

Preliminary Survey Summary: Arabic and English Language use in Qatar

#1 Nationality and age responses

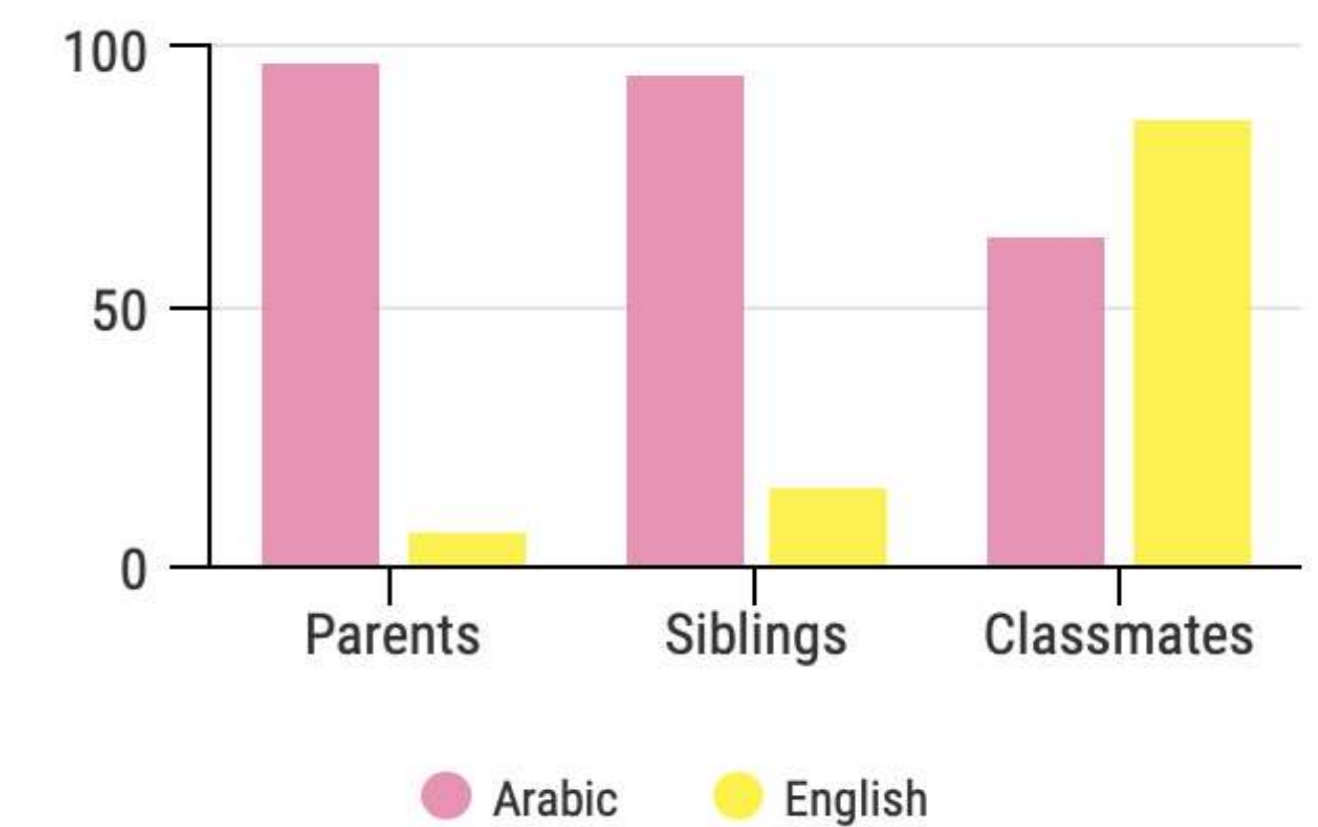

#2 How did you learn Arabic/ English?

The three most chosen answers were: Parents - School/work - Media.

#3 With whom do you communicate in Arabic/English?

The three most chosen answers were: Parents - Siblings - Classmates.

#4 Native Language

Arabic speakers

97%

Other speakers

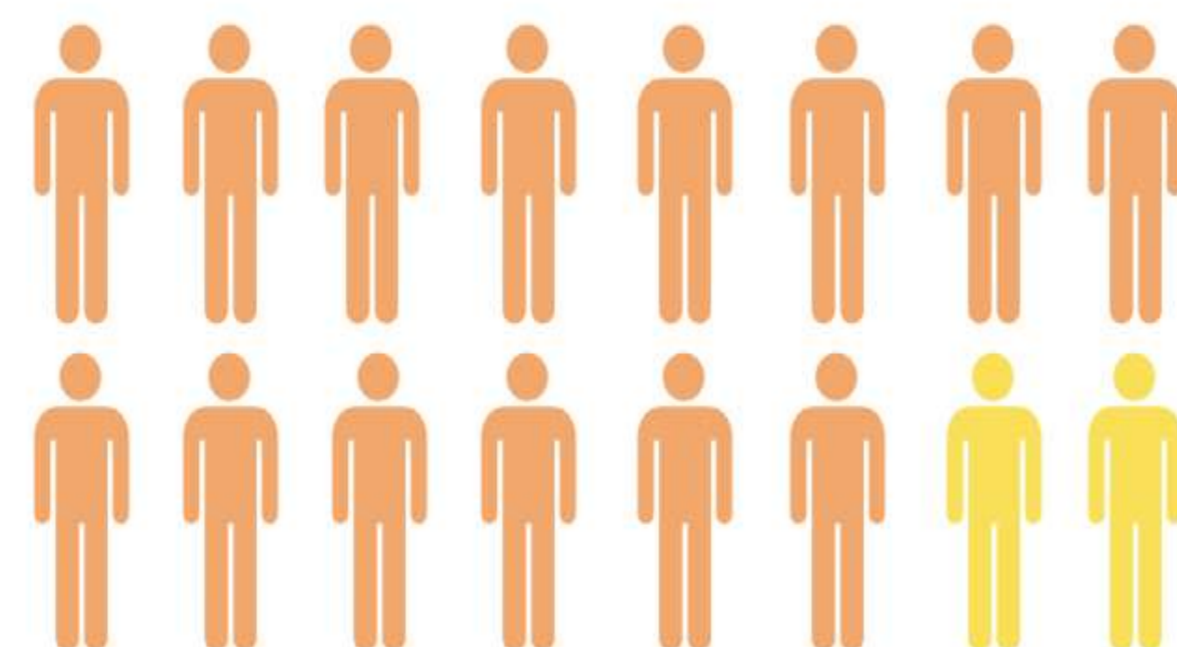

3%

English speakers

0%

The survey was distributed among Arabic natives and other natives.

We thought that English speakers will be more than Arabic speakers, but it turned out the other way.

#5 Conclusion

- The questions in the survey were very clear and easy for us to collect data.
- Using fewer questions was good because a lot of people did not want to waste time in answering.

Removing the check box in question 6 and 7 will give the survey more space. No one chose those answers.

- I did not learn English لم أتعلم اللغة الإنجليزية
- I did not learn Arabic لم أتعلم اللغة العربية
