## UNION LEAGUE.

There was a very interesting meeting at G. A. R. hall last night. Messrs. Cajal and Pierce kept the audience till 11 o'clock listening to their discussion of county affairs.

In the absence of the president, L. C. Fort, Judge Wooster was called to the chair. A committee was appointed to make some regulations as to the discussion, and the committee reported that Mr. Cajal should lead the debate in an address of 35 minutes, Mr. Pierce to reply in 45 minutes, and Mr. Cajal to have 10 minutes to close in. The opening by Mr. Cajal was very good, he showing how the People's party had failed in all its promises, had been extravagant, etc., and now asked a continuance in office.

Mr. Pierce replied, giving the expenses for the first year of the People's party, expenses in comparison with the two years of the Republican party previously, the figures coming to about the same. But Mr. Pierce failed to state that a great deal of the money expended by the Republicans was in warrants at a discount of 50 to 70 per cent, and also that there had been much money expended in bridges and improvements.

Mr. Cajal then gave the figures of the county expenses from 1885 to the present time, with an estimate for the present year, and these figures were not very favorable to the advocates of "reform."

The meeting was a success and greatly enjoyed by all present.

## AT ALBUQUERQUE.

Col. G. W. Prichard, of Las Vegas, is in the city and will attend the Republican meeting this evening.

Charles Stevenson, conductor on the Santa Fe between this city and Las Vegas, has taken a lay-off so as to attend the fair.

Dick Hayes, an Atchison, Topeka & Santa Fe conductor, has laid aside his punch for a few days and is taking in the fair and other sights.

Myer Friedman, of Friedman & Brother, Las Vegas, a prominent wool man, is in the city attending the wool convention and paying some attention to the fair.

Felix Martinez, Democratic politician and Spanish editor of Las Vegas, came down yesterday morning and joined the crowd in the afternoon at the fair grounds.

Passenger Conductor Joe Riechley, of the Atchison, Topeka & Santa Fe road, whose home is at Las Vegas, is in the city attending the fair and greeting old friends.

## ALBUQUERQUE RACES.

The unfinished trot of Thursday was the first event yesterday. Faro and Mosher, each having won two heats the previous day, started for the final heat at 2:30. Mosher won in 2:30.

In the 2:40 trot May Queen won the first and second heats in 2:40 and 2:39, Chevalier taking the third and fourth in 2:40 and 2:45. On account of darkness the fifth heat was postponed until today.

The half mile dash was won by Yolo in 52 seconds, beating King Faro and Artless.

Mile dash, open to all was won by The Judge in 1:46, Bret Harte second, King Faro third.

Morris, of Prescott, Ariz., beat Quirk in the 75 yards foot race, in

the extraordinary fast time of 6 3-5 seconds, lowering the world's best record two-third seconds.

## CORRECTED BY CROSS.

To the Editor of the Citizen.

SANTA FE, Sept. 15.—I note, with no small degree of professional humiliation, Mr. Antonio Joseph's attempt, in the Daily Democrat of this date, to repudiate the genuineness of an interview which I had with him at the Exchange hotel in Santa Fe, August 12th last, and which appeared in the New Mexican of that date.

Those utterances of Mr. Joseph I recognized at the time as a political mistake, but it wasn't my funeral. That he spoke them substantially as published I solemnly affirm, and when he denies them or even hints at their incorrectness by saying that I "mistook his meaning," he simply utters a deliberate untruth.

The habit of would-be statesman attempting to repudiate interviews with legitimate journalists is becoming all too frequent in New Mexico. I call upon my brethren of the press to see that justice is done in this matter.

Respectfully,

Geo. H. Cross.

## REPUBLICAN LEAGUE.

The annual convention of the delegates of the Republican League clubs was held at the court house, this city, this morning. There were about 100 accredited delegates in the city.

President A. L. Morrison called the convention to order and made a short address congratulating the Republicans and the bright prospects for party success in the nation and the territory. A committee of five, consisting of the following gentlemen, were appointed on resolutions: Major Wm. Caffrey, of White Oaks; T. W. Collier, of Raton, W. S. Williams, of Socorro; E. S. Stover, of Socorro, and W. B. Sloan, of Santa Fe. The committee reported a set of ringing resolutions, which can not be published before tomorrow on account of the crowded condition of this paper.

A telegram from Col. A. J. Fountain was read, regretting his absence and stating that Dona Ana Republicans were making a winning campaign.

The convention then proceeded to the election of officers.

Col. Morrison wished to step down from the office of president of the league, having served four years, but the convention insisted upon his holding the position, and he was re-elected by acclamation. Vice-presidents—T. W. Collier, Wm. Caffrey and E. S. Stover. Secretary—H. S. Clancy, of Santa Fe. Treasurer—Chas. F. Hunt, of Albuquerque.

Maj. Miguel Salazar, of San Miguel, was chosen delegate to the national convention.

On motion of L. M. Bond, Socorro was selected as the place of meeting for next year.—Albuquerque Citizen.

## MR. CLEVELAND WILL WRITE.

Minneapolis Tribune: Now, Mr. Cleveland, drop your little letter in the slot and the fun will begin.

St. Louis Republic: It is Mr. Cleveland's turn now, and by way of a suggestion we say: Make it short.

Peoria Transcript: The great I Am is yet to be heard from. Mr. Cleveland, the country is awaiting your letter.

## THE ARIZONA LINE ABANDONED.

We are sorry to find the following in a special dispatch from San Francisco. It would seem the projectors should have looked into the matter and had better estimates before expending so much money:

The projectors of what is called the Santa Fe, Prescott & Phoenix railroad, in course of construction from Ash Fork south to Phoenix, Arizona, have concluded to abandon work. They have found that the building of the railway through the mountains of Arizona is beset with many unforeseen obstacles. The mountains are high and precipitous, the cañons are deep and broken, and water has to be developed by artifice, which is extremely expensive. Laborers and supplies must be imported, and on the line of survey there are many heavy rock cuts and deep fills required. The survey from Ash Fork to Prescott is through a most desolate country, yet it amounts to nothing as compared with the heavy work to be encountered south of Prescott. There seems to be no foundation for the report that the Atlantic & Pacific or the Atchison, Topeka & Santa Fe roads were interested in the proposed line.

Good advice is clothed in the following flippant language: "Fellow-citizens, if you desire to postpone the interview with St. Peter don't eat green fruit or fruit overripe; keep the alley in the rear of your house free from garbage, and for gracious sake don't imagine you have a full-fledged case of cholera when there isn't a case within 1,000 miles of you. This is not perhaps just as your physician would say it, but then it only costs you less."

Col. J. Franco, Chaves and wife are in the city and will remain during the fair. The colonel says the effort being made by his enemies to fasten a deficiency on him in the penitentiary while warden does not disturb his serenity. He claims the alleged deficiency is balance due him, and all he insists upon is a settlement of his accounts.—Citizen.

The report that the Old Dominion Copper company had closed at Globe, Arizona, is only partially true. The works were temporarily closed on the 1st inst. on account of the non-arrival of a coke supply, but started up again Monday.

The Republican Central committee has arranged the following places and dates for political meetings, at which speeches will be made by Hon. T. B. Catron and Hon. A. L. Morrison:

Mr. Cleveland is not greedy in all things. One peck of New York labor statistics was all and more than he wanted.

There is too much hog and hominy in the Texas campaign for Mr. Mills, so he concludes that his health will not permit him to take any part therein. Big head that man Mills has.

A Ladies' Press association was organized yesterday in this city. The press is hampered by enough political bosses without the women getting in on the side.—Albuquerque Citizen.

The celebration of the 350th anniversary of Cabrillo's discovery of San Diego bay will be celebrated at San Diego on the 28th inst. with great pomp and circumstance, and a harvest will be reaped from thousands of visitors.

It was stated last night in the Union League argument that the People's party was not responsible for the acts of its members. Of course not. It is not responsible for anything. That was known a good while ago.

Apache county, Arizona, will exhibit at the World's fair a curious collection from the petrified forests along the Little Colorado, and a very complete gathering of utensils and implements used by the ancient people who inhabited that section of the country.

The United Verde Copper company are preparing to put up a large refinery and will be refining all their own copper in the near future. Machinery and buildings of this refinery will cost over \$200,000. The tunnel to drain the mines is now in between fifteen hundred and sixteen hundred feet.—Courier.

At the time Mr. Pierce referred to last night, when Mr. Catron put in a bill for professional advice for the county, there was no office of "high priced district attorney." The county went to any lawyer it wanted to and got its legal information. A new comer is often at a disadvantage in making an argument, for want of facts.

El Hispano-Americano has made another bad break by coming out against the Jesuits—in fact, its motto seems to be like the Irishman's "agin' anything." This is about the third time that the paper has made attacks that injured itself and its friends. What its motive is, can not be told, unless, as some parties say, it is paid to work against its own friends.

Mr. Pierce stated last night that the Democrats joined the People's party for reform, and because they had no chance as Democrats. Mr. P. is a new comer here, who has not had a chance yet to learn that the Democrats had nearly all the county offices in 1887-88, so his argument for the consolidation is wrong. It should have been, "to get the spoils." But, unfortunately, the other fellows (the White Caps proper) got nearly all in sight.

In France, where road building has attained a high state of perfection, no tire less than six inches in width is countenanced. A tire 12 inches wide—and such tires are not uncommon in Europe—enables one horse to do the work of two, and at the same time is a perfect road maker. It crushes the macadam into a compact mass, and solidifies a gravel roadbed. The cost of building a mile of macadamized road is said to be from \$3,500 to \$5,000, and of gravel road from \$1,500 to \$2,000, according to grade.

"The United States government is a fence cutter," is a very poor argument to use to bolster up a bad cause. Who ever heard of the government sending out a body of men in white cap disguise to take down a fence that was put up on government land? It goes at it legally in daylight, after giving due notice, and there is about as much difference between the government taking down illegally put up fences and the night marauding cutting of poor men's fences around their own land, as there is between night and day.

MR. JOSEPH CORRECTED.

Governor Prince was asked this morning as to the correctness of Mr. Joseph's statement regarding the poll taxes in Taos county, and said: "Mr. Joseph is certainly mistaken when he says that I have written letters to the school collectors directing them to issue receipts. I have written no such letters, and have no power to direct them to do anything. It is true that complaints have come to the office from both sides as to wrong action by collectors. The first that I recollect was that the Democratic collector in one district, after receiving the Democratic taxes, had disappeared, so that no one else could pay. Similar complaints were made of Republican collectors in other places. In other cases it was said that collectors refused to take the money from political opponents on frivolous pretexts. Of course the governor has no power in such matters, and I could only give friendly advice that it was the duty of every collector to receive every tax offered, and to attend at his office or house for that purpose, and that wilful refusal or neglect would incur grave liability. I understood from the solicitor general that he had given an opinion that a tender of the tax was equivalent to payment so far as voting is concerned; and that is certainly correct, as it would be monstrous to suppose that a citizen could be deprived of the right to vote on account of the action or non-action of a collecting officer. The fundamental Republican doctrine is that of a free ballot and a fair count. We have fought for that for many years, and anything that conflicts with it is opposed to the first principles of free government. I think that the requirement of any money payment as a qualification for voting is usury in principle, and it certainly is very bad in practice. For a man to be under obligations to any person or party for the right to vote, is demoralizing and destructive to independence. I hope that that provision will be promptly repealed by the next legislature."—Albuquerque Citizen.

NO FAKERS WANTED.

Several southern California boomers are inquiring into the inducements of Salt River valley as a field for their peculiar enterprise. There is much to be commended in their methods as far as enterprise, advertising and development of the country are concerned, but there is no opening here for flannel mouthed town lot speculators, who by brass bands, free lunches and smooth tongued auctioneers induce ignorant people to make payment on lots in paper towns. There are enough solid resources around Phoenix to make a continuous, rapid and a healthy growth, and no fakirs are wanted. Enterprising men, with or without money, are always welcome to share in the natural wealth of the valley and to assist in water development, railroad building and fruit and cattle growing. Californians are especially valuable additions to the population, as they understand irrigation and fruit culture and are not afraid to undertake the transformation of arid lands into orchards and alfalfa fields.—Phoenix Herald.

If Venezuela gets too bumptious we might send Jim Corbett down there.

Grover—"Just be easy now; I am baiting my hook. I'll throw out very soon."

Jack Frost—"I am on my way, brethren. I hope to get there in time to breakfast on your June corn."

Peck—"So Hill is going to make a speech. Now I do wonder if David B. intends to leave me in a hole?"

The gold euro graduates will hardly hold a national political convention this year; but what of four years hence?

That Artic expedition is back and with only one man missing. Really, these expeditions are getting to be very tame affairs.

The fact that Steve is to make set speeches in North Carolina indicates that there is considerable doubt as to the safety of the Tar Heels.

An ornithologist says no bird can fly backward without turning. The dragon fly, however, can do this and can outstrip the swallow in speed.

Democrats can easily explain the election of Cleaves governor of Maine. Owing to his name, Democrats voted for him thinking he was Grover. See?

This country is not without its elevations. Three hundred and sixty different mountain peaks within the limits of the United States exceed 10,000 feet in height.

Corbett has made up his mind that he should lick Mitchell as a matter of public benefaction. After such a speech it would be deemed awkward for Jim if the licking should come his way.

There was a time when "sumptuary legislation" was common. A law passed in England in 1750 to the effect that at parties "ladies must not get drunk on any pretext whatever and gentlemen not before 9 o'clock."

The young man is perhaps never so wise as he believes himself to be. As the Ram's Horn remarks, "there is a time in every young man's life when for a while he thinks that he is a second Solomon. He soon gets over it though when he begins to find out how many kinds of a fool he is."

DO NOT BE AFRAID OF CHOLERA.

Professor Schweininger, one of the most celebrated doctors in Berlin, and physician in ordinary to Prince Bismarck, upon the subject of cholera, says:

"In healthy places, clean towns and among well nourished people, the malady will amount to little. In that case there may be ten or only one cholera case according to the size of the population, but not thousands, as in Hamburg. If you become ill, drink, as hot as ever you can, grog, camomile tea, no matter what, provided that it is hot. Then, if

your limbs grow cold, plunge into a steaming hot bath. Should these produce no effect, then put yourself in the hands of God, for those are the only remedies known to be efficacious. Doctors can do nothing. But don't be afraid of cholera."

AUGUST WEATHER REPORT.

The temperature was a little above the normal for the month. The highest monthly mean was 78.5 at Socorro; the lowest monthly mean was 59.1 at Hall's Peak.

The highest temperature reached during the month, 105, at Embudo, on the 17th, and the lowest temperature was 25 at Dulce, on the 29th.

The highest average daily maximum was 97.2 at Embudo, and the lowest average daily maximum was 78.2 at Santa Fe.

The greatest local monthly range was 70 at Dulce, and the least local monthly range was 28 at La Luz.

The precipitation was decidedly below the normal for the month and coming in light showers was very unevenly distributed.

The greatest total monthly was 1.52 inches at Hill's Ranch, while Los Lunas reported none at all, and Bloomfield and Taos less than .01 of an inch. At Santa Fe the total precipitation was only 0.81 of an inch, being the lightest rainfall for any August ever recorded at that station, which was established in 1871.

The weather was very pleasant with light variable winds.

The average number of cloudless days for the territory was 18; partly cloudy, 10, and cloudy, 3.

The average number of days with .01 of an inch or more of rainfall was 4.

Light thunderstorms occurred at frequent intervals during the month.

H. B. HENSEY, Observer Weather Bureau, Director. Santa Fe, N. M., Sept. 13, '92.

HILL AND PECK.

To conclude this reference to an unpleasant matter it may be said that whatever damage is done to the Democratic party in New York state will be the result, not of Commissioner Peck's report, but of the wholly unjustifiable attacks on Senator Hill and the New York Democracy that have grown out of it. These attacks, too, have been renewed at a time when Senator Hill, together with his lieutenants who have turned that great state over to the Democracy, is preparing to enter the campaign in behalf of the party. They have been renewed when the most ignorant person in the country knows that the success of the party depends upon the cordial and united support of the friends of Senator Hill.—Atlanta Constitution.

LAS VEGAS

Hot Springs,

NEW MEXICO.

A COZY NOOK IN WINTER

In the states we occasionally have an autumnal day when there is just a tinge of frostiness in the air and a vast sea of sunlight through which the earth exultingly plunges.

In New Mexico—the land of all lands where "it is always afternoon," such days are the rule, not the exception; and no other nook in New Mexico has so delightful a climate at all seasons of the year as Las Vegas Hot Springs.

From November to April scarcely a day passes during which the sun does not shine brilliantly and continuously. During the summer months, when lower countries are sweltering in the heat, there is the same genial warmth and glow without the overrating effect of excessive humidity.

The average mid day winter temperature is from 50 to 60 degrees Fahrenheit. In summer the highest flight of the thermometer rarely exceeds 80 degrees at noon, and the average for that hour is only 75.

The altitude (7,000 feet above the sea), the picturesque valley, the high, pine covered mountains, the even temperature, and warm, dry air, combine to make this a favorite resort for tourists and an ideal place for invalids.

Las Vegas Hot Springs is located on the southeastern slope of the Santa Fe range of the Rocky mountains, six miles from the thrifty city of Las Vegas.

There are upward of forty hot and cold springs, the water from the best of them being conducted in pipes to a large and handsome bath house of modern construction.

Almost all forms of chronic disease yield to the curative effects of these wonderful waters. It is not claimed nor expected that everybody will be made well.

It is confidently asserted that where there is anything left to build upon good results almost always follow a thorough course of treatment at the Hot Springs, and some remarkable cures have occurred.

Persons who have failed to receive relief elsewhere for rheumatism, catarrh, lung trouble and diseases of the blood are invited to try the great New Mexico sanitarium. Skilled physicians are always in attendance.

A branch line of the Atchison, Topeka & Santa Fe railroad connects the city with the springs. Five daily passenger trains each way render it easy of access from Las Vegas. Telegraph and telephone lines give additional communication with the outside world.

But the chief feature of the place, aside from its pre-eminence as a resort for invalids, is the MONTREUMA HOTEL, a commodious and massive structure of stone, crowning a slight eminence near the station.

It may be doubted by those who know nothing of western push and enterprise but here, in the very heart of old Spain-in-now-America, is the finest watering place west of the Alleghenies.

Perhaps there are a few others that are larger—they are not many. Certainly none are more satisfying to the eye or more restful to the tired, dusty, worn-out traveler.

Large, handsome rooms, a fine cuisine, a commanding location and a careful catering to the wants of all guests make the Montreuma hotel peculiarly suitable as a stopping place for transcontinental tourists via the Santa Fe route and for all classes of rest, pleasure and health seekers the country over.

GRAAF & KLINE GROCERS, SIXTH ST.

No band of baseball tomorrow. Ripans Tablets: for torpid liver. There was a wreck at San Miguel this morning; nobody hurt.

What is the difficulty in getting Cerrillos coal? We are told there is a scarcity in this city. New line of millinery just received. Before purchasing elsewhere call and see it at C. E. Milligan's.

Col. Pritchard has returned to White Oaks to look after his extensive mining interests there. Dairy cows for sale at Coy's ranch four miles north of city; am going out of business.—H. M. Coy.

Spring Chickens, Spring Chickens, Spring Chickens! HOPMEISTER & DEMMER'S.

The Las Vegas brass band will give an open air concert in the plaza at 7:30 tomorrow evening. Everybody invited. Following is the program: Quickstep, "Sentinel;" waltz, "Over the Waves;" baritone solo, "Crown Jewels;" March, "Ring the Bells;" Schottische, "In the Starlight;" galop, "Appollo."

A large meeting was held at St. Joseph's hall, Thursday night, to express the indignation of the citizens at the attack made on the Jesuits by Hispano-American. After speeches had been made by several persons, a committee was appointed to draft resolutions to be presented at a meeting to take place Sunday at 2 p. m.

Blas Gutierrez, who fooled P. Parenti on the gold brick swindle at Albuquerque, it seems, was a resident of Las Vegas for a time, and several of his friends here regret his departure to the tune of from \$500 to \$600. They say he was a professional, from the way he worked them.

The Kansas People's party state central committee gives the results of a poll of the state just completed. They claim the poll shows 50,000 majority for the Weaver electors and 35,000 majority for the populists' state ticket. The Republicans' books show Republican gains on the contrary in nearly all the counties of the state, averaging more than 100 in each of the 106 counties.

The shot velvets used for sleeves and girdles are something remarkable. Take for instance a light pink shot with mauve; it is exceedingly beautiful. Others change from pearl to rose in a truly bewildering fashion. It is understood that the Democratic leaders of this state favor the impeachment of Senator Peck. In their opinion he has committed the highest kind of a high crime and misdemeanor.—New York Tribune.

BEATTY'S PIANOS AND ORGANS.

Hon. Daniel F. Beatty, the great Organ and Piano man of Washington, N. J., is busier than ever. In 1870 Mr. Beatty left home a penniless plow boy, and by his indomitable will he has worked his way up so as to sell so far nearly 100,000 of Beatty's Pianos and Organs since 1870. Nothing seems to dishearten him; obstacles laid in his way, that would have wrecked any ordinary man forever, he turns to an advertisement and comes out of it brighter than ever. His instruments are in use everywhere. We are informed that during the next ten years he intends to sell 200,000 more of his make; that means a business of \$20,000,000 if we average them at \$100 each. It is already the largest business of its kind in existence. Read his advertisement. Fine home made kettle lard at T. W. Hayward's.
