No. 273.

LATE NEWS.

LATEST RETURNS.

NEW YORK, Nov. 11.—The latest election returns leave Ohio so close that nothing but the official count can determine for whom the electoral vote for the state has been cast. The eight votes of Nebraska have been transferred to the Harrison column, and the three votes of North Dakota and four votes of South Dakota to Weaver. California is today reported very close, still maintains a Democratic plurality. The result, therefore, stands: Cleveland, 276; Harrison, 118; Weaver, 27; doubtful, Ohio, 23; total, 444. It is reported that Republican Legislatures have been chosen in Kansas and Montana, and the closeness of the vote in California makes the complexion of the United States Senate, after March 4, somewhat doubtful, the Democrats being sure of a plurality, but not of a majority, in that body.

CIVIL SERVICE.

WASHINGTON, Nov. 11.—It is understood that the policy to be pursued by the administration in regard to the filling of existing vacancies in the civil service was the principal subject of consideration at today's meeting. It is generally conceded that the four vacancies on the bench will be filled in a few weeks. The gossip, however, are all at sea with regard to the appointment in the state, treasury, postoffice and interior departments, now at the president's disposal.

The prevailing impression, however, is that most of these offices will remain vacant until after March 4. It was recalled today that just before Mr. Cleveland left the office in 1889 he made some extensions of the classified service which put further limitations upon the patronage turned over to Mr. Harrison. For some months Mr. Harrison has been considering the question of placing the bureau of engraving and printing and the government printing office within the classified service. It is said he has decided to do this and that when the Democrats come into power they will find the civil service rule extended to these branches of the service.

CLEAN SWEEP.

LAS CRUCES, N. M., Nov. 11.—The following majorities have been received by the candidates named: Joseph 225, Fall 125, Lobman 41, Chavez 100, Lady 116, Hall 39, Barola 236, Hay 252. The entire Democratic ticket is elected.

"MR. TOO," TOM PLATT.

NEW YORK, Nov. 11.—Chauncey M. Depew was asked this morning what he thought of a statement made last night by ex-Senator Platt, attributing the defeat of the Republican party in New York county to him.

He said: "Brother Platt objected to me taking an active managing part in the campaign." He said: "Brother Depew, you are a good orator and are good enough to make speeches for the party, but you must not do any managing."

"WE ARE THE PEOPLE."

EL PASO, TEXAS, Nov. 11.—Conservative estimates give Hogg 200,000, Clark 100,000. No returns of the Weaver vote yet, but it is estimated at about 75,000. There are only a few Hogg men here, but they are tearing "great holes in the ground," and howling like 10,000 demons.

The fact is they are on top now. "We are the people."

AFTER THE KID.

EL PASO, Nov. 11.—Lieut. Glasgow and troop I, of the First regiment, arrived there last night from Fort Bayard. They were on their way south to aid Lieut. Bean of Fort Howie, who recently captured the camp supplies and ammunition of the Kid and his band, in his hunt for that notorious Indian.

Troop I made the journey from Fort Bayard to Lordsburg, a distance of over 80 miles in less than 21 hours, demonstrating beyond doubt that the United States government is at least in earnest in its efforts to exterminate this murderous band.

THE SITUATION.

There has been no material change from the estimates given in these columns yesterday, and the result in this territory in the recent election may still be summed up as follows:

San Juan county, official, gives Joseph 68 majority, a Democratic loss of 47 on the vote of two years ago.

Colfax county, estimated, gives Joseph 150 to 200 majority.

Mora county, nearly full returns, gives Joseph 400 majority.

San Miguel and Guadalupe counties, nearly full returns and estimates, give Joseph 1,000 majority.

Rio Arriba county, returns and estimates, give Catron over 400 majority.

Santa Fe county, full returns, gives Catron 420 majority.

Bernalillo county, nearly full returns and estimates, gives Catron over 13 majority.

Valencia county, nearly full returns and estimates, gives Catron 1,200 majority.

Socorro county, partial and estimated, gives Catron 250 majority.

Sierra gives Catron 7 majority and Grant gives him 5; these are complete.

Chaves and Eddy give Joseph 319 majority on complete returns.

Taos gave Joseph 13 majority.

It is hard to tell how the legislature stands, as both sides claim it, but the probabilities are that the Democrats have both houses.

ANOTHER "CONDITION."

Recent political events make the following from Bishop Cyrus D. Foss, in the North American Review, for November, pertinent to some things occurring here. The article is a very strong paper, under the title of "Politics and the Pulpit," and pointing out some of the dangers that threaten Christianity. Here is one paragraph:

"Terror forces of evil menace Christianity and even society itself. The festering masses of vice and crime in our large cities, growing in bigness and badness every decade; the enormous increase of wealth, for the most part totally indifferent to the claims of poverty, and often recklessly defiant of them; shameless political corruption in the shadow of hundreds of church steeples, etc; buying courts and debauching politics; these and other allied forces of evil show the need of reforming the lines of Christianity so that it shall face the foe. We can not afford to be flanked or struck in the rear."

That is a very darkly drawn picture, but no one can dispute its truth. Right here we have it shown in as strong colors as Bishop Foss

could desire, but the forces he appeals to are as sound asleep as though the foe were a myth. So sound is the sleep that not even for "one hour" can the watch be kept up. We will advertise the Review as far as to advise every minister, in this city at least, to get it and read the article before he is interviewed on the subject of personal and journalistic virtue in municipal affairs. It might save the unconverted many a quiet laugh at the unsophisticatedness, so to speak, of the men who regard politics as too unclean a thing for any other people to indulge in save those whose business requires the law to be suspended. Or, as Bishop Foss describes them, "the festering masses of vice and crime in our large cities." It is enough to stir the deepest emotions of two classes of angels to see what has been in Kansas City for the last three weeks. And it does stir up the indignation of every honest man who knows what he sees.—Kansas City Journal.

EVERYBODY TAKE NOTICE.

There will be a special meeting of the Democratic club of precinct No. 29, and all others interested, at Democratic headquarters, opera house block, Saturday, November 13, at 7:30 p. m., to arrange for a jollification. All who are in favor of a jollification over recent election results are invited to attend.

DEM. EX. C.M.

RELIGIOUS.

FIRST BAPTIST CHURCH. Sabbath school at 9:45 a. m. Preaching at 11 a. m., followed by baptism. The evening services will be by Dr. Alice H. Rice in behalf of the Woman's Baptist Missionary society. SATURDAY, NOVEMBER 12, 1892.

Mr. Thomas Carter should rise up and move to make it unanimous.

In the words of Boss Tweed, "What are you going to do about it?"

Lucky that Thanksgiving proclamation was issued before the election.

Another "Kansas idea." Some of the empty jails are being used to store the surplus wheat. This would seem to indicate a healthy state of morals and finances.

This country gives too much attention to politics. Politics is a dull, dreary, stupid, illogical, unsatisfactory abomination which makes good people tired.

The grand old party has received the worst flogging it ever had in its life—almost as bad, in fact, as the Democratic party used to receive in Grant's time.

Jury verdicts are proverbially uncertain. No matter how meritorious a case may be, the jury's decision may upset and defeat it. The American people are only a big unsworn jury.

The Pope is now in his 83d year, and in Paris Field Marshal Canrobert is 85, and Marshal McMahon, who is still straight as a dart and retaining a magnificent seat in his saddle, is 83.

Queen Victoria heard recently that one of her old retainers at Balmoral was seriously ill, and she not only called on him in person but also gave orders that a basket of fruit should be sent to him daily.

The election is over and it is reported from Wichita that at Republican headquarters the Salvation army has taken possession and substituted the sign "Stand up for Jesus" for "Stand up for Kansas."

The Kansas papers have now laid aside for a season the phrases, "Another lie nailed," "A boomerang," "An old citizen," "Another outrage," used so plentifully during the past two months, but have them all handy ready to do service as soon as another campaign is inaugurated.

Through a long career Mr. Gladstone has made many a duke, marquis, bishop and even archbishop, and now he has the duty before him of making a knight of the Garter. The Garter is the highest order in British chivalry. Most of the reigning sovereigns are knights of the Garter, and the selection of a new member of the order is by no means an unimportant occasion.

It is a rather pleasant thing to contemplate just at this time that it is the opinion of so great and wise a scientist as M. Flammarion that the climate of North America has, temporarily at least, become warmer. He says a change to the opposite has been going on in Europe, and that the United Kingdom, Spain, Belgium, Italy, Austria and Germany have grown very appreciably colder.

A Chicago man says, in all seriousness, that he was once living in a hotel in the Windy city where the custom was chiefly that of traveling drummers who were accustomed to being called at all sorts of hours. One night he had just reached his room when a terrific storm burst over the city and three distinct claps of thunder sounded close to the hotel. Said he: "Every man in the house sat up, yawned and shouted, 'I hear you. All right!'"

A. P. Fonda of Kansas City lost \$500 on Harrison. The bet was made with a Binghampton, N. Y., man \$500 to \$5,000. Fonda was offered \$1,000 for his chance and refused. The same man who made this bet also put up \$500 to a nickel with a bystander in the Imperial hotel in New York. He is the first

man Cleveland appointed and the first officeholder removed by Harrison.

In these days of political corruption it is pleasant to look up to the high plane occupied by a fairly black man of Carthage who, according to the Banner, thus remarked to a gentleman on election day: "Blame me if I ever did have such a time with vote buyahs. One Democrat done gib me \$1.75 already an' two mo' has offered me a dollah each. When dey gits through, in goes my vote for Harrison and Warner. Dey can't bribe dis chile."

Some people can quote the Bible in support of any proposition they may choose to champion. A Kansas editor has found a passage in that sacred book which lays the duty on every voter to cast his ballot for the Republican. Either the discovery was made too late, not given sufficient publicity, Kansas Christians are too scarce or they don't credit the interpretation.

The recent application of electricity to tanning in France has resulted in reducing the time of tanning a large ox hide from 16 to 18 months in pit tanning, and from five to six months in liquor tanning, to 96 hours in both cases, and also does away with continuous hand labor and the disagreeable odor so characteristic of tanneries. Electricity seems in some unaccountable way to hasten the absorption of the tanning by the hide. The invention without doubt marks one of the most important advances in technology made in many years.

VALIANT VALENCIA.

Col. J. Francisco Chavez has made good his pledge to give Catron 1,200 majority in Valencia county, if the reports received at The Citizen office are any way correct. Solomon Iana, who will after the 1st of January be the new sheriff of that county, called at The Citizen office last evening, and emphatically stated that the river precincts have given Catron over 600 majority and that the mountain precincts, especially Manzano, where Col. Chavez was on election day, will swell the majority at least 700 more. San Mateo gives Catron 11 majority; Ceboyeta, 16; Juan Tafoya, 23, and Cubero, 41.—Citizen.

WOMEN NOT HUMORISTS.

A writer in the open letter department of the current Century asks why in literature there are no lady humorists. He then goes on to answer his question by explaining that from childhood man finds the sawdust dropping out of everything, and soon discovers the worthlessness of much that passes for valuable. Therefore he learns to smile and to say, "Is it not absurd?" instead of allowing his passion for something to adore to override his growing desire for truth. But, on the other hand, a woman's idols are so much a part of her life that when they are broken she can not snap her fingers nor seek mirth as an avenue of escape. Women may possibly grow satirical, but satire is only a form of humor. "When life ceases to be in some way holy, or at any rate ideal, then woman's creative faculty terminates," says the writer. "She ends where man's talent as a humorist begins."

THE PRESIDENTIAL TERM.

The direct expenses of a presidential election amount to many million dollars, and the indirect losses to the country in an exciting campaign by the retarding of business are incalculable. A shrewd political authority, accustomed to handle campaign funds, estimates that it will cost the two political parties \$1,500,000 in New York state alone to conduct the present campaign. The lengthening of the term to eight years would reduce such expenses and losses by one-half. It would be greatly to the advantage of our diplomatic service in the longer continuance in office of experienced men, and would also strengthen civil service reform among all classes of employes and save them from the temptation always incident in a greater or lesser degree to the frequent changes in the minor offices which follow in the wake of presidential elections. The professional politicians and the bosses would be likely to oppose such a change, and the hungry crowd who are waiting for federal appointments would raise the old cry of "an aris-

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder
ABSOLUTELY PURE

ocracy of officeholders," but the common sense of the country will yet demand the stability and tranquillity which would come from a lengthened term of office for the chief magistrate of the United States.—North American Review.

IRON RIBBED CRUISERS.

The thickest armor plates ever put on an American war ship have just been placed on the new heavy armed cruiser Indiana, in course of construction in Cramp's ship yards. The plates, which are of nickel steel, are 14 inches thick, 6 feet high, 16 feet long and weigh about 94 tons each. They are diagonal plates, sprung from the sides of the vessel in an elliptical form through its interior about 75 feet from each end. There are five of them for each end of the ship, and they are placed in the elliptical position rather than straight across the ship, as is the custom in English war ship construction, so as to better resist strain in collision and deflect shot, should it break through the thinner plates of prow and stern armor.

When the vessel is sunk to her fighting line by the admission of water to her bulkheads the plates will stand three feet above and three feet below the water line, and so protect the machinery of the cruiser from any serious damage from shot. The plates as they come to the yard are of the exact shape required, and are without alteration bolted into position by tap bolts from the rear, so as not to weaken their faces.

The plates were forged at the works of the Bethlehem Iron company, where they were in course of construction three months, and were sent out about four weeks ago. Since then they have all been placed in position, a remarkable feat, considering the time. They are worth about \$15,000 apiece.

The side armor of the Indiana will be 18 inches thick and each plate will weigh about 46 tons. Diagonal plates of the same thickness as those of the Indiana have just arrived from Bethlehem for her sister ship, the Massachusetts. A car was required to carry each plate.

NEW YORK IN 1665.

In one of the older manuals of the Common Council of New York there appears an interesting directory of that city for the year 1665. Then there were exactly twenty streets and a population of 251. Broadway at that time was De Heere straat (the principal street). The Battery was Aen de Straudt van de N. Rivier. Wall street was De Waal, Pearl street was De Petel straat, Whitehall street was De Winkel straat, William street was In de Smits Valey (In the Smith's Valley), and Broadway, above Wall street, was Bayten de Lant Poori (outside the land gate). All the residents were of Dutch extraction, except one, whose name appears in the list as Jacob, the French-

man. There were Roosevelts, Beckmans, De Peeters, De Pays, Van Cortlandts and Verplancks in those days. Clams, oysters and fish formed the principal food of the settlers at that period. Occasionally in the spring New York was visited by "such amazing flights of wild pigeons that the sun was hid by their flocks from shining on the earth for a considerable time; then it was that the natives laid in a great store of them against a day of need."—New York Times.

MEDICAL VIRTUES OF TAR.

Few people have any idea of the beneficial medical qualities of tar, says an exchange. In medicine it is valuable in chronic catarrh, it is of benefit in almost all kinds of cutaneous disease, there is no better dressing for an ulcer, while tar water is an excellent tonic for debilitated persons, and the vapor of tar is a panacea for many forms of bronchial trouble. People will not use simple medicines, as a rule preferring something from the drug stores; but if such remedial agents as tar and other so-called "old women's remedies" were more commonly employed men would enjoy better health.

Do you want something good? We have it, and we almost give it away. Think of a great big Newspaper, the Weekly Journal and Agriculturist, for 50 cents a year, or a trial six months for 25 Cents. Interesting stories and Miscellany. Special features for the Farmer, the stockman, the fireside. Take your home paper first, then The Weekly Journal and Agriculturist. NOTICE FOR PUBLICATION.

In the District Court, County of Mora—March Term, A. D. 1893. Jose Ledezma and Alejandro Gonzalez, executors of the last will and testament of Guadalupe Alameda Vigi, vs. Francisco Nolan, Eusebio Nolan and all their unknown heirs.

The said defendants, Francisco Nolan and Eusebio Nolan and all their unknown heirs, hereby notified that a petition has been filed in the District Court for the county of Mora, territory of New Mexico, by said Jose Ledezma and Alejandro Gonzalez, executors of the last will and testament of Guadalupe Alameda Vigi.

You and each of you must appear, or cause to be entered, your appearance in my office on or before the first Monday of December, A. D. 1893, the same being the 8th day of December, A. D. 1893, at above station, if any of you, who said lands should not be sold...

LAS VEGAS.

Las Vegas (the meadows), the largest city in New Mexico, is the county seat of the named county, the most populous and wealthy county of the Territory.

The town is lit by electric light, has water works, gas, street-car line, telephone exchange, a daily paper, churches, academies, public and private schools, a number of hotels and saloons, a hospital, a number of saloons and gambling establishments and numerous banks, some of which carry stocks of \$200,000 and branch trade extends throughout New Mexico and Arizona.

The town is situated on a gentle slope, which only a few thousand feet a good time, but the legislature has just passed a law which entitles the title and will throw the balance of the tract open to settlement.

The valleys of the mountains, are very rich and fertile, producing wheat, corn, grass, etc. in abundance. East and south of the town and along the Rio Grande, there are excellent grazing lands, with abundant water, produced by the Rio Grande.

Five miles northwest of Las Vegas, where the Rio Grande breaks out of the mountains, are situated the famous Hot Springs. The water here flows from west to east, and the springs are on the south bank, almost entirely in a natural park, surrounded by pine and mesquite mountains.

A branch line of the Santa Fe railroad runs from Las Vegas to the Hot Springs, connecting with all lines. At present, round-trip tickets are sold from Kansas City and western points to the Hot Springs good for thirty days at greatly reduced rates.

The average temperature for the year 1892 taken at the Montezuma Hotel each day was as follows: January, 2 degrees; February, 5; March, 10; April, 15; May, 20; June, 25; July, 30; August, 35; September, 30; October, 25; November, 20; December, 15.

San Miguel is the only county of New Mexico. It is on the average, one hundred and eighty miles long by thirty-five miles wide, and containing about 5,000,000 acres, embracing within its boundaries rugged and wooded mountains, extensive plains and fertile valleys.

New Mexico is as large as all the New England States together, with New York and New Jersey thrown in. It is about equally divided in grazing, agricultural and mining lands, millions of acres rich in resources, and ready to be developed.

Dr. Desmarais contemplates making considerable improvement in his property on the West Side in the near future. A large two-story brick building will be erected opposite the First National bank.

From unofficial and meager returns received up to the time of going to press, indicates the election of the Democratic county ticket, with the exception of P. J. Towner, Republican candidate for assessor, which will be very close. The vote is also very close on sheriff.—Raton Radge.

Pumpkins & Squashes.

J. A. DICK, City Grocer, BRIDGE STREET, LAS VEGAS.

His stock surpasses competition. All orders are promptly filled.

THE WEDDING PRESENT NUISANCE.

Said a lady to me recently: "We don't know very intimately the parties to be married, but our presents will be exhibited among the others, and we should be ashamed not to have them as elegant as those of our neighbors." And this same lady could ill afford to buy things for her own household, saying nothing of a thousand ways in which she could better have spent money. It is useless to reason that people need not give presents. As long as we have such a needless fashion they feel obliged to give, just as they do at Christmas, when half the time they have little heart or pleasure in it.

The recipients always know that in the years to come they also will be obliged to give presents in return—spoons, sugar bowls, butter dishes, that often are in duplicates and of no use to the possessor. The society fashion for people who are in ordinary circumstances is indeed a social oppression. It is pleasant to give and pleasant to receive, but when you are certain that many are unable to give, and do so only because it is the custom.—New York Independent.

Ripans Tablets: for torpid liver.
