County Clerk

Vol. I.

East Las Vegas, New Mexico, Thursday Evening, March 17, 1892.

No. 79.

## LATE NEWS.

### ARRESTED.

**DEMING, March 17.**—Frank Siebold, cashier of the defunct national bank here, was today arrested for transactions connected therewith and taken to Silver City, the county seat.

### SUGAR REFINERY BURNED.

**PHILADELPHIA, Pa., March 17.**—Fire which originated in one of the kilns in the drying house of the Spreckels sugar refinery at 4 o'clock this morning, completely destroyed that building, causing a loss estimated at \$150,000.

### DEFAULTING TREASURER.

**NASHVILLE, Tenn., March 17.**—A Chattanooga special says: This morning suits were ordered in the chancery court by attorneys of the Catholic Knights of America against the bondsmen of Major M. J. O'Brien, the defaulting treasurer of the order.

### ACCEPTED THE OFFER.

**NEW ORLEANS, March 17.**—The Olympic club tonight accepted the offer of Sullivan and Corbett to fight in its arena September 7, for a purse of \$25,000, and will forward articles tomorrow. Each man will be required to put up \$25,000 forfeit to guarantee his appearance in the ring.

### AFTER REFINERIES.

**PHILADELPHIA, March 17.**—The belief is general among business men in this city that the American Sugar Refining company, commonly known as the sugar trust, is making an extraordinary effort to secure possession of the three independent sugar refineries in this city, with good chances of success.

### BRITISH IRON CLADS.

**ALEXANDRIA, March 27.**—Nine British iron clads have arrived here. The object of their visit is to receive a yonk parha, the sultan's envoy, who is the bearer of the firman of vestiture of Prince Abbas, as khedive of Egypt. Ayoub Pasha is also the bearer of the grand cordon of the order of Mdjideeh, with diamonds which the sultan has conferred upon the khedive.

### STRUCK ASBESTOS.

**DENVER, March 17.**—A special from Caspar, Wyo., says: Asbestos was struck by the Abe Nelson in very large quantities last week. It is of a very fine texture. S. A. Carrier has found a vein of copper, so rich that it almost equals the famous mines at Copperopolis, California. Excitement is increasing and even private citizens and business men are prospecting.

### AN EXPLOSION.

**PITTSBURG, Pa., March 17.**—A special from Warren says: The Paige Tube works, of this place, exploded at 1 o'clock this morning. The entire building was wrecked. Cyrus Milton (colored) was instantly killed; William Shannon, of Pittsburg, electrician badly injured; Wm Barnaby and James Jackson badly hurt. Loss \$20,000.

### FACTORY TO BE CLOSED.

**BOSTON, Mass., March 17.**—S. A. Southwick, who has manufactured kip leather for the past 30 years in Peabody, and who has never shut down on account of dull business, will close his factory the middle of this week for an indefinite period, and may never resume business in Peabody again.

### POUL PLAY FRARED.

**DENVER, March 17.**—John Dawson, supposed to be from Cortes, Montezuma county, New Mexico, engaged rooms at the Colfax hotel March 8th, and on the same evening suddenly disappeared, leaving his baggage and clothing except that he wore at the time. Since then he has not been heard from and as the police fear foul play they are investigating the case.

### A REMARKABLE CAVE.

**DENVER, March 17.**—A special from Ouray, says a remarkable cave was broken into in the Ironclad, near the American Nettle, on the gold belt. It is a vast body of honey-combed quartz. The extent of the formation is not known, but it is six and one-half feet high, extends into the mountain to an unknown depth, and is similar in character to some of the very rich caves found in the American Nettle. It is believed this gold bearing body of honey-combed quartz extends into the mountain for hundreds of feet, and if so there are millions in it.

### TROUBLE ON THE CANADIAN PACIFIC.

**WINNIPEG, Man., March 16.**—Concerning the Canadian Pacific company's difficulty with its employees, an associated press correspondent this morning interviewed Mr. Wilkinson, chief of the brotherhood of trainmen and Mr. Garroton, grand senior conductor of the order of railway conductors. Mr. Garroton said: "Mr. Wilkinson and myself are here to endeavor to get an increase in wages for the Canadian Pacific employes on the western division. We anticipate an arrangement, but our committee has the power to force a strike. By this evening a strike or a settlement must take place."

### ANOTHER TRUST.

**NEW YORK, March 17.**—An evening paper says: A trust including the leading ribbon manufacturers of the country is being organized, and it is the intention to start on a basis of a capital stock of \$20,000,000. Circulars have been sent out urging this combination and showing the advantages of such a union. The plan in the circular is similar to that in the cigarette trust, and the manufacturers will receive stocks and bonds for the amount of their property. It is understood that a number of large manufacturers favor the plan, yet some firms whose influence would be needed are hesitating to enter the scheme.

### THE DENVER & EL PASO RAILROAD.

O. L. Houghton returned from Denver last night very well satisfied with the success of the trip, but much worn with the hard work of the past few days.

The organization of the company has been perfected, consisting of the best men in Denver, and they are fully satisfied the road is just what Denver needs, and will as soon as built become an important road. Gov. Evans said that it is the most feasible, practical and common sense railroad proposition ever submitted to the Denver people.

The surveys will soon be completed, after which the right of way will have to be secured, and then the cities and towns along the line will have to subscribe in order to start the construction. Capitalists say that if people along the line are sanguine enough to put up the amount of money necessary to start construction they will furnish the balance.

Now is the time for the people of Las Vegas to work and do all they possibly can for the road. The building of this road means that Las Vegas will be a city in a very short time, and we certainly can afford to put all the energy possible into it.

A prospector claims to have discovered a remarkable vault in the mountains near Phenix, the floor of which, he tells the Herald, was covered with large human skeletons and relics of a prehistoric race. At one side was a bronze door, and when he forces this open he expects more wonders to be revealed. He guards his secret very carefully. If half he tells is true the find will be marvelous from an archaeological standpoint, if from no other. It sounds like a fairy tale, and it strikes one as strange that the prospector didn't return with some of those marvels to substantiate his tale.

### IRRIGATION CONVENTION.

At the afternoon session a permanent organization was effected by the election of Gov. E. S. Stover, of Albuquerque, as president, and J. H. Crist, of Santa Fe, as secretary.

A vice president for each county was elected, after which the convention adjourned till this morning.

At the morning's session of the convention the reading of the minutes was omitted; no addresses were made by the delegates, but a few very important resolutions were passed. Letters were read from many persons, regretting their inability to be present. It convenes at 7:30 this evening.

In the committees is where the work is now being done.

On account of several members of the editorial association being obliged to leave tonight the convention adjourned at 4 o'clock this afternoon and the statehood meeting was held at that time. On this account there will be a session of the convention after supper tonight.

The following are additional names on the convention register today:

W G Marmon, Laguna; P A Simpson, Albuquerque; A Cortesy, W E Kelly, Socorro; Louis Hunning, Los Lunas; John Becker, Belen; Felipe Delgado, Santa Fe; J G Chavez, Valencia county; Pablo Beaubien, Fort Sumner; M C de Baca, Albuquerque; W B Branton, Shoemaker; E T Webber, Santa Fe; C F Easley, Cerrillos; G C Gibbon, Socorro; W P Cunningham, Cerrillos; A M Bergere, Solomon Luna; Clark M Carr, Ft Wingate; J Y Lujan, San Miguel; W F Dobbin, Santa Fe; H L Ross, White Oaks; J C Cross, Denver; J J Schmidt, Wagon Mound; Camillo Padillo, Mora; J R Livingston, Las Cruces.

Santa Fe county has the largest delegation in the convention.

The Las Vegas brass band were out in full force this morning, and the selections played were of the best; but "practice makes perfect," boys.

### ABOUT SAN PEDRO.

The other day J. H. Gilmore, a friend of Billy Sanguinette, went to San Pedro, and in a letter to the latter gentleman Mr. Gilmore states that the Copper company is arranging to start up its smelter in full blast this week and that a large number of men are at San Pedro waiting for a chance to go to work. The Lincoln-Lucky is working about thirty men, and has just finished the erection of a new hoisting plant. They expect to commence hoisting ore the middle of next week. The Congress mine, so states the gentleman, is working a few men, and the Gold Prospect, between town and the Copper mine, has also a few men at work. There is about sixty men at work on the Copper company's mines, and it is understood that the force will soon be increased.—Citizen.

### TERRITORIAL

Some \$60,000 worth of dwellings and other buildings are going up in Eddy.

Hon. A. B. Fall, of Las Cruces, has gone to Washington. It is understood that the object of his visit is to interview the state department in relation to the extradition cases in which he is retained as attorney.

Lake valley notes: There is a great deal of prospecting being done in this vicinity lately, with fair success. \* \* \* Rains are becoming frequent, which maketh the face of nature smile and the cattlemen look happy.

The Penasco and Felix companies, of Dona Ana and Lincoln counties, have sold 4,000 head of cattle to Kansas parties. The prices they receive for the steers they ship are \$13 for 2s and \$17 for 3s. The cattle will be shipped from Clayton on the Denver & Fort Worth.

The Albuquerque papers have good reports of the convention.

The Bank of England holds \$121,687,888 in gold in its banks.

A canvas of the Democratic house shows a two-thirds vote in favor of free and unlimited coinage.

Don't let the convention make you forget that we want to elect the whole Republican ticket this spring.

It is believed by scientists that if diamonds are ever found in this continent in mining quantities, Mexico, New Mexico and Arizona will supply them.

A few days since Phenix, Ariz., shipped from one of her big mines the largest bar of gold ever cast in the southwest and which weighed 340 pounds.

It is much to be regretted that the irrigation convention commenced its labors with such bad weather, but it did not dampen the enthusiasm of members at all.

Frank Blake has secured a change of venue in the case where he is charged with sheep stealing from Valencia to Bernalillo counties. We have no doubt he will be acquitted.

We have received a circular from New York City, wanting us to take the agency for the parties "Goods," but as we are too busy will turn over to some more enterprising party who wants to take the risk of handling that kind of money. Don't too many call.

From the vast amount of silver bullion daily leaving this country for Europe, a probable but temporary advance in the white metal may be put down as certain to occur soon when foreign speculators will reap the benefits of a raise.

Dave Hill has gone south on a fool's errand.—Albuquerque Democrat.

It will be hard to take all that back and support that fool this fall, but its what the Democrat will likely have to do.

The total amount of silver coined in the United States since January, 1892, is given at \$2,000,000. For the same period, gold is given at over \$5,000,000. This shows what the depreciation of the silver dollar is doing.

The report of the census Bureau shows that "the average earnings of all persons employed at the gold and silver mines during the year 1890 were \$725 a year, while the average output per man amounted to \$1,723 a year.

The great irrigation convention meets in Las Vegas today, and much is expected of it in the way of a clear, strong, authoritative expression of opinion on the subject, by those most interested. If the act passes ceding the arid lands to the states and territories, another convention will be in order.—Albuquerque Democrat.

The news from Alabama, in a dispatch is that the Hill men have been quietly getting the delegates. The next Democratic state convention will be composed of 466 delegates, of whom 159 have already been elected. Careful inquiry into their presidential preferences develops that 104 are for Hill for first

choice, 40 for Cleveland at all hazards and 15 are for the man who shall appear most available. The Alliance vote of the state is going solidly to Hill, and every Alliance trader and all their papers are outspoken for him. This result is not so much sympathy with Hill's silver views, the Alliance being for free coinage straight, but he is regarded as a sort of man of the people as contrasted with Mr. Cleveland, whom they denounce as Wall street's candidate. In other words, the Alliance people are falling in line with Senator Pugh, of Alabama.

## WORLD'S FAIR WORK.

Mrs. Albright left for Las Vegas by this morning's train, for the purpose of organizing committees of ladies at that place to take charge of the women's work in San Miguel county for the World's Fair. This is a matter that all the ladies of the territory should interest themselves in. It is very important that we should be well represented in the line of women's work, and, as this is left entirely to the ladies, it devolves upon them to attend to it. The members of the board for New Mexico are working industriously, and putting forth their best efforts, but they must have the assistance and active co-operation of other ladies in all parts of the territory in order to make the department what it ought to be, and what the people of New Mexico would like to have it. Let the ladies everywhere, take hold of the matter in earnest, and show to the world that they are not behind their sisters of any other part of the country in either ability or energy.—Citizen.

## WEATHER REPORT, FEBRUARY, 1892.

The average temperature for the month was a little above the normal. The highest monthly mean was 52.0 at La Luz, Dona Ana county, the lowest monthly mean was 28.5 at Monero, Rio Arriba county. The highest temperature reported was 73 at La Luz, on the 23d, and the lowest was 7 degrees below zero at Dulce, Rio Arriba county, on the 11th. The highest average daily maximum temperature was 64.4 at Socorro and the lowest average daily maximum was 42.8 at Santa Fe.

The highest average daily minimum was 40.8 at La Luz and the lowest average daily minimum was 12.4 at Dulce.

The greatest local monthly range of temperature was 67 at Folsom and the least local monthly range was 39 at Albuquerque.

The greatest average daily range of temperature was 35.7 at Folsom and the least average daily range was 15.9 at Santa Fe.

The precipitation for the month was considerably above the normal and heaviest in the northwestern part of the territory.

Greatest total monthly reported was 3.95 inches at Chama, and the least was 0.13 of an inch at Antelope Springs. Greatest total snowfall was 35.5 inches in Chama, and but very little snow was reported from the southern part of the territory. No snow remained on the ground except at a few stations, at high altitudes, in the northern part of the territory.

The average number of cloudless days for the territory was 18; fair or partly cloudy 6; cloudy 5. The average number of days on which the precipitation equaled or exceeded 0.01 of an inch was 4.

Thunderstorms were reported from several stations on the 3d, 20th and 27th. Prevailing direction of wind for the territory was west.

H. B. HERSEY,  
New Mexico Weather Bureau,  
Santa Fe, N. M., Mar. 12th. '92.

## WHY EGGS SPOIL.

Eggs spoil of ineffectual attempt to hatch. Whenever a fertilized egg is raised to a temperature of 92° the hatching process begins, and when the temperature falls much below this point the process ceases.

These conditions are found in the warm days and cool nights of summer. During the long hot days the hatching process is at work; during the short cool nights it ceases. After three or four alterations of this kind the embryo chick dies, and the rotting process begins. Now it is evident that if the eggs were not fertilized the hatching would not begin, neither would the rotting, and hence

there would be an absence of rotten eggs.

The remedy, therefore, is to prevent fertilization of the eggs, and this can be done by the destruction of the roosters. Every rooster not intended especially for breeding should be killed or sold to the butcher as soon as big enough to eat.

Not over one good rooster should be kept on any farm, and that one cooped and mated with not to exceed ten hens, and the eggs of these hens should be kept expressly for hatching. The other hens should be kept especially for eggs for the market or table use, and no rooster should be allowed among them. On the ordinary farms about one-tenth of the fowls are roosters, which is about

LAS VEGAS.

Las Vegas (the meadows), the largest city in New Mexico, is the county seat of San Miguel county, the most populous and wealthy county of the Territory.

It is situated in latitude 35 degrees 40 minutes north, on the Gallinas river, at the eastern base of the Rocky Mountains, at an altitude of about 6,500 feet above sea level. A few miles to the west are the most fertile and productive valleys of the Territory.

The town is lit by electric light, has water works, gas, street-car line, telephone exchange, a daily paper, churches, academies, public and private schools, a number of solid banking and financial institutions and mercantile houses, some of which carry stocks of \$250,000, and whose trade extends throughout New Mexico and Arizona.

The town is lit by electric light, has water works, gas, street-car line, telephone exchange, a daily paper, churches, academies, public and private schools, a number of solid banking and financial institutions and mercantile houses, some of which carry stocks of \$250,000, and whose trade extends throughout New Mexico and Arizona.

The valleys of the mountains are very rich and fertile, producing wheat, oats, corn, grass, etc. in abundance. East and south of the town and likewise tributary to it, are the vast and well grassed plains and valleys of the Canadian and Pecos rivers and their tributaries, constituting the finest stock raising country already well occupied with prosperous cattle raisers and wool growers, who make Las Vegas their business town and supply point.

Water is supplied by a gravity system of water works, the water being taken from the river seven miles above the city, and has a pressure of 140 lbs. While so far there are no producing mines very near Las Vegas, the prospecting done has developed the fact that there are some very good prospects here that will, with proper working, soon pay well. Machinery has lately been purchased by some of these, and, undoubtedly, they will soon be making a regular output.

Five miles northwest of Las Vegas, where the Gallinas river breaks out of the mountains, are situated the famous Hot Springs. The river here runs from west to east, and the springs are on the south bank almost central in a natural park, surrounded by pine clad and picturesque mountains. The water of the springs is as clear as crystal, of a high temperature and the mineral constituents are so subtly dissolved and blended as to render it wonderfully beneficial to the human system.

The advantages possessed by the mineral water, the climate is one of the finest in the world. The Montezuma hotel there is very commodious, splendidly furnished and the management and tables are all that can be desired, and the accommodation for guests is unsurpassed anywhere. The bath house is large and very complete in its appointments.

A branch line of the Santa Fe railroad runs from Las Vegas to the Hot Springs, connecting with all trains. At present round-trip tickets are sold from Kansas City and eastern points to the Hot Springs good for ninety days at greatly reduced rates. About 15 miles above the Hot Springs, at Hermit's Peak, generally called Old Baldy, a detached spur of the Rocky Mountains, some of the finest scenery in New Mexico. The peak is broken abruptly off on its face, rising almost straight up 2000 feet, with on the south side of the mountain the river cuts through, coming from the top of the range, in a narrow canon over 100 feet deep, rising in some places without a break the entire distance. Good fishing and hunting can be had in the mountains anywhere from 20 to 30 miles of Las Vegas.

The average temperature for the year 1891 taken at the Montezuma Hotel each day was as follows: January, 49 degrees; February, 53; March, 55; April, 59; May, 62; June, 70; July, 75; August, 77; September, 79; October, 81; November, 82; December, 83.

San Miguel is the capitol county of New Mexico. It is on the average, one hundred and eighty miles long by ninety-five miles wide, and containing about 8,000,000 acres, embraces within its boundaries rugged and wooded mountains, extensive plains and fertile valleys. Its elevation on the east is about 8,000 feet and on the west 7,000. The thirty-four parallel of latitude runs centrally through it. It is bounded on the north by Mora County, on the south by Bernalillo and Chavez Counties and extends from the summit of the main range of mountains on the west to the Texas Panhandle on the east. It is well watered by the Canadian, Pecos, Gallinas, Sapello and Teocote rivers and their tributaries. Between the Sapello and the Gallinas the great divide which separates the waters flowing into the Mississippi from those flowing into the Gulf of Mexico, rising from the plains to the highest range in the Territory, capped with eternal snows. The culmination of the mountains at such a great altitude, twelve thousand feet, causes a great accumulation of snow, which constantly freshes off into and through the valleys below. The Mora, Sapello, Gallinas, Teocote and Pecos streams all have their sources in the same mountains and nearly in the same locality. The precipitation of moisture on the eastern slopes of the mountains by rain and snow is greater than in any other portion of the Territory.

New Mexico is as large as all the New England States together, with New York and New Jersey thrown in. It is about equally divided in grazing, agricultural and mining lands. Millions of acres, rich in resources, are waiting to be occupied. It has the precious metals, coal, iron, stock raising, agricultural, horticultural and grape lands, splendid scenery, more sunshine, more even temperature, more exhilarating atmosphere, than any other country on this continent, few taxes and an active home market for all agricultural products.

New Mexico wants manufacturers of every description, more farms, gardens, orchards, vineyards, miners, stock raisers—a million more industries people to develop its resources and make for themselves comfortable homes. There is no better field for profitable investment of capital.

REPUBLICAN CALL.

A convention of the Republican party of New Mexico is hereby called to meet at Silver City, N. M., on the 14th day of April, 1892, at 10 o'clock a. m., to select delegates to represent the Republican party of New Mexico at the national Republican convention to be held at Minneapolis, Minn., on June 7, 1892.

The several counties of the territory are entitled to representation as follows:

Table with 2 columns: County and Delegates. Bernahillo 14, Chaves 1, Colfax 5, Dona Ana 7, Eddy 1, Grant 7, Lincoln 9, Mora 5, Rio Arriba 10, San Juan 1, San Miguel 13, Santa Fe 10, Sierra 6, Socorro 6, Taos 7, Valencia 10.

County committees are requested to make all proper arrangements for the holding of county conventions, which shall not be held later than April 9, 1892.

County conventions shall be composed of delegates chosen at Republican mass meetings.

County committees will arrange for calling precinct mass meetings, which meetings shall be held not later than March 24, 1892. In the event of the failure of the county committee to issue the call for such precinct mass meetings and county conventions, and in counties where there may be no county committees, then such call shall be issued by the member of the territorial central committee for that county whose name stands first on the roll.

The chairman and secretary of precinct meetings will certify to the chairman of the county committee a list of delegates elected to the county convention.

The chairman and secretary of each county convention shall certify a list of delegates elected to the territorial convention, and mail the same to the secretary of this committee at Santa Fe, N. M., not later than April 10, 1892.

Under existing rules no alternate to the territorial convention can be elected, and no proxies will be recognized unless properly executed and given to persons resident of the county from which the delegate giving the proxy was chosen.

R. E. TWITCHELL, Chairman.

MAYOR'S PROCLAMATION.

Notice is hereby given, that in accordance with the provisions and requirements of the laws of the Territory of New Mexico, the annual election of municipal officers for the town of East Las Vegas for the ensuing year, will be held on the first Tuesday of April, A. D. 1892, being the 5th day of April, which election there will be voted for the following named officers:

One Mayor, for said town, to hold his office for the period of one year. Two members of the Board of Trustees, to hold office each for two years. One Marshall, to hold office for one year. One Town Recorder, to hold office for one year.

The place of holding said election will be at the building on Sixth street in said town now used and occupied temporarily as a town hall.

At said election, the polls will be opened from 8 o'clock in the morning and continue open until 6 o'clock in the evening of said day, at which election all qualified electors of this territory, who shall have actually resided within the limits of said town for a period of not less than 30 days prior to the day of said election, and who shall not be in default of his poll tax for the current year, will be entitled to vote.

The following named persons have been appointed by the Board of Trustees of said town to act as clerks at said election: W. B. Thomas and N. B. Roseberry. J. M. CUNNINGHAM, Mayor. East Las Vegas, N. M., March 8th, 1892.

ORDINANCE NO. 42.

Whereas, it is apparent and evident to the Board of Trustees of the town of East Las Vegas, New Mexico, that the funds and means provided by Ordinance No. 38 and No. 39 of said town of East Las Vegas, (being the completion of said town providing for the issuing and sale of bonds of said town to the amount of seven thousand dollars par value bearing interest at the rate of six per cent per annum, interest payable semi-annually on the first day of January and the first day of July of each year, commencing the first day of January, A. D. 1893, said bonds to mature and become payable in thirty years from the date of the issue of same, but redeemable and payable at the option and will of said town at any time after the expiration of ten years from the date of their issue, and when said bonds be issued that the same be sold by the Board of Trustees of said town to the highest bidder for cash, but at a price not less than ninety-five cents of the par value thereof as provided and in the manner set out in the following ordinance, and the money derived from the sale of said bonds be used exclusively in the completion and finishing of the town buildings now under construction and in course of erection in said town and for no other purpose hereafter.

Be it ordained by the Board of Trustees of the town of East Las Vegas, New Mexico: That there be issued bonds of the said town of East Las Vegas to the amount of ten thousand dollars, par value, bearing interest at the rate of six per cent per annum, interest payable semi-annually on the first day of January and the first day of July of each year, commencing the first day of January, A. D. 1893, said bonds to mature and become payable in thirty years from the date of the issue of same, but redeemable and payable at the option and will of said town at any time after the expiration of ten years from the date of their issue, and when said bonds be issued that the same be sold by the Board of Trustees of said town to the highest bidder for cash, but at a price not less than ninety-five cents of the par value thereof as provided and in the manner set out in the following ordinance, and the money derived from the sale of said bonds be used exclusively in the completion and finishing of the town buildings now under construction and in course of erection in said town and for no other purpose hereafter.

Be it further ordained that the proceeds of the sale of said bonds shall be used exclusively in the completion and finishing of the town buildings now under construction and in course of erection in said town and for no other purpose hereafter.

Be it further ordained that the proceeds of the sale of said bonds shall be used exclusively in the completion and finishing of the town buildings now under construction and in course of erection in said town and for no other purpose hereafter.

Be it further ordained that the proceeds of the sale of said bonds shall be used exclusively in the completion and finishing of the town buildings now under construction and in course of erection in said town and for no other purpose hereafter.

Be it further ordained that the proceeds of the sale of said bonds shall be used exclusively in the completion and finishing of the town buildings now under construction and in course of erection in said town and for no other purpose hereafter.

Be it further ordained that the proceeds of the sale of said bonds shall be used exclusively in the completion and finishing of the town buildings now under construction and in course of erection in said town and for no other purpose hereafter.

Be it further ordained that the proceeds of the sale of said bonds shall be used exclusively in the completion and finishing of the town buildings now under construction and in course of erection in said town and for no other purpose hereafter.

Be it further ordained that the proceeds of the sale of said bonds shall be used exclusively in the completion and finishing of the town buildings now under construction and in course of erection in said town and for no other purpose hereafter.

Be it further ordained that the proceeds of the sale of said bonds shall be used exclusively in the completion and finishing of the town buildings now under construction and in course of erection in said town and for no other purpose hereafter.

Be it further ordained that the proceeds of the sale of said bonds shall be used exclusively in the completion and finishing of the town buildings now under construction and in course of erection in said town and for no other purpose hereafter.

Be it further ordained that the proceeds of the sale of said bonds shall be used exclusively in the completion and finishing of the town buildings now under construction and in course of erection in said town and for no other purpose hereafter.

Be it further ordained that the proceeds of the sale of said bonds shall be used exclusively in the completion and finishing of the town buildings now under construction and in course of erection in said town and for no other purpose hereafter.

Be it further ordained that the proceeds of the sale of said bonds shall be used exclusively in the completion and finishing of the town buildings now under construction and in course of erection in said town and for no other purpose hereafter.

Be it further ordained that the proceeds of the sale of said bonds shall be used exclusively in the completion and finishing of the town buildings now under construction and in course of erection in said town and for no other purpose hereafter.

Be it further ordained that the proceeds of the sale of said bonds shall be used exclusively in the completion and finishing of the town buildings now under construction and in course of erection in said town and for no other purpose hereafter.

Be it further ordained that the proceeds of the sale of said bonds shall be used exclusively in the completion and finishing of the town buildings now under construction and in course of erection in said town and for no other purpose hereafter.

Be it further ordained that the proceeds of the sale of said bonds shall be used exclusively in the completion and finishing of the town buildings now under construction and in course of erection in said town and for no other purpose hereafter.

Be it further ordained that the proceeds of the sale of said bonds shall be used exclusively in the completion and finishing of the town buildings now under construction and in course of erection in said town and for no other purpose hereafter.

Be it further ordained that the proceeds of the sale of said bonds shall be used exclusively in the completion and finishing of the town buildings now under construction and in course of erection in said town and for no other purpose hereafter.

Hot Springs, New Mexico. In the states we occasionally have an autumnal day when there is just a tinge of frostiness in the air and a vast sea of sunlight through which the earth exultingly plunges; not a cloud in the sky, scarcely a breath of wind stirring the dust heaps, when effort of mind and muscle has no limit.

In New Mexico—the land of all lands where "it is always afternoon" such days are the rule, not the exception; and no other nook in New Mexico has so delightful a climate at all seasons of the year as Las Vegas Hot Springs. From November to April scarcely a day passes during which the sun does not shine brilliantly and continuously. During the summer months, when lower countries are sweltering in the heat, there is the same genial warmth and glow without the enervating effects of excessive humidity. The average mid day winter temperature is from 50 to 60 degrees Fahrenheit. In summer the highest flight of the thermometer rarely exceeds 80 degrees at noon, and the average for that hour is only 75. The altitude (7,000 feet above the sea), the picturesque valley, the high, pine covered mountains, the even temperature, and warm, dry air, combine to make this a favorite resort for tourists and an ideal place for invalids.

Las Vegas Hot Springs is located on the southeastern slope of the Santa Fe range of the Rocky mountains, six miles from the thrifty city of Las Vegas. There are upward of forty hot and cold springs, the water from the best of them being conducted in pipes to a large and handsome bath house of modern construction. Almost all forms of chronic disease yield to the curative effects of these wonderful waters. It is not claimed nor expected that everybody will be made well. It is confidently asserted that where there is anything left to build upon good results almost always follow a thorough course of treatment at the Hot Springs, and some remarkable cures have occurred. Persons who have failed to receive relief elsewhere for rheumatism, catarrh, lung trouble and diseases of the blood are invited to try the great New Mexico sanitarium. Skilled physicians are always in attendance.

A branch line of the Atchison, Topeka & Santa Fe railroad connects the city with the springs. Five daily passenger trains each way render it easy of access from Las Vegas. Telegraph and telephone lines give additional communication with the outside world.

But the chief feature of the place, aside from its pre-eminence as a resort for invalids, is the MONTEZUMA HOTEL, a commodious and massive structure of stone, crowning a slight eminence near the station. It may be doubted by those who know nothing of western push and enterprise, but here, in the very heart of old Spain-in-new-America, is the finest watering place hotel west of the Alleghenies. Perhaps there are a few others that are larger—they are not many. Certainly none are more satisfying to the eye or more restful to the tired, dusty, worn-out traveler. Large, handsome rooms, a fine cuisine, a commanding location and a careful catering to the wants of all guests make the Montezuma hotel peculiarly suitable as a stopping place for transcontinental tourists via the Santa Fe route and for all classes of rest, pleasure and health seekers the country over.
