My purpose in seeking the position of President of the Associated Students is to initiate a program of student leadership that will increase the level of efficiency of every branch of the Associated Students, by increasing interest and participation by each student, which will in turn aid in the academic, spiritual, and social development of the individual.

To accomplish this, I submit the following platform:

#### I. A Realistic Approach to Student Government by:

A. A re-evaluation of our form of student government in comparison to other systems used by other colleges, not for the purpose of changing the present government, but for the purpose of finding a more efficient way the Associated Students can function in the system we are now using.

B. Promoting the appointment of non-council members to Administrative Committees; giving the student body a broader representation.

C. Requiring monthly reports, to be given to the Associated Students President, from all council officers (Social Committee Chairman, Treasurer, Secretary, and Spiritual Outreach Director) and students holding positions on Administrative Committees.
