LANDSCAPING FOR SEASON LONG COLOR

JayDee Gunnell, Horticulture Agent, Cache County Extension
Sheriden Hansen, Extension Assistant Professor, Davis County
Linden Greenhalgh, Extension Associate Professor, Tooele County
Holly Christley, Horticulture Assistant, Tooele County

Each season brings with it new colors and emotions. Many homeowners seek help in selecting plant material that will offer season-long interest in the landscape. Different colors can add variety and add interest to the landscape. Plants should add consistency and tie the landscape design together. Harmony in a landscape is often accomplished when the same color schemes are repeated.

When planting for color, it is good to remember some general rules. Cool colors, such as shades of green, blue, and soft pastels, blend well together and have a tendency to make an area seem larger in appearance. These colors also suggest calmness or tranquility. Warm colors, such as shades of red, orange, and yellow, jump out visually and act as colorful accents. These colors imply lively and inviting feelings.

Tulips in early spring.

Lilacs offer early spring color.

Complementary colors are those colors that most optimally accentuate each other. Yellow is considered complementary to purple. Red is complementary to green. Orange is complementary to blue. White is one of those universal colors, which complements all colors.

There are many different plants which can add seasonal splendor to a landscape. Many plants display an array of flower colors throughout the season. Some plants offer different textures while others put on a spectacular show in the autumn as their colorful leaves proclaim the end of the season. When planting for color, it is important to think of the importance of foliage effect along with flower color.

Butterfly Weed (*Asclepias tuberosa*) blooms in July and offers a bright burst of color. This plant attracts butterflies.

Fire chalice (Epilobium) provides late summer color.

With literally thousands of options in choosing plant material, it can oftentimes be overwhelming to homeowners in deciding which plants to buy. Catalogs and magazines are great for getting ideas. It is also a good idea to visit the nurseries and garden centers periodically throughout the year to see what plants are in bloom. Choosing a variety of plants with staggered bloom times, along with those that add unique textures and distinctive leaf colors can add seasonal interest to any landscape.

Creeping phlox blooms early in the spring.

'Coralburst' crabapple blossoms in the spring.

The following is a list of some of the more commonly sold plants and their approximate bloom times along with plants that offer variety to the landscape in the form of texture and seasonal leaf color.

For simplification purposes, the following bloom times have been organized as follows:

- Spring bloomers - March through mid May
- Summer bloomers - late May through mid August
- Fall bloomers - late August through October

While this fact sheet gives a general list of chronological color, some of the plants listed may cross-over into other seasons, deadheading or removing of the spent blossoms encourages re-bloom. As a general rule, however, most perennials will provide blossoms for the space of 3-4 weeks. As always, it is important to remember that Mother Nature is consistently in charge. Weather variations, along with other climatic changes, can influence bloom time as well as color intensity.

TREES

SPRING INTEREST		BLOOM
Chokecherry	<i>Prunus virginiana</i>	white
Flowering cherry	<i>Prunus serrulata</i>	white, pink
Flowering crabapple	<i>Malus sp.</i>	white, pink
Flowering pear	<i>Pyrus calleryana</i>	white
Flowering plum	<i>Prunus x cistena</i>	pink
Golden chain tree	<i>Laburnum x watereri</i>	yellow
Hawthorn	<i>Crataegus sp.</i>	white, pink
Horse chestnut	<i>Aesculus hippocastanum</i>	white, pink
Japanese tree lilac	<i>Syringa reticulata</i>	white
Magnolia	<i>Magnolia sp.</i>	white, pink
Pussy willow	<i>Salix discolor</i>	yellow
Redbud	<i>Cercis canadensis</i>	white, pink
Serviceberry	<i>Amelanchier sp.</i>	white
Yellowhorn	<i>Xanthoceras sorbifolium</i>	white
SUMMER INTEREST		BLOOM
American smoketree	<i>Cotinus coggygia</i>	purple-pink
Catalpa	<i>Catalpa sp.</i>	white
Golden rain tree	<i>Koelreuteria paniculata</i>	yellow
Japanese pagoda tree	<i>Styphnolobium japonicum</i>	yellow, white
Littleleaf linden	<i>Tilia cordata</i>	yellow
Purple robe black locust	<i>Robinia pseudoacacia 'Purple Robe'</i>	purple, pink
Silk tree (mimosa)	<i>Albizia julibrissin</i>	pink
FALL INTEREST		LEAF
Aspen (quaking)	<i>Populus tremuloides</i>	yellow
Amur maple	<i>Acer ginnala</i>	red
Bald cypress	<i>Taxodium distichum</i>	orange
Bigtooth maple	<i>Acer grandidentatum</i>	pink, red, orange
Chokecherry	<i>Prunus virginiana</i>	red-orange
Columnar swedish aspen	<i>Populus tremula 'Erecta'</i>	yellow, orange
European larch	<i>Larix decidua</i>	yellow
Flowering crabapple	<i>Malus sp.</i>	gold, red, orange, bronze
Flowering pear	<i>Pyrus calleryana</i>	bronze, orange, red
Flowering plum	<i>Prunus x cistena</i>	bronze, orange, red
Honey locust	<i>Gleditsia triacanthos</i>	yellow
Japanese zelkova	<i>Zelkova serrata</i>	bronze, orange, red
Maidenhair tree	<i>Ginkgo biloba</i>	yellow
Norway maple	<i>Acer platanoides</i>	yellow
Red maple	<i>Acer rubrum</i>	red
Red oak	<i>Quercus rubra</i>	red, orange
Redbud	<i>Cercis canadensis</i>	red-purple, orange
Serviceberry	<i>Amelanchier sp.</i>	red, orange, gold
Sumac	<i>Rhus sp.</i>	red, orange, yellow

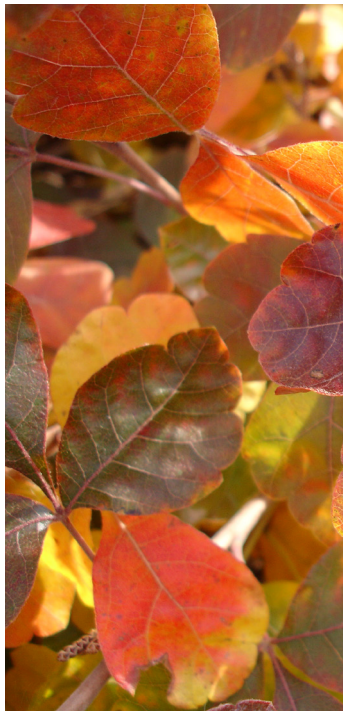

Crabapples can add interest over three seasons with spring bloom, fall foliage colors, and bright colored fruit in the winter.

Norway maple in the fall.

Evergreens like 'Bakeri' spruce add structure and color to winter landscapes

Vibrant fall color can be added to plantings with shrubs like 'Gro-low' sumac.

TREES (CONTINUED)

FALL INTEREST (CONTINUED)		LEAF
Sweetgum	<i>Liquidambar styraciflua</i>	orange, red
Washington hawthorn	<i>Crataegus phaenopyrum</i>	red, orange
WINTER INTEREST		LEAF, BARK OR FRUIT
Arborvitae	<i>Thuja occidentalis</i>	evergreen
Blue atlas cedar	<i>Cedrus atlantica</i>	evergreen
Blue spruce (dwarf cultivars)	<i>Picea pungens</i>	evergreen
Bosnian pine	<i>Pinus heldreichii</i>	evergreen
Deodar cedar	<i>Cedrus deodara</i>	evergreen
Flowering crabapple	<i>Malus sp.</i>	persistent fruit
Hawthorn	<i>Crataegus sp.</i>	persistent red fruit
Juniper	<i>Juniperus sp.</i>	evergreen
Paperbark maple	<i>Acer griseum</i>	bark
River birch	<i>Betula nigra</i>	bark
Scotch pine	<i>Pinus sylvestris</i>	evergreen
White fir	<i>Abies concolor</i>	evergreen

SHRUBS

SPRING INTEREST		BLOOM
Apache plume	<i>Fallugia paradoxa</i>	white
Barberry	<i>Berberis sp.</i>	yellow
Beauty bush	<i>Kolkwitzia amabilis</i>	pink
Bridal wreath spirea	<i>Spiraea x vanhouttei</i>	white
Chokeberry	<i>Aronia arbutifolia</i>	white
Common lilac	<i>Syringa vulgaris</i>	white, pink, purple
Currant	<i>Ribes sp.</i>	yellow
'Carol Mackie' Daphne	<i>Daphne x burkwoodii</i>	pink
Flowering almond	<i>Prunus triloba</i>	pink
Flowering plum	<i>Prunus x cistena</i>	pink
Flowering quince	<i>Chaenomeles speciosa</i>	pink, red
Forsythia	<i>Forsythia x intermedia</i>	yellow
Japanese kerria	<i>Kerria japonica</i>	yellow
Mock orange	<i>Philadelphus x virginialis</i>	white
Ninebark	<i>Physocarpus opulifolius</i>	white
Oregon grape holly	<i>Mahonia aquifolium</i>	yellow
Pink pussy willow	<i>Salix chaenomeloides</i>	pink
Rose	<i>Rosa sp.</i>	various
Scotch broom	<i>Cytisus scoparius</i>	yellow, orange
Serviceberry	<i>Amelanchier sp.</i>	white
Viburnum	<i>Viburnum sp.</i>	white, pink
SUMMER INTEREST		BLOOM
Beautyberry	<i>Callicarpa dichotoma</i>	pink
American black elderberry	<i>Sambucus canadensis</i>	white*
Bluebeard	<i>Caryopteris clandonensis</i>	blue, purple

SHRUBS (CONTINUED)

SUMMER INTEREST (CONTINUED)		BLOOM
Bumald spiraea	<i>Spiraea japonica</i> 'Bumalda'	pink, white*
Butterfly bush	<i>Buddleia davidii</i>	white, purple
Coralberry	<i>Symphoricarpos orbiculatus</i>	pinkish-white
Cotoneaster	<i>Cotoneaster</i> sp.	pink
Fernbush	<i>Chamaebatiaria millefolium</i>	white
Hydrangea	<i>Hydrangea</i> sp.	blue, pink, purple
Chinese indigo	<i>Indigofera kirilowii</i>	pink
Mexican cliffrose	<i>Purshia mexicana</i>	white
Privet	<i>Ligustrum vulgare</i>	white
Rose of sharon	<i>Hibiscus syriacus</i>	white, pink, purple
Shrubby cinquefoil	<i>Potentilla fruticosa</i>	yellow, white, orange
American smoketree	<i>Cotinus coggygria</i>	pink
Weigela	<i>Weigela florida</i>	hot pink, pink
Yucca	<i>Yucca</i> sp.	cream-white
FALL INTEREST		LEAF
Cotoneaster	<i>Cotoneaster</i> sp.	purple, red, bronze
Dwarf-winged burning bush	<i>Euonymus alatus</i> 'Compactus'	red, hot pink
Mint shrub	<i>Elsholtzia stauntonii</i>	purple flower
Red twig dogwood	<i>Cornus sericea</i>	purple
Witch hazel	<i>Hamamelis virginiana</i>	yellow
Viburnum	<i>Viburnum</i> sp.	red, purple
WINTER INTEREST		LEAF, BARK OR FRUIT
Barberry	<i>Berberis</i> sp.	persistent berries
Boxwood	<i>Buxus sempervirens</i>	evergreen
Creeping juniper	<i>Juniperus horizontalis</i>	evergreen
English laurel	<i>Prunus laurocerasus</i>	evergreen
Japanese euonymus	<i>Euonymus japonicus</i>	evergreen
Japanese yew	<i>Taxus cuspidata</i>	evergreen
Mugo pine	<i>Pinus mugo</i>	evergreen
Photinia	<i>Photinia</i> sp.	evergreen
Red twig dogwood	<i>Cornus sericea</i>	red bark
Snowberry	<i>Symphoricarpos albus</i>	evergreen
Wintercreeper	<i>Euonymus fortunei</i>	evergreen
Winter heath	<i>Erica carnea</i>	pink flowers
Witch hazel	<i>Hamamelis virginiana</i>	yellow flowers

PERENNIALS

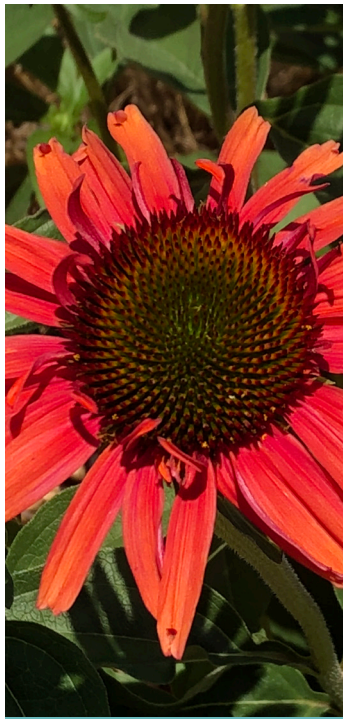

SPRING INTEREST		BLOOM
Aster	<i>Aster</i> sp.	various
Basket-of-gold	<i>Aurinia saxatilis</i>	yellow
Bleeding heart	<i>Lamprocapnos spectabilis</i>	pink, white
Candytuft	<i>Iberis sempervirens</i>	white
Catmint	<i>Nepeta racemosa</i>	purple

Hummingbird mint hyssop (*Agastache*) provides color in the summer.

Roses come in many, shapes, colors and sizes. Many roses provide prolonged bursts of color throughout the summer.

Cone flower, or Echinacea, comes in a variety of colors including, pink, purple, orange, red, and yellow.

Annual flowers show season-long interest but must be planted again every year.

Gaura	<i>Gaura lindheimeri</i>	white, pink, dark pink
Gayfeather	<i>Liatris sp.</i>	purple, white
Germander	<i>Teucrium sp.</i>	purple, white
Giant hyssop	<i>Agastache sp.</i>	orange, pink, purple
Globe thistle	<i>Echinops sp.</i>	blue
Goldenrod	<i>Solidago sp.</i>	yellow
Great ironweed	<i>Vernonia arkansana</i>	pink-purple
Hollyhock	<i>Alcea rosea</i>	various
Hosta	<i>Hosta sp.</i>	purple, white
Husker red beardtongue	<i>Penstemon digitalis</i>	white*
Ice plant	<i>Delosperma sp.</i>	pink, yellow
Jupiter's beard	<i>Centranthus ruber</i>	pink
Knautia	<i>Knautia macedonica</i>	burgundy
Lambs' ears	<i>Stachys byzantina 'Striped Phantom'</i>	pink
Lavender cotton	<i>Santolina chamaecyparissus</i>	yellow
Little sunflower	<i>Helianthella quinquenervis</i>	yellow
Loosestrife	<i>Lysimachia sp.</i>	yellow
Lupine	<i>Lupinus x hybrida</i>	purple, pink, white, blue
Mallow	<i>Malva alcea 'Fastigiata'</i>	pink
Mexican hat	<i>Ratibida columnifera</i>	yellow
Mexican primrose	<i>Oenothera speciosa</i>	pink
Michaelmas daisy	<i>Aster 'Celeste'</i>	voilet, blue
Milkweed	<i>Asclepias syriaca</i>	pink
Mountain fleece	<i>Persicaria amplexicaulis</i>	crimson
Obedient plant	<i>Physostegia angustifolia</i>	white
Ox-eye daisy	<i>Telekia speciosa</i>	yellow
Palmer's beardstongue	<i>Penstemon palmeri</i>	pink
Peony	<i>Paeonia hybrids</i>	various
Pike's peak beardtongue	<i>Penstemon mexicali</i>	purple

Coreopsis, sometimes called Tickseed, adds bursts of bright color throughout the summer months (*Coreopsis auriculata*).

Lavender (*Lavandula angustifolia*) provides color and fragrance throughout the summer and attracts pollinators to the garden.

Vinca, or periwinkle, is a shade-loving groundcover that blooms in the spring.

Picushion flower (*Scabiosa*) comes in pink, blue, and purple and adds summer color to the garden.

PERENNIALS (CONTINUED)

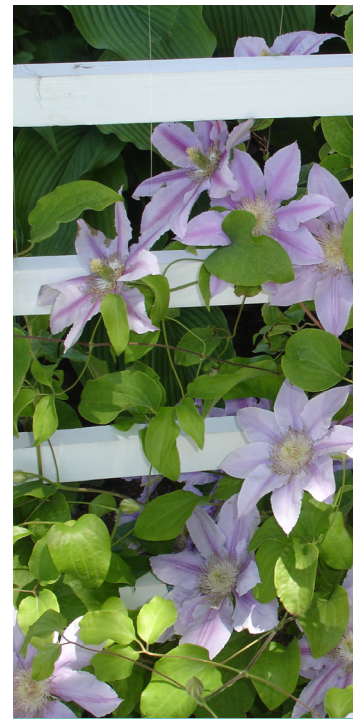

SUMMER INTEREST (CONTINUED)		BLOOM
Pincushion flower	<i>Scabiosa caucasica</i>	purple, pink, white, blue
Plumbago	<i>Ceratostigma plumbaginoides</i>	dark blue
Poppy	<i>Papaver orientale</i>	various
Pink bachelor's button	<i>Psephellus pulcherrimus</i>	scarlet
Purple coneflower	<i>Echinacea purpurea</i>	purple, pink white
Purple poppy mallow	<i>Callirhoe involucrate</i>	magenta
Red-hot poker	<i>Kniphofia uvaria</i>	red, orange, yellow
Robin's plantain	<i>Erigeron pulchellus</i>	pale violet
Rock rose	<i>Helianthemum</i> sp.	yellow, pink
Rodgersia	<i>Rodgersia pinnata</i>	pale pink, red
Rose mallow	<i>Hibiscus</i> sp.	pink, white, red
Russian sage	<i>Perovskia atriplicifolia</i>	purple
Sea holly	<i>Eryngium planum</i>	steel blue
Self heal	<i>Prunella grandiflora</i>	pale purple
Shasta daisy	<i>Leucanthemum</i> sp.	white
Soapwort	<i>Saponaria</i> sp.	pink
Speedwell	<i>Veronica</i> sp.	deep purple

Periwinkle/myrtle	<i>Vinca minor</i>	purple, blue
SUMMER INTEREST		BLOOM
Barren strawberry	<i>Waldsteinia fragarioides</i>	yellow
Bigroot geranium	<i>Geranium macrorrhizum</i>	magenta
Brass buttons	<i>Leptinella squalida</i> 'Platt's Black'	yellow
Hardy geranium	<i>Geranium × cantabrigiense</i>	magenta
Mazus	<i>Mazus reptans</i>	lavender, purple-blue
Mint	<i>Mentha sp.</i>	pink, white
Snow-in-summer	<i>Cerastium tomentosum</i>	white
WINTER INTEREST		LEAF
Creeping grapeholly	<i>Mahonia repens</i>	evergreen

Ice plant loves summer heat and is available in various colors.

BULBS

SPRING INTEREST		BLOOMS
Allium	<i>Allium sp.</i>	pink, purple, blue
Canna lily	<i>Canna sp.</i>	various
Crocus	<i>Colchicum sp.</i>	various
Daffodil	<i>Narcissus sp.</i>	yellow, white

Daffodils add bright bursts of color early in the season.

Ornamental grasses peak in color and interest in the fall.

BULBS (CONTINUED)

SPRING INTEREST (CONTINUED)		BLOOMS
Grape hyacinth	<i>Muscari armeniacum</i>	blue, purple
Hyacinth	<i>Hyacinthus orientalis</i>	purple, white
Snowdrops	<i>Galanthus nivalis</i>	white
Tulip	<i>Tulipa sp.</i>	various

ORNAMENTAL GRASSES

SPRING INTEREST		COLOR/SEED HEADS
Quaking grass	<i>Briza media</i>	green/cream, purple
SUMMER INTEREST		COLOR/SEED HEADS
Blue grama grass	<i>Bouteloua gracilis</i>	green/cream
Blue oat grass	<i>Helictotrichon sempervirens</i>	blue/cream
Feather reed grass	<i>Calamagrostis x acutiflora</i>	green/rose-pink
Fountain grass	<i>Pennisetum alopecuroides</i>	green/silvery pink, white
Maiden hair grass	<i>Miscanthus sinensis 'Gracillimus'</i>	green/red
Sedge	<i>Carex sp.</i>	green
Tufted hair grass	<i>Deschampsia cespitosa</i>	green/cream
FALL INTEREST		COLOR/SEED HEADS
Alkali sacaton	<i>Sporobolus airoides</i>	green/pink
Autumn moor grass	<i>Sesleria autumnalis</i>	green/pink
Muhly grass	<i>Muhlenbergia sp.</i>	green/pink
Prairie dropseed	<i>Sporobolus heterolepis</i>	green/cream
Hardy pampus grass	<i>Saccharum ravennae</i>	green/purple bronze
Switch grass	<i>Panicum virgatum</i>	green/pink
WINTER INTEREST		COLOR/SEED HEADS
Maiden hair grass	<i>Miscanthus sinensis 'Gracillimus'</i>	brown/copper, silver
Hardy pampus grass	<i>Saccharum ravennae</i>	bronze/purple bronze
Feather reed grass	<i>Calamagrostis x acutiflora</i>	golden/golden tan
