Moss Landing
California 95039 U.S.A.
(408) 633-3304

***** FROM THE PRESIDENT *****

THE MIAMI CONFERENCE IS OVER; LONG LIVE THE BERMUDA CONFERENCE! BUT MAYBE IT WOULD BE UNFAIR TO "BURY" MIAMI SO QUICKLY. AFTER ALL, WE HAD A GOOD TIME IN THIS HOT SPOT OF FLORIDA; WE GATHERED A LOT OF NEW INFORMATION AND MET NEW AND OLD FRIENDS. WE SHOULD RECOGNIZE THIS.

KAY HALE IS THE FIRST AUTHOR OF OUR SUCCESS. WITH HER COLLEAGUES FROM THE LIBRARY OF RSMAS, SHE DID A WONDERFUL JOB. THE ORGANIZATION WAS PERFECT, THE ACCOMODATIONS EXCELLENT, EVEN IF WE DID NOT HAVE ENOUGH TIME TO ENJOY THE BEACH AND THE WARM WATERS OF THE GULF STREAM. THE FIELD TRIP TO JOHN PENNEKAMP CORAL REEF STATE PARK WAS MOST AGREEABLE AND INTERESTING, AS WAS THE RECEPTION AT RSMAS AND DANCING TO THE SOUND OF THE STEEL BAND ORCHESTRA. OVERALL, IT WAS A PLEASURE TO WORK WITH KAY.

(continued on page two)

(FROM THE PRESIDENT continued from page one)

ABOUT 90 PEOPLE PARTICIPATED, WHICH WAS VERY SATISFACTORY. WITH THE EXCEPTION OF THE MEETING AT WILLIAMSBURG IN 1985, ORGANIZED BY MARY JANE BEARDSLEY, MIAMI WAS THE MOST INTERNATIONAL IAMS LIC CONFERENCE. WHEN I SELECTED THE THEME FOR THE CONFERENCE I KNEW IT WAS VERY AMBITIOUS AND THAT THE PROGRAM COULD NOT BE COMPLETELY FULFILLED. THE RESULTS HAVE GONE BEYOND MY EXPECTATIONS. THIS IS DUE IN LARGE PART TO THE HELP OF VARIOUS ORGANIZATIONS WHICH I WOULD LIKE TO ACKNOWLEDGE: THE INTERNATIONAL OCEANOGRAPHIC COMMISSION OF UNESCO IN PARIS; THE INTERNATIONAL DEVELOPMENT RESEARCH CENTRE IN OTTAWA, CANADA; THE UNITED STATES LIAISON COMMITTEE FOR OCEANOGRAPHIC RESEARCH, WHICH IS A SMALL NON-PROFIT ORGANIZATION. WITH THEIR SUPPORT, REPRESENTATIVES FROM CHINA, INDONESIA, THE PHILIPPINES, TRINIDAD, MEXICO AND THE IVORY COAST WERE ABLE TO ATTEND. THEY PRESENTED THE STATUS OF MARINE INFORMATION IN THEIR RESPECTIVE COUNTRIES, THEIR PROJECTS, THE DIFFICULTIES THEY ARE ENCOUNTERING, AND THEIR NEEDS. THEIR TALKS WERE MOST USEFUL AND INFORMATIVE.

IN ADDITION TO THE REPRESENTATIVES OF DEVELOPING COUNTRIES, WE ALSO HAD PARTICIPANTS WHO ATTENDED OUR CONFERENCE FOR THE FIRST TIME AND WHO CAME FROM MANY PARTS OF THE WORLD: UNITED KINGDOM, DENMARK, FRANCE, GREECE, AUSTRALIA, SOUTH AFRICA, BRAZIL, AND NOT FORGETTING, OF COURSE, OUR FRIENDS FROM CANADA AND THE UNITED STATES. THEY PRESENTED THE MARINE INFORMATION RESOURCES OF THEIR COUNTRIES AND SPECIAL AND/OR REGIONAL DATABASES, NETWORK AND PROGRAMS, WHICH ARE OF GREAT INTEREST TO LIBRARIANS.

WE ALSO HAD INTERESTING COMMUNICATIONS FROM VARIOUS INTERNATIONAL GROUPS AND ORGANIZATIONS, DIRECTLY OR INDIRECTLY INVOLVED WITH MARINE INFORMATION: THE AQUATIC SCIENCES AND FISHERIES INFORMATION SYSTEM, THE AD-HOC CONSULTATION OF EXPERTS ON MARINE INFORMATION MANAGEMENT, THE INFOTERRA OF THE UNITED NATIONS ENVIRONMENT PROGRAM, THE WORLD BANK AND ITS ENVIRONMENT INFORMATION SYSTEM.

I WOULD NOT WANT TO FORGET THE SESSIONS ON SERIALS, ON THE RELATIONSHIP WITH OUR PATRONS, THE USE OF ASFA CD-ROM, AND A VERY LIVELY AND INFORMATIVE SESSION ON THE LEGAL ISSUES RAISED BY THE USE OF NEW TECHNOLOGIES IN THE FIELD OF INFORMATION. MY SINCERE THANKS TO ALL THE SPEAKERS AND PARTICIPANTS FOR THEIR ATTENDANCE, BUT ALSO FOR THEIR PATIENCE WHEN, SOMETIMES, SESSIONS WERE SLIGHTLY TOO LONG...

NEITHER MUST I OVERLOOK THE PRE-CONFERENCE WORKSHOP ON SOFTWARE FOR MARINE SCIENCE APPLICATIONS. THE PRESENTATION WAS FULL OF VERY GOOD, USEFUL ADVICE AND ALLOWED US TO HAVE HANDS-ON EXPERIENCE WITH THE ADVANTAGES AND WEAKNESSES OF SELECTED SOFTWARE PACKAGES. CONGRATULATIONS TO KAY HALE AND TOM MORITZ, THE ORGANIZERS.

NOW WE BEGIN A NEW YEAR WITH SHARON THOMSON AS PRESIDENT-ELECT. SHE HAS IMMEDIATELY STARTED TO PREPARE THE PROGRAM FOR NEXT YEAR AND WE WILL HEAR FROM HER SOON. THE CONFERENCE, AS YOU KNOW, WILL BE HELD IN BERMUDA - A VERY ATTRACTIVE PLACE. SO PLAN NOW TO ATTEND !

(continued on page three)

(FROM THE PRESIDENT continued from page two)

THIS YEAR WE HAVE A LOT OF WORK TO DO AND THIS WORK HAS BEEN DISTRIBUTED AMONG THE VARIOUS COMMITTEES. SOME OF THEM HAVE BEEN IN EXISTENCE FOR SEVERAL YEARS ALREADY AND YOU KNOW OF THEIR ACTIVITIES THROUGH THE REPORTS PUBLISHED IN THE NEWSLETTER AND PRESENTED AT THE BUSINESS MEETINGS. WE HAVE ALSO CREATED TWO NEW COMMITTEES THIS YEAR. ONE WILL DEVOTE ITS ACTIVITY TO SITE SELECTION FOR FUTURE CONFERENCES. PROBABLY IT IS NOW TIME TO ENVISAGE ORGANIZING A CONFERENCE OUTSIDE NORTH AMERICA, WHICH WOULD NEED SERIOUS CONSIDERATION IF WE WANT IT TO BE SUCCESSFUL. THE SITE SELECTION COMMITTEE, CHAIRED BY BETTY SUTHERLAND, WILL EXAMINE VARIOUS ASPECTS AND MAKE PROPOSALS. THE OTHER COMMITTEE, CHAIRED BY RUTH GRUNDY, WILL STUDY THE QUESTION OF DOCUMENT DELIVERY. THIS PROBLEM IS BECOMING SERIOUS IN DEVELOPED COUNTRIES WHERE LIBRARY RESOURCES ARE SHRINKING AND WHERE PATRONS EXPECT IMPROVED AND SPEEDIER SERVICES. BUT IN DEVELOPING COUNTRIES THIS IS A BASIC PROBLEM. RATHER THAN ENGAGE IN ENDLESS DISCUSSIONS ON THIS ISSUE, OUR ASSOCIATION SHOULD DEVISE A VERY PRACTICAL APPROACH. YOU WILL BE HEARING MORE ABOUT THIS LATER.

EACH OF US CAN CONTRIBUTE TO THE EXPANSION OF THE MEMBERSHIP OF THE ASSOCIATION, ESPECIALLY OUTSIDE NORTH AMERICA. ALL SUGGESTIONS AND PROPOSALS WILL BE VERY WELCOME BY THE MEMBERSHIP COMMITTEE.

I KNOW THAT ONCE WE ARE BACK IN OUR LIBRARIES, SOMETIMES ISOLATED, OFTEN OVERLOADED BY THE WORK TO BE DONE, THE ENTHUSIASM OF OUR FRIENDLY MEETINGS FADES AND WE TEND TO FORGET THE GOOD INTENTIONS EXPRESSED. HOWEVER, ONCE AGAIN, THANK YOU TO ALL, AND LET US HOPE THAT WE WILL HAVE A CONSTRUCTIVE YEAR AND A HAPPY IAMSLIC ONE.

CECILE THIERY

* * * * * IAMSLIC '89 * * * * *

BERMUDA BIOLOGICAL STATION OCTOBER 2-6, 1989

Conference '89 is now a little less than a year away! Plan now to attend and participate in "IAMSLIC AT A CROSSROADS". The first formal call for papers will be coming early in January but a little advance notice has never hurt.

I know some of you are already thinking about papers to present and several members have already offered to moderate sessions and arrange for speakers. If having a place on the program will help you to convince your management to let you come or give you funding etc. please let me know, especially if you have to give management a lot of lead time.

Some members have commented on the Conference Evaluation Form that they would like evening sessions and afternoons free. If any of you have strong feelings about this, I would like to hear from you. I know you won't be bashful.

The Library has its own Sciencenet mailbox now - IOSBC.LIBRARY. You can still reach me via the Institute's general mailbox IOS.BC, or for Canadians the Envoy/GEMS address is DFO.LIB.IOS.SIDNEY. Telephone is (604) 356-6392.

Sharon Thomson

SUMMARY OF THE BUSINESS MEETINGS, IAMSLIC 14TH ANNUAL CONFERENCE

President Bill Goff reported on his attendance as a representative of IAMSLIC at the 1st meeting of the European Marine and Freshwater Sciences Librarians, Information Scientists and Documentalists, held in Plymouth, England, April 20-21, 1988. He indicated that, while some members of the European group are personal members of IAMSLIC, the group as a whole was not interested in becoming a part of IAMSLIC.

Treasurer Kay Hale reported a balance of \$15,840.99

Tom Moritz, chair of the Committee on International Cooperation, reported that French and Spanish language versions of the membership brochure have been completed. He also discussed two items of importance to the Committee: creation of a membership expertise database within IAMSLIC, and the development of regional or national suborganizations within IAMSLIC.

Union List of Serials Committee chair, Susan Barrick, reported that the Committee did not use the \$5,000 allocated last year to add marine science titles to the National Agriculture Library's "world list of agricultural serials" project. The scope of the NAL project had changed and IAMSLIC was no longer interested in participating. There is interest within IAMSLIC in creating a world union list of marine science serials. Susan indicated that the Committee would look into the feasibility of this.

Placement of advertisements for publications in the newsletter and inclusion of non-IAMSLIC enclosures in official IAMSLIC mailings were discussed. Inclusion of ads will be left to the discretion of the newsletter editor, who can consult the Executive Board if necessary.

The following motion, by Carol Winn, seconded by Ruth Grundy, was passed:

I move that official IAMSLIC mailings not include enclosures from other organizations, but that mailing labels for the Association's membership and/or publicity databases be provided:

- (a) at cost for non-profit marine science related organizations, and
- (b) at a cost per label to be determined by the Executive Board for for-profit organizations.

The attendance of committee chairs at Executive Board meetings was discussed, with agreement that they should attend at least the pre- and post-conference meetings. This item will be included in the work of the Bylaws Committee for the coming year. It was also decided that this committee will draft changes in the Bylaws to extend voting rights and the right to hold office to institutional members, and to extend the term of office of the Vice President/President elect to two years.

The site for the 1990 conference was discussed, with Bremerhaven, West Germany; Encinada, Mexico; Galveston, Texas U.S.A.; and Monterey, California U.S.A. mentioned as possibilities. An ad hoc committee will be formed to work on future conference sites, including the 1990 one.

(CONTINUED ON NEXT PAGE)

(BUSINESS MEETING CONTINUED)

Ruth Grundy announced that the 1986 conference proceedings are ready to go to press and that the Newport, Oregon conference registrants will have to purchase copies because the price was not included in the registration fee. Carol Winn announced that she is still waiting for a complete set of 1987 papers but may go to press with an incomplete set.

Sharon Thomson was elected Vice President/President elect for 1988/89 and Sheila Baldrige was elected Treasurer for a 2 year term.

ASFA CD-ROM - TWO NOTES

DESCRIPTORS

The four types of descriptors used are not always in their correct places. The table shows where some descriptors are to be found on the 1982-86 disc.

TERM	SD	GD	BD	OD
Canada	450	4331	13	62
ANW	8	4685	10	51
Methodology	1188	349	492	719
Chemical composition	702	97	127	76
Salmo	24	19	2791	21

In view of this searchers are strongly recommended to search all descriptor fields if one wants to avoid the possibility of missing relevant references. This is especially important when searching phrases which currently have to be searched one field at a time.

AUTHORS

I would suggest that an expand is always made before making an author search in order to check any variation in initials used in the database. If the author should happen to be an editor or compiler of a book you may find that ED, EDS, COMP or COMPS have been added as extra initials. This happens when parentheses are stripped in making the author index.

If the author you are searching for is the author of a chapter in a book you may find that only the names of the editors of the book appear in the author field when you display or print the reference. It would seem that an error got into the system when making the CD which will be corrected in new records to be input but it cannot be corrected on the 1982-86 disc until it is repressed.

K. Eric Marshall, Freshwater Institute Library, Department of Fisheries and Oceans, 501 University Crescent, Winnipeg, Manitoba, Canada, R3T 2N6

COMMITTEE ON INTERNATIONAL COOPERATION

Initiatives for 1988-89
(Developed at the 1988 Annual Conference)

1) The Committee will pursue recruitment efforts vigorously with individual members undertaking specific regional assignments for recruiting. The new French & Spanish language versions of the IAMSLIC membership brochure will be used in this effort.

2) The Committee will continue to encourage the development of well integrated national and regional structures within the IAMSLIC context.

3) The CDS-ISIS/ASFISIS working group will continue in its consultative / working relationship with the ASFIS Board and will explore ways in which CDS-ISIS/ASFISIS may be a useful medium for the development of an international machine readable bibliographic standard for marine science information. As a corollary development the C/A working group will explore applications of the CDS-ISIS software in developed settings.

4) The CIC will carry out the development of an survey within IAMSLIC for identification and evaluation of existing and new members expertise and willingness to serve in development roles. The Committee will develop a possible design for an interactive database to provide effective and low-cost access to such information for broad distribution.

5) With a view to applying effectively the IAMSLIC's available resources -- and drawing on the experience of designing and implementing the 1988 IAMSLIC pre-Conference workshop -- the CIC will explore various possible ways of developing training programs which will serve the expressed needs of marine science information providers in the developing world.

6) The CIC will explore various means of contributing directly to the training of providers of marine science information in developing countries.

This will include consideration of :

-- the exploration of "partner" (or "twinning") relationships between developed and developing institutions;

-- special or subsidized memberships to IAMSLIC;

-- the possibility of occasional publications of basic training materials related to marine science librarianship;

-- the possibility of internships in well developed marine science libraries and information centers;

-- the encouragement of visits by IAMSLIC librarians to various developing institutions.

7) CIC will explore various strategies and tactics for direct delivery of hard copy documents to developing countries.

COMMITTEE ON INTERNATIONAL COOPERATION NEWS

CIC recommendations to the IAMS LIC general membership:

UNION LIST OF MARINE SCIENCE SERIALS

CIC strongly supports the continued development of an interactive union list of marine science serials including world-wide holdings information. We recommend that the Union List Committee already headed by Sue Barrick be strengthened and CIC will work cooperatively with that Committee to seek funding support. We also recommend that consideration be given to using already established lists such as that held by Pauline Simpson of IOS (Wormley, Surrey, UK)

DOCUMENT DELIVERY

CIC strongly recommends that IAMS LIC form a working group or committee to examine the various options and associated problems with respect to international document delivery including: FAX, online publishing, full text CD-ROM, microforms and the formation of regional centers for local document delivery. The group should report back to membership with proposals for action as soon as possible but, no later than the next annual conference.

NOTES FROM THE CORNER

THE AMERICAN GEOPHYSICAL UNION HAS COMPILED A LIST OF GROUPS WHO HANDLE SHIPMENTS OF DONATED BOOKS AND JOURNALS FROM THE UNITED STATES TO INSTITUTIONS IN DEVELOPING COUNTRIES. TO RECEIVE A COPY OF LIST, CONTACT:

AGU-MMP-DONATIONS
2000 FLORIDA AVENUE N.W.
WASHINGTON, D.C. 20009 U.S.A.

ERIC MARSHALL CAN NOW BE REACHED VIA OMNET/SCIENCENET. SEND MESSAGES TO HIM IN CARE OF M.MCMULLEN.

FROM JANICE MEADOWS (IAMS LIC MEMBER, FORMERLY WITH THE VIRGINIA INSTITUTE OF MARINE SCIENCE):

I've just taken a part-time job as North American Bibliographer at the Scott Polar Research Institute, Lensfield Road, Cambridge CB2 1ER. It's a fine library and I look forward to working there. As the job includes locating and ordering Canadian literature, I expect to be in touch with several IAMS LIC colleagues. I hope to attend next year's conference with a paper describing some aspect of the collection or perhaps the production of its primary publication, Recent Polar and Glaciological Literature. In the meantime, I'd love to hear from my friends in IAMS LIC, especially if you plan any trips to the U.K. and would like to visit Cambridge.

Marine Biological Laboratory / Woods
Hole Oceanographic Institution
Libraries

Fax number - (508) 540-6902
ILL number - (508) 548-1400 Ext. 2455
Will accept document requests via e-mail. (Omnet/Sciencenet: WHOI.LIBRARY)
Fax machine - Xerox Telecopier 295
No graphics resolution
Charges - \$2, 1-10 pages plus 25 cents per page.
