Don't Drink Potash and Mercury.

It is a wise precaution which a great many people every. where take in the spring to purify their blood, and tone up the general system. It is an absolute necessity to assist Nature in cleaning up the system and getting rid of the many impurities which have accumulated. This is the most enervating season of the entire year; demands are made upon the system which it can not supply unaided, and the result is a loss of energy and a general depressed feeling, and in many cases a breakdown comes with spring weather. To prepare for this trying season, it is eminently proper that a good blood remedy be taken to force out all impurities and tone up and strengthen the system. But great care should be exercised in selecting the remedy which is to perform this important work; no one would knowingly and willingly run the risk of taking a medicine composed of the most injurious and dangerous ingredients. This is a matter worth looking into, for no one wishes to take chances on a harmful remedy. It is a fact worth considering that

S.S.S. For Blood

is the only purely vegetable blood remedy made, and is the only one guaranteed to contain not a particle of potash, mercury, sulphur, arsenic, or any other mineral substance. S. S. S. is far ahead of other similar remedies, because of the results it produces, and it is in every way superior to them in the fact that every ingredient of which it is made is a vegetable one, gathered from Nature's forests; while all other blood remedies, no matter what else they contain, are composed of some dangerous mineral as their basis. Everybody knows the harmful effects of mercury, potash, sulphur, arsenic, etc., and no one wishes to pour these minerals into their stomach. There is absolute safety in S. S. S. (Swift's Specific), and, while it is perfectly harmless, it is the best blood remedy made, forcing out every impurity and building up and strengthening the system, rather than filling it with mineral mixtures which spread their injurious effects throughout the entire body, besides destroying the digestive organs. Get the best blood remedy, the one that is purely vegetable, backed by a forfeit of one thousand dollars if it contains the slightest trace of a mineral ingredient. Be fair to yourself and get the best blood remedy and purifier made-S. S. S. Remember that Swift's Specific is the only one

A Prisoner Waiting to be Hacked by Time's Scythe.

Thousands Whose Situations Are Scarcely Less Terrible May Easily and Readily Find Help.

A man lies flat on his back, bound so that he cannot move an inch. He is in a dungeon, at first dark as a well, but in a few min-

utes a light in the ceiling, far up, shows a mechanical figure of Time with his scythe. The figure descends slowly, the scythe swings, and the prisoner realizes that unless some unexpected help should come, he will be slowly cut to pieces. What followed is told by Edgar Allen Poe in the fantastic story called "The Pit and the Pendulum." The man awaiting the approach of a treadful death is a type of a large class of unfortunates who, entangled in the strangling coils of an octoous, have lost all hope of free dom. This monster is Morphine. Perhaps the victim is yet reveling in that glorious state of exhilaration which follows the first story, he has not noticed the light in the ceiling and is unaware of his danger. The Deering

The Pioneer

The Deering Harvester Co. were the first people to use BALLAND ROLLER BEARINGS in their Binders and Mowers. Their competitors hooted at the idea, but those that came to scoff remained to pray. Now they "all have 'em," but of course not in the perfection found in the Deering, which has had the benefit of several years experience with these bearings. The IMITATORS have got to learn and unlearn all the initial steps and stages of their use in machinery, while the Deering is "out of the woods," perfect and up to date. This Ninth Street. is a signal victory for the Deering and puts it far ahead of its rivals for the people appreciate progressiveness and push. That would have left both countries without diplomatic relations, and the President could not have sent his ultimatum through these regular channels.

The President was well aware of the scheme, and tried to frustrate it. Before Senor Polo was aware of anything he received the ultimatum a good while before he was officially or privately informed of the signing of the resolutions. The President had also cabled the ultimatum to Minister Woodford, who should have immediately laid it before the Sganish Minister.

His failure to do so puts the United States in a very awkward position. Communication Blocked.

internal ear imbedded in by what is far the hardest bone of the human system, a very rock of strength and defiance.

The ear so strange a contrivance that by the estimate of one scientist it can catch the sound of 73,700 vibrations in a second, the outer ear taking in all kinds of sound, whether the crash of an avalanche or the hum of a bee. The sound passing to the inner door of the human stranger and the polypoid growths from the inflamed auricle conditions and the inflamed auricle condition and that man who had not heard a sound that many years that night lieard the wash of the waves of Galilee against the limestone shelving. To show how much Christ thought of the human ear, when the apostle Peter got mad and with one slash of his sword dropped the ear of Malchus into the dust Christ crack.
