Honorary Degree

Mary Louise Petersen

Doctor of Humane Letters

Mary Louise Petersen is a native Iowan who, like her ancestors for four generations, has made notable contributions to our State. Indeed, as was true also of her maternal grandfather, her contributions have been of national significance. One of her great grandfathers was a Methodist minister and circuit rider. A grandfather, Jonathon Dolliver, was a lawyer who served as a member of the U.S. House of Representatives from 1889 to 1900 and of the U.S. Senate from 1900 until his death in 1910. In his book, "A History of Iowa," Dr. Leland Sage refers to Senator Dolliver as one of the greatest orators in American history. Mrs. Petersen's parents are Dr. and Mrs. Walter Anneberg, formerly of Carroll, where Dr. Anneberg practiced medicine for 50 years.

True to the promise of her unusual professional heritage in the ministry, law and medicine, Mary Louise Petersen's outstanding scholarship, leadership and service have been evident from an early age. Following her graduation from Carroll High School, she enrolled at the University of Iowa from which she was graduated Summa Cum Laude in 1951. While a student at Iowa, she was elected to the presidency of the Association of University Women and of her College of Liberal Arts graduating class as well as to membership in Phi Beta Kappa and Mortar Board.

Mary Louise and her husband, H. Rand Petersen, a Harlan banker, are the parents of three daughters and one son who are now young adults. While the children were still quite young, their mother became deeply involved in scouting activities. Evidence of her sustained interest in scouting is confirmed by her presidency since 1981 of southwest Iowa's Nishnabotnah Girl Scout Council. As a representative of Iowa's tax-supported universities, Mary Louise had been a member of the Iowa Coordinating Council for Post-High School Education and was that Council's president in 1980-81. She was a member of the Board of Directors of the National Association of Governing Boards for Colleges and Universities for a number of years and was president of that organization in 1978-79. The Association of Governing Boards of Colleges and Universities is a major influence in American higher education as it represents both public and private institutions; Mrs. Petersen continues to serve and to represent that organization in a variety of assignments with the American Council on Education and other professional and governmental bodies. Since 1976, she has been a member of the Board of Trustees of the Carnegie Corporation of New York. She became a member of the Professional Ethics and Conduct Committee of the Iowa Bar Association in 1982 and a member of the Board of Directors of the Educational Testing Service of Princeton, New Jersey in 1983.

The preceding recital of Mary Louise Petersen's memberships, services and recognitions is exhausting but not exhaustive. However, the primary reason for which this University wishes to recognize her with an honorary doctorate has yet to be mentioned: she was appointed by Governor Ray in 1969 and again in 1975 to consecutive six-year terms as a member of the State Board of Regents. She was unanimously elected by her peers to the presidency of the Board during the last eight of her 12 years as a Regent. Those who had an opportunity to observe and evaluate her service during those years appreciate that she devoted virtually all of her time to the responsibilities of the Board during her 8 years as its president.

The development of this institution into a university with a broader variety of degree programs and additional advanced degree opportunities, including doctorates in industrial technology and education, reflects Mrs. Petersen's vision, encouragement and support for the University of Northern Iowa. Throughout her years as a Regent, no Board member sought more articulately and consistently than she to keep tuition costs as low as possible in order to maintain accessibility to the state universities by students from families of limited means. Thus, the University, its students and their families are deeply indebted to her for that continuing emphasis. Finally, this University, as an institution which historically has attracted more women than men to its student body, is especially pleased to recognize the leadership and service of Mary Louise Petersen because she is the first and only woman to have served as President of the State Board of Regents since its establishment almost 75 years ago. The University of Northern Iowa salutes Mrs. Petersen for her tireless and talented volunteer services to the youth of our State and Nation.

Upon the recommendation of the Honorary Degrees Committee and the President of the University and with the unanimous consent of the State Board of Regents, it is a privilege to present Mary Louise Petersen for the degree of Doctor of Humane Letters, *honoris causa*.

Honorary Degree

Leland L. Sage

Doctor of Humane Letters

Leland L. Sage, teacher, scholar, and humanist, enjoys the distinction among Northern Iowa alumni and colleagues of displaying that exceptional talent of intellect, charm, and persuasiveness to elicit the utmost respect and genuine admiration. "He stimulated my thinking," is the typical reaction of his graduates today among whom are many history professors, teachers, business executives, and attorneys.

Born in Magnolia, Arkansas, Dr. Sage received the B.A. degree from Vanderbilt University. He later earned both the M.A. and Ph.D. degrees in history at the University of Illinois-Urbana.

Professor Sage and family arrived on the Northern Iowa campus in September, 1932, at the height of the Great Depression. He taught European and Iowa history courses during the ensuing years until his official retirement in 1967. In addition to his teaching, he became a writer of history and shared with his grateful students an insatiable penchant for pursuing the understanding of history. He possesses a genuine enthusiasm for widespread interests ranging from the humanities, art and music, to varied athletic programs. Himself an accomplished musician, Dr. Sage for several years directed the UNI Artists and Speakers series.

His scholarly reputation spread nationally with the publication, in 1956, of his biography, *William Boyd Allison: A Study in Practical Politics*. The reviews consistently praised his book as candid, thorough, unprejudiced, and useful for a better understanding of United States history following the Civil War. The volume won an Award of Merit from the American Association for State and Local History

He has continued at even a faster pace his scholarly production after retirement. In 1973, the State Historical Society of Iowa gave him an Award of Merit for his article, "European Contact with Iowa: Jolliet and Marquette." In 1974, the Iowa State University Press published his book, *A History of Iowa*, the first scholarly assessment of the state's past. Again, a most favorable reception ensued, and he now is revising the work for a second edition. Once more the AASLH commended his book. He also wrote a history of a local savings and loan association and is now in the midst of other projects.

His professional and public service provide a model of what might be expected: reading papers at and faithfully attending state, regional, and national history meetings. On all levels he is known, respected, and sought after for advice. Locally, he has long assisted his church in numerous activities, advised the Cedar Falls Historical Society, and served recently as president of the Cedar Falls Rotary Club. On the state level he was in recent years a member of the State Historical Board and its president for a portion of that term.

We at UNI cherish the long association with Leland Sage for his bestowing of knowledge and serving as a model teacher-scholar.

Upon the recommendation of the University Honorary Degree Committee, and the President of the University and with the unanimous consent of the State Board of Regents, it is a privilege to present Leland L. Sage for the degree of Doctor of Humane Letters, *honoris causa*.

Omicron Delta Kappa

Graduates wearing gold tassels are members of Omicron Delta Kappa, a junior-senior honorary organization which recognizes students who have demonstrated high levels of academic achievement, leadership in campus affairs, and community service.

The audience is strongly urged to refrain from cheering or applauding graduates as they are individually named. Your enthusiasm is understandable but *will* interfere with the rights of others to hear and may delay the program.

The Academic Procession

The President's Party forms the first section of the academic procession. Headed by the commencement marshal, it includes the president, members of the State Board of Regents and of the General Assembly, other platform-guests, and the vice-presidents, deans and other principal University officials.

The commencement marshal carries the University Mace, designed and fashioned for the Centennial Commencement in 1976 by Randall Swanson, at that time a freshman majoring in Industrial Arts. A traditional symbol of authority, the mace is a carved wood rod capped with ends of cast bronze, with the top carrying the seal of the University. The sterling silver chain worn by the president was also created for the Centennial Commencement. It was designed and constructed by Martin Peterson, then a junior majoring in art, and it memorializes the historical evolution of the University by carrying the seals of the Iowa State Normal School, the Iowa State Teachers College, the State College of Iowa, and the University of Northern Iowa.

The procession continues with the faculty. The heads of the departments come first, led by the chairperson of the faculty, and the chairperson of the Faculty Senate is the marshal for the remaining faculty.

When the members of the President's Party have arrived at their proper stations, they rise to honor the entrance of the candidates for degrees. Led by faculty marshals, the candidates enter with candidates for the highest degrees first. The candidates for the degree of Bachelor of Arts, both the Teaching Program and the Liberal Arts Program, enter in five groups, representing each of the four undergraduate colleges and the School of Business.

The banners which are carried with the candidates' procession were first used in 1977. They were designed by Bekka Lindstrom, at that time a sophomore majoring in Art. Ms. Lindstrom's explanation of the banner designs accompanies the symbols reproduced on page 36 of this program. The banners were fashioned by Phillip Elliott, who also designed the stage setting which you see before you. This was first used for the Centennial Commencement in 1976.

Students wearing gold cords are those graduating with highest honors, a distinction which requires a grade average of 3.75 (4.00 would be all A's).

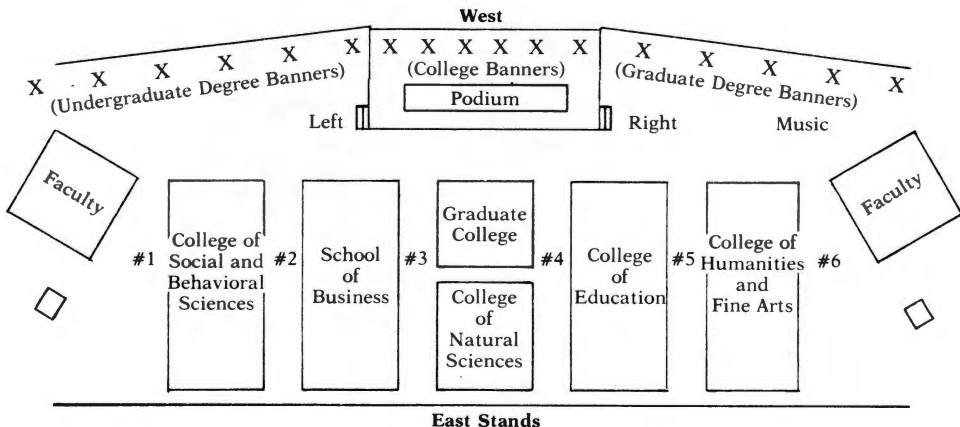

The academic costumes worn trace their origin to the Middle Ages when long-sleeved hooded gowns were necessary for warmth in the unheated stone colleges. Over the centuries, much diversity occurred, and to bring some order, in the United States in 1894 an intercollegiate system of academic costume was agreed on, now adhered to by more than 760 institutions. According to this code, both the styling and colors of the regalia have significance.

The design of the gown indicates the degree: the bachelor's is a simple gown with a full sleeve. The master's gown is much like it except for the long sleeve which hangs loose. The doctor's gown is fuller and more elaborate. It has velvet edging and three velvet stripes on the full sleeve. The color of this velvet may be black or in the color appropriate to the degree.

Hoods, which are worn over the gowns, are similar for all degrees, although differing slightly in length. The candidates for the bachelor's degrees usually do not wear the hood. The hood has a velvet edging which indicates the area of the degree, and the inside or lining of the hood is satin in the colors of the college or university granting the degree.

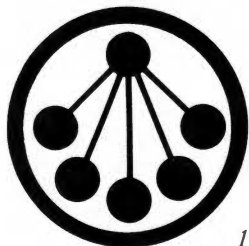

A partial list of the degree colors to be found on the edge of the hood or the trimming on the doctor's gown is as follows:

- | | | |
|-------------------------|---------------------------------|--------------------------|
| Apricot — Nursing | Drab — Business | Orange — Engineering |
| Blue, dark — Philosophy | Green — Medicine | Pink — Music |
| Blue, light — Education | Green Sage — Physical Education | Purple — Law |
| Brown — Fine Arts | Lemon — Library Science | Scarlet — Theology |
| Citron — Social Science | Maize — Agriculture | White — Arts and Letters |
| Copper — Economics | Maroon — Home Economics | Yellow, Golden — Science |

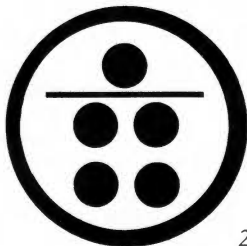

Banner Design

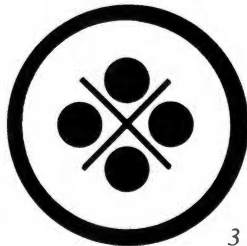

1. The education symbol used for the Specialist in Education and the Bachelor of Arts in Education degrees, as well as the College of Education, represents the teacher-student communication.
2. The symbol for the Master's degree represents further study beyond the first four years.
3. The four circles for the Bachelor of Arts degree denote four years of study.
4. The Bachelor of Music and Master of Music degrees are represented on a musical staff.
5. The symbol for the Bachelor of Technology and Doctor of Technology incorporates an industrial and mechanical motif.
6. The area of Business is symbolized by circles in a chain of growth and development.
7. The design of circles in a test tube represents the Sciences.
8. The symbol for the Fine Arts evolved from a color wheel and developed into a representation of all the arts and their common unity.
9. A symbol of the human mind represents the field of Social and Behavioral Sciences.
10. The centering represents the campus and the four circles represent all campus study for the Bachelor of Liberal Studies degree.
11. The symbol for the Specialist degree represents further study beyond the Master's level.
