

博士論文の要約

Population structure and geographical dynamics of common anuran species in Japan

by Shohei Komaki

**Department of Biological Science,
Graduate School of Science,
Hiroshima University**

Content of the thesis

Abstract

Chapter 1 General introduction

Chapter 2 Distributional Change and Epidemic Introgression in Overlapping Areas of Japanese Pond Frog Species Over 30 Years

Chapter 3 Development and characterization of 14 microsatellite markers for *Buergeria japonica* (Amphibia, Anura, Rhacporidae)

Chapter 4 General discussion
