

biblio.ugent.be

The UGent Institutional Repository is the electronic archiving and dissemination platform for all UGent research publications. Ghent University has implemented a mandate stipulating that all academic publications of UGent researchers should be deposited and archived in this repository. Except for items where current copyright restrictions apply, these papers are available in Open Access.

This item is the archived peer-reviewed author-version of: Sonoprinting of nanoparticle-loaded microbubbles: Unraveling the multi-timescale mechanism

Authors: Roovers S., Lojoinie G., De Cock I., Brans T., Dewitte H., Braeckmans K., Versuis M., De Smedt S.C., Lentacker I.

In: Biomaterials 217, Article Number: UNSP 119250

To refer to or to cite this work, please use the citation to the published version:
