Public Information Services.

THE ALUMNUS is issued four times a year in February, May, September and December by the University of Northern Iowa, 1222 W. 27th St., Cedar Falls, Iowa 50613. Second class postage paid at Cedar Falls, Iowa 50613.

## A few words

by  
**Lee Miller,**  
**Alumni Director**

## Achievement award nominations accepted

The school year moves along all too rapidly and it's almost time to think about the spring Alumni Achievement Awards.

They are, just as they say, awards given to UNI alums who excel in their particular fields which may not be their major field in college. The past few years we've awarded one to someone from each of our four major colleges—education, business and behavioral sciences, natural sciences and humanities and fine arts.

We ask the University staff to make nominations which we keep on file. But, we certainly would also welcome any nominations from alums. Send any names along with some kind of biographical sketch to me at the Alumni Office by March 1, 1977. I will see that the selection committee, composed of Alumni Association Board members, reviews your nominations.

## Midwest and West Coast Clubs

The Minneapolis Alumni Club successfully held a first meeting Aug. 27. Bob Justis from this office presented a slide program in addition to some door prizes. Dick Redfern, M.A. '74, and Joleen Caslovka, B.A. '74, acted as co-chairpersons.

I recently returned from a West Coast trip on an attempt to revive the Southern California and Bay Area clubs. There's a committee working in Los Angeles and soon all alums in that area will be contacted to find out the level of interest. It looks good and I think they will have an active club there again. Those on the committee are: Dale and Eleanor Rice, B.A. '51, and '52; Jim Dameron, B.A. '62; Rena Clark Billings, B.A. '31; J.B. Paul, B.A. '40; and A. Jerome Nielsen, B.A. '47.

In the Bay Area, we had a cheese and wine party at Cliff and Flo (Williams) Moles', B.A. '50 and '52. Betty Iverson Mann, B.A. '51, served as co-chairperson with the Moles. It was a fine event and everyone seemed to have a good time. The Bay Area people are forming a committee on which they will try to include someone from each of the major city areas. It looks like they'll be planning another event soon.

The club activities are always a lot of fun. Be sure to participate in your area or help us form a club near you. Happy Holidays.

# Completed library gives university comfortable reader services

After a decade of construction and renovation, the UNI Library was officially dedicated last spring to its service of the 10,000 persons in the University community.

Unit I of the Library was completed in 1964 and Unit II in early 1975. This expansion at a cost of under \$3-million doubled the size of the Library and made it what one well-known university library director calls "One of the ten best buildings in the United States with a simple but appropriate design and excellent interior planning."

The library's primary function is to serve UNI faculty, students and staff with books, periodicals and other materials. Donald O. Rod, Library director, adds that the building and staff also try to create the best conditions for using the materials effectively. The Library now offers a variety of services and an aesthetically pleasing environment for the resources that support the instructional and research program of

the University's 29 academic departments.

Books, books and more books still total the bulk of the Library's resources. As of July, 1976, there were 374,915 volumes, not including the bound periodicals or documents, and there's shelf space for about 700,000 volumes. However, at an annual growth of about 20,000 volumes, by 1985 the shelves in the current building will probably be filled to practical capacity.

The comfort of students and faculty is also carefully planned. Within the Library's red brick walls, bright color schemes invite readers to the lounges and large, cushy chairs or to areas for concentrated research with tables arranged under study lighting conditions.

Besides seating for 581 at standard tables, there is seating capacity for 505 at study carrels, 261 in the several lounges on each of the three floors and special seating for 106 others. Carpeting used exten-

*The size of the UNI Library becomes more impressive when seen from this angle on the second floor stacks.*

*The UNI Library in its relation to the rest of the campus. The front entryway opposite the J.W. Maucker Union was modified to its present state during Unit II of library construction. The front half of the building is Unit I and Unit II includes the back of the building behind the side entryways.*

sively over the main floor and on high use areas of other floors helps produce a quiet, but certainly not sterile atmosphere.

As an important part of the planning of Unit II, the Library staff with the UNI Art and Architecture Committee chose two permanent art works. Like other buildings, the Library received one half of one per cent of the project budget to purchase the metal sculpture "Dichotomy" by Philip Ogle and a textile weaving in progress by Budd Stalnacker. There are also some 200 original works from the University's permanent art collection hung in the library.

All of these aesthetic accouterments supplement the work of the 20 professional librarians, and eight other professionals, 34 merit employees and 115 student assistants who obtain, organize and direct the use of the many materials.

The books along with some 3,000 current subscriptions and 72,343 bound periodicals take up the major share of the library's 175,000

*Browsing through current periodicals, UNI students enjoy sun streaming into a quiet library atmosphere in one of the several lounge areas.*

square feet. But other resources and facilities are available.

On the second floor the relaxed art and music room and the room for documents and maps serve as specialized retreats. In the art and music room are audio recordings and listening equipment for some 4,840 recordings, tapes and cassettes along with art and music reference books and periodicals. Slides and slide viewers are also available.

The documents and maps section offers a separate collection of publications of the United States government and sheet maps. There are 167,936 document items and 20,888 sheet maps.

With a quick run down to the first floor, students and faculty will find a separate Youth Collection with materials for University class use. This includes books, periodicals and other materials representative of what is contained in elementary and secondary school libraries.

On the main floor toward the back is the Special Collections room containing the University Archives and Rare Books. Materials remain here in a controlled setting because of their value or condition.

Rod encourages alumni and friends to write to Special Collections about possible gifts of rare books and special collections.

To make study life easier for UNI students, the Library also provides a microform service. In one room are newspapers, periodicals and dissertations on thousands of microcards, microfilm or microfiche with adequate reading machines. Photocopying is also available from the library staff.

Other resources and services from the Library are more specialized. A Browsing Room houses some 1,800 books and a casual setting for leisure reading. The Career Collection contains assorted material on career choices for students.

A room especially equipped for blind students is another speciality of the library. There are tape recorders and braille writing machines with references including a braille dictionary and encyclopedia.

Special study space is also available for faculty and students.

*The Browsing Room houses many current books and gives students a place for leisure reading.*

Rooms are assigned to faculty members for research and writing. Small groups of students use other rooms for studying. Graduate students writing theses are also considered and may use 30 carrels with lockable storage compartments. There are some 100 other lockers assigned by semester to students.

Two more features add to the Library's functional abilities. A teletype puts the UNI Library in instant written contact with other libraries, especially through the use of the Iowa Library and Information Teletype Exchange. The Library also provides a comprehensive serials list produced with automated data-processing techniques.

These last two features indicate that the Library is entering the computer world more and more. Rod says the UNI Library is now negotiating a contract to receive cataloging copy via a cathode ray terminal from a national data base. Shortly, also, the Library will go "on-line" with a computer based bibliographic retrieval network.

The Library director proudly

*There's more than one way to look at a book, and the top of "Dichotomy" on the second floor offers a new view to a studious situation.*

states that the University now has an "outstanding well-equipped library building which should prove adequate for about the next decade. When the need arises, a fourth floor can be added to the existing structure."

The Library is currently on a budget of over \$1,400,000 for 1976-1977 but Rod noted that

special gifts and endowment funds are used to acquire special needs beyond the reach of regular appropriations.

## Merchant award applications open

Applications for the Merchant Scholarship awards presented annually at UNI are now being accepted. Candidates eligible for the awards include any B.A. graduate from UNI or anyone expecting to receive a B.A. degree from UNI within six months of the deadline.

The deadline is Mar. 1, 1977, for having all materials filed with the committee. However, if material is submitted by Feb. 15, 1977, the committee will notify those whose files are not complete. The decision on scholarship awards will be announced in April or May, 1977.

Approximately \$6,000 is available for the 1977-78 school year. Funds are provided under the will of the late Professor Frank Ivan Merchant, former UNI language professor, and his sister, Kate Matilda Merchant. Award winners are chosen by the University president and department heads.

Application blanks are available by writing the Merchant Scholarship Committee chairman, Dr. Jon Hall, head of the speech department, University of Northern Iowa, Cedar Falls, IA 50613.

## Fall student enrollment up

Official enrollment figures submitted to the State Board of Regents for the end of the fourth week of classes at the University of Northern Iowa showed an increase of 412 students over the fall of 1975, or 9,699 students enrolled.

New undergraduate enrollment was up seven per cent over the fall of 1975, when the figure stood at 2,685. This fall there are 2,873 new undergraduates, with 1,929 beginning classes directly from high school and 944 transferring to UNI.

The number of new students entering UNI directly from high school is 63 greater than in 1975, a 3.4 per cent increase, while the number of new transfer students rose by 122 this fall, a 14.8 per cent increase over last year's figure. The new transfer enrollment figure also sets a new record for transfers, breaking the previous record of 844, set in 1971, by 100 students.

The number of new students

entering UNI directly from high school or as transfers has been climbing steadily since 1972, when 2,253 enrolled. The 1976 total of 2,873 is just 13 less than the record new student enrollment of 2,886 set in 1969.

The 9,699 students enrolled for on-campus classes include 8,380 undergraduates, an increase of 368 students in that category from last year, and 1,319 graduate students, an increase of 44. Undergraduate enrollment is as follows, with 1975 figures in parentheses: seniors, 1,347 (1,384); juniors, 1,759 (1,643); sophomores, 1,990 (1,810); freshmen, 3,080 (3,034); unclassified, 183 (123); and specials, 21 (18).

In addition to the 9,699 students enrolled for on-campus courses, the Division of Extension and Continuing Education reports 443 students enrolled for off-campus extension classes and 347 students enrolled for correspondence study.

# Davis donates Dome entrance funds

*T. Wayne Davis, national chairman of the Centennial Fund drive, did so well selling entrances to the UNI-Dome for \$100,000 that he sold himself one in the process.*

He sold two UNI-Dome entrances so successfully, that he sold himself in the process. T. Wayne Davis, Centennial Fund drive national chairman and president of the UNI Foundation Board of Directors, donated \$100,000 to the UNI-Dome. For this, his name will be inscribed on the southwest entrance. The announcement was made at the official UNI-Dome dedication Sept. 4, 1976.

Davis' life has been closely connected with the University since he went to school at then Iowa State Teachers' College and graduated in 1943 with a B.A. in business teaching. While in college, he worked 46 hours a week at Latta's Book Store. He went into the Navy after college and returned to Cedar Falls in 1946 to rejoin Latta's. He soon got the go-ahead to develop the company's office supply business.

Latta's Inc. purchased Waterloo Office Supply Company in 1954. Under Davis' guidance, the business grew and moved in 1956. That same year, Latta's Inc., received the franchise for the 3-M "thermo-fax" copying machine which caused the creation of Latta's Business Systems, later renamed Advanced Systems, Inc.

About the same time, Davis worked on developing a pegboard accounting system that was simplified to provide better delivery and quality. Out of this, Control-o-fax Corporation was born along with five other related companies. Davis is president of all of those companies, and of University Book and Supply, formerly Latta's Book Store.

Control-o-fax eventually moved to larger facilities at its present location on a 15-acre site near the Waterloo Airport. Working with a "positive attitude of getting something done," Davis expanded Control-o-fax in the mid-'60s and established production facilities in Los Angeles and Atlanta, Ga.

Davis became more directly involved with UNI in the later 1960s when he started the President's Club which includes contributors to the University who give gifts of \$10,000 or more over a 10-year period or less. He also began working with the Alumni Association and was interested in initiating some projects to involve local people with the University.

When President John Kamerick took office in 1970, the President's Club drive gained momentum. Alumni members, and especially Davis, still had it in mind to find an alumni program that would build better relationships with the community and UNI.

"We settled on the UNI-Dome as a project and set about involving the leading people in Cedar Falls and Waterloo, trying to get their backing," Davis remembers.

At this point, Davis also agreed to become the national chairman of the Centennial Fund Drive, organized to raise funds for Phase I, the UNI-Dome; Phase II, the fine arts auditorium; and Phase III, scholarship and special project programs.

Lee Miller, director of Alumni Affairs, recalls, "We considered all the local alumni with the capabilities of organizing the national fund drive and we kept going back to T. Wayne's name. I asked him to do it and received almost an immediate 'yes' for an answer. He's spent countless hours at personal expense to make our fund drive the success it's been."

The UNI-Dome, which opened Feb. 7, is now a lot of people's dream come true and Davis believes the effect of the Dome won't be felt for a few years until it's completely

done. "The UNI-Dome," Davis thinks, "can do more for the community and the University than anything ever before. The local community and University people who backed it are to be commended for their foresight."

Besides serving on the UNI Foundation Board of Directors for eight years, Davis volunteers for other civic projects. He is past president of the Cedar Falls Chamber of Commerce and the Rotary Club. He serves on the board of directors of Waterloo Savings, Junior Achievement and the County YMCA. He is a member of St. Luke's Episcopal Church in Cedar Falls where he has been active. He is also a member of Sunnyside Country Club. Davis and his wife, Adele, have two daughters. Susan lives in New York and Sheri is in Los Angeles with her husband, Dr. Steve Kleinman.

T. Wayne Davis has served the University of Northern Iowa voluntarily for many years and his success at fund raising is apparent. He sees his achievements built around the motto, "The harder I work, the luckier I get."

## Alumna appointed assistant for UNI Alumni Office

Ellen Leslie started her "love affair" with UNI (then Iowa State Teacher's College) when she was a freshman vocal major in 1949. She now returns as the new assistant to the director of alumni affairs to promote UNI.

Mrs. Leslie believes in making alumni feel welcome and she makes herself available to talk with returning alums and take them on campus tours.

She now works closely with the new UNI Parents' Association and she hopes to be able to do anything she's asked to do, including fund raising. "In alumni relations work," she believes, "sometimes a woman can approach people in certain situations and get a better reaction than a man." Ultimately, Mrs. Leslie thinks, "You have to have confidence in the school, the job and yourself."

Her new work also gives her an opportunity to concentrate on one of her main concerns - improving UNI's image. "UNI was a teachers' college for 85 years and the idea of it as a university is still not ingrained in a lot of people's minds. They still think it's

a small town college," she explains. She says she loves the school and gets enthusiastic and involved when she tells people about it.

Mrs. Leslie graduated from I.S.T.C. in 1952 after three years and two summers. She received a Bachelor of Music Education degree and began teaching music in the Waverly school system the Monday after a Friday graduation.

She later renewed her teaching certificate through Wartburg College and taught vocal music part-time for two years in Shell Rock. Most recently she taught vocal music part-time for three years in Tripoli for a three-county area where she worked with EMR (Educable Mentally Retarded) children. This position was eliminated with the advent of Area VII Education Agency.

In addition to her teaching career, Mrs. Leslie sang with the first UNI Jazz Band and has recently sung with the Bruce Chidester group of UNI music instructors named "The Organization". She is married to Richard Leslie, a Waverly lawyer, and has four children, the oldest of whom is a 1976 graduate of UNI.

Ellen Leslie

**MATCH  
MATCH  
your money**

When you give to the UNI Foundation, remember that many corporations and companies will match your gift.

Waterloo-Cedar Falls residents are also reminded that now John Deere has a matching gift program.

Double, and sometimes triple, your contribution with a matching gift program. Check with your employer.

# UNI Foundation presents UNI - Dome to Regents

Grand opening festivities for UNI's UNI-Dome Dedication Weekend included something of interest for everyone.

The actual dedication occurred Saturday afternoon of Labor Day weekend with a wide range of participants and guests on hand. The program included recognition of contractors and Dome construction workers; remarks on behalf of the student body by Ann Brenden, president of the UNI Student Association; and remarks on behalf of UNI alumni by William Blake, president of the Alumni Association. Lee Miller, secretary of the UNI Foundation and director of Alumni Affairs, recognized the entrance donors and announced T. Wayne Davis' contribution of \$100,000 to purchase an entrance.

Davis, president of the Foundation and national chairman of the Centennial Fund drive, gave the major dedication address.

Turning the UNI-Dome over to the Iowa State Board of Regents from the UNI Foundation was completed when UNI president, Dr. John Kamerick, presented the key to the Dome to Mrs. H. Rand Petersen, president of the Regents.

The dedication ceremony was preceded Friday night by a concert in the Dome featuring Harry Chapin, a folk balladeer and lyric singer-songwriter. Following the ceremony was the football season opener which the Panthers lost to 1975 Division II National Champions Northern Michigan, 41-7.

Grand opening committee co-chairpersons were Marlene Behn and Carolyn Haurum, board members of the UNI Alumni Association.

The UNI Foundation reports it now has \$1.3 million remaining to be raised to pay for the UNI-Dome as it now stands. An approval by the Board of Regents last September allowed for a shift in funds increasing the institutional funding of the

Listening to opening remarks by Dr. Edward Voldseth, UNI vice-president for University Relations and Developments, were: (front, left to right) T. Wayne Davis, UNI Foundation president; Ann Brenden, president of UNI Student Association; Bill Wright, president of the Alumni Association; (back, left to right), Lee Miller, secretary of the UNI Foundation; Carolyn Behn, co-chairperson for the UNI-Dome grand opening; and Stan Sheriff, director of athletics and football coach.

UNI President John Kamerick (left), Bill Wright, (center), and T. Wayne Davis, present the UNI-Dome key to Mrs. H. Rand Petersen, president of the State Board of Regents.

UNI-Dome by \$565,000 and decreasing the UNI Foundation's funding by a like amount. The shift allows the University to pay the cost of the flooring as the portion of the facility to be used for instructional purposes.

The rest of the money to pay for the approximately \$7-million building has been secured by the UNI Foundation through pledges and bonding of students fees and other university funds.

# UNI, Collins Divisions join to offer Bachelor of technology degree

UNI is expanding its continuing education efforts to off-campus areas. Beginning next spring, the University will offer a program leading to a Bachelor of Technology degree to Collins Divisions employees of Rockwell International in Cedar Rapids.

The program, announced in September, will consist primarily of academic courses following UNI's standard approved curriculum. But, it will be conducted in facilities provided by the Collins Divisions.

The program has been adapted from campus to industrial facility in such a way as to integrate the vast resources of the Collins operation with the university's traditional emphasis on sound educational principle. The Bachelor of Technology degree has been offered on the UNI campus since 1968.

Most advanced technical courses will be team taught by UNI faculty and qualified Collins personnel to take advantage of the faculty's teaching expertise combined with Collins' advanced technology. Degree candidates will have the advantage of conducting laboratory experiments exploring real problems directly related to their work applying theoretical and mathematical principles from the academic curriculum.

"Most of what UNI will offer in this program are junior and senior level classes of a technical nature," said Dr. Raymond J. Schlicher, UNI Dean of Extension and Continuing Education. "We won't offer general education courses in Cedar Rapids. Our intent is not to compete with existing programs in the area but to fill a void by offering a baccalaureate program which is not otherwise available.

"We are responding to mandates from the university, the Board of Regents and the State of Iowa not only to continue but to expand our efforts in continuing education for other than full-time students, particularly in the area of university/business and industry cooperation."

According to Collins and UNI officials, the program is designed to draw heavily on a student's previous education obtained in a community college, technical school or through experience. Students needing general education courses to meet graduation requirements would enroll in those courses offered by private and public colleges in the Cedar Rapids area.

The new program has been under discussion between UNI and Collins for several months. At UNI, it will be administered jointly by the Department of Industrial Technology and the Division of Extension and Continuing Education. At Collins, the program will be administered by the Personnel Department.

UNI personnel directly involved in planning the project include, in addition to Dean Schlicher: Dr. Clifford G. McCollum, Dean of the College of Natural Sciences; Dr. Alvin E. Rudisill, Head of the Department of Industrial Technology, and Dr. Frank A. Downes, Assistant Dean of the Division of Extension and Continuing Education, who will serve as project coordinator.

Planning and administering the program for Collins will be: Richard Goode, Director of Personnel; Ted Bulmer, Manager of Employee Relations and Benefit Administration; Clayton J. Saylor, Education and Training Representative, and Suzanne Jacque, Continuing Education Coordinator.

## The intangible benefit

**Sometimes you don't see instant results when you give someone something.**

**But, your contributions to the University of Northern Iowa are important not only for concrete projects but for the intangible ones, too.**

**One of the best ways to give a gift to UNI is by creating a trust through the UNI Foundation. The University benefits and you will too by setting up a trust fund. Here are some of the benefits for you:**

- Deferred interest from the trust is immediately deductible;
- Amounts paid to individual beneficiaries can qualify for favorable tax treatment;
- There's no capital gain tax on your paper profit when you transfer appreciated securities to the trust;
- The trust might save thousands of dollars in estate taxes;
- You can divert income to a low bracket taxpayer within your family group.

Write or call: UNI Foundation, University of Northern Iowa, Cedar Falls, IA 50613 (319)273-2355. Or consult your attorney for further information.

**Help make the intangible difference - create a trust in UNI.**

# Homecoming '76

1976 Homecoming celebrated 100 years of excellence at UNI with an "Excelebrate" theme. Homecoming events were held in conjunction with UNI State and Community Day.

The Phi Mu Alpha Sinfonia (music honorary group) Variety Show, the Annual Olympics and a pep rally were pre-Homecoming activities. The actual day brought a better than ever parade, led by Grand Marshal T. Wayne Davis, president of the UNI Foundation and national chairman of the Foundation's Centennial Fund Drive.

Some 300 federal, state and local officials, candidates for public office and others attended a State Day luncheon while the alumni also had a pre-game luncheon. The afternoon football game in the UNI-Dome against Morningside had a final outcome of 37-7. Following the game was an alumni social hour featuring the Cedar Saints, a local Dixieland jazz band.

*A Luncheon for alumni before the game.*

*Homecoming Parade Reviewing Stand participants in the front row were: (left to right) Vice President James Martin and his two sons, Mrs. Kamerick, President Kamerick, Parade Grand Marshall T. Wayne Davis, Mrs. Davis, and Parade Judges Bob Justis, Betty McGovern and Bob Claus.*

*Lee Miller, director of Alumni Affairs (right), chats at State Day with (right to left) State Senator Bill Hansen from Cedar Falls, Mrs. Hansen and Dick Robert, candidate for state representative.*

*President and Mrs. Kamerick greet Iowa Governor Robert Ray at UNI's State Day Luncheon for some 300 public officials and candidates.*

*It's another touchdown for the UNI Panthers as they stomped on Morningside 37-7.*

# Evergreen Transformations

Written on commission for the UNI Centennial and read at Commencement exercises, May, 1976, by Stanley Wood.

by James Hearst,  
UNI Emeritus professor of English

## IN THE BEGINNING

"Who knocks on my door?" asks History.  
"A bewildered confused student of yours  
Whose world asks more questions than it answers."  
History asks, "Do you want facts or the truth?"  
"You mean there is a difference?"  
"My books record not what was said and done  
but what men thought was said and done -  
between the two truth sometimes leaks away."  
In the beginning  
one hundred years and more ago,  
there was a building on a hill,  
a shelter built for homeless children  
made orphans by the storms of war.  
This can be verified, some small research,  
a spadeful or two dug from the past,  
the bones are there, but the spirit?  
What you call the truth lies elsewhere.  
Ask the Phoenix that in deep Africa  
flies to its secret tree and there in flames  
consumes itself, then from the ash there rises  
a brighter, more splendid vision of the bird.  
There learn the truth of how the spirit lives.  
When a date confronts us on the rock of ages  
out of our human need we set a marker to say  
we passed here. We lay stone on stone  
to build a temple that keeps our testament  
from oblivion's greedy hands, and by its altar  
pray to be reborn.

## IOWA STATE NORMAL SCHOOL

A temple of learning, let it stand  
a marker to a noble aim, when claims  
and counter-claims had burned away  
something remained that shaped itself  
inside the bricks and mortar, the empty rooms.  
Wisdom teaches. Stronger than the tramp  
of armed feet is an idea when its time  
has come. Our country's frontier  
maps more than Indian and the buffalo.  
Listen to pages turned, lessons read,  
the squeak of chalk on blackboards,

pencils on slates, the meager chime  
of taxes from the General Fund won with  
oak muscled will for the congregation  
of the chosed few. This is what lived  
after the campfires died, where they made  
their stand, the pioneers who looked for  
the promised land with its springs to quench  
the thirst young men and women felt  
as they blazed new paths to follow  
away from the wheel rut road. Schools and  
churches mark the trail of the pioneer,  
and always the hope, ever the hope.

"New words for an old song," said History,  
"that's mostly the way it is, or crack an egg  
and release life, or plant a seed to spread  
more seeds to rise from the decay of the  
mother and wear her colors."

## IOWA STATE TEACHERS COLLEGE

Begin, yes begin, urged the teacher, today's page  
tomorrow will be yesterday's, who knows what star  
the telescope will find and reveal its light,  
what parasite confess its toxin to the microscope,  
what flowers unfold after a strange fertility,  
even the words we listen for will find a new voice  
in the halls of learning to bring an answer  
or a question for an answer to those who hear.  
New walls must wait for ivy but cornerstones  
contain the message they were built for.  
The ghost of Gilchrist Hall remembers  
the Bachelor of Didactics, but the new auditorium  
spoke firmly  
for the new Bachelor of Arts, its voice still  
echoes down  
our corridors. Laurel wreaths for the men and women  
who tilled the fields of mind willing to wait  
until a later season for the harvest. The way  
of the pioneer is hard and often leads to an  
unmarked grave. They who followed,  
tenured professors  
of a later day, spoke in polished syllables  
of their concern for the pitcher that goes too often

## THE UNIVERSITY

to the well and lies in broken shards, yet still revered when the new pot names the potter from an old design. "Now is the time...all brave men... quick brown fox...the winter of our discontent..." Signals from past spaces of learning strike the antenna of a college listening in.

(Only when shadows fall as the light fades, does the bird transform itself.) Let a glimpse of the way brighten eyes as young minds escape the dark closet that has haunted men all their lives. A student on one end of a log and a professor on the other may make a university, but buildings to house scholarship have become the style. No matter, let life be lived for its rewards, - who dare say it was wasted? The inspired dream lurks in every corner.

Education, said History, is a two-edged knife that cuts both ways and only he who knows how to grasp the handle should test the blade. One side may prune a dead branch from the living tree, the other cut the tree down to destroy the branch. Let each scholar wear a placard saying, I am a dangerous person full of signs and meanings, wielding the scalpel of my trade to explore the body of culture, until I prove my skill, you may not trust me.

History said, We live in the dark not of caves only, we wear long shadows cut to our measure by the shears of mind. Cries of our prophets warn us as we plunge down blind alleys to escape a future being built from our playbox of thunderbolts. A book may flash lightning, a page flare with symbols, footnotes, engravings, words that blaze to describe the fossils of experience and we blink, wear dark glasses, are dazzled. In flames the bird on its altar reveals the miracle of resurrection that to us seems not proven and like the sun blinds us to its light.

The architecture of scholarship survives, time may break stained glass windows and tumble stones, but the edifice of faith and thought, poetry, art, harmony, the probing sciences, stands wherever men have cherished it. Time, the vandal, cannot tear it down, only men at war with themselves in the heat of prejudice can shake its walls. Scholarship walks the corridors looking for open doors. The petty politicians of the classrooms squawk like parrots to repeat the thoughts of wiser men, read coffee grounds as portents and prove to students that a sow's ears can be made from a silk purse. But the challenge of the mountain streams out in its flag of snow and hardy climbers roped together spend their lives in the ascent. These are the true masters who have worked their way from the image in the rock to the star that shaped it. All is not vanity, the skilled workman from the past quarries the stones to build today's chapels where students begin their novitiate in the disciplines of the humanities and sciences. Experience is our dictionary. We learn its language and meaning from our notebooks, words spoken by the farmer, carpenter, priest and scholar. We train our hands with thought, our minds with the muscles of research, and with experiment. Living is our aim, to learn to stand on our own feet, speak our minds, find health in the healing strength of our own character. Now in the shelter of the University's everlasting arms is the time to dream of revolution, to hoist new banners over old glories, to know the worth of bread and cheese and wine. We are free to fly the balloons of dreams, to trim the fat from rich promises. The coming days, shrouded in their anonymity, may wear the scornful masks of the master of slaves or the open faces of free men. The will to choose lies with the mind and eye of the beholder. Then shall we learn that nature is ever reflected in the spirit of ourselves where life, blood-warm, may nourish itself on peace and wisdom.

# Leaders from teaching tradition affect national education scene

Researched and compiled by William H. Dreier, UNI professor of education, and Lewis Tamblin, executive secretary of the Rural/Regional Education Association, Silver Springs, MD.

Editor's Note: Most of the University of Northern Iowa's history is rooted in its tradition as a teacher education institution. It grew from Iowa State Normal School (I.S.N.S.) to the well-known Iowa State Teachers College (I.S.T.C.) to State College of Iowa (SCI) and attained university status in 1967. But for 85 of those 100 years, training teachers was the main work of the institution.

Hence, at the close of its Centennial celebration, *The Alumnus* acknowledges the institution's principal function over the years and recognizes its national leaders in the field.

The school on the hill overlooking Cedar Falls in 1876 produced not only well-trained teachers, but a number of leaders who affected the national scope of education.

Much of the national work from leaders at this institution was in conjunction with the National Education Association (NEA).

The success of any voluntary, professional association in education, such as NEA, depends primarily upon the quality and commitment of its members. Since UNI's founding, many faculty members have been active in such a group. A few of the early active NEA members from I.S.N.S. and their membership dates were: Homer H. Seerley, 1889, President of I.S.N.S.; Miss Etta Suplee, 1895, supervisor of primary schools; C.A. Fullerton, 1903, professor of music; and Charles H. Bailey, 1904, director of manual training.

In addition, the first I.S.N.S. president, James C. Gilchrist, was president of the NEA Section of Normal Schools from 1879-80. Seerley also served in this same capacity from 1897-98. Fullerton

presided over the NEA Department of Music Education from 1911-12. That department has since become the Music Educators National Conference.

Homer Seerley contributed especially on a national level when he was president of the National Council of Education from 1920-23. NEA established the National Council in 1880 because of a need for a controlled body to handle research and related problems. The fortunes, activities and results of this council varied over the years and depended directly on the dynamics of its officers, particularly

Photo courtesy of UNI Archives

*Fred Cram, who served national education as Iowa NEA director and as an NEA board member.*

the president, and its members who could act as well as think.

Although the original council membership was limited to 51, the size did vary. During Seerley's council presidency - and under his suggestion at other times - members were added. By 1947, when the organization was voted out of existence, there were 180 members. Former UNI archivist Irving H. Hart observed in his book "Milestones",

Photo courtesy of UNI Archives

*Young President Homer Seerley in 1890 when he was just beginning his involvement with Iowa State Normal School and national education.*

"In some respects, perhaps, Iowa has made more of a contribution to education on a national basis through membership and leadership in the Council than through its work in the parent body."

Fred Cram, I.S.T.C. extension teacher of language arts, also strongly influenced national education when he held the top Iowa post in the NEA from 1933-42. As Iowa director of the NEA, he represented the state on a national level and was consequently a member of the NEA board of directors.

At the 1936 convention in Portland, Cram served on the Committee Amending the Charter and took an active part in the meetings of the Board of Directors and of the Representative Assembly. He was influential in preserving for the Board of Trustees the right to choose the executive secretary of the NEA.

In his 1937 director's report, Cram dealt largely with the rise of the

classroom teachers to a position of prominence in directing NEA's future. He noted that "the classroom teacher will in the future hold the reins in professional progress... if she meets the challenge of opportunity as she apparently has the ability to do."

As a teacher and the main Iowa representative, Cram was honored with his election to the new NEA Executive Committee. During his term on this committee he took the initiative in setting up the NEA Department of Industrial Arts and in reviving the NEA department of Higher Education.

Other national education organizations also gained leadership from I.S.T.C., SCI and UNI. Seerley was president of American Association of Teachers Colleges from 1918-19 and J.W. Maucker, UNI president from 1950-70, served many organizations. He was president of Association of Teacher Education Institutions from 1955-56; president of American Association of Colleges for Teacher Education, 1962-63; and chairman of the National Council for the Accreditation of Teacher Education, 1965-67.

A complete listing of all faculty members during the 100 years who served as presidents of national education groups would require a great deal of research. But, there have been many and their interest may have been stimulated by the examples of the institution's presidents.

Seerley, when he was president, was a sincere believer in the value of a professional organization. In 1919 he wrote:

"The Iowa State Teachers' Association is the one real agency for progress and development in the schools of Iowa. All teachers seeking personal efficiency and professional success as well as a better income and official competency and recognition will take a long step in that direction when they identify themselves with this great Iowa institution, contribute to its spirit by cooperation and become acquainted with its helpfulness and power. The teachers that are destined to become distinguished by advancing in the

profession will acquire such a condition of success by being active members in this organized effort for general social betterment and notable educational progress. Were I selecting wide-awake teachers for a staff that I could trust to be able to be relied upon as fully capable, my first inquiry would be regarding their attitude and their affiliation with such voluntary active teachers' organizations as the Iowa State Teachers Association. As one that has attended forty-six annual sessions of this organization of teachers, I can testify with confidence of the great value its work and its service have had upon my own professional ambition and efforts."

---

Information for this article was compiled initially for the UNI Conference on the Local School District. Researchers included Alice Morton, NEA archivist who looked over the files kept in Washington, D.C., and Gerald Peterson, special collections librarian for the University of Northern Iowa.

*The essence of state or national education as depicted by instruction in an 1893 Latin class. Professor for the first year class was Albert Loughridge. The many men in military uniform indicate that this was probably a drill day.*

# We hear from alumni . . .

The following graduates of the University of Northern Iowa were awarded the M.A. degree in August, 1976, from the University of Northeast Missouri: RAYMOND DEAN CERVETTI, B.A. '73, MICHAEL GEORGE BAILEY, B.A. '71, JACK NOREL BLAKE, B.A. '67, SANDRA KAE BRIDGEWATER, B.A. '75, ROBERT E. BUSCH, B.A. '72, JAMES K. GARVEY, B.A. '70, JANICE ADELE LEWIS, B.A. '70, DENNIS WAYNE NORING, B.A. '74, ROGER SCOTT OSBORN, '70, JOHN ARTHUR ROEDERER, B.A. '71, BERNARD WYNN ROWLAND, B.A. '68.

The following UNI grads were awarded the M.S. degree from Iowa State University on May 29, 1976: JANE ANDREWS PITZ, B.A. '62, STEVEN ALAN RUE, B.A. '72, DELBERT AUSTIN SHEPARD, B.A. '74, and RONALD GENE STOOKEY, B.A. '70.

The following UNI grads have been awarded the M.S. degree from Iowa State University on Aug. 19, 1976: DENNIS KEITH ALBERTSON, B.A. '72, MARK ARNOLD BLOCK, B.A. '74, EUGENE FRANCIS ECKHOLT, B.A. '74, CAROL SUE GLASS, B.A. '63, GARY JON HOPPE, B.A. '73, BRUCE GENE WADDINGHAM, B.A. '68.

The following UNI grads have been awarded the Ph.D. degree from Iowa State University on Aug. 19, 1976: MARY KOEN ALDRIDGE, Ed.S. '71, ROGER DITZENBERGER, B.A. '63, M.A. '64, BJORN OLESEN, B.A. '71.

## '06

Mrs. WINIFRED BARKER STORY, B.D. '06, from then Iowa State Normal School, returned to Cedar Falls in June, 1976, to see her grandson, GEORGE E. STORY, B.A. '76, and his wife, MARALENE HUEBSCH STORY, B.A. '76, graduate. Her present address is 3235 Nebraska St., Sioux City.

## '23

Mrs. DOROTHY CORNING TAYLOR, B.A. '23, of 4900 Telegraph Road, Apt. 220, Ventura, CA, is now living in a retirement home. In the past, she was supervisor of music at Mapleton and New Hampton in Iowa. She also designed and built a private nursery school in San Diego, CA, and was on the administrative staff at Santa Monica City Schools, and St. James' Episcopal School of Newport Beach in California. She has not been able to work since 1961 due to a serious heart condition and surgery.

## '26

WALDO W. TEETER, B.A. '26, of 5404 Montgomery NE, Albuquerque, NM, #209, returned to visit the Alumni Office and UNI-Dome on Oct. 4th. After graduation from UNI, Teeter was a coach at Sundance, WY, and a court reporter. For the past 25 years he has been a general agent for the Lincoln National Life Insurance Co. of Albuquerque, NM.

## '30

Mrs. MALVINA McLAUGHLIN PETERSON, Rur. '30, R.F.D. 4, Fort Dodge accompanied her granddaughter to UNI when she registered for her junior year and attended summer orientation. Mrs. Peterson recently retired after teaching the last 10 years at Prairie Community school. She has 11 children, 34 grandchildren and four great-grandchildren, so anticipates a busy retirement.

## '31 & '36

A kerosene lamp, which was a fixture on the desk of Homer H. Seerley when he was president of Iowa State Teachers College, was recently given to the UNI Museum by CLARENCE AND CAROL BRUCH LETSON,

B.A. '31 and '36 respectively, of 8841 Union Circle, Cedar Falls. Carol and Clarence have treasured the lamp for many years but feel that the appropriate place for it now is back with the University.

## '32

HELEN MILLER DOERRING, 2 yr. Elem. '32, of Box 67, Luana, has retired from full-time teaching after 19 years at the Monona, Farmersburg, Luana schools.

ERIC R. SHELDAHL, B.A. '32, retired in August, 1976, from his work at Trinity Regional Hospital where he was employed for 16 years. Sheldahl farmed in Story and Webster Counties until 1960 when he began his work at the hospital. Mr. and Mrs. Sheldahl live at 825 South 16th St., Fort Dodge. They plan to travel when Mrs. Sheldahl retires from her teaching duties at Otho School at the end of the 1976-77 school year.

## '35

DONALD H. NUTTING, B.A. '35, has retired after 41 years of teaching with 31 years in the Cedar Falls School system. He recently received an award from the Iowa Vocational Association for outstanding achievement in vocational teaching. Mr. and Mrs. Nutting live at 1616 West 3rd St. They plan to do some traveling in the near future.

## '39

HELEN KROEGER LANNING, B.A. '39, retired in June after teaching 23 years, the past seven at Marshalltown as elementary music teacher. She remarried in December, 1975, after being widowed since 1960 and plans to travel some and just relax and enjoy retirement. Her home address will be 205 Thomas Drive, Marshalltown.

## '40

Mrs. VIRGINIA HOWE BECKER, B.A. '40, is currently serving as Bremer County Farm Bureau women's chairman. She and her husband, Robert, have traveled recently to Hawaii, the Caribbean, Mexico and Southern Germany. They live at R.F.D., Nashua.

## '42

Mrs. IRENE PLOTNER HAUSER, 2 yr. '42, with her husband and daughter, has moved to 506 Marstella Drive, Brownsburg, IN, where he has accepted a position as vice president of sales of Universal Tank and Iron Works.

Miss EDNA MAY FLEMING, B.A. '42, of 830 Kimball, Waterloo, retired in July, 1976, after 45 years of teaching in five different community areas. Five years in Tama County, Benton County for five years, one year as an I.S.T.C. junior supervisor, one year in Burlington, and 33 years in Waterloo. Three of those years were at Grant, 21 at Emerson and the last nine at Hoover Jr. High.

## '43

DR. WILLIAM E. BAKEWELL, Jr., B.A. '43, has been appointed associate dean of the School of Medicine of the University of North Carolina at Chapel Hill. His responsibilities include chairing the educational policy committee and the admissions committee. He has been a member of the faculty there since 1965. He is a fellow of the American Psychiatric Association and a diplomat of the American Board of Psychiatry and Neurology. Dr. Bakewell and his wife, VIRGINIA MACY BAKEWELL, B.A. '44, live on North Lake Shore Drive, Chapel Hill, NC.

## '46

Mrs. ROBIN ROBERTS WILLIAMS, K.P. '46, known as Estlyn Roberts in 1938 because of an error on her birth certificate, was awarded the Leona Tyler Award from the Oregon Personnel and Guidance Association, in recognition of her work in initiating and developing counseling programs in the Eugene elementary schools and in furthering counseling programs at the state and national level. Mrs. Williams was a teacher of the physically handicapped for nine years and has been working in elementary counseling for the past 10 years. She received her B.S. and M.A. degrees in elementary school counseling from the University of Oregon. Because of the onset of multiple sclerosis she is no longer able to continue her counseling work. Mr. and Mrs. Williams live at 32043 Fox Hollow Road, Eugene, OR. The Williams returned to Cedar Falls in July for a visit, their first trip back since the early 60's.

CHARLES J. HUELSBECK, B.A. '46, of 709A May Flower Apts., 1110 N. Dubuque, Iowa City, was appointed librarian of the Iowa Geological Survey in September, 1975. In addition to his regular research duties for the State Comprehensive Water Plan, he is editor of the semi-annual *Newsletter of the Geological Survey*.

## '47

CHESTER T. WILLIAMS, B.A. '47, is involved in the designing and teaching of classes in the area of environmental science, forestry, oceanography, problems of environment and communications sciences. He has retired from the Army Medical Service Reserve duty as Bn. Commander in 1971.

## '48

Dr. ALLAN F. GATES, B.A. '48, M.A. '65, received his doctor of arts degree in English from Drake University. He was the first person to receive such a degree from Drake, which has had a doctor of arts program since 1972. Dr. Gates has been on the faculty at Marshalltown Community College since 1964. He has also taught at Howe Military School, Howe, IN, and high schools in Caracas, Venezuela and Ames for a total of 25 years. He and his wife (DORIS BERNGES GATES, B.A. '67, M.A. '72) live at 7 South 8th St., Marshalltown.

Dr. Allan Gates

## '49

WILLIAM LEE WAACK, B.A. '49, was named recipient of the Walter Peck Memorial Award for outstanding service to the secondary school theatre. The award, sponsored by the Secondary School Theatre Association, was presented during the American Theatre Association Convention in Los Angeles, CA. Waack is instructional supervisor for the Performing Arts in the North Hills School District, Pittsburgh, PA, and lives at 113 Morelli Drive, Pittsburgh, PA.

MERRIT D. PARSONS, B.A. '49, has been selected as superintendent of schools of Pleasant Valley. He has served as assistant superintendent of Bettendorf schools since 1966 and was on the staff there as a teacher and football coach since 1955. Mr. and Mrs. Parsons live at 2707 Olympia Street, Bettendorf.

## '51

BERNARD JOSEPH BROMMEL, B.A. '51, of 421 W. Melrose St., Chicago, IL, chairman of the Faculty

Committee on Organized Research at Northeastern Illinois University, was granted a trimester leave to accept a Kellogg Foundation Fellowship Grant to study change in higher education. The grant involved travel during the past spring to various universities to study innovative degree programs.

### '54 & '58

DR. DAVID C. SMITH, B.A. '54, M.A. '58, was appointed dean of the University of Montana School of Education at Missoula, MT. He has previously served in the Colleges of Education at the University of Arkansas, Northern Illinois University and Michigan State University. He also was a principal and a teacher in several elementary schools in the Midwest.

### '55 & '58

Dr. JEAN BYRON MCGREW, B.A. '55, M.A. '58, accepted a new position as superintendent of schools of East Grand Rapids, MI. Dr. and Mrs. McGrew will be living at 1648 Fisk St. SE, Grand Rapids.

### '55 & '62

RAY E. GEORGE, B.A. '55, M.A. '62, professor in the art department of Illinois State University, was granted a sabbatical leave to begin research work in lithography at Stone Roller Press in Chicago and Tamarind Institute for Lithography in Albuquerque, NM. His Illinois address is 1907 Garling Drive, Bloomington.

### '56

Dr. LELAND ARNOLD THOMSON, B.A. '56, the University of Northern Iowa's first and only director of planning has resigned that position and returned to teaching. Dr. Thomson, who established the office of planning in 1968, is an associate professor of school administration in the Dept. of School Administration and Personnel Services. The planning office has been responsible for developing an overall campus plan and in generating funds and working with the Board of Regents, the legislature and the architects. The projects include the Education Center complex, the Biology Research complex, the library addition, the Industrial Technology Center, the UNI-Dome, and most recently the speech-art complex now under construction. Dr. and Mrs. Thomson (VIRGINIA JORDON THOMSON, B.A. '58) live at 3509 Boulder Drive, Cedar Falls.

### '57

NORMAN SEEMAN, B.A. '57, of Hwy 281 E., R.F.D. 5, Waterloo, was recently named to membership on the advisory board of Northwestern College. Seemann will continue as local general counsel.

### '58

HENRY KALANI AKANA, B.A. '58, has received his doctoral degree in behavioral sciences from the Institute of Higher Education, Nova University, Fort Lauderdale, FL, on May 28, 1976, as a member of the "National Ed. D. Program for Community College Faculty". Dr. Akana has taught for seven years in Fairmont, MN, and is currently on the counseling staff of Sierra College, 5000 Rocklin Road, Rocklin, CA. Dr. and Mrs. Akana and their five children reside at 8083 Willow Glen Court, Citrus Heights, CA, and wish to invite all of their friends to visit them whenever they are in the "Golden State".

WARREN HENRY MELLES, B.A. '58, of 6705 NW 8th Court, Des Moines, has been named regional sales manager for Ralston Purina Co. He previously was divisional sales manager for the Iowa Falls Division for the past three years.

RICHARD GORDON KAPFER, B.A. '58, was installed as pastor of Memorial Lutheran Church and Student Center in Ames, on July 25th. Rev. Kapfer received his training at Concordia Seminary in Springfield, IL, in 1963 and has served at Hanover, NH, and Ypsilanti, MI. He is the author of a book "Your First in College". Mrs. Kapfer is the former LOIS RUTH LETTOW, 2 yr. Elem. '57.

CHARLES K. LINGREN, B.A. '58, received his Ph.D. degree in education from the University of Iowa and has accepted a position on the education faculty of South Dakota State University. He, his wife Maxine, and their children, Michael 13, Eric 9, and Beth 8, reside at 1614 Derald Drive, Brookings, SD.

### '58 & '60

JAMES ALLEN JORGENSEN, B.A. '58, and his wife E. SUSAN BROCKA JORGENSEN, B.A. '60, M.A. '73, and their three children, Judy, 17, David, 13, and Wendy, 11, set sail in August from Lake Michigan for an 11-month adventure on their 41-foot yacht. They plan to sail through the Straits of Mackinac, Lake Huron, Lake Erie and Lake Ontario, into the Erie Canal, down the Hudson River and along the Atlantic Coast to Florida and the Caribbean Islands. The Jorgensen's home address is 1205 W. 18th Street, Cedar Falls.

### '59

LAVONNE ELIZABETH MATERN, B.A. '59, of 1003 E. Wilham Dr. Stillwater, OK, is currently on the faculty of Oklahoma State University, teaching and doing research in the clothing, textiles and merchandising department of the Division of Home Economics. She received her M.A. degree from Northern Ariz. Univ., Flagstaff in 1967, and her Ph.D. degree in textiles and clothing from Texas Woman's Univ., Denton, TX, in August, 1976.

RICHARD MERLE HENAK, B.A. '59, was promoted from associate to full professor of industrial education and technology, at Ball State University, Muncie, IN. Dr. Henak taught at Stout State University and the University of Illinois before joining the Ball State faculty in 1969. He is a member of Phi Delta Kappa, American Industrial Arts Association, Indiana Industrial Education Association and Anthony Community Association. Dr. and Mrs. Henak live at 1807 Winston Drive, Muncie, IN.

RICHARD J. WARE, B.A. '59, 1417 Kenman, LaGrange Park, IL visited the Alumni office this August. Ware is teacher-coach at Riverside-Brookfield school system.

### '60

GARY MERLIN CLARK, B.A. '60, received his Ph.D. from Walden University, Naples, FL, in June, 1976. He is the vocational electronics instructor at Wassom High School, Colorado Springs, District 11. He has been teaching in the Wasson Industrial Education Dept. since February, 1960. He and his wife (FRIEDA SCHLAMAM CLARK, B.A. '57) live at 1721 Bula Dr., Colorado Springs, CO. She is also employed by Colorado Springs District 11.

KENNETH W. STUEBER, B.A. '60, was recently named personnel superintendent of May Plant, Camden, SC. He began his Du Pont career in 1963 and has had assignments in Kinston, NC, Wilmington and Seaford, DE, before coming to May Plant in 1975. His present address is 505 Saddle Drive, Camden, SC.

Dr. CAROLINE CZARNECKI, M.A. '60, of 2159 S. Rosewood Lane, St. Paul, MN, was promoted to professor on July 1, 1976. Since receiving her Ph.D. degree in anatomy in 1967, Dr. Czarnecki has been on the staff of the College of Veterinary Medicine at the University of Minnesota where she teaches embryology and histology. In addition to her teaching duties, she has been involved in an active research program on the round heart syndrome in turkeys; served on numerous committees at the departmental, collegiate, and university committee on Embryologic Nomenclature at Santa Ynez, CA, and served as director of Graduate Studies in Veterinary Anatomy for the past three years. A major contribution has been the institution of an auto-tutorial program that served as the basis for the design of the new microanatomy laboratory in the recently completed Veterinary Medicine-Animal Science Building. In recognition of her achievements in research, Dr. Czarnecki has been granted a quarter's leave of absence during the 1976-77 academic year to pursue research in induced cardiomyopathy at the ultrastructural level.

### '61

Dr. DAVID (Berl) LAMB, B.A. '61, was elected vice president of the American College of Sports Medicine, an association of 4000 physicians, physiologists and physical educators. Dr. Lamb was also recently elected to full membership in the American Physiological Society. He is professor and chairman of the Dept. of P.E. at the University of Toledo, Toledo, OH. Dr. Lamb is married to COZETTE LAU, B.A. '62, and they reside at 2846 Isha Lays Way, Toledo, with their children Michelle and Jason.

### '64

Mrs. CATHARINE C. AYERS, B.A. '64, of 2717 Miller, Des Moines, has joined The Banker's Life Insurance Co. in Des Moines as an assistant supervisor in the company's group insurance and pension area. After graduation from UNI, Mrs. Ayers taught at Cedar Falls High School. She also was a department manager in Provident National Assurance Co. in Des Moines for four years.

### '65

CARROLL DENNIS LANG, B.A. '65, R.F.D. Northwood, has been installed as pastor of Silver Lake Lutheran Church, rural Northwood. He also serves Bristol Lutheran Church, rural Lake Mills. Mrs. Lang is the former JUDITH LARSON, B.A. '65. They have two daughters, Nicole, 5, and Inga, 3½.

KIM K. KREINBRING, B.A. '65, has joined Farmland Mutual Insurance Co. of Tipton. After graduation from UNI, Kim taught at La Porte City for one year and then moved to Tipton where he has been a teacher for the past 10 years. Mr. and Mrs. Kreinbring (SANDRA KAY JOHNSON, B.A. '66) and their two sons live at R.F.D. 1, Tipton. She is a legal secretary for a law firm in Tipton.

WILLIAM HAROLD BERGAN, B.A. '65, M.A. '69, M.A. '73, has been named head coach at Iowa State University, Ames. While at UNI, Bergan captained both the track and cross country squads. After graduation he coached for six years at Waterloo Columbus High and has been head cross country and assistant track coach at Iowa State for the past four years. Bergan, his wife Karen, and four children live at 237 Todd Circle, Ames.

### '66

RICHARD A. BLOTT, B.A. '66, has been named vice president of sales and marketing for Ore-Ida Foods, Inc. of Owyhee Plaza, Boise, ID. After graduation from UNI Blott received a M.A. degree in Business Administration from Michigan State University and has been serving as vice president of marketing and development for a foodservice company, Dobbs House, Inc. Memphis, TN.

Richard A. Blott

LEROY LEIDAL, B.A. '66, was awarded the Martin J. & Cora C. Nelson Scholarship as an outstanding graduate student specializing in school administration at UNI. Leidal has completed five years of teaching and counseling and three years working in private business. He is now principal of Clarence-Lowden High School.

RONALD K. NOAH, B.A. '66, former Des Moines assistant city attorney, opened a law office at the Dental Center building, 703 North Main, in Charles City. In 1969, Noah graduated with distinction from the University of Iowa School of Law. He practiced law in Charles City from 1969-1971, then served as a Peace Corps volunteer in Southeast Asia. Noah and his family live at 401 Kelly in Charles City.

### '66 & '72

RONALD JAMES MELICK, B.A. '72, has been promoted chief accountant, University of Wisconsin-Stout. Melick and his wife (MARGARET HOPPE MELICK, B.A. '66) reside at R.F.D. 1, Knapp, WI, with their daughter Lisa.

### '67

KAREN DRUMMER ELDER, B.A. '67, of 311 N. 9th St., Marshalltown, was awarded the M.A. degree in English from Iowa State University on May 29.

### '69

DELMAR LEE MEESTER, B.A. '69, graduated from Dubuque Theological Seminar in 1972 and is associate pastor at Third Presbyterian Church of Springfield, IL. He and his wife Linda live at 717 North 4th, Springfield, IL.

DAVID R. KIENZLE, B.A. '69, is home director of the new Marshall County Youth Home, currently under construction in Marshalltown at 1907 Summit Street.

# Education dean acts as catalyst

Many people say she functions as a catalyst and that is how Dr. Sylvia Boltz Tucker sees her role as dean of the School of Education at Oregon State University.

Since her appointment in September, 1975, Dean Tucker has aimed to create an environment where people can learn and grow, become independent and need as little administration as possible.

Dean Tucker, a 1942 business education teaching graduate of then Iowa State Teachers College, said, "the excellent learning environment I had in my four years there had a great deal to do with my experiences and appointments." She remembers her education as being demanding and forward-looking with programs designed to give her both breadth and depth. She also emphasized that the professors were caring persons.

From these educators, Dean Tucker got some of her ideas, and strong ones they are. Her first semester as dean she set out to identify the needs of students, faculty and the local community and to find out how she could best do her job.

Sylvia Boltz Tucker

This meant she didn't teach that semester but she planned to regain contact with students the following semester.

Before moving to Oregon State in Corvallis, Dean Tucker was assistant dean of the College of Education and Home Economics at the University of Cincinnati. When she left that position, an award was created in her name to honor individuals who best exemplify what

the College of Education stands for. The first recipient of the award was none other than its namesake.

In her educational functions, one of the main ones for Dean Tucker is to serve as a model and more importantly, she feels to serve as a female model. Because of her deanship, she's had many inquiries about how she got to be dean and about opportunities to do interships with her.

Prior to her three years at the University of Cincinnati, Dean Tucker was an associate professor of education at United States International University, San Diego; director of Project Upward Bound from 1967-69 at the University of California, Riverside; dean of women, associate dean of students at Riverside from 1964-67; plus she held a variety of counseling and teaching positions in California and Oregon.

Although Dean Tucker continues to work very hard she confides, "My life has been, is and will be beautiful. I intend to live and work as if each day will make a difference to hundreds of kids - because you know it does!"

Kienzle stresses that the home will not be a lockup facility but a place for delinquent youths to find themselves again and straighten out their young lives. Kienzle has an M.A. degree in social work from the University of Tennessee and has several years experience with VISTA and in youth ranch work. His present address is R.F.D. 1, Toledo.

## Distinguished order title conferred upon graduate

Membership into the most distinguished order of the British Empire was conferred upon Miss Jean Herbison, M.A. '62. Miss Herbison was made a Companion of the Order of St. Michael and St. George in recognition of her valuable work in education.

The Order of St. Michael and St. George is usually given to prominent public figures upon their retirement. However, Miss Herbison is doubly honored to receive the award now. She received congratulations from some 300 people, including Great Britain's prime minister.

Miss Herbison, who is deputy director of the Christchurch, New Zealand, Technical Institute, earned a masters degree in guidance and counseling on a Fulbright Scholarship to UNI, then State College of Iowa. She chose UNI upon the recommendation of Miss Ernestine Smith, emeritus professor of geography.

In 1968 Miss Herbison became the first woman vice-principal of a New Zealand Teachers' College when she took the position in the primary division of the Christchurch Teachers' College. When the principal took a year's leave, Miss Herbison became the first woman acting principal in 1971. In 1973 it was her turn for a leave and she spent the year as an Imperial Relations Trust

Jean Herbison

fellow at the London Institute of Education. In 1974 she was named to her current position. Recently, she was also named to the Queen's Birthday list, another occasion when people of achievement are recognized.

Miss Herbison, a graduate of the University of Canterbury, is a member of that university's council. She is also on the Rangī Ruru School board of governors who govern all New Zealand schools. She is on the board of governors for the Christchurch Technical Institute Council and a member of the Advisory Council for Educational Planning.

## Long-time theatre director dies

Stanley G. Wood, professor of theatre and a 30-year veteran of Theatre UNI at the University of Northern Iowa where he served as director of the theatre program for 25 years, died Sept. 15, 1976, of an apparent heart attack. He was 67 years old.

During his more than 30 years at UNI, Wood initiated a number of courses and projects. He directed, designed or supervised student direction and design of more than 125 major productions and, in his own words, "too-many-to-count smaller student experimental productions."

Wood stepped down as director of theatre in 1972, after 25 years in that position, in order to devote more time to teaching and to study changing conditions in the teaching of drama.

Wood was also personally involved in planning the Strayer-Wood Theatre, a part of the speech-art complex currently under construction on campus and scheduled to open next fall. The theatre is named for Wood and for the late Hazel Strayer, Wood's predecessor as long-time director of theatre. Wood spent a semester in 1971 on professional leave visiting some 36 colleges and universities from coast to coast studying theatre design and meeting staff and students to learn of new theatre construction.

"The contributions of Stan Wood to the University and to the community at large are immeasurable," said Dr. D. Terry Williams, UNI's current director of theatre. Besides having his own acting career through the years, Wood served on numerous University committees, including the UNI Artists Series Committee. He was active in numerous professional organizations and was a charter member of the Iowa Arts Council and served for three years.

Wood was active in the community and had directed two plays in the last three years for the Black Hawk County Children's Theatre, "Captain

Billy" and "The Invisible Dragon."

At this year's spring commencement, the UNI Alumni Association recognized Wood's contributions with the awarding of an Alumni Achievement Award and, as part of the Centennial Commencement activities, Wood read a centennial poem by James Hearst, "Evergreen Transformations."

He graduated from Cedar Falls High School in 1927 and received a B.A. degree in speech from the then Iowa State Teachers College in 1931. In 1931-32 he studied drama at Yale University and returned to I.S.T.C. in the fall quarter of 1932 and again the next year to teach stagecraft.

He then taught high school speech and served in the U.S. Army. In 1946, he continued his graduate studies at Western Reserve University in Cleveland, where he received an M.A. degree. He did further graduate study at Columbia University in New York and at the University of California-Los Angeles in theatre and cinema arts.

Prior to joining the UNI faculty in 1946, Wood also taught various summers at several universities and theatres.

Wood is survived by his wife, Evelyn, two sons and one sister. The family requests that memorials be sent to the Strayer-Wood Theatre Fund of the UNI Foundation.

## Eldon E. Cole

Eldon E. Cole, former director of the UNI physical plant, died July, 1976. Mr. Cole joined the UNI staff in 1930. He served as superintendent of Buildings and Grounds from 1931-54 and was director of the physical plant from 1954 until his retirement in 1962.

Born April 19, 1894, in Grundy Center, Iowa, Mr. Cole received a bachelor of science degree in architectural engineering from Iowa State University in 1921.

Mr. Cole is survived by his wife and three daughters.

# Scandinavian Adventure

June 14-28, 1977

\$1,049

Blossom time in Norway's Hardanger fjord.

Touring with the University of Northern Iowa Alumni Association, you'll start an adventure in Oslo where you meet the tour director. From there, you motor into the land of fjords, lakes, mountains, forests and fairytale villages between visits to the great capitals of Stockholm and Copenhagen. Events are planned for each day including a cruise on the Sognefjord and dinner in the celebrated Tivoli Gardens. There will also be time to try the famous Smorgasbord and shop for Swiss watches, ski sweaters, enameled jewelry, handmade pipes, silver and figurines. The price includes hotel, breakfasts and most dinners.

PlayaChac-Mool, one of nine Cancun public recreation areas. The beach is named after this replica of the legendary Mayan rain god, Chac-Mool. Cancun averages more than 240 clear, sunny days a year.

# CANCUN

Island in the Mexican Caribbean

Feb. 20-27, 1977

\$599

Motorcoach tour roundtrip from Des Moines

Beat the winter blahs and join the UNI Alumni Association at the brand new multi-million dollar resort area in Mexico's Yucatan Peninsula for eight days and seven nights accommodations at the beach front Cancun Caribe Hotel. There'll be you, the white powdery sand beach stretching the length of this island and the sea offering a wealth of activities. When you're not swimming, sailing, skin-diving, or deep-sea fishing you can bicycle, golf, play tennis or shop for native goods. The evening sets the island afire with music and entertainment in an atmosphere close to the ruins of Mayan temples and castles.

To reserve a space on one or both of these fabulous tours, send your deposit of \$100 per person to:  
UNI Alumni Office, University of Northern Iowa, Cedar Falls, Iowa 50613

Make all checks payable to the UNI Alumni Association.
