Frontiers in Academic Ebook Delivery

Deploying the Library-Driven Platform

Emma DiPasquale, University of Michigan Library Rob Cartolano, Columbia University Libraries James English, LYRASIS

Presentations

- Overview Rob Cartolano
- UMP EBC on Fulcrum Emma DiPasquale
- SimplyE for Academic Libraries- James English

Overview: Imagine a Better Academic Ebook

- Provide a better academic ebook experience for students and faculty
- Develop and deliver a *Library-Driven Platform*
- Do it together, at scale, at national level

What are Academic Ebooks?

- Licensed Ebooks University presses, academic publishers (e.g. Columbia University Press, University of Michigan Press, MIT Press, NYU Press), including enhanced academic ebooks
- **Digitized Collections** Library efforts to preserve and provide access to collections aggregated at Internet Archive, HathiTrust, etc.
- Open Access Academic Ebooks Knowledge Unlatched, University of Michigan Press, OAPen.org, etc.

Current State of Academic Ebooks

- Total Online Books at CU 3 million (see tinyurl.com/clio-online-books)
- Inconsistent user experience multiple vendors, interfaces, technology
- Vendors developed proprietary web interfaces, proprietary mobile apps
- Licensed and open content is not available via one interface
- Content is fragmented across multiple formats, DRM and non-DRM

It's like the pre-web era all over again. You will need Adobe Digital Editions

- Common data format (HTML)
- Common back-end (web server)
- Common protocol (HTTP)
- Common User Interface (Web browser)

You will need Bluefire Reader

PDFs for all chapters will be downloaded in a .zip file

We need an Open Technology Ecosystem for Academic Ebooks!

Every dollar we spend on multiple, overlapping vendor technology platforms is a dollar not spent on building our collections.

The Shift Towards Open Technology Ecosystem

- June 2015 \$786K Mellon Grant NYU-NYU Press Enhanced OA Monographs
- May 2016 IMLS Grant Minitex to enhance <u>SimplyE for Academic</u> (PDF)
- July 2016 NYPL Releases SimplyE
- Feb. 2017 W3C releases Web Annotation Standard
- October 2017 UMP releases Open Access Books
- May 2018 Fulcrum integrates Hypothesis Open Annotation
- August 2018 Publishing@W3C releases EPUB 3.2
- October 2018 Sloan Grant Imagine a Better Academic Ebook Experience
- Nov. 2018 OPDS 1.2 adds library lending support
- Nov. 2018 Lyrasis and U.Mich Launch Ebook Collection on Fulcrum
- Nov. 2018 MIT announces <u>PubPub</u> open ebooks, journals, research
- Dec. 2018 EDRLab improved <u>Readium LCP</u> proposed ISO standard
- January 2019 \$1.5M Sloan grant to move DPLA Exchange to production
- Feb. 2019 Internet Archive adds <u>library-specific OPDS Feeds</u>

Open Technology Ecosystem Must Support Academic Ebook "Essentials"

- 1. Common Method of Access simple, consistent, one login, mobile equal
- 2. Local Discoverability direct link in catalog with high-quality metadata
- 3. Search Download Read entire book in very few steps
- 4. Great Reading Experience fast page turns, simple UI, search, TOC, index
- 5. Scholar Tools citation, portable annotation
- 6. Library Branding, Reporting, Administration
- 7. Stop Proprietary Mobile App Proliferation

"Academic Readers First" Approach

Synchronize Bookmarks & Reading Position --on All Devices

University of Michigan Press Ebook Collection on Fulcrum

Emma DiPasquale University of Michigan Library

Fulcrum

- Open source, community-developed digital publishing platform
- Web-based reading experience (optimized for phone/tablet)
- Developed by University of Michigan Library and Michigan
 Publishing with support from the Mellon Foundation
- Committed to publishing scholarship in a flexible, durable, discoverable, and accessible form

University of Michigan Press Ebook Collection (UMP EBC)

- Comprehensive collection of academic ebooks developed by libraries for libraries
- Adheres to the Charlotte Initiative Principles:
 - All DRM-free, unlimited multi-user, perpetual access
- Includes open access books without charging
- Backlist includes over 200 titles that have been adopted for courses

Reading Experiences

- Fulcrum catering to swimmers & divers with enhanced, media-rich content
- Fulcrum provides the best possible experience with titles on web-based eereader

Skim Short synopses for the general reader

Swim Further information for the curious amateur

Dive Rich content for the scholarly researcher

A one time post, mixed madia artist, firmarker and high school English

Video excerpt from *Cat Lady*, written, directed, and performed by Joseph Keckler.

"I am *net* a cat lady," my mother declares, a bag of Whiskas under her arm and a Maine coon at her fers Cs. Be matches through the handry room to unsaver the lamater of a portly calico who is kept locked in the pantry. "No, you say out here, Don Diego," she cautions the Maine coon. "Mst. Gummidge has yet to reconcile hereaff to other cass. Thus the remains in self-imposed eath here in the pantry." My mother manages to slip into Gummidge's chamber without Don Diego, "Well, Gummidge, You didn't finish your whits allocces. Why didn't Gummidge finish here white allocces, pary call?" She directs the question to the calico, while referring to her in the third person—the way, in *Batman*, that. Alfred speaks to Bruce Wayne. *Mattr Wayw wither not nottrain any gutt* in *animige'*.

COLUMBIA UNIVERSITY LIBRARIES

First: Let's back-up for context

Source: Comscore

First: Let's back-up for context

Multi-platformers remain a majority in most markets % of Total Digital Audience by Platform (Desktop only, Multi-platform, Mobile only)

Multi-platform users (those who access online content via desktop and smartphone / tablet in a month) remain the majority overall, with an average across markets of 46% of the total population.

Mobile only usage now averages just above desktop only consumption with a cross-market average of 30%, driven heavily by large share in APAC markets, versus 24% for desktop only.

🔁 comScore.

24

First: Let's back-up for context

Apps Account for Over 80% of Mobile Time Share of Total Mobile Minutes by Browser / App

When considering mobile (smartphone and tablet) minutes in isolation, they are overwhelmingly dominated by app consumption – over 80% of all mobile time in the markets considered for this report.

Levels appear marginally higher in Latin America, with Argentina, Brazil and Mexico all falling within the top 5 of the markets shown here.

🗇 comScore.

Sloan-Funded Feasibility Study

- Steering Group: LYRASIS, Columbia, NYU, NYPL, DPLA, MIT Press, Minitex
- Tasks:
 - **Survey:** Winter 2019 collected survey data from 150+ libraries
 - **Research needs:** of faculty, students, libraries, publishers, aggregators
 - Conducting extensive conversations with academic community stakeholders
 - Identify use cases, stories, product and market scope
 - Meet with community participants to test and refine concepts
 - **Develop Proof of Concept:** as technology demonstrator, collect feedback
 - Develop technology & Community roadmap: for SimplyE platform to meet academic use cases
 - Develop Report & Plan: Present recommendations, pilot plan, business plan, governance model

Survey Results - Type of Institutions

Table 1. What type of institution do you represent?

Type of institution	Frequency
Large private university	16
Small private Liberal Arts college	13
Small or Medium state/Community College	72
Large State University	39
Consortium	11
Total	151

Survey Results - Media Type & Access Support

Question: Ranked Very Important or Most Important

- 78% (101/131) View Offline Entire Book PDF
- 73% (95/131) View Offline Chapter-by-Chapter PDF
- 27% (34/131) View Offline Entire Book EPUB
- 19% (24/131) View Offline Chapter-by-Chapter EPUB
- 8% (9/131) Listen (download/stream/sideload) Audio Books
- 2% (2/131) View Offline Other

Survey Results - User Experience - Top Features

Question: Select five most frequently used features by your academic ebook readers:

Most important features that represent **USE** of ebook as a source of information.

Next, features that are common to ebook platforms that readers expect from an EPUB. And, features that expected of a digital platform such as exportability. 29

adjustments

Survey Results - User Experience - Features

Question: Select five most frequently used features by your academic ebook readers:

Index (In-document link navigation from Index of key terms)	24 18%
Image viewing with pinch and zoom	19 14%
Links to external web sites	15 11%
Word definition or dictionary look-up	12 9%
Other (please specify)	9 7%

Lastly, features that are least used that are more research focused in nature but seem. However, the results may suggest they are least used because they are not typically available or supported by existing solutions.

Survey Results - Demographic Needs

Question: Select which groups most need simplified ebooks access. *Check all that apply.*

Opportunity: These results suggest that while digital natives are familiar with computers, the "tools of research" are not native to their digital upbringing where their digital literacy was more likely informed by "consumer" technology.

Survey Results - Device/Platform Requirements

Question: Indicated devices used for academic ebooks. Check all that apply.

Desktop/Laptop - Macintosh and/or Windows	99% 126
Tablet - iOS or Android Tablet	93% 118
Smart Phone - iOS and Android	92% 117
ChromeBook / Netbook	57% 73
Kindle Paperwhite (or other e-ink device)	32% 41

Opportunity: Clearly, the traditional computer now shares its importance in academia in the new age of **tablets** and **smartphones**.

Survey Results - ILS (Catalog) & Discovery Systems Integrations

Question: Identify your Integrated Library System (ILS).

- 24% (29/122) Alma
- 20% (25/122) OCLC WMS
- 20% (25/122) Innovative Interfaces - Sierra/Millennium
- 9% (11/122) SirsiDynix
- 8% (10/122) Voyager
- 8% (10/122) Aleph
- 2% (3/122) Koha
- 5% (6/122) Other

Question: Identify your Discovery Layer Integration.

- 34% (33/97) Primo
- 30% (29/97) EBSCO EDS
- 14% (14/97) OCLC
 WorldCat
- 6% (6/97) Summon
- 6% (6/97) Blacklight
- 6% (6/97) Other
- 1% (1/97) Multiple products

Question: Identify your web discovery platform.

- 32% (33/104) OCLC
 Worldcat
- 28% (29/104) EBSCO EDS
- 21% (22/104) Summon
- 13% (13/104) Primo
- 1% (1/104) Encore Duet
- 1% (3/104) Other
- 3% (3/104) Multiple products

Survey Results - Metadata

Question: Identify your catalog or discovery layer metadata integration requirements.

94% 113	MARC Bib record / Item record batch Import/export
30% 36	Application Programing Interface (e.g., JSON, XML, SOAP, Z39.50, etc.)
12% 14	Other (please specify)
5% 6	Onix Feed / file record import
3% 3	Not Applicable

Survey Results - Access Control

Question: Identify your ebook access control system integration needs.

- 29% (31/107) Shibboleth
- 12% (13/107) SAML/SAML 2
- 9% (10/107) ILS
- 7% (8/107) LDAP
- 7% (7/107) CAS
- 4% (4/107) EZProxy
- 3% (3/107) OpenAthens
- 1% (1/107) Ebscohost
- 12% (13/107) Other
- 15% (16/97) Multiple products

Question: Identify your ebook access control system integration needs, content hosting, license control

- 86% (86/100) EZProxy
- 4% (4/100) Adobe DRM & EZPRoxy
- 2% (2/100) Multiple Systems
- 2% (2/100) WAM
- 1% (7/100) EBSCO Ebooks
- 4% (4/100) NA/Don't Know
- 1% (1/107) Publisher platforms

Survey Results - Community Support Governance

Question: Importance of open source applications as part of your technology/service infrastructure.

Essential & Important	73	
Neither important or unimportant	28% 33	
Don't use open source software & Not	9%	
important	11	

Question: How your institution implements open source solutions.

A combination of externally and internally		60%
hosted platforms		69
Only hosted by external provider(s)	21% 24	
Not applicable - we don't use open source	16%	
software platforms and applications	18	

Survey Results - Open Source Ebook Delivery

Question: Under what conditions would you use open source ebook delivery platform. *Check all that apply*

It would improve my current ebook service experience	86% 99
It would help to change the status quo of academic ebook services	63% 73
It would reduce my cost of service	57% 66
It would augment my current systems	57% 65
It would meet my minimum/general needs	39% 45

Survey Results - Ebook Collection

Question: Size of Ebook Collection (e.g. ebooks indexed into discover and catalog)

	Total (n=111)
less than 10,000 titles	6%
	7
10,000 to 50,000 titles	12%
	13
50,000 to 100,000 titles	12%
	13
100,000 to 500,000 titles	45%
	50
More than 500,000 titles	25%
	28

Survey Results - Decision Makers vs Administrators

Question: Who chooses/selects ebook technology platform or service?

- 61% (70/115) Collections Development
- 13% (15/115) Administration
- 10% (11/115) Library IT
- 7 (8/115) Ebook Working Group
- 6% (7/115) Consortium/external provider
- 1% (1/115) Central IT
- 6% (7/115) Other

Question: Who administers ebook discovery and reading platforms?

- 58% (67/116) Collections Development
- 22% (25/116) Library IT
- 8% (9/116) Consortium/external provider
- 7 (8/116) Third-party vendor
- 3% (3/116) Group Effort
- 1% (1/116) Central IT
- 5% (6/116) Other

Survey Results - Ebook Providers

Question: Top Ten Providers of Ebooks

EBSCO	81% 95	Cambridge University Press	46% 54	Elsevier 29%
ProQuest	75% 89	Project MUSE	45% 53	ACLS 28% 33
JSTOR	61% 72	Taylor & Francis	32% 38	SAGE 25% 30
Oxford University Press	59% 70	HathiTrust	32% 38	O'Reilly Media
Springer Nature	58% 69	John Wiley & Sons	31% 37	American Psychological Association Books
Gale	46% 54	Credo Reference	31% 37	De Gruyter
