PRINTED FOR THE THIRD SESSION

OF THE

JOURNAL OF THE GENERAL ASSEMBLY

1851

PROCLAMATION.

J. GASPARD LE MARCHANT.
(L. S.)

By His Excellency SIR JOHN GASPARD LE MARCHANT, Knight, and Knight Commander of the Orders of Saint Ferdinand and of Charles the Third of Spain, Governor and Commander-in-Chief in and over the Island of Newfoundland and its Dependencies, &c., &c.

WHEREAS the General Assembly of this Island stands Prorogued until Saturday, the Twenty-ninth day of June instant; And whereas I think fit further to Prorogue the said General Assembly until Saturday, the Thirty-first day of August: I do therefore, by this my Proclamation, further Prorogue the said General Assembly until Saturday, the Thirty-first day of August next; of which all persons concerned are required and commanded to take due notice and govern themselves accordingly.

Given under my Hand and Seal at the Government-House at St. John's, in the aforesaid Island, the Fourteenth day of June, One Thousand Eight Hundred and Fifty, and in the Thirteenth Year of Her Majesty's Reign.

By His Excellency's Command,

JAMES CROWDY,
Secretary.

PROCLAMATION.

J. G. LE MARCHANT.
(L. S.)

By His Excellency SIR JOHN GASPARD LE MARCHANT, *Knight, and Knight Commander of the Orders of St. Ferdinand and of Charles the Third of Spain, Governor and Commander-in-Chief in and over the Island of Newfoundland, and its Dependencies, &c., &c.*

WHEREAS the General Assembly of this Island stands Prorogued until Saturday, the Thirty-first day of August instant: And whereas I think fit further to Prorogue the said General Assembly until Saturday, the Sixteenth day of November next ensuing: I do therefore, by this my Proclamation, further Prorogue the said General Assembly until Saturday, the Sixteenth day of November next; of which all persons concerned are required and commanded to take due notice and govern themselves accordingly

Given under my Hand and Seal at the Government-House at St. John's, in the aforesaid Island, the Twenty-sixth day of August, One Thousand Eight Hundred and Fifty, and in the Fourteenth Year of Her Majesty's Reign.

By His Excellency's Command,

JAMES CROWDY,
Secretary.

PROCLAMATION.

J. G. LE MARCHANT.
(L. S.)

By His Excellency SIR JOHN GASPARD LE MARCHANT, *Knight, and Knight Commander of the Orders of St. Ferdinand and of Charles the Third of Spain, Governor and Commander-in-Chief in and over the Island of Newfoundland, and its Dependencies, &c., &c.*

WHEREAS the General Assembly of this Island stands Prorogued until Saturday, the Sixteenth day of November, instant; And whereas I think fit further to Prorogue the said General Assembly until Thursday, the Twenty-third day of January next ensuing: I do therefore, by this my Proclamation, further Prorogue the said General Assembly until Thursday, the Twenty-third day of January next, then to meet for the despatch of business; And of which all persons concerned are required and commanded to take due notice and govern themselves accordingly.

Given under my Hand and Seal at the Government-House at St. John's, in the aforesaid Island, the Fourth day of November, One Thousand Eight Hundred and Fifty, and in the Fourteenth Year of Her Majesty's Reign.

By His Excellency's Command,

JAMES CROWDY.

Secretary.

HER MAJESTY'S COUNCIL,
NEWFOUNDLAND.

Third Session, Fourth General Assembly, 14th of Victoria.

Thursday, 23rd January, 1851.

This being the day appointed for the meeting of the Colonial Legislature,

At half-past One of the Clock, P.M., the House met.

House meets.

Present :

The Honourable GEORGE ST. VINCENT WHITMORE, *Commandant.*

“ EDWARD M. ARCHIBALD, *Attorney General.*

“ JAMES CROWDY, *Colonial Secretary.*

“ WILLIAM THOMAS.

“ WILLIAM B. ROW.

“ JOSEPH NOAD.

“ CHARLES FOX BENNETT.

“ LAURENCE O'BRIEN.

Members present.

At Two of the Clock, P.M., His Excellency the Governor having arrived at the Council Chamber, and being seated on the Throne, the Honourable the President of the Council commanded the Gentleman Usher of the Black Rod to go to the Commons' House of Assembly, and inform the Members that it was His Excellency's pleasure that they do forthwith attend at the Bar of this House ; and they being come thereto, His Excellency was pleased to open the Session by a Gracious Speech to both Houses.

Governor arrives at the Council Chamber.

The Assembly summoned to attend him.

23rd January, 1851.

THIRD SESSION, FOURTH GENERAL ASSEMBLY, 14TH OF VICTORIA.

The House of Assembly having withdrawn, His Excellency was pleased to retire.

A Copy of His Excellency's Speech having been left with the House, it was read by the Clerk, and is as follows:—

His Excellency's Speech
on opening the Session.

Mr. President and Honourable Gentlemen of the Council :

Mr. Speaker and Gentlemen of the House of Assembly :

It affords me much pleasure again to meet you at the usual period of the year for resuming our deliberations on the public affairs of Newfoundland, and I rely with full confidence on your applying yourselves with your accustomed zeal and diligence to the consideration of such measures as may tend to promote its welfare.

I have to congratulate you on the great improvement which has taken place in the Revenues of the last year, evincing the favourable change that has occurred during that period in the Commercial prospects of the Colony; and I trust that these additional resources will enable you to give increased facilities to the Fisherman as well as to the Agriculturist in their communications throughout the Country, by the completion of those main lines of Road that connect the remote settlements with the capital of the Island.

An Act has passed the Imperial Parliament in their last Session, for repealing the 16th Section of the 15th Geo. 3rd, Chapter 31, on the subject of which, previously to its proclamation, I shall communicate with you by Message.

I will cause to be laid before you copies of several Despatches which have been received from Her Majesty's Secretary of State for the Colonies.

Mr. Speaker and Gentlemen of the House of Assembly.

I shall direct the accounts of the Revenue and Expenditure of the past year, with the Estimates for the current year, to be laid before you; and I rely with unabated confidence upon your disposition to make all due provision for the exigencies and probable contingencies of the public service during the present year.

23rd and 25th January, 1851.

His Excellency SIR J. G. LE MARCHANT, *Governor.*

Mr. President and Honourable Gentlemen of the Council.

Mr. Speaker and Gentlemen of the House of Assembly :

I now leave you to the discharge of your important functions, and have only further to renew to you my former assurances of my constant readiness and earnest desire cordially to co-operate with you in all measures calculated to advance the interests of every class of this Island.

Ordered—That the Honourable Messrs. O'Brien, Bennett, and Row, be a Select Committee to draft an Address to His Excellency the Governor, in answer to his Speech.

Select Committee appointed to draft an Address to the Governor in reply to his Speech.

On motion made and seconded, the House adjourned until Saturday next, at One o'clock, P.M.

House adjourns.

SATURDAY, 25TH JANUARY, 1851.

The House met pursuant to adjournment.

House meets.

Present :

The Honourable E. M. ARCHIBALD, *Attorney General,*
 “ JAMES CROWDY, *Colonial Secretary,*
 “ WILLIAM THOMAS.
 “ WILLIAM B. ROW.
 “ JOSEPH NOAD.
 “ CHARLES F. BENNETT,
 “ LAURENCE O'BRIEN.

Members present,

The Minutes of Thursday last were read.

The Honourable Mr. O'BRIEN from the Select Committee appointed to prepare an Address to His Excellency the Governor, in answer to his Speech at the opening of the Session, presented a draft thereof.

Select Committee Report draft of an Address to the Governor in reply to his Speech.

Ordered that the same be received.

25th and 27th January, 1851.

THIRD SESSION, FOURTH GENERAL ASSEMBLY, 14TH OF VICTORIA.

The Address was then read a first time, and it was ordered that the said Address be read a second time on Monday next.

Notice of motion to suspend 37th rule of the House.

The Honourable Mr. O'BRIEN gave notice, that on Monday next he would move that the 37th rule of the House be suspended with reference to the address to His Excellency the Governor.

On motion made and seconded, the House adjourned until Monday next, at One o'clock.

MONDAY, 27TH JANUARY, 1851.

House meets.

The House met pursuant to adjournment.

Present :

Members present.

The Honourable WILLIAM THOMAS.
 " WILLIAM B. ROW.
 " JOSEPH NOAD.
 " CHARLES F. BENNETT.
 " LAURENCE O'BRIEN.
 " JAMES CROWDY, *Colonial Secretary.*

The Minutes of Saturday last were read.

Address to the Governor read 2nd time.

Pursuant to the order of the day, the Address to the Governor in reply to His Excellency's Speech at the opening of the Session, was read a second time.

(37th rule of the House suspended.

The Honourable Mr. O'BRIEN, pursuant to notice, moved that the 37th rule of the House be suspended with reference to the said Address,—and it was

Ordered accordingly.

Committed.

Whereupon the House went into Committee thereon, the Honourable Mr. NOAD in the Chair.

After some time the House resumed.

27th January, 1851.

His Excellency SIR J. G. LE MARCHANT, *Governor.*

The Chairman reported the Address with an amendment.

Reported.

Ordered that the report be received.

The Address was then read a third time and passed, and is as follows:—

Read 3rd time and passed.

To His Excellency SIR JOHN GASPARD LE MARCHANT, *Knight, and Knight Commander of the Orders of Saint Ferdinand and of Charles the Third of Spain, Governor and Commander-in-Chief in and over the Island of Newfoundland and its Dependencies, &c., &c.*

The Address.

MAY IT PLEASE YOUR EXCELLENCY,

We, Her Majesty's dutiful and loyal Subjects the Council of Newfoundland, met in General Assembly, beg leave to return your Excellency our humble thanks for the gracious Speech with which you have been pleased to open the present Session of the Legislature.

We are glad to be informed by your Excellency of the favourable change that has occurred during the last year in the Commercial prospects of the Colony, indicated by the great improvement in the Revenue,—and shall readily concur in any well-devised plan for applying a due proportion of the additional resources now available, towards the completion of the Main Line of Roads connecting the remote Settlements with the Metropolis.

We thank your Excellency for informing us that an Act has been passed by the Imperial Parliament for repealing the 16th Section of the 15th Geo. 3rd, and that you will, previous to its publication, communicate with us by Message.

The several Despatches from Her Majesty's Secretary of State for the Colonies, which your Excellency expresses your intention of laying before us, shall, when received, meet our early attention.

We thank your Excellency for the renewed assurance of your readiness and earnest desire to co-operate with us in all measures calculated to advance the interest of every class of this Island; and we assure your Excellency, that you

27th and 29th January, 1851.

THIRD SESSION, FOURTH GENERAL ASSEMBLY, 14TH OF VICTORIA.

may confidently rely on an anxious endeavour on our part, to promote in every way the prosperity of the Colony.

Committee to wait on the Governor to know when he will receive the Address.

Ordered—That a Select Cómmittee be appointed to wait on the Governor to ascertain when His Excellency will be pleased to receive the House with the said Address, &c.

Ordered that the Honourable Messrs. CROWDY and O'BRIEN be a Committee for that purpose.

House adjourns.

On motion made and seconded, the House adjourned until Wednesday next, until One o'clock, P.M.

WEDNESDAY, 29TH JANUARY, 1851.

House meets.

The House met pursuant to adjournment.

“ LAURENCE O'BRIEN.

“ JAMES CROWDY, *Colonial Secretary.*

The Minutes of Tuesday last were read.

Bill to simplify proceedings in cases of Equity brought in.—Read 1st time.

Pursuant to notice the Honourable the ATTORNEY GENERAL brought in a Bill for simplifying the Process and proceedings in cases of Equity, which was read a first time—and

To be printed.

Ordered to be read a second time on this day week, and to be printed.

Select Committee make their Report on the subject of the expense of Reporting and Publishing the Debates of the House.

The Honourable ATTORNEY GENERAL, from the Select Committee appointed to report to the House the probable expense of Reporting and Publishing the Debates and proceedings of this House during the present Session, presented a report.

Ordered—That the report be received.

Ordered—That the House go into Committee thereon presently.

Report committed.

Whereupon the House went into Committee, the Honourable Mr. NOAD in the Chair.

After some time the House resumed.

The Chairman reported the Report with a Resolution in amendment.

Ordered—That the same be received.

The Report and Resolution are as follow:—

“The Select Committee appointed to consider the subject of Reporting and

14th February, 1851.

His Excellency SIR J. G. LE MARCHANT, Governor.

Publising the proceedings and Debates of the Council during the present Session, beg leave to report that they have taken the matter into their consideration, and are of opinion that it is desirable that the proceedings and debates of this Branch of the Legislature should be fairly and impartially reported; and considering that notwithstanding the Resolution upon this subject, reported last Session by the Committee upon Contingencies, and adopted by the House, it will be very difficult to avoid incurring expense for this service, while at the same time the Council will possess no direct control over the mode in which the Reporting may be conducted, the Committee beg leave to recommend that a competent person be selected to perform the duty of Reporter during the present Session, who shall be officially recognised and authorised by the Council.

Report of Select Committee on the Printing and Publishing the Debates of the Council.

In estimating the expense of such an arrangement, the Committee consider that the duty may be adequately and correctly performed by an allowance to the Reporter not exceeding the sum of £40, and that the expense of Printing and Publishing the Debates and proceedings from the Notes of the Reporter, may be accomplished for a sum not exceeding £25; and that as the Reports of the proceedings of the House of Assembly are published daily in the *Morning Post* Newspaper, the Committee deem it expedient that the Printing of the Debates and proceedings of this House should be offered in the first place to the Proprietor of the same Paper.

All which is respectfully submitted.

(Signed)

E. M. ARCHIBALD.

W. B. ROW.

C. F. BENNETT.

Committee Room,
7th February, 1851. }

Resolved,—That it is the opinion of the Committee that HARCOURT MOONEY, Esq., should be appointed Reporter of the proceedings and Debates of the House during the present Session, and that the Sum of Thirty Pounds be fixed as the amount of remuneration to be awarded for this service, instead of Forty Pounds, the allowance referred to in the foregoing Report.

Resolution that Harcourt Mooney, Esq., be appointed Reporter of the Debates.

Ordered—That the Report, as amended, be adopted.

14th and 18th February, 1851.

THIRD SESSION, FOURTH GENERAL ASSEMBLY, 14TH OF VICTORIA.

Ordered—That the Clerk of the Council acquaint Mr. Mooney of his appointment,—and that the Proprietor of the *Morning Post* Newspaper be informed that the Council have selected his paper for the Publishing their Debates and proceedings.

House adjourns.

On motion made and seconded, the House adjourned until Tuesday next.

TUESDAY, 18TH FEBRUARY, 1851.

House meets.

THIRD SESSION, FOURTH GENERAL ASSEMBLY, 14TH OF VICTORIA.

Select Committee make their report on the Petition of Mr. S. G. Archibald.

The Honourable Mr. BENNETT from the Select Committee appointed to report on the Petition of Mr. S. G. Archibald, made the following report, which was read:

The report.

The Select Committee to whom was referred the Petition of Samuel George Archibald, beg to report that they have examined the allegations in the said Petition, and have also examined the Petitioner, who has produced before them an affidavit, hereunto annexed, and to which your Committee beg leave to refer, stating that he is the original and sole inventor of the improvement and apparatus mentioned in the said Petition, and that to the best of his knowledge and belief the said invention and discovery have not before been known or used in this Island, or any other part of Her Majesty's Dominions, or any other Country. Your Committee recommend that a Bill be passed authorising the granting a Patent to the said Petitioner, under proper regulations and restrictions.

All which is submitted,

(Signed,) C. F. BENNETT, *Chairman.*

“ JOSEPH NOAD.

“ CHARLES F. BENNETT.

“ LAURENCE O'BRIEN.

The Minutes of Friday last were read.

The Honourable Mr. NOAD from the Select Committee appointed to report on the Currency of the Colony, presented a Report, which was read by the Clerk, and is as follows:

The Select Committee appointed to take into consideration the subject of the Currency beg leave to report,—

Report of Select Committee on the subject of the Currency.

That they have inquired into the matter to them referred; they have consulted the Assistant Commissary General, and have ascertained the views of many Mercantile Gentlemen in this town, on the subject, and they concur in the opinion expressed by the parties to whom they have referred, and think with them that it would be advantageous to the Trade of this Island generally, if a fixed current value were by law assigned to certain British coins, and in the establishing such value the Committee would suggest, that the same proportion which exists between the Sterling value of the Spanish Dollar, as settled by Royal Proclamation at 4s. 2d., and its current value here, which is equal to 5s., should be preserved.

The Committee would therefore recommend to the favourable consideration of the House, such a measure as would recognise the British Sovereign as of the value of Twenty-four shillings, currency, and the divisions thereof proportionate sums; the British Crown of the value of Six Shillings currency; and the British Half-crown of the value of Three Shillings currency; but the Committee

15th and 16th April, 1851.

THIRD SESSION, FOURTH GENERAL ASSEMBLY, 14TH OF VICTORIA.

do not recommend the establishment by Law of the value of any other divisions of the British Crown, inasmuch as the proportionate value of any divisions being less than one half of such Crown, would include the fractional parts of a penny, and be therefore unsuitable for general circulation.

(Signed)

JOSEPH NOAD,

15th April, 1851.

Chairman.

Ordered that the report be received and laid on the Table.

Mr. President,

The House of Assembly acquaint Her Majesty's Council that they have passed the Bill sent down to this House entitled "An Act for granting of Patents for useful inventions," without amendment.

Message from the House
of Assembly agreeing to
the Bill for granting
Patents, together with

The House of Assembly further acquaint Her Majesty's Council that upon the subject of the above Bill they have passed the following Resolution,—

—a Resolution on the
subject of the Bill.

12th and 13th May, 1851.

THIRD SESSION, FOURTH GENERAL ASSEMBLY, 14TH OF VICTORIA.

Resolved—That this Bill having come down from Her Majesty's Council, and having among its provisions three clauses imposing pecuniary burthens upon the people, ought not consistently with the privileges of this House to have been received, but inasmuch as the said Bill had gone into Committee before these objections were discovered, and an inconvenience will be occasioned by its rejection at this late period of the Session, this House will pass the Bill through its usual stages with the express understanding—to be communicated to Her Majesty's Council—that this proceeding shall not be construed into a precedent.

(Signed)

THIRD SESSION, FOURTH GENERAL ASSEMBLY, 14TH OF VICTORIA.

THURSDAY 22ND MAY, 1851.

House meets.

The House met pursuant to adjournment.

Present:

Members present.

The Honourable EDWARD M. ARCHIBALD, *Attorney General.*
 “ JAMES CROWDY, *Colonial Secretary.*
 “ WILLIAM THOMAS.
 “ WILLIAM B. ROW.
 “ JOSEPH NOAD.
 “ CHARLES F. BENNETT.

The Minutes of Yesterday were read.

Assembly request conference on the subject of the amendments of the Council on the Terms of Courts Bill.

A Deputation from the House of Assembly brought up a Message requesting a conference on the subject-matter of the amendments made by Her Majesty's Council on the Bill “to amend the Practice and to fix and establish Terms or Sittings of the Northern and Southern Circuit Courts.”

Ordered that the request be acceded to.

Conferees appointed.—

Ordered that the Honourable Messrs. CROWDY and THOMAS be the Conferees on the part of this House.

Their Report—

The Conferees went to the Conference, and having returned, reported that they had met the managers from the Assembly and received from them their Instructions.

Ordered that the report be received.

The Instructions were then read, and are as follow:—

Instructions of the House of Assembly to their Conferees on the Bill to fix and establish the Terms of the Northern and Southern Circuit Courts, &c.

The House of Assembly have desired this conference with Her Majesty's Council upon the amendments made by the Council to the Bill sent up from this House entitled “An Act to amend the practice and to fix and establish Terms or Sittings of the Northern and Southern Circuit Courts, and to provide for the appointment of Clerks and Registrars, and other Officers, in the several Electoral Districts,” for the purpose of acquainting Her Majesty's Council that they do

22nd May, 1851.

His Excellency SIR J. G. LE MARCHANT, *Governor.*

not concur in the amendments made by that Body in the 9th and 10th Sections, and the 14th Section,—for the following reasons:

1st.—Because the House of Assembly are of opinion that the places and terms appointed by the 9th Section for holding the Courts are those where and when the presence of the Courts are most required, and in accordance with the wishes of the Inhabitants of those places, especially to the Northward, who have frequently complained of the lateness of the season at which the Court has been held: the Settlements of Fogo and Greenspond contain large populations and have extensive Mercantile establishments, the inhabitants of which places (at which it is proposed by the amendments to abolish the sittings in future) cannot reasonably be compelled to bring their cases either to Twillingate or Bonavista at great inconvenience and expense, and practically to deny to suitors in the above places any participation in the administration of justice on this Circuit, for which so large a Sum is annually granted by the Legislature, and in which places for some years past the Proclamation of the Governor has appointed the Court to sit.

2nd—The House of Assembly think that the proviso attached by Her Majesty's Council to the 10th Section would render nugatory the object intended by this Section, being to fix and define the times at which the Courts shall be held, so that suitors may be enabled to make their arrangements for attendance at the Courts at periods not liable to alteration, except by subsequent Legislation, and what is concurrent with the provisions of the Act of the last Session for fixing the times for holding the Supreme and Central Circuit Courts, and with the practice in other Colonies of having certain times appointed by Statute for the Sittings of their Courts.

3rd—The 14th Section, inserted by Her Majesty's Council, does not render imperative the Registration of conveyances of Land in the Section in which they are situate, but permits registration in the Central District, merely providing for the transmission of a Docket from the Registrar of the Central District to the Registrar of the District in which the lands are;—to this Section the House of Assembly cannot concur, inasmuch as one of the main objects of the Bill is to require registration where the Lands are situated, whilst the effect of this amendment would be to leave parties residing in the particular section ignorant of the contents of the conveyance; in substitution for this amendment, the House of Assembly are of opinion that upon acknowledgment or proof before the Registrar of the Central District, a Memorial properly authenticated should be transmitted to the Registrar of the section for registration.

22nd and 23rd May, 1851.

THIRD SESSION, FOURTH GENERAL ASSEMBLY, 14TH OF VICTORIA.

Ordered that the House go into Committee thereon to-morrow.

Notice of motion for
2nd reading of Prior
claims of Servants Bill,
and—

The Honourable the ATTORNEY GENERAL gave notice that, to-morrow, he will move that the Bill entitled "An Act to declare the Law as to the Prior claims of Seamen and other Servants, in cases of the Insolvencies of their Hirers or Employers," be read a second time,—and also, that the 37th rule of the House be suspended with reference to the said Bill.

to suspend 37th rule of
the House.

Notice of Motion to
suspend 37th rule of the
House for the remainder
of the Session.

The Honourable Mr. CROWDY gave notice that, to-morrow, he will move that the 37th rule of the House be suspended for the remainder of the Session.

House adjourns.

On motion made and seconded, the House adjourned until to-morrow.

FRIDAY, 23RD MAY, 1851.

House meets.

The Minutes of Friday last were read.

The Honourable Mr. NOAD from the Select Committee appointed to report on the Contingencies of the Council made the following report:—

26th May, 1851.

His Excellency SIR J. G. LE MARCHANT, *Governor.*

Ordered—That the report be received and adopted.

Pursuant to the order of the day, the House went into Committee on the Bill entitled “An Act to declare the Law as to the Prior Claims of Seamen and other Servants in cases of the Insolvencies of their Hirers or Employers.”

Prior claims of Seamen and other Servants Bill—committed.

The Honourable Mr. NOAD in the Chair.

After some time the House resumed.

The Chairman reported progress and asked leave to sit again.

Ordered—That the report be received.

Pursuant to the order of the day, the Bill entitled “An Act for the Encouragement of Education,” was read a second time,—and

Education Bill—read 2nd time.

On motion of the Honourable the COLONIAL SECRETARY, it was—

Ordered—That the 37th rule of the House be suspended with reference to the Bill above-named, and that the said Bill be committed presently.

37th Rule of the House suspended.

Whereupon the House went into Committee thereon.

The Honourable Mr. Row in the Chair.

After some time the House resumed.

The Chairman reported progress and asked leave to sit again.

On motion of the Honourable Mr. Noad, it was—

Ordered—That a Message be sent to the House of Assembly with the Contingencies of this House.

The Honourable Mr. Row, from the Select Committee appointed to draft Instructions to the Conferees on the subject of the last conference, reported a draft thereof, which is as follows:

Select Committee appointed to draft Instructions to Conferees on the subject of the last conference, make their report.

Her Majesty's Council have desired this Conference with the House of

26th May, 1851.

THIRD SESSION, FOURTH GENERAL ASSEMBLY, 14TH OF VICTORIA.

The Instructions—

Assembly upon the subject of the last Conference upon the Amendments made by this House in and upon the Bill entitled “An Act to amend the practice and to fix and establish terms or sittings of the Northern and Southern Circuit Courts, and to provide for the appointments of Clerks and Registrars and other Officers in the several Electoral Districts,” for the purpose of acquainting the House of Assembly that as the Bill is an experimental measure, and limited in its duration to one year, Her Majesty’s Council recede from the amendment made by them in the 9th Section of the said Bill and referred to in the Instruction of the House of Assembly to their Managers at the last Conference, excepting the amendment fixing the time of the Autumn Sitting of the Northern Circuit Court at Harbour Grace, which has been regulated with reference to the subsequent commencement of the Term of the Supreme Court at St. John’s, and to avoid the inconvenience which would result from the contemporaneous Sittings of the two Courts.

That this House, consequently, recedes from the amendment made in the 10th Section, authorising the Governor in his Proclamation for the holding Terms to alter the times for the sitting of the Courts as appointed by the Bill.

That in reference to the 14th Section, it provides not merely for the transmission of “a Docket” from the Registrar of the Central District to the Registrar of the District in which the Lands are,—as supposed on the Instructions to the Conferees of the House of Assembly,—but for “an Abstract” and Docket to be transmitted to the “proper Registrar” in the District, to be preserved by such Registrar for the respective Section. The Abstract was meant by Her Majesty’s Council to contain the like particulars as are required for a Memorial by the 31st Section of the Judicature Act. By the “proper” Registrar was meant, he who is just before mentioned as the Registrar for the Section of the respective District in which the Lands or Tenements shall be situate, and by whom it is immediately afterwards required that the Abstract and Docket shall be preserved for inspection.

Her Majesty’s Council are of opinion that the Section as it stands is sufficient for the object contemplated, but will consent to any amendment thereon by the House of Assembly which may be more explicit.

Council Chamber, }
26th May, 1851. }

Adopted.

Ordered that the foregoing Instructions to Conferees be received and adopted.

House adjourns.

On motion made and seconded, the House adjourned until to-morrow.

The Honourable the Presiding Member signed the same.

The Hon. Mr Bennett from the Select Committee on the French Fisheries reports an address thereon to Her Majesty.

The Honourable Mr. BENNETT from the Select Committee appointed to take the subject of the French Fisheries as affecting the interests of this Colony into consideration, and to report thereon by address or otherwise, reported an address to Her Majesty.

Ordered that the same be received.

The said Address was read by the Clerk, and is in the following words:

TO THE QUEEN'S MOST EXCELLENT MAJESTY,

MAY IT PLEASE YOUR MAJESTY,—

Address to Her Majesty on the subject of the Fisheries.

We, your Majesty's dutiful and loyal subjects the Council of Newfoundland, in Legislative Session convened, beg leave most humbly to approach your Majesty, influenced by feeling of the most profound respect for your Majesty's person and Government.

As the state of the Newfoundland Fisheries formed the subject of an address to your Majesty at the last Session of our Legislature, we would not under ordinary circumstances have craved permission to introduce the same topic to the notice of your Majesty in our present Session, but facts of so startling a character have recently come to our knowledge, and which we cannot but be apprehensive are consequentially so fraught with disastrous results to our very existence as a Colony, that we are compelled, however reluctantly, to beseech your Majesty's gracious attention to the following statement:

In the early history of Newfoundland, and when her Fisheries were regarded as a source for replenishing the British Navy with efficient Seamen, every inducement was afforded by the Imperial Government for the prosecution of such

31st May, 1851.

His Excellency SIR J. G. LE MARCHANT, *Governor.*

Fisheries, and persons engaged in that Trade enjoyed among other advantages the encouragement of Bounties. Under favourable circumstances of this nature the population of the Island greatly increased, and expensive premises were erected in the hope that the Trade would eventually—although it might not continue to be so extensively sustained—become self-supporting; and such a result did in fact follow, for on the withdrawal of the Bounties referred to, the Fisheries still continued to be remunerative until the period when the most valuable and extensive portion of our Shores was yielded by the Imperial Government for the service of France.

The mere admission of the French to the privilege of fishing on our Shores we should have considered but a slight evil, as we have no apprehension of suffering damage from fair competition,—but the consequences which have arisen from the policy to which we have referred, have opposed us to a competition on such unequal terms, that we cannot but entertain the fear that the time must come when our prospects as a fishing Colony will be entirely broken up.

The enormous Bounties given by the French Government in aid of their Fisheries carried on under the Treaties before named,—Bounties which are of a multiplied character, inasmuch as they are made to apply both to the Men employed and the Fish caught, and which are of such magnitude as actually in many—nay, the majority of cases—to exceed the rate per quintal which we obtain for our Fish Cargoes in Foreign Markets, where our Sales do not, on an average, realize more, to cover cost of Fish and Freight, than from 8s. to 11s. per quintal, the largest of which sums is smaller than the rate of Bounty received by the French Fisherman.

Under circumstances of the nature thus described, and which are afforded to an unlimited extent by the French Government, their Fisheries on our Shores are carried on with an increasing activity, and the special circumstances which have compelled us to intrude ourselves on the notice of your Majesty at this time, is the fact that this year and before the 20th of April, there had arrived at St. Pierre's from France, 315 Vessels, averaging from 150 to 500 tons, and carrying 18,000 fishermen; in addition to this large class of Vessels, is to be added about 200 smaller craft, averaging from 25 to 80 tons burthen, and from 400 to 500 Boats. The whole of this force is for employment in the Bank Fishery and that around St. Pierre's and Miquelon, while from Cape John to the Northern extremity of our Island, and thence following the Shore thereof to the Straits of Belle Isle, the French are also vigorously and extensively engaged in the same pursuit,

31st May, 1851.

THIRD SESSION, FOURTH GENERAL ASSEMBLY, 14TH OF VICTORIA.

Against a power of this character, gigantic as it may be, we should not fear to compete on equal terms, but to contend against it when the parties antagonistic to us, are secured from pecuniary loss under almost any state of the Fish Markets, seems a hopeless task.

We will not impugn the policy of the Imperial Government, which has certainly originated this, to us, disastrous state of things; the welfare of the Empire at large may have seemed to demand the sacrifice of the interests of this Island, but we contend with all respect, and yet with all earnestness, that if such be the case we have a claim for and are entitled to receive from the Empire, an equivalent for the loss we have sustained, and such as will enable us to conduct our Fishery in the possession of privileges similar to those enjoyed by our French neighbours.

While the unsettled state of the French Government continued, her Fisheries here engrossed less of her attention than otherwise would have been the case, and as a consequence we were, for a time, relieved from that competition which is now so largely resumed. From this circumstance, and from that measure of success which has recently attended another branch of our Trade—our Seal Fishery—we have for several years past been the annual purchasers of British Manufactured Goods to the amount of nearly Half a Million, and which Trade between the Mother Country and ourselves may, under common facilities, be increased to an almost indefinite extent.

The Seal Fishery, to which reference has been made, is a pursuit which from the circumstances under which it is conducted, is naturally of an uncertain character, and its source cannot be considered as unfailing,—and yet it is the chief branch of our Trade which preserves to us at this time any portion of that prosperity we are supposed to possess. Deprived of this—or even partially so—and left to contend against French Bounties, without any Government aid, our prosecution of the Cod Fishery must cease, and our Island instead of continuing to be a considerable purchaser of British Manufactured Goods, would become a valueless appendage to your Majesty's Crown, and her immense resources left to enrich the inhabitants of Foreign Countries, while your Majesty's Government would be deprived of that advantage which politically may result from its permanent settlement, forming as its South-western point does, the Northern side of the entrance to the Gulf of St. Lawrence.

We therefore most respectfully beseech your Majesty to take the above statement of facts into your Majesty's most gracious consideration, and humbly pray

31st May, 1851.

His Excellency SIR J. G. LE MARCHANT, *Governor.*

that your Majesty will be pleased to extend to us a Bounty on the Fish exported by us,—and, inasmuch as the French (although by the terms of the existing treaties have no more than a concurrent right with us in the use of what is commonly called the French Shore) engross to themselves, and by a superior power on the Station enforce their claim to, the exclusive right of such Shore, we further pray that your Majesty will be pleased to direct that a sufficient force be supplied to us to restrain the French Fishermen and others from exceeding the powers and privileges conferred on them by existing Treaties.

Ordered—That the address be read a second time presently.

Address read 2nd time.

Whereupon the said Address was read a second time accordingly, and the House went into Committee thereon.

Committed.

The Honourable Mr. Row in the Chair.

After some time the House resumed.

The Chairman reported the Address.

Ordered—That the report be received.

Whereupon the Address was read a third time and passed, and

Read 3rd time and passed.

On motion made and seconded it was—

Ordered—That the Honourable Messrs. BENNETT and O'BRIEN be a Select Committee to wait on the Governor with the Address, and to request His Excellency will forward it to Her Majesty.

Committee to wait on the Governor with the Address to Her Majesty.

At Two o'Clock, P.M., His Excellency the Governor having arrived at the Council Chamber and being seated on the Throne, the Gentleman Usher of the Black Rod was ordered to direct the immediate attendance of the House of Assembly at the Bar of this House, and they being come thereto, His Excellency was pleased to give his assent to the following Bills, viz:—

His Excellency the Governor arrives at the Council Chamber—

and

An Act to continue an Act passed in the Fourth year of the Reign of Her present Majesty, entitled “An Act to Regulate the Packing and Inspection of Pickled Fish for Exportation from this Colony.

Assents to certain Bills.

31st May, 1851.

THIRD SESSION, FOURTH GENERAL ASSEMBLY, 14TH OF VICTORIA.

An Act to improve the Copper Currency of the Island.

An Act in addition to the Act for the Management of Light Houses in this Colony.

An Act for the Establishment and Regulation of a Penitentiary in St. John's.

An Act to Authorise the Issue of Treasury Notes, and for the Reduction of the Public Debt of the Colony.

An Act for the Appointment of Electric Telegraph Commissioners, and for Incorporating Electric Telegraph Companies.

An Act for the Granting of Patents for useful Inventions.

An Act for the Encouragement of Education.

An Act to extend the time allowed by the St. John's Rebuilding Act for the Removal of Wooden Buildings in certain parts of the said Town, and for other purposes.

An Act to amend the Practice and to fix and establish Terms or Sittings of the Northern and Southern Circuit Courts, and to provide for the Appointment of Clerks and Registrars and other Officers, in the several Electoral Districts.

An Act for the Establishment and Regulation of Inland Posts in this Colony.

An Act to continue an Act granting to Her Majesty certain Duties on Goods, Wares, and Merchandize, imported into this Colony and its Dependencies.

An Act for granting to Her Majesty a Sum of Money for defraying the Expenses of the Civil Government of the Colony for the year ending the 31st day of December, 1851, and for other purposes.

An Act for granting to Her Majesty a Sum of Money for Constructing and Repairing Roads, Streets, and Bridges, within this Colony, and for other purposes.

An Act to provide for the Contingent Expenses of the Legislature.

After which His Excellency was pleased to deliver to the two Houses the following

31st May, 1851.

His Excellency SIR J. G. LE MARCHANT, *Governor.*

SPEECH:

Mr. President, and Honourable Gentlemen of the Council :

His Excellency's Speech
on Proroguing the
General Assembly.

Mr. Speaker, and Gentlemen of the House of Assembly :

The public business having been at length brought to a termination, I am now enabled to release you from any further attendance.

Mr. Speaker, and Gentlemen of the House of Assembly :

I thank you for the Supplies which you have granted for the Public Service.

Mr. President, and Honourable Gentlemen of the Council :

Mr. Speaker, and Gentlemen of the House of Assembly :

I regret much the inconvenience to which many of you, especially those from the more distant parts of the Island, must have been subjected by the protracted length of the present Session. I hope, however, that you will find on your return to your own homes that this detention at the Seat of Government has not proved injurious to your several private Interests.

The Honourable the Presiding Member of the Council then said,—It is His Excellency the Governor's will and pleasure that this General Assembly be prorogued until Thursday, the 24th day of July next, to be then and here holden; and this General Assembly stands prorogued accordingly.

The General Assembly
Prorogued.

APPENDIX

APPENDIX, No. 3.

AT THE COURT AT BALMORAL,

The 24th day of September, 1850.

Present:

THE QUEEN'S MOST EXCELLENT MAJESTY,
HIS ROYAL HIGHNESS PRINCE ALBERT,

LORD JOHN RUSSELL,

MR. MAULE,

SIR FRANCIS BARING, Bart.

WHEEEAS the Governor of Her Majesty's Island of Newfoundland, with the Council and Assembly of the said Island, did, in the month of April last, pass thirteen Acts, which have been transmitted, as follows, viz:—

- No. 97. An Act to amend an Act passed in the Seventh Year of the Reign of Her present Majesty, entitled "An Act to provide for the Establishment of an Academy in Saint John's."
- No. 98. An Act for the limitation of Actions and Suits relating to Real Property, and for simplifying the remedies for trying the rights thereto.
- No. 99. An Act to fix and establish the Terms of the Supreme, Central Circuits, and Sessions Courts, and to extend the Jurisdiction and amend the Practice of the said Courts.
- No. 100. An Act to continue an Act passed in the Sixth Year of the Reign of Her present Majesty, entitled "An Act to revive and amend an Act passed in the Third Year of the Reign of Her present Majesty, entitled "An Act to establish the Fees and Costs chargeable in the several Police Offices and Courts of Sessions in this Colony."
- No. 101. An Act to amend an Act passed in the Third Year of the Reign of Her present Majesty, entitled "An Act to regulate the Granting of Licenses for the sale by Retail, of Ale, Wines, and Spirituous Liquors, in Newfoundland."
- No. 102. An Act in further amendment of the St. John's Rebuilding Acts.
- No. 103. An Act for the regulation and management of the Public Market-House in the Town of St. John's.
- No. 106. An Act to amend an Act passed in the Fourth Year of the Reign of His late Majesty entitled "An Act for Registering the names of Persons entitled to Vote at Elections."

- No. 107. An Act to continue and amend an Act passed in the Sixth Year of the Reign of Her present Majesty, entitled "An Act for the encouragement of Education in this Colony."
- No. 108. An Act to authorise the granting a Patent for an improved Fog Bell or Gong, and other self-regulating Machinery impelled by wind, to Thomas Robson, of Sackville, in the Province of New Brunswick, Master Mariner.
- No. 109. An Act to repeal an Act, entitled "An Act to regulate the Making and Repairing of Roads, Streets, and Bridges, within this Colony."
- No. 110. An Act for granting to Her Majesty a Sum of Money for defraying the Expenses of the Civil Government of this Colony, for the year ending the Thirty-first day of December, One Thousand Eight Hundred and Fifty.
- No. 111. An Act to provide for the Contingent Expenses of the Legislature.

AND WHEREAS the said Acts have been referred to the Committee of the Lords of Her Majesty's Most Honourable Privy Council, appointed for the consideration of all matters relating to Trade and Foreign Plantations, and the said Committee have reported as their opinion to Her Majesty that the said Acts should be left to their operation;—Her Majesty was thereupon this day pleased, by and with the advice of Her Privy Council, to approve the said report.—Whereof the Governor, Lieutenant Governor, or Commander-in-Chief, for the time being, of Her Majesty's Island of Newfoundland, and all other persons whom it may concern, are to take notice and govern themselves accordingly.

(Signed)

C. GREVILLE.

APPENDIX, No. 4.

AT THE COURT AT BUCKINGHAM PALACE,

The 3rd day of February, 1851.

Present:

THE QUEEN'S MOST EXCELLENT MAJESTY,
HIS ROYAL HIGHNESS PRINCE ALBERT,

LORD CHANCELLOR,
LORD PRESIDENT,
LORD PRIVY SEAL,
DUKE OF NORFOLK,
LORD STEWARD,

EARL OF CARLISE,
EARL GREY,
LORD JOHN RUSSELL,
VISCOUNT PALMERSTON,
MR. MAULE,

LORD CHAMBERLAIN,
MARQUIS OF ABERCORN,
MARQUIS OF CLANRICARDE,

SIR JOHN HOBHOUSE, Bart.
SIR GEORGE GREY, Bart.,
MR. CHANCELLOR OF THE EXCHEQUER.

WHEREAS the Lieutenant-Governor of Her Majesty's Island of Newfoundland, with the Council and Assembly of the said Island, did, in the month of April, 1850, pass Two Acts, which have been transmitted, entitled as follows, viz:—

No. 93. An Act for Granting to Her Majesty certain Duties on Goods, Wares, and Merchandise, imported into this Colony and its Dependencies.

No. 94. An Act to amend an Act, entitled "An Act to provide for the Regulation, Management, and Collection of all Duties granted to Her Majesty, Her Heirs and Successors, on all Goods, Wares, and Merchandise, imported into this Island and its Dependencies."

AND WHEREAS the said Acts have been referred to the Committee of the Lords of Her Majesty's Most Honourable Privy Council, appointed for the consideration of all matters relating to Trade and Foreign Plantations, and the said Committee have reported as their opinion to Her Majesty that the said Acts should be left to their operation;—Her Majesty was thereupon this day pleased, by and with the advice of Her Privy Council, to approve the said Report.—Whereof the Governor, Lieutenant-Governor, or Commander-in-Chief, for the time being, of Her Majesty's Island of Newfoundland, and all other persons whom it may concern, are to take notice and govern themselves accordingly.

(Signed)

WM. L. BATHURST.

APPENDIX, No. 5.

AT THE COURT AT BALMORAL,

The 24th day of September, 1850.

Present:

THE QUEEN'S MOST EXCELLENT MAJESTY,
HIS ROYAL HIGHNESS PRINCE ALBERT,
LORD JOHN RUSSELL, MR. MAULE,
SIR FRANCIS BARING, Bart.

WHEREAS the Governor of Her Majesty's Island of Newfoundland, with the Council and Assembly of the said Island, did, in the month of April last, pass an Act, which has been transmitted, entitled as follows, viz:

No. 105. An Act to provide for the Vacation of Seats of Members of the House of Assembly in certain cases, and for the Election of Members in their stead.

AND WHEREAS the said Act has been referred to the Committee of the Lords of Her Majesty's Most Honourable Privy Council, appointed for the consideration of all matters relating to Trade and Foreign Plantations, and the said Committee have reported as their opinion to Her Majesty that the said Act should receive Her Majesty's special confirmation;—Her Majesty was thereupon this day pleased, by and with the advice of Her Privy Council, to declare her special confirmation of the said Act, and the same is hereby specially confirmed, ratified, and finally enacted accordingly.—Whereof the Governor, Lieutenant-Governor, or Commander-in-Chief, for the time being, of Her Majesty's Island of Newfoundland, and all other persons whom it may concern, are to take notice and govern themselves accordingly.

(Signed)

C. GREVILLE.

APPENDIX, No. 6.

AT THE COURT AT BUCKINGHAM PALACE,

The 7th day of March, 1851.

Present:

THE QUEEN'S MOST EXCELLENT MAJESTY,
HIS ROYAL HIGHNESS PRINCE ALBERT,

LORD PRESIDENT

DUKE OF NORFOLK,

LORD STEWARD,

LORD CHAMBERLAIN,

MARQUIS OF ABERCORN,

MARQUIS OF CLANRICARDE.

EARL OF CARLISLE,

EARL GREY,

LORD JOHN RUSSELL,

VISCOUNT PALMERSTON,

SIR GEORGE GREY, Bart.,

WHEREAS the Lieutenant-Governor of Her Majesty's Island of Newfoundland, with the Council and Assembly of the said Island, did, in the month of August, 1850, pass an Act, which has been transmitted, entitled as follows, viz:

No. 96. An Act to authorise the issue of Treasury Notes, and for the reduction of the Public Debt of the Colony.

AND WHEREAS the said Act has been referred to the Committee of the Lords of Her Majesty's Most Honourable Privy Council, appointed for the consideration of all matters relating to Trade and Foreign Plantations, and the said Committee have reported as their opinion to Her Majesty that the

said Act should not receive Her Majesty's Royal confirmation; Her Majesty was thereupon this day pleased, by and with the advice of Her Privy Council, to declare Her disallowance of the said Act, and the same is hereby disallowed accordingly.—Whereof the Governor, Lieutenant-Governor, or Commander-in-Chief, for the time being, of Her Majesty's Island of Newfoundland, and all other persons whom it may concern, are to take notice and govern themselves accordingly.

(Signed)

C. GREVILLE.

APPENDIX, No. 7.

DESPATCH

From the Secretary of State for the Colonies to His Excellency the Governor, on the subject of the Act to authorise the Issue of Treasury Notes.

(COPY,
No. 192.

Downing Street, 10th March, 1851.

SIR,—

Her Majesty's Government have had under their consideration the Act passed by the Legislature of Newfoundland in the month of April last,—No. 96, entitled, “An Act to authorise the Issue of Treasury Notes, and for the reduction of the Public Debt of the Colony.”

This Act has been passed without a suspending clause, and is therefore at present in operation.

Before entering on the merits of this enactment I have to direct your attention to the 14th clause of the Royal Instructions, accompanying your Commission as Governor, by which you are directed “not to propose or assent to any Law whatever whereby Bills of Credit, or other negociable securities of whatever nature, may be issued in lieu of money on the credit of the said Island, or whereby any Government paper currency, or any coin, save only the legal coin of the realm, may be made or declared to be a legal tender,” without the special permission of Her Majesty in that behalf first obtained.

I need scarcely point out to you the importance of a strict adherence to this clause of the Royal Instructions, or the great inconvenience which cannot but result to Her Majesty's Government, and to the Colony, from a disregard of it, whereby Acts of an objectionable character are made to come into operation before Her Majesty's advisers have had an opportunity of considering and of deciding upon the propriety of their adoption. In the present instance, I am willing to believe that the contravention of this Instruction has proceeded from inadvertence, but I must strictly charge you in future not to give your assent to any enactment of the nature of that now under discussion, unless it shall

contain a suspending clause, without first submitting a draft of the proposed measure for the consideration of Her Majesty's Government, and receiving Her Majesty's sanction for its becoming Law.

From your Report on this Act it appears that the provisions regarding the issue of Public Notes have a twofold object,—first, to supply an addition, not exceeding £20,000, to the paper currency already in circulation in the Colony, and secondly, to facilitate the payment of the Public Debt. It is further stated in your Report that it is the intention of the Local Government to retain in the Treasury an amount of specie equal to one third, or one half, of the amount of the Notes to be issued for the purpose of securing this convertibility.

As regards the object of increasing the circulating medium of the Colony by the issue of Government Notes, it is evident from your Report that the Branch Bank of British North America established in the Colony, has, notwithstanding the strong motives which it must have for promoting the circulation of its notes as far as prudence will allow, been unable to issue more than a very small amount in proportion to the specie currency of the Colony.

The only conclusion therefore which Her Majesty's Government can draw from this circumstance, is that the present circulation is equal to the Mercantile wants of the community.

It is stated in your Report to be the intention of the Local Government to keep a reserve of specie to provide for the payment of the Notes on demand. No obligation in that respect is imposed by the provisions of the Act itself; all the arrangements both as to the issue of the Notes and the retention of a reserve of specie, being left to the discretion of the Local Government for the time being, subject only to the restriction that the Notes to be issued do not exceed in amount the sum of £20,000.

Under these circumstances Her Majesty's Government do not perceive that any public convenience will be attained by the issue of the Treasury Notes authorised by this Act, or that any adequate provision is made for securing their convertibility into specie on demand. They can therefore only look upon the present measure as framed with the view of attempting to reduce the existing Public Debt of the Colony by the issue of a Paper Currency based upon no real security.

Her Majesty's Government would witness with much satisfaction any effective measures of the Local Legislature for the gradual liquidation of this debt, amounting to nearly £100,000. But the creation of paper money of the description now proposed for the purpose of mitigating an immediate pressure, is a resource which cannot fail in its ultimate effects to increase the difficulties it seeks to alleviate.

For these reasons it has become my duty to advise the disallowance of the Act; and I have the honour herewith to transmit to you an order of Her Majesty in Council, dated the 7th inst., disallowing the Act accordingly.

From the Blue Book returns it appears that since 1846 large additions have been made in successive years to the Colonial Debt, and although sums have been annually applied by the Local Legislature in paying off Loans, yet the new debts which have been created far exceed the amount of those discharged.

The distress which befel the Colony in consequence of the Potato Blight in 1847, tended no doubt to cripple its resources, and rendered it difficult to provide for the necessary expenditure without the aid of additional Loans; but unless means are taken for keeping the expenditure within the Income, and for providing a surplus to be applied to the gradual extinction of the debt, the finances of the Colony cannot be brought into a satisfactory state.

To the creation of a Paper Currency under proper restrictions I am not prepared to object; on the contrary, I think it highly desirable that in a Colony like Newfoundland, where capital is much wanted, it should be economised as far as possible by substituting the cheap medium of exchange afforded by a well-regulated Paper currency for the expensive one of a Specie circulation. As an example of the mode in which this may be accomplished, I refer you to the enclosed copies of correspondence, and of an ordinance passed by the Government of New Zealand in 1847, for the issue of a paper currency in that Colony. In adopting any similar arrangement for Newfoundland it would be necessary to respect the rights of the Branch Bank of British North America.

I am, &c.,

(Signed)

GREY.

Governor Sir G. LEMARCHANT, &c., &c., &c.

APPENDIX, No. 8.

DESPATCH

From the Secretary of State for the Colonies to His Excellency the Governor, on the subject of Prospective Reductions in the Civil List and Reserved Salaries.

(COPY)

No. 156.

Downing Street, 10th June, 1850.

SIR,—

I have received and laid before the Queen your Despatch, No. 27, of the 4th ultimo, transmitting an Address from the House of Assembly praying “that Her Majesty will be pleased to permit the House to make such prospective Reductions in the Civil List and Reserved Salaries as shall be suited to the present exigencies of the Colony.”

You will inform the House of Assembly that Her Majesty has been pleased to receive the Address very graciously.

2. Her Majesty's Government can entertain no wish to prevent any reductions in the scale of the Public Expenditure, which are not inconsistent with good faith towards the existing holders of offices, or with the manifest exigencies of the service, and which are called for by the state of the finances of the Colony. You may therefore rest assured that any specific reductions which may be proposed by the Assembly in the Reserved Salaries of the Judges, Attorney-General, and Colonial Secretary, on vacancies occurring, shall be considered with every disposition to be guided by the views of the Legislature as to the amount of expenditure required. But I am bound at the same time to call the attention of Members of the Assembly to the fact that it is the reverse of true economy to reduce the amount of Salary attached to important offices below that at which the services of able and trustworthy persons can be secured—a principle which especially applies to Judicial Offices.

3. I must add that I regard the Salary of the Governor as being obviously no higher than is necessary for the adequate discharge of his functions. I shall not, therefore, be prepared to sanction its reduction, if the question were now before me, on the occurrence of a vacancy.

I am, Sir, &c.,

(Signed)

GREY.

Governor Sir GASPARD LEMARCHANT, &c., &c., &c.

APPENDIX, No. 9.

DESPATCH

From the Secretary of State for the Colonies to His Excellency the Governor, transmitting the opinion of Her Majesty's Law Advisers as to the rate at which Dollars should be paid in discharge of the Reserved Salaries.

(COPY)

No. 183.

Downing Street, 31st December, 1850.

SIR,—

I have to acknowledge the receipt of your Despatch, No. 18, of the 17th of April last, enclosing an Address from the House of Assembly of Newfoundland, praying for the opinion of Her Majesty's Law Advisers as to the rate at which Dollars should be paid in discharge of the Salaries of certain Colonial Offices reserved by the Imperial Act 2nd and 3rd Wm. 4th, cap. 78.

Having referred this subject for the consideration of Her Majesty's Attorney and Solicitor-

General, I transmit herewith a copy of their opinion upon the question submitted to them, and I have to instruct you to communicate it to the House of Assembly in answer to their Address.

I am, Sir, &c.,

(Signed)

GREY.

Governor Sir G. LEMARCHANT, &c., &c., &c.

Lincoln's Inn, 20th December, 1850.

MY LORD,—

We were honoured with your Lordship's command contained in Mr. Elliot's letter of the 23rd October last, in which he stated that he was directed by your Lordship to transmit to us copies of a Despatch from the Governor of Newfoundland, enclosing an Address from the House of Assembly of that Island praying for the opinion of Her Majesty's Law Advisers as to the rate at which Dollars should be paid in discharge of the Salaries of certain Colonial Officers specified in the Imperial Act 2nd and 3rd Wm. 4., cap. 75.

Mr. Elliot also transmitted to us copies of the Colonial Laws referred to in these papers, and stated that he was to request that we would favour your Lordship with our opinion on the question raised in the Address of the Assembly, whether the change of payment of the Salaries in question in Dollars from Four Shillings and Four Pence to Four Shillings and Two Pence, was and is authorized by Law.

In obedience to your Lordship's command we have perused the several papers transmitted to us, and have the honour to report that we are of opinion that considering that the Salaries in question were by the Act of 2nd and 3rd Wm. 4, cap. 78, reserved to the recipients in Sterling British Money, such Salaries, if paid in foreign coin, should be paid according to the legal sterling value of such foreign coin and not according to any conventional value which the latter may by local usage bear.

Now, Her Majesty's Proclamation of 1838 having fixed the legal value of the Dollar at Four Shillings and Two Pence, its ascertained real value, we are of opinion that such must be taken to be its real value with reference to the payment of Salaries which are reserved by Statute in Sterling Money.

We therefore think that if the Salaries in question are paid in Dollars, the Dollar must be taken at Four Shillings and Two Pence.

We have, &c.,

(Signed)

JOHN ROMILLY,
A. E. COCKBURN.

The Right Honourable EARL GREY, &c., &c., &c.

APPENDIX, No. 10.

DESPATCH

From the Secretary of State for the Colonies to His Excellency the Governor, acknowledging the receipt of Addresses from both Branches of the Legislature, representing the present depressed state of the Staple Trade of the Island.

(COPY)
No. 157.

Downing Street, 14th June, 1850.

SIR,—

I have to acknowledge the receipt of your Despatches of the Nos. and dates noted in the margin, [1849—Nos. 13, 17th March—22, 30th April—42, 4th Sept.,] enclosing Addresses from both Branches of the Legislature, and other public bodies, in Newfoundland, representing the present depressed state of the Staple Trade of the Island, and praying that measures may be adopted for the protection of the Fisheries.

At present, I can only assure you that this important subject has not escaped my attention, and that it is still engaging the serious consideration of Her Majesty's Government.

I am, Sir, &c.,

(Signed)

GREY.

Governor Sir GASPARD LEMARCHANT, &c., &c. &c.

APPENDIX, No 11.

DESPATCH

From the Secretary of State for the Colonies to His Excellency the Governor, transmitting a Copy of a Letter from Major Graham, and suggesting that a Return of the Population of Newfoundland be prepared in the manner prescribed.

(COPY)
Circular.

Downing Street, 20th January, 1849.

SIR,—

A Census of the Population of England and Wales will be taken in the year 1851, and the Registrar General has suggested to me that it would be desirable to publish a similar Return for all Her Majesty's Colonial Possessions.

I transmit, for your information and guidance, a copy of Major Graham's Letter, together with a copy of the memorandum to which it refers; and I have to instruct you to cause a Return of the Population of the Colony under your Government to be prepared, in the manner prescribed in the annexed Form, as far as may be practicable, without incurring expenditure which cannot be conveniently provided for.

Although I concur in Major Graham's opinion, that it would be desirable that a Census in each of the Colonies should, if possible, be taken on or about the same day as that on which it may be fixed to be taken in this country, this suggestion can of course only be acted upon in the event of the Legislature of _____ having it in contemplation to direct such a Return to be made, in which case it would be expedient to submit the recommendation of the Registrar General to their consideration, with the view to the adoption of such measures as they may deem necessary for securing this object.

(Signed)

GREY.

Governor Sir G. LEMARCHANT, &c., &c., &c.

General Register Office, December 7, 1848.

SIR,—

On the 5th August, 1842, by direction of Secretary Sir James Graham, I transmitted for the use of the Secretary of State for the Colonies some suggestions respecting the mode of taking a Census in each of our Colonial Possessions, as requested by Lord Stanley.

I am about to publish the Population of England and Wales, as lately arranged with respect to the Districts into which this Country is now divided for the purpose of registering Births and Deaths, together with a comparative view of the results of the last Five Censuses. I have also been furnished with the latest returns of the Population in several Countries in Europe. It occurs to me that it might be desirable also to publish the Population of our Colonial Possessions.

I therefore take the liberty of requesting that you will have the goodness to call the attention of Earl Grey to this subject, and to submit to his Lordship my request, that I may be furnished with Abstracts of the Population of such of our Colonies as may have made returns upon the subject to the Colonial Office, in accordance with the Memorandum which I had the honour of transmitting through Secretary Sir James Graham, on 5th August, 1842.

If I am not taking too great a liberty, I should also venture to suggest that it may perhaps

be expedient that steps should be taken to secure a Census being made in each of our Colonies, in 1851, on or about the same day that Parliament may fix for its being taken in this Country.

I have the honor to be, &c.,

GEORGE GRAHAM,
Registrar General.

B. HAWES, Esq., M.P., &c., &c., }
Colonial Office. }

MEMORANDUM.

A Census cannot be taken in precisely the same form in all Her Majesty's Colonies, as the condition of the respective Populations, and the means of ascertaining the facts, differ in different parts. It is desirable nevertheless, to preserve uniformity as far as is practicable; and I have had one Form drawn out, of which I recommend the general adoption, subject to the requisite modifications, some of which I shall notice very briefly.

1. The Population should be enumerated in a convenient number of enumeration Districts, comprehended in the established divisions of the Colonies; the area of which should be given (when known), in square Acres, or square Miles. The Population of the Towns should be enumerated within boundaries strictly defined; for unless the boundaries are known, the results of successive Censuses cannot be compared.

2. Where the habitations are not fixed the People might be enumerated in Tribes and Families.

3. The enumerations should be made at *equal intervals of time* (annually or quinquennially) on *one day*, if possible—comprising the persons in each District on the previous night, at a season of the year when the facts can be recorded with most facility, and when there is no great displacement of the Population by festivals or by other causes.

NOTE.—Persons from home should be enumerated at the place in which they happen to be on the Census night; the words “(visitor,)” “(traveller,)” &c., being added in parentheses, after their names. If they are not out of the Colony, they should also be enumerated at home, with the word “absent” after their names. All the persons marked “absent” should be omitted in the abstracts, otherwise the same person would be counted twice. This part of the Census, relating to the “floating population,” will require great care. In England, “Householders’ Schedules” were left at each house a few days before the Census; and the enumerator had only to fill up those left blank by the householders who could not write, or who had neglected their duty.

4. It will be desirable where there is a difficulty in obtaining information respecting the Aborigines, to confine the inquiry to males aged 20 years and upwards—the “fighting men.” In such cases partial and imperfect information respecting the number of women and children leads to confusion and error. The supposed number of females of all ages, and of males under the age of 20, may, however, be stated. Men aged 20 years and upwards are generally one-fourth of the entire Population.

5. Wherever it is practicable every individual should be enumerated by *name*. Without this, experience has proved that there can be no security for the accuracy of the returns. The Abstracts cannot otherwise be made satisfactorily, and the Government will find the enumeration by *name* useful for many purposes connected with the Police and defence of the respective Colonies. The enumerations should be made by houses or "families" (hearths)—the names of the heads of the family being written first, with the children, resident visitors, and servants, following in succession.

6. The importance of enumerating the age and the race, is sufficiently obvious. There will be sometimes a difficulty in ascertaining the age; but it can generally be learnt whether a man is about the age of 30, 40, 50, &c., &c., which will be an approximation sufficiently near for many statistical purposes.

The occupations should be defined and explained with a view to the classification of the colonists: householders, proprietors, and masters, should be distinguished from lodgers, tenants, and workmen.

From the information in the column headed "date of entering the Colony," besides other useful information, the annual accession of new settlers of each race, &c., &c., can be determined. "Birth," may be written against the names of persons born in the Colony.

In the last column it should be stated whether the person is labouring under any sickness—understanding thereby such severe sickness as incapacitates him from following his ordinary occupation—or any infirmity, such as blindness, deafness, idiotcy, lameness, or the feebleness of old age. An Abstract of the information in this column will show the sanitary state of different races and localities; as well as the relative proportions of the inefficient and efficient Population.

In addition to the Census I would suggest that the Marriages, Births and Deaths should be registered and abstracted annually. In some Colonies the age at death and the causes of death could probably be obtained; which would render the information complete.

In the Schedule I have set down no head for the "Religion" and other points sometimes inquired into; because I consider it important not to crowd the Census with too many particulars.

STATISTICAL ABSTRACTS.

The enumerators should not be called upon to make the Abstract, but should transmit the Schedules in books of a convenient form to the seat of Government; where the Abstracts should be made on an uniform plan under proper supervision. Specimens of the Forms used at this Office

may, if required, be supplied, with directions for making the Abstracts; which may abridge the labour and ensure accuracy. A great variety of useful Abstracts might be made from the Returns, as it is evident that the facts might be combined in a great variety of ways. I will mention a few—

(1.) An Abstract of the number of persons living at different ages in quinquennial periods—(0 and under 5, 5 and under 10, &c.,) or in decennial periods after 15, if the ages cannot be ascertained with much exactness.

A separate Abstract to be used for the (1) males, and (2) females,—(3) the different races, and (4) the sick and infirm.

(2) An Abstract of the number of men (above 20) of different classes and following the various occupations.

(3) An Abstract of the number of persons living who entered the Colony in the year immediately preceding the Census, &c., &c., &c.

In many Colonies it would be sufficient to make the more elaborate Abstracts every five years.

When the Census of the Population is taken, valuable statistical information respecting other matters is obtained in many Countries. The number of churches, public institutions,—of mills, manufactories,—of horses, cattle, sheep, &c., is ascertained as well as the amount of agricultural produce.

I have confined my observations to the facts immediately connected with the Census of the Population. The agriculture, manufactures, &c., &c., may be more conveniently made the subjects of a separate—but it may be,—simultaneous inquiry.

GEORGE GRAHAM,

Registrar General.

APPENDIX, No. 12.

PETITION

From the Right Rev. Dr. Mullock, on the subject of the removal of his name from the Roman Catholic Central Board of Education.

TO THE HON. THE LEGISLATIVE COUNCIL OF NEWFOUNDLAND IN LEGISLATIVE SESSION CONVENED.

THE PETITION OF JOHN THOMAS MULLOCK, R. C. BISHOP OF NEWFOUNDLAND,

Respectfully Sheweth,—

That your Petitioner has learned that by a decision of your Honourable Council the Roman Catholic Bishop is removed from the superintendence of the Central Roman Catholic Board of Education.

That the Education of this country is denominational, and as such, recognised by law. That the Senior Clergyman is ex-officio President of the Local Boards. That in order to carry out the denominational system as far as the Catholics are concerned, it is necessary that the Catholic Bishop should, ex-officio, be at the head of the Central Educational Board. By the Canonical Law of the Catholic Church the Bishop is the Superior, President, and Visitor, of all Catholic Schools; it is a duty inherent in his office, and one which, were he willing, he has no power to resign. That though the Catholic Church recognises the power of the State to create general or national Schools, and allows, where nothing subversive of faith or morals is taught, her children to frequent them, and her Bishops and Priests to sit as members of their boards, still she cannot admit the power of the State to organise Catholic Schools or Boards, as such, for in such cases her Bishops are ex-officio their superiors, and would, if they consented to such an anomaly, be giving to Cæsar what belongs to God.

That should such a project pass into law your petitioner will be obliged, with deep regret, to prevent any of his clergy taking any part in the system, and to prohibit any Lay Boards which may be established from taking the name of Roman Catholic Boards, a title which the State cannot give them.

That your Honourable House must be aware how injurious it will be to the country to have the Education of the whole Catholic community at a dead stop, or to pass a law which in conscience they cannot obey. In fine, your Petitioner sees but two ways in which the matter may be settled, either to establish a general system of education, irrespective of religious denominations, a plan which may be productive of grievous dissensions, or to recognise the inherent right of the Roman Catholic Bishop (a right which under penalty of death he could not forego,) to superintend the education of those for whose salvation he is responsible. He hopes, therefore, that your Honourable House will recognise this right, and as in duty bound he will ever pray.

JOHN T. MULLOCK,
R. C. Bishop of Newfoundland.

APPENDIX, No 13.

PETITION

From Members of the Established Church in the District of Harbour Grace, praying a Non-Division of the Educational Grant, &c.

TO THE HONOURABLE THE LEGISLATIVE COUNCIL IN SESSION CONVENED.

THE PETITION OF THE UNDERSIGNED MEMBERS OF THE ESTABLISHED CHURCH OF ENGLAND, RESIDENT IN THE EDUCATIONAL DISTRICT OF HARBOUR GRACE.

Humbly Sheweth,—

That as the Educational Act 6th Victoria, cap. 6, is about to expire, your Petitioners deem it necessary to address your Honourable Body on this important subject.

Your Petitioners, upon mature reflection, disapprove of any division of the sum granted annually for the support of Protestant Schools in this Island; a measure calculated to destroy many of the Schools now existing in the Outports, where the means at the disposal of the various denominations of Protestants would be insufficient to establish separate and distinct Institutions.

Your Petitioners believe that the Boards of Education, as at present constituted, are better adapted to carry out faithfully the benevolent intentions of the Legislature than if they were composed wholly of one denomination.

Your Petitioners gratefully acknowledge the many educational advantages which the Legislature has already conferred on their children, and feel assured that by extending these advantages yet farther in the Colony, the Legislature will merit and obtain the willing blessings of the rising generation.

Your Petitioners therefore humbly pray that in any Act for Elementary Education your Hon. Body will negative any division of the Grant to Protestants, and will continue the mixed Boards of Education—and will increase the Education Grant to as great an extent as the circumstances of the Colony will admit.

And your Petitioners, as in duty bound, will ever pray.

W. STIRLING,
JOHN STARK,
THOMAS DANSON,
ROBERT J. PINSENT.
ALFRED MAYNE.

[And 425 others.]

APPENDIX, No. 14.

PETITION

Of the Newfoundland School Society, on the subject of the Education Grant.

TO THE HONOURABLE THE LEGISLATIVE COUNCIL OF NEWFOUNDLAND, IN SESSION CONVENEED.

THE MEMORIAL OF THE LOCAL COMMITTEE OF THE NEWFOUNDLAND SCHOOL SOCIETY.

Humbly Sheweth,

That your Memorialists, gratefully acknowledging the liberal aid hitherto afforded the Newfoundland School Society, which has enabled them to enlarge their sphere of action, respectfully solicit from your Honourable House a continuance of the usual Grant; and should your Honourable House determine upon augmenting the amount now appropriated for Educational purposes, Memorialists trust that your Honourable House will place at their disposal such further sum as will afford them the means of extending their operations to Settlements now destitute of Educational establishments; and Memorialists respectfully crave the attention of your Honourable House to the numerous Petitions presented last Session, and recorded in your Journals, from many localities, in furtherance of the prayer of their Memorial.

And Memorialists, as in duty bound, will ever pray, &c.

For and on behalf of the Committee,

THOMAS DUNN,

Secretary and Superintendent.

March 1st, 1851.

APPENDIX, No. 15.

PETITION

From the Reverend Edmund Botterell, Wesleyan Minister, praying that whatever sum be appropriated to the uses of the Church of England School Society from out of the Education Grant, such sum may be taken from the amount appropriated to Members of the Church of England.

TO THE HON. THE LEGISLATIVE COUNCIL OF NEWFOUNDLAND IN LEGISLATIVE SESSION CONVENEED.

THE PETITION OF EDMUND BOTTERELL,

Humbly Sheweth,—

That your Petitioner has observed that in the Bill for the Encouragement of Education, as proposed to be amended in Committee of your Honourable Council, the sum of Five Hundred

Pounds is provisionally appropriated to the Newfoundland School Society out of the gross sum of Two Thousand Six Hundred and Ten Pounds, intended for the Education of Protestants.

That your Petitioner deems it his duty on behalf of the Members of the Wesleyan Methodist Church to submit to your Honourable Council his deep sense of the injury which by this arrangement would be inflicted on them.

That inasmuch as the School Society in question is understood to be, and avows itself to be, as its name imports, a "Church of England School Society," your Petitioner conceives, and humbly prays, that whatever amount your Honourable Council shall determine to be paid for the uses of this School Society should therefore be deducted not from the gross sum for the Education of Protestants, but exclusively from the sums that shall be appropriated for the members of the Church of England.

And your Petitioner will ever pray.

EDMUND BOTTERELL,
Chairman of the District and General Superintendent.

APPENDIX, No. 16.

PETITION

Of the Bishop and Clergy of the Church of England.

TO THE HONOURABLE THE PRESIDENT AND OTHER MEMBERS OF HER MAJESTY'S COUNCIL.

THE MEMORIAL OF THE BISHOP AND CLERGY OF THE CHURCH OF ENGLAND IN NEWFOUNDLAND.

Humbly Sheweth,—

That in the existing Act for promoting Education in this Colony, the principle of dividing the amount voted for that purpose is recognised as far as the two great classes of Protestants and Roman Catholics are concerned, and that annual grants are also made for the support of Schools in connection with the Wesleyan Methodists and Presbyterians respectively.

Your Memorialists, therefore, respectfully invite the attention of the Honourable Members of Her Majesty's Council to the propriety and expediency of extending this Division of the said Grant; and pray that in any act which may be passed on the expiration of the existing Law, provision be made that a proportionate part of the yearly Grant for Education, according to the Population, may

be awarded for the support of Schools in connexion with the Church of England, and under the direction of the Clergy and other members of that Church only.

And your Memorialists, as in duty bound, will ever pray.

EDWARD NEWFOUNDLAND,
THOMAS F. H. BRIDGE, M. A., *Archdeacon.*
[And 29 others.]

APPENDIX, No. 17.

PETITION

Of George LeMessurier, praying that Harbour Buffett may be appointed the place of Meeting for the Educational Board of the District of Placentia, instead of Great Placentia.

TO THE HONOURABLE THE LEGISLATIVE COUNCIL.

THE MEMORIAL OF GEORGE LEMESSURIER, OF ISLE OF VALEN, IN PLACENTIA BAY,

Humbly Sheweth,—

That Memorialist is, and has been for several years, a Member of the Protestant Board of Education for the District of Placentia. That by the Educational Act now before your Honourable House the Board of Education must hold their sittings at Great Placentia, where there is no Protestant School nor more than one family of Protestant children.

That having to proceed to Placentia on the business of the Board is attended by great inconvenience, not only to your Memorialist, but also to other members of the Board. That the greater number of Protestants in the District reside at Harbour Buffett, where the Chairman and two members of the Board also reside, and where a School is established and attended by a large number of children. That it is desirable the Board, when holding its sittings, should be enabled to ascertain the manner in which the Schools under their direction are conducted, which cannot be done whilst the meetings are held at Placentia.

Your Memorialist therefore prays that your Honourable House will take the matter into your consideration, and appoint Harbour Buffett as the place of meeting, should it appear desirable so to do.

GEORGE LEMESSURIER,

APPENDIX, No. 18.

PETITION

From Samuel G. Archibald, praying that a Bill may pass the House with a view to his obtaining a Patent for the Invention of certain close and open Tanks, &c., to be worked by Steam Power, for the purpose of operating upon some of the Products of this Island.

TO THE HON. THE MEMBERS OF THE LEGISLATIVE COUNCIL OF THE ISLAND OF NEWFOUNDLAND.

THE PETITION OF SAMUEL GEORGE ARCHIBALD, NOW OF ST. JOHN'S, IN SAID ISLAND,

Humbly Sheweth,—

That your Petitioner is the Inventor of certain Close and Open Iron Tanks, and other apparatus, to be worked by Steam power, being constructed with the view of operating upon some of the products of this Island; as well as certain other Machinery to be used in the preparation of said products, and which he believes will be found to be a great improvement in the manufacture and refining of various Animal Oils and Substances, by which the export value of some will be materially increased, and others, which are now considered as useless, made valuable and profitable

That your Petitioner, at a very considerable cost and expense, has had the machinery and apparatus aforesaid, constructed, a part of which has already arrived in this port, and the remainder shortly expected from New York, which he intends to erect in this place, and hopes to have in operation in the course of three or four weeks.

Your Petitioner therefore prays that your Honourable Body will pass such a Bill as may enable him to take a Patent under the Great Seal of this Island, securing to him for the usual term of years the benefit of his invention and discoveries in the matters aforesaid.

Plans and Specifications of the Apparatus, Machinery, &c., will be ready to deposit in the office of the Colonial Secretary.

And your Petitioner as in duty bound will ever pray.

S. G. ARCHIBALD.

St. John's, Newfoundland, 8th March, 1851.

NEWFOUNDLAND, }
Central District. }

On the 17th day of March, 1851, before the subscriber, one of Her Majesty's Justices of the Peace for the Central District, personally appeared the within-named Samuel George Archibald, and made Oath that he believes himself to be the original and first inventor of certain Close and Open Tanks, to be worked by Steam, and certain other Apparatus and Machinery to be used in the preparation of the raw material, to be applied in the improvement of the Manufacture and Refining

of Animal Oils and Substances, and that he does not know or believe that the same were ever before known, or used, in this Island, or any other part of Her Majesty's Dominions, or any other country.

S. G. ARCHIBALD.

Sworn before me, at St. John's,
this 17th day of March, 1851.

P. W. CARTER, J.P. }

APPENDIX, No. 19.

PETITION

Of William J. Ward, to be appointed Reporter of the Debates of the Council.

TO THE HONOURABLE THE LEGISLATIVE COUNCIL, IN SESSION CONVENED.

THE MEMORIAL OF WILLIAM JAMES WARD,

Respectfully Sheweth,—

That since the commencement of the present Legislature, your Memorialist has reported and published in his journal, the *Morning Post*, the proceedings of your Honourable Body.

That having received an intimation that the Council "will not consider the application for compensation for such services from any party, unless he shall first have been recognised and authorised by the Council to report and publish the debates thereof;"

Your Memorialist, desirous of giving the whole of the Legislative Reports in his said Journal—(that being the recognised medium for the publication of the proceedings of the Honourable the House of Assembly)—respectfully begs that he may be authorised by your Honourable Body to have the reports of your proceedings taken, and published in the said Journal; or, that if another Reporter be appointed, your Memorialist may be authorised to publish them.

And your Memorialist, as in duty bound, will ever pray.

WILLIAM JAMES WARD.

St. John's, Newfoundland, January 31st, 1851.

APPENDIX, No. 20.

PETITION

Of William J. Ward, that he may be authorized to take and publish the Reports of the House.

TO THE HONOURABLE THE LEGISLATIVE COUNCIL, IN SESSION CONVENEED.

THE MEMORIAL OF WILLIAM JAMES WARD,

Respectfully Sheweth,—

That your Memorialist has attended, during the two terms of the present Legislature, the Meetings of your Honourable Body, and reported and published in his Journal, the *Morning Post*, the proceedings of your Honourable House.

That he is desirous of continuing to do so, but a resolution of your Honourable House having been furnished him, signifying that the Council will not entertain any application for compensation of any Reporter, unless he is recognised and authorised as such by them.

Your Memorialist respectfully begs that he may be so authorised by your Honourable House to take the Reports and publish them, as he will otherwise be subject to the loss of labour and expense, if compelled to report and publish on his own account.

And your Memorialist, as in duty bound, will ever pray.

WILLIAM JAMES WARD.

St. John's, Newfoundland, February 10, 1851.

APPENDIX, No. 21.

PETITION

Of Owners and Occupiers of Wooden Buildings, South of Duckworth Street.

TO HER MAJESTY'S COUNCIL, IN LEGISLATIVE SESSION CONVENEED.

THE PETITION OF THE UNDERSIGNED, OWNERS AND OCCUPIERS OF WOODEN BUILDINGS, SOUTH OF DUCKWORTH-STREET,

Humbly Sheweth,—

That the Petitioners, with every desire to comply with the requirements of the Law, have been hitherto prevented from replacing their present Dwellings, Shops, &c., with Stone or Brick Buildings,—either by the high price of Materials, Workmanship, &c., and frequent impossibility of procuring Workmen at any rate, (occasioned by the large number of Public and Private Buildings

recently in course of erection,) or by the difficulty of paying the prevailing high rents. That many of the Petitioners are preparing to build as early in the ensuing summer as the importation of a sufficiency of materials (which are at present very scarce in the market) will enable them to do, and have workmen employed in their Sheds in making doors, window frames, &c., for that purpose.

Under these circumstances the Petitioners humbly pray that your Honourable House will be pleased to adopt such measures for suspending the operation of the Law under which their Sheds, &c., are now liable to removal, for such period as in your wisdom you may deem requisite, in order to enable them to comply with its provisions.

And as in duty bound will ever pray.

St. John's, January, 1851.

HOUNSELL, SCHENK & Co.
HUGH H. ROCHE,
[And 110 others.]

APPENDIX, No. 22.

PETITION

Of Abraham Gesner.

TO THE HONOURABLE THE LEGISLATIVE COUNCIL OF NEWFOUNDLAND.

THE PETITION OF ABRAHAM GESNER, OF HALIFAX, IN THE PROVINCE OF NOVA SCOTIA,

Humbly Sheweth,—

That your Petitioner [has invented a new and improved mode of manufacturing Illuminating Gas, in addition to a discovery previously made of making such Gas from compact and fluid Bitumen, Asphaltum, Chapapote or Mineral Pitch, for which a Patent has been applied for. The new and additional discovery consists in making such Gas from all Animal, Vegetable, and Mineral Oils, Naptha, Petroleum, Rosin, Pitch, Tar, Turpentine, Coal Tar, and all the Tars and Oils derived from the Distillation of all Oils and Resins, and Fats of all kinds, which he verily believes has not been known or used prior to the discovery thereof by your Petitioner.

He therefore prays that Letters Patent of the Province of Newfoundland may be granted to him therefor, and that the following specification may be added to the former one to form a part thereof, and by which the whole of his discovery and invention are made perfect.

And your Petitioner, as in duty bound, will ever pray.

ABRAHAM GESNER.

Halifax, 6th December, 1850.

ADDITIONAL IMPROVEMENTS

Made to the discovery and invention of Abraham Gesner, as specified in his application for Letters Patent to the Authorities of the Province of Newfoundland.

The Improvements I have made in my invention are as follows—

1st—An improvement in the Retort Case and the manner of charging it, and—

2nd—An improvement in manufacturing a greater number of materials than was specified into good Illuminating Gas, by mixing them with other substances.

It is necessary in all cases, in making the Gas, that when the Retort is at a red heat, and which Retort may be of the ordinary kind, the Bitumen, Asphaltum, or Mineral Pitch, or any other solid, fluid or semi-fluid hydro-carbon, shall be introduced into it in a case made of iron, or other metal, as described in the before-mentioned application, which prevents the material from flowing into the escape pipe and against the Retort head. I make the said case A of strong sheet iron, one end being closed, and the other having a moveable cap, B; the cap has a ring on its head, C, to admit a hook by which the case is readily withdrawn from the Retort after all the Gas has been carried off. I put the opening D, in the case near the extremity farthest off from the escape pipe, therefore all the Gas generated in it must strike the inner surface of the heated Retort between it and the case, and be exposed to an equal degree of heat before it makes its exit into the hydraulic main, or receiver, by which means the mixed material to be described hereafter, becomes more highly volatilised, the quantity of Gas is increased, and the tube, or second Retort, filled with charcoal, quicklime, coke, or burnt clay, represented in the application before-mentioned, is rendered unnecessary. When the Retort is at a lively red heat, the Retort Case, two-thirds or three-quarters full of the material to be made into Gas, is to be introduced and the Retort head screwed on in the usual manner. The case is allowed to remain in the Retort until all the Gas has escaped, when it is to be withdrawn and another charged one introduced if more Gas is required.

My second improvement consists in mixing all the Animal, Vegetable and Mineral Oils, Bitumen, Asphaltum, Chapapote, or Mineral Pitch, Naptha, Petroleum, Rosin, Pitch, Tar, Turpentine, Coal Tar, and all the Tars and Oils derived from the distillation of all Oils and Resins, and Fats of all kinds, or any solid, fluid, or semi-fluid hydro-carbon to be converted into Gas, with Sands, Clays, Earths, Lime, Potash, Soda, or other Alkalies, or absorbent matter, or decomposing material, before being placed in the before-mentioned case, and put into the Retort for distillation into Illuminating Gas, by which means their volatile matter escapes gradually, is exposed to an equal degree of heat, and much of the condensable portion of the charge is thereby converted into good Gas, instead of being thrown down in a fluid state in the hydraulic main or receiver, such absorbing and decomposing material being used as is best adapted to the nature of the solid, fluid, or semi-fluid hydro-carbon, or material to be converted into Gas.

To enable others skilled in the art of making Gas, to use and employ my invention and improve-

ment, I will proceed to describe in what manner their advantages are obtained and the Gas made. Although Illuminating Gas may be obtained from solid, fluid, and semi-fluid hydro-carbons by the ordinary methods, I find it far better to mix them with Lime alone, Sand, Clay, or common dry Earth, or other absorbent matter, mixed with Lime, Potash, Soda, or any other Alkali, in different and variable proportions, any mixture of them being beneficial according to the nature of the hydro-carbon to be employed. For the softer kinds of Bitumen, Asphaltum, or Mineral Pitch, Rosin, Naptha, and Coal Tar, I prefer Lime alone; for the overflow from Rosin, Oil, and Rosin Oil, a mixture of Lime slaked or unslaked, mixed with common dry Earth, Sand, or Clay, may be employed, or any one or two of the said substances in combination with an Alkali of any kind. The foregoing kinds of matter being mixed with the Oils, Bitumen, or Asphaltum, or Mineral Pitch, Naptha, Petroleum, Rosin, Pitch, Tar, Turpentine, Coal Tar, and all the Tars and Oils derived from the distillation of all Oils and Resins, and Fats of all kinds, or any other solid, fluid, or semi-fluid hydro-carbon, extend the fixed heating and decomposing surface in the Retort and Retort Case in the same manner but more effectually than pieces of Charcoal, Quicklime, Coke, or Burnt Clay, I had previously used in a Tube, or second Retort, as contained in the specification of the application aforesaid. The Alkalies produce a beneficial change in the relative proportions of hydrogen and carbon of the materials thus employed, affording Illuminating Gas instead of an overflow or condensation in the hydraulic main, or receiver. It is for these reasons I say that the aforesaid mixtures must be made of one, or more, and in different proportions, of the aforesaid substances, and put into the Retort Case before described, before the materials employed are put into the hot Retort to be made into Illuminating Gas. For condensing and distributing the Gas the ordinary means are employed.

In preparing the materials for Gas, which consist of all the Animal, Vegetable, and Mineral Oils, Bitumen, or Asphaltum, or Mineral Pitch, Naptha, Coal Tar, and all the hydro-carbons before-mentioned, I prefer Lime in a finely divided, or powdered state, either slaked or unslaked, or fine Earth mixed with Lime, or one pound of the Carbonate of Potash or the Carbonate of Soda in every Twenty Pounds of Earth; other proportions of the Alkalies with Earths, Sands, and Clays, and other mixtures of the kind, being nearly equal in effect. With either or more than one of these substances I mix the Oils, Tars, and Turpentine before-mentioned, so as to form a stiff paste. With the easily melted Bitumens I mix nearly equal weights of Lime and Bitumen. With any of these mixtures the Retort Case is to be filled as before described and placed in the heated Retort. After the charge is exhausted of all its Gas, the contents of the Retort Case, when Coal Tar, Naptha or any fluid oily hydro-carbon has been used, may be employed again for the same purpose an indefinite number of times, and thus be made the medium of again converting such oily hydro-carbons into good Gas as before mentioned.

What I claim in addition to the claim contained in the specification of my application aforesaid, and desire to have added thereto, and secured to me by Letters Patent, is the moveable cap B, and the ring C to the Retort Case A, and the situation of the opening, D, and the method of charging the case.

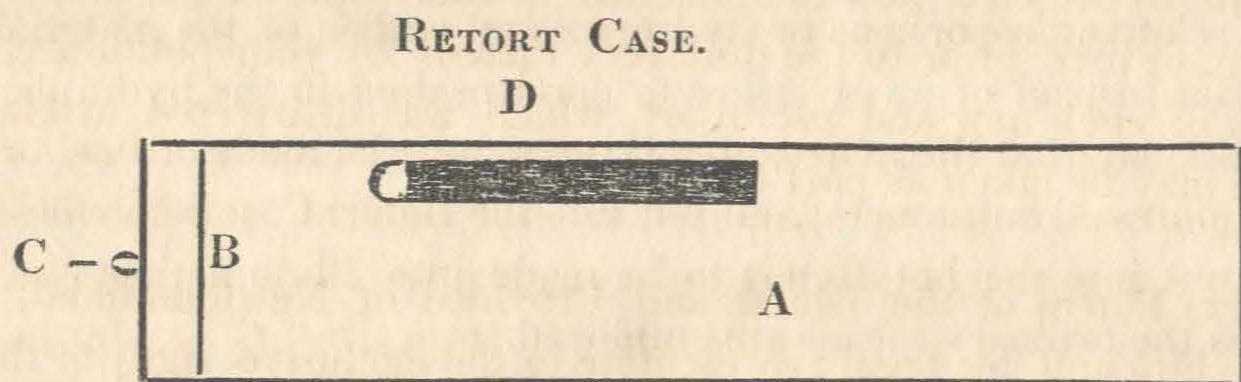

I also claim the mixing of all Animal, Vegetable and Mineral Oils, Bitumen, Asphaltum, or

Mineral Pitch, Naptha, Petroleum, Rosin, Pitch, Tar, Turpentine, Coal Tar, and all the Tars and Oils derived from the distillation of all Oils and Resins and Fats of all kinds, with Sands, Clays, Earths, Lime, Potash, Soda, or other absorbent and decomposing matter, before they are submitted to distillation for Illuminating Gas. I do not claim the manufacture of Gas from any of the Oils, Tars, and Turpentines, as they are now made to produce Gas by the ordinary methods; but I claim the combination, or mixture of them, and also of all Bitumens with one or more of the before-mentioned substances in different quantities and proportions, before they are submitted to distillation for the production of Illuminating Gas, and by which the quality and yield of the Gas are much improved; using for that purpose any or all of the mixtures aforesaid, or any other substantially the same, and which will produce the intended effect.

ABRAHAM GESNER.

Witnesses, { S. J. MORTON,
LEANDER COGSWELL,

Drawing referred to in the preceding specification.

ABRAHAM GESNER.

CITY AND COUNTY OF HALIFAX AND PROVINCE OF NOVA SCOTIA.

On this the 10th day of December, 1850, before me the subscriber, one of Her Majesty's Justices of the Supreme Court, personally appeared the within named Abraham Gesner, and made Oath that he believes himself to be the original and first inventor of the mode herein described for the Manufacture of Illuminating Gas from all Animal and Vegetable and Mineral Oils, Naptha, Petroleum, Rosin, Pitch, Tar, Turpentine, Coal Tar, and all the Tars and Oils derived from the distillation of all Oils and Resins and Fats of all kinds, and in addition to his discovery of the manufacture of such Gas from Compact and Fluid Bitumen, Asphaltum, Chapapote, or Mineral Pitch; and that he does not know or believe that the same was ever before known, or used, and that he is resident in the said Province of Nova Scotia, where he was born.

ABRAHAM GESNER.

Sworn before me at Halifax, in Nova Scotia,
this 10th day of December, 1850.

BRENTON HALLIBURTON, *Chief Justice of Nova Scotia.*

APPENDIX, No. 23.

PETITION

Of Abraham Gesner.

TO THE HONOURABLE THE LEGISLATIVE COUNCIL OF NEWFOUNDLAND.

THE PETITION OF ABRAHAM GESNER, OF HALIFAX, IN THE PROVINCE OF NOVA SCOTIA,

Humbly Sheweth,

That your Petitioner has discovered a new and useful art, the obtaining of Illuminating Gas from compact and fluid Bitumen, Asphaltum, Chapapote, or Mineral Pitch, as found in Mines, Quarries, and Springs in the Earth, by which a new manufacture in Gas is produced, and which he verily believes has not been known, or used prior to the discovery thereof by your petitioner, and he hereto has annexed a specification of such new and useful art, which was discovered at Halifax in June last, and prays that the same may be taken as part of his petition.

He therefore prays that Letters Patent of the Island and Province of Newfoundland, may be granted to him therefor, vesting in him and his legal representatives the exclusive right to the same, upon the terms and conditions of the law in that case made and provided.

ABRAHAM GESNER.

Halifax, Nova Scotia, 9th February, 1850.

Province of Nova Scotia, at Halifax, on this Sixth day of March, One Thousand Eight Hundred and Fifty,—before me, BRENTON HALLIBURTON, one of Her Majesty's Justices of the Supreme Court of said Province, personally appeared Abraham Gesner, before named, and made solemn oath that he verily believes himself to be the original and first inventor, or discoverer, of the Art described in the foregoing petition and following specification, of obtaining Illuminating Gas from compact and fluid Bitumen, Asphaltum, Chapapote, or Mineral Pitch, by which a new manufacture in Gas is produced, and that he does not know or believe the same was ever before known, or used; also that he is a subject of, and resident within the dominions of the Queen of Great Britain.

ABRAHAM GESNER.

BRENTON HALLIBURTON,

Chief Justice of Nova Scotia.

TO ALL WHOM IT MAY CONCERN,

Be it known that I, Abraham Gesner, of Halifax, in the Province of Nova Scotia, have discovered a new and useful Art, the obtaining of Illuminating Gas from compact and fluid Bitumen, Asphaltum, Chapapote, or Mineral Pitch, as found in Mines, Quarries, and Springs in the Earth, by which a new hydro-carbon and a new manufacture in Gas are produced.

My discovery consists in having obtained from compact and fluid Bitumen, Asphaltum, Chapapote, or Mineral Pitch, a new Illuminating Gas, which I denominate Kerosene Gas. This Gas differs from all other illuminating Gases, for as the Bitumen contains no Sulphur, nor nitrogen, it is free from sulphurated hydrogen, sulphurous acid, sulpho-cyanogen, cyanogen, ammoniacal gas, and azote, and its relative quantities of carbon and hydrogen differ from those of the gases heretofore used for the purposes of Illumination.

To enable others skilled in the art of making Gas to use and employ my discovery, I will proceed to describe the manner by which its advantages are obtained.

The Gas is obtained in the same manner as Coal Gas, except that the Bitumen, or Asphaltum, is to be introduced into the Retort in an iron case, having an opening in its upper side one third of its length and one half of its diameter, to allow the Gas to escape freely, and to admit the charge, which may be introduced and withdrawn at pleasure.

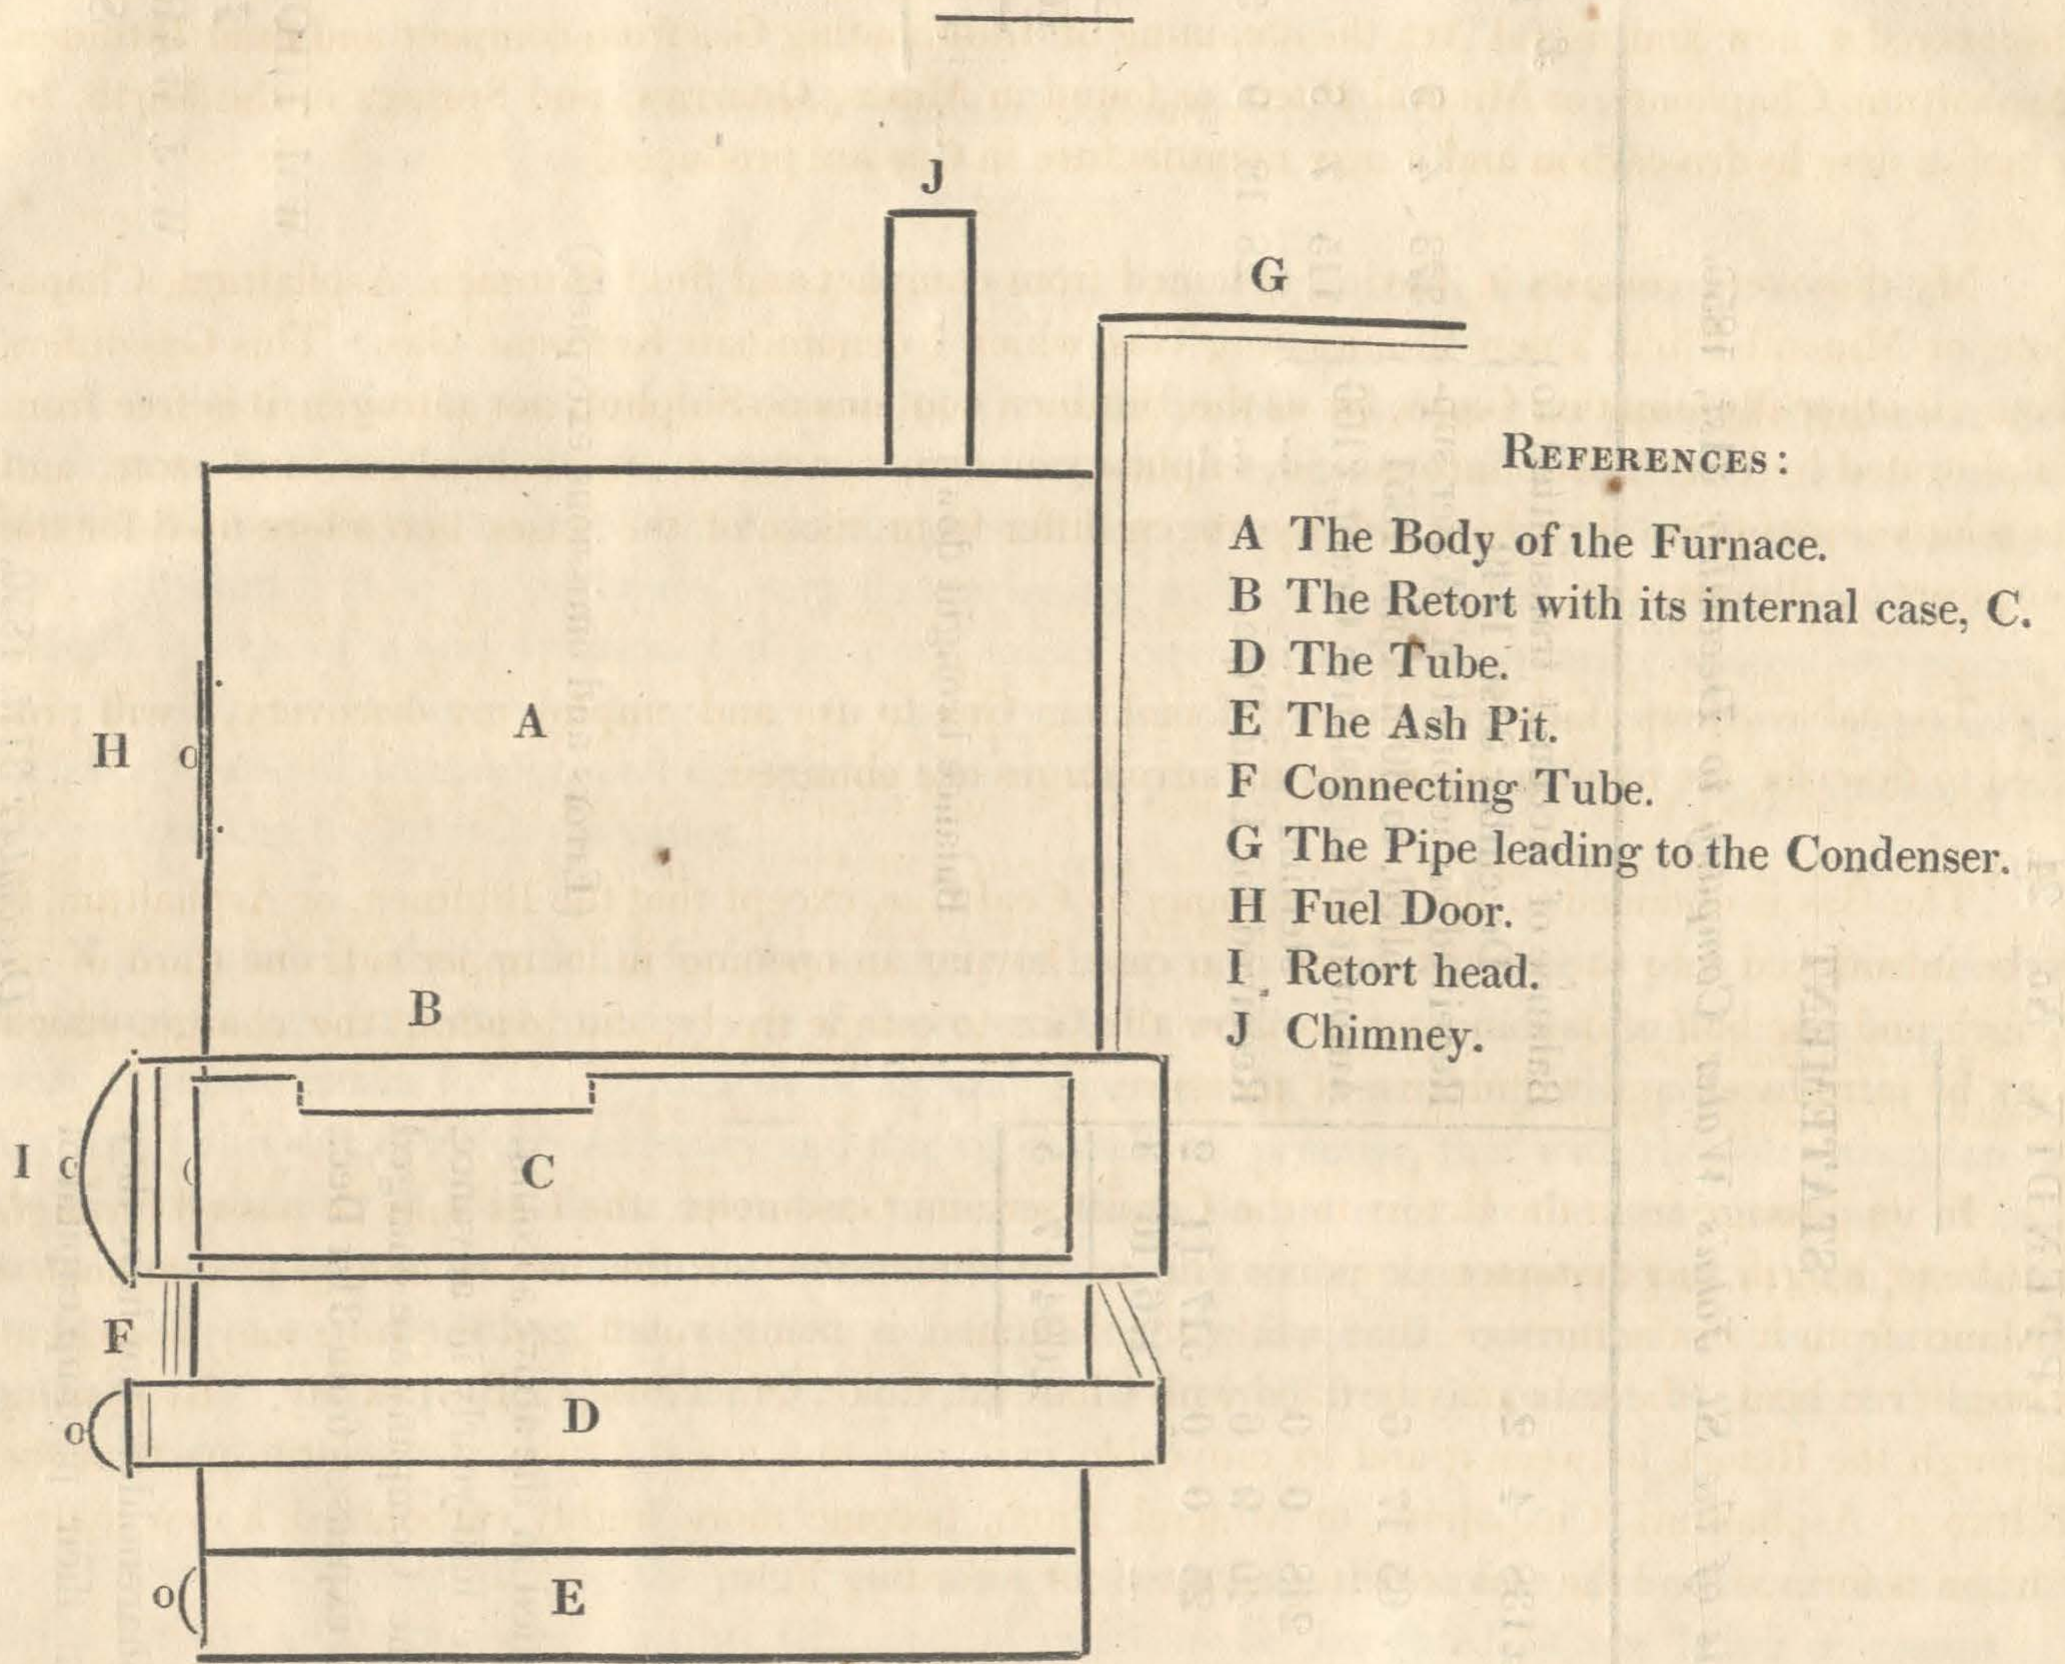

In its passage from the Retort to the Condenser and Gasometer, the Gas may be passed through a tube of length and diameter proportionate to the dimensions of the Retort, and placed at such a distance from it in the furnace, that while the Bitumen is being volatilized the tube may be held at a bright red heat; the tube may be filled with Charcoal, Coke, Quicklime, or Burnt Clay. By passing through the Retort, between it and its moveable case, and through the tube, the volatile parts of the Bitumen, Asphaltum, Chapapote, or Mineral Pitch, become more highly carbonized, a new hydro-carbon is formed, and the Gas is better adapted for affording light.

The furnace is to be either fixed or portable, according to the extent of the area to be lighted.

What I claim as my invention and discovery, and desire to secure by Letters Patent, is the use of compact and fluid Bitumen, Asphaltum, Chapapote, or Mineral, for the production of Illuminating Gas, instead of Coal, Oil, Rosin, or any other substance heretofore used for that purpose. I also claim the Retort, B, with its internal moveable Case, C, containing the material to be heated and volatilized in the production of Gas of any kind, as herein intended for the general purposes of Illumination.

I do not claim the Furnace with its two Retorts, to contain Carbon, Lime, Clay, or Coke; but simply a Retort to contain an internal moveable Case, to hold the Bitumen, or substance to be converted into Gas during the period of dry distillation.

I do not confine myself to fixed Furnaces ; but also make them portable, whereby single Buildings, Blocks, Squares, and Streets, may be lighted independent of each other.

ABRAHAM GESNER.

Halifax, 9th February 1850.

APPENDIX, No. 25.

REPORT

On the Provisional Lunatic Asylum.

ST. JOHN'S, NEWFOUNDLAND, DECEMBER 31ST, 1850.

Considering the numerous deficiencies of the Provisional Asylum as a place of treatment for the Insane, and the impossibility of any classification whatever in so small a building, there is reason for thankfulness on my part to be able in the present Report to give a tolerably favourable account of the Institution. It is nevertheless, very disheartening to have attempted the practice of a most difficult system of moral treatment of insanity, under circumstances presenting almost every conceivable obstacle to success—dangerous to the reputation of the system, and therefore injurious to the great cause of humanity, and dangerous also to the professional reputation of the physician who has undertaken to put it in operation.

Unfortunately, that which I foresaw as likely to happen, has indeed come to pass; in that results are asked for and expected, precisely as if there existed a really commodious Lunatic Asylum, with every requisite means for the treatment of mental disease. In describing the present state of the Asylum, I think it therefore necessary and due to myself to premise, that with the sole exception of a sufficient number of attendants upon the patients, there do not exist in the Institution any of the means and appliances for the curative treatment of insanity under the non-restraint system, such as are prescribed as constituting the requisite conditions for the favorable operation of that particular systematic treatment; and therefore the benefits to be derived from it cannot be expected under existing circumstances.

There having been during the past year more sickness than heretofore, the want of accommodation for the sick has been sensibly felt, and is much to be lamented—there being no means of removing sick patients from among their noisy fellows, nor of affording them such continual warmth in their bed-rooms as they require.

Upon these grounds I take the liberty of placing the great necessity for the immediate commencement of the new Asylum, at the head of my Report, and would earnestly request the Government to permit no further delay in the matter, as it is not at all likely that the projected building could be made ready for the reception of patients in a less time than a year and a half, in itself by far too considerable a time for the insane to be deprived of the accommodation of a better building than their present abode, and which must inevitably be extended to two years and a half, if no step be taken regarding the new Asylum during the present session of the Legislature. Surely the philanthropic spirit which so readily answered to the appeals made in behalf of the insane in 1846 and '47, is not extinct, or even become so apathetic, as to consider that enough has been done because

something has been done! If the sufferers from such visitations of the Almighty, as inevitable poverty and the loss of reason, are unable to obtain the sympathies of society,—alas, for that society!

I fear also that an impression exists of a very erroneous nature, viz.,—that the insane poor may be treated like the sane poor, and provided for accordingly, especially in their diet. The sane poor, however, are not necessarily *sick poor*; but it is perfectly well known to every member of the profession, and supported by every writer on insanity, ancient or modern, that insanity *is disease*, sui generis: and it may be added, disease of an obscure and complicated nature, requiring every available means of treatment for its cure.

The insane then, being unquestionably diseased people, and insanity being invariably accompanied, if not produced, by organic or functional disease,—the care of the Insane is in effect a provision for certain diseased persons in a Hospital or Asylum; a most important consideration for those who have to govern an Asylum for the Insane, who are too apt to suppose that the inmates of an Asylum can be provided for upon the same grounds as the inmates of a Poor-house. And to make this more obvious, I subjoin the more prominent and constant concomitants of insanity, exclusive of organic disease,—*e. g.*, debility of the whole constitution; excitement and irritability of the nervous systems, or a great vital depression of the same; sleeplessness in a greater or less degree; functional derangement of the digestive and excretory systems; mental and bodily changes of state with every material change of temperature and state of atmosphere; mental perversity. If to this description it be added, that in every Asylum there is a certain proportion of the inmates who have lost all power over the excretions of the body, and have thus to be attended to with the same amount of care as an infant, in consequence of debility,—it requires no argument to prove that, for the most part, a very nourishing diet, together with every personal comfort usually afforded to the sick, are imperatively demanded in a Lunatic Asylum. But upon no subject is there stronger or more unanimous evidence touching the treatment of the insane, than upon that of a highly nutritious diet. There is not a writer upon insanity in Europe or America who advocates a different opinion. Thus in the *Psychological Journal of Medicine*, of January, 1851, p. 146, we find the following remarks:—

“Nutritious food, warm clothing, cleanliness of person, with other prophylactic and hygienic measures, are, however, now generally considered of most essential importance; whilst it has been remarked, at the same time, that wherever the inmates of a Lunatic Asylum are under-fed, sickness and mortality will abound.

“To prove that the sufficiency of food, and its good and nutritious quality have much influence on the health of lunatics, I might mention a remarkable illustration which occurred at Bicêtre, during the first Revolution, when the constituent assembly of France reduced the quantity of bread distributed to the inmates from a kilogramme (2lbs 1-5th oz.) to seven hectogrammes and a half, (24 oz.,) whereby a great number of the old convalescents relapsed into a state of raving madness. This system of retrenchment having been afterwards carried to a still lower grade, and even to half a kilogramme, the consequences to the poor maniacs were most disastrous, seeing that in two months of the fourth year of the Republic, 29 deaths occurred among the patients; whilst in the whole year Two

(that is, when the allowance of bread was one kilogramme per patient,) only 27 deaths were reported during the whole twelve months. These facts furnish a very instructive lesson regarding the dietary of insane patients, and they point out the necessity of attending to the kind and quantity of nutriment which the inmates of Lunatic Asylums ought to receive. For whatever may be the moral or remedial treatment pursued, unless due attention is paid to such an important point as the food and regimen of insane patients, any plan of management, however beneficial it might otherwise prove, will not be likely to realize the expectations of relatives, or to fulfil the wishes of a conscientious practitioner."

Now it is equally admitted that the diet of the insane should, as nearly as possible, approximate to that habitual to their native country, being at the same time plainer for the rich and more nutritious for the poor. In this country it is well known, that an able-bodied man can supply his family with a plentiful diet of the most nutritious kind—in no country so much so. Therefore in the diet of our insane should be found at least as much nutrition as in the best diet of the labouring class, for their improvement in health; and of a kind such as is habitual to their class; for the substitution of articles of diet unusual to their habits, provokes a moroseness and obstinacy, as if resenting an insult—so much so, that for six months together I have known certain of the insane to go without a considerable portion of their food rather than eat the obnoxious article, to the manifest injury of their health.

The subjoined list of patients, suffering from disease in a greater degree than the other inmates, during the past year, will shew also that insanity and its immediate consequences upon the body, are not the only diseases requiring treatment and care in an Asylum—and that debility, especially, is so prevailing a feature as constantly to demand treatment by superior nourishment. Indeed there is scarcely one inmate who does not present to the Physician, a case of debility requiring treatment. So that to the direction—give the sick extra diet,—may be replied,—all are sick.

- J. D.—Hæmorrhages, diarrhœa, purpura, incontinence of urine, debility.
- J. N.—Slight general paralysis, purpura, debility.
- F. M'D.—Incontinence of urine.
- J. R.—Partial paralysis, debility.
- R. S.—Purpura, with large swellings.
- J. Q.—Epilepsy, occasional incontinence of urine.

 A. E.—Ditto ditto ditto, disease of brain.
 M. N.—Ditto ditto.
 M. H.—Epilepsy.
 M. H.—Ditto.
 M. M.—Incontinence of urine and fœces.
 M. C.—Perversion of all ideas of decency and cleanliness in the highest degree, depending much upon debility; great emaciation.
 M. M.—Consumption.
 J. C.—Ovarian disease.
 M. M.—Debility, emaciation.
 30 Cases.

Amongst the cases treated during the past year, I may mention a remarkable instance of that deplorable insanity, which causes the patient most obstinately to refuse eating or drinking, which was present in the Asylum in June last. From day to day every moral means that could be thought of was tried, and now and then succeeded; but for the most part force alone would induce the patient to swallow food, and that so remarkably, that he would run the greatest risk of suffocation before a particle could be placed in the throat. This man was a singular instance of monomania, influenced by disease of stomach. Eight months before admission, his insanity began by a horrid idea taking possession of his mind, viz.,—that he must kill one of his children with the heel of his shoe, and with great difficulty did he at last overcome the fatal impulse; but, a short time before his admission into the Asylum, his insanity took another direction, viz.,—he became convinced that he was condemned eternally; why, he knew not; and that to eat was a sin, and all meat was as poison to him, *because it would keep him alive*. He would detail the state he was first in, and his present state, as if impelled by an irresistible fatality, with great coolness and clearness; but when left to himself, walked up and down, groaning and lamenting his fate fearfully, and more than once attempted suicide. Death relieved him from his sufferings in July.

It was a singular effect of seeing the daily introduction of food into this patient's stomach, that cured another patient affected in a similar way, but slightly so. He seemed so struck by the sight, and the folly of the man, that he gave up his own opposition to eating immediately.

At pages 5 of my first, and 6 of my second Report, will be found notices of a patient named Mary —, presenting the worst case of insanity, and one of the longest duration, which has come under my notice. I am happy to say that she left the Asylum quite recovered in June last, and I afterwards received the following sensible and grateful letter from her; at which I was somewhat

surprised, having never supposed her capable of writing at all, but which was in itself very gratifying to me.

BONAVISTA, *September 24, 1850.*

SIR,—

I have taken the liberty of writing to you.—I thank you Sir for your kindness—if it had not been for your kindness I should not have been living now. I think to stop here the winter; if I can't make it out here I think to go to Pond in the spring. I worked for what I made use of the summer. I have five sons and one daughter; two of them is married—two of them is in this place now, one of them is twenty years of age and is soon out of his time; he will have something coming to him to support me the winter. Sir, I do not find my health as well as when I left, but I keeps about. I miss the medicine that you used to give me. My daughter stops in Pond. Please Sir to give my kind love to Mrs. Wotton*—the paper was scarce, and I took the liberty to mention her name to you, Sir. I thank her for her kindness; I used to miss her a good deal.

I remain, &c.

In July, 1849, a female maniac of violent and intractable character, whose disease was of long standing, was admitted, who had up to that time been attended by a man, no female daring to approach her excepting at rare intervals. For a long time her management by the female attendants required extreme caution and tact, but although she improved under their hands, and submitted to their attendance, her principal change for the better took place in the following manner:

Hannah — had a great dislike to the male sex in general, and the sight of a man, especially if a stranger, usually excited her into a violent fit of raving. Last autumn, her son came to St. John's, whom she had not seen from the time of his infancy; he was a fine lad, and I was desirous of observing the effect of the interview which the boy sought to have with his mother, in the hope that it might have a beneficial influence upon her mind. I introduced him into the room in which his mother was sitting alone, directing him to say nothing to her until she spoke to him; he went and sat down upon the end of the form on which she was seated, and for a long time—about an hour—she took no notice of him, but the circumstance of her remaining quiet in the immediate neighbourhood of a strange young man, argued good notwithstanding. At length I observed her rocking her body backwards and forwards, evidently from the agitation of her heart and the unfailing maternal instincts working within her. I then went up to her, and said, Hannah, this is your son, and left them alone, as the boy shewed no fear, and I thought that she had at least no ill will towards him. From time to time I looked into the room, but observed no change—the boy shedding tears—the mother talking incoherently to herself in a subdued tone—and I began to fear she would not recognise him. I was however mistaken; another half-hour elapsed, when on again looking in, I found she had turned towards the boy, and was busy untying his neckerchief and tying it again, and she went on examining his dress, article by article, and at length took off his boots and put them on herself with a laugh, eventually returning everything to its proper place on the boy's person, who by this

*The Matron.

time was sitting with his arm round his mother's waist. He asked her if she would have some new clothes, but she replied, no. Hannah has plenty of clothes, and would take nothing from him. She mentioned the names of several persons, whom the boy knew to be her old acquaintances, as if inquiring after them.

She has been much better since the interview, and mixes freely with the other female patients, eats with them at table, and when in a happy humour, sews neatly.

During the past year, a great improvement has been effected by the partial erection of an extensive board fence around the grounds, both for the sake of the insane and of the public; and during the coming year, when the fence shall have been completed, it will add greatly to the comfort and safety of the inmates, who have hitherto experienced such irritating and constant annoyance from the shameless curiosity of idle, worthless vagabonds. A considerable addition has been made also to the women's wards, by the erection of a small building at the western end of the cottage, which was greatly needed and is found to be most useful; it affords accommodation for sixteen patients,—and contiguous to it is a yard, enclosed by a board fence, for the use of noisy female patients, who were formerly accustomed to walk in fine weather in the garden close to the public road, and in such a position, whilst subject to great annoyance and excitement from passers by, they were also a cause of annoyance to others.

In the new female ward set apart for the troublesome and excited patients, it is a curious fact, that although there is no guard whatever before the window, not a pane of glass has been broken in it, and it may be added that at the present time the amount of breakage and destruction of articles in use throughout the Asylum, is very limited, so greatly is the violence of insane persons mitigated by the absence of personal restraints, and by a careful attention on the part of well instructed attendants, in preventing and subduing excitement.

I cannot better describe the general state of the Asylum, as an establishment for the care and cure of those afflicted by mental diseases, than by transcribing a letter which I had the honour to address to the Commissioners, upon their appointment last summer. It is as follows:

“As Medical Superintendent of the Provisional Lunatic Asylum, I beg to offer you some information concerning the peculiar character of that Institution at the commencement of your official connection with it. Because the welfare of the Insane, in which I feel the deepest interest, must depend very much in future upon the views you may take concerning it; founded upon that knowledge of their present situation and circumstances, which, as you have hitherto had no opportunity of obtaining, I conceive it to be my duty to afford.

“I think it not out of place also, to express the conviction, that the Insane will be materially benefited, in future, by the enlightened views as well as greater authority which the Commissioners will bring to bear upon the work, in which up to the present time I have been engaged alone. And, that apart from the economy of the Institution, the principal object of both Commissioners and

Physician to the Asylum will ever be—‘To do all the good in their power for those who are placed under their especial care, as afflicted by mental derangement.’ The importance of which, is best illustrated by reference to the Palaces, devoted to this sole object, which adorn nearly every County of England, Ireland, and Scotland.

“With regard to this country, it cannot be said that we are far behind, in the consideration of the welfare of the insane; but I am sorry to say regarding the present Asylum—that, in our means of doing good, we do indeed fall short—and it is to this painful subject that I desire to attract your particular attention.

“I may premise that nearly all the practical benefits afforded by Lunatic Asylas are comprised in these two principles—Protection for the incurable,—and Remedial Treatment for the curable. To what extent, then, are the means for carrying out these principles available at the Asylum?

“With regard to the first, they are limited to proper food, moral control, and bodily exercise within the narrowest limits. Isolation, classification, commodious house-room, even seclusion from public annoyances; all are wanting in greater or less degree. The very elements, then, of common protection, are absent. With regard to the second principle, the great requisites of treatment, complete isolation, classification, and out-of-door exercise, which for acute cases are so imperatively necessary, do not exist; and for milder recent cases, fresh air alone can be afforded them. Separation from disturbing causes, especially from noisy and excitable patients, we have no means whatever of effecting.

“In putting into practical use the principle of remedial treatment for the curable, I am therefore almost powerless, and I am glad to have an opportunity afforded me of shewing that the public are quite wrong in assuming, as they naturally do without inquiry, that the Asylum contains the means of curative treatment for the insane; and that, therefore, results in accordance are to be expected.

“Instead of being about to visit an Asylum provided with the means of general and medical treatment, or, as I have said above, of protection for the incurable and treatment for the curable, you will have before you a provisional place of Retreat simply, in which you will find little more than the means of ordinary cleanliness, and the exercise of as much moral control as the impossibility of classifying the inmates will admit of, and not as in a well-constructed and properly-furnished Asylum—everything that can conduce towards that curative treatment on the one hand, and protective care on the other, to which a Board of Commissioners can contribute so much efficacy, by using their authority to increase all the means and chances of success. There is only one principle of considerable importance in the management of the insane, which will become at once obvious to the Commissioners as in operation at the Asylum, that is the principle of non-restraint; as I am happy to say, that in spite of every disadvantage, bonds and mechanical restraints of every kind are unknown in the Asylum. And should the Commissioners authorize the immediate erection of some enclosures—imperatively demanded at this time, alike for the protection of the insane and the public—the inestimable advantage of exercise in the open air, will, in consequence, be conceded to all the inmates of

the Asylum. Anticipating this result, as the first act of the Commissioners—one at least of the lamentable deficiencies of the Asylum will be supplied through their instrumentality. To supply the remainder, is not possible under existing circumstances. The inadequacy of the institution must ever remain, in degree,—it being a fact to be deplored, rather than a fault to be condemned, that the provisional Asylum should have existence at all in place of that projected by the Legislature; nor should it be forgotten that with all its faults, its institution by His Excellency, in 1847, was a great step in advance in the cause of humanity.

“It is my confident hope that the work really before the Commissioners, will be to promote the speedy construction of a new Asylum, as an ornament and honour to the Colony.

In a letter addressed to the House of Assembly of Nova Scotia, and published in its Report of last year on the subject of Lunatic Asylas; a passing allusion is made to St. John's, Newfoundland, as possessing the nucleus of an Asylum for the treatment of the insane, which the citizens are likely to foster into an institution which will be alike creditable to the colony and on a par with similar institutions in Europe and America.

This favourable expression of opinion, we shall soon, I trust, justify by our actions, in the cause of the insane—whose interests, are also the interests of the whole society out of which they have been taken, to be secluded in an Asylum; whose sufferings are without parallel to themselves, and entail upon their relatives, miseries unknown to those of the human race who are mercifully spared the awful visitations of mental derangement.

One well acquainted with this subject, Dr. Forbes, writes, ‘Those who are unacquainted with the history of families over which the plague of insanity has fallen, know but a part of the miseries incident to human beings. If they could behold the accumulated trials of wives, daughters, and mothers under such circumstances; the immediate privations, the alarm and agitation, the sacrifice long endured for those who repay such devotion with frantic abuse, with an ingratitude the result of disease, but which does not the less wound and grieve the hearts of those who still love the doomed and fallen creature, whose sense and whose character are alike undergoing ruin; they would be convinced that there is no sorrow like their sorrow.’

Southey writes of his wife, “Forty years has she been the life of my life, and I have left her this day in a Lunatic Asylum. Mine is a strong heart. I will not say that the last week has been the most trying of my life; but I will say that the heart which could bear it could bear anything.”

And if there be any who suppose the feelings of the poor and illiterate to be less acute than those of the rich and intellectual, either they have left the great book of nature unread, or they have studied it to little purpose. The sorrows and anxieties of the families of the insane poor, instead of being less acute than those of people more favourably placed in this world, are on the contrary aggravated by many pressing necessities, and bodily destitution is, in their case, but too often added to mental suffering, upon the developement of insanity in any one of them.

Now it is well known, that early treatment in a good Asylum is generally followed by the cure of mental disease; or, that at least, a large proportion of cases so treated do recover. It is, then, needful to have an Asylum erected speedily, upon two strong grounds, viz., that society may benefit by possessing the requisite means for the cure of insanity before it has become a confirmed disease; and that by obtaining the cure of a majority of the cases occurring from time to time amongst the indigent poor, a less number may require permanent support out of the public funds.

HENRY HUNT STABB,
Physician and Superintendent.

Cost of Maintaining the Insane Poor, for the Years 1847 to 1851, inclusive.

FOR EACH INDIVIDUAL—

	Per week.			Per year.			
	Currency.			Currency.			
1847—In the Hospital ...	£0	12	1	£31	8	2	
1848—In the Asylum ...	0	11	10½	30	17	6	
1849— “ “ ...	“	“	“	“	“	“	
1850— “ “ ...	0	10	3¼	26	14	7	
1851— “ “ ...	0	9	9¼	25	9	8	
							Or including Physician's Salary. £31 7 11
							30 3 0

Thus, with the special expenses incident to the Asylum,—of Physician, a staff of eight persons, rent and clothing, the present cost to the Colony is less than it has ever been, with all the advantages derivable from a separate establishment.
