Dear Colleague

**NHS FUNDED NURSING CARE IN CARE HOMES**

This collaborative research study is being undertaken by the Royal College of Nursing Institute and the Centre for Health Services Studies (CHESS), University of Warwick, funded by the Department of Health.

The study is investigating the experiences of key independent nursing home groups/person run homes involved in determination of residents eligible for free NHS funded nursing care. **THIS IS A HIGHLY IMPORTANT AREA OF RESEARCH.**

**What we would like from you**

We would like to speak to someone in your nursing home group who may be able to respond to a questionnaire, copy enclosed, by telephone interview held at your convenience. Information sought includes:

- Description of your home
- Determination activity data and outcomes, if available
- Appeals against the determination outcome
- Continence aids and specialist equipment use
- Confidence in RNCC tool used for assessing NHS contribution for nursing care
- Quality assurance processes
- Possible improvements to the determination process
- Staff training and resources
- Developing relationship with NHS

**What will happen next?**

We would like questions 1 to 6 to be completed by an appropriate senior nursing staff member of your home. Then we would like questions 7 to 10 to be completed by you, the manager.

**On completion**

Please return the questionnaire in the FREEPOST envelope enclosed with this letter within 3 weeks of receipt, if possible.

**Confidentiality**

All information will remain entirely confidential and no individual or organisation will be identified in the research report.

**Contact person**

Should you have any further questions regarding this request, please telephone or email the person below to discuss any aspect of this research.
