-essential importations to save tonnage.

Industrial Board Deadlock Broken.
Denver.—The deadlock in the Senate over the confirmation of Governor Gunter's appointees to the State Industrial Board has been broken, and Hiram J. Hiltz, A. Newton Parrish and George Warren Denstone named to take the places of John C. Pearson, Joel Grantham and Daniel C. Burns, and they were confirmed by the Senate.

U-Boat Kills American Preacher.
Washington.—Robert Allen Haden, an American Presbyterian missionary stationed at Foo Chow, China, perished when the French liner Athos was destroyed by a submarine 210 miles east of Malta on Feb. 17.

SPECIAL SESSION OF SENATE.
Private Oath to Be Administered to President March 4.

Washington.—Plans for President Wilson's inauguration, hitherto indefinite because March 4 falls on Sunday, were cleared by announcement that the usual special session of the Senate will be called for March 5 to consider nominations. This will permit the inauguration of the vice president in the Senate chamber, as is the custom.

President Wilson himself, it also was announced, will take an oath of office privately in the White House Sunday, March 4. It was not made clear whether he has decided to take the oath again at the public open air ceremonies on the plaza at the capitol on March 5 or whether he merely will make the ceremony the occasion for delivering his inaugural address.

Spain Acts for Germany.
Washington.—At the request of the German government Spain has taken over German consular interests in Porto Rico and Hawaii.

A movement is on foot this week to organize a Co-operator Mercantile Store in Lovington. The Company is to be incorporated for about \$40,000.00 or \$50,000.00.

The organization of this store will be a great step forward in reducing the cost of groceries and supplies to the stock holders of the company, as all who hold shares in it will get their goods at cost.

These stores have proven to be a success in all parts of the country. It is nothing more or less than the banding together of one or two hundred people, under the incorporate laws of the State, to buy their supplies together and save the profit of the middleman.

Quite a number of people in and around town have signified their willingness to join the movement.

Lovington is soon to boast of a first class Bakery. Mr. Ed Ault will start a building especially designed and arranged for this purpose, the first of next week. The new business will be located on Mr. Ault's lot next to the Whitfield and Magness Auto Supply Shop. The bakery will be owned and managed by a Mr. Fite of Oklahoma whom we understand is an A No 1 baker. Scott News

We are still having fine weather for this time of year. All of us hope that it will continue.

There are a great many prospects coming through the country looking for homes, some wanting to buy while others are looking for government land, there is very little of either that they will be able to find on the plains.

Most all of us are satisfied with the plains country, we know we have a good thing.

Cattle are wintering fine with the exception of a few that have lice.

A good many dipped their cattle last Monday at Mr. Jim Simpson's, had fine weather for the work.

There are a good many calves changing hands in the Scott settlement and bringing good prices.

Mr. Harve Burrows is up after a lingering illness.

J. H. Grice has been sick for some time, but we are glad to learn that he is improving right along.

Mr. A. J. Davis just returned from Idaho where he went for a load of freight, said that the road was good as there had been enough rain to settle the sand so that it did not fall in the ruts.

A good raip would be greatly appreciated now, but seems that high winds are the order of the day.

It seems that a new county is sure to come, what will Texas go to?

Orders Are Orders.
The new doorkeeper at the museum turnstile had learned a book of rules by heart before taking over the job.

"Here, sir, you must leave your umbrella at the door," he said to a visitor who had failed to hand over that article.

"But I haven't an umbrella," the visitor pleaded.

"Then go back and get one," said the keeper. "No one is allowed to pass in here unless he leaves his umbrella at the door."

Canada's Liberal Offer of Wheat Land to Settlers

is open to you—to every farmer or farmer's son who is anxious to establish for himself a happy home and prosperity. Canada's hearty invitation this year is more attractive than ever. Wheat is much higher but her fertile farm land just as cheap, and in the provinces of Manitoba, Saskatchewan and Alberta.

SEVEN YEARS AGO AND TO-DAY

Then He Had 6 Mules, \$600 Cash and Some Equity—Today He Has \$20,000 and Owns 2 Sections of Land.

The story of the wealth of Western Canada cannot be told too often; the truth will bear repeating. And in telling of it is hoped that advantage will be taken of the great opportunities that Western Canada offers by those who are today struggling for a mere existence, by those who are occupying lands, high in price and high in rentals.

From grain, live stock and dairying in 1910, there was a return from the three Prairie Provinces of \$28,000,000, or an increase of four million dollars over 1915, and 118 million dollars over 1914.

A prominent Trust Company says: Some of our contract holders have paid off their purchase money on lands bought a year ago out of this year's crop, and what one man can do another can do. Thousands of Southern Alberta farmers harvested an average of 40 to 50 bushels of No. 1 wheat to the acre. These farmers have more real money to spend than any other people on the American Continent. J. D. Johnston of Hildsworth, Sask., left Johnson County, Kansas, seven years ago. When he left he had \$600 in cash, six mules, some settler's effects and an equity in some prairie land.

"In my seven years' residence in Saskatchewan, I have raised seven good crops the value of this year's crop alone being Twenty thousand dollars. I now own Two Sections of improved land, 17 horses and mules, 40 cattle, a large steam thrasher and a full line of farm machinery."

We have made five trips to Kansas, one trip to the Pacific Coast and return. We have enjoyed the society of a class of people than whom none better can be found. The climate is healthful and invigorating. The soil is fertile and productive, well adapted for the production of the best quality and large yields of all cereals and vegetables, wild and tame grasses. It is an excellent stock country."

The question of taxes is one that carries with it considerable weight. Coming from a man like Mr. Johnston the same weight should be given the answer. He says: "The tax system especially commends itself to me as being simple, reasonable and just. All direct taxes are levied on the land at its appraised market value, exclusive of improvements thereon. No tax on personal property. This tends to discourage the holding of lands by speculators who prevent its cultivation or improvement, hoping to realize profits from the enhanced value of their holdings due to the industrial activities of the bona fide settlers. It tends to encourage the settlers to rear substantial improvements upon their land without paying a penalty in the form of taxation therefor. It encourages the raising of live stock and the possession of other personal property necessary to the development of the country."

"The laws are well and economically administered. Citizens of the Dominion vote on election of members of parliament and members of the Provincial assembly, while on questions of local improvements and school matters the franchise is exercised by rate-payers, irrespective of citizenship. The people are enterprising, school facilities are good, taxation, just and reasonable. Military service voluntary. Patriotic fervor unsurpassed, law and order the rule, and crime the rare exception. It is the land of banks, schools, telephones, grain elevators, brood, fertile acres, good climate, good citizenship and abounding in opportunities for the industrious man or woman of good morals. In short, the land of promise and fulfillment. I know of no better anywhere."—Advertisement.

Feel Achy All Over?

To ache all over in damp weather, or after taking a cold, isn't natural, and often indicates kidney weakness. Uric acid causes many queer aches, pains and disorders of the organs. Well kidneys keep uric acid down. Slow, steady, constant people would do well to try Doan's Kidney Pills. They stimulate the kidneys to activity and so help clear the blood of irritating poisons.

A Colorado Case
Mrs. J. B. Williams, Denver, Colo., says: "I suffered a great deal from pain and weakness in my back and it felt as though a heavy weight was on my back. I had sharp pains through my kidneys and I couldn't get much rest. The action of my kidneys was irregular and the kidney secretions were unusual. I tried Doan's Kidney Pills. I felt better and my back was straightened. I got Doan's of my drug store. He has Doan's Kidney Pills. POSTER-MELROSE CO., BUFFALO, N. Y."
